FOUNDATION ACTIVITIES

The Peter G. Peterson Foundation's mission is to increase public awareness of the nature and urgency of key fiscal challenges threatening America's future, and to accelerate action on them. We work to bring Americans together to find and implement sensible, long-term solutions that transcend age, party lines, and ideological divides. We advance our mission through grant-making, education and awareness initiatives, and research and policy analysis.

Grants and Grant-making

The Foundation provides grants to fund a variety of projects and organizations that advance its mission. Grantees include research organizations, foundations, universities, associations, and other not-for-profit entities that engage in activities outlined under grant agreements with the Foundation. These grants support a range of education, engagement, and research projects and initiatives related to the nation's long-term fiscal challenges. A complete listing of our paid grants in fiscal year 2013 can be found in Attachment 22.

Education, Awareness, and Engagement

The Foundation's education, awareness, and engagement initiatives seek to improve Americans' understanding of our nation's long-term fiscal challenges and provide opportunities to participate in finding solutions. The Foundation produces information on fiscal policy topics for the general public; develops print, television, and digital media advertising; and issues policy research briefs and statements around key fiscal milestones. The Foundation enables broad discourse regarding fiscal and economic issues through its websites and social media. In addition, the Foundation convenes an annual Fiscal Summit and other events that bring together fiscal policy leaders, experts, and elected officials from across the political and ideological spectrum to discuss fiscal issues.

Policy, Research, and Analysis

The Foundation provides non-partisan research, analysis, and other data-driven information to help make the complex fiscal issues more understandable and meaningful to the public.

The Foundation conducts research and produces analyses that are incorporated into its education, awareness, and engagement activities. This material is made accessible on the Foundation's website and includes analyses of budget and economic issues, a library of charts and graphs, and primers and policy research briefs that explain the budget and budget process and related economic and demographic trends. The Foundation's research efforts are also reflected in speeches, articles, and presentations.

The Foundation's research and analysis covers various areas of the federal budget, including the budget process itself, the U.S. tax system, defense spending, and benefit programs. In addition, the Foundation's research focuses on the rapidly rising cost of health care in the United States, which is a primary driver of the unsustainable growth in federal debt over the long term.
