		Part II Physical Improvements/Housing Habitat for Humanity Analysis of Need The 2009-2013 Consolidated Plan for the City's Community Development Block Grant indicates that the development of supportive housing initiatives for special populations, e g single income families, people with disabilities, seniors and persons with HIV/AIDS, present the greatest need in Missoula County In 2000, 25% of area owners and 51% of renters paid more than 30% of their incomes for housing, by 2007, 40% of homeowners and more than 59% of renters paid more than 30% of their incomes on housing in Missoula County In 2007, an estimated 23 3% of the city's residents were living at or below the federal poverty standard Half of all the single parent families headed by women live below the poverty threshold and more than 70% of the female headed families with children younger than six live in poverty Having a safe and affordable place to live is critical to the overall health of the individual, family and community, therefore supporting housing initiatives for vulnerable populations is enhancing public health The funding provided by St Patrick Hospital for the Habitat Home was for addressing the need of a family of three Additionally, St Patrick Hospital participates and supports other community-wide housing efforts, such as the At Risk Housing Coalition and the North Missoula Community Land Trust housing program Community Support Lowell Summer Reading Program and Kids Ride Free Analysis of Need Lowell Elementary School, the hospital's neighborhood school is located in the most vulnerable neighborhood in Missoula County Key statistics about this neighborhood include, 26% of children live in poverty, 48% of single head of households live in poverty and 27% of all individuals are uninsured The Summer Reading program provides critical academic support for those children in the Title 1 program and attempts to address the high percentage of neighborhood residents who don't have a high school diploma Additionally, St Patrick Hospital partners with the Kid's Cafe, a program of the Missoula Food Bank that provides a nutritious meal for children in this program The Kids Ride Free program is a community sponsored program of Mountain Line public transportation system that seeks to provide children transportation that removes barriers for participation in educational, summer feeding programs and other critical services in the community St Patrick Hospital also sees the Kids Ride Free program as an important part of our Green for Good environmental initiative as well The support of both of these programs is meeting a public health objective and not done for marketing purposes Community Support Leadership Missoula Analysis of Need The Missoula community needs to identify and motivate new leaders to sustain changes for creating a healthier community We want to identify and motivate potential leaders to address community needs and problems and offer them alternatives for dealing with these issues The participation of the hospital in this training is not for marketing, rather it is to benefit the larger community In fact, over 50% of those participating in Leadership Missoula are from the social service sector and this allows for greater collaboration amongst them Community Health Improvement/Advocacy Medication and Medical Coverage Assistance Analysis of Need Uninsured patients often do not fill critical prescriptions due to cost and forego care due to lack of coverage, which affects their long term health This program assists low income and self pay patients with the assistance they need to access patient assistance programs of pharmaceutical companies and state/federal coverage options With the high uninsured rate in Missoula County at 19%, the total number seniors living in poverty at 69% and the many patients with mental illness that St Patrick Hospital serves, we work to bridge patient needs with programs that can support them In addition to the free and discounted care that we provide, we also have State Health Insurance certified counselors trained to assist uninsured and underinsured residents in our community in securing options for both medical and pharmaceutical coverage This program is not done for marketing purposes and meets a necessary public health objective
		Part III, Line 4 It is Providence's policy to exclude all bad debts from Community benefit information The Consolidated Audited Financial Statements do not contain a footnote specific to Bad Debt Expense Bad debt expense is reported in the audited financials as a separate line item within expenses from operations Bad debt expense represents the amount of gross charges for patients who do not have insurance and which Providence was unable to qualify for assistance under either government programs or our internal charity care policy

Identifier	ReturnReference	Explanation
		Part III, Line 8 It is Providence's policy to exclude any Medicare shortfall from Community Benefit information The amount reported on Part III, Section B, line 6 , was determined by applying the Cost-to-Charge Ratio to the Medicare revenue
		Part III, Line 9b Billing and Collection PracticesProvidence has written policies about when and under whose authority patient debt is advanced for collection, and uses its best efforts to ensure that patient accounts are processed fairly and consistently Providence ensures that practices to be used by their outside (non-hospital) collection agencies conform to the standards set forth in this policy, and obtains written commitments from such agencies that they will adhere to those standards Providence also conducts an assessment of each collection agency's adherence to the policy Such assessments are conducted at least annually At time of billing, we provide to all low-income uninsured patients the same information concerning services and charges provided to all other patients who receive care at the hospital When sending a bill to a patient, Providence includes a) a statement that indicates that if the patient meets certain income requirements the patient may be eligible for a government-sponsored program or for financial assistance from the hospital, and b) a statement that provides the patient with the name and telephone number of a hospital employee or office from whom or which the patient may obtain information about Providence's financial assistance policies for patients and how to apply for such assistance Any patient seeking financial assistance from Providence (or the patient's legal representative) provides the individual facility with information concerning health benefits coverage, financial status (i e income, assets) and any other information that is necessary for the hospital to make a determination regarding the patient's status relative to Providence's financial assistance policy, discounted payment policy, or eligibility for government-sponsored programs For patients who have an application pending determination for either government-sponsored coverage or for the hospitals own financial assistance program, Providence will not knowingly send that patient's bill to a collection agency Eligibility for financial assistance will be determined as closely as possible to the date of service

Identifier	ReturnReference	Explanation
		Part VI, Line 2 We recognize that caring for the poor and vulnerable is not a task we can do on our own On a routine basis we conduct a formal community assessment to determine who in our communities is experiencing the greatest need This outreach connects us to many not-for-profits and social service agencies as well as care providers and their clients in the communities To ensure that we conduct a comprehensive assessment, our process includes research, meetings, interviews, focus groups and surveys Additionally, Providence ministries have community and foundation boards The civic leaders that serve on Providence Boards connect our Mission with a local perspective on community needs Our assessment findings are assembled to make certain we understand and respond to local and regional needs, which often vary from one city or county to another Identified areas of need not only guide our community benefit giving, but also guide our strategic planning We believe meaningful community needs assessment provides insight into the complete community benefit that is required, beyond just free and discounted care
		Part VI, Line 3 Communication to the Public Providence hospitals post notices regarding the availability of financial assistance to low-income uninsured patients These notices are posted in visible locations throughout the hospital such as admitting/registration, billing office, emergency department and other outpatient settings Every posted notice regarding financial assistance policies contains brief instructions on how to apply for financial assistance or a discounted payment The notices also include a contact telephone number that a patient or family member can call to obtain more information Providence ensures that appropriate staff members are knowledgeable about the existence of the hospital's financial assistance policies Training is provided to staff members (i e , billing office, financial department, etc) who directly interact with patients regarding their hospital bills When communicating to patients regarding their financial assistance policies, Providence attempts to do so in the primary language of the patient, or his/her family, if reasonably possible, and in a manner consistent with all applicable federal and state laws and regulations Providence shares their financial assistance policies with appropriate community health and human services agencies and other organizations that assist such patients

Identifier	ReturnReference	Explanation
		Part VI, Line 4 St Patrick Hospital is a Catholic, not-for-profit acute care tertiary medical center located in Missoula, Montana The hospital serves a primary service area of about 200,000 people in western Montana and 400,000 others in contiguous areas St Patrick Hospital provides cardiac and neurosurgical services along with other acute inpatient medical/surgical services and inpatient rehabilitation and neurobehavioral medicine St Patrick Hospital operates the only level 2 Trauma Center in Western Montana and has accredited chest pain, stroke and child advocacy programs (FirstSTEP) At St Patrick Hospital, 55% of patients are covered by Medicare, another 8% are covered by Medicaid and 8% are self-pay and uninsured St Patrick Hospital serves a higher percentage of older adults, with 15% of the primary service area's population over the age of 65 With approximately 19% of the population living in poverty, the community is characterized by lower income levels than the national average
		Part VI, Line 5 Providence Medical Group manages 32 primary care and specialty provider practices, employing 133 total providers St Patrick Hospital, St Joseph Medical Center and Providence Medical Group collectively build and support coordinated services across the continuum of care to meet regional residents' needs, while mutually supporting organizational, operational, and fiscal health Joint ventures include research collaborations (cardiac, neuroscience, and oncology) with the University of Montana, affiliations with long term care facilities, a federally qualified health center and a surgery center, among others The associated providers with Providence Medical Group ensured increased access to primary care with 153,461 patient encounters and have made those services affordable through a patient financial assistance program St Patrick Hospital management is directed by an independent governing board which helps direct the hospital in its Mission to serve the community The composition of the governing board represents the diversity of the community by having representatives from local government, social service agencies, medical providers, independent business representatives and interested community members The St Patrick Hospital Board reviews and develops the community benefit plan, providing information and insight into community needs and resources and helping set priorities for what community needs are to be addressed They also receive regular updates on the overall community benefit strategy and specific programs to assess whether the organization is having an impact on the health of the community The Institute of Medicine and Humanities is a joint program of The University of Montana and St Patrick Hospital The Institute fosters the human dimensions of health care by working at the interface of the humanities and medicine Since its inception in 1987, the Institute of Medicine and Humanities has employed both the traditional humanities and the fine arts to illuminate and understand major issues that confront health care in contemporary society As medicine has changed, the institute has also evolved its focus to look more broadly at opportunities to make a difference through education in the health care environment with an emphasis on health, as opposed to health care specifically This includes education of the public about important health care issues, education of undergraduates interested in the health care profession, and education of graduate level nursing, pharmacy and medical students in ethics, collaborative care and team building and conflict resolution

Identifier	Return Reference	Explanation
	Form 990, Part VI, Section B, line 11	The Form 990 is prepared internally by experienced staff and reviewed by the internal Director of Taxes and external tax advisors. The Board of Directors reviewed the Form 990 prior to filing with the IRS.

Identifier	Return Reference	Explanation
	Form 990, Part VI, Section B, line 12c	Providence Health & Services maintains a conflict of interest policy that applies to board members and management of all Providence-related organizations. The purpose of the policy is to guide and direct those serving the Providence Health & Services' corporations and other legal entities so they can (1) fulfill their fiduciary responsibilities and exercise stewardship in ways that promote and protect the best interests of Providence and, (2) avoid situations that create a conflict, or the appearance of a conflict, between the interests of an individual associated with Providence and Providence. On an annual basis, each board member and management level employee must complete and submit an updated conflict of interest statement. Conflict of interest disclosures are reviewed by the System Integrity Department working in conjunction with the Department of Legal Affairs. If it is determined that an actual conflict exists, appropriate follow-up action is taken with the individual to rectify the conflict.

Identifier	Return Reference	Explanation
	Form 990, Part VI, Section B, line 15	It is Providence's intention to make financial information accessible and transparent. Although the filing of Form 990 provides insight into how Providence achieves its Mission, delivers its programs and stewards its finances, deciphering the information directly from Form 990 can be challenging. The following paragraphs provide further information about the process we use to determine compensation for top management, officers and key employees. Providence has a single fiduciary Board, with responsibility for financial oversight associated with fulfillment of the Providence Mission, developing system policies, protecting the assets entrusted to the organization and overseeing the strategic and operational affairs of Providence's legal entities. Providence also maintains a network of community ministry boards with responsibility for quality of care oversight, community relations, advocacy and community needs assessments. Providence has a consistent compensation philosophy for all of its employees, including our senior executives. Salaries for senior executives are determined by the Providence Board's Human Resources Committee and approved by the full Board of Directors, none of whom is a Providence employee. The Board retains an independent consultant each year to review salaries of those in the most significant leadership roles in the organization. Part of the consultant's role is to review an extensive array of compensation surveys of large, not-for-profit health care systems in the United States. Providence is one of the larger health systems in the country, and as such, the Board benchmarks executive compensation against other large, not-for-profit health systems whose revenue is similar to that of Providence. Base salaries for Providence executives are set at the median level of the market, as identified by the independent consultant and reviewed with the Human Resources Committee. Each year, the Board Chair conducts a formal performance evaluation of the President/CEO that considers input from the other directors and senior leaders reporting to the President. The evaluation is discussed with the Human Resources Committee and then a recommendation is made by the committee to the full Board. The Board Chair and the Chair of the Human Resources Committee also meet with an independent consultant to develop a salary recommendation, which is reviewed and approved first by the committee and then by the Board of Directors. Additionally, the President/CEO utilizes the market information provided by the consultant along with formal performance evaluations, to determine salary recommendations for other senior executives. This process includes a rigorous analysis of those recommendations with the Human Resources Committee as a part of the review and approval process. Performance incentives allow executives to earn additional compensation if they achieve specific organizational and individual goals for furthering Providence operating principles - advancing the Providence Mission and core values, meeting benchmarks for charity care, achieving quality targets, delivering top-rated customer satisfaction, meeting employee satisfaction goals and reaching financial performance objectives. The Board of Directors conducts a thorough process to ensure performance incentives are aligned with appropriate practices for not-for-profit health care systems. The Board's process for executive compensation fully complies with IRS standards and mirrors the best practices recommended in the "Report to Congress and the Nonprofit Sector on Governance, Transparency, and Accountability" submitted to the Senate Finance Committee by the Panel on the Nonprofit Sector.

Independent Auditors' Report

The Board of Directors
Providence Health & Services

We have audited the accompanying combined financial statements of Providence Health & Services, which comprise the combined balance sheets as of December 31, 2012 and 2011, and the related combined statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the combined financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with U.S. generally accepted accounting principles. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these combined financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the combined financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the combined financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the combined financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the combined financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the combined financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the combined financial statements referred to above present fairly, in all material respects, the financial position of Providence Health & Services as of December 31, 2012 and 2011, and the results of their operations and their cash flows for the years then ended in accordance with U.S. generally accepted accounting principles.

Emphasis of Matter

Our audit was performed for the purpose of forming an opinion on the combined financial statements as a whole. The supplemental information, included on pages 40 and 41 is presented for the purpose of additional analysis and is not a required part of the combined financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the combined financial statements. The information has been subjected to the auditing procedures applied in the audit of the combined financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the combined financial statements or to the combined financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the combined financial statements as a whole.

(c) Organizational Changes

Swedish Health Services Affiliation

On February 1, 2012, Providence Health & Services (Providence) and Swedish Health Services (Swedish) (Providence and Swedish are collectively referred to as the Health System) effected an Affiliation Agreement, which financially, clinically, and operationally integrated the two health systems. Pursuant to the Affiliation, Western HealthConnect, which as mentioned above, is a

PROVIDENCE HEALTH & SERVICES

Notes to Combined Financial Statements

December 31, 2012 and 2011

co-Member (with Providence Ministries) of Providence Health & Services – Western Washington, became Swedish's sole Member. Additionally, the Affiliation requires that respective Boards of Directors and corporate officers of Providence, Western HealthConnect, Swedish, and Providence Health & Services – Western Washington are comprised of the same individuals to facilitate co-governance and management oversight of these fully integrated entities. Providence and Swedish have affiliated to create a fully integrated, nonprofit, charitable health care system serving communities throughout Western Washington.

Swedish provides comprehensive inpatient, outpatient, and emergency healthcare services through five acute care hospitals, a network of primary care medical clinics, two emergency service centers, and other medical organizations, primarily in Seattle and the surrounding Washington area. Swedish also operates the Swedish Medical Center Foundation to provide fundraising to further the charitable, educational, healthcare, and scientific activities of Swedish. The results of operations of these entities have been included in the combined statements of operations of the Health System since the February 1, 2012 effective date of the Affiliation.

This transaction was accounted for as an acquisition under Accounting Standards Codification (ASC) 958-805, *Not-for-Profit Entities – Business Combinations*. No consideration was paid by the Health System to acquire the net assets of Swedish. The affiliation resulted in an excess of assets acquired over liabilities assumed, reported as a contribution from Swedish to the Health System of approximately \$810,299,000. The unrestricted portion of the contribution of \$766,252,000 is included in net nonoperating gains in the accompanying combined statement of operations. The remaining \$44,047,000 of the contribution was restricted and is recorded in restricted net assets in the combined statement of changes in net assets.

The following table summarizes the fair value estimates of the Swedish assets acquired and liabilities assumed as of February 1, 2012 (in thousands of dollars):

Facey Medical Foundation and Facey Medical Group Affiliation

Effective July 1, 2012, Providence Health System – Southern California entered into an affiliation agreement with Facey Medical Foundation and Facey Medical Group. The Facey Medical Foundation is a nonprofit medical foundation, which operates ten clinics in the North San Fernando, Santa Clarita, San Gabriel and Simi Valleys. These sites are staffed by the Facey Medical Group physicians pursuant to a professional services agreement. No cash or other purchase consideration was transferred to effect the affiliation. The results of operations of these entities have been included in the combined statements of operations of the Health System effective as of the date of affiliation. The affiliation resulted in an excess of assets acquired over liabilities assumed, or a contribution from Facey to the Health System of approximately \$38,546,000.

(d) *Affiliated Transactions*

Inter-affiliate Borrowings

The Health System has a policy to loan funds among its affiliates at various interest rates. These transactions eliminate upon consolidation.

Self-Insurance Liability

The Health System has established self-insurance programs for professional and general liability and workers' compensation insurance coverage. These programs provide insurance coverage for healthcare institutions associated with the Health System. The Health System also operates an insurance captive, Providence Assurance, Inc., to self-insure certain layers of professional and general liability risk.

(2) Summary of Significant Accounting Policies

(a) *Basis of Presentation*

The financial statements of the Health System are presented on a combined basis due to the operational interdependence of the organization and because the respective Boards of Directors and corporate officers of Providence and Swedish are comprised of the same individuals. All significant transactions and accounts between divisions and combined affiliates of the Health System have been eliminated. The Health System has performed an evaluation of subsequent events through April 8, 2013, which is the date these combined financial statements were issued.

(b) *Use of Estimates*

The preparation of the combined financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the combined financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(c) *Cash and Cash Equivalents*

Cash and cash equivalents include investments in highly liquid debt instruments with an original or remaining maturity of three months or less when acquired.

(d) *Supplies Inventory*

Supplies inventory is stated at the lower of cost (first-in, first-out) or market.

(e) *Property, Plant, and Equipment*

Property, plant, and equipment are stated at cost. Improvements and replacements of plant and equipment are capitalized. Maintenance and repairs are expensed. The cost of the property, plant, and equipment sold or retired and the related accumulated depreciation are removed from the accounts, and the resulting gain or loss is recognized at the time of disposal.

PROVIDENCE HEALTH & SERVICES

Notes to Combined Financial Statements

December 31, 2012 and 2011

The Health System assesses potential impairment to their long-lived assets when there is evidence that events or changes in circumstances have made recovery of the carrying value of the assets unlikely. An impairment loss, equal to the excess, if any, of the carrying value over the fair value less disposal costs, is recognized when the sum of the expected future undiscounted net cash flows from the use and disposal of the asset is less than the carrying amount of the asset.

(f) Depreciation

The provision for depreciation is determined by the straight-line method, which allocates the cost of tangible property equally over its estimated useful life or lease term.

(g) Capitalized Interest

Interest capitalized on amounts expended during construction in process is a component of the cost of additions to be allocated to future periods through the provision for depreciation. Capitalization of interest ceases when the addition is substantially complete and ready for intended use. The Health System capitalized \$19,274,000 and \$27,200,000 of interest costs during the years ended December 31, 2012 and 2011, respectively.

(h) Financing Costs

Financing costs are recorded in other assets and are amortized using the effective-interest method over the term of the related debt, or to the earliest date at which a creditor can demand payment.

(i) Goodwill and Indefinite Lived Intangible Assets

Goodwill and indefinite lived intangible assets, which are not amortized as they are considered to have an indefinite life, are recorded in other assets as the excess of cost over fair value of the acquired net assets. Goodwill and indefinite lived intangible assets are tested at least annually for impairment. As a result of the Swedish affiliation transaction, approximately \$56,406,000 was assigned to indefinite lived intangible assets.

(j) Assets Whose Use Is Limited

The Health System has designated all of its investments in debt and equity securities as trading. All investments in debt and equity securities are reported on the combined balance sheets at fair value.

Assets whose use is limited primarily include assets held by trustees under indenture agreements, self-insurance funds, funds held for the payment of health plan medical claims, assets held by related foundations, and designated assets set aside by the management of Providence Health & Services for future capital improvements and other purposes, over which management retains control. Amounts required to meet current liabilities of the Health System have been reclassified as current in the combined balance sheets at December 31, 2012 and 2011.

(k) Net Assets

Unrestricted net assets are those that are not subject to donor imposed stipulations. Amounts related to the Health System's noncontrolling interests in certain joint ventures are included in unrestricted net assets. Temporarily restricted net assets are those whose use by the Health System has been

PROVIDENCE HEALTH & SERVICES

Notes to Combined Financial Statements

December 31, 2012 and 2011

limited by donors to a specific time period and/or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the Health System in perpetuity. Unless specifically stated by donors, gains and losses on temporarily and permanently restricted net assets are recorded as temporarily restricted.

(l) Donor-Restricted Gifts

Unconditional promises to give cash and other assets to the Health System are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted contributions if they are received with donor stipulations that limit the use of the donated assets. When the terms of a donor restriction are met, temporarily restricted net assets are reclassified as unrestricted net assets and reported as other revenues in the combined statements of operations or changes in net assets as net assets released from restriction.

(m) Net Patient Service Revenues

The divisions of the Health System have agreements with governmental and other third-party payors that provide for payments to the divisions at amounts different from the Health System's established charges. Payment arrangements for major third-party payors may be based on prospectively determined rates, reimbursed cost, discounted charges, per diem payments, predetermined rates per HMO enrollee per month, or other methods.

Net patient service revenues are reported at the estimated net realizable amounts due from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with governmental payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as appropriate. Adjustments from finalization of prior years' cost reports and other third-party settlement estimates resulted in an increase in net patient service revenues of \$11,017,000 and \$12,647,000 for the years ended December 31, 2012 and 2011, respectively. During 2012, the Health System received \$36,805,000 related to a settlement from Centers for Medicare & Medicaid Services (CMS).

The composition of significant third-party payors for the years ended December 31, 2012 and 2011, as a percentage of net patient service revenues, is as follows:

	2012	2011
Commercial and other insurance	53%	49%
Medicare	31	32
Medicaid	12	14
Self-pay	4	5
	<u>100%</u>	<u>100%</u>

(n) *Provision for Bad Debts*

The Health System provides for an allowance against patient accounts receivable for amounts that could become uncollectible. The Health System estimates this allowance based on the aging of accounts receivable, historical collection experience by payor, and other relevant factors. There are various factors that can impact the collection trends, such as changes in the economy, which in turn have an impact on unemployment rates and the number of uninsured and underinsured patients, the increased burden of copayments to be made by patients with insurance coverage and business practices related to collection efforts. These factors continuously change and can have an impact on collection trends and the estimation process used by the Health System. The Health System records a provision for bad debts in the period of services on the basis of past experience, which has historically indicated that many patients are unresponsive or are otherwise unwilling to pay the portion of their bill for which they are financially responsible. The estimates made and changes affecting those estimates for the years ended December 31, 2012 and 2011 are summarized below:

		<u>2012</u>	<u>2011</u>
		(In thousands of dollars)	
Changes in allowance for doubtful accounts			
Allowance for doubtful accounts at beginning of year	\$	214,433	171,047
Write-off of uncollectible accounts, net of recoveries		(233,226)	(274,948)
Provision for bad debts		389,890	318,334
Allowance for doubtful accounts at end of year	\$	<u>371,097</u>	<u>214,433</u>

(o) *Premium Revenues, Premiums Receivable, Unearned Premiums, and Capitation Revenues*

Health plan revenues consist of premiums paid by employers, individuals, and agencies of the federal and state governments for healthcare services. Health plan revenues are received on a prepaid basis and are recognized as revenue during the month for which the enrolled member is entitled to healthcare services. Premiums received for future months are recorded as unearned premiums. Capitation revenues consist of payments made at the beginning of the period and obligate the Health System to render covered services during the period.

(p) *Meaningful Use*

The Health Information Technology for Economic and Clinical Health Act, part of the American Recovery and Reinvestment Act of 2009, created an incentive program, beginning in 2011, to promote the "meaningful use" of Electronic Health Records (EHR). To qualify, providers must attest that they are using certified EHR in a "meaningful" way by meeting objectives at established thresholds, as defined by CMS. Meaningful use revenues are recognized as grant revenue. Grant revenue is recognized when there is reasonable assurance that the grant will be received and that the organization will comply with the conditions attached to the grant. \$54,542,000 and \$24,503,000 in meaningful use revenues were recognized for the years ended December 31, 2012 and 2011, respectively, and are included in other operating revenues in the accompanying combined statement of operations. The amount recognized is based on management's best estimate and is subject to audit and potential retrospective adjustments.

(q) *Other Operating Revenue*

Other operating revenue includes rental revenue, equity earnings from joint ventures, contributions released from restrictions, cafeteria revenue, and other miscellaneous revenue

(r) *Charity and Un-sponsored Community Benefit Costs*

The divisions of the Health System have policies that provide for serving those without the ability to pay. The policies also provide for discounted sliding scale payments based on the income and assets of the person responsible for the bill. In addition to uncompensated care, the Health System's divisions also provide services that benefit the poor and others in the communities they serve.

Information for the Health System for the years ended December 31, 2012 and 2011 is summarized below:

	2012	2011
	(In thousands of dollars)	
Cost of charity care provided	\$ 272,460	203,660
Unpaid cost of Medicaid services	344,601	256,568
Education and research programs, net cost	89,809	76,229
Nonbilled services, net cost	40,249	28,996
Negative margin services and other, net cost	75,875	85,749
Un-sponsored community benefit costs	<u>\$ 822,994</u>	<u>651,202</u>
Percentage of total operating expenses, excluding purchased healthcare	8.5%	8.7%

The cost of charity care provided is calculated based on each division's aggregate relationship of costs to charges. The unpaid cost of Medicaid services is the cost of treating Medicaid patients in excess of government payments. Education includes the unpaid cost of training health professionals, such as medical residents in excess of payments received from Medicare and Medicaid for Graduate Medical Education programs. Research programs include the unpaid cost of controlled studies of therapeutic protocols and development of new treatment protocols. Nonbilled services include the cost of services for which neither the patient or insurance is billed or for which a nominal fee has been assessed. Negative margin services include programs for which net patient service revenue is less than cost incurred to provide the service to meet a need in the community. Unpaid cost of Medicaid services, education and research programs, nonbilled services, and negative margin services are net of revenues of \$1,134,189,000 and \$940,527,000 for the years ended December 31, 2012 and 2011, respectively.

(s) *Net Nonoperating Gains*

Net nonoperating gains primarily include investment income, income from recipient organizations, and other income. Additionally, contributions from affiliations with Swedish and Facey are included in net nonoperating gains in 2012.

PROVIDENCE HEALTH & SERVICES

Notes to Combined Financial Statements

December 31, 2012 and 2011

(t) *Excess of Revenues over Expenses*

Excess of revenues over expenses includes all changes in unrestricted net assets, except for net assets released from restriction for the purchase of property, certain changes in funded status of postretirement benefit plans, net changes in noncontrolling interests in combined joint ventures, and other

(u) *Income Taxes*

The Health System and substantially all of the various corporations within the Health System have been recognized as exempt from federal income taxes, except on unrelated business income, under Section 501(c)(3) of the Internal Revenue Code (IRC)

For the taxable corporations, deferred income taxes are provided for the future tax consequences of temporary differences between financial and tax reporting. Deferred tax assets and liabilities are measured based on enacted tax laws and rates expected to apply to taxable income in the years in which temporary differences are expected to be recorded or settled. Income taxes did not have a material impact on the combined financial position or results of operations of the Health System as of and for the years ended December 31, 2012 and 2011.

The Health System recognizes the effect of income tax positions only if those positions are more likely than not of being sustained. Recognized income tax positions are measured at the largest amount that is greater than 50% likely of being realized. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

Providence Plan Partners, Providence Health Plan, and Providence Health Assurance are not-for-profit entities and have been recognized as exempt from federal income taxes, except on unrelated business income, as social welfare organizations under Section 501(c)(4) of the IRC.

(v) *Recently Issued or Adopted Accounting Standards*

In 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-07, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities*, which provides financial statement users with greater transparency about a health care entity's net patient service revenue and the related allowance for doubtful accounts. The amendments require health care entities to present the provision for bad debts related to patient service revenue as a deduction from patient service revenue (net of contractual allowances and discounts) on their statement of operations. This standard was effective for the 2012 fiscal year and was applied on a retrospective basis to 2011.

(w) *Health Care Reform*

As enacted, the Health Reform Law will change how healthcare services are covered, delivered and reimbursed through expanded coverage of uninsured individuals, reduced growth in Medicare program spending, reductions in Medicare and Medicaid Disproportionate Share Hospital (DSH) payments, and the establishment of programs in which reimbursement is tied to quality and integration. In addition, the law reforms certain aspects of health insurance, expands existing efforts

PROVIDENCE HEALTH & SERVICES

Notes to Combined Financial Statements

to tie Medicare and Medicaid payments to performance and quality, and contains provisions intended to strengthen fraud and abuse enforcement. Further, it provides for a value-based purchasing program, the establishment of Accountable Care Organizations (ACO's) and bundled payment pilot programs. On June 28, 2012, the United States Supreme Court upheld the constitutionality of the individual mandate provisions of the Health Reform Law but struck down the provisions that would have allowed Health and Human Services (HHS) to penalize states that do not implement the Medicaid expansion provisions with the loss of existing federal Medicaid funding. States that choose not to implement the Medicaid expansion will forego funding established by the Health Reform Law to cover most of the expansion costs.

(x) *Reclassifications*

Certain reclassifications have been made to prior year amounts to conform to the current year presentation to more consistently present financial information between years.

(3) **Fair Value of Financial Instruments**

ASC Topic 820 (Topic 820), *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 inputs are unobservable inputs for the asset or liability.

The level in the fair value hierarchy within which a fair measurement in its entirety falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The fair value of management-designated cash and investments, funds held for long-term purposes, and funds held by trustee, which are the amounts reported in the combined balance sheets, are estimated based on quoted market prices. For long-term debt, the fair value is based on Level 2 inputs, such as the discounted value of the future cash flows using current rates for debt with the same remaining maturities, considering the existing call premium and protection. The carrying value and fair value of long-term debt, including accrued interest, was \$3,460,347,000 and \$3,758,316,000, respectively, as of December 31, 2012, and \$2,310,466,000 and \$2,464,850,000, respectively, as of December 31, 2011.

PROVIDENCE HEALTH & SERVICES

Notes to Combined Financial Statements

December 31, 2012 and 2011

Other financial instruments of the Health System include cash and cash equivalents and other receivables. The carrying amount of these instruments approximates fair value because these items mature in less than one year. The carrying amount of other long-term investments approximates fair value.

(a) *Collective Investment Funds*

Collective investment funds include investments that are held by a trust company that handles a pooled group of trust accounts. The Health System holds seven funds and has no unfunded commitments or provisions significantly impacting liquidity at December 31, 2012. The underlying holdings of these funds are primarily comprised of publicly traded domestic equity and debt securities, whose fair value is readily determinable.

The fair value estimates of the collective investment funds are estimates determined by management using various information sources, including information provided by the fund managers. The collective investment funds classified in Level 2 consist of shares or units in the investment funds as opposed to direct interests in the fund's underlying holdings, which are marketable securities. Because the net asset value reported by each fund is used as a practical expedient to estimate the fair value of the Health System's interest therein, its classification in Level 2 is based on the Health System's ability to redeem its interest at or near the balance sheet date. The classification in the fair value hierarchy is not necessarily an indication of the risks, liquidity, or degree of difficulty in estimating the fair value of each investment's underlying assets and liabilities.

(b) *Securities Lending Agreements*

The Health System has securities lending agreements with financial institutions that serve as the lending agent. These agreements authorize the lending agents to lend securities owned by the Health System to an approved list of borrowers. Under the agreements, the lending agents are responsible for negotiating each loan for an unspecified term while retaining the power to terminate the loan at any time. At the time each loan is made, the lending agents require collateral equal to 102% of the market value of the loaned securities and accrued interest. While any securities are loaned, the Health System retains all rights of ownership, except it waives its right to vote such securities. The collateral related to the securities loaned totaled \$51,220,000 and \$86,987,000 at December 31, 2012 and 2011, respectively. In connection with securities lending activities the Health System has recognized a net investment loss of \$1,365,000 and \$1,984,000, for the years ended December 31, 2012 and 2011, respectively. Net investment gains and losses are included in net nonoperating gains in the accompanying combined statements of operations.

The Health System's funds held by trustee are segregated from other cash and investments for various purposes. Included in funds held by trustee as of December 31, 2012 and 2011, respectively, are \$3,052,000 and \$33,145,000 obtained from borrowings under the Health System's master trust indenture for construction and other ongoing projects. The Health System also includes in funds held by trustee \$192,299,000 and \$185,742,000 at December 31, 2012 and 2011, respectively, related to the self-insurance and pension trusts. Within the self-insured trusts, the balance is based on management's assessment of annual need. Any additional investments are considered management-designated.

The Health System has designated its investment portfolio as trading, which results in all gains and losses being recognized currently as nonoperating activity.

The Health System participates in various joint ventures for the purpose of furthering its healthcare mission. These joint ventures exist in all geographic locations in which the Health System operates. The primary purposes of the ventures are to provide outpatient services such as laboratory, outpatient surgery, and medical imaging. Various joint ventures, throughout the Health System, are controlled and consequently are combined in the financial statements of the Health System. All other joint ventures are accounted for under the equity method of accounting. The Health System recorded earnings from equity method investees of \$37,394,000 and \$61,083,000 for the years ended December 31, 2012 and 2011, respectively, the majority of which are included in other operating revenues in the accompanying combined statements of operations.

(7) Short-Term and Long-Term Debt

The Health System has borrowed Master Trust debt issued through the following

- California Health Facilities Financing Authority (CHFFA)
- Alaska Industrial Development and Export Authority (AIDEA)
- Hospital Facilities Authority of Multnomah County (HFAMC)
- Washington Health Care Facilities Authority (WHCFA)
- Montana Facility Finance Authority (MFFA)

Providence Health & Services – Washington, Providence Health & Services – Western Washington, Western HealthConnect, Swedish Health Services, Providence Health & Services – Oregon (exclusive of Providence Plan Partners), Providence Health System – Southern California (exclusive of Medical Institute of Little Company of Mary, Lifecare Ventures, Inc., and TrinityCare Hospice), Providence St Joseph Medical Center, and Providence Health & Services – Montana, exclusive of related housing projects financed by the U S Department of Housing and Urban Development and foundations, are the members of an Obligated Group formed for issuing debt under a master trust indenture. Members of the Obligated Group are jointly and severally responsible for all borrowings under the master trust indenture of the Obligated Group. The master trust indenture and bond trust indentures for each debt issue require the Obligated Group to meet certain financial covenants.

In July 2012, the Health System issued \$1,011,130,000 of WHCFA fixed rate and variable rate bonds. A portion of the proceeds were used to redeem \$821,844,000 of existing Swedish debt. In connection with these redemptions, Swedish Health Services (exclusive of Swedish Edmonds and the Swedish Medical Center Foundation), became a member of the Obligated Group. The Series 2012C, D, and E bonds are variable rate demand bonds (VRDBs) and bear interest at weekly rates. These bonds are supported by stand-by bond purchase agreements, the terms of which define material adverse changes and mitigate subjectivity and provide liquidity beyond one year, and accordingly result in long-term classification on the accompanying combined balance sheets.

In connection with the Series 2012A-E issuances and the Series 2011C issuance, the Health System recorded losses due to extinguishment of debt of \$53,596,000 and \$2,303,000 in 2012 and 2011, respectively, which were recorded in net nonoperating gains in the accompanying combined statement of operations.

(a) Master Trust Debt Classified as Short-Term

Hospital Facility Authority of Clackamas County, Oregon Revenue Bonds, Series 2003D, E, F, and G

The Series 2003D, E, F, and G bonds were issued in May 2003 as auction rate bonds. In October 2008, the bonds were converted to a unit pricing mode pursuant to the Series 2003 D, E, F, and G Trust Indenture. Under the unit pricing mode, the interest reset period varies with each remarketing and ranges between one and 270 days. In connection with the revised terms under the unit pricing mode, the remaining balance was reclassified to short-term debt due to the reset periods and remarketing, therefore the balance could become due and payable in 2013. The average interest

rate in effect on December 31, 2012 was 0.18%. Annual scheduled principal payments range from \$3,500,000 in 2016 to \$18,175,000 in 2033.

Commercial Paper, Series 2008A

The Health System participates in a commercial paper program. During 2012, the Health System made principal and interest payments on matured commercial paper and reissued new commercial paper, maintaining a balance ranging between \$144,000,000 and \$194,000,000 throughout the year. The average interest rate in effect during 2012 was 0.22%.

U.S. Bank Credit Facility

The Health System has a \$150,000,000 Credit Facility with U.S. Bank, of which \$86,001,000 in borrowings was outstanding at December 31, 2012. The interest rate in effect on December 31, 2012 was 0.56%, and the maturity date is September 30, 2013. The interest rate is based on LIBOR plus 0.35%.

(b) Other Long-Term Debt

Other long-term debt primarily includes bonds that are not under the master trust indenture, capital leases, and notes payable. Other long-term debt at December 31, 2012 and 2011 consists of the following:

Balance Plan) The plan was frozen effective December 31, 2009. The plan benefits are based on defined average compensation and years of service. The plan has a five year cliff vesting schedule. The Health System's funding policy is based on the actuarially determined cost method, and includes normal service cost and prior service costs amortized over a 20-year period. Under the Cash Balance Plan, each employee carries an individual account balance. The Health System makes an annual contribution and provides an annual interest credit to each employee's account.

Supplemental Executive Retirement Plan

The Health System has a noncontributory supplemental executive retirement plan (the SERP) covering certain employees who were employed in certain key positions or pay grades or that have been designated by the Health System. The plan was frozen effective December 31, 2009. The plan benefits were based on defined average compensation and years of service. The vesting period for the plan requires an executive attain age 55 with at least five years of eligible service. The Health System's funding policy is based on the actuarially determined cost method, and includes normal service cost and prior service costs amortized over a 20-year period. Under the SERP, each employee carries an individual account balance. The Health System makes an annual contribution and provides an annual interest credit to each employee's account.

Swedish Health Services Pension Plan

The Swedish Health Services Pension Plan (the Pension Plan) is a noncontributory plan covering a majority of Swedish employees, and provides benefits based on number of years of credited service and compensation earned during the participation in the Pension Plan. The Pension Plan is frozen to all former and existing nonrepresented employees and to all new participants. Only represented employees that were active in the plan on December 31, 2009 remain in the plan actively accruing benefits. Swedish makes annual contributions to the Pension Plan.

Willamette Falls Pension Plan

The Willamette Falls Pension Plan is also a noncontributory plan covering a majority of employees at Providence Willamette Falls. The plan was frozen effective February 2008. The plan benefits are based on years of service and compensation during an employee's period of employment. The funding policy is based on the actuarially determined cost method, and includes normal service cost and prior service costs amortized over a 20-year period. Under the Willamette Falls Pension Plan, each employee carries an individual monthly annuity benefit.

The Cash Balance Plan, the SERP, the Pension Plan, and the Willamette Falls Pension Plan are collectively "the defined benefit plans."

The Health System's contributions to these defined benefit plans for the years ended December 31, 2012 and 2011 were \$89,983,000 and \$49,474,000, respectively.

December 31, 2012 and 2011

Net periodic pension cost for the defined benefit plans for 2012 and 2011 includes the following components

	<u>2012</u>	<u>2011</u>
	(In thousands of dollars)	
Components of net periodic pension cost		
Service cost	\$ 24,149	4,215
Interest cost	126,393	91,241

Settlement expense	33,971	32,500
Net periodic pension cost	<u>\$ 117,816</u>	<u>67,605</u>

Total expense for all of the Health System's defined benefit plans for the years ended December 31, 2012 and 2011 was \$117,816,000 and \$67,605,000, respectively. Included in the total expense is \$33,971,000 and \$32,500,000 of settlement costs that were incurred in 2012 and 2011, respectively, related to settlements that were greater than the sum of the service cost and interest cost components of net periodic pension cost. This settlement expense is included in net nonoperating gains in the accompanying combined statements of operations. The remaining expense is included in employee benefits in the accompanying combined statements of operations.

The accumulated benefit obligation was \$2,833,430,000 and \$1,884,190,000 at December 31, 2012 and 2011, respectively.

The following pension benefit payments reflect expected future service. Payments expected to be paid over the next 10 years are as follows (in thousands of dollars):

2013	\$ 191,105
2014	198,422
2015	198,339
2016	200,987
2017 – 2022	<u>1,162,347</u>
	<u>\$ 1,951,200</u>

The Health System expects to contribute approximately \$74,000,000 to the defined benefit plans in 2013.

The expected long-term rate of return on plan assets is the expected average rate of return on the funds invested currently and on funds to be invested in the future in order to provide for the benefits included in the projected benefit obligation. The Health System used 7.0% in calculating the 2012 and 2011 expense amounts. This assumption is based on capital market assumptions and the plan's target asset allocation.

PROVIDENCE HEALTH & SERVICES

Notes to Combined Financial Statements

December 31, 2012 and 2011

The Health System continues to monitor the expected long-term rate of return. If changes in those parameters cause 7.0% to be outside of a reasonable range of expected returns, or if actual plan returns over an extended period of time, suggest that general market assumptions are not representative of expected plan results, the Health System may revise this estimate prospectively.

Target asset allocation and expected long-term rate of return on assets (ELTRA) at December 31 was as follows:

	2012 and 2011 Target	2012 ELTRA	2011 ELTRA
Cash and cash equivalents	5%	0.5% – 2%	0.5% – 2%

The fair value estimates of certain funds are estimates determined by management using various information sources, including information provided by the fund managers. Certain funds classified in Level 2 consist of shares or units in the investment funds as opposed to direct interests in the fund's underlying holdings, which are marketable securities. Because the net asset value reported by each fund is used as a practical expedient to estimate the fair value of the Health System's interest therein, its classification in Level 2 is based on the Health System's ability to redeem its interest at or

near the balance sheet date. The classification in the fair value hierarchy is not necessarily an indication of the risks, liquidity, or degree of difficulty in estimating the fair value of each investment's underlying assets and liabilities.

The following table presents the Health System's activity for assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the year ended December 31, 2012 (in thousands of dollars):

(b) Defined Contribution Plans

401(a) Service Plan

The Health System sponsors the Providence Health & Services 401(a) Service Plan (the Service Plan). The Service Plan covers substantially all Providence employees, with contributions based on defined eligible compensation and years of service. The plan has a five year cliff vesting schedule. The Health System contributed \$135,195,000 to the Service Plan in 2012 related to 2011, and has accrued a liability of \$138,439,000 as of December 31, 2012 related to contributions, which has been included in the current portion of retirement plan obligations on the accompanying combined balance sheets.

403(b) Value Plan

The Health System also sponsors the Providence Health & Services 403(b) Value Plan (the Value Plan). The plan is a defined contribution plan, which includes a qualified cash or deferred arrangement, for the benefit of eligible employees. Vesting is immediate. Total Value Plan expense, primarily related to contributions, was \$80,465,000 and \$53,602,000 in 2012 and 2011, respectively.

(9) Self-Insurance Liability

The Health System accrues estimated self-insured professional and general liability and workers' compensation insurance claims based on management's estimate of the ultimate costs for both reported claims and actuarially determined estimates of claims incurred-but-not-reported. Insurance coverage in

excess of the per occurrence self-insured retention, has been secured with insurers or reinsurers for specified amounts for professional, general and workers' compensation liabilities. Decisions relating to the limit and scope of the self-insured layer and the amounts of excess insurance purchased are reviewed each year, subject to management's analysis of actuarial loss projections and the price and availability of acceptable commercial insurance.

At December 31, 2012 and 2011, the estimated liability for future costs of professional and general liability claims was \$190,934,000 and \$178,854,000, respectively. At December 31, 2012 and 2011, the estimated workers' compensation obligation was \$143,919,000 and \$132,216,000, respectively, in the accompanying combined balance sheets. At December 31, 2012 and 2011, \$238,408,000 and \$236,126,000, respectively, of these amounts were included as self-insurance liability, net of current portion, with the remainder included within current portion of self-insurance liability, in the accompanying combined balance sheets.

(10) Commitments

Firm purchase commitments, primarily related to construction, software, and supplies, at December 31, 2012, were approximately \$226,000,000.

(11) Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are available for the following purposes at December 31, 2012 and 2011:

	<u>2012</u>	<u>2011</u>
	(In thousands of dollars)	
Program support	\$ 135,119	100,656
Low-income housing	26,612	27,533
Capital acquisition and other	40,230	23,697
Total temporarily restricted net assets	<u>\$ 201,961</u>	<u>151,886</u>

The Health System's fundraising foundations have obtained contributions to support the various programs offered by the Health System. Many of these contributions remain temporarily restricted as of December 31, 2012 and 2011 because the time or purpose restrictions stipulated by the donor have not been met. Total fundraising expenses were \$10,742,000 and \$8,731,000 for the years ended December 31, 2012 and 2011, respectively. Generally, program support consists of items that will defray the cost of operating certain patient care activities of the Health System.

Other revenues included \$36,633,000 and \$31,017,000 of assets released from restriction for operations for the years ended December 31, 2012 and 2011, respectively.

Permanently restricted net assets are restricted to investments in perpetuity, the income of which is expendable primarily for program support.

(12) Litigation and Contingencies

The healthcare industry is subject to numerous laws and regulations from federal, state, and local governments. Compliance with these laws and regulations can be subject to future government review and interpretation, as well as regulatory actions unknown or unasserted at this time. Government monitoring and enforcement activity continues with respect to investigations and allegations concerning possible violations by healthcare providers of regulations, which could result in the imposition of significant fines and penalties, as well as significant repayments of patient services previously billed. Institutions within the Health System are subject to similar regulatory reviews.

Management is aware of certain asserted and unasserted legal claims and regulatory matters arising in the course of business. After consultation with legal counsel, management estimates that these matters will be resolved without material adverse effect on the Health System's combined financial statements.

(13) Functional Expenses

The Health System provides healthcare services to residents within its geographic service areas. Expenses related to providing these services for the years ended December 31, 2012 and 2011 are as follows:

	<u>2012</u>	<u>2011</u>
	(In thousands of dollars)
