Part VI Supplemental Information

Complete this part to provide the following information.

1 **Required descriptions.** Provide the descriptions required for Part I, lines 3c, 6a, and 7; Part II; Part III, lines 4, 8, and 9b; Part V, Section A; and Part V, Section B, lines 1j, 3, 4, 5c, 6i, 7, 10, 11, 12h, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22.

2 **Needs assessment.** Describe how the organization assesses the health care needs of the communities it serves, in addition to any needs assessments reported in Part V, Section B.

3 **Patient education of eligibility for assistance.** Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy.

4 **Community information.** Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves.

5 **Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (e.g., open medical staff, community board, use of surplus funds, etc.).

6 **Affiliated health care system.** If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served.

7 **State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report.

8 **Facility reporting group(s).** If applicable, for each hospital facility in a facility reporting group provide the descriptions required for Part V, Section B, lines 1j, 3, 4, 5c, 6i, 7, 10, 11, 12h, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22.

Part I, Line 3c: Discounted care is FPG based on a sliding scale as follows: FPG range 201% to 250% - discount of 80% off gross charges, FPG range 251% to 300% - discount of 60% off gross charges, FPG range 301% - 350% - discount of 40% off gross charges, FPG range 351% to 400% - discount of 20% off gross charges.

Part I, Line 7: A cost-to-charge ratio was derived from Worksheet 2 to calculate the charity care and means-tested government program section. The cost-to-charge ratio excludes bad debt expenses pursuant to the instructions.

Part III, Line 4: Allowance for Uncollectibles: The system provides an allowance for uncollectibles for estimated losses. The allowance is determined by analyzing historical data and trends. Accounts receivable are charged off against the allowance for uncollectibles when management determines that recovery is unlikely and the system ceases collection efforts.

Part VI Supplemental Information

Part III, Line 5: The hospital received two prior year settlements, one of which was due to the Hospital in the amount of $1,337,832 and the other was due from the hospital in the amount of $467,028.

Part III, Line 8: The costing methodology utilized in the Medicare cost report is as follows: Inpatient routine services are allocated on a basis of Medicare days to total days. All other services are allocated on a cost-to-charge ratio.

Part III, Line 9b: The same collection process is used for uninsured and insured patients, excluding those that are exempt from collection procedures pursuant to state regulations. The collection process is as follows: an initial bill is sent, followed by subsequent billings and various methods of notification including collection letters and telephone calls for a period of 120 days. The EVS system is checked to ensure that the patient is not eligible for financial assistance. A final notice by certified mail is sent for uninsured patients.

Mercy Hospital, Inc.:

Part V, Section B, Line 3: Community input was gathered through interviews, a community survey, and community listening sessions.

Interviews were conducted with public health experts, representatives of health or other departments or agencies, community leaders, and persons representing the broad interests of the community. The interviews were structured to help identify the most pressing health status and access issues in the community.

Part VI Supplemental Information

Mercy also sought input from the public regarding the health of the community through an online and paper-based survey. A website link to the survey (in both English and Spanish) was made available from January through February 2013. Paper copies of the survey were distributed at various local organizations and clinics in multiple languages. Efforts were made to reach those without internet access as well as vulnerable populations such as racial and ethnic minorities, low-income groups, individuals with low literacy levels, and non-English speakers. The survey was publicized via flyers, social media, newspapers, email lists, and other methods.

A listening session was held during which community members reviewed and discussed preliminary findings from this assessment. Discussion at the listening session was helpful in that it validated assessment findings and contributed to the prioritization process.

Community Survey Findings

The survey consisted of 48 questions about a range of health status and access issues and regarding respondent demographic characteristics.

Respondent Characteristics

1,321 residents from the Mercy community completed the survey. Seventy-four percent of respondents were female and 49 percent were between the ages of 45 and 64. Seventy-two percent were White and 98 percent did not identify as Hispanic (or Latino). The majority of respondents reported being in good or very good overall health (70 percent), married (50 percent), employed full time (61 percent), privately insured (67 percent), and having an undergraduate degree or higher (53

percent). The majority (83 percent) of respondents speak English in the home. Spanish was the top non-English language reported. Seven percent of respondents reported that they spoke multiple languages at home. Survey responses were received from residents of 43 of the Mercy community's 51 ZIP codes.

Summary of Interview Findings

Key informant interviews were conducted face-to-face and by telephone by Mark Rukavina, Principal at Community Health Advisors, LLC. The interviews were designed to gain perspective into health needs in the community served by Mercy. A total of 39 local key informants, including external and internal stakeholders (those affiliated or employed by Mercy Medical Center/Providence Behavioral Health Hospital) were interviewed during December 2012 through February 2013. In addition, 10 staff members from the Massachusetts Department of Public Health regional office in Northampton also were interviewed as a part of this assessment.

These interviews were conducted using a structured questionnaire. Informants were asked to discuss community health issues and encouraged to look broadly at the social determinants of health. Interviewees were asked about issues related to health care access, changes in community population, prevalence of chronic health conditions, and health disparities.

The frequency with which community health issues was mentioned and the interviewees' perceptions of the significance of each concern were assessed. The following issues are considered of greatest concern, based on the interviews with key informants.

Part VI Supplemental Information

Social and Economic Issues

- Poverty and Financial Hardship: The issue of poverty was identified by nearly all interviewees as a significant factor in terms of community health. The City of Springfield reports a large percentage of residents living in poverty. The area has limited employment opportunities, especially for those with little formal education or training, but there are broad community efforts to bolster skill building and job training.

- Education: Related to the issue of poverty, many interviewees described an educational gap that is experienced by Springfield residents. In an effort to break the cycle of poverty, interviewees expressed the need to encourage the success of children in schools. Many people said that reading skills are a vital factor driving health. Others said that there is a need in the area to build trusting relationships between parents and schools as a strategy that enables children to reach their educational potential.

- Safety: The issue of public safety was raised as a concern by a number of interviewees. Many drew a link to between poverty and public safety. Several of the interviewees cited safety as a hindrance to physical activity.

- Institutional Racism: A number of interviewees raised the issue of institutional racism as a factor driving health disparities. They noted that many people of color and non-English speaking patients feel that they must take more steps in order to get care. Several said that institutional racism must be addressed in order for equitable services to be available to everyone in need.

- Nutrition: Interviewees expressed concern regarding proper nutrition and affordable healthy foods. In certain Springfield neighborhoods, it was

noted that it's difficult to find fresh fruits and vegetables. Many interviewees note that there are area efforts to address food deserts and food insecurity.

- Physical Activity: Many interviewees said that community health could be improved by increasing physical activity throughout Springfield. This issue was seen as overlapping with that of safety. Interviewees pointed to community efforts as demonstrations of commitment to address this issue. Examples include the projects funded under Mass in Motion grants, the "Walking School Bus," built environment improvements, the river walk, and other community enhancements.

- Trust: The issue of a lack of trust and connectivity, especially between some of the larger public and private institutions, was frequently noted as a problem. Tying this to health, a number of interviewees noted that interactions and relationships with medical providers can be intimidating and alienating. Several suggested that more efforts where there are interactions in community settings could help to build trusting relationships.

Access Issues

- Substance Abuse Treatment: Interviewees frequently said that Springfield has a serious problem with alcohol and drug use. Drug trafficking and misuse are seen as significant health and safety factors. A number of people expressed frustration with the difficulty of accessing treatment for people with alcohol problems. In general, on-demand treatment is seen as a challenge. Nearly all interviewees said that the area needs more alcohol and drug abuse prevention and treatment programs.

- Mental Health: Many of the interviewees expressed concern regarding access to mental health treatment. Several suggested that depression and stress are prevalent problems in Springfield. There was also an expressed

Part VI · Supplemental Information

concern regarding a shortage of psychiatric care in the area, in particular child psychiatry.

- Inappropriate Use of Emergency Department: The issue of people accessing non-emergent care in the emergency department was noted by a number of interviewees. Some felt that it indicated a shortage of primary care providers and others said that it was related to issues of convenience or a lack of understanding the various care options. Many people felt that it was an important issue that must be addressed.

- Primary Care: Several of the interviewees mentioned the need for more primary care providers. Others felt that while there may be sufficient primary care capacity, many residents have never had a primary care provider and/or need assistance in establishing a medical home.

- Out of Pocket Costs: A number of interviewees raised concerns that out of pocket costs were interfering with care. In particular, they saw copayments and deductibles as barriers to medications and ongoing treatment for chronic diseases. Several interviewees said that there is a lack of affordable insurance for small business owners.

- Access for Culturally Diverse Populations: Interviewees regularly raised the issue of access to care for culturally diverse populations. Some had concerns for limited English proficient populations and others felt that more education for health providers was needed to provide culturally competent care.

- Dental Health: Though the problem of dentists accepting MassHealth has improved in recent year, the issue of access to dental care was raised as a concern by a number of interviewees.

- Transportation: Transportation was cited as a problem by several interviewees. While Springfield is seen as having good public transportation, it can be a hardship for some residents, especially among

Part VI Supplemental Information

low income residents.

Morbidity/Health Status Issues

- Alcohol, Tobacco, and Other Drug Use: A significant number of interviewees felt that the alcohol and substance abuse problems in Springfield were quite serious. The issues of alcohol and opiate abuse were frequently cited as major health problems in the area. Tobacco was raised as a concern, but by fewer of the interviewees. There were also concerns raised regarding HIV/AIDS related to the drug use.
- Mental Health: Several interviewees noted the problems related to depression, stress, and anxiety. They expressed a need for more affordable and timely mental health services.
- Teen Pregnancy: The issues of sexually active teens and teen pregnancy were seen as problems by many interviewees. Addressing the teen pregnancy problem was seen as crucial to breaking the cycle of poverty.
- Chronic Disease Management: Several interviewees noted concern regarding the management of chronic conditions such as diabetes, hypertension, asthma, and heart disease. They felt that the area would benefit from more related education and chronic disease management initiatives to support residents.
- Obesity: A number of interviewees saw obesity as a serious community health problem. The problems of proper nutrition and exercise were seen as contributing factors in terms of this problem.
- Homelessness: Many interviewees said the area has a problem with homelessness and expressed concern that Springfield shelters are housing the homeless from many other parts of the Commonwealth.
- Care Coordination: Many of the interviewees felt there is a need for

Part VI Supplemental Information

better coordination of care across the various programs and providers serving the Springfield area. Successful efforts of care coordination within the Springfield Public School system as well as the Office of the Sheriff of Hampden County were cited as examples of effective care coordination. Many people cited the lack of care coordination as a serious barrier to improved community health.

- Violence: Violence and abuse were seen by interviewees as problems that need to be addressed in the Springfield area.

Mercy Hospital, Inc.:

Part V, Section B, Line 4: The hospital is a member of the Coalition of Western Massachusetts Hospitals (Coalition) which also includes Baystate Medical Center, Baystate Franklin Medical Center, Baystate Mary Lane Hospital, Cooley Dickinson Hospital, Holyoke Medical Center, and Wing Memorial Hospital. The Coalition hospitals collaborated in preparing their CHNAs.

Mercy Hospital, Inc.:

Part V, Section B, Line 7: Prioritized List of Community Health Needs

This assessment begins by identifying the communities served by Mercy Medical Center. Findings are based on various quantitative analyses regarding health-related needs in those areas, a review of health assessments conducted by other organizations in recent years, information obtained from interviews, and findings from a community survey. Preliminary assessment findings were discussed with community stakeholders

Part VI Supplemental Information

during a series of "listening sessions" and feedback from participants helped validate findings. Finally, an applied ranking methodology was developed to help prioritize the community health needs identified by the assessment. Including multiple data sources and stakeholder views is important when assessing the level of consensus that exists regarding priority community health needs. If alternative data sources including interviews support similar conclusions, then confidenceis increased regarding the most problematic health needs in a community. Further information about the analytic methods and prioritization process and criteria can be found in the CHNA report.

Needs Beyond the Hospital's Mission of Service Program

No hospital facility can address all of the health needs present in its community. The Hospital is committed to adhering to its Mission and remaining financially healthy so that it can continue to enhance its clinical activities and to provide a wide range of community benefits. The strategy does not address the following community health needs identified in the 2013 CHNA.

Lack of Access to Dental care

The hospital does not offer adult dental services and, therefore, will not address this specific need. The Hospital collaborates closely with the City of Springfield's Health Services for the Homeless Dental Clinic and the two county FQHCs, Caring Health Center and Holyoke Health Center.

High Rate of Asthma

The Hospital has the expertise to work with acute treatments in the Emergency Department but does not have a specific program addressing asthma. Our community partners and hospitals are addressing this issue.

Part VI Supplemental Information

Low Educational Acheivement

The Hospital does not have a specific educational program for low educational achievement, however, strong relationships and collaborations exist within the community with the Regional Employment Board.

Mercy Hospital, Inc.:

Part V, Section B, Line 12h: The hospital has a uniform mark up policy for all CDM gross charges regardless of whether or not the patient is FAP-eligible for emergency or other medically necessary care. A patient is assessed for FAP eligibility based on FPL guidelines and if the patient qualifies then a discount or free care is applied against the account.

Part VI, Line 2: The 2013 Community Health Needs Assessment (CHNA) was conducted by Mercy Medical Center because the hospital wants to understand better the community health needs and to develop an effective implementation strategy to address priority needs. The hospital also has assessed community health needs to respond to community benefit regulatory requirements. To help design and gather primary and secondary data for the CHNA, Mercy Medical Center engaged Verite Healthcare Consulting, LLC, located in Alexandria, Virginia. The firm serves as a national resource that helps hospitals conduct community health needs assessments and develop implementation strategies that address priority needs. The firm also helps hospitals, associations, and policy makers with community benefit reporting, planning, program assessment, and policy and guidelines development. Verite is a recognized, national thought leader in community

Part VI Supplemental Information

benefit and in the evolving expectations that tax-exempt healthcare organizations are being required to meet. The CHNA prepared for Mercy Medical Center was directed by the firm's president and managed by a senior-level consultant. Associates and research analysts supported the work. The firm's president, as well as all senior-level consultants and associates, hold graduate degrees in relevant fields. Mark Rukavina of Community Health Advisors, LLC, based in Chestnut Hill, MA, conducted all community interviews.

A community survey was conducted as a major process element of the CHNA methodology. 1,321 responses were received from residents of Mercy Medical Center's primary service area. Survey results were post-stratified to help assure that they accurately reflect the community's demographics. Responses also were assessed by race, insurance status, and education status. Survey results indicated that the community has difficulty accessing prevention, wellness, and mental health services. Access disparities also are present, with white residents better able to access care. Uninsured residents and MassHealth (Medicaid) recipients rely primarily on free or low-cost clinics and hospital emergency rooms for basic primary care needs, or they indicate that no routine healthcare is received.

This assessment process also captured multiple data sources, including secondary data (regarding demographics, health status indicators, and measures of health care access), assessments prepared by other organizations in recent years, and primary data derived from a community survey and from interviews with persons who represent the broad interests of the community, including those with expertise in public health. The

following topics and data sets informed Mercy Medical Center's 2013 CHNA:

- Demographics, e.g., numbers and locations of vulnerable people;
- Economic issues, e.g., poverty and unemployment rates, and impacts of health reform;
- Community issues, e.g., homelessness, lack of affordable housing, environmental concerns, crime, and availability of social services;
- Health status indicators, e.g. morbidity rates for various diseases and conditions, and mortality rates for leading causes of death;
- Health access indicators, e.g., uninsured rates, discharges for ambulatory care sensitive conditions (ACSC), and use of emergency departments for non-emergent care;
- Health disparities indicators; and
- Availability of healthcare facilities and resources.

Mercy Medical Center's 2013 CHNA process sought to identify priority health status and access issues for particular geographic areas and populations by focusing on the following questions:

- Who in the community is most vulnerable in terms of health status or access to care?
- What are the unique health status and/or access needs for these populations?
- Where do these people live in the community?
- Why are these problems present?

Finally, Mercy Medical Center's 2013 CHNA process identified a prioritized list of community health needs. Mercy Medical Center then examined this prioritized list and formulated an Implementation Strategy that described how the hospital plans to address the identified needs in its Community

Part VI Supplemental Information

Benefit Plan. Community benefit activities or programs seek to achieve objectives, including:

- improving access to health services,
- enhancing public health,
- advancing increased general knowledge, and
- relief of a government burden to improve health.

Part VI, Line 3: Patients are informed and educated regarding financial assistance in a number of ways. General notices of financial assistance programs are posted throughout the hospital, primarily in the following areas: service delivery areas, patient financial counselor areas, the central admission and registration areas, and business office areas open to patients. Additionally, a general notice of program availability is included with the initial bill. Financial counselors also work to identify available coverage options when scheduling services, while in the hospital, upon discharge, and for a reasonable time following discharge.

Part VI, Line 4: Mercy Medical Center primarily serves the community which includes all 51 ZIP codes in Hampden County, Massachusetts and has a total population of 464,416 persons. Hampden County consists of 21 cities and towns: Agawam, Blandford, Brimfield, Chester, Chicopee, East Longmeadow, Granville, Hampden, Holland, Holyoke, Longmeadow, Ludlow, Monson, Palmer, Russell, Southwick, Springfield, Wales, West Springfield, Westfield, and Wilbraham. The hospital is located in Springfield, Massachusetts.

Following is a brief summary of health issues in the community served by

Part VI Supplemental Information

Mercy Medical Center. The summary is based on an assessment of all study data sources, including community interviews, the community survey, and the wide array of secondary data - all of which are described and assessed in the report.

Demographics

The community is aging and diversifying, driven by growth in elderly and in Asian, Black, and Hispanic (or Latino) populations. In 2012, about 76 percent of the community's population was White. Non-White populations are expected to grow faster than White populations in the community. The Asian, American Indian, Black, and Other population and those who identify as two or more races are expecting the fastest growth. The growing diversity of the community is important to recognize given the presence of health disparities and community input regarding the need to enhance cultural competency of health care providers.

Education

Hampden County reports comparatively low graduation rates and comparatively high rates of disability, particularly among youth. These factors can contribute to poverty, health care access barriers, and poor health.

Economics

Poverty rates (particularly in Springfield) are above the Massachusetts average. Pediatric poverty and unemployment also are comparatively high. Unemployment disparities exist for Black, Asian, and Hispanic (or Latino) residents.

Part VI Supplemental Information

Hampden County residents are more reliant on government support programs such as the Supplemental Nutrition Assistance Program (SNAP) and Temporary Assistance for Needy Families (TANF) than the Massachusetts average. Lack of access to affordable food and housing also are concerns for segments of the community.

Part VI, Line 5: Mercy Medical Center promotes the health of the community in a number of ways that may also further its tax-exempt status, including, but not limited to, the following areas:

- Health Care to the Homeless: Mercy Medical Center's Department of Community Health provides care to the community homeless population in Franklin, Hampshire and Hampden Counties through primary care services, health education, case management, mental health services and free clinics to over 2,300 homeless persons a year.
- The Vietnamese Health Project: This program provides case management and interpretation services to the refugee and immigrant Vietnamese population in the Greater Springfield area. Annually, this community health outreach program reaches nearly 700 Vietnamese patients.
- Adults and Children in Psychiatric and/or Substance Abuse Distress: Providence Behavioral Health Hospital, operating under the same hospital license as Mercy Medical Center, is a 126-bed hospital located in Holyoke, Massachusetts provides both inpatient and outpatient mental health and substance abuse services for people of all ages experiencing acute psychiatric distress and/or severe substance abuse problems.
- Lack of Affordable and Accessible Care: The hospital offers financial counseling to those who need assistance. Additional support is provided through counselors and case managers who assist patients with accessing health insurance through the State.

Part VI Supplemental Information

- Lack of Affordable and Accessible Prescription Medications: The Hospital provides patient counseling and education regarding prescription assistance and also provides direct co-pay assistance through the Health Care for the Homeless program. The Hospital is also registered in the federal 340-B Pharmaceutical Drug Access Program which provides discounts to qualifying hospitals on covered outpatient medication and are then provided to patients at a reduced cost.

- Support Groups for Those Experiencing Life-Altering Conditions: Mercy Medical Center provides a wide-range of ongoing, free support groups for patients (and their family members) challenged by diagnoses such as cancer, stroke, amputations, aphasia, traumatic brain injury or spinal cord injuries.

Part VI, Line 6: The Mercy Hospital, Inc. d/b/a Mercy Medical Center, Providence Behavioral Health Hospital, Weldon Rehabilitation Hospital, is affiliated with the Sisters of Providence Health System (SPHS). The Mission of SPHS is to be a transforming healing presence in the communities we serve. SPHS has a number of affiliated entities beyond The Mercy Hospital, Inc., as they include, but are not limited to: Mercy Home Care, Mercy Hospice, Mercy Continuing Care Network, Mercy Life and the Mercy Continuing Care Network. All affiliated entities of SPHS uphold the same Mission, which propels them to promote the health of the communities we serve in Western Massachusetts. SPHS employs nearly 3,200 people and provides for the community a patient-centered health network, across a full continuum of care. SPHS, in turn, is affiliated with Trinity-Catholic Health East.

Form 990, Part VI, Section A, line 7b: CHE along with Sisters of Providence Health System, Inc. have limited reserved powers to approve decisions of the governing body.

Form 990, Part VI, Section B, line 11: The organization took steps to educate management, members of the board and members of appropriate subcommittees of the board on the compliance requirements mandated by the Form 990. The form was prepared by Deloitte Tax LLP, reviewed by management and then presented to the Finance Committee, who reviewed the Form 990 at

their meeting on May 6, 2014.

Form 990, Part VI, Section B, Line 12c: The organization has adopted CHE's Policy 103, which sets forth the organization's conflict-of-interest policy and processes. Annually, all those serving the organization in a fiduciary capacity, including directors, officers and key employees receive a copy of the policy and annual disclosure statement to be completed. Disclosures of financial interest or other reportable circumstances as defined in the policy are submitted and reviewed by the organization's CEO and board's chair. Summary information is reported to the entire board and available to the board throughout the year as business comes before the board or management for action. The policy contains a continuing affirmative obligation on all affected individuals to disclose compensation or other circumstances throughout the year which may rise to the level of an actual or apparent conflict. The determination of whether a disclosed financial or other interest constitutes a conflict of interest is made by the board or an appropriate committee thereof comprised of disinterested persons and without the participation of the affected individual except to respond to questions about the disclosure. The policy further addresses the procedure for the board's further consideration of the proposed transaction/matter without the participation of the affected person and the documentation of the proceedings. Lastly, the policy addresses potential disciplinary action for violations of the policy. The policy is executed by the organization itself or by a related organization. The policy is available to the public upon request.

Form 990, Part VI, Section B, Line 15: The compensation for the organization's President & CEO is determined by CHE. For other employees,

the organization has adopted CHE's policy for determining compensation which includes the following: The board has an independent committee review and approve all elements of remuneration for all disqualified parties, as well as other key management. The board/committee has an established compensation philosophy which details the objectives of market positioning and pay elements. The committee engages with external consultants to provide market data comparing Mercy Hospital, Inc. employee's roles to similarly sized organizations utilizing both title and job content comparisons. The committee reviews the market analysis, approves any salary adjustments for the executive population, considers both reasonableness and effectiveness of all remunerative programs and establishes the detailed performance expectations which are incorporated into the incentive plan. All of these discussions and decisions are documented through the provision of meeting minutes. The policy is executed by the organization itself or by a related organization.

Report of Independent Auditors

To the Board of Directors
Catholic Health East

We have audited the accompanying consolidated financial statements of Catholic Health East and its subsidiaries (the "Company"), which comprise the consolidated balance sheets as of December 31, 2012 and 2011, and the related consolidated statements of operations, of changes in net assets and of cash flows for the years then ended.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audits We did not audit the financial statements of certain consolidated entities which statements reflect net assets of $59,001,000 and $77,471,000 as of December 31, 2012 and 2011, respectively, and excess of revenues over expenses of $21,530,000 and $12,508,000 for the years then ended. In addition, we did not audit the financial statements of certain unconsolidated entities which are represented in the following consolidated financial statements for 2012 and 2011 as investments in unconsolidated organizations of $1,575,944,000 and $1,275,608,000 as of December 31, 2012 and 2011, respectively, and equity in earnings of unconsolidated organizations of $161,808,000 and $146,038,000 for the years then ended Those statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion expressed herein, insofar as it relates to the amounts included for these entities, is based solely on the reports of the other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's' internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, based on our audits and the reports of other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company at December 31, 2012 and 2011, the results of their operations and their cash flow for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The social accountability information and the consolidating information are presented for purposes of additional analysis and are not required parts of the consolidated financial statements. The consolidating information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations and cash flows of the individual entities; accordingly, we do not express an opinion on the financial position and results of operations of the individual entities. The social accountability information and the consolidating information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the consolidated financial statements. The social accountability information and consolidating information have been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the social accountability information and consolidating information are fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole.

1. Organization and Mission Basis of Presentation

Catholic Health East ("CHE", the "System", or the "Company") was incorporated as a Pennsylvania nonprofit corporation on October 1, 1997. CHE is a catholic, multi-facility health system sponsored by seven religious congregations and Hope Ministries Each sponsoring congregation appoints a representative to the Sponsors Council which maintains certain reserve powers, including the election of the CHE Board of Directors. CHE serves to carry out the health care ministries of the sponsoring congregations. The mission of CHE is to be a community of persons committed to being a transforming, healing presence within the communities it serves.

The consolidated financial statements of CHE include activities of its Regional Health Corporations ("RHCs") and related component corporations all of which are wholly or majority owned. These RHCs are located throughout eleven states and the healthcare activities provided by these RHCs include, but are not limited to, general acute care hospitals, long-term care facilities, skilled nursing facilities, behavioral health, residential facilities for the elderly, physician services, home health, outpatient surgery, and other services. A list of the name and location of each RHC is provided below.

Catholic Health East and certain affiliated nonprofit corporations are generally exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code.

CHE and its RHCs also participate in various joint ventures and partnerships, commonly referred to as joint operating agreements. These arrangements enable CHE to provide healthcare services to the broader community through involvement in larger healthcare organizations or systems.

2. Summary of Significant Accounting Policies

Basis of Consolidation

The consolidated financial statements of CHE include the financial information of the RHCs and component corporations, the System's wholly owned captive insurance company, various philanthropic foundations of which the System maintains control, and various other organizations or corporations. All significant inter-company balances and transactions have been eliminated.

Use of Estimates

The preparation of these consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make assumptions, estimates, and judgments that affect the amounts reported in the consolidated financial statements, including the notes thereto, and related disclosures of commitments and contingencies, if any. Management considers critical accounting policies to be those that require more significant judgments and estimates in the preparation of the consolidated financial statements including, but not limited to, recognition of net patient service revenue, which includes contractual allowances and provisions for bad debt; estimates for healthcare professional and general liabilities, determination of fair values of certain financial instruments; and assumptions for measurement of pension liabilities. Management relies on historical experience and other assumptions believed to be reasonable relative to the circumstances in making judgments and estimates Actual results could differ materially from these estimates.

Cash and Cash Equivalents

Cash and cash equivalents include liquid investments with a maturity of three months or less. The carrying value of cash and cash equivalents approximates fair value.

Investments and Investment Income

Investments in marketable equities with readily determinable fair market values and all investments in debt securities are measured at fair value in the consolidated balance sheets. Equity investments in managed funds, private partnerships, and other investments are accounted for under the equity method, which approximates fair value. Realized gains and losses on investments, unrealized gains and losses on trading securities, interest income (net of investment-related expenses), and dividends are included in investment returns, net, as part of non-operating gains and (losses) in the excess of revenue over expenses. Investment income restricted by donors or law is reported as an increase in temporarily or permanently restricted net assets.

The System's investments and marketable securities whose use is limited are invested and managed through the CHE Consolidated Investment Program (the "CIP Program"), and some investments are locally managed by the RHCs. Included in these investments are investments in managed funds, private partnerships, and other investments. The income (loss) from these managed funds is included in investment returns, net, in the accompanying consolidated statement of operations and change in net assets.

The System classifies all unrestricted investments as trading securities.

Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these securities and the level of uncertainty related to changes in their value, it is at least reasonably possible that changes in risks in the near term could materially affect account balances and the amounts reported in the consolidated balance sheets and statements of operations and change in net assets.

Marketable Securities and Investments Whose Use Is Limited
Marketable securities and investments whose use is limited primarily include marketable securities and investments designated by governance for future capital improvements and other purposes, in accordance with agreements with outside parties, by trustees under bond indenture agreements, self-insurance arrangements, and by donor restrictions.

Derivative Financial Instruments
The System recognizes all derivative instruments in the balance sheets at fair value. The change in the fair value of derivatives is recognized as a component of excess of revenues over expenses in the consolidated statements of operations for the years ended December 31, 2012 and 2011.

Inventories
Inventory is valued at the lower of cost (first-in, first-out) or market, net of reserves for obsolescence

Assets Held for Sale
CHE has classified certain long-lived assets as assets held for sale in the consolidated balance sheets when the assets have met applicable criteria for this classification. CHE has classified $336,362,000 and $473,473,000 as held for sale at December 31, 2012 and 2011, respectively. The Company has also classified $419,916,000 and $442,198,000 at December 31, 2012 and 2011, respectively, as liabilities related to assets held for sale.

Property and Equipment
Property and equipment acquisitions are recorded at cost. Depreciation is expensed over the estimated useful life of each class of depreciable assets and is computed using the straight-line method based on the following estimated useful lives:

Building and Improvements	5-40 years
Leasehold improvements	3-20 years
Equipment	3-20 years

Equipment under capital lease obligations is amortized on the straight-line method over the shorter period of the lease term or the estimated useful life of the equipment. Such amortization is included in the depreciation and amortization in the consolidated financial statements Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of constructing those assets. Repair and maintenance costs are expensed as incurred. When property, plant and equipment are retired, sold or otherwise disposed of, the asset's carrying amount and related accumulated depreciation are removed from the accounts and any gain or loss is included in operations.

Gifts of long-lived assets such as land, buildings, or equipment are reported as unrestricted support, and are excluded from excess of revenue over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Goodwill
CHE records as goodwill the excess of purchase price over the fair value of the identifiable net assets acquired. The Company's goodwill and other intangible assets with indefinite lives are not amortized; rather, they are tested for impairment, at least annually, through a process which first evaluates any triggering event associate with an impairment, and, second, an actual measurement of the impairment, if necessitated. The Company recorded goodwill additions of $22,382,000 in 2012 related to acquisitions of physician practices and an ambulatory surgery center. The Company did not record any impairment to goodwill in 2011 or 2012.

Long-Lived Assets
CHE evaluates the carrying value of its long-lived assets for impairment when impairment indicators are identified. In the event that the carrying value of a long-lived asset is not supported by the fair value, the System will recognize an impairment loss for the difference. Fair value is based on the exchange price that would be received for an asset or paid to transfer a liability. In 2012, the System recorded an impairment loss of long-lived assets of $105,000,000 related to Saint Michael's Medical Center. These assets are classified as held for sale as of December 31, 2012 and the impairment loss is included in losses from discontinued operations in the statement of operations and changes in net assets. The System recognized impairment losses of $4,571,000 for the year ended December 31, 2011.

Investments in Unconsolidated Organizations
Investments in unconsolidated organizations represent CHE investments in joint operating agreements, joint ventures, or partnerships The equity method is used to account for these investments.

Deferred Revenue from Advance Fees
Certain RHCs operate residential facilities for the elderly Fees paid by residents upon entering into continuing care contracts, net of the portion that is refundable to the resident, are recorded as deferred revenue and amortized to income using the straight-line method over the estimated remaining life expectancy of the resident.

Accrued Paid Time Off
CHE records a liability for amounts due to employees for future absences which are attributable to services performed in the current and prior periods.

Deferred Debt Issuance Costs
Deferred debt issuance costs included in other assets at December 31, 2012 and 2011, totaling $14,222,000 and $18,240,000, respectively, are amortized using the straight-line method over the life of the related debt, which approximates the effective interest method.

Temporarily and Permanently Restricted Net Assets
Temporarily restricted net assets are those whose use by the System has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained in perpetuity.

Net Patient Service Revenue
Third-party payors (Medicare, Medicaid, and commercial insurance payors) provide payments to the hospitals at amounts different from their established rates Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounts from established charges, and per diem payments. Net patient service revenue is the estimated amount to be realized for services rendered, including estimated retroactive adjustments Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

Allowance for Doubtful Accounts
The System records an allowance for doubtful accounts for estimated losses resulting from non-payment for services from patients or payers. Management routinely evaluates patient account collection history in determining the sufficiency of the allowance for doubtful accounts and provision for bad debts The allowance for doubtful accounts for those patients with third-party insurance is determined based on contractual agreements with payers. The provision for bad debts for uninsured patients is based on historical collection experience Accounts receivable are written off against the allowance for doubtful accounts when management determines that recovery is unlikely and collection efforts cease.

Charity Care
CHE provides services to all patients regardless of ability to pay. In accordance with the System's policy, a patient is classified as a charity patient based on income eligibility criteria as established by the *Federal Poverty Guidelines*. Charges for services to patients who meet the System's guidelines for charity care are not reflected in the accompanying consolidated financial statements. The costs (direct and indirect) associated with these services for charity care provided by the System approximate $435,914,000 and $339,190,000 in 2012 and 2011, respectively. These amounts do not include bad debt expense totaling $234,952,000 and $225,812,000 in 2012 and 2011, respectively, which is reflected separately in the consolidated statements of operations. The costs and provisions for bad debts do not include amounts classified as discontinued operations. Charity care data for services provided is based on the cost of patient care services with costs being determined by application of the standard cost-to-charge ratio.

Other Operating Revenue
Other revenue is derived from services other than the provision of health care services or coverage to patients or residents This revenue consists primarily of federal and state grants, unrestricted contributions, incentive payments received for meeting Federal and State Electronic Health Record meaningful use requirements, rental income, income from health plan operations, support services,

parking garages, gift shop income, cafeteria income, maintenance fee income, foundation investment income, and other miscellaneous income.

Non-Operating Gains (Losses)
Non-operating gains (losses) consist primarily of investment returns, which include investment income, dividends, net unrealized gains (losses) on trading securities, and realized gains and losses on trading securities; equity in earnings of unconsolidated organizations, restructuring expenses and impairment losses; losses on extinguishment of debt; contribution income for contributed assets, gains on the sale of assets, and the change in the fair value of interest rate swaps.

Excess of Revenue over Expenses
The statements of operations include the excess of revenue over expenses. Changes in unrestricted net assets which are excluded from excess of revenue over expenses include unrealized gains and losses on available for sale investments of unconsolidated organizations; permanent transfers of assets to and from affiliates for other than goods and services, pension adjustments, the cumulative effect of change in accounting principle, discontinued operations, and contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets).

Donor-Restricted Gifts
Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets

When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the statement of operations as net assets released from restrictions Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the consolidated financial statements.

Income Taxes
Catholic Health East and certain affiliated nonprofit corporations are generally exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code.

Accounting guidance for income taxes clarifies the accounting for uncertainty of income tax positions. This guidance defines the threshold for recognizing tax return positions in the financial statements as "more likely than not" that the position is sustainable, based on its technical merits. The guidance also provides guidance on the measurement, classification and disclosure of tax return positions in the financial statements. There was no impact from this guidance on CHE's consolidated financial statements during the years ended December 31, 2012 and 2011

Adoption of Accounting Pronouncements
On January 1, 2012, the Company adopted FASB issued ASU 2011-07, *Presentation and Disclosure of Patient Service Revenue, the Provision for Bad Debts, and Allowance for Doubtful Accounts.* This guidance requires the Company to modify the presentation of its consolidated statement of operations and changes in net assets by reclassifying the provision for bad debts associated with patient service revenue from an operating expense to a deduction from patient service revenue. Additionally, the guidance requires enhanced disclosure about the Company's policies for recognizing revenue and assessing bad debts, patient service revenue (net of

contractual allowances and discounts), and qualitative and quantitative information about changes in the allowance for doubtful accounts.

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement-Topic 820. Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards*, to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles and enhances disclosure requirements, particularly for Level 3 fair value measurements. ASU 2011-04 was effective during the fiscal year ended December 31, 2012 and is applied prospectively. The adoption of ASU 2011-04 did not have a material effect on CHE's financial statements

On January 1, 2011, the Company adopted FASB issued ASU 2010-24, *Presentation of Insurance Claims and Related Insurance Recoveries*, which prohibits the offsetting of conditional or unconditional liabilities with anticipated insurance recoveries from third parties. The adoption of this guidance did not have a significant impact on the consolidated financial statements.

On January 1, 2011, the Company adopted FASB issued ASU 2010-23, *Measuring Charity Care for Disclosure,* that requires health care entities to use cost as the measurement basis for charity care disclosures and defines cost as the direct and indirect costs of providing charity care The accompanying notes to the consolidated financial statements reflect the amended disclosure requirements. The cost of caring for charity care patients is disclosed in the social accountability supplemental schedule. The cost of charity care provided to patients is disclosed in the supplementary financial information schedule that accompanies these financial statements. This guidance amended disclosure requirements only, therefore, there was no impact to the Company's consolidated financial statements upon adoption.

Reclassifications
Certain amounts have been reclassified in the prior year's financial statements to conform to the classifications used in the current year.

3. Net Patient Service Revenue

Net patient service revenue from the Medicare and Medicaid programs, exclusive of managed care, accounted for approximately 34.3% and 10.7%, respectively, of total net patient service revenues in 2012, and 29.0% and 9.6%, respectively of total net patient service revenue in 2011 Compliance with laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

Management believes that adequate provision has been made for adjustments that may result from reviews by third-party payors. Estimated net settlements related to Medicare and Medicaid, collectively, of $70,327,000 and $65,225,000 in 2012 and 2011, respectively, are included as a component of current liabilities in the accompanying consolidated balance sheets. The amounts recorded for these estimated settlements approximate their fair value.

Net patient service revenue includes approximately $15,922,000 and $4,170,000 in 2012 and 2011, respectively, related to favorable changes in estimates for prior year cost report reopenings, appeals, and tentative and final cost reports, of which some are still subject to audit, additional reopening, and/or appeals.

The Company recognizes patient service revenue associated with services provided to patients who have third-party insurance based on contractual agreements with payers For uninsured patients who do not qualify for charity care, the Company recognizes revenue based on a self pay discount policy. The Company records a provision for bad debts based on historical collection experience. The following summarizes net patient service revenue for the years ended December 31:

(in thousands of dollars)	2012		2011	
	Gross Charges	Deductions	Gross Charges	Deductions

A portion of CHE's long-term investment assets are held in the CIP Program The CIP Program is structured under a Program Participation Agreement (the "Agreement") between each participant RHC and CHE. All investments in the CIP Program are professionally managed under the administration of CHE.

Participants' investments held in the CIP Program are assigned a weighted value for the period of time the funds are invested in the CIP Program. Investment income from the CIP Program, including interest income, dividends, and realized gains and losses on sales of securities, and unrealized gains and losses are distributed to participants based on their weighted value of investment.

The underlying fair value of investments in the CIP Program, which are traded on national exchanges (except for managed funds), is based on the final reported sales price on the last business day of the year. The fair value of investments traded in over-the-counter markets is based on the average of the last recorded bid and asked prices.

CHE participates in a securities lending program wherein some investments are loaned on an overnight basis to various brokers. CHE receives lending fees and earns interest and dividends on the loaned securities. These securities are returnable on demand and are collateralized by cash deposits and U.S. Treasury Obligations. Collateral received is at 100% of the fair value of the securities on loan. CHE is indemnified against borrower default by the financial institution acting as lending agent. At December 31, 2012 and 2011, securities with a fair market value of $67,972,000 and $130,634,000, respectively, were loaned under securities lending agreements.

Investment returns, net, is comprised of the following for the years ended December 31:

5. Fair Value Measurements

The System adheres to applicable accounting guidance for fair value measurements. This guidance defines fair value, establishes a framework for measuring fair value under accounting principles generally accepted in the United States of America and requires certain disclosures about fair value measurements. Fair value is defined under the guidance as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date

As a basis for considering assumptions, the guidance establishes a hierarchical framework for measuring fair value (the fair value hierarchy) as follows:

Level 1: Quoted prices in active markets for identical assets.

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar instruments; quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data.

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets.

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Financial instruments measured at fair value are based on one or more of the three valuation techniques noted in the fair value guidance. The three valuation techniques are as follows:

Market approach: Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities.

Cost approach. Amount that would be required to replace the service capacity of an asset (i.e., replacement cost).

Income approach: Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques and option-pricing models).

The System measures its interest rate swaps at fair market value on a recurring basis. The fair market value of the interest rate swaps is determined based on financial models that consider current and future market interest rates and adjustments for non-performance risk.

Financial instruments at fair value at December 31, 2012 and 2011 are as follows:

There were no transfers between fair value levels for the years ended December 31, 2012 and 2011.

(1) **Cash & cash equivalents** - The fair value of cash and cash equivalents, consisting primarily of cash and money market funds, is classified as Level 1, as these financial instruments are highly liquid The fair value of certificates of deposit and commercial paper are classified as Level 2 Cash and Cash Equivalents because their valuations are based on multiple sources of information, including quoted prices from active and non-active markets, and amortized costs which approximates fair value.

(2) **Marketable equity securities** – Equity securities include both domestic equity and international equity asset classes. Investments in certain equity securities represent investments in commingled funds consisting primarily of equity securities. These investments are classified as Level 2 because although they are traded in an active market for daily closing prices measured primarily on a NAV basis, their closing prices are not published or available on active exchanges. At December 31, 2012 and 2011, notice periods are generally three (3) business days, according to provisions of the respective investment agreements. Investments in other equity (common and preferred) securities that are not considered commingled funds are measured at fair value using quoted market prices on active exchanges. They are classified as Level 1 as they are traded in an active market for which daily closing stock prices are readily available.

(3) **Marketable debt securities** – Investments in certain fixed income securities represent investments in registered investment companies consisting primarily of fixed income securities. These investments, as well as investments in U.S Government securities, are classified as Level 1 because they are traded in an active market for which daily closing prices, measured primarily on a NAV basis, are available. Investments in other fixed income securities that are not considered registered investment companies or U.S. Government securities are comprised primarily of corporate debt instruments and mortgage-backed securities issued by government sponsored agencies. These fixed income securities are classified as Level 2 based on multiple sources of information, which may include quoted market prices from either markets that are not active or are for the same or similar assets in active markets. Investments in certain fixed securities represent investments in commingled funds consisting primarily of fixed securities. These investments are classified as Level 2 because although they are traded in an active market for daily closing prices measured primarily on a NAV basis, their closing prices are not published or available on active exchanges

(4) **Perpetual trusts** – Perpetual trusts are assessed a net asset value per share for these alternative investments that has been calculated in accordance with investment company rules, which among other requirements, indicates that the underlying investments be measured at fair value. They are classified as Level 3 because of the nature of the perpetual trust investment and its transparency to the underlying investments within the trust.

(5) **Interest rate swaps** - The interest rate swap agreements are valued using a pricing service at net present value. These evaluated prices render these instruments Level 2. The volatility in the fair value of the swap agreements change as long-term interest rates change

6. Property and Equipment

The following summarizes property and equipment at December 31:

(in thousands of dollars)	2012	2011
Land and improvements	$110,573	$102,496
Buildings and improvements	2,128,451	2,060,368

	3,835,496	3,622,862
Less Accumulated depreciation and amortization	(2,123,726)	(1,972,665)
	1,711,770	1,650,197
Construction in progress	167,350	124,080
	$1,879,120	$1,774,277

At December 31, 2012 and 2011, approximately $590,248,000 and $567,791,000 of property and equipment, net, is pledged as collateral under various loan agreements. Interest cost, net of related interest income, totaling approximately $1,939,000 and $3,181,000 was capitalized to construction in progress during 2012 and 2011, respectively.

7. Investments in Unconsolidated Organizations

Catholic Health East has investments in unconsolidated organizations totaling $1,616,988,000 and $1,450,068,000 at December 31, 2012 and 2011, respectively. Several significant investments, which are accounted for under the equity method, comprise this balance including, but not limited to, the following:

BayCare Health System
CHE has a fifty percent interest in BayCare Health System Inc. and Affiliates ("BayCare"), a Florida not-for-profit corporation exempt from state and federal income taxes. BayCare was formed in 1997 pursuant to a Joint Operating Agreement ("JOA") among the not-for-profit, tax-exempt members of the Catholic Health East BayCare Participants, Morton Plant Mease Health Care, Inc, and South Florida Baptist Hospital, Inc (collectively, the Members) BayCare consists of three community health alliances located in the Tampa Bay area of Florida including St. Joseph's-Baptist Healthcare Hospital, St. Anthony's Health Care, and Morton Plant Mease Health Care with an aggregate of approximately 2,900 acute care beds. CHE has the right to appoint nine of the twenty-one members of the Board of Directors of BayCare At December 31, 2012 and 2011, CHE's recorded investment in BayCare totaled $1,350,732,000 and $1,138,120,000, excluding wholly owned subsidiaries and other beneficial interests.

Catholic Health System, Inc.
CHE has a one-third interest in Catholic Health System, Inc and Subsidiaries ("CHS"). CHS, formed in 1998, is a not-for-profit integrated delivery healthcare system in Western New York jointly sponsored by the Sisters of Mercy, Ascension Health System, the Franciscan Sisters of St. Joseph, and the Diocese of Buffalo. CHE, Ascension Health System, and the Diocese of Buffalo are the corporate members of CHS. CHS operates several organizations, the largest of which are four acute care hospitals located in Buffalo, New York, Mercy Hospital of Buffalo, Kenmore Mercy Hospital, Sisters of Charity Hospital, and St. Joseph Hospital At December 31, 2012 and 2011, CHE's recorded investment in CHS totaled $12,116,000 and $12,914,000, respectively.

Emory Healthcare/St. Joseph's Health System
On December 31, 2011, CHE entered into a joint operating agreement with Emory Healthcare as described in Note 18, and retains a forty-nine percent equity interest in Emory Healthcare/St. Joseph's Health System ("EH/SJHS"). EH/SJHS operates several organizations, including two acute care hospitals, St. Joseph's Hospital of Atlanta, and John's Creek Hospital. At December 31, 2012 and 2011, CHE's recorded investment in EH/SJHS totaled $60,519,000 and $142,175,000, respectively.

Condensed consolidated balance sheets of BayCare, including wholly owned foundations and other beneficial interests, CHS and EH/SJHS as of December 31 are as follows:

(in thousands of dollars)

	Baycare		CHS		EH/SJHS	
	2012	2011	2012	2011	2012	2011
Assets	$4,750,607	$4,014,123	$778,333	$682,748	$446,739	$639,369
Liabilities	$1,908,513	$1,597,252	$737,110	$639,128	$322,692	$313,233
Net assets	$2,842,094	$2,416,871	$41,223	$43,620	$124,047	$326,136

The following amounts have been recognized in the accompanying consolidated statements of operations and changes in net assets related to the investments in BayCare, CHS and EH/SJHS for the years ended December 31:

(in thousands of dollars)	Baycare		CHS		EH/SJHS
	2012	2011	2012	2011	2012
Equity in earnings of unconsolidated organizations	$211,786	$74,611	$9,187	$8,747	($84,873)
Net unrealized losses on investments	-	19	-	-	-
Other changes in unrestricted and restricted net assets	825	(7,965)	(9,986)	(20,356)	(4,006)
	$212,611	$66,665	($799)	($11,609)	($88,879)

Additionally, certain RHCs have investments in unconsolidated organizations, the most significant of which is an investment in a Medicaid HMO joint venture at Mercy Health System of Southeastern Pennsylvania ("Mercy SEPA"). These investments total $193,621,000 and $156,859,000 in 2012 and 2011, respectively. CHE's proportionate share of the income of these investments was $34,050,000 and $70,846,000 for the years ended December 31, 2012 and 2011, respectively.

8. Long-Term Debt

At December 31, long-term debt consisted of the following:

(In thousands of dollars)	2012	2011

The fair value of the System's long term debt is based on quoted market prices or estimates using discounted cash flow analyses, based on the participating facility's incremental borrowing rates for similar types of borrowing arrangements (Level 2). The fair value of the System's long-term debt at December 31, 2012 and 2011 was $1,279,868,000 and $1,343,421,000, respectively, compared to the carrying value of $1,244,868,000 and $1,214,421,000, respectively. This excludes capital leases and mortgage notes

On June 1, 2012 CHE issued $147,640,000 of Series 2012A Hospital Revenue Bonds through the Delaware County Authority (Pennsylvania) Health System, the City of Tampa, Florida Health, and North Carolina Medical Care Commission Health System. The bonds were issued as fixed rate bonds with interest rates ranging from 4.0% to 5.25%. The proceeds of this issue were used to refund and redeem certain of the outstanding Series 1998A Revenue Bonds issued previously and to pay the costs of issuance. As part of this transaction, CHE recorded a loss on extinguishment of debt totaling $2,908,000.

On December 31, 2011, CHE transferred the outstanding debt of St. Joseph's Hospital, including the Series 2007A Revenue Bonds of $9,900,000, the Series 2009 Revenue Bonds of $68,970,000, and the Series 2010 Revenue Bonds of $40,135,000 to the St. Joseph's/Emory Healthcare Joint Operating Agreement described in Note 18. Subsequent to the transfer date, the debt is guaranteed by Emory University and is no longer an obligation of the CHE Obligated Group.

On June 1, 2011, CHE repaid the outstanding debt of Mercy Hospital, Miami, including the Series 1998 Hospital Revenue Bonds of $10,000,000, the Series 2002 Hospital Revenue Bonds of $35,000,000, the Series 2003C Hospital Revenue Bonds of $14,000,000, the Series 2008 Hospital Revenue Bonds of $31,900,000, and the Series 2009 Hospital Revenue Bonds of $29,300,000. The debt was repaid with proceeds from the sale of certain entities of Mercy Hospital, Miami to HCA as described in Note 18.

On February 3, 2011, St. Peter's Health Care Services issued $34,200,000 of Series 2011 Hospital Revenue Bonds through the City of Albany Capital Resource Corporation. The bonds were issued as fixed rate bonds with interest rates ranging from 3.0% to 6.25%. The proceeds of this issue were used for St. Peter's Hospital Master Facilities Plan building and equipment projects, to fund a debt service reserve fund, to pay capitalized interest, and to pay the costs of issuance.

Certain CHE constituent corporations are members of the CHE Obligated Group. Under the Amended and Restated Master Trust Indenture dated January 1, 1998 and amended and restated as of September 30, 2006, Obligated Group members provide a revenue pledge and are joint and severally liable on all obligations outstanding under the Master Indenture. Additionally, the Obligated Group has agreed to comply with certain covenants including the repayment of principal and interest, notification regarding admission or withdrawal of members of the Obligated Group, to deliver financial statements and other related information by specified due dates, to maintain insurance, and to maintain a long-term debt service coverage of at least 1.10 to 1.00.

Pursuant to loan agreements between CHE and various RHCs, promissory notes have been executed by each RHC in amounts equal to the amount of proceeds necessary to defease previously existing debt and provide for capital projects.

In prior years, CHE advance refunded certain of its bonds which are no longer reflected in the consolidated financial statements since CHE has legally satisfied its obligation through defeasance. Funds are held in an irrevocable escrow with a trustee and are expected to be sufficient to satisfy the obligations.

CHE maintains a revolving credit loan facility which is structured through a consortium with five banks and extends through November 30, 2017. The credit facility totals $300,000,000 with an option to increase the credit facility to $350,000,000. At December 31, 2012 and 2011, approximately $32,812,000 and $43,697,000, respectively, of the total credit facility was obligated for standby letters of credit. Additionally, approximately $101,300,000 and $106,035,000 at December 31, 2012 and 2011, respectively, had been borrowed against the total credit facility. Borrowings under this agreement may be repaid at any time and are payable upon termination of the agreement These borrowings were used to finance various capital projects at several of the RHCs. Use of the credit facility for standby letters of credit is limited to $100,000,000 of the total credit facility.

Certain of the System's variable rate demand bonds are supported by irrevocable letters of credit with expiration dates in 2013 and 2014. CHE is the guarantor for these letters of credit. The letters of credit and dates of expiration are as follows:

RHC	Associated Bond Issue	Expiration
Mercy Medical Corporation	Series 1997	11/1/2013
St. Mary Medical Center	Series 1997	11/1/2013
Holy Cross Hospital	Series 1997	11/1/2013
Holy Cross Hospital	Series 2000	12/31/2014
St. Francis Medical Center	Series 2003	12/31/2014
St. Joseph of the Pines, Inc.	Series 2008	4/23/2014

Blended Cost of Debt Program
CHE maintains a Blended Cost of Debt Program (the "Debt Program") to provide a uniform cost of debt for participating RHCs and to mitigate the interest rate risk of an RHC.

Under the Debt Program, all debt costs, excluding taxable debt, capitalized leases, and short-term borrowing, are blended. The calculation of the blended costs incorporates bond interest, both fixed and variable, debt-related fees, such as letters of credit, credit enhancement, remarketing, auction, as well as periodic rating agency, bond trustee, master trustee and issuing authority fees, net swap payments/receipts and put/guaranty receipts, along with other miscellaneous fees related to tax-exempt debt issued by CHE and its affiliates.

Participants in the Debt Program make periodic payments to CHE. Each participant's periodic payment is based on their respective percentage of total indebtedness included in the Debt Program. Principal payments are not blended. Participants make their scheduled principal payments to CHE in the month they are due.

9. Derivative Financial Instruments

CHE has entered into derivative transactions for the purpose of reducing interest rate volatility and to reduce interest expense. CHE has entered into fixed-to-floating interest rate swaps, total return swaps, basis swaps, and fixed-payor swaps.

At December 31, 2012 and 2011, fourteen *basis swap* transactions were outstanding in the CHE Debt Program with notional amounts totaling $717,000,000 and maturity dates ranging from February 2023 to December 2028. In the basis swap transactions, CHE receives a floating taxable rate and pays a floating tax-exempt rate. CHE has elected not to designate these interest rate swap agreements as hedges for financial reporting purposes.

At December 31, 2012 and 2011, four and six *fixed-to-floating interest rate swap* agreements, respectively, were outstanding in the CHE Debt Program. The fixed-to-floating swaps had notional amounts totaling $95,000,000 and $150,000,000 at December 31, 2012 and 2011, respectively, and maturity dates ranging from March 2014 to April 2017. These fixed-to-floating interest rate swap agreements effectively convert a portion of the System's fixed rate debt to a floating rate basis and are not designated as hedges for financial reporting purposes.

At December 31, 2012 and 2011, four *fixed-payor interest rate swap* agreements, were outstanding in the CHE Debt Program. The fixed-payor swaps had notional amounts totaling $27,700,000 and maturity dates ranging from November 2032 to November 2034. Under these interest rate swap agreements CHE pays a fixed rate and receives a variable rate. Additionally, the cash flows from these interest rate swap agreements equal the rates on the bonds and therefore effectively convert the debt to a fixed rate. The notional amount of these interest rate swap agreements declines in relation to the annual principal payments on the hedged debt. CHE has elected not to designate these interest rate swap agreements as hedges for financial reporting purposes

At December 31, 2012 and 2011, five and seven *total return swap* agreements, respectively, were outstanding in the CHE Debt Program. The total return swaps had notional amounts totaling $85,525,000 and $104,300,000 at December 31, 2012 and 2011, respectively, and maturity dates ranging from June 2013 to May 2014. Under these swap agreements, CHE receives a fixed rate on the amount corresponding to the par amount of the outstanding bonds, and pays the Securities Industry and Financial Markets Association ("SIFMA") index. CHE has elected not to designate these interest rate swap agreements as hedges for financial reporting purposes.

At December 31, 2012, three *fixed-to-floating interest rate swaps* were outstanding outside the CHE Debt Program with notional amounts totaling $47,180,000 and maturity dates ranging from November 2013 to August 2033. These fixed-to-floating swaps were not outstanding as of December 31, 2011. In accordance with certain of these swap agreements a collateral account may be required as security for the swap.

The fair value of derivative instruments at December 31 is as follows:

(in thousands of dollars)	2012		2011	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Interest rate contracts				
Basis	Other assets	$5,938	Other liabilities	($6,344)

Total		$6,424	($1,232)

Certain of CHE's derivative instruments contain credit-risk-related provisions that require CHE and its counterparties to post collateral in varying amounts based on respective credit ratings. If CHE's debt were to fall below investment grade, the counterparties to the derivative instruments would require CHE to post collateral only if the aggregate position of all derivative instruments is negative. Based on CHE's current credit rating, the System was not required to post collateral as of December 31, 2012 or 2011. Locally held derivative instruments (non-CHE) required posted collateral at December 31, 2012 and 2011 in the amount of $474,000 and $753,000, respectively.

10. Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the System has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained in perpetuity. Temporarily restricted net assets at December 31 are available for the following purposes

(in thousands of dollars)	2012	2011
Temporarily restricted net assets		
Education and research	$5,746	$5,397
Building and equipment	28,180	27,406
Patient care	14,916	16,480
Cancer Center/research	7,431	6,110
Other	86,737	85,221
	$143,010	$140,614

Permanently restricted net assets at December 31 are restricted as follows:

(in thousands of dollars)	2012	2011
Permanently restricted net assets		
Investments to be held in perpetuity, the income from which is expendable to support health care services (reported as operating income)	$37,897	$36,272
Endowments requiring income to be added to the original gift	2,426	2,282
Other	9,504	8,152
	$49,827	$46,706

The System classifies the portions of donor-restricted endowment funds of perpetual duration as permanently restricted net assets. Permanently restricted net assets of the System are comprised of a) the original value of gifts donated to the System through a permanent endowment, b) the original value of subsequent gifts to the System through a permanent endowment, and c) accumulations to the permanent endowment in accordance with applicable donor gift instruments. Any portions of donor-restricted endowment funds that are not classified as permanently restricted are appropriated in accordance with donor intent.

The System considers the following factors in determining if donor-restricted endowment funds are accumulated or appropriated.

1) the duration and preservation of the fund
2) the purposes of the System's donor-restricted endowment funds
3) general economic conditions
4) effect of possible inflation or deflation
5) the expected total investment return and appreciation of investments
6) other resources of the System
7) investment policies of the System

The System's permanently restricted net assets consist of individual endowment accounts. Unless otherwise directed by the donor, gifts received for endowments are invested in accordance with the System's investment policy. Unless otherwise directed by the donor, the System annually appropriates a certain percentage of each endowment fund, which is then available for spending in accordance with the donor's intent. In order to preserve the real value of a donor's gift and to sustain funding consistent with donor intent, the annual appropriation rate is set to strike a reasonable balance between long-term objectives of preserving and growing each endowment fund for the future and providing stable, annual appropriations.

The composition of endowment fund net assets, by type of fund, at December 31, 2012 and 2011 are as follows:

(in thousands of dollars)

	2012		
	Unrestricted	Temporarily Restricted	Permanently Restricted
Donor-restricted endowment funds	$ -	$82,466	$49,827
Board-designated endowment funds	17,864	445	-

11. Insurance

Professional and general liability risk is insured through Stella Maris Insurance Company, Ltd. a wholly owned, captive insurance company, commercial insurance and reinsurance companies, and self-insured programs. Excess insurance over self-insured amounts and coverage provided by the captive has been purchased from the commercial insurance and reinsurance markets. The excess professional liability coverage is provided on a claims-made basis. There are known claims and incidents that may result in the assertion of additional claims, as well as claims from unknown incidents that may be asserted arising from services provided to patients. CHE has employed independent actuaries to estimate the ultimate costs, if any, of the settlement of such claims. Accrued malpractice losses have been discounted at a rate of 4 0% at December 31, 2012 and 2011, and in management's opinion provide an adequate reserve for loss contingencies.

CHE maintains a large deductible program for workers' compensation. Losses from asserted claims and from unasserted claims identified under CHE's incident reporting systems are accrued based on estimates that incorporate CHE's experience, relevant trends, and other factors. CHE has employed independent actuaries to estimate the ultimate costs, if any, of the settlement of such claims. Accrued workers' compensation losses have been discounted at a rate of 4.0% at December 31, 2012 and 2011, and in management's opinion provide an adequate reserve for loss contingencies.

Total amounts accrued under these programs as current liabilities approximate $19,642,000 and $18,901,000 at December 31, 2012 and 2011, respectively. Total amounts accrued under these programs as long-term liabilities approximate $284,966,000 and $299,960,000 at December 31, 2012 and 2011, respectively

Bank-administered trust and other accounts have been established for the purpose of segregating assets. These trusts are funded based on actuarial estimates and can only be used for payment of malpractice losses, related expenses, and administrative costs of the trusts. Assets of the trusts are included in marketable securities whose use is limited

The total amount charged to expense under these self-insured programs was $57,066,000 and $45,451,000 in 2012 and 2011, respectively.

12. Pension Plans

The System maintains non-contributory defined benefit pension plans that vary from one RHC to another, collectively, "the Plan." CHE has amended substantially all defined benefit pension plans to freeze service accruals.

The following table sets forth the change in benefit obligation and the change in fair value of plan assets based on the measurement date, and the amounts recognized in the consolidated financial statements at December 31.

(in thousands of dollars)	2012	2011

The following table sets for the components of net periodic benefit cost for the applicable plan(s) at December 31:

(in thousands of dollars)	2012	2011
Components of net periodic benefit cost:		
Service cost	$6,654	$10,178
Interest cost	54,091	52,707

Amortization of actuarial loss	13,573	9,039
Other adjustments	(195)	-
Net periodic benefit cost	$7,109	$12,081

The net actuarial loss that will be amortized from unrestricted net assets in the net periodic benefit cost in 2013 is $14,194,000.

The assumptions used to determine the benefit obligation and periodic benefit cost at December 31 are as follows

	2012	2011
Assumptions used to determine the benefit obligation at December 31:		
Weighted average discount rate	3 55% - 4 05%	4 15% - 5 00%
Weighted average rate of compensation increases	2 50%	3 75% - 4 25%
Weighted average expected long-term rate of return on plan assets	7 50%	7 5% - 8 50%

	2012	2011
Assumptions used to determine periodic benefit cost at December 31:		
Weighted average discount rate	4 15% - 4 60%	4 90% - 5 55%
Weighted average rate of compensation increases	3 75% - 4 25%	3 75% - 4 25%
Weighted average expected long-term rate of return on plan assets	7 5% - 8 00%	7 5% - 8 50%

Investment Policy and Asset Allocations – In developing the assumption for the expected rate of return on assets, CHE evaluates historical returns, the level of expected returns on risk-free investments (primarily government bonds), the historical level of the risk premium associated with the other asset classes in which the portfolio is invested, and the expectations for future returns of each asset class. The expected rate of return for each asset class is then weighted based on the target asset allocation to develop the assumption for the expected long-term rate of return on assets. For plans with frozen service accruals, the investment policy was modified to allow for asset allocation changes over time as the plans become more fully funded in order to de-risk the plans. This strategy utilizes a "glide path" approach, consisting of a series of target asset allocations for various funded ratio levels, reduces exposure to return seeking assets (marketable equity securities and managed funds) and increases exposure to the liability-hedging assets (cash and marketable debt securities) over time. The Company continually evaluates the asset allocation strategy relative to changing market conditions, pension assumptions, and overall funded status of the plans.

The weighted average asset allocation for the plan at December 31 and the target allocation for calendar year 2012 and 2011, by asset category, are as follows:

	Target Allocation 2012 From-To	2012	Target Allocation 2011 From-To	2011
Asset category				
Cash & marketable debt securities	18.8%-40 0%	21.6 %	18 8%-40 0%	22.5 %
Marketable equitity securities & managed funds	60 0%-81.2%	78 4 %	60.0%-81.2%	77 5 %
	100 0%	100 0%	100 0%	100 0%

The portfolio is diversified among a mix of assets including large and small cap, domestic and foreign equities, fixed income, managed funds, and cash. Asset mix is targeted to a specific allocation, either intermediate or long-term, that is established by evaluating expected return, standard deviation, and correlation of various assets against the plan's long-term objectives. Asset performance is monitored quarterly and rebalanced if asset classes exceed explicit ranges. The investment policy governs permitted types of investments, and outlines specific benchmarks and performance percentiles. The Investment Subcommittee of the Stewardship Committee of the CHE Board oversees the pension investment program and monitors investment performance. Risk is closely monitored through the evaluation of portfolio holdings and tracking the beta and standard deviation of the portfolio performance.

The following table presents the Plan's financial instruments as of December 31, 2012 measured at fair value on a recurring basis using the fair value hierarchy defined in Note 5. The investments are not included in the marketable securities whose use is limited in the accompanying consolidated balance sheet. These investments are maintained separately in a pension investment program that is controlled by a trustee·

13. Concentration of Credit Risk

CHE grants credit without collateral to its patients, most of whom are insured under third-party payor agreements The mix of receivables from patients and third-party payors at December 31 was as follows:

	2012	2011
Managed care	31 9 %	31.1 %
Medicare	24 0 %	23 8 %
Medicaid	9 5 %	11 0 %
Self-pay	11 9 %	11 3 %
Other third-party payors	11 9 %	14 4 %
Commercial	10 8 %	8 4 %
	100 0 %	100 0 %

In addition, CHE invests its cash and cash equivalents primarily with banks and financial institutions These deposits may be in excess of federally insured limits. Management believes that the credit risk related to these deposits is minimal.

14. Commitments and Contingencies

The RHCs are defendants in various lawsuits relating primarily to rendering of health care services In each instance, management of the respective RHCs is of the opinion that the liability, if any, resulting there from will be covered by insurance or will not have a material adverse impact on the consolidated financial statements of CHE. In addition, certain CHE entities have been contacted by governmental agencies regarding alleged violations of practices for certain services Management of the respective RHCs has performed, with the advice and assistance of outside legal counsel, an evaluation of billing practices and compliance with related laws and regulations. In the opinion of management, after consultation with outside legal counsel, the ultimate outcome of these matters will not have a material adverse impact on the consolidated financial statements of CHE.

On March 29, 2013, the Company was notified that it is a defendant in a lawsuit which challenges the church plan status of the Company's defined benefit pension plans. The Company believes it will prevail in defense of this matter.

15. Leases

The RHCs lease office space and certain equipment under noncancelable operating leases. Rental expense was approximately $79,885,000 and $79,211,000 in 2012 and 2011, respectively.

Future minimum lease payments for all noncancelable leases as of December 31, 2012 are as follows:

17. Assets Held for Sale and Discontinued Operations

On January 14, 2013, Mercy Health System of Maine (Mercy Maine) entered into a definitive agreement with Eastern Maine Health System (EMHS) under which EMHS would assume control over Mercy Maine and its component corporation. As of December 31, 2012 and 2011, Mercy Maine's assets and liabilities have been reclassified as held for sale. The operating results of Mercy Maine are reflected as discontinued operations in the consolidated statements of operations.

On February 8, 2013, Saint Michael's Medical Center entered into an asset purchase agreement (APA) under which the hospital would be acquired by another healthcare organization Certain assets and liabilities of Saint Michael's Medical Center have been classified as held for sale on the consolidated balance sheets as of December 31, 2012 and 2011. The operating results of Saint Michael's Medical Center are reflected as discontinued operations in the consolidated statements of operations.

Additionally, the Boards of Directors at certain of the Company's RHCs have approved management plans to divest or otherwise exit certain services lines and asset groups Service lines and asset groups subject to such management plans are collectively referred to as the Disposal Group.

Saint Joseph's Health System

On December 31, 2011, the Company contributed certain assets and liabilities of St. Joseph's Health System to a joint operating company ("JOC") with Emory Healthcare in exchange for a 49% non-controlling ownership interest. The entities contributed to the JOC include St. Joseph's Hospital of Atlanta, Saint Joseph's Real Estate Corporation, Saint Joseph's Service Corporation, The Medical Group of Saint Joseph's, Saint Joseph's Translational Research Institute, and the International College of Robotic Surgery. An equity investment resulting from the transaction is included in investments in unconsolidated organizations in the accompanying consolidated balance sheets and is detailed further in Note 7. The related operating loss of $31,249,000 at December 31, 2011 was classified separately within operating income on the consolidated statement of operations.

Mercy Health System of Southeastern Pennsylvania

On November 30, 2011, Mercy SEPA Mercy Health System of Southeastern Pennsylvania sold its equity ownership interests in certain Medicaid managed care organizations to Independence Blue Cross and Blue Cross/Blue Shield of Michigan. As consideration for the sale, Mercy Health System received a lump sum cash payment of $194.0 million and a $43.0 million pledge to the Mercy Health System Foundation to be paid over a seven (7) year period, which is included in other assets in the accompanying consolidated balance sheet at December 31, 2011. Mercy Health System recognized a gain on sale of $94.9 million related to this transaction, which is included in the December 31, 2011 statement of operations and changes in net assets.

Mercy Hospital, Miami

On May 1, 2011, the Company sold certain entities of Mercy Hospital, Miami to Hospital Corporation of America ("HCA"). The entities sold included Mercy Hospital, Sister Emmanuel Hospital for Continuing Care, Mercy Medical Development, and Mercy Physician Group. The results of these operations are reflected as discontinued operations in the accompanying statement of operations and changes in net assets at December 31, 2011. Proceeds from the sale were used primarily to satisfy long-term debt obligations of Mercy Hospital, Miami.

19. Subsequent Events

CHE evaluated the impact of subsequent events through April 30, 2013, representing the date at which the consolidated financial statements were issued.

On January 16, 2013, the Company and Trinity Health, an Indiana non-profit corporation, entered into a Consolidation Agreement, subject to regulatory approval and other closing conditions, under which the Company and Trinity Health would consolidate into a new non-profit organization. The transaction is expected to be completed in 2013.

In January 2013, CHE issued $39.1 million of Series 2012 Hospital Revenue Bonds through Green County (Georgia) Development Authority. The bonds were issued as fixed rate bonds with interest rates ranging from 4.0% to 5.0%. The proceeds of this issue will be used to fund the construction of a replacement facility for Good Samaritan Hospital in Greensboro, Georgia, and to pay the costs of issuance.

In January 2013, CHE issued $63.6 million of Series 2012B Hospital Revenue Bonds through the Saint Mary Hospital Financing Authority (Pennsylvania) The bonds were issued as variable rate bonds with an average annual interest rate 3.5%. The proceeds of these bonds were used to finance certain qualifying electronic health record expenditures at CHE's System Office, Mercy SEPA, and St. Mary Langhorne, and to pay the costs of issuance.

Social Accountability Supplemental Schedule - Unaudited
December 31, 2012 and 2011

Social Accountability

In keeping with the mission and purpose of CHE, to carry out the health care ministries of the sponsoring congregations by serving as a community of persons committed to being a transforming, healing presence within the communities it serves, and in particular the needs of the poor, the System strives to maximize the provision of services in its communities and in collaboration with other organizations. A portion of CHE's overall operating expense relates to costs incurred in providing and meeting certain community needs for which CHE is not directly compensated.

A standard reporting and accountability process is utilized throughout CHE to estimate the net cost of these services, referred to as Social Accountability Costs, which provides a basis of accountability and reporting to the communities served for purposes of disclosing the utilization of resources. Costs reported are net of contributions or grants that have been provided to CHE and designated for these purposes

The information presented below has been calculated and is in presented in accordance with the Catholic Health Association's, *A Guide for Planning and Reporting Community Benefits*, Copyright 2012. Social accountability costs for the years ended December 31 are as follows:

(in thousands of dollars)	**2012**	**2011**
Cost of care for those who are poor	$70,310	$57,691
Cost of community benefit programs	76,175	73,788
Other public programs	11,425	9,786
Unpaid cost of Medicaid programs	96,133	79,827
Social accountability costs	$254,043	$221,092
Percentage of operating expenses	5 5%	4 8%
Unpaid cost of Medicare programs	$147,349	$197,923

The cost of care of the poor is based on the System's estimated net cost of providing services to those unable to pay. The cost of the community benefit programs reflects the costs to develop and provide programs that are developed and provided to meet special community needs that would not otherwise be available Volunteer service reflects both internal and external services provided to support patient care activities and community programs. The difference between amounts reimbursed to the System under the Medicare and Medicaid programs and the estimated cost of providing care for these respective programs is reflected as an unpaid cost of the program.
