Statement 14

Activity OneEducation:

The High School Financial Planning Program, which focuses on America's youth, was established to impart a basic knowledge of financial planning covering the fundamentals of money management, insurance, investments, tax planning, retirement planning, and estate planning. This program was introduced in 1984 and consists of course materials for students and teachers which are distributed in partnership with the USDA Co-op State Research, Education, and Extension Service and Participating Land-Grant University Co-op Extension Services. The materials are provided free of charge to public and private high schools and vocational schools throughout the country. This program has been taught to students in more than 12,000 schools in all 50 states.

CashCourse, a web based program, was developed as a financial education resource for college students and has been deployed to over 700 colleges and universities nationwide.

NEFE funds research projects and research-based development projects whose outcomes strongly correlate to its funding priorities. NEFE seeks projects whose outcomes can improve the public's ability to achieve personal and household financial well-being. Of particular interest are pro-active research projects that put research recommendations into action. Project outcomes must be capable of achieving traction and measurable impact with audiences such as financial education intermediaries, researchers, practitioners, decision makers, and others who can achieve effective outreach to a target population with an unmet financial literacy need or to the general public.
