Restrictions or Limitation:

Mission: The Christensen Fund believes in the power of biological and cultural diversity to sustain and enrich a world faced with great change and uncertainty. We focus on the "bio-cultural" – the rich but neglected adaptive interweave of people and place, culture and ecology. The Fund's mission is to buttress the efforts of people and institutions who believe in a biodiverse world infused with artistic expression and work to secure ways of life and landscapes that are beautiful, bountiful and resilient.

We pursue this mission through place-based work in regions chosen for their potential to withstand and recover from the global erosion of diversity. We focus on backing the efforts of locally-recognized community custodians of this heritage, and their alliances with scholars, artists, advocates and others. We also fund international efforts to build global understanding of these issues. These are challenging goals, so we seek out imaginative, thoughtful and occasionally odd partners to learn with.

The Fund works primarily through grant making, capacity and network building, knowledge generation, collaboration and mission-related investments.

General: Awards restricted to non-profit and public institutions in the US and internationally to address biological and cultural diversity. No funding to individuals, for political or legal actions.

Other restrictions depending on program.

Regional Programs (funding restriction: \$5,000 minimum), restricted to the following regions and purposes:

- African Rift Valley (SW Ethiopia and Kenyan Northern Borderlands) Criteria are to maintain cultural and biological diversity and artistic expression.
- Greater Southwest Program (SW US/NW Mexico) Criteria are to maintain cultural and biological diversity and artistic expression.
- Northern Australia Criteria are to maintain cultural and biological diversity and artistic expression.
- Melanesia: Criteria were to maintain cultural and biological diversity and artistic expression.
- Central Asia and Turkey Criteria were to maintain cultural and biological diversity and artistic expression.

Global Biocultural Initiative:

- Studies, writings, events, networks and multi-media dissemination efforts that build and share practical knowledge worldwide around the concepts of "bio-cultural diversity", resilience and adaptive change, and the consequences of global warming for diversity;
- Projects of artistic expression that can reach global publics to re-shape understanding of how biological and cultural richness are interdependent and require passionate attention; and
- Opportunities to contribute towards international conferences around such issues of cultural and biological diversity resilience and climate change so as to support global learning and exchange, in particular regarding participation from TCF priority regions (note that TCF will not make individual grants for conferences).

San Francisco Bay Area Program: We welcome opportunities to support activities that connect our mission and/or geographic priorities with Bay Area communities. In particular we can support activities by Bay Area institutions around:

- Maintaining and sharing the cultural and artistic life of Diaspora communities from our focus regions now residing in the Bay Area, and
- Engaging young people and wider publics here in the deliciousness of the world's biological and cultural diversity, the value of connection to landscape and the threats of such things as global warming.

Other:

- Local Charitable Giving: By invitation only. Restricted to non-profit and public institutions located in the Mid-Peninsula region of the San Francisco Bay Area for purposes of education and public welfare.
- Memberships of Grant Making Associations restricted to US registered associations of grant makers No funding or geographic limitations.
