Independent Auditor's Report

Board of Trustees
Olathe Medical Center, Inc
Olathe, Kansas

We have audited the accompanying consolidated financial statements of Olathe Medical Center, Inc (a controlled subsidiary of Olathe Health System, Inc), which comprise the consolidated balance sheets as of December 31, 2012 and 2011, and the related consolidated statements of operations, changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits We conducted our audits in accordance with auditing standards generally accepted in the United States of America Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control Accordingly, we express no such opinion An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Olathe Medical Center, Inc as of December 31, 2012 and 2011, and the results of its operations, the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America

Emphasis of Matter

As discussed in *Note 1*, in 2012, Olathe Medical Center, Inc changed its method of presentation and disclosure of patient service revenue, provision for bad debts and the allowance for doubtful accounts in accordance with Accounting Standards Update 2011-07 Our opinion is not modified with respect to this matter

Notes to Consolidated Financial Statements

December 31, 2012 and 2011

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations

Olathe Medical Center, Inc ("OMCI") operates an acute care hospital in Olathe, Kansas OMCI primarily earns revenues by providing inpatient, outpatient, emergency care, hospice and home health care services to residents in Johnson County and Miami County, Kansas and the surrounding area OMCI is controlled by Olathe Health System, Inc ("OHSI"), its sole member

OMCI is the sole member of Miami County Medical Center, Inc ("MCMCI"), Olathe Medical Services, Inc ("OMSI"), Olathe Medical Center Charitable Foundation ("OMCCF") and Health Access, Inc ("HAI") All of the entities are collectively referred to as the "System" in the accompanying consolidated financial statements

MCMCI is an acute care hospital located in Paola, Kansas, and earns revenue by providing inpatient, outpatient and emergency care services to patients in Miami and Linn County, Kansas, and the surrounding area

OMSI provides physician services in various clinic locations within its service area

OMCCF was organized for the purpose of providing support services to advance or support the provision of health care services for the System's not-for-profit entities and the communities in which they serve

HAI is a provider-sponsored organization that contracts with other health care providers, insurers and consumers in the System's service area in order to increase the quality and efficiency of health care services for their community HAI was dissolved as a Kansas Corporation on December 30, 2011

Principles of Consolidation

The consolidated financial statements include the accounts of OMCI and its controlled subsidiaries, Olathe Medical Services, Inc , Miami County Medical Center, Inc , Olathe Medical Center Charitable Foundation and Health Access, Inc All significant intercompany accounts and transactions have been eliminated in consolidation

Investment in and Advances to Affiliates

OMCI has an investment in Cedar Lake Village, which operates an assisted living, senior housing and skilled nursing facility located on OMCI's campus This investment is reported using the equity method of accounting

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period Actual results could differ from those estimates

Excess of Revenues Over Expenses

The consolidated statements of operations include excess of revenues over expenses Changes in unrestricted net assets which are excluded from excess of revenues over expenses, consistent with industry practice, include unrealized gains and losses on investments other than trading securities, the change in fair value of highly effective interest rate swap agreements, permanent transfers to and from affiliates for other than goods and services and contributions of long-lived assets to be used in providing health care services (including assets acquired using contributions which, by donor restriction, were to be used for the purpose of acquiring such assets)

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the System has been limited by donors to a specific time period or purpose Permanently restricted net assets have been restricted by donors to be maintained by the System in perpetuity

Temporarily restricted net assets are available primarily for specific program and department activities and the purchase of equipment and buildings at December 31, 2012 and 2011

During 2012 and 2011, net assets were released from donor restrictions by satisfying the restricted purposes in the amounts of $55,798 and $56,984, respectively

Net Patient Service Revenue

The System has agreements with third-party payers that provide for payments to the System at amounts different from established rates Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers and others for services rendered and includes estimated retroactive revenue adjustments Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered and such estimated amounts are revised in future periods, as adjustments become known Laws and regulations governing Medicare and Medicaid are extremely complex and subject to interpretation Compliance with such laws and regulations are subject to government review and interpretation as well as significant regulatory action, including fines, penalties and exclusion from the Medicare and Medicaid programs As a result, there is a possibility that the recorded estimates may change by a material amount in the near term

Cash Equivalents

The System considers all liquid investments, other than those limited as to use, with original maturities of three months or less to be cash equivalents At December 31, 2012 and 2011, cash equivalents consisted primarily of money market accounts

Patient Accounts Receivable

Accounts receivable are reduced by an allowance for doubtful accounts In evaluating the collectability of accounts receivable, the System analyzes its history and identifies trends for each of its major payer sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts Management regularly reviews data about these major payer sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts

For receivables associated with services provided to patients who have third-party coverage, the System analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payer has not yet paid, or for payers who are known to be having financial difficulties that make the realization of amounts due unlikely)

For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the System records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible The difference between the standard rates (or the discounted rates if negotiated or provided by policy) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts

The System's allowance for doubtful accounts for self-pay patients increased from 57% of self-pay accounts receivable at December 31, 2011, to 70% of self-pay accounts receivable at December 31, 2012 In addition, the System's write-offs increased approximately $4,903,000 from approximately $11,737,000 for the year ended December 31, 2011, to approximately $16,640,000 for the year ended December 31, 2012 Both increases were the result of negative trends experienced in the collection of amounts from self-pay patients in fiscal year 2012

Assets Limited as to Use

Assets limited as to use include (1) assets held by bond trustees, (2) assets restricted by donors, and (3) assets set aside by the Board of Trustees for future capital improvements over which the Board retains control and may at its discretion subsequently use for other purposes Amounts required to meet current liabilities of the System are included in current assets

Investments and Investment Return

Investments in equity securities having a readily determinable fair value and all common trust funds are carried at fair value in the consolidated balance sheets Donated investments are reported at fair value at the date of receipt, which is then treated at cost Investment income or loss (including realized gains and losses on investments, interest and dividends) is included in excess of revenues over expenses, unless the income or loss is restricted by donor or law The investment in Cedar Lake Village is reported on the equity method of accounting

Supplies

The System states supply inventories at average cost for perpetual inventories and last purchase price for non-perpetual inventories

Property and Equipment

Property and equipment are recorded at cost and depreciated on a straight-line basis over the estimated useful life of each asset Leasehold improvements are depreciated over the respective estimated useful lives

The estimated useful lives for each major depreciable classification of property and equipment are as follows

Buildings and improvements	10-40 years
Equipment	3-15 years

Donations of property and equipment are reported at fair market value as an increase in unrestricted net assets unless use of the assets is restricted by the donor Monetary gifts that must be used to acquire property and equipment are reported as restricted support The expiration of such restrictions is reported as an increase in unrestricted net assets when the donated asset is placed in service

Estimated Self-Insurance Costs

The provision for estimated self-insured employee health, dental and workers' compensation claims includes estimates of the ultimate costs for both reported claims and claims incurred but not reported, including related administrative costs

Estimated self-insurance costs also include amounts for estimates related to medical malpractice and general liability claims which are covered by insurance

Charity Care

The System provides care without charge or at amounts less than its established rates to patients meeting certain criteria under its charity care policy Because the System does not pursue collection of amounts determined to qualify as charity care, these amounts are not reported as net patient service revenue The System's direct and indirect costs for services furnished under its charity care policy were developed utilizing a cost accounting system and aggregated approximately $4,198,000 and $4,866,000 in 2012 and 2011, respectively

Income Tax Status

Olathe Medical Center, Inc , Olathe Medical Services, Inc , Miami County Medical Center, Inc and Olathe Medical Center Charitable Foundation are not-for-profit organizations within the meaning of Section 501(c)(3) of the Internal Revenue Code and are exempt from taxes on their business income

HAI is considered a for-profit corporation for federal income tax purposes

The System is no longer subject to U S federal, state and local income tax examinations by tax authorities for years before 2007

Insurance and Litigation

Medical malpractice insurance is purchased under claims-made policies Under these policies, only claims made and reported to the insurer that occurred subsequent to July 1, 1976 are covered during the policy term Under Kansas law, the Kansas Insurance Department provides excess liability insurance through the Kansas Healthcare Stabilization Fund Excess liability insurance coverage is also purchased under a claims-made policy Under this policy, only claims made and reported to the insurer that occurred subsequent to January 2, 1985 are covered during the policy term

The System accrues the expense of its share of asserted and unasserted claims occurring during the year by estimating the probable ultimate cost of any such claim Such estimates are based on the System's own claims experience The System's management does not expect any claims to exceed the insurance coverage limits However, because of the risk involved in providing health care services, it is possible an event has occurred that will be the basis of a future material claim In the normal course of business, the System is, from time to time, subject to allegations that may or do result in litigation Some of these allegations are in areas not covered by the System's commercial insurance The System evaluates such allegations by conducting investigations to determine the validity of each potential claim Based upon the advice of counsel, management records an estimate of the amount of ultimate expected loss, if any, for each of these matters Events could occur that would cause the estimate of ultimate loss to differ materially in the near term

The System recognizes an accrual for claim liabilities based on estimated ultimate losses and costs associated with settling claims and a receivable to reflect the estimated insurance recoveries, if any

Based upon the System's claims experience, an accrual had been made for the System's portion of medical malpractice and general liability costs related to its deductible under its malpractice and general liability insurance policies, amounting to approximately $545,000 and $785,000 as of December 31, 2012 and 2011, respectively These amounts are included in estimated self-insurance costs on the accompanying Consolidated Balance Sheets It is reasonably possible that this estimate could change materially in the near term

The System recorded in other current assets on the balance sheet approximately $365,000 and $55,000 as of December 31, 2012 and 2011, respectively, of professional liability reserves insurance coverage receivables

The System has available letters of credit totaling $2,584,000 which expire throughout 2013, subject to renewal The purpose of the letters is for the possible funding of self-insured workers compensation and unemployment claims

Contributions

Unconditional promises to give cash and other assets are accrued at estimated fair value at the date each promise is received Unconditional gifts expected to be collected within one year are reported at their net realizable value Unconditional gifts expected to be collected in future years are initially reported at fair value determined using the discounted present value of estimated future cash flows technique The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reported as net assets released from restriction Gifts having donor stipulations which are satisfied in the period the gift is received are reported as unrestricted revenue and net assets Receipt of contributions that are conditional are reported as liabilities until the condition is eliminated or the contributed assets are returned to the donor

Deferred Financing Costs

Deferred financing costs represent bond issuance costs incurred in connection with the Health Facilities Revenue Bonds Costs associated with the debt outstanding for each year are being amortized over the term of the respective bond issue using the bonds outstanding method

Bond Premiums (Discount)

The bond premiums and discount arose from the issuance of the Health Facilities Revenue Bonds, Series 2008A, Series 2008B, Series 2010A, Series 2012A and Series 2012B and, when combined, result in a net bond premium This unamortized net bond premium is recorded as an adjustment of long-term debt in the accompanying consolidated financial statements The bond premiums and discount are being amortized over the life of the related bonds using the bonds outstanding method

Derivative Financial Instruments

As a strategy to maintain an acceptable level of exposure to the risk of changes in future cash flows due to interest rate fluctuations, the System entered into interest rate swap agreements for a portion of its floating rate debt in September 2002 and July 2004 The Bonds under which the swap agreements were initiated were fully refunded and redeemed during 2008 but the swaps remained in place and as such became disconnected to the debt and are now treated as investments At the date of refunding, the cumulative loss in fair value of the swap agreements (recorded in Unrestricted Net Assets) was $639,305 and until the swap agreements were terminated in 2011, this amount was being amortized through the scheduled termination date of the swap agreements in 2016 and 2024 The unamortized cumulative loss in fair value of the swap agreements (recorded in Unrestricted Net Assets) at the date of swap settlement was $476,975 and at December 31, 2011, this amount was included in the loss from termination of interest rate swap due to the swap settlement payment on March 28, 2011 as discussed below

Under the swap agreements, the System pays or receives interest amounts monthly and, as the swap is classified as an investment, payments of interest of $98,984 in 2011 is included in net realized gain on sale of investments in Other Income (Expense) on the accompanying Consolidated Statements of Operations

The changes in the fair value of such agreements since the date of refunding of the debt are recorded as unrealized gain or loss in fair value of interest rate swap agreements in Other Income (Expense) on the accompanying Consolidated Statements of Operations For the year ended December 31, 2011, a change in fair value of $1,115,078 was recorded for the derivative instruments

On March 28, 2011, the 2002A and 2004A swap agreements were terminated resulting in a settlement payment of $1,431,100 This loss on termination of interest rate swap is included in Other Income (Expense) on the accompanying Consolidated Statements of Operations The 2011 change in fair value of the interest rate swap agreements of $1,115,078 represents the cumulative unrealized losses from the prior periods change in fair value of the interest rate swap agreements which reversed in 2011 due to the settlement payment of the swaps

Variable Rate Bonds and Related Agreements

OMCI has issued daily variable rate demand bonds as part of the 2008C bond issue and the 2010B bond issue (*see Note 6*) As part of the indenture agreement, OMCI entered into a remarketing agreement to remarket the bonds on a daily basis OMCI also entered into a Letter of Credit and Reimbursement Agreement (LOC) with a bank to purchase bonds that are tendered but not remarketed Under the LOC, the Letter of Credit is a direct obligation of the bank to pay to the Trustee until such time as the bonds are remarketed The current LOC expires October 29, 2015

Electronic Health Records Incentive Program

The Electronic Health Records Incentive Program, enacted as part of the *American Recovery and Reinvestment Act of 2009*, provides for one-time incentive payments under both the Medicare and Medicaid programs to eligible hospitals that demonstrate meaningful use of certified electronic health records technology (EHR) Payments under the Medicare program are generally made for up to four years based on a statutory formula Payments under the Medicaid program are generally made for up to four years based upon a statutory formula, as determined by the state, which is approved by the Centers for Medicare and Medicaid Services Payment under both programs are contingent on the hospital continuing to meet escalating meaningful use criteria and any other specific requirements that are applicable for the reporting period The final amount for any payment year is determined based upon an audit by the fiscal intermediary Events could occur that would cause the final amounts to differ materially from the initial payments under the program

The System recognizes revenue ratably over the reporting period starting at the point when management is reasonably assured it will meet all of the meaningful use objectives and any other specific grant requirements applicable for the reporting period

In 2012, OMCI completed the first-year requirements under the Medicaid program and has recorded revenue of approximately $1,400,000, which is included in other revenue within operating revenues in the statement of operations

Change in Accounting Principle

In 2012, the System changed its method of presentation and disclosure of patient service revenue, provision for bad debts and the allowance for doubtful accounts in accordance with Accounting Standards Update (ASU) 2011-07, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts and the Allowance for Doubtful Accounts for Certain Health Care Entities*. The major changes associated with ASU 2011-07 are to reclassify the provision for uncollectible accounts related to patient service revenue to a deduction from patient service revenue and to provide enhanced disclosures around the System's policies related to uncollectible accounts. The change had no effect on prior year change in net assets.

The following financial statement line items for fiscal years 2012 and 2011 were affected by the change in accounting principle:

	2012 Statement of Operations		
	As Computed Under Previous Guidance	As Computed Under ASU 2011-07	Effect of Change

Note 2: Net Patient Service Revenue

The System recognizes patient service revenue associated with services provided to patients who have third-party payer coverage on the basis of contractual rates for the services rendered For uninsured patients that do not qualify for charity care, the System recognizes revenue on the net basis of its standard rates less an uninsured discount for services provided to individuals who do not qualify for the charity care program On the basis of historical experience, a significant portion of the System's uninsured patients will be unable or unwilling to pay for the services provided Thus, the System records a significant provision for uncollectible accounts related to uninsured patients in the period the services are provided This provision for uncollectible accounts is presented on the statement of operations as a component of net patient service revenue

The System has agreements with third-party payers that provide for payments to the System at amounts different from its established rates These payment arrangements include

Medicare. Inpatient acute care services and substantially all outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors Inpatient skilled nursing services are paid at prospectively determined per diem rates that are based on the patients' acuity Certain inpatient nonacute services and defined medical education costs are paid based on a cost reimbursement methodology The Hospital is reimbursed for certain services at tentative rates with final settlement determined after submission of annual cost reports by the System and audits thereof by the Medicare Administrative Contractor

Medicaid. Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed under a cost reimbursement methodology for certain services and at prospectively determined rates for all other services The System is reimbursed for cost reimbursable services at tentative rates with final settlement determined after submission of annual cost reports by the System and audits thereof by the Medicaid Administrative Contractor

Other Third-Party Payers. The System has entered into payment agreements with certain commercial insurance carriers, health maintenance organizations and preferred provider organizations The basis for payment under these agreements includes prospectively determined rates per discharge, discounts from established charges, case rates, fee schedules and prospectively determined daily rates

Uninsured. The System provides discounts from charges for patients who do not have health insurance coverage and also provides assistance to those who qualify for the System's charity care program

Patient service revenue, net of contractual allowances and discounts (but before the provision for uncollectible accounts), recognized in the years ended December 31, 2012 and 2011, respectively, was approximately

	2012	2011
Medicare	$ 91,798,170	$ 90,866,343
Medicaid	7,409,170	6,728,176
Other third-party payers	149,289,259	155,180,064
Self-pay	34,652,358	27,429,468
Total	$283,148,957	$280,204,051

The Center for Medicare and Medicaid Services (CMS) approved an amendment to the Kansas Medicaid State Plan that incorporates legislation enacted by the Kansas State Legislature establishing an annual tax assessment on certain hospital providers and health maintenance organizations and created the Health Care Access Improvement Fund The System's tax assessment for 2012 and 2011 was approximately $1,566,000 and $1,280,200, respectively, and is included in expenses in the consolidated statements of operations

Note 3: Investments

At December 31, 2012 and 2011, the System's investments include real estate located in Johnson County, Kansas with a carrying value of $5,183,804 and $3,678,215, respectively

Certain investments in marketable equity securities are reported in the consolidated financial statements at an amount less than their historical cost The System has adopted a long-term investment strategy which could result in volatile swings in fair value over time

The System has elected to measure common trust funds at fair value which has been estimated using the net asset value per share of the investments The common trust funds include investments in several common trust funds that invest in equity securities of developed and emerging markets other than the United States The common trust funds have redemption dates twice a month with a redemption notice period of 2 days These investments have no unfunded commitments

In accordance with the terms of the bond indentures, as amended, authorizing Health Facilities Revenue and Refunding Bonds, OMCI and MCMCI are to establish and maintain certain funds as follows

Debt Service Fund – This account contains the required lease payments for interest and principal payments on bonds

Debt Service Reserve Fund – This account is to be funded only in the event that certain financial ratio requirements are not met No funding was required at December 31, 2012 and 2011

Project Fund – This account includes the proceeds of bond issues to be used for qualified capital expenditures

Amounts held by the trustee under indenture agreements, including accrued interest, at December 31, 2012 and 2011 are as follows

	2012	2011
Debt service fund	$ 597,607	$ 1,288,409
Project funds to be used for capital expenditures	-	6,025,647
	$ 597,607	$ 7,314,056

Long-term investments consisted of the following which included investments held in conjunction with the System's Section 457(b) and 457(f) deferred compensation plans (*see Note 8*) that amounted to $6,659,912 and $7,876,446 at December 31, 2012 and 2011, respectively

The System had an available line of credit totaling $2,500,000 that expired during 2012 At December 31, 2011, there were no amounts outstanding on this agreement

Note 7: Concentration of Credit Risk

The operations of the System are primarily located in Johnson County and Miami County, Kansas The System grants credit without collateral to its patients, most of whom are area residents and are insured under third-party payer agreements The mix of patient net accounts receivable at December 31, 2012 and 2011 is as follows

	2012	2011
Medicare and Medicaid	40%	45%
Other third-party payers	49%	43%
Patients	11%	12%
	100%	100%

The System maintains its cash and investments in local financial institutions The current federally insured limit for non-interest bearing accounts expired December 31, 2012

Note 8: Retirement Plans

The System sponsors a 403(b) retirement plan covering substantially all employees The System's contributions to the Plan were $1,906,173 and $1,732,280 in 2012 and 2011, respectively

The System sponsors a Section 457(b) deferred compensation plan for key employees The System made no contributions to the plan in 2012 or 2011 The System also sponsors a Section 457(f) plan for key employees The System made contributions to the plan of $468,295 and $748,824 in 2012 and 2011, respectively Total assets and liabilities related to these Plans were $6,659,912 and $7,876,446 at December 31, 2012 and 2011, respectively

Note 11: Fair Value of Financial Instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs There is a hierarchy of three levels of inputs that may be used to measure fair value

Level 1 Quoted prices in active markets for identical assets or liabilities

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities

Recurring Measurements

The following tables present the fair value measurements of assets and liabilities recognized in the accompanying consolidated balance sheets measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2012 and 2011

Following is a description of the valuation methodologies and inputs used for assets and liabilities measured at fair value on a recurring basis and recognized in the accompanying consolidated balance sheets, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy There have been no significant changes in the valuation techniques during the year ended December 31, 2012

Investments and Financial Instruments Included in Cash

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy Level 1 securities include exchange traded equity securities and mutual funds If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows Such securities are classified in Level 2 of the valuation hierarchy Level 2 securities include common trust funds

The value of certain investments, classified as common trust funds, is determined using net asset value (or its equivalent) as a practical expedient Investments for which the System expects to have the ability to redeem its investments with the investee within 12 months after the reporting date are categorized as Level 2

The following methods were used to estimate the fair value of all other financial instruments recognized in the accompanying balance sheets at amounts other than fair value

Cash and Cash Equivalents

The carrying amount approximates fair value

Contributions Receivable

Fair value is estimated by discounting the cash flows of the future payments expected to be received using rates of return on assets with similar cash flows

Long-term Debt

Fair values of revenue notes are based on current interest rates on bonds of similar maturities The fair value of other long-term debt is estimated using discounted cash flow analyses, based on the System's current incremental borrowing rates for similar types of borrowing arrangements The carrying amount of long-term debt approximates its fair value

Note 12: Related Party Transactions

In 2012 and 2011, OMCI had transfers to OHSI, the sole member of OMCI, of $20,478 and $28,293, respectively

At December 31, 2012 and 2011, Cedar Lake Village, Inc (CLVI), an equity investee, had outstanding loan balances to OMCI of $3,608,958 and $3,757,624, respectively, at an interest rate of 7%, subordinated with a bank as part of a letter-of-credit arrangement Semiannual interest payments and annual principal payments are required with the final payment on the loan due in December 2026

Note 13: Patient Protection and Affordable Care Act

The Patient Protection and Affordable Care Act (PPACA) will substantially reform the United States health care system The legislation impacts multiple aspects of the health care system, including many provisions that change payments from Medicare, Medicaid and insurance companies Starting in 2014, the legislation requires the establishment of health insurance exchanges, which will provide individuals without employer provided health care coverage the opportunity to purchase insurance It is anticipated that some employers currently offering insurance to employees will opt to have employees seek insurance coverage through the insurance exchanges It is possible that the reimbursement rates paid by insurers participating in the insurance exchanges may be substantially different than rates paid under current health insurance products Another significant component of the PPACA is the expansion of the Medicaid program to a wide range of newly eligible individuals In anticipation of this expansion, payments under certain existing programs, such as Medicare disproportionate share, will be substantially decreased Each state's participation in an expanded Medicaid program is optional

The state of Kansas has indicated it will not participate in the expansion of the Medicaid program The PPACA is extremely complex and may be difficult for the federal government and each state to implement While the overall impact of the PPACA cannot currently be estimated, it is possible that it will have a negative impact on the System's net patient service revenue Additionally, it is possible the System will experience payment delays and other operational challenges during PPACA's implementation
