- 7 State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report.
- 8 Facility reporting group(s).** If applicable, for each hospital facility in a facility reporting group provide the descriptions required for Part V, Section B, lines 1j, 3, 4, 5c, 6i, 7, 10, 11, 12h, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22.

Part I, Line 7: The overall cost-to-charge ratio from the Medicare cost report was used to determine the total community benefit cost for Charity Care, Medical Assistance, and Health Professional Education.

Part I, Ln 7 Col(f): For the period ended June 30, 2013, bad debt expense is no longer reported on Form 990, Part IX, Line 25. Bad debt expense for period ended June 30, 2013 was \$2,403,833 and was reported as an offset to revenue.

Part II Community Building Activities

The Trenton Health Team (THT) has completed a comprehensive, data-informed Community Health Needs assessment (CHNA). THT, a collaborative of the city's two hospitals, St Francis Medical Center and Capital Health; Henry J. Austin Health Center and Trenton's Department of Health & Human Services, has partnered with community and social services agencies across Trenton in a new approach to develop one CHNA for the city. Organization participating in the unified CHNA have committed to allocating resources to address the health needs as

Part VI Supplemental Information

identified. In addition to committing employee time, THT meetings have been held at St Francis Medical Center Facilities.

Part III, Line 2:

The figures were calculated based on the cost-to-charge ratio. The cost-to-charge ratio was derived by dividing total operating expenses (excluding bad debt expense) by total gross patient charges. The cost-to-charge ratio was applied to total bad debt write-offs to calculate the costs for line 2.

Part III, Line 4: St. Francis Medical Center provides services to all patients regardless of the ability to pay. In accordance with the Medical Center's policy, a patient is classified as charity patient based on eligibility criteria as established by the Federal Poverty Guidelines. Charges associated with these services do not include the provision for bad debts which is a result of the unwillingness of patients to make payment for services after recovery is deemed to be unlikely and all collection efforts have ceased. Self-Pay accounts are written-down to what would be expected to be paid for the same services from Medicare, which is the estimate of cost. The provision for bad debt should be considered a community benefit because a significant portion of bad debt expense is realized as a result to the lack of financial information provided by the patients, who would most likely qualify for charity care.

While we make all reasonable efforts to identify patients eligible for charity care prior to billing, such pre-billing identification is not

Part VI Supplemental Information

always possible. This problem arises largely with patients treated in our Emergency Department ("ED") on an outpatient basis. Frequently, these patients do not complete an application for financial assistance therefore making a definitive determination difficult. The estimated amount for patients who likely would qualify for financial assistance is calculated for line 3 based on a review of bad debt write-offs to include only bad debt for uninsured patients, and estimating the amount of that cost that could be charity based on a review of applications for financial assistance. A reasonable estimate based on the percentage of patients whose applications do not meet the criteria for financial assistance is used to estimate the amount that could qualify for financial assistance.

For financial reporting, an allowance for doubtful accounts is recorded for estimated losses resulting from the unwillingness of patients to make payments for services. The allowance is determined by analyzing historical data and trends. Accounts receivable are written off against the allowance for doubtful accounts when management determines that recovery is unlikely and collection efforts cease.

Part III, Line 8: In determining the allowable cost of the Medicare the cost-to-charge ratio from the Medicare Cost Report is used. Providing care to Elderly is part of the Mission of St. Francis Medical Center. Medicare services are provided to eligible patients regardless of their ability to pay, and therefore any shortfall is considered to be a community benefit provided by the St. Francis Medical Center.

Part III, Line 9b: Self-pay balances are transferred to professional collection agencies when the accounts complete a patient statement dunning

Part VI Supplemental Information

cycle (e.g., 121 days) with no payment from the patient or proof of eligibility for charity care or other programs. Collection efforts for patients who have applied for charity care will continue, until a final determination on the application has been made. A "pending application" is defined as an application that has been fully completed by the patient, submitted and is in the process of being determined for eligibility. It is acceptable (but not preferable) to take an account through the full collection cycle and later reclassify it as charity care, as long as a consistent process is followed and a legitimate basis exists that the patient is unable to pay. It is possible that a claim can complete the billing process and be referred for outside collection activity, prior to a favorable charity determination decision being made. Once a patient has been identified as being eligible for charity care, St. Francis Medical Center will notify the collection agency to cease all further activity. St. Francis Medical Center will distribute this policy to all collection agencies to advise them of the program's availability, to make them aware of the documentation required to apply, and to familiarize them with the determination letter, in case they receive notification from the patient, before an account has been written off. If a favorable determination is rendered, the collection agency will not use wage garnishments or liens on primary residences for the portion of the claim eligible for a charity write off. For those receiving a determination of less than 100% write off, the collection agency will resume their collection efforts and employ all means previously contractually agreed upon. St. Francis Medical Center will, in all cases, specifically authorize all institutional litigation. This does not preclude agencies from pursuing reimbursement from third party liability settlements.

Part VI Supplemental Information

Saint Francis Medical Center Trenton NJ:

Part V, Section B, Line 3: In developing a process to complete the community health needs assessment, it became clear that the city's health problems were bigger than any single organization could solve. In response to a myriad of needs, the Trenton Health Team (THT), a collaboration between the city's two hospitals, its only Federally Qualified Health Clinic, and its Division of Health, was formed. The THT partners recognized that private health and public health would need to be blended together in new ways for the benefit of the community rather than continuing to function in isolation. As a result, twenty-nine organizations representing government, social service agencies, academia, faith-based communities, and primary care joined forces to better identify the needs of the community. Its findings were published in July of 2013.

Part V, Section B, Line 5c: THT held a press conference with representatives of the local newspapers on 7/24/2013;

Newspaper articles appeared in all the local publications.

In addition, copies of the report were distributed to the Community Advisory Members and Mercer County participating agencies.

Copies also could be obtained in the St. Francis Medical Center library, Administration, and the Marketing Department.

Part VI Supplemental Information

Saint Francis Medical Center Trenton NJ:

Part V, Section B, Line 7: From the five priorities identified in the CHNA, St. Francis Medical Center elected to focus on three (Health Literacy and Disparities; Chronic Disease; and Obesity and Healthy Lifestyles) that would have the most impact on the overall health of the community.

In addition, St. Francis Medical Center and the community partners will assist Henry J. Austin Health Clinic in implementing a multimillion dollar grant that focuses on the identification and early intervention for those with substance abuse addictions.

And lastly, St. Francis Medical Center will collaborate with the Trenton Police Department and Neighborhood Groups to identify and support projects that result in safer neighborhoods such as boarding up vacant buildings; monitoring playgrounds; trimming shrubberies surrounding homes.

Part VI, Line 2: A community needs assessments is performed by management every 2-3 years through a review of services offered, use patterns, and community health outcomes attained. Data was assessed and prioritized with over 500 community members, leaders, physicians, and patients. Needs assessed become the foundation for the community health improvement plan. A community needs assessment was performed by St. Francis Medical Center during 2013.

The following community health needs were prioritized as the highest

Part VI Supplemental Information

health needs for the City of Trenton:

- 1. Obesity/Healthy Lifestyles
- 2. Substance Abuse/Behavioral Health
- 3. Safety and Crime
- 4. Chronic Disease
- 5. Health Literacy and Disparities

Part VI, Line 3: As members of the Catholic healthcare ministry who are deeply committed to caring for those who are poor, St. Francis Medical Center has established respectful and effective procedures for addressing the needs of those persons who are unable to pay for all or most of their care. In order to preserve the dignity of these persons and to facilitate the process of securing necessary information, St. Francis Medical Center strongly prefers to perform financial screening upon scheduling, admission registration, or upon discharge processing in the emergency department. As a general matter, our charity care policy is predominately displayed in our ED and Business office. Patients who represent increased financial risk as a result of the amount they are expected to owe "out-of-pocket", are referred to a financial counselor for assistance in applying for alternative payment programs (e.g., Medicaid Assistance) determining charity care eligibility, establishing payment plans or other financing arrangements. Financial counseling services are made available to all elective, urgent and emergent patients.

Patients with insurance other than that afforded low-income individuals will not have their patient liability unpaid balance, coinsurance, deductible or non-covered service written-off to charity care unless they

Part VI Supplemental Information

qualify for the New Jersey State Hospital Care Assistance Program or financial hardship can be proven.

Part VI, Line 4: During 2013 St. Francis Medical Center completed a Community Health Needs Assessment and Improvement Plan. The findings suggest that the health status of the city of Trenton presents numerous challenges and opportunities to the health care community and to St. Francis in particular, as its mission focuses on service to the poor and marginalized. Trenton, a diverse community located in Mercer County, is the only municipality among 13 towns. Mercer County's population slightly exceeds 360,000 and is one of the most affluent areas in the country, Trenton excluded. Consequently, when reviewing Mercer County data rather than Trenton specific information, the statistical picture for Trenton is significantly diluted as a result of the high quality of health, education and financial resources enjoyed by the remainder of the county.

The City of Trenton has an unemployment rate much higher than the State of New Jersey overall, while Mercer County tends to have an unemployment rate slightly lower than the State of New Jersey. Eighteen percent of Trenton's population is disabled, compared to 15% nationally.

Between 1980 and 2000, census data indicated that the Latino population had more than tripled in Trenton, growing from 10,580 to 33,898. Since 2000 the Latino population in Trenton has increased from 22% to 33%.

Problems affecting the Latino Community include the following: a) employment issues centered around subsistent wages, being overworked and jobs without benefits b) housing concerns centered around housing availability and affordability, c) healthcare concerns centered around

Part VI Supplemental Information

lack of medical insurance, home health aides who speak Spanish and the prohibitive cost of medication.

The socioeconomic status of Trenton mirrors the unfortunate health status as reflected in the high poverty level. Twenty-two percent of the city's population lives below poverty compared to the state rate of 9.8%.

Household median income is approximately half the state's level. Roughly 60% of Trenton's population has a high school diploma, compared to the state level of 84%.

Many Trenton residents do not have access to a medical home. As a result Trenton residents utilize the emergency room almost 54% more often than the national norm, utilize hospital outpatient departments nearly 21% less than the national norm, and are admitted for inpatient care nearly 40% more often than the national norm.

A significant percentage of the population is uninsured. According to the *The Medically Uninsured in New Jersey* a Chart Book published by the NJ Department of Health and Senior Services in collaboration with Rutgers Center for Health Policy, Trenton lies in the state's central region which had the second highest rates of uninsured adults (27%) and children (10%) with Hispanic children the most likely to be uninsured.

There are numerous gaps in service for the Trenton community. Primarily these gaps have to do with the availability of and coordination of primary healthcare for all age groups, particularly the poor elderly and ethnic minorities. The changing demographics of the community suggest language and cultural barriers, transportation limitations and cost of health care

Part VI Supplemental Information

services are growing barriers to providing services.

There are 12 zip codes that comprise the Medical Center's primary service area; however the majority of the visits to the Medical Centers clinics were made by those living in only five zip codes including 08629, the hospital's zip code.

Access to primary care is a persistent need among the poor and indigent. Through the Medical Clinics staffed by medical residents, a total of 2,240 took place in the tax year ended June 30, 2013. SFMC participated in a THT initiative to increase access to primary care services in our clinics. Wait times for appointments were dramatically reduced and continuity of care between providers and patients was improved to 99 percent.

Part VI, Line 5: St. Francis Medical Center has partnered with Capital Health System, the City of Trenton and Henry J. Austin Health Center to create a new 501(c)(3) organization called the Trenton Health Team Inc. ("THT"). SFMC has assumed a leadership position in the THT since its inception. SFMC CEO, CFO, & EVP serve on the THT board and chair board committees. THT board and committees involve a number of community members and organizations, including, Mercer Alliance to End Homelessness, Catholic Charities, Greater Trenton Behavioral Health, Mercer County Board of Social Services, Children's Futures, NJ Department of Health and Senior Services.

During the past few years, THT received over \$1.8 million dollars in grant funding for the creation of a Health Information Exchange. The THT HIE is set to "go live" in late 2013 and will allow for the exchange of lab,

radiology, medication, and problem lists for the residents of Trenton between the city hospitals, FQHC, and physician practices.

We are working closely with staff from the 4 largest mental health and substance abuse programs as well as Mercer County Board of Social Services in an effort to link patients with case management services so that they can get the help they need to secure housing and treatment for substance abuse.

We are now part of a new collaborative effort in Mercer County to help enroll homeless individuals on SSI/SSDI and secure additional social service and health care benefits using a nationally successful process known as SOAR. SOAR is supplemental security income ("SSI")/social security disability insurance ("SSDI"), outreach, assessment and recovery. SOAR brings together a wide array of community services in an effort to provide coordinated case management with the intent of helping eligible individuals successfully apply for and receive SSI/SSDI. The SOAR process began in November 2012 and we now have 50 individuals in various stages of the application process with 12 applicants who have received preliminary commitment letters.

St. Francis Medical Center as part of the Collaborative has partnered with THT to submit grant applications to the Nicholson Foundation, Robert Wood Johnson Foundation and federal government. SFMC Foundation and the THT received the RWJF Collaborating for Community Health Needs Assessment Grant. The grant is a 2-year \$250,000 grant to enable 25 community organizations to collaboratively develop a unified community health needs assessment. Funding that is secured will help the homeless and other

vulnerable populations within the City of Trenton.

Part VI, Line 6: Mission, Strategic Vision, Core Values and Guiding Social Teachings

St. Francis Medical Center is a community of persons committed to being a transforming healing presence within the communities we serve. The mission has continued throughout the 137 year history as a strong Catholic witness to the Gospel of Jesus through constant commitment to live out the core values of reverence for each person, community, justice, commitment to those who are poor, stewardship, courage and integrity.

Based on gospel values and guided by the Social Teaching of the Catholic faith, health services are delivered with a special focus on the needs of the poor and underserved. Following the Ethical and Religious Directives for Catholic Health Care Organizations, the Catholic identity of the Medical Center is witnessed foremost by the delivery of healthcare with respect to treating the mind, body and spirit of the person.

History and Commitment to the Community

Located in Trenton, the Capital of New Jersey, St. Francis became Trenton's first hospital in 1874. Built at a time when the city was quickly becoming an industrial site, the hospital was embraced by the hard working citizens of the community and from its beginning, attracted physicians to the area. In the first year, care was given to 98 patients regardless of their race, creed, nationality or ability to pay. The hospital was made available to the aged and infirm.

Part VI Supplemental Information

In 1974, St. Francis Hospital changed its name to St. Francis Medical Center, reflecting its certification as a teaching hospital. During the 137 years of its existence, the Medical Center has been the only Catholic Acute Care Hospital in central New Jersey, among the counties of Hunterdon, Mercer, Monmouth, Middlesex and Ocean. The hospital is located on its original site of 601 Hamilton Avenue.

Sponsorship for St. Francis Medical Center was provided by the Sisters of St. Francis of Assisi of Philadelphia, through the Franciscan Health System. During the mid 1990s, the Franciscan Health and two other religious systems joined to form Catholic Health Initiatives (CHI). In 2002, ownership of St. Francis Medical Center was transferred to Catholic Health East (CHE) and sponsorship was transferred to Hope Ministries, located in Newtown Square, Pennsylvania.

There is a strong commitment to residents of all ages from the very youngest, through the C.A.R.E.S. Program, to the elderly, through PACE (Program of All-Inclusive Care for the Elderly) program for Trentons frail, dual eligible seniors. The Medical Center serves a community diverse in both culture and needs. Each program developed, while it maintains a strong Catholic identity, is dedicated to meeting the poor and indigent on their terms. The economic contribution that St. Francis provides to the Trenton community is enormous. With a workforce of approximately 820 plus employees, St. Francis is one of Trentons largest employers. Since the majority of employees live within the service area radius, the taxes they pay, the gas they buy, the purchases they make, the restaurants they frequent all contribute substantially to the health of

Part VI Supplemental Information

the local economy. Since 1874, St. Francis Medical Center has played a significant role in anchoring the Chambersburg neighborhood, a diverse, unique and economically successful district in Trenton.

Strategic Vision: SFMC went through a robust strategic repositioning process during 2011 along with the other ministries throughout CHE. The following 5 strategic initiatives are focused initiatives to guide SFMC to meet the identified health needs in our community:

1. Expand continuum of senior services.
2. Expand ambulatory care scope and sites of service.
3. Provider Alignment to create a clinically integrated network of services.
4. Collaborate with Community partners.
5. Improve clinical efficiency and effectiveness.

Background

St. Francis Medical Center ("SFMC") is a general medical and surgical
hospital. SFMC is recognized by the IRS as an Internal Revenue Code
section 501(c)(3) tax-exempt organization. Pursuant to its charitable
pupposes, SFMC provides medically necessary health care services to all
individuals in a non-discriminatory manner regardless of race, color,
creed, sex, national origin or ability to pay. Moreover, SFMC operates
consistently with the following criteria in IRS Revenue Ruling 69-545:

1) SFMC provides medically necessary health care services to all
individual's regardless of their ability to pay, including charity
care, self-pay, Medicare and Medicaid patients;

2) SFMC operates an active emergency room for all persons; which is open 24 hours a day, 7 days a week, 365 days per year;

3) SFMC maintains an open medical staff, with privileges available to all qualified physicians; and

4) Control of SFMC rests with its Board of Trustees; which is comprised of independent civic leaders and other prominent members of the community.

A teaching medical center established in 1874 by the Sisters of St. Francis of Philadelphia, SFMC is sponsored by Hope Ministries and a member of Catholic Health East ("CHE"). SFMC provides total healthcare - physical, emotional and spiritual health in one convenient location.

St. Francis Heart Hospital is the only state recognized cardiac surgery program in Mercer County and is in the top ten percent of hospitals nationwide for overall cardiac care.

SFMC is dedicated to provided quality healthcare, personal service, convenience and education to meet the many different communities of the greater Trenton area.

Today, as part of CHE and sponsored by Hope Ministries, SFMC remains dedicated to a mission that values the sanctity of life and places the highest priority on treating every individual with dignity.

Patients have access to a full range of services and technology that

support the health of the community, including quality medical care and holistic approaches to heal the mind, body and spirit. The medical team of board certified physicians and nurses work closely together to ensure the provision of safe, high quality care. Together with the leadership team and other professionals, they all share in a single-minded approach - to provide the highest quality compassionate care and service possible.

Patient Satisfaction

SFMC's goal is to provide the best environment for patients to receive care, physicians to practice medicine and employees to work. SFMC prides itself on its values-based culture with an emphasis on excellence. Consumer Reports ranks SFMC in the top ten in New Jersey for hospital safety, and #1 in Mercer County.

Mission Statement

As a member of CHE, under the sponsorship of Hope Ministries, and in accordance with the philosophy and tradition of its founders, the Sisters of St. Francis of Philadelphia, SFMC is a community of persons committed to being a transforming, healing presence within the communities it serves.

Based on gospel values, SFMC provides quality health care in an environment that fosters the value of reverence for each person, community, justice, stewardship, courage, integrity, health care education, and a commitment to those who are poor.

In order to live out this mission, SFMC:

- Treats all persons with respect and compassion;
- Creates an environment that recognizes the dignity of all those with whom it works, calling forth its fullest human potential;
- Provides a range of services that support healthy communities, including quality medical care and holistic approaches to healing the mind, body and spirit;
- Collaborates with others who share a common mission and vision;
- Continually seeks innovative ways to assure access to services for persons most in need; and
- Advocates for the principles of social justice that affect public policies and initiatives, particularly those in the area of health care that ensure quality of life for all.

Mission and Ministry

For over 135 years, the mission of Sisters of St. Francis of Philadelphia has remained constant; to serve and be responsive to the needs of others, especially the sick, the poor and the dying. To help assure that this mission at SFMC would continue to be a motivational force in day-to-day activities of the institution, the division of mission and ministry was established in 1987. The division concentrates its efforts on building a corporate culture that reflects a Judiac-Christian philosophy and follows the ethical and religious directives for Catholic Health East organizations.

Mission effectiveness connects the Franciscan philosophy with its CHE

mission and values. This is accomplished by means of services that identify and strengthen the values that are fundamental to the operations of SFMC. The values process is designed to help each person appreciate his or her unique giftedness and the value of what each one brings to the mission and life of the medical center. Mission effectiveness services include social accountability, mission and ministry committee, and institutional ethics.

Spiritual care, under the direction of Russell Hansel and Sister Maureen Maguire, OSF, concretely expresses the SFMC's holistic approach to patient care where the patient is recognized as a spiritual being, as well as a physical being. It recognizes the person in terms of relationships to self, others and to God. Services focus on the spiritual, emotional, and social needs of patients and their families from a theological perspective, offering counseling in situations of crisis, ethical dilemmas, and grief. The spiritual care professional helps the sick and those who care for them discover a new sense of meaning in the midst of pain and suffering. Chaplain Sister Maureen Maguire, OSF, is available to address the spiritual needs of patients, families and employees. Father Carmen, a diocesan priest, is available to address the sacramental needs of our Catholic patients.

Additionally, he ministers to the spiritual needs of patients from all faith traditions. All patients are visited by a Chaplain or Pastoral care volunteer.

CHE is a multi-institutional Catholic health system, which is co-sponsored by fifteen religious congregations and Hope Ministries, a public juridic person within CHE. Based in Newtown Square, Pennsylvania, the system provides the means to ensure the continuation of the Catholic identity and operational strength of the sponsors' Health Ministries, which are located within eleven eastern states from Maine to Florida.

The system includes 34 acute care hospitals, 25 freestanding and hospital-based long-term care facilities, 12 assisted living facilities, 4 continuing care retirement communities, 37 home health/hospice agencies and numerous ambulatory and community-based health services. CHE facilities employ approximately forty three thousand full-time employees as partners in ministry. In the U.S. it is the ninth largest health system ranked by net patient revenue; the fourth largest Catholic Health System ranked by acute care beds, and the third largest health system operating assisted living facilities ranked by residents. CHE is the largest not-for-profit home health system provider by visits.

CHE was formed through the coming together of twelve religious sponsors and its three health systems. In May 1997, the Franciscan Sisters of Allegany, the Franciscan Sister of St. Joseph, nine regional communities of the institute of the Sisters of Mercy of Americas, and the Sisters of Providence announced their intent to form a new co-sponsored system. In the fall of 1997, Allegany Health System, Eastern Mercy Health System, and Sisters of Providence Health System

combined legally and operationally to create CHE.

The formation of the system reflects the intention of the sponsors to strengthen the role and identity of the Catholic Health Ministry in the Eastern United States. It is grounded in the sponsors' historic commitment to the dignity of every individual, the sacredness of life, and special dedication to caring for the poor, the elderly, and disadvantaged. CHE is able to use its collective strength and resources to pioneer new and creative ways of responding to community health needs.

CHE enables its religious sponsors and participating health care organizations to realize benefits in three primary areas:

1. Sponsorship

To create a stable vehicle for religious sponsors to maintain sponsorship and Catholic identity of its health ministry into the future;

2. Stewardship

To enable more effective stewardship of collective resources to achieve maximum benefit for the communities served and the common good of the Catholic Health Ministry; and

3. Strategic Planning

To use enhanced size and critical mass to strengthen the positioning of individual local health ministries and the CHE system as a whole.

Values

The core values articulated and affirmed by CHE's leadership and staff

indicate the manner in which the system will achieve its mission. As a faith-based healthcare ministry, it is vitally important that SFMC meets both of its challenges and opportunities in the context of - and in accordance with - its core values.

Hope Ministries

Hope Ministries is a community of Catholic persons committed to extending and strengthening the healing ministry of Jesus Christ through sponsorship in the name of the Church and for the sake of those in need. SFMC accepts and carries out sponsorship of all ministerial works entrusted to them. It nurtures and honors the gifts and heritage of these works. They extend and strengthen the Catholic identity of these works, exercise accountability to the Church for its stewardship of these works, and identify and develop leaders in the ministry of sponsorship.

The core values of Hope Ministries involved the reverence for each person, the community, to serve justice, a commitment to those who are poor, stewardship, courage and integrity.

Since the early formation of CHE, the CHE Sponsors' Council has discussed the need for an alternative method of sponsorship that would ensure the future of the Ministries of CHE for three years. They studied, consulted and eventually designed a model that became Hope Ministries. The Sponsors' Council then petitioned the Congregation for Institutes of Consecrated Life and Societies of Apostolic Life for the establishment of Hope Ministries as a public juridic person of pontifical right. On July 7, 2000, Hope Ministries was established by

the congregation.

Hope Ministries is designed to serve as a sponsoring body for new organizations that join CHE and for those organizations whose sponsors may eventually need to transfer sponsorship to another public juridic person. It will serve as a vehicle to strengthen the Ministry for the future. It is an organization that will enable Ministries to continue its service as Catholic healthcare organizations and allow other-than-Catholic organizations to join CHE and develop an identity as Catholic.

Specialty Centers of Care

SFMC is well known for its specialty centers of care. While medical excellence and state-of-the-art technology are of utmost importance, so is SFMC's concern for the patient's total well being. SFMC provides an extensive array of medically necessary health care services which include, but are not limited to, the following:

- Ambulatory surgery
- Angiography
- Bariatric surgery and non interventional weight loss
- Cancer care

Center for Advanced Weight Loss provides innovative, comprehensive and compassionate care for patients undergoing bariatric surgery. The bariatric treatment presents a combination of training, expertise and recognition unique and unparalleled in Mercer County and throughout the state of New Jersey. With a dedicated surgical staff and complete multidisciplinary approach, the Saint Francis Center for Advanced Weight Loss provides the best bariatric surgical care available. The bariatric program coordinator is the only bariatric certified nurse in Mercer County.

Medical problems associated with obesity such as diabetes, high blood pressure, heart disease, sleep apnea and osteoarthritis can be improved or resolved after weight loss surgery.

SFMC has developed a "patient-driven" support group that gives patients the opportunity to help others and discuss topics associated with their experiences.

Cardiac Services

SFMC offers a wide range of cardiac services to the community including:

1. Cardiology

SFMC has been the regional leader in providing high quality, compassionate cardiac care to the residents of Mercer County. SFMC involves the patient and family in the identification, treatment, rehabilitation and education through its attention and care to

individual needs.

With its highly trained physicians and staff, SFMC is able to provide state-of-the-art heart care to its patients with cardiovascular disease. SFMC prides itself in being the only regional heart center to offer a full spectrum of individualized services. SFMC offers diagnostic tests for cardiac patients including angiography, cardiopulmonary exercise stress test, doppler ultrasound, echocardiogram, electrocardiogram, holter monitor, muga scan, positron emission tomography, single photon emission computed tomography, and thallium stress tests.

2. Anigraphy

Angiography is just one of the many specialized cardiology services offered at SFMC. Angiography, also called an angiogram, is a diagnostic tool during which a contrast dye is injected through a catheter into the heart. This enables an image of the coronary arteries to be displayed on a monitor. These images reveal the location and approximate size of any blockages that are found, and the pumping ability of the heart can also be obtained. Depending on the reason for this procedure, a second catheter may be inserted to record pressures in the heart's chambers and to obtain blood samples.

3. Cardiac Catherization

is available at SFMC which provides diagnostic and advanced clinical procedures with the surgical back-up capabilities on site. They are equipped with two fully staffed interventional labs capable of the latest in cardiac interventional therapies. SFMC's volume allows them to perform state-of-the-art procedures only available at Mercer County's top hospital for cardiac care. SFMC is also the only hospital in the county with an open heart surgery team available at all times for back-up.

Along with having the latest equipment including the newest in drug eluting stents, Ivus, x-sysor and imaging equipment, SFMC also has a highly qualified and caring staff of physicians, nurses and cardiovascular technicians.

4. Cardiac Electrophysiology

SFMC's brand new, state-of-the-art facility is the only lab in Mercer County to diagnose and treat conditions related to the heart's electrical system. Diagnostic tests offered through cardiac electrophysiology include the tilt table test, EP studies, EP with ablation, pacemaker insertion, defibrillator insertion, and cardiac resynchronization therapy.

5. Cardiovascular Diagnostics

SFMC's cardiology department offers a full range of diagnostic tests to provide each individual with a picture of the heart's health. This assists the physician in determining the best treatment options.

SFMC's fully certified team includes cardiologists, registered nurses, registered cardiac sonographers, and certified cardiology technicians, all with expertise and specialized training in the field of cardiology.

Dialysis

SFMC dedicated an outpatient dialysis unit for the treatment of end-stage renal disease ("ESRD"). This unit - Renal Center of Trenton, LLC - was established and is managed in partnership with Renal Ventures Management, LLC.

The Renal Center features 18 computerized hemodialysis stations, which include recliners, personal televisions and privacy curtains. The unit will also provide on-site training for patients in peritoneal, or home-based dialysis well as a transplant referral program.

Emergency Medicine

Since 1998, SFMC has been Mercer County's heart hospital with state of the art imaging and heart surgery. SFMC's heart hospital team of certified physicians and nurses are accustomed to responding quickly and accurately to patients with life threatening cardiac problems.

The emergency department offers the following:

- A "no waiting" policy. Patients who arrive at the emergency entrance requiring emergency care, receive prompt attention and triage by an experience triage nurse, then are moved immediately into the main ED

for care.

- SFMC believes that registration for emergencies should be done at the bedside, and have made that a convenience and a priority.

- The experienced emergency physicians are ready 24 hours a day, 7 days a week to meet your needs.

- The magnet nursing staff is certified in advanced life support and pediatric advanced life support.

- Each of the fourteen emergency beds has cardiac monitoring capability.

- Radiology services including x-ray, CT scan, MR, pet scan and ultra sound are located in close proximity to the emergency department for speed of service and patient convenience.

- For minor injuries and illnesses requiring urgent care, the "fast track" program provides quick attention by a specially trained nurse practitioner.

- Support services such as pastoral care, physical therapy and EKG.

- On-line connections to the national poison control center.

- Individualized information regarding diagnosis and instructions for aftercare upon discharge.

Cancer Center

The comforts of home become especially important in times of illness.

St. Francis Regional Cancer Center offers a full array of cancer services to patients within the community. Multidisciplinary diagnosis, pretreatment evaluation, inpatient care, counseling and support, and outpatient care are all available close to home. The comprehensive

With the rapid diagnosis process many women will be made aware of the pathology results that same day. The patient will leave the office with a plan of care in place. In 2009, the St. Francis Cancer Center was reaccredited by the American College of Surgeons Commission on Cancer.

The lung cancer treatment team is composed of a pulmonologist, surgeon, radiation oncologist and medical oncologists, review newly diagnosed lung cancer patients to develop the most comprehensive treatment plan to address this disease. SFMC also offers workshops sponsored by the American Cancer Society for patients who are undergoing chemotherapy and radiation treatments.

Nursing

For over 130 years, SFMC has been Trenton's leading non-profit acute care teaching hospital. The SFMC medical staff is a group of highly skilled and dedicated health care professionals who work side by side with their nurses. Together, the caring physicians and nurses work each and every day to continue a proud history of providing the highest quality health care with compassion and respect.

Physical Therapy and Rehabilitation

The physical therapy department consists of a dynamic staff of physical therapists and physical therapist assistants who are active

participants in a large multidisciplinary team.

In an acute care setting they provide an array of services designed to restore, improve or maintain the patient's optimal level of function, self-care, self-responsibility, independence and quality of life.

The primary purpose of the physical therapy department is to provide services that will shorten hospital stay, convalescence and improve functional capacity for patients in need.

The physical therapists play a vital role in the care of the post-surgical cardiothoracic patients, neurosurgical and post-surgical orthopedic patients, post-surgical gastric-bypass patients, cardiac patients, arthritic patients, wound-care patients, pulmonary patients, ICU and CCU patients and general medical patients.

SFMC's physical therapists develop goals and comprehensive treatment plans upon a patient's initial evaluation. The frequency and duration of the treatment is determined by a patient's level of functional and progression in his or her program.

The department also includes outpatient services with numerous subspecialties. Outpatient therapists apply state-of-the-art techniques for the management of complex orthopedic, musculoskeletal neuromuscular conditions and wound care. In addition, the department maintains a complete comprehensive program in the treatment of stroke victims.

SFMC's Speech Therapy Department provides quality care to inpatients and outpatients who have speech, language or swallowing disorders.

Diagnosis and treatment is provided for disorders of speech, language, swallowing, voice and stuttering. Video fluoroscopic swallowing studies provide valuable information for assessment and treatment of those disorders.

Stroke Center

The Neuroscience Institute Stroke Program combines highly trained staff, advanced technology and concentration in patient education to bring quality and comprehensive stroke care to Mercer County.

The stroke team consists of neurologists, emergency room staff, nurses, primary care physicians as well as radiologists to provide rapid care to those affected by stroke. At least one neurologist and nurse are on call 24 hours a day, 7 days a week, to respond quickly to stroke patients who are brought to SFMC.

The stroke team is active in distributing information regarding signs, treatment and prevention of strokes to SFMC employees, patients and the surrounding community. Education related to stroke recognition and timely response is key to improved clinical outcomes.

In addition to responding to the emergent stroke patient, the neuroscience institute coordinates a number of clinical trials related to stroke intervention and thereby stroke outcome.

Women's Health

SFMC provides several services of particular interest to women and address a woman's changing needs. Cancer prevention and care, mammograms, heart disease, osteoporosis, and menopause are among the many issues in which SFMC serves the community.

Community Benefit Programs and Activities

SFMC's community outreach programs serve children, seniors, the homeless, and the medically underserved. SFMC takes pride in providing high-quality medical treatment and services to promote wellness and enhance the health of the community. The dedicated and competent health care team consisting of doctors, nurses, nurse practitioners, and staff work together to further its mission of being a transforming healing presence within the communities they serve. To fulfill its mission, SFMC offers many outreach services including, but not limited to, the following:

C.A.R.E.S.

The C.A.R.E.S. (Children Are Really Extra Speical) program is an acute partial hospitalization program for children between the ages of 4 and 18 years who suffer from emotional and behavioral difficulties. The program provides high quality mental health diagnosis and intensive psychiatric treatment for children who do not require inpatient care, but who cannot be managed by outpatient care alone.

HIV Case Management

Through a grant funded by the state of New Jersey, Department of Health and Senior Services, Division of AIDS prevention and control, SFMC is able to provide HIV case management services to individuals infected

and affected living or working in the Mercer County area.

Specially trained case managers work diligently to assess the unique needs of each client in the program. Referrals are then made to agencies that assist clients in obtaining housing, food, transportation, medical/dental care, medications, legal issues and entitlements.

Sister Hyacintha Program

With the aid of grants from the state of New Jersey and Mercer County's Departments of Health and Senior Services, St. Francis provides medical care to the homebound since 1984. The physicians and nurses in this program specialize in home health care. Their expertise in case management is coupled with the fact that the delivery of quality health care can be accomplished in the comfort of one's home and to give reprieve to the family member who typically gives care.

Cancer Screening Programs

SFMC's outpatient cancer screening programs funded through the Susan G. Komen Foundation are designed to give access to individuals who do not have health insurance. Experienced staff takes pride in educating each client as they personalize their care. The breast cancer screening program will carefully guide each woman through her experience with mammography and will provide supportive case management for follow-up care. Cervical cancer, prostate cancer, and colorectal cancer screening tests are also available.

The board/committee has an established compensation philosophy which details the objectives of market positioning and pay elements. The committee engages with external consultants to provide market data comparing the organization's roles to similarly sized health systems utilizing both title and job content comparisons. The committee reviews the market analysis, approves any salary adjustments for the executive population, considers both reasonableness and effectiveness of all remunerative programs and establishes the detailed performance expectations which are incorporated into the incentive plan. All of these discussions and decisions are documented through the provision of meeting minutes.

Report of Independent Auditors

To the Board of Directors
Catholic Health East

We have audited the accompanying consolidated financial statements of Catholic Health East and its subsidiaries (the "Company"), which comprise the consolidated balance sheets as of December 31, 2012 and 2011, and the related consolidated statements of operations, of changes in net assets and of cash flows for the years then ended

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We did not audit the financial statements of certain consolidated entities which statements reflect net assets of \$59,001,000 and \$77,471,000 as of December 31, 2012 and 2011, respectively, and excess of revenues over expenses of \$21,530,000 and \$12,508,000 for the years then ended. In addition, we did not audit the financial statements of certain unconsolidated entities which are represented in the following consolidated financial statements for 2012 and 2011 as investments in unconsolidated organizations of \$1,575,944,000 and \$1,275,608,000 as of December 31, 2012 and 2011, respectively, and equity in earnings of unconsolidated organizations of \$161,808,000 and \$146,038,000 for the years then ended. Those statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion expressed herein, insofar as it relates to the amounts included for these entities, is based solely on the reports of the other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, based on our audits and the reports of other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company at December 31, 2012 and 2011, the results of their operations and their cash flow for the years then ended in accordance with accounting principles generally accepted in the United States of America

Other Matters

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The social accountability information and the consolidating information are presented for purposes of additional analysis and are not required parts of the consolidated financial statements. The consolidating information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations and cash flows of the individual entities, accordingly, we do not express an opinion on the financial position and results of operations of the individual entities. The social accountability information and the consolidating information are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the consolidated financial statements. The social accountability information and consolidating information have been subjected to the auditing procedures applied in the audit of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the social accountability information and consolidating information are fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole.

Catholic Health East
Notes to the Consolidated Financial Statements
December 31, 2012 and 2011

1. Organization and Mission Basis of Presentation

Catholic Health East ("CHE", the "System", or the "Company") was incorporated as a Pennsylvania nonprofit corporation on October 1, 1997. CHE is a catholic, multi-facility health system sponsored by seven religious congregations and Hope Ministries. Each sponsoring congregation appoints a representative to the Sponsors Council which maintains certain reserve powers, including the election of the CHE Board of Directors. CHE serves to carry out the health care ministries of the sponsoring congregations. The mission of CHE is to be a community of persons committed to being a transforming, healing presence within the communities it serves.

The consolidated financial statements of CHE include activities of its Regional Health Corporations ("RHCs") and related component corporations all of which are wholly or majority owned. These RHCs are located throughout eleven states and the healthcare activities provided by these RHCs include, but are not limited to, general acute care hospitals, long-term care facilities, skilled nursing facilities, behavioral health, residential facilities for the elderly, physician services, home health, outpatient surgery, and other services. A list of the name and location of each RHC is provided below.

Catholic Health East
Notes to the Consolidated Financial Statements
December 31, 2012 and 2011

Catholic Health East and certain affiliated nonprofit corporations are generally exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code.

CHE and its RHCs also participate in various joint ventures and partnerships, commonly referred to as joint operating agreements. These arrangements enable CHE to provide healthcare services to the broader community through involvement in larger healthcare organizations or systems.

2. Summary of Significant Accounting Policies

Basis of Consolidation

The consolidated financial statements of CHE include the financial information of the RHCs and component corporations, the System's wholly owned captive insurance company, various philanthropic foundations of which the System maintains control, and various other organizations or corporations. All significant inter-company balances and transactions have been eliminated.

Use of Estimates

The preparation of these consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make assumptions, estimates, and judgments that affect the amounts reported in the consolidated financial statements, including the notes thereto, and related disclosures of commitments and contingencies, if any. Management considers critical accounting policies to be those that require more significant judgments and estimates in the preparation of the consolidated financial statements including, but not limited to, recognition of net patient service revenue, which includes contractual allowances and provisions for bad debt, estimates for healthcare professional and general liabilities, determination of fair values of certain financial instruments, and assumptions for measurement of pension liabilities. Management relies on historical experience and other assumptions believed to be reasonable relative to the circumstances in making judgments and estimates. Actual results could differ materially from these estimates.

Cash and Cash Equivalents

Cash and cash equivalents include liquid investments with a maturity of three months or less. The carrying value of cash and cash equivalents approximates fair value.

Investments and Investment Income

Investments in marketable equities with readily determinable fair market values and all investments in debt securities are measured at fair value in the consolidated balance sheets. Equity investments in managed funds, private partnerships, and other investments are accounted for under the equity method, which approximates fair value. Realized gains and losses on investments, unrealized gains and losses on trading securities, interest income (net of investment-related expenses), and dividends are included in investment returns, net, as part of non-operating gains and (losses) in the excess of revenue over expenses. Investment income restricted by donors or law is reported as an increase in temporarily or permanently restricted net assets.

Catholic Health East
Notes to the Consolidated Financial Statements
December 31, 2012 and 2011

The System's investments and marketable securities whose use is limited are invested and managed through the CHE Consolidated Investment Program (the "CIP Program"), and some investments are locally managed by the RHCs. Included in these investments are investments in managed funds, private partnerships, and other investments. The income (loss) from these managed funds is included in investment returns, net, in the accompanying consolidated statement of operations and change in net assets.

The System classifies all unrestricted investments as trading securities.

Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with these securities and the level of uncertainty related to changes in their value, it is at least reasonably possible that changes in risks in the near term could materially affect account balances and the amounts reported in the consolidated balance sheets and statements of operations and change in net assets.

Marketable Securities and Investments Whose Use Is Limited

Marketable securities and investments whose use is limited primarily include marketable securities and investments designated by governance for future capital improvements and other purposes, in accordance with agreements with outside parties, by trustees under bond indenture agreements, self-insurance arrangements, and by donor restrictions.

Derivative Financial Instruments

The System recognizes all derivative instruments in the balance sheets at fair value. The change in the fair value of derivatives is recognized as a component of excess of revenues over expenses in the consolidated statements of operations for the years ended December 31, 2012 and 2011.

Inventories

Inventory is valued at the lower of cost (first-in, first-out) or market, net of reserves for obsolescence.

Assets Held for Sale

CHE has classified certain long-lived assets as assets held for sale in the consolidated balance sheets when the assets have met applicable criteria for this classification. CHE has classified \$336,362,000 and \$473,473,000 as held for sale at December 31, 2012 and 2011, respectively. The Company has also classified \$419,916,000 and \$442,198,000 at December 31, 2012 and 2011, respectively, as liabilities related to assets held for sale.

Property and Equipment

Property and equipment acquisitions are recorded at cost. Depreciation is expensed over the estimated useful life of each class of depreciable assets and is computed using the straight-line method based on the following estimated useful lives:

Building and Improvements	5-40 years
Leasehold improvements	3-20 years
Equipment	3-20 years

Catholic Health East
Notes to the Consolidated Financial Statements
December 31, 2012 and 2011

Equipment under capital lease obligations is amortized on the straight-line method over the shorter period of the lease term or the estimated useful life of the equipment. Such amortization is included in the depreciation and amortization in the consolidated financial statements. Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of constructing those assets. Repair and maintenance costs are expensed as incurred. When property, plant and equipment are retired, sold or otherwise disposed of, the asset's carrying amount and related accumulated depreciation are removed from the accounts and any gain or loss is included in operations.

Gifts of long-lived assets such as land, buildings, or equipment are reported as unrestricted support, and are excluded from excess of revenue over expenses, unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Goodwill

CHE records as goodwill the excess of purchase price over the fair value of the identifiable net assets acquired. The Company's goodwill and other intangible assets with indefinite lives are not amortized, rather, they are tested for impairment, at least annually, through a process which first evaluates any triggering event associated with an impairment, and, second, an actual measurement of the impairment, if necessitated. The Company recorded goodwill additions of \$22,382,000 in 2012 related to acquisitions of physician practices and an ambulatory surgery center. The Company did not record any impairment to goodwill in 2011 or 2012.

Long-Lived Assets

CHE evaluates the carrying value of its long-lived assets for impairment when impairment indicators are identified. In the event that the carrying value of a long-lived asset is not supported by the fair value, the System will recognize an impairment loss for the difference. Fair value is based on the exchange price that would be received for an asset or paid to transfer a liability. In 2012, the System recorded an impairment loss of long-lived assets of \$105,000,000 related to Saint Michael's Medical Center. These assets are classified as held for sale as of December 31, 2012 and the impairment loss is included in losses from discontinued operations in the statement of operations and changes in net assets. The System recognized impairment losses of \$4,571,000 for the year ended December 31, 2011.

Investments in Unconsolidated Organizations

Investments in unconsolidated organizations represent CHE investments in joint operating agreements, joint ventures, or partnerships. The equity method is used to account for these investments.

Deferred Revenue from Advance Fees

Certain RHCs operate residential facilities for the elderly. Fees paid by residents upon entering into continuing care contracts, net of the portion that is refundable to the resident, are recorded as deferred revenue and amortized to income using the straight-line method over the estimated remaining life expectancy of the resident.

Catholic Health East
Notes to the Consolidated Financial Statements
December 31, 2012 and 2011

Accrued Paid Time Off

CHE records a liability for amounts due to employees for future absences which are attributable to services performed in the current and prior periods

Deferred Debt Issuance Costs

Deferred debt issuance costs included in other assets at December 31, 2012 and 2011, totaling \$14,222,000 and \$18,240,000, respectively, are amortized using the straight-line method over the life of the related debt, which approximates the effective interest method

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the System has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained in perpetuity.

Net Patient Service Revenue

Third-party payors (Medicare, Medicaid, and commercial insurance payors) provide payments to the hospitals at amounts different from their established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounts from established charges, and per diem payments. Net patient service revenue is the estimated amount to be realized for services rendered, including estimated retroactive adjustments. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined.

Allowance for Doubtful Accounts

The System records an allowance for doubtful accounts for estimated losses resulting from non-payment for services from patients or payers. Management routinely evaluates patient account collection history in determining the sufficiency of the allowance for doubtful accounts and provision for bad debts. The allowance for doubtful accounts for those patients with third-party insurance is determined based on contractual agreements with payers. The provision for bad debts for uninsured patients is based on historical collection experience. Accounts receivable are written off against the allowance for doubtful accounts when management determines that recovery is unlikely and collection efforts cease.

Charity Care

CHE provides services to all patients regardless of ability to pay. In accordance with the System's policy, a patient is classified as a charity patient based on income eligibility criteria as established by the *Federal Poverty Guidelines*. Charges for services to patients who meet the System's guidelines for charity care are not reflected in the accompanying consolidated financial statements. The costs (direct and indirect) associated with these services for charity care provided by the System approximate \$435,914,000 and \$339,190,000 in 2012 and 2011, respectively. These amounts do not include bad debt expense totaling \$234,952,000 and \$225,812,000 in 2012 and 2011, respectively, which is reflected separately in the consolidated statements of operations. The costs and provisions for bad debts do not include amounts classified as discontinued operations. Charity care data for services provided is based on the cost of patient care services with costs being determined by application of the standard cost-to-charge ratio.

Other Operating Revenue

Other revenue is derived from services other than the provision of health care services or coverage to patients or residents. This revenue consists primarily of federal and state grants, unrestricted contributions, incentive payments received for meeting Federal and State Electronic Health Record meaningful use requirements, rental income, income from health plan operations, support services,

Catholic Health East
Notes to the Consolidated Financial Statements

parking garages, gift shop income, cafeteria income, maintenance fee income, foundation investment income, and other miscellaneous income

Non-Operating Gains (Losses)

Non-operating gains (losses) consist primarily of investment returns, which include investment income, dividends, net unrealized gains (losses) on trading securities, and realized gains and losses on trading securities, equity in earnings of unconsolidated organizations; restructuring expenses and impairment losses; losses on extinguishment of debt, contribution income for contributed assets; gains on the sale of assets, and the change in the fair value of interest rate swaps

Excess of Revenue over Expenses

The statements of operations include the excess of revenue over expenses. Changes in unrestricted net assets which are excluded from excess of revenue over expenses include unrealized gains and losses on available for sale investments of unconsolidated organizations; permanent transfers of assets to and from affiliates for other than goods and services, pension adjustments, the cumulative effect of change in accounting principle, discontinued operations, and contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets).

Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets.

When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the statement of operations as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the consolidated financial statements.

Income Taxes

Catholic Health East and certain affiliated nonprofit corporations are generally exempt from federal income taxes under Section 501(c)(3) of the Internal Revenue Code.

Accounting guidance for income taxes clarifies the accounting for uncertainty of income tax positions. This guidance defines the threshold for recognizing tax return positions in the financial statements as "more likely than not" that the position is sustainable, based on its technical merits. The guidance also provides guidance on the measurement, classification and disclosure of tax return positions in the financial statements. There was no impact from this guidance on CHE's consolidated financial statements during the years ended December 31, 2012 and 2011.

Adoption of Accounting Pronouncements

On January 1, 2012, the Company adopted FASB issued ASU 2011-07, *Presentation and Disclosure of Patient Service Revenue, the Provision for Bad Debts, and Allowance for Doubtful Accounts*. This guidance requires the Company to modify the presentation of its consolidated statement of operations and changes in net assets by reclassifying the provision for bad debts associated with patient service revenue from an operating expense to a deduction from patient service revenue. Additionally, the guidance requires enhanced disclosure about the Company's policies for recognizing revenue and assessing bad debts, patient service revenue (net of

Catholic Health East
Notes to the Consolidated Financial Statements

contractual allowances and discounts), and qualitative and quantitative information about changes in the allowance for doubtful accounts

In May 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-04, *Fair Value Measurement-Topic 820: Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and International Financial Reporting Standards*, to provide a consistent definition of fair value and ensure that the fair value measurement and disclosure requirements are similar between U.S. GAAP and International Financial Reporting Standards. ASU 2011-04 changes certain fair value measurement principles and enhances disclosure requirements, particularly for Level 3 fair value measurements. ASU 2011-04 was effective during the fiscal year ended December 31, 2012 and is applied prospectively. The adoption of ASU 2011-04 did not have a material effect on CHE's financial statements.

On January 1, 2011, the Company adopted FASB issued ASU 2010-24, *Presentation of Insurance Claims and Related Insurance Recoveries*, which prohibits the offsetting of conditional or unconditional liabilities with anticipated insurance recoveries from third parties. The adoption of this guidance did not have a significant impact on the consolidated financial statements.

On January 1, 2011, the Company adopted FASB issued ASU 2010-23, *Measuring Charity Care for Disclosure*, that requires health care entities to use cost as the measurement basis for charity care disclosures and defines cost as the direct and indirect costs of providing charity care. The accompanying notes to the consolidated financial statements reflect the amended disclosure requirements. The cost of caring for charity care patients is disclosed in the social accountability supplemental schedule. The cost of charity care provided to patients is disclosed in the supplementary financial information schedule that accompanies these financial statements. This guidance amended disclosure requirements only, therefore, there was no impact to the Company's consolidated financial statements upon adoption.

Reclassifications

Certain amounts have been reclassified in the prior year's financial statements to conform to the classifications used in the current year.

3. Net Patient Service Revenue

Net patient service revenue from the Medicare and Medicaid programs, exclusive of managed care, accounted for approximately 34.3% and 10.7%, respectively, of total net patient service revenues in 2012, and 29.0% and 9.6%, respectively, of total net patient service revenue in 2011. Compliance with laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

Management believes that adequate provision has been made for adjustments that may result from reviews by third-party payors. Estimated net settlements related to Medicare and Medicaid, collectively, of \$70,327,000 and \$65,225,000 in 2012 and 2011, respectively, are included as a component of current liabilities in the accompanying consolidated balance sheets. The amounts recorded for these estimated settlements approximate their fair value.

Net patient service revenue includes approximately \$15,922,000 and \$4,170,000 in 2012 and 2011, respectively, related to favorable changes in estimates for prior year cost report reopenings, appeals, and tentative and final cost reports, of which some are still subject to audit, additional reopening, and/or appeals.

Catholic Health East
Notes to the Consolidated Financial Statements
December 31, 2012 and 2011

The Company recognizes patient service revenue associated with services provided to patients who have third-party insurance based on contractual agreements with payers. For uninsured patients who do not qualify for charity care, the Company recognizes revenue based on a self pay discount policy. The Company records a provision for bad debts based on historical collection experience. The following summarizes net patient service revenue for the years ended December 31:

A portion of CHE's long-term investment assets are held in the CIP Program. The CIP Program is structured under a Program Participation Agreement (the "Agreement") between each participant RHC and CHE. All investments in the CIP Program are professionally managed under the administration of CHE.

Participants' investments held in the CIP Program are assigned a weighted value for the period of time the funds are invested in the CIP Program. Investment income from the CIP Program, including interest income, dividends, and realized gains and losses on sales of securities, and unrealized gains and losses are distributed to participants based on their weighted value of investment.

Catholic Health East
Notes to the Consolidated Financial Statements
December 31, 2012 and 2011

The underlying fair value of investments in the CIP Program, which are traded on national exchanges (except for managed funds), is based on the final reported sales price on the last business day of the year. The fair value of investments traded in over-the-counter markets is based on the average of the last recorded bid and asked prices.

CHE participates in a securities lending program wherein some investments are loaned on an overnight basis to various brokers. CHE receives lending fees and earns interest and dividends on the loaned securities. These securities are returnable on demand and are collateralized by cash deposits and U.S. Treasury Obligations. Collateral received is at 100% of the fair value of the securities on loan. CHE is indemnified against borrower default by the financial institution acting as lending agent. At December 31, 2012 and 2011, securities with a fair market value of \$67,972,000 and \$130,634,000, respectively, were loaned under securities lending agreements.

5. Fair Value Measurements

The System adheres to applicable accounting guidance for fair value measurements. This guidance defines fair value, establishes a framework for measuring fair value under accounting principles generally accepted in the United States of America and requires certain disclosures about fair value measurements. Fair value is defined under the guidance as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

As a basis for considering assumptions, the guidance establishes a hierarchical framework for measuring fair value (the fair value hierarchy) as follows:

Level 1: Quoted prices in active markets for identical assets

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar instruments, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data

Level 3: Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets

A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Financial instruments measured at fair value are based on one or more of the three valuation techniques noted in the fair value guidance. The three valuation techniques are as follows:

Market approach: Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities

Cost approach: Amount that would be required to replace the service capacity of an asset (i.e., replacement cost).

Income approach: Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques and option-pricing models)

The System measures its interest rate swaps at fair market value on a recurring basis. The fair market value of the interest rate swaps is determined based on financial models that consider current and future market interest rates and adjustments for non-performance risk.

There were no transfers between fair value levels for the years ended December 31, 2012 and 2011

Catholic Health East
Notes to the Consolidated Financial Statements
December 31, 2012 and 2011

- (1) **Cash & cash equivalents** - The fair value of cash and cash equivalents, consisting primarily of cash and money market funds, is classified as Level 1, as these financial instruments are highly liquid. The fair value of certificates of deposit and commercial paper are classified as Level 2 Cash and Cash Equivalents because their valuations are based on multiple sources of information, including quoted prices from active and non-active markets, and amortized costs which approximates fair value.
- (2) **Marketable equity securities** – Equity securities include both domestic equity and international equity asset classes. Investments in certain equity securities represent investments in commingled funds consisting primarily of equity securities. These investments are classified as Level 2 because although they are traded in an active market for daily closing prices measured primarily on a NAV basis, their closing prices are not published or available on active exchanges. At December 31, 2012 and 2011, notice periods are generally three (3) business days, according to provisions of the respective investment agreements. Investments in other equity (common and preferred) securities that are not considered commingled funds are measured at fair value using quoted market prices on active exchanges. They are classified as Level 1 as they are traded in an active market for which daily closing stock prices are readily available.
- (3) **Marketable debt securities** – Investments in certain fixed income securities represent investments in registered investment companies consisting primarily of fixed income securities. These investments, as well as investments in U.S. Government securities, are classified as Level 1 because they are traded in an active market for which daily closing prices, measured primarily on a NAV basis, are available. Investments in other fixed income securities that are not considered registered investment companies or U.S. Government securities are comprised primarily of corporate debt instruments and mortgage-backed securities issued by government sponsored agencies. These fixed income securities are classified as Level 2 based on multiple sources of information, which may include quoted market prices from either markets that are not active or are for the same or similar assets in active markets. Investments in certain fixed securities represent investments in commingled funds consisting primarily of fixed securities. These investments are classified as Level 2 because although they are traded in an active market for daily closing prices measured primarily on a NAV basis, their closing prices are not published or available on active exchanges.
- (4) **Perpetual trusts** – Perpetual trusts are assessed a net asset value per share for these alternative investments that has been calculated in accordance with investment company rules, which among other requirements, indicates that the underlying investments be measured at fair value. They are classified as Level 3 because of the nature of the perpetual trust investment and its transparency to the underlying investments within the trust.
- (5) **Interest rate swaps** - The interest rate swap agreements are valued using a pricing service at net present value. These evaluated prices render these instruments Level 2. The volatility in the fair value of the swap agreements change as long-term interest rates change.

	<u>\$1,879,120</u>	<u>\$1,774,277</u>

At December 31, 2012 and 2011, approximately \$590,248,000 and \$567,791,000 of property and equipment, net, is pledged as collateral under various loan agreements. Interest cost, net of related interest income, totaling approximately \$1,939,000 and \$3,181,000 was capitalized to construction in progress during 2012 and 2011, respectively.

7. Investments in Unconsolidated Organizations

Catholic Health East has investments in unconsolidated organizations totaling \$1,616,988,000 and \$1,450,068,000 at December 31, 2012 and 2011, respectively. Several significant investments, which are accounted for under the equity method, comprise this balance including, but not limited to, the following:

BayCare Health System

CHE has a fifty percent interest in BayCare Health System Inc. and Affiliates ("BayCare"), a Florida not-for-profit corporation exempt from state and federal income taxes. BayCare was formed in 1997 pursuant to a Joint Operating Agreement ("JOA") among the not-for-profit, tax-exempt members of the Catholic Health East BayCare Participants, Morton Plant Mease Health Care, Inc, and South Florida Baptist Hospital, Inc (collectively, the Members). BayCare consists of three community health alliances located in the Tampa Bay area of Florida including St. Joseph's-Baptist Healthcare Hospital, St. Anthony's Health Care, and Morton Plant Mease Health Care with an aggregate of approximately 2,900 acute care beds. CHE has the right to appoint nine of the twenty-one members of the Board of Directors of BayCare. At December 31, 2012 and 2011, CHE's recorded investment in BayCare totaled \$1,350,732,000 and \$1,138,120,000, excluding wholly owned subsidiaries and other beneficial interests.

Catholic Health System, Inc.

CHE has a one-third interest in Catholic Health System, Inc. and Subsidiaries ("CHS"). CHS, formed in 1998, is a not-for-profit integrated delivery healthcare system in Western New York jointly sponsored by the Sisters of Mercy, Ascension Health System, the Franciscan Sisters of St. Joseph, and the Diocese of Buffalo. CHE, Ascension Health System, and the Diocese of Buffalo are the corporate members of CHS. CHS operates several organizations, the largest of which are four acute care hospitals located in Buffalo, New York, Mercy Hospital of Buffalo, Kenmore Mercy Hospital, Sisters of Charity Hospital, and St. Joseph Hospital. At December 31, 2012 and 2011, CHE's recorded investment in CHS totaled \$12,116,000 and \$12,914,000, respectively.

Emory Healthcare/St. Joseph's Health System

On December 31, 2011, CHE entered into a joint operating agreement with Emory Healthcare as described in Note 18, and retains a forty-nine percent equity interest in Emory Healthcare/St. Joseph's Health System ("EH/SJHS"). EH/SJHS operates several organizations, including two acute care hospitals, St. Joseph's Hospital of Atlanta, and John's Creek Hospital. At December 31, 2012 and 2011, CHE's recorded investment in EH/SJHS totaled \$60,519,000 and \$142,175,000, respectively.

Condensed consolidated balance sheets of BayCare, including wholly owned foundations and other beneficial interests, CHS and EH/SJHS as of December 31 are as follows:

	<u>\$212,611</u>	<u>\$66,665</u>	<u>(\$799)</u>	<u>(\$11,609)</u>	<u>(\$88,879)</u>

Additionally, certain RHCs have investments in unconsolidated organizations, the most significant of which is an investment in a Medicaid HMO joint venture at Mercy Health System of Southeastern Pennsylvania ("Mercy SEPA"). These investments total \$193,621,000 and \$156,859,000 in 2012 and 2011, respectively. CHE's proportionate share of the income of these investments was \$34,050,000 and \$70,846,000 for the years ended December 31, 2012 and 2011, respectively.

Notes to the Consolidated Financial Statements
December 31, 2012 and 2011

The fair value of the System's long term debt is based on quoted market prices or estimates using discounted cash flow analyses, based on the participating facility's incremental borrowing rates for similar types of borrowing arrangements (Level 2). The fair value of the System's long-term debt at December 31, 2012 and 2011 was \$1,279,868,000 and \$1,343,421,000, respectively, compared to the carrying value of \$1,244,868,000 and \$1,214,421,000, respectively. This excludes capital leases and mortgage notes

On June 1, 2012 CHE issued \$147,640,000 of Series 2012A Hospital Revenue Bonds through the Delaware County Authority (Pennsylvania) Health System, the City of Tampa, Florida Health, and North Carolina Medical Care Commission Health System. The bonds were issued as fixed rate bonds with interest rates ranging from 4.0% to 5.25%. The proceeds of this issue were used to refund and redeem certain of the outstanding Series 1998A Revenue Bonds issued previously and to pay the costs of issuance. As part of this transaction, CHE recorded a loss on extinguishment of debt totaling \$2,908,000

On December 31, 2011, CHE transferred the outstanding debt of St. Joseph's Hospital, including the Series 2007A Revenue Bonds of \$9,900,000, the Series 2009 Revenue Bonds of \$68,970,000, and the Series 2010 Revenue Bonds of \$40,135,000 to the St. Joseph's/Emory Healthcare Joint Operating Agreement described in Note 18. Subsequent to the transfer date, the debt is guaranteed by Emory University and is no longer an obligation of the CHE Obligated Group

On June 1, 2011, CHE repaid the outstanding debt of Mercy Hospital, Miami, including the Series 1998 Hospital Revenue Bonds of \$10,000,000, the Series 2002 Hospital Revenue Bonds of \$35,000,000, the Series 2003C Hospital Revenue Bonds of \$14,000,000, the Series 2008 Hospital Revenue Bonds of \$31,900,000, and the Series 2009 Hospital Revenue Bonds of \$29,300,000. The debt was repaid with proceeds from the sale of certain entities of Mercy Hospital, Miami to HCA as described in Note 18

On February 3, 2011, St. Peter's Health Care Services issued \$34,200,000 of Series 2011 Hospital Revenue Bonds through the City of Albany Capital Resource Corporation. The bonds were issued as fixed rate bonds with interest rates ranging from 3.0% to 6.25%. The proceeds of this issue were used for St. Peter's Hospital Master Facilities Plan building and equipment projects, to fund a debt service reserve fund, to pay capitalized interest, and to pay the costs of issuance.

Certain CHE constituent corporations are members of the CHE Obligated Group. Under the Amended and Restated Master Trust Indenture dated January 1, 1998 and amended and restated as of September 30, 2006, Obligated Group members provide a revenue pledge and are joint and severally liable on all obligations outstanding under the Master Indenture. Additionally, the Obligated Group has agreed to comply with certain covenants including the repayment of principal and interest, notification regarding admission or withdrawal of members of the Obligated Group, to deliver financial statements and other related information by specified due dates, to maintain insurance, and to maintain a long-term debt service coverage of at least 1.10 to 1.00.

Pursuant to loan agreements between CHE and various RHCs, promissory notes have been executed by each RHC in amounts equal to the amount of proceeds necessary to defease previously existing debt and provide for capital projects.

In prior years, CHE advance refunded certain of its bonds which are no longer reflected in the consolidated financial statements since CHE has legally satisfied its obligation through defeasance. Funds are held in an irrevocable escrow with a trustee and are expected to be sufficient to satisfy the obligations.

Catholic Health East
Notes to the Consolidated Financial Statements
December 31, 2012 and 2011

CHE maintains a revolving credit loan facility which is structured through a consortium with five banks and extends through November 30, 2017. The credit facility totals \$300,000,000 with an option to increase the credit facility to \$350,000,000. At December 31, 2012 and 2011, approximately \$32,812,000 and \$43,697,000, respectively, of the total credit facility was obligated for standby letters of credit. Additionally, approximately \$101,300,000 and \$106,035,000 at December 31, 2012 and 2011, respectively, had been borrowed against the total credit facility. Borrowings under this agreement may be repaid at any time and are payable upon termination of the agreement. These borrowings were used to finance various capital projects at several of the RHCs. Use of the credit facility for standby letters of credit is limited to \$100,000,000 of the total credit facility.

Certain of the System's variable rate demand bonds are supported by irrevocable letters of credit with expiration dates in 2013 and 2014. CHE is the guarantor for these letters of credit. The letters of credit and dates of expiration are as follows:

<u>RHC</u>	<u>Associated Bond Issue</u>	<u>Expiration</u>
Mercy Medical Corporation	Series 1997	11/1/2013
St. Mary Medical Center	Series 1997	11/1/2013
Holy Cross Hospital	Series 1997	11/1/2013
Holy Cross Hospital	Series 2000	12/31/2014
St. Francis Medical Center	Series 2003	12/31/2014
St. Joseph of the Pines, Inc.	Series 2008	4/23/2014

Blended Cost of Debt Program

CHE maintains a Blended Cost of Debt Program (the "Debt Program") to provide a uniform cost of debt for participating RHCs and to mitigate the interest rate risk of an RHC.

Under the Debt Program, all debt costs, excluding taxable debt, capitalized leases, and short-term borrowing, are blended. The calculation of the blended costs incorporates bond interest, both fixed and variable, debt-related fees, such as letters of credit, credit enhancement, remarketing, auction, as well as periodic rating agency, bond trustee, master trustee and issuing authority fees, net swap payments/receipts and put/guaranty receipts, along with other miscellaneous fees related to tax-exempt debt issued by CHE and its affiliates.

Participants in the Debt Program make periodic payments to CHE. Each participant's periodic payment is based on their respective percentage of total indebtedness included in the Debt Program. Principal payments are not blended. Participants make their scheduled principal payments to CHE in the month they are due.

9. Derivative Financial Instruments

CHE has entered into derivative transactions for the purpose of reducing interest rate volatility and to reduce interest expense. CHE has entered into fixed-to-floating interest rate swaps, total return swaps, basis swaps, and fixed-payor swaps.

At December 31, 2012 and 2011, fourteen *basis swap* transactions were outstanding in the CHE Debt Program with notional amounts totaling \$717,000,000 and maturity dates ranging from February 2023 to December 2028. In the basis swap transactions, CHE receives a floating taxable rate and pays a floating tax-exempt rate. CHE has elected not to designate these interest rate swap agreements as hedges for financial reporting purposes.

Catholic Health East
Notes to the Consolidated Financial Statements
December 31, 2012 and 2011

At December 31, 2012 and 2011, four and six *fixed-to-floating interest rate swap* agreements, respectively, were outstanding in the CHE Debt Program. The fixed-to-floating swaps had notional amounts totaling \$95,000,000 and \$150,000,000 at December 31, 2012 and 2011, respectively, and maturity dates ranging from March 2014 to April 2017. These fixed-to-floating interest rate swap agreements effectively convert a portion of the System's fixed rate debt to a floating rate basis and are not designated as hedges for financial reporting purposes.

At December 31, 2012 and 2011, four *fixed-payor interest rate swap* agreements, were outstanding in the CHE Debt Program. The fixed-payor swaps had notional amounts totaling \$27,700,000 and maturity dates ranging from November 2032 to November 2034. Under these interest rate swap agreements CHE pays a fixed rate and receives a variable rate. Additionally, the cash flows from these interest rate swap agreements equal the rates on the bonds and therefore effectively convert the debt to a fixed rate. The notional amount of these interest rate swap agreements declines in relation to the annual principal payments on the hedged debt. CHE has elected not to designate these interest rate swap agreements as hedges for financial reporting purposes.

At December 31, 2012 and 2011, five and seven *total return swap* agreements, respectively, were outstanding in the CHE Debt Program. The total return swaps had notional amounts totaling \$85,525,000 and \$104,300,000 at December 31, 2012 and 2011, respectively, and maturity dates ranging from June 2013 to May 2014. Under these swap agreements, CHE receives a fixed rate on the amount corresponding to the par amount of the outstanding bonds, and pays the Securities Industry and Financial Markets Association ("SIFMA") index. CHE has elected not to designate these interest rate swap agreements as hedges for financial reporting purposes.

At December 31, 2012, three *fixed-to-floating interest rate swaps* were outstanding outside the CHE Debt Program with notional amounts totaling \$47,180,000 and maturity dates ranging from November 2013 to August 2033. These fixed-to-floating swaps were not outstanding as of December 31, 2011. In accordance with certain of these swap agreements a collateral account may be required as security for the swap.

The fair value of derivative instruments at December 31 is as follows:

(in thousands of dollars)

	2012		2011	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value

Certain of CHE's derivative instruments contain credit-risk-related provisions that require CHE and its counterparties to post collateral in varying amounts based on respective credit ratings. If CHE's debt were to fall below investment grade, the counterparties to the derivative instruments would require CHE to post collateral only if the aggregate position of all derivative instruments is negative. Based on CHE's current credit rating, the System was not required to post collateral as of December 31, 2012 or 2011. Locally held derivative instruments (non-CHE) required posted collateral at December 31, 2012 and 2011 in the amount of \$474,000 and \$753,000, respectively.

10. Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the System has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained in perpetuity. Temporarily restricted net assets at December 31 are available for the following purposes:

(in thousands of dollars)

	2012	2011
Temporarily restricted net assets		
Education and research	\$5,746	\$5,397
Building and equipment	28,180	27,406

	<u>\$143,010</u>	<u>\$140,614</u>

Catholic Health East
Notes to the Consolidated Financial Statements
December 31, 2012 and 2011

Permanently restricted net assets at December 31 are restricted as follows

<i>(in thousands of dollars)</i>	2012	2011
Permanently restricted net assets		
Investments to be held in perpetuity, the income from which is expendable to support health care services (reported as operating income)	\$37,897	\$36,272
Endowments requiring income to be added to the original gift	2,426	2,282
Other	<u>9,504</u>	<u>8,152</u>
	<u>\$49,827</u>	<u>\$46,706</u>

The System classifies the portions of donor-restricted endowment funds of perpetual duration as permanently restricted net assets. Permanently restricted net assets of the System are comprised of a) the original value of gifts donated to the System through a permanent endowment, b) the original value of subsequent gifts to the System through a permanent endowment, and c) accumulations to the permanent endowment in accordance with applicable donor gift instruments. Any portions of donor-restricted endowment funds that are not classified as permanently restricted are appropriated in accordance with donor intent.

The System considers the following factors in determining if donor-restricted endowment funds are accumulated or appropriated.

- 1) the duration and preservation of the fund
- 2) the purposes of the System's donor-restricted endowment funds
- 3) general economic conditions
- 4) effect of possible inflation or deflation
- 5) the expected total investment return and appreciation of investments
- 6) other resources of the System
- 7) investment policies of the System

The System's permanently restricted net assets consist of individual endowment accounts. Unless otherwise directed by the donor, gifts received for endowments are invested in accordance with the System's investment policy. Unless otherwise directed by the donor, the System annually appropriates a certain percentage of each endowment fund, which is then available for spending in accordance with the donor's intent. In order to preserve the real value of a donor's gift and to sustain funding consistent with donor intent, the annual appropriation rate is set to strike a reasonable balance between long-term objectives of preserving and growing each endowment fund for the future and providing stable, annual appropriations.

11. Insurance

Professional and general liability risk is insured through Stella Maris Insurance Company, Ltd a wholly owned, captive insurance company, commercial insurance and reinsurance companies, and self-insured programs. Excess insurance over self-insured amounts and coverage provided by the captive has been purchased from the commercial insurance and reinsurance markets. The excess professional liability coverage is provided on a claims-made basis. There are known claims and incidents that may result in the assertion of additional claims, as well as claims from unknown incidents that may be asserted arising from services provided to patients. CHE has employed independent actuaries to estimate the ultimate costs, if any, of the settlement of such claims. Accrued malpractice losses have been discounted at a rate of 4.0% at December 31, 2012 and 2011, and in management's opinion provide an adequate reserve for loss contingencies.

CHE maintains a large deductible program for workers' compensation. Losses from asserted claims and from unasserted claims identified under CHE's incident reporting systems are accrued based on estimates that incorporate CHE's experience, relevant trends, and other factors. CHE has employed independent actuaries to estimate the ultimate costs, if any, of the settlement of such claims. Accrued workers' compensation losses have been discounted at a rate of 4.0% at December 31, 2012 and 2011, and in management's opinion provide an adequate reserve for loss contingencies.

Total amounts accrued under these programs as current liabilities approximate \$19,642,000 and \$18,901,000 at December 31, 2012 and 2011, respectively. Total amounts accrued under these programs as long-term liabilities approximate \$284,966,000 and \$299,960,000 at December 31, 2012 and 2011, respectively.

Bank-administered trust and other accounts have been established for the purpose of segregating assets. These trusts are funded based on actuarial estimates and can only be used for payment of malpractice losses, related expenses, and administrative costs of the trusts. Assets of the trusts are included in marketable securities whose use is limited.

The total amount charged to expense under these self-insured programs was \$57,066,000 and \$45,451,000 in 2012 and 2011, respectively.

12. Pension Plans

The System maintains non-contributory defined benefit pension plans that vary from one RHC to another, collectively, "the Plan." CHE has amended substantially all defined benefit pension plans to freeze service accruals.

The following table sets forth the change in benefit obligation and the change in fair value of plan assets based on the measurement date, and the amounts recognized in the consolidated financial statements at December 31

The following table sets for the components of net periodic benefit cost for the applicable plan(s) at December 31:

<i>(in thousands of dollars)</i>	2012	2011
Components of net periodic benefit cost:		
Service cost	\$6,654	\$10,178
Interest cost	54,091	52,707

Amortization of actuarial loss	13,573	9,039
Other adjustments	(195)	-
Net periodic benefit cost	<u><u>\$7,109</u></u>	<u><u>\$12,081</u></u>

The net actuarial loss that will be amortized from unrestricted net assets in the net periodic benefit cost in 2013 is \$14,194,000

The assumptions used to determine the benefit obligation and periodic benefit cost at December 31 are as follows:

	2012	2011
Assumptions used to determine the benefit obligation at December 31:		
Weighted average discount rate	3 55% - 4 05%	4 15% - 5 00%
Weighted average rate of compensation increases	2 50%	3 75% - 4 25%
Weighted average expected long-term rate of return on plan assets	7 50%	7 5% - 8 50%
Assumptions used to determine periodic benefit cost at December 31:		
Weighted average discount rate	4 15% - 4 60%	4 90% - 5 55%
Weighted average rate of compensation increases	3 75% - 4 25%	3 75% - 4 25%
Weighted average expected long-term rate of return on plan assets	7 5% - 8 00%	7 5% - 8 50%

Investment Policy and Asset Allocations – In developing the assumption for the expected rate of return on assets, CHE evaluates historical returns, the level of expected returns on risk-free investments (primarily government bonds), the historical level of the risk premium associated with the other asset classes in which the portfolio is invested, and the expectations for future returns of each asset class. The expected rate of return for each asset class is then weighted based on the target asset allocation to develop the assumption for the expected long-term rate of return on assets. For plans with frozen service accruals, the investment policy was modified to allow for asset allocation changes over time as the plans become more fully funded in order to de-risk the plans. This strategy utilizes a “glide path” approach, consisting of a series of target asset allocations for various funded ratio levels, reduces exposure to return seeking assets (marketable equity securities and managed funds) and increases exposure to the liability-hedging assets (cash and marketable debt securities) over time. The Company continually evaluates the asset allocation strategy relative to changing market conditions, pension assumptions, and overall funded status of the plans.

The portfolio is diversified among a mix of assets including large and small cap, domestic and foreign equities, fixed income, managed funds, and cash. Asset mix is targeted to a specific allocation, either intermediate or long-term, that is established by evaluating expected return, standard deviation, and correlation of various assets against the plan's long-term objectives. Asset performance is monitored quarterly and rebalanced if asset classes exceed explicit ranges. The investment policy governs permitted types of investments, and outlines specific benchmarks and performance percentiles. The Investment Subcommittee of the Stewardship Committee of the CHE Board oversees the pension investment program and monitors investment performance. Risk is closely monitored through the evaluation of portfolio holdings and tracking the beta and standard deviation of the portfolio performance.

The following table presents the Plan's financial instruments as of December 31, 2012 measured at fair value on a recurring basis using the fair value hierarchy defined in Note 5. The investments are not included in the marketable securities whose use is limited in the accompanying consolidated balance sheet. These investments are maintained separately in a pension investment program that is controlled by a trustee:

December 31, 2012 and 2011

13. Concentration of Credit Risk

CHE grants credit without collateral to its patients, most of whom are insured under third-party payor agreements. The mix of receivables from patients and third-party payors at December 31 was as follows:

	2012	2011
Managed care	31.9 %	31.1 %
Medicare	24.0 %	23.8 %
Medicaid	9.5 %	11.0 %
Self-pay	11.9 %	11.3 %
Other third-party payors	11.9 %	14.4 %
Commercial	10.8 %	8.4 %
	<u>100.0 %</u>	<u>100.0 %</u>

In addition, CHE invests its cash and cash equivalents primarily with banks and financial institutions. These deposits may be in excess of federally insured limits. Management believes that the credit risk related to these deposits is minimal.

14. Commitments and Contingencies

The RHCs are defendants in various lawsuits relating primarily to rendering of health care services. In each instance, management of the respective RHCs is of the opinion that the liability, if any, resulting therefrom will be covered by insurance or will not have a material adverse impact on the consolidated financial statements of CHE. In addition, certain CHE entities have been contacted by governmental agencies regarding alleged violations of practices for certain services. Management of the respective RHCs has performed, with the advice and assistance of outside legal counsel, an evaluation of billing practices and compliance with related laws and regulations. In the opinion of management, after consultation with outside legal counsel, the ultimate outcome of these matters will not have a material adverse impact on the consolidated financial statements of CHE.

On March 29, 2013, the Company was notified that it is a defendant in a lawsuit which challenges the church plan status of the Company's defined benefit pension plans. The Company believes it will prevail in defense of this matter.

Notes to the Consolidated Financial Statements
December 31, 2012 and 2011

15. Leases

The RHCs lease office space and certain equipment under noncancelable operating leases. Rental expense was approximately \$79,885,000 and \$79,211,000 in 2012 and 2011, respectively.

Future minimum lease payments for all noncancelable leases as of December 31, 2012 are as follows:

(in thousands of dollars)

2013	\$52,110

2016	33,380
2017	27,339
Thereafter	<u>97,125</u>
	<u>\$292,295</u>

16. Functional Expenses

CHE provides general health care services to residents within their geographic location including acute care, skilled nursing, outpatient care, home healthcare, physician practices, and behavioral services. Expenses related to providing these services at December 31 are as follows:

(in thousands of dollars)

	2012	2011
Health care services	\$3,314,936	\$2,885,340
General and administrative	<u>801,628</u>	<u>670,723</u>
	<u>\$4,116,564</u>	<u>\$3,556,063</u>

17. Assets Held for Sale and Discontinued Operations

On January 14, 2013, Mercy Health System of Maine (Mercy Maine) entered into a definitive agreement with Eastern Maine Health System (EMHS) under which EMHS would assume control over Mercy Maine and its component corporation. As of December 31, 2012 and 2011, Mercy Maine's assets and liabilities have been reclassified as held for sale. The operating results of Mercy Maine are reflected as discontinued operations in the consolidated statements of operations.

On February 8, 2013, Saint Michael's Medical Center entered into an asset purchase agreement (APA) under which the hospital would be acquired by another healthcare organization. Certain assets and liabilities of Saint Michael's Medical Center have been classified as held for sale on the consolidated balance sheets as of December 31, 2012 and 2011. The operating results of Saint Michael's Medical Center are reflected as discontinued operations in the consolidated statements of operations.

Additionally, the Boards of Directors at certain of the Company's RHCs have approved management plans to divest or otherwise exit certain services lines and asset groups. Service lines and asset groups subject to such management plans are collectively referred to as the Disposal Group.

18. Significant Events

Maxis Health System

On February 28, 2012, the Company closed Marian Community Hospital, which provided acute care and behavioral health services in the Carbondale, PA service area. The operations of Marian Community Hospital are classified as discontinued operations in the accompanying consolidated statements of operations and changes in net assets at December 31, 2011

St Peter's Health Partners

On October 1, 2011, St. Peter's Health Care Services ("SPHCS"), Northeast Health ("NEH"), and Seton Health ("Seton") contributed their net assets to form St. Peter's Health Partners. In accordance with applicable accounting guidance on not-for-profit mergers and acquisitions, the Company recorded contribution income of \$374,819,000 reflecting the fair value of the contributed assets of NEH and Seton on the transaction date. Of this amount, \$322,947,000 represents unrestricted net assets and is included as a non-operating gain in the accompanying statement of operations and changes in net assets at December 31, 2011. Temporarily restricted net assets and permanently restricted net assets of \$33,201,000 and \$18,671,000, respectively, were recorded as restricted contribution income in the accompanying consolidated statement of changes in net assets.

The 2011 consolidated statement of operations reflects the activity of NEH and Seton from the date of the transaction (October 1, 2011) to December 31, 2011. No consideration was exchanged for the net assets contributed

Saint Joseph's Health System

On December 31, 2011, the Company contributed certain assets and liabilities of St. Joseph's Health System to a joint operating company ("JOC") with Emory Healthcare in exchange for a 49% non-controlling ownership interest. The entities contributed to the JOC include St. Joseph's Hospital of Atlanta, Saint Joseph's Real Estate Corporation, Saint Joseph's Service Corporation, The Medical Group of Saint Joseph's, Saint Joseph's Translational Research Institute, and the International College of Robotic Surgery. An equity investment resulting from the transaction is included in investments in unconsolidated organizations in the accompanying consolidated balance sheets and is detailed further in Note 7. The related operating loss of \$31,249,000 at December 31, 2011 was classified separately within operating income on the consolidated statement of operations.

Mercy Health System of Southeastern Pennsylvania

On November 30, 2011, Mercy SEPA Mercy Health System of Southeastern Pennsylvania sold its equity ownership interests in certain Medicaid managed care organizations to Independence Blue Cross and Blue Cross/Blue Shield of Michigan. As consideration for the sale, Mercy Health System received a lump sum cash payment of \$194.0 million and a \$43.0 million pledge to the Mercy Health System Foundation to be paid over a seven (7) year period, which is included in other assets in the accompanying consolidated balance sheet at December 31, 2011. Mercy Health System recognized a gain on sale of \$94.9 million related to this transaction, which is included in the December 31, 2011 statement of operations and changes in net assets.

Mercy Hospital, Miami

On May 1, 2011, the Company sold certain entities of Mercy Hospital, Miami to Hospital Corporation of America ("HCA"). The entities sold included Mercy Hospital, Sister Emmanuel Hospital for Continuing Care, Mercy Medical Development, and Mercy Physician Group. The results of these operations are reflected as discontinued operations in the accompanying statement of operations and changes in net assets at December 31, 2011. Proceeds from the sale were used primarily to satisfy long-term debt obligations of Mercy Hospital, Miami.

19. Subsequent Events

CHE evaluated the impact of subsequent events through April 30, 2013, representing the date at which the consolidated financial statements were issued

On January 16, 2013, the Company and Trinity Health, an Indiana non-profit corporation, entered into a Consolidation Agreement, subject to regulatory approval and other closing conditions, under which the Company and Trinity Health would consolidate into a new non-profit organization. The transaction is expected to be completed in 2013

In January 2013, CHE issued \$39.1 million of Series 2012 Hospital Revenue Bonds through Green County (Georgia) Development Authority. The bonds were issued as fixed rate bonds with interest rates ranging from 4.0% to 5.0%. The proceeds of this issue will be used to fund the construction of a replacement facility for Good Samaritan Hospital in Greensboro, Georgia, and to pay the costs of issuance.

In January 2013, CHE issued \$63.6 million of Series 2012B Hospital Revenue Bonds through the Saint Mary Hospital Financing Authority (Pennsylvania). The bonds were issued as variable rate bonds with an average annual interest rate 3.5%. The proceeds of these bonds were used to finance certain qualifying electronic health record expenditures at CHE's System Office, Mercy SEPA, and St. Mary Langhorne, and to pay the costs of issuance.

Supplemental Financial Information

Catholic Health East
Social Accountability Supplemental Schedule - Unaudited
December 31, 2012 and 2011

Social Accountability

In keeping with the mission and purpose of CHE, to carry out the health care ministries of the sponsoring congregations by serving as a community of persons committed to being a transforming, healing presence within the communities it serves, and in particular the needs of the poor, the System strives to maximize the provision of services in its communities and in collaboration with other organizations. A portion of CHE's overall operating expense relates to costs incurred in providing and meeting certain community needs for which CHE is not directly compensated.

A standard reporting and accountability process is utilized throughout CHE to estimate the net cost of these services, referred to as Social Accountability Costs, which provides a basis of accountability and reporting to the communities served for purposes of disclosing the utilization of resources. Costs reported are net of contributions or grants that have been provided to CHE and designated for these purposes.

The information presented below has been calculated and is presented in accordance with the Catholic Health Association's, *A Guide for Planning and Reporting Community Benefits*, Copyright 2012. Social accountability costs for the years ended December 31 are as follows:

<i>(in thousands of dollars)</i>	2012	2011
Cost of care for those who are poor	\$70,310	\$57,691
Cost of community benefit programs	76,175	73,788
Other public programs	11,425	9,786
Unpaid cost of Medicaid programs	<u>96,133</u>	<u>79,827</u>
Social accountability costs	<u>\$254,043</u>	<u>\$221,092</u>
Percentage of operating expenses	<u>5.5%</u>	<u>4.8%</u>
Unpaid cost of Medicare programs	<u>\$147,349</u>	<u>\$197,923</u>

The cost of care of the poor is based on the System's estimated net cost of providing services to those unable to pay. The cost of the community benefit programs reflects the costs to develop and provide programs that are developed and provided to meet special community needs that would not otherwise be available. Volunteer service reflects both internal and external services provided to support patient care activities and community programs. The difference between amounts reimbursed to the System under the Medicare and Medicaid programs and the estimated cost of providing care for these respective programs is reflected as an unpaid cost of the program.
