Connections for Cardiovascular HealthSM Criteria

The AstraZeneca HealthCare Foundation's *Connections for Cardiovascular HealthSM* program awards Foundation grants of \$150,000 and more annually to US-based, nonprofit 501(c)(3) organizations or similar nonprofit organizations working to improve cardiovascular health in their communities.

The intent of the grants awarded is to support innovative initiatives or programs at the community level to help improve cardiovascular health in the community during the grant year and subsequent years. Our intent is to maximize the benefit to patients and we will review each application with that in mind.

To qualify for a Foundation grant, an organization is required to be a 501(c)(3) or similar nonprofit organization, based in the United States, and eligible to receive charitable donations. The nonprofit organization must be engaged in charitable work at the community level or otherwise. The program must address the Foundation's *Connections for Cardiovascular Health* mission and meet four key criteria:

1. Address patient cardiovascular health issues within the United States and its territories
2. Recognize and work to address an unmet need related to cardiovascular health in the community
3. Respond to the urgency around addressing cardiovascular health issues including cardiovascular disease or conditions contributing to cardiovascular disease
4. Improve the quality of patients' and non-professional caregivers' lives in connection with the services provided and work done

Foundation grant applications that meet the criteria and describe innovative initiatives with clearly defined outcomes, measurable results and processes will be considered for funding. Applicants must demonstrate sustainability plans for the initiative so that it can continue to improve cardiovascular health after the Foundation grant funds are expended.

Organizational Criteria

- The organization and its program must be based in the United States and its territories.
- The foundation provides grants to organizations that are:
 - Nonprofit with a 501(c)(3) designation
 - Public schools
 - Municipal institutions (e.g. city health department, municipal hospital, or county board of health)
- Applying organizations will be required to provide a copy of their current IRS 990 form or documents that establish eligibility to receive charitable donations as well as audited financials for the past fiscal year.

Funding

- The majority of Foundation grants are between \$150,000 and \$250,000. There is a yearly maximum cap amount of \$1.5 million per program.
- An organization with current funding does not have to wait until that funding has ended to submit another application for a new program.
- Incidental equipment and costs necessary to complete or sustain a project are allowed.
- Programs should be designed with funding for equipment less than 30% of the total budget. Exceptions will only be considered when the equipment is integral to the specific program design (e.g., tele-monitoring equipment, first responder equipment, BP monitoring equipment).

Connections for Cardiovascular HealthSM Criteria

- Multi-year funding grant applications up to three years are accepted. Only extraordinary applications will receive multi-year funding.
 - If multi-year funding is not approved, the application will be considered for one year funding for the amount represented in the first year. For this reason, multi-year program applicants should design program initiatives where results are independent from year to year and not dependent on previous year's activity or future plans.
 - The minimum grant amount for the first year is \$150,000 and \$500,000 is the maximum yearly request for multi-year grants.

Program Design

- **Exclusions.** The Foundation does not fund programs that focus exclusively on the following:
 - Capital investments and unsolicited capital campaigns
 - Media/awareness campaigns
 - Enhancement of existing hospital services (e.g. inpatient case management) or hospital software systems
 - Professional education and/or training for healthcare professionals that is more than incidental to the program
 - Research or clinical trials
 - Healthcare Provider/Cardiologist salaries
 - Faith-based programs that are NOT open to the community-at-large.
- The Foundation does NOT support:
 - Cardiovascular initiatives outside the US or its territories
 - Individuals
 - For-profit organizations
 - Endowments
 - Journals or advertising
 - Political causes, lobbying, fraternal, or social organizations
 - Religious organizations whose activities are not open to the general public
 - Nonprofit organizations that discriminate on the basis of race, gender, creed, culture, age, national origin, physical disability, sexual orientation, or status as a military veteran
- **Preference**—the Foundation seeks programs that:
 - **Are focused on measurable results.** The program should demonstrate clear, defined and designated outcomes, measurements and processes.
 - **Provide an innovative approach.** The program should find innovative ways relevant to the program, population, and goals to maximize benefits for the patients and impact to the community.
 - **Demonstrate sustainability.** Programs should be able to continue beyond potential grant period and potential AstraZeneca HealthCare Foundation funding.
