INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
SSM Health Care
St Louis, Missouri

We have audited the accompanying consolidated financial statements of SSM Health Care Corporation and its subsidiaries (the "Organization"), which comprise the consolidated balance sheets as of December 31, 2012 and 2011, and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Organization's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of SSM Health Care Corporation and its subsidiaries as of December 31, 2012 and 2011, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America

SSM HEALTH CARE

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2012 AND 2011 (Dollars in thousands)

1. ORGANIZATION AND PURPOSE

SSM Health Care (SSMHC) is a multi-institutional provider of health services comprised of SSM Health Care Corporation (SSMHCC) as the principal not-for-profit corporation which holds membership or stock ownership in other affiliated corporations. SSMHCC has been established as the parent corporation. Through its affiliated corporations, SSMHC owns and operates 18 acute care hospitals, one children's hospital, two long-term care facilities, and other health care businesses located primarily in Missouri, Oklahoma, Wisconsin, and Illinois. SSMHC also has exclusive affiliation agreements with six acute care hospitals. SSMHCC and most of its affiliated subsidiary corporations are organizations described in Section 501(c)(3) of the Internal Revenue Code (IRC). As such, they are exempt from federal income tax on income from activities related to their exempt purposes under IRC Section 501(a).

SSMHC is sponsored by the Franciscan Sisters of Mary. The President and Councilors of the Congregational Council of the Franciscan Sisters of Mary serve as the members of SSMHCC, which hold certain reserved powers over SSMHCC.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Presentation — The consolidated financial statements include the accounts of SSMHCC and all wholly owned, majority owned, and controlled entities, including the consolidated statements of SSMHC Liability Trust I and SSMHC Liability Trust II as described in Note 13. All significant intercompany balances and transactions have been eliminated in consolidation.

Cash and Cash Equivalents — Cash and cash equivalents include investments in highly liquid debt instruments with a maturity of three months or less when purchased.

Short-Term Investments — Short-term investments are measured at fair value and include liquid investments with original maturities at time of purchase of greater than three months and less than three years.

Financial Instruments — The carrying amounts of cash equivalents and unsettled investment transactions approximate fair value. Management's estimates of the fair value of other financial instruments are described elsewhere in the notes to consolidated financial statements. Investments reported as assets that are designated as limited as to use or restricted, short-term investments, and interest rate swaps are measured at fair value as described in Note 7. Long-term debt is measured at fair value as described in Note 11. Due to the volatility of the U.S. economy and the financial markets, there is uncertainty regarding the long-term impact market conditions will have on SSMHC's investment portfolio.

Patient Accounts Receivable — Patient accounts receivable are stated at estimated net realizable amounts from patients, third-party payors, and other insurers for services provided. Management periodically reviews the adequacy of the allowance for uncollectible accounts based on historical experience, trends in health care coverage, and other collection indicators. Reserves for charity and

uncollectible amounts have been established and are netted against patient accounts receivable in the consolidated balance sheets

SSMHC's mission is to provide exceptional health care services to all persons regardless of their ability to pay. After all payments, discounts and reasonable collection efforts have been exhausted, SSMHC follows established guidelines for placing certain past-due patient balances with collection agencies, subject to the terms of certain restrictions on collection efforts as determined by SSMHC. Accounts placed with collection agencies are written off and excluded from patient accounts receivable and allowance for doubtful accounts

Inventories — Inventories are stated at the lower of cost or market. Cost is determined principally using the first-in, first-out method.

Assets Limited as to use or Restricted — Assets limited as to use include investments and other assets set aside by the Board of Directors at their discretion for future capital improvements or for other purposes, and assets held in trust under bond indentures and self-insurance agreements. Unsettled investment transactions include receivables and payables from investment sales which are not settled until the following year. Assets restricted as to use include investments and other assets whose use is restricted by donors (temporarily or permanently).

Pooled Investments — SSMHC holds the majority of its investments in a pooled investment program which also includes the investments of its defined benefit plans as well as other smaller nonconsolidated entities. The earnings are allocated proportionately according to ownership percentages as defined in pooled investment agreements. The combined investments of SSMHC and its defined benefit plans account for over 99% of the pooled investments.

SSMHC has elected the fair value option for financial investments in limited partnerships and limited liability corporations made through its centralized investment program that would otherwise be recorded using either the cost or equity methods. SSMHC made this election in order to ensure that the accounting treatment of these investments was comparable between categories, regardless of the current organizational structure of the various investments.

Derivative Instruments — It is SSMHC's policy to provide sound stewardship of fiscal resources by effectively managing both the level of outstanding debt and the proportion of variable to fixed rate debt. Accordingly, SSMHC periodically enters into derivative arrangements to manage interest rate risk related to variable rate debt.

SSMHC records derivative instruments as either an asset or liability measured at its fair value (Note 7). The estimated fair value of interest rate swap instruments has been determined using available market information and valuation methodologies, primarily discounted cash flows.

The net change in the fair value is recorded as a nonoperating gain or loss. The difference between the actual amount paid and the actual amount received on all interest rate swaps is accrued and recognized as an adjustment to interest expense. Collateral is reported as a separate asset rather than an offset to the fair value of interest rate swaps.

Securities Lending Program — SSMHC participates in securities lending transactions with its custodian whereby SSMHC lends a portion of its investments to various brokers in exchange for collateral for the securities loaned, usually on a short-term basis. SSMHC maintains effective control of the loaned securities through its custodian during the term of the arrangement in that they may be recalled at any time. Collateral received from brokers must equal at least 100% of the original market

value of the securities on loan, and is subsequently adjusted for market fluctuations. SSMHC must return to the borrower the original value of collateral received regardless of the impact of market fluctuations. The collateral is invested in a pool maintained by the custodian. Under the terms of the agreement, the borrower must return the same, or substantially the same, investments that were borrowed.

The securities on loan under this program are recorded as assets whose use is limited. The market value of collateral held for loaned securities is reported as collateral held under securities lending program which is recorded in assets whose use is limited, and an obligation is recorded in current liabilities for repayment of collateral upon settlement of the lending transaction.

Property and Equipment — Property and equipment acquisitions are recorded at cost or, if donated or impaired, at fair value at the date of receipt or impairment. Depreciation expense is determined using the straight-line method over the estimated useful life of the asset: 5 to 25 years for land improvements, 5 to 40 years for buildings, and 3 to 20 years for equipment. Equipment under capital leases is amortized using the straight-line method over the shorter of the lease term or the estimated useful life of the equipment. Such amortization is included in depreciation and amortization expense. Capitalized software costs and related amortization expense are reported as a component of property and equipment. Interest costs incurred on borrowed funds during construction periods are capitalized as a component of the asset cost.

SSMHC periodically evaluates property and equipment to determine whether assets may have been impaired. The evaluations address the estimated recoverability of the assets' carrying value. Such analyses require various valuation techniques using management assumptions, including estimates of future cash flows. As a result, there is at least a reasonable possibility that recorded estimates of fair value and impairment will change by a material amount.

Deferred Financing Costs — Deferred financing costs are amortized using the effective interest rate method over the term of the related obligation.

Intangibles — Goodwill represents the excess of costs over the fair value of assets of businesses acquired. Goodwill acquired in business combinations is not amortized, but instead is subject to impairment tests performed at least annually. Goodwill is evaluated for possible impairment at the reporting unit level at least annually or whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable. Goodwill is evaluated for possible impairment by comparing the fair value of a reporting unit with its carrying value, including the goodwill assigned to that reporting unit. Fair value of a reporting unit is estimated using a combination of income-based and market-based valuation methodologies. Under the income approach, forecasted cash flows of a reporting unit are discounted to a present value using a discount rate commensurate with the risks of those cash flows. Under the market approach, the fair value of a reporting unit is estimated based on the revenues and earnings multiples based on recent transactions involving comparable entities. An impairment charge is recorded if the carrying value of the goodwill exceeds its implied fair value. The determination of a reporting unit's fair value requires management to make significant assumptions regarding estimated future cash flows and long-term growth rates. As a result, there is at least a reasonable possibility that recorded estimates of fair value and impairment will change. The annual goodwill impairment analyses completed in 2012 and 2011 resulted in no impairment losses.

Intangible assets include a tradename, non-compete agreements and other intangible assets acquired from independent parties. Intangible assets with a definite life are amortized on a straight-line basis, with estimated useful lives ranging from one to 20 years. Amortization of intangibles is included in depreciation and amortization expense. SSMHC reviews the carrying value of its amortizable intangible assets only when impairment indicators are present. SSMHC evaluates intangible assets for impairment

by comparing the estimates of undiscounted future cash flows to the carrying values of the related assets. Indefinite-lived intangible assets are evaluated for possible impairment at least annually or whenever events or changes in circumstances indicate the asset might be impaired. There were no impairments identified during 2012 or 2011.

Investments in Unconsolidated Entities — Investments in unconsolidated entities, other than the limited partnership and limited liability corporations in the pooled investment program, are accounted for under the cost or equity method of accounting, as appropriate. SSMHC utilizes the equity method of accounting for its investments in unconsolidated entities over which it exercises significant influence. SSMHC's equity income or loss on these investments is recorded as other revenue. SSMHC evaluates these investments for other-than-temporary impairment in accordance with accounting standards for equity method investments.

Other Liabilities — Other liabilities include various deferred compensation plans and the underfunded status of SSMHC's pension plans which represents the value of the projected benefit obligation over the fair value of plan assets. The pension plan obligations and plan assets are measured as of December 31.

In 2012, SSMHC recorded \$22,969 to decrease other liabilities and increase unrestricted net assets due to recognition of the change in the underfunded status of the plan. The gain was a result of plan amendments as described in Note 12, offset by the impact of the declining discount rate. In 2011, SSMHC recorded \$121,623 to increase other liabilities and decrease unrestricted net assets due to recognition of the change in the underfunded status of the plan caused by the increase in the projected benefit obligation due to the declining discount rate.

Temporarily and Permanently Restricted Net Assets — Temporarily restricted net assets are those whose use by SSMHC has been limited by donors to a specific time period or purpose. These assets are restricted for funding a specific program, capital projects, and other purposes. Permanently restricted net assets have been restricted by donors to be maintained by SSMHC in perpetuity. They are generally restricted to provide ongoing income for a specific program.

Noncontrolling Interests — The consolidated financial statements include all assets, liabilities, revenue, and expenses of less than 100% owned or controlled entities. SSMHC controls in accordance with applicable accounting guidance. Accordingly, SSMHC has reflected a noncontrolling interest for the portion of net assets not owned or controlled by SSMHC separately on the consolidated balance sheets.

Net Patient Service Revenues — SSMHC recognizes net patient service revenue before provision for bad debt in the period in which services are provided. SSMHC has agreements with payors that provide for payments at amounts different from established charges. The basis for payment under these agreements includes prospectively determined rates, cost reimbursement, and negotiated discounts from established charges.

Net patient service revenues are reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments due to future audits, reviews, and investigations. The differences between the estimated and actual adjustments are recorded as part of net patient service revenues in future periods, as the amounts become known, or as years are no longer subject to such audits, reviews, and investigations.

Capitated Contracts — SSMHC has capitated contracts with health maintenance organizations. Under these arrangements, SSMHC receives capitation premiums based on the demographic characteristics of covered members in exchange for providing comprehensive medical services for those members.

SSMHC recorded capitated revenues of \$10,370 and \$10,563 for the years ended December 31, 2012 and 2011, respectively. Capitation revenues are included in net patient service revenues.

Effective January 1, 2011, SSMHC and Dean Health Systems, Inc. entered into a new risk sharing arrangement for certain health care services provided to members of Dean Health Insurance, Inc. and Dean Health Plan, Inc. Under the risk sharing arrangement, a percentage of the Dean Health Insurance, Inc. and Dean Health Plan, Inc. premiums are paid into various pools for which SSMHC assumes a portion of the risk. Payments are made from the pools for certain covered services. SSMHC receives disbursements from the pools for their share of the accumulated surplus or pays into the pools for their share of the accumulated deficit. Total payments received during the year ended December 31, 2012 and 2011, for services, net of accumulated deficits, were \$133,612 and \$131,835, respectively, which are included within net patient service revenues. During the year ended December 31, 2011, SSMHC also received service incentive fees totaling \$2,639 which represented retroactive adjustments from the previous risk sharing arrangement with Dean Health Systems, Inc. This amount is included in net patient service revenues.

Investment Income — Most investment income is reported as nonoperating gains or losses. Investment income on funds held in trust for self-insurance purposes and unrestricted funds held by foundations is included in other operating revenue. The cost of investments sold is based on the specific-identification method.

Investment income on investments of donor-restricted funds, other than endowments, is included in excess of revenues over expenses unless the income or loss is restricted by donors. Investment income that is restricted by the donor is recorded directly to temporarily or permanently restricted net assets, in accordance with the donor-imposed restrictions.

SSMHC values hedge funds, real estate investments, and partnership interests at fair value. Gains and losses on these investments are included in nonoperating investment income unless it is restricted by donors.

SSMHC classifies its debt and equity securities as trading securities. Changes in the fair values of trading securities are recorded in the excess of revenues over expenses.

The change in unrealized gains and losses on investments recorded as a change in unrestricted net assets includes the unrealized gains or losses related to investments available for sale at equity method investees.

Contributions — Contributions, including unconditional promises to give, are recognized at their fair value at the time of receipt. For financial reporting purposes, SSMHC distinguishes between contributions that are unrestricted, temporarily restricted, or permanently restricted based on the restrictions placed on their use by the donors. Contributions restricted for additions to property and equipment are recorded as temporarily restricted assets. When the restrictions have been met, these temporarily restricted contributions are recorded as net assets released from restrictions for property acquisitions. Contributions temporarily restricted for other purposes are reported as temporarily restricted contributions if the restrictions are not met in the same reporting period. When such donor-imposed restrictions are met in subsequent reporting periods, they are reported as net assets released from restrictions and an increase to unrestricted net assets. Contributions of assets that donors have stipulated must be maintained permanently, with only the income earned thereon available for use, are classified as permanently restricted assets. Contributions for which donors have not stipulated restrictions are reported as other revenue.

Endowment assets include donor-restricted funds that SSMHC must hold in perpetuity or for a donor-specified period. SSMHC preserves the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. SSMHC classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and, if applicable, (c) accumulations to the permanent endowment made in accordance with specific donor instructions. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the SSMHC entity that received the donation. SSMHC considers the following factors in making determinations to appropriate or accumulate donor-restricted endowment funds:

- a. State law
- b. The duration and preservation of the fund
- c. The purposes of the donor-restricted endowment funds and how they relate to SSMHC's priorities for carrying out its mission within the communities it serves
- d. General economic conditions
- e. The possible effects of inflation and deflation
- f. The expected total return from income and the appreciation of investments
- g. Other resources available to the entity and its beneficiary, if applicable
- h. The investment policies of the entity

Electronic Health Record Incentives — Under certain provisions of the American Recovery and Reinvestment Act of 2009 (ARRA), federal incentive payments are available to hospitals, physicians and certain other professionals (Providers) when they adopt, implement or upgrade (AIU) certified electronic health record (EHR) technology or become "meaningful users," as defined under ARRA, of EHR technology in ways that demonstrate improved quality, safety and effectiveness of care. Providers can become eligible for annual Medicare incentive payments by demonstrating meaningful use of EHR technology in each period over four periods. Medicaid providers can receive their initial incentive payment by satisfying AIU criteria, but must demonstrate meaningful use of EHR technology in subsequent years in order to qualify for additional payments. Hospitals may be eligible for both Medicare and Medicaid EHR incentive payments, however, physicians and other professionals may be eligible for either Medicare or Medicaid incentive payments, but not both. Hospitals that are meaningful users under the Medicare EHR incentive payment program are deemed meaningful users under the Medicaid EHR incentive payment program and do not need to meet additional criteria imposed by a state. Medicaid EHR incentive payments to Providers are 100% federally funded and administered by the states. The Centers for Medicare and Medicaid Services (CMS) established calendar year 2011 as the first year states could offer EHR incentive payments. Before a state may offer EHR incentive payments, the state must submit and CMS must approve the state's incentive plan.

SSMHC recognizes Medicaid EHR incentive payments in its consolidated statements of operations for the first payment year when (1) CMS approves a state's EHR incentive plan, and (2) its hospital or employed physician acquires certified EHR. Medicare and Medicaid EHR incentive payments for subsequent payment years are recognized in the period during which the specified meaningful use criteria are met. SSMHC recognizes Medicare EHR incentive when (1) the specified meaningful use

criteria are met, and (2) contingencies in estimating the amount of the incentive payments to be received are resolved. During the years ended December 31, 2012 and 2011, certain of SSMHC's hospitals satisfied the CMS AIU and/or meaningful use criteria. As a result, SSMHC recognized approximately \$4,470 and \$13,037 of Medicaid EHR incentive payments as other revenue for the years ended December 31, 2012 and 2011, respectively. SSMHC's hospitals recognized \$14,209 of Medicare EHR incentive payments as other revenue for the year ended December 31, 2012.

Performance Indicator — The consolidated statements of operations and changes in net assets include excess of revenues over expenses as SSMHC's performance indicator. Changes in unrestricted net assets that are excluded from excess of revenues over expenses, consistent with industry practice, include changes in unrealized gains and losses on investments, net of available for sale investments held by equity investees, permanent transfers of assets to and from affiliates for other than goods and services, contributions of long-lived assets (including assets acquired using contributions that by donor restriction were to be used for the purpose of acquiring such assets), and pension related changes other than net periodic pension cost.

Consolidated Statements of Operations — For purpose of display, transactions deemed by management to be ongoing, major, or central to the provision of health care and related services are reported as operating revenue and expenses. Peripheral or incidental transactions are reported as nonoperating gains and losses.

Income Taxes — SSMHC evaluates its uncertain tax positions on an annual basis. A tax benefit from an uncertain tax position may be recognized when it is more likely than not that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, based on the technical merits. There have been no uncertain tax positions recorded in 2012 or 2011.

SSMHC has net operating loss (NOL) carry forwards available related to unrelated business income and to its for-profit subsidiaries. SSMHC fully reserves these carry forwards because it does not anticipate earning future profits. The amount of the carry forwards available for 2012 and 2011 was \$429,662 and \$379,124, respectively.

Use of Estimates — The preparation of the consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Non-Cash Transactions — During the years ended December 31, 2012 and 2011, SSMHC had the following non-cash transactions:

	2012	2011
Collateral received (refunded) under securities lending program	\$ 22,300	\$ 34,265
Property and equipment purchases included in accounts payable	19,618	22,078
Investment in unconsolidated entities included in long-term debt	8,648	4,000
Capital leases	-	65

New Accounting Pronouncements — In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2012-05, *Statement of Cash Flows (Topic 230), Not-for-Profit Entities: Classification of the Sale Proceeds of Donated Financial Assets in the Statement of Cash Flows* (ASU 2012-05) to address diversity in practice about how to classify cash receipts arising

from the sale of certain donated financial assets, such as securities, in the statement of cash flows of not-for-profit entities. The adoption of ASU 2012-05 is effective prospectively as of January 1, 2013. The adoption of ASU 2012-05 is not expected to have a material impact on SSMHC's consolidated financial statements.

In July 2012, the FASB issued ASU 2012-02, *Intangibles – Goodwill and Other (Topic 350), Testing Indefinite-Lived Intangible Assets for Impairment*, (ASU 2012-02) which permits an entity to first assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform the quantitative impairment test as described in Topic 350. ASU 2012-02 is effective for SSMHC as of January 1, 2013. The adoption of ASU 2012-02 is not expected to have a material impact on SSMHC's consolidated financial statements.

In September 2011, the FASB issued ASU 2011-08, *Intangibles – Goodwill and Other (Topic 350), Testing Goodwill for Impairment*, (ASU 2011-08) which simplifies how entities test goodwill for impairment. ASU 2011-08 permits entities to first assess qualitative factors to determine whether it is more likely than not that the fair value of a reporting unit is less than its carrying value as a basis for determining whether it is necessary to perform the two-step goodwill impairment test. The adoption of ASU 2011-08 was effective for SSMHC as of January 1, 2012 and did not have a material impact on SSMHC's consolidated financial statements.

In July 2011, the FASB issued ASU No. 2011-07, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and Allowance for Doubtful Accounts for Certain Health Care Entities* (ASU 2011-07) which amended Accounting Standards Codification (ASC) No. 954, *Health Care Entities* (ASC 954) to provide greater transparency regarding a health care entity's net patient revenue and the related allowance for doubtful accounts. ASU 2011-07 requires certain health care entities to change the presentation of the provision for bad debts associated with patient service revenue by reclassifying the provision from operating expenses to a deduction from net patient revenue if the organization does not evaluate the patient's ability to pay before providing services and recognizing revenue and requires enhanced disclosures about net patient revenue and the policies for recognizing revenue and assessing bad debts. The adoption of ASU 2011-07 was effective for SSMHC as of January 1, 2012 and was applied retrospectively to the year ended December 31, 2011. The adoption of ASU 2011-07 did not have a material impact on SSMHC's consolidated financial statements other than the reclassification of bad debts from total operating expenses to a reduction of net patient revenue.

In May 2011, the FASB issued ASU No. 2011-04, *Fair Value Measurements (Topic 820), Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs* (ASU 2011-04), which amended ASC No. 820, *Fair Value Measurement* (ASC 820) to change the wording used to describe many of the requirements in U.S. GAAP for measuring fair value and for disclosing information about fair value measurements. The adoption of ASU 2011-04 was effective for SSMHC as of January 1, 2012 and did not have a material impact on SSMHC's consolidated financial statements.

3. UNCOMPENSATED CARE

In line with its mission, SSMHC provides services to patients without regard to their ability to pay for those services. For some of its patient services, SSMHC receives no payment or payment that is less than the full cost of providing the services.

SSMHC voluntarily provides free care to patients who are unable to pay for all or part of their health care expenses as determined by SSMHC's criteria for financial assistance. Because SSMHC does not

pursue collection of amounts determined to qualify as charity care, they are not reported as patient service revenues

In some cases, SSMHC does not receive the amount billed for patient services even though it did not receive information necessary to determine if the patients met the criteria for financial assistance

The estimated cost of charity care and the cost of doubtful accounts are as follows. The estimated costs are calculated using the costs of providing patient care divided by gross patient service revenue. This ratio is then multiplied by the gross charity and doubtful charges to determine estimated costs.

	2012	2011
Cost of charity care	\$95,484	\$78,002
Cost of doubtful accounts	69,954	56,729

SSMHC also commits significant time and resources to activities and critical services that address unmet community needs. Many of these activities are sponsored with the knowledge that they will not be self-supporting or financially viable. Such programs include health screenings and assessments, prenatal education and care, hospice, support for residences for homeless persons, trauma care, community health education and various support groups.

4. NET PATIENT SERVICE REVENUES

A significant portion of SSMHC's revenue is generated under agreements with Medicare and Medicaid. Payments for services covered by Medicare are based on federal regulations specific to the type of service provided. Medicare pays for most services at a prospective rate. Hospital facilities that meet certain requirements receive additional funds in partial payment for the cost of medical education and caring for the indigent. The rates for services covered by Medicaid are determined by the regulations of the state in which the beneficiary is a resident. Medicare and Medicaid regulations are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount.

SSMHC has an estimation process for recording Medicare net patient service revenue and estimated cost report settlements. Accruals are recorded to reflect the expected final cost report settlements. Accruals are based upon filed cost reports or an estimate of what is expected to be reported on cost reports not yet filed.

In addition, SSMHC has negotiated contracts with certain other third-party payors. Revenues under these contracts are based primarily on payment terms involving predetermined rates per diagnosis, per-diem rates, discounted fee-for-service rates and other similar contractual arrangements. SSMHC estimates the discounts for contractual allowances at the individual hospital level utilizing billing data on an individual patient basis. On a monthly basis, an estimate is made of the expected reimbursement for patients of managed care plans based on the applicable contract terms.

SSMHC provides discounts on charges for hospital services to all patients without insurance and who do not receive their health care services under Medicare, Medicaid or a public aid program. The discount varies by geographical location, primarily based on the discounts negotiated with SSMHC private third-party payors in that location. The total discounts provided to uninsured patients under this policy were \$205,362 and \$167,491 for the years ended December 31, 2012 and 2011, respectively, and are included as a reduction in net patient service revenues. If it is determined that an uninsured patient is eligible for a charity discount for hospital services, the charity discount will be taken after the discount for uninsured patients has been applied.

SSMHC participates in assessment programs in the four states in which it operates. For the year ended December 31, 2012, SSMHC recognized \$191,375 in revenue and \$136,319 in expenses relating to these programs. For the year ended December 31, 2011, SSMHC recognized \$152,050 in revenue and \$115,667 in expenses relating to these programs. The revenue is included in net patient service revenues and the expenses are included in professional fees and other expenses.

The table below shows the sources of net patient service revenue before provision for bad debt.

	2012	2011
Medicare	\$ 907,218	\$ 841,689
Medicaid	479,091	430,005
Managed Care	1,501,064	1,399,195
Other	<u>341,774</u>	<u>266,728</u>
Net patient service revenue before provision for bad debt	<u>\$3,229,147</u>	<u>\$2,937,617</u>

A summary of SSMHC's Medicare, Medicaid and managed care utilization percentages, based upon gross patient service revenues was as follows:

	2012	2011
Medicare	33 %	33 %
Medicaid	12	12
Managed care	45	45
Other	<u>10</u>	<u>10</u>
	<u>100 %</u>	<u>100 %</u>

In 2012 and 2011, net patient service revenues increased by \$32,466 and \$6,094, respectively, relating to changes in estimates for prior years' settlements from Medicare, Medicaid and other programs, including \$24,236 in 2012 for settlement of an appeal with CMS related to underpayments that occurred between 1998 and 2011 as a result of errors in the Medicare inpatient wage index calculation.

5. CONCENTRATION OF CREDIT RISK

SSMHC provides health care services through its inpatient and outpatient care facilities located in their respective communities. SSMHC attempts to collect amounts due from patients, including co-payments and deductibles for patients with insurance, at the time of service while complying with all federal and state laws and regulations, including the Emergency Medical Treatment and Active Labor Act (EMTALA). Generally, as required by EMTALA, patients may not be denied emergency treatment due to the inability to pay. In non-emergency circumstances or for elective procedures, SSMHC's policy is to verify insurance prior to treatment, however, exceptions can occur. SSMHC generally does not require collateral or other security in extending credit to patients, however, it routinely obtains assignment of (or is otherwise entitled to receive) patients' benefits payable under their health insurance programs, plans or policies (e.g., Medicare, Medicaid, health maintenance organizations, and commercial insurance policies).

SSMHC records an allowance for uncollectible accounts by establishing an allowance to reduce the carrying value of receivables to their estimated net realizable value. This allowance is calculated on an individual hospital basis and is based upon the aging of accounts receivable by payor class, historical

collection experience and other relevant factors. SSMHC has not changed its charity care, allowance for uncollectible accounts or uninsured discount policies during the years ended December 31, 2012 and 2011. The allowance for uncollectible accounts increased \$33,890 from \$87,037 at December 31, 2011 to \$120,927 at December 31, 2012. This increase was primarily due to increased volumes of self-pay patients as well as co-payments and deductibles for patients with insurance. SSMHC does not maintain a material allowance for uncollectible accounts from third-party payors.

The mix of net receivables from patients and third-party payors as of December 31, 2012 and 2011, was as follows:

	2012	2011
Medicare	26 %	23 %
Medicaid	15	13
Managed care	43	47
Other	<u>16</u>	<u>17</u>
	<u>100 %</u>	<u>100 %</u>

6. ASSETS LIMITED AS TO USE OR RESTRICTED

The SSMHC Board of Directors has designated the accumulation of certain funds for future replacement of property and equipment, other capital improvements, debt retirement, and other purposes. Additionally, under the terms of the indentures for various bond issues, funds held by trustees have been established and legally designated for debt service.

A summary of assets limited as to use or restricted as of December 31, 2012 and 2011, is as follows:

	2012	2011
Assets limited as to use		
Board designated for property and equipment, long-term employee benefit programs, and other	<u>\$ 1,610,955</u>	<u>\$ 1,494,850</u>

The collateral held for the securities loaned and related payable of equal value at December 31, 2012 and 2011, were \$197,188 and \$174,888, respectively

The securities on loan are included in the following classifications

	2012	2011
Equity securities	\$ 39,700	\$ 109,061
Government securities	133,306	27,783
Corporate obligations	<u>20,704</u>	<u>33,628</u>
Total	<u>\$ 193,710</u>	<u>\$ 170,472</u>

SSMHC recorded net investment income of \$1,225 and \$935 on these transactions for the years ended December 31, 2012 and 2011, respectively. Net investment income represents the amount received as investment income on the securities received as collateral, offset by the fees paid to the various brokers and the investment earnings on the securities loaned to the brokers

7. FAIR VALUE MEASUREMENTS

SSMHC defines fair value as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities should include consideration of non-performance risk including SSMHC's own credit risk.

The fair values of all assets and liabilities recognized or disclosed at fair value are classified based on the lowest level significant inputs. SSMHC used the following methods to determine fair value:

Level 1 — Quoted prices (unadjusted) in active markets for identical assets or liabilities that SSMHC has the ability to access on the report date.

Level 2 — Inputs (financial matrices, models, valuation techniques) other than quoted market prices included in Level 1, that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability. Such observable inputs include benchmarking prices for similar assets in active, liquid markets, quoted prices in markets that are not active and observable yields and spreads in the market. SSMHC's Level 2 assets and liabilities include investment securities with quoted prices that are traded less frequently than exchange-traded instruments and derivative contracts whose values are determined using market standard valuation techniques. This category primarily includes corporate obligations and government securities, among others. Level 2 valuations are generally obtained from third party pricing services for identical or comparable assets or liabilities. Prices from services are validated through analytical reviews and assessment of current market activity. Interest rate swaps are valued using discounted future cash flows.

Level 3 — Inputs (such as professional appraisals, quoted prices from inactive markets that require adjustment based on significant assumptions or data that is not current, data from independent sources) that are unobservable for the asset or liability. SSMHC holds investments in real estate funds, hedge funds, and partnership interests. The real estate funds invest in real estate investment trusts and

commercial real estate, diversified by geographical location and use. The hedge funds invest in funds that hold various types of debt and equity securities.

For the years ended December 31, 2012 and 2011, a majority of the hedge funds, real estate investments, and partnership interests are recorded at the net asset value (NAV), which is the estimated fair value of the investments.

Following is a summary of assets and liabilities measured at fair value on a recurring basis by the level of significant input:

It is SSMHC's policy that transfers between Levels will occur when revised information regarding the lowest level of significant inputs becomes available. During 2011, additional information became available regarding certain international mutual fund investments and management determined that mutual funds previously classified as Level 3 should be classified as Level 2. As of January 1, 2011, SSMHC transferred \$51,290 from Level 3 to Level 2. Transfers out of Level 3 represent existing assets that were previously categorized as Level 3 for which the lowest significant input became observable during the period.

Changes related to the fair values based on Level 3 inputs for the years ended December 31, 2012 and 2011, are summarized as follows:

	2012	2011
Assets		
Beginning balance	\$ 332.810	\$ 221.747
Total gains (losses)	16.011	(8.479)
Purchases	15.696	187.615
Sales	(50.634)	(16.783)
Transfers out	-	(51.290)
Ending balance	<u>\$ 313.883</u>	<u>\$ 332.810</u>

Unrealized gains (losses) on Level 3 investments were \$15,249 and \$(7,575) for 2012 and 2011, respectively, and are recorded as nonoperating investment income

The hedge funds, real estate investments, and partnership interests are redeemable at NAV under the original terms of the agreements. However, it is possible that these redemption rights may be restricted or eliminated by the funds in the future in accordance with the underlying fund agreements. Due to the nature of the investments held by the funds, changes in market conditions and the economic environment may significantly impact the net asset value of the funds and, consequently, the fair value of SSMHC's interests in the funds. Although a secondary market exists for these investments, it is not active and individual transactions are typically not observable. When transactions do occur in this limited secondary market, they may occur at discounts to the reported net asset value. It is therefore reasonably possible that if SSMHC were to sell these investments in the secondary market a buyer may require a discount to the reported net asset value, and the discount could be significant. As such, SSMHC has classified these as level 3 investments. In addition, the unfunded commitments to these funds are \$8,830 and \$10,078 at December 31, 2012 and 2011, respectively. Assets recorded at NAV at December 31, 2012, are as follows:

December 31, 2012

	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Hedge funds (a)	\$ 177,050	\$ -	quarterly	30–100 days

- (a) This category includes investments in hedge funds that maintain positions both long and short in equity and equity derivative securities. A wide variety of investment processes can be employed to arrive at an investment decision, including both quantitative and fundamental techniques, and the managers can maintain net long or net short exposure levels based on market views. The strategy designs a diversified portfolio of managers and strategies with the objective of significantly lowering the risk and volatility of investing with an individual manager.
- (b) This category includes investments in a limited partnership interest that invests in multiple long-short, market-neutral equity hedge fund managers. The investment is designed to achieve consistent market returns across all market cycles and mitigate market directional portfolio risk through maintaining low net exposure.

- (c) This category includes investments in real estate funds that invest in the following underperforming and distressed real estate assets at well below potential replacement cost and which create significant value-added upside through extensive repositioning and capital improvements, distressed real estate and real estate-related debt, companies, securities, and other assets, high quality properties in major metropolitan areas, participating mortgages secured by core real estate properties. Investments in real estate are valued based upon independent appraisals using a cost approach, market approach or income approach as well as consideration of other third party evidence

SSM Health Care Master Indenture — SSMHCC is a member of the SSM Health Care Credit Group (Credit Group) and the only Obligated Group Member pursuant to a Master Trust Indenture (amended and restated) dated May 15, 1998. SSMHC corporations not included in the Credit Group include a variety of entities consisting primarily of foundations, medical office building corporations, employed physician practices, and various other corporations involved in activities supporting SSM Health Care. Certain of SSMHC's affiliates are "Designated Affiliates" under the Master Trust Indenture. The net assets of the Designated Affiliates are available to SSMHCC to service all obligations under the Master Indenture. Various issuing authorities have issued tax-exempt revenue bonds under the Master Trust Indenture. The payment of Series 2002B, 1998B, 1992A, which aggregate \$144,875 and \$149,775 at December 31, 2012 and 2011, respectively, is insured by municipal bond insurance policies. The remaining bonds are uninsured. All Master Indenture debt is subject to certain debt covenants, including, among other things, the maintenance of certain cash balances and other financial ratios. SSMHC was in compliance with all debt covenants as of December 31, 2012.

On May 12, 2011, SSMHC terminated the bond insurance on portions of the Series 2005C variable rate demand bonds, totaling \$97,500. In connection with this termination, these bonds were subject to mandatory tender by bond owners and were remarketed to the public. Concurrently with the mandatory tender and the termination of insurance, SSMHC entered into an amended agreement to provide liquidity support for the bonds. The mandatory tender draws on the lines of credit and subsequent repayment of the amounts drawn are reported in the accompanying consolidated statements of cash flows as proceeds from long-term debt and repayments of long-term debt. As a result of the termination of the bond insurance, SSMHC recorded a loss on the extinguishment of debt in the amount of \$887 in 2011.

On July 26, 2012, SSMHC issued \$183,265 of direct tax-exempt loans through the Health and Education Facility of the state of Missouri. The proceeds were used for the partial repayment of the Series 2005C bonds and the complete repayment of the 2005A and 2010C bonds. SSMHC recorded a loss on the extinguishment of debt of \$1,125 in connection with these transactions.

Taxable Debt — On June 27, 2012, SSMHC entered into a term loan agreement with a financial institution in the amount of \$100,000.

Auction Rate Bonds — The debt includes \$137,150 and \$140,250 at December 31, 2012 and 2011, respectively, of variable auction rate bonds. The interest rates on these bonds are reset at regular intervals of 35 days. The bonds are bought and sold at the lowest bid rate at which all of the outstanding bonds can be sold. This rate varies based on market conditions. If there are insufficient orders to purchase all of the bonds available for sale, the rate is set at a maximum rate required by the bond agreement. The maximum rate for SSMHC's auction rate bonds is the higher of the 175% of the after-tax equivalent rate or the Kenny Index, but no more than 12%.

Variable Rate Bonds — The debt includes \$615,085 and \$618,225 at December 31, 2012 and 2011, respectively, of variable rate demand bonds. The interest rates on these bonds are reset at daily or weekly intervals. The bonds are supported by credit facilities for the full amount of the bonds.

Note Payable to FSI — On July 1, 2007, SSMHC entered into an installment note payable to the Felician Services, Inc. (FSI). Under the terms of the agreement, FSI may elect to convert the note to pay status on or after December 31, 2014. SSMHC will begin making twenty annual payments on the note, with the first one due one year after FSI has notified SSMHC of its election to convert the note to pay status. Under specified circumstances SSMHC can issue a resolution which enables FSI to convert the note to pay status prior to December 31, 2014, with installments to begin two years from notice. The fixed interest rate will be equal to the 20-year municipal market data index plus 0.25 on the first day the note is in pay status.

Until the note is in pay status, the principal is adjusted annually based on a specified consumer price index. The principal of the note was adjusted \$698 and \$1,154 for the years ended December 31, 2012 and 2011, respectively, from the fair value at July 1, 2007, which is reflected in interest expense.

Liquidity Agreements — The Series 2005A, 2005C, 2005D, 2010C, 2010D, and 2010E Variable Rate Demand Bonds require remarketing agents to purchase and remarket any bonds tendered before the stated maturity date. To provide liquidity support for the timely payment of any bonds that are not successfully remarketed, SSMHC has liquidity agreements with five banking corporations. If the bonds are not successfully remarketed, SSMHC is required to pay an interest rate specified in the liquidity agreement. These agreements have terms that expire in 2014 through 2019 or require accelerated principal repayment terms in the event of a failed remarketing.

The 2005C, 2005D, 2010D, and 2010E Variable Rate Demand Bonds are classified between long-term borrowings and short-term borrowings based upon these accelerated terms. The contingent payments below reflect these accelerated terms. However, SSMHC's contractual payments do not reflect these accelerated terms. If any of these agreements are terminated and not replaced, extended, or renewed, SSMHC can be required to purchase the tendered bonds at the specified bank rate in a short period of time.

Contractual and Contingent Principal Repayments — Contractual and contingent principal repayments on long-term debt and capital lease obligations of SSMHC are as follows:

	Long-Term Debt		Capital Lease Obligations
	Contractual Payments	Contingent Payments	
2013	\$ 28,493	\$ 34,493	\$ 9,174
2014	27,805	27,805	7,532
2015	34,040	34,040	2,663
2016	31,867	31,867	2,664
2017	32,964	32,964	2,663
Thereafter	<u>1,128,109</u>	<u>1,122,109</u>	<u>35,736</u>
	<u>\$ 1,283,278</u>	<u>\$ 1,283,278</u>	60,432
Less amount representing interest under capital lease obligations			<u>24,963</u>
			<u>\$ 35,469</u>

Revolving Line of Credit — At December 31, 2012, SSMHC had 4 line of credit agreements with banks. One line is at varying rates of interest through July 15, 2013 and permits SSMHC to borrow up to \$50,000. The outstanding balance under this agreement at December 31, 2012 was \$37,000. The remaining lines are at varying rates of interest through February 26, 2013. Two of these permit SSMHC to borrow up to \$50,000 while the other permits borrowing up to \$30,000. There were no outstanding borrowings under these agreements at December 31, 2012. At December 31, 2011, SSMHC had one line of credit agreement which expired July 15, 2012. There were no outstanding borrowings under this agreement at December 31, 2011.

Fair Value of Long-Term Debt — The valuation of the estimated fair value of long-term debt is completed by a third party service and takes into account a number of factors including, but not limited

to, any one or more of the following general interest rate and market conditions, macroeconomic and/or deal-specific credit fundamentals, valuations of other financial instruments which may be comparable in terms of rating, structure, maturity and/or covenant protection, investor opinions about the respective deal parties, size of the transaction, cash flow projections, which in turn are based on assumptions about certain parameters that include, but are not limited to, default, recovery, prepayment and reinvestment rates, administrator reports, asset manager estimates, broker quotations and/or trustee reports, and comparable trades, where observable. Based on the inputs in determining the estimated fair value of debt this liability would be considered Level 2. The fair value approximated \$1,341,457 and \$1,245,445 at December 31, 2012 and 2011, respectively compared to carrying amounts of \$1,320,568 and \$1,225,809, respectively.

Interest Rate Swaps — In 2005, SSMHC entered into interest rate swap contracts under which SSMHC pays a fixed rate of interest ranging from 3.357% to 3.509% and receives a payment of 65% of LIBOR plus 12 basis points from swap counterparties on notional amounts totaling \$625,300 beginning July 21, 2005.

None of the aforementioned swaps have been designated as hedges of the interest payments on outstanding debt obligations for accounting purposes.

As of December 31, 2011, the counterparty to SSMHC required posting of collateral if the market value fell below the established spread in the swap contract. Collateral was posted in the amount of \$27,620 as of December 31, 2011.

On August 23, 2012, SSMHC completed a swap novation with three new counterparties. The financial terms of the swap contracts remained the same, however, the collateral posting requirements changed. SSMHC had no collateral posted as of December 31, 2012.

The following table shows the outstanding notional amount of derivative instruments measured at fair value as reported in other liabilities in the consolidated balance sheets as of December 31, 2012 and 2011.

December 31, 2012	Recorded on Balance Sheet	Maturity Date of Derivatives	Fixed Rate	Notional Amount Outstanding	Fair Value

Fair value is based on significant other observable inputs (level 2) at December 31, 2012 and 2011. The gain (loss) related to derivative instruments has been recorded for the years ended December 31, 2012 and 2011, as follows:

Recorded as		Gain (Loss) December 31,	
		2012	2011
Settled amounts	Operating interest expense	\$ (19,431)	\$ (20,009)
Unrealized gains/losses	Change in market value of interest rate swap	<u>306</u>	<u>(69,866)</u>
Total		<u>\$ (19,125)</u>	<u>\$ (89,875)</u>

Cash Paid for Interest — Cash paid for interest totaled \$37,848 and \$36,867 for the years ended December 31, 2012 and 2011, respectively. SSMHC capitalized interest cost in the amounts of \$6,342 and \$8,807 in the years ended December 31, 2012 and 2011, respectively.

12. PENSION

SSMHC administers several qualified and non-qualified pension plans for its employees. As of March 31, 2012, SSMHC made changes to its retirement plans including a change in its final average benefit structure (beginning in 2013) and a lump sum feature for current and future employees (beginning in 2012 and phasing-in over the next several years). The result of the plan changes was a reduction in the plans' liabilities and improvement of the funded status of \$263,987, measured as of March 31, 2012. The reduction in liability was first used to reduce any current unrecognized prior service cost with the remainder recorded as a prior service credit.

The following table summarizes the benefit obligations, the fair value of plan assets and the funded status at December 31, 2012 and 2011:

	2012	2011
Change in projected benefit obligation		
Projected benefit obligation — beginning of period	\$ 1,746,127	\$ 1,577,775

SSMHC's investment objective with respect to pension plans is to produce sufficient current income and capital growth through a portfolio of equity, real estate, hedge fund, and fixed income investments, which together with appropriate employer contributions is sufficient to provide for the pension benefit obligations. The assumed return on plan assets is intended to be a long-term rate expected on funds invested or to be invested in accordance with SSMHC's asset allocation policy to provide for benefits reflected in the plans' projected benefit obligation. In developing the assumptions, SSMHC evaluates input from its actuary and pension fund investment advisors. Pension assets are managed by outside investment managers in accordance with the investment policies and guidelines established by the pension trustees, and are diversified by investment style, asset category, sector, industry, issuer, geographical location, and maturity. Pension assets are rebalanced each quarter to the plan's asset allocation guidelines. SSMHC anticipates that its investment managers will continue to generate long-term returns equal to or in excess of its assumed rates.

It is SSMHC's policy that transfers between Levels will occur when revised information regarding the lowest level of significant inputs becomes available. During 2011, additional information became

available regarding certain international mutual fund investments and management determined that mutual funds previously classified as Level 3 should be classified as Level 2. As of January 1, 2011, SSMHC transferred \$37,051 from Level 3 to Level 2. Transfers out of Level 3 represent existing assets that were previously categorized as Level 3 for which the lowest significant input became observable during the period.

Changes related to the fair values based on Level 3 inputs, are summarized as follows:

	2012	2011
Beginning balance	\$ 215,838	\$ 150,533
Actual return on plan assets - realized	544	1,119
Actual return on plan assets - unrealized	10,901	(3,090)
Transfers	-	(37,051)
Purchases, sales, and settlements, net	<u>16,775</u>	<u>104,327</u>
Ending balance	<u>\$ 244,058</u>	<u>\$ 215,838</u>

Unrealized gains (losses) on Level 3 investments were \$10,901 and \$(3,090) for 2012 and 2011, respectively.

The hedge funds and real estate investments are redeemable at NAV under the original terms of the agreements. However, it is possible that these redemption rights may be restricted or eliminated by the funds in the future in accordance with the underlying fund agreements. Due to the nature of the investments held by the funds, changes in market conditions and the economic environment may significantly impact the net asset value of the funds and, consequently, the fair value of SSMHC's interests in the funds. Although a secondary market exists for these investments, it is not active and individual transactions are typically not observable. When transactions do occur in this limited secondary market, they may occur at discounts to the reported net asset value. It is therefore reasonably possible that if SSMHC were to sell these investments in the secondary market a buyer may require a discount to the reported net asset value, and the discount could be significant. As such, SSMHC has classified these as level 3 investments. In addition, the unfunded commitments to these funds are \$7,345 and \$7,422 at December 31, 2012 and 2011, respectively. Assets recorded at NAV at December 31, 2012, are as follows:

December 31, 2012

	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Hedge funds (a)	\$ 143,066	\$ -	quarterly	30–100 days
Real estate investments (b)	<u>100,992</u>	<u>7,345</u>		
Total	<u>\$ 244,058</u>	<u>\$ 7,345</u>		

December 31, 2011

	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Hedge funds (a)	\$ 126,435	\$ -	quarterly	30–100 days
Real estate investments (b)	<u>89,403</u>	<u>7,422</u>		
Total	<u>\$ 215,838</u>	<u>\$ 7,422</u>		

- (a) This category includes investments in hedge funds that maintain positions both long and short in equity and equity derivative securities. A wide variety of investment processes can be employed to arrive at an investment decision, including both quantitative and fundamental techniques, and the managers can maintain net long or net short exposure levels based on market views. The strategy designs a diversified portfolio of managers and strategies with the objective of significantly lowering the risk and volatility of investing with an individual manager.
- (b) This category includes investments in real estate funds that invest in the following underperforming and distressed real estate assets at well below potential replacement cost and which create significant value-added upside through extensive repositioning and capital improvements: distressed real estate and real estate-related debt, companies, securities, and other assets, high quality properties in major metropolitan areas, participating mortgages secured by core real estate properties. Investments in real estate are valued based upon independent appraisals using a cost approach, market approach or income approach as well as consideration of other third party evidence.

Defined Contribution Plans — SSMHC also sponsors defined contribution plans covering employees who participate in the voluntary tax deferred annuity program and who meet age and service requirements. SSMHC's contributions to these plans are based on a percentage of employee compensation or employee contributions. Defined contribution pension expense for these plans was \$10,684 and \$9,732 for 2012 and 2011, respectively.

13. SELF-INSURANCE

Professional Liability Insurance — A majority of the members of SSMHC participate in the SSMHC Liability Trust I or SSMHC Liability Trust II (Trusts). Both Trusts are revocable grantor trusts. These Trusts, which cover primary limits of professional and general liability, require annual contributions by participating entities at actuarially determined amounts. All professional and general liability claims and workers' compensation claims are paid from the Trusts subject to certain liability limitations.

SSMHC's underlying self-insured retention for professional liability claims is as follows:

	January 1, 2011 to December 31, 2012
Per occurrence limits — Missouri, Oklahoma, and Illinois	\$ 5,000
Annual aggregate	None

SSMHC's hospitals and physicians located in Wisconsin are qualified healthcare providers as defined by Wisconsin state statutes regarding professional liability coverage and participate in the State of Wisconsin Injured Patients and Families Compensation Fund (PCF). As defined by Wisconsin state statute, these hospitals and physicians have separate professional liability limits of \$1,000,000 per claim and \$3,000,000 annual aggregate applied to each qualified provider. Losses in excess of these amounts are fully covered through mandatory participation in the PCF. SSMHC is commercially insured up to these limits for these hospitals and physicians.

SSMHC's underlying self-insured retention for general liability claims is as follows:

	January 1, 2011 to December 31, 2012
Per occurrence limits — Missouri, Oklahoma, Wisconsin and Illinois	\$ 3,000
Annual aggregate	None

SSMHC maintains reinsurance through a wholly owned captive for professional and general liability claims exceeding the underlying self-insured retention. As of December 31, 2012, the reinsurance provides coverage up to the limits in the following table. The sublimits that apply are part of and not in addition to the overall policy aggregate limits.

	All Locations
Each loss event	\$ 135,000
Annual aggregate, per location	135,000
Annual aggregate all locations	160,000

The estimated professional and general liability obligation is recorded in the consolidated financial statements at the present value of future cash payments for both asserted and unasserted claims, using discount rates of 3.0% and 4.0% at December 31, 2012 and 2011, respectively. The liability for self-insured reserves represents estimates of the ultimate net cost of all losses and related expenses, which are incurred but not paid at the balance sheet date based on an actuarial valuation. This estimated obligation is \$77,520 and \$85,053 at December 31, 2012 and 2011, respectively, of which \$17,754 and \$19,730 is recorded as a current liability at December 31, 2012 and 2011, respectively.

The accumulated assets of the Trusts are not available to participating members except to pay covered professional liability claims or to reduce future contributions when warranted by claims experience. In the event the Trusts are ever depleted, the participating members would be required to fund deficiencies based on future actuarial determinations.

Workers' Compensation — A majority of the members of SSMHC participate in SSMHC's centralized self-insured workers' compensation program. Claims in excess of certain liability limitations are covered by commercial insurance. The estimated workers' compensation liability obligation is actuarially determined and recorded in the consolidated financial statements at the present value of future cash payments for both asserted and unasserted claims, using a discount rate of 1.00%, at December 31, 2012 and 2011.

Employee Health Insurance — A majority of the members of SSMHC participate in the SSM Employee Health Care Fund (Fund). Each participating member funds an actuarially determined amount with the Fund's trustee for payment of covered benefits and related expenses, which are subject to certain limitations.

Claims paid by the Fund are included in salaries and benefits expense. The accumulated assets of the Fund are not available to the participating members except to pay covered benefits. In the event the Fund is ever depleted, the participating entities would be assessed to cover the deficiencies.

14. ASSET RETIREMENT OBLIGATIONS

SSMHC has recorded conditional asset retirement obligations and capitalized retirement costs related to the estimated cost of removing asbestos from its facilities. Federal and state regulations require the removal of asbestos when a building is demolished or, at a minimum, encapsulation of the asbestos when it would be exposed during renovation. The obligation is included in other liabilities, and the capitalized costs are included in property and equipment. The following summarizes the asset retirement obligations at December 31, 2012 and 2011:

	2012	2011
Balance — beginning of the period	\$ 10,152	\$ 10,319
Retirements	(703)	(527)
Additions	169	-
Accretion expense	329	360
	<u>\$ 9,947</u>	<u>\$ 10,152</u>
Balance — end of the period		

15. ENDOWMENTS

Endowments consist of approximately 50 individual funds established for a variety of purposes. They include both donor-restricted endowment funds and funds designated by the boards of trustees or

governors of its 15 foundations to function as endowments (board-designated endowment funds) Net assets associated with endowment funds, including board-designated funds, are classified and reported based on the existence or absence of donor-imposed restrictions and the nature of the restrictions, if any

Funds with Deficiencies — From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or current law requires SSMHC to retain as a fund of perpetual duration. In accordance with accounting principles generally accepted in the United States of America, deficiencies of this nature are reported in unrestricted net assets. There were no such deficiencies as of December 31, 2012 and 2011.

Return Objectives and Risk Parameters — SSMHC has investment and spending practices for endowment assets that intend to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that SSMHC must hold in perpetuity or for a donor-specified period(s) as well as board-designated funds. The policy allows the endowment assets to be invested in a manner that is intended to produce results that exceed the price and yield results of the allocation index while assuming a moderate level of investment risk. SSMHC expects its endowment funds to provide a rate of return that preserves the gift and generates earnings to achieve the endowment purpose.

Strategies Employed for Achieving Objectives — To satisfy its long-term rate-of-return objectives, SSMHC relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and interest and dividend income. SSMHC uses a diversified asset allocation to achieve its long-term return objectives within prudent risk constraints to preserve capital.

Spending Policy and how the Investment Objectives Relate to Spending Policy — SSMHC has a practice of distributing the major portion of current year earnings on the endowment funds, if the restrictions have been met. Some of the donor-restricted endowments require a portion of the earnings to

increase the corpus of the endowment. This is consistent with the organization's objective to maintain the purchasing power of the endowment assets held in perpetuity, as well as to provide additional real growth through new gifts and investment return.

16. NET ASSETS

SSMHC reports the noncontrolling interest in the net assets of consolidated subsidiaries as a separate component of the appropriate class of net assets. The reconciliation of noncontrolling interest reported in unrestricted net assets is as follows:

Total expenses	<u>\$3,268,989</u>	<u>\$2,965,807</u>

18. COMMITMENTS AND CONTINGENT LIABILITIES

Leases for property and equipment that do not meet the criteria for capitalization are classified as operating leases with related rentals charged to operating expense on a straight-line basis over the term of the lease.

The following is a schedule of future minimum lease payments under operating leases as of December 31, 2012, that have initial or remaining lease terms in excess of one year

2013	\$ 37,326
2014	33,916
2015	29,811
2016	24,053
2017	18,431
Thereafter	<u>32,991</u>
Total minimum lease payments	<u>\$ 176,528</u>

Total rental expense was approximately \$46,083 and \$48,165 in 2012 and 2011, respectively

SSMHC has outstanding letters of credit of \$12,605 at December 31, 2012 and 2011. There were no outstanding draws on these letters of credit.

At December 31, 2012, SSMHC has entered into construction projects for new facilities and capital improvements to existing facilities. The commitments for these projects totaled approximately \$331,186. As of December 31, 2012, SSMHC has unmet commitments of approximately \$143,972, which will be financed with board-designated assets, project funds or cash generated from operations.

SSMHCC has guaranteed that certain lease payments will be made by some of its equity investments. The amount of future lease payments guaranteed by SSMHCC totaled \$109 and \$438 at December 31, 2012 and 2011, respectively. In addition, SSMHC has entered into certain other income guarantees with outside entities to be paid out from 2013 through 2017 which totaled \$26,403 at December 31, 2012.

SSMHC is involved in litigation and regulatory investigations arising in the normal course of business. After consultation with legal counsel, it is management's opinion that these matters will be resolved without a material adverse effect on SSMHC's consolidated financial position or consolidated results of operations.

During a periodic cost report audit performed by the Medicare intermediary in Oklahoma, the intermediary identified potential issues with the calculation of the disproportionate share hospital (DSH) payments paid to SSMHC's Oklahoma facility. The payments are paid by Medicare for hospitals that treat a disproportionate share of Medicaid and disabled social security patients. The specific issue under review is whether the care furnished for children and adolescents in an adolescent psychiatric program at SSMHC's Oklahoma facility is similar in acuity to services that are usually paid for under Medicare's inpatient hospital prospective payment system. At the end of the year, no determination (reduction of previously claimed Medicaid days, or agreement with previous days claimed) had been made by the Medicare contractor or the Centers for Medicare and Medicaid Services. If an adverse ruling is rendered and a request for partial or full refund of previous DSH payments attributable to the adolescent psychiatric program is made for 2012 and previous Medicare cost report years that are subject to audit or reopening, a reduction in revenue would occur. The amount of an adverse ruling is indeterminable, however, the estimated DSH payments received and recognized as revenue attributable to the adolescent psychiatric program for the period (2004–2012) is approximately \$57,021.

19. SUBSEQUENT EVENTS

For the year ended December 31, 2012, SSMHC has evaluated subsequent events for potential recognition and disclosure through March 29, 2013, the date the financial statements were available for issuance.
