Identifier	Return Reference	Explanation
	PART I, LINE 3	PINNACLE HEALTH HOSPITALS RELIES ON PINNACLE HEALTH SYSTEM, A RELATED ORGANIZATION, TO ESTABLISH THE COMPENSATION OF THE ORGANIZATION'S CEO. METHODS USED TO ESTABLISH COMPENSATION BY THE RELATED ORGANIZATION INCLUDE * COMPENSATION COMMITTEE * INDEPENDENT COMPENSATION CONSULTANT * COMPENSATION SURVEY OR STUDY * APPROVAL BY THE COMPENSATION COMMITTEE OF THE BOARD.
	PART I, LINES 4A-B	ROGER LONGENDERFER, M.D., A FORMER PRESIDENT AND CEO, WAS PAID SEVERANCE IN THE FORM OF SALARY AND BENEFITS TOTALING \$315,821 IN 2012 AS PART OF HIS RETIREMENT PACKAGE. WILLIAM PUGH, PHILIP GUARNESCHELLI, AND CHRISTOPHER MARKLEY RECEIVED AS TAXABLE COMPENSATION INCOME FROM A NONQUALIFIED PLAN THAT HAD BEEN DEFERRED IN PRIOR YEARS. DR. FELIX GUTIERREZ IS A MEMBER OF THE BOARD OF DIRECTORS AND IS EMPLOYED AS A CARDIOLOGIST IN A RELATED ENTITY. HE WAS COVERED BY A SUPPLEMENTAL NONQUALIFIED RETIREMENT PLAN IN CALENDAR YEAR 2012 AT A TOTAL COST OF \$15,000.
	PART I, LINE 7	THE COMPENSATION COMMITTEE OF THE BOARD WITH ASSISTANCE FROM AN INDEPENDENT OUTSIDE ADVISOR ESTABLISHES A COMPENSATION PHILOSOPHY TO COMPENSATE LEADERS OF THE ORGANIZATION AT THE MARKET MEDIAN WITH AN INCENTIVE OPPORTUNITY TO REACH THE 75TH PERCENTILE OF THE MARKET FOR THEIR POSITION. THE INCENTIVE OPPORTUNITY IS DIVIDED BETWEEN PERSONAL GOALS AND SYSTEM LEVEL GOALS. ALL GOALS ARE MEASURABLE AND ARE DESIGNED TO IMPROVE QUALITY OF CARE, PATIENT SAFETY, PATIENT EXPERIENCE, AND MANAGEMENT OF RESOURCES. PERFORMANCE IS REWARDED AT THREE LEVELS, THRESHOLD (IMPROVEMENT OVER THE BASELINE), TARGET (SIGNIFICANT IMPROVEMENT OVER THE PRIOR YEAR) AND OPTIMUM (STRETCH).
SUPPLEMENTAL INFORMATION	PART III	NOTE THAT NANCY HAMMONDS WAS "GRANDFATHERED" IN WITH A GROUP OF EMPLOYEES FOR WHOM IT WAS DETERMINED THAT THE CHANGE TO A NEW DEFINED CONTRIBUTION PLAN WOULD NOT MAKE THEM "WHOLE" DUE TO THEIR LENGTH OF SERVICE. IT WAS DETERMINED THAT THESE EMPLOYEES SHOULD RECEIVE AN ADDITIONAL BENEFIT TO ADJUST FOR THE ADVERSE CONSEQUENCE TO THEM OF THE NEW PLAN.

Independent Auditor's Report

To the Board of Directors of Pinnacle Health System:

We have audited the accompanying consolidated financial statements of Pinnacle Health System and its subsidiaries, which comprise the consolidated balance sheets as of June 30, 2013 and June 30, 2012, and the related consolidated statements of operations, statements of changes in net assets, and statements of cash flows for the years then ended

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the Company's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Pinnacle Health System and its subsidiaries at June 30, 2013 and June 30, 2012, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

1. Description of Organization

Pinnacle Health System ("Parent"), located in Harrisburg, Pennsylvania, consists of the following controlled entities and subsidiaries (collectively the "System")

Pinnacle Health Foundation ("Foundation"), is a tax-exempt, nonprofit corporation, engaged in fund raising activities for the benefit of the controlled entities of the System

Pinnacle Health Hospital ("Hospital"), is a tax-exempt, nonprofit, multi-facility acute care hospital

Pinnacle Health Emergency Department Services, LLC ("PHEDS"), is a tax-exempt, nonprofit corporation engaged in providing professional services in the Pinnacle Health Emergency Department

Community Life Team ("CLT"), is a tax-exempt, nonprofit entity that provides both emergency and nonemergency ambulance services to citizens in the Harrisburg, PA area and surrounding counties.

Pinnacle Health Home Care and Hospice ("PHHCH"), was a tax-exempt, nonprofit entity engaged in providing home nursing and hospice services. Pinnacle Health Home Care was merged into VNA Community Care Services, Inc. on December 31, 2011 with Pinnacle Health Hospitals acquiring an 11.8% ownership interest. Pinnacle Health Hospice operations were transferred to Hospice of Central Pennsylvania on January 9, 2012. The Hospital did not receive any membership interest as a result of this transaction.

Pinnacle Health Medical Services ("PHMS"), is a tax-exempt, nonprofit entity engaged in the operation of both primary care and specialty physician practices and providing mental health services.

Pinnacle Health Cardiovascular Institute ("PHCVI") and its wholly-owned subsidiary, Cardiology Practice Inc ("CPI"), are 100% owned for profit corporations engaged in providing comprehensive cardiac care.

Pinnacle Health Medical Group ("PHMG") is a wholly-owned, for profit corporation engaged in the operation of primary care physician practices.

Pinnacle Health Ventures Inc. (PHVI) and Pinnacle Health Imaging Inc. (PHI) were formed as a result of the acquisition of 100% of the stock of Tristan Associates on March 1, 2012. PHVI is the stock holding company and sole shareholder of PHI. PHI owns and/or leases radiology and imaging equipment and services at four office locations. PHI leases equipment and services to Hospital.

River Health ACO, LLC ("RHACO") was formed on April 15, 2013 and recently applied to CMS to become recognized as an Accountable Care Organization (ACO) dedicated to improving the cost, quality, access and patient experience to care for residents of Central Pennsylvania. The ACO is comprised of two founding partners: Pinnacle Health System and Susquehanna Health System, Inc., and two independent primary care practice partners, Family Practice Centers, P.C. and Anville Family Medicine, P.C.

Pinnacle Health Cumberland Condominium Association is an association wholly owned by Pinnacle Health Hospital established to oversee the operation of the Condominium located on the campus of the Frederickson Outpatient Facility. The Condominium Association agreement was terminated on January 18, 2012.

United Health Risk, Ltd. ("UHR") is a wholly-owned, for profit, offshore captive insurance company.

United Central Pennsylvania Reciprocal Risk Retention Group ("RRG") is a wholly-owned, for profit, Vermont captive insurance company.

West Shore Surgery Center, LLP ("WSSC") is a limited liability partnership owned 2% by PHMS, the general partner, 49% by the Hospital and 49% by physicians.

Pinnacle Health System Obligated Group ("Obligated Group"), consists of the Parent, Hospital, and PHMS.

2. Summary of Significant Accounting Policies

Principles of Consolidation

The consolidated financial statements include the accounts of the Parent and its controlled entities and subsidiaries. The accounts of the controlled entities have been included in the consolidated financial statements to reflect the results of operations of entities under common control. All significant intercompany transactions have been eliminated.

Basis of Financial Reporting

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. These significant estimates include the accounts receivable allowance for doubtful accounts, contractual allowances, due to third party payors, accrued pension liabilities, accrued retirement costs and accrued insurance costs. Actual results could differ from those estimates as they are prepared based on certain assumptions which are subject to change.

Reclassification of Prior Year Balances

Certain 2012 balances have been reclassified to conform to the 2013 presentation.

Net Patient Service Revenues

The hospital has agreements with third party payors that provide for payments to the hospital at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per diem payments. Net patient service revenues are reported at the estimated net realizable amounts from patients, third-party payors and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods for tentative and final settlements.

Allowance for Doubtful Accounts

Accounts receivable are recorded at their estimated net realizable value. The allowance for doubtful accounts is estimated based upon historical collection rates.

Pinnacle Health System
(And controlled entities and subsidiaries)
Notes to Consolidated Financial Statements
June 30, 2013 and 2012

Revenues and Gains over Expenses and Losses

The consolidated statements of operations include revenues and gains over expenses and losses. Changes in unrestricted net assets which are excluded from revenues and gains over expenses and losses, consistent with industry practice, include changes in the post-retirement liability, noncontrolling interests and net assets released from donor restrictions to be used for purchases of property, plant and equipment.

Cash and Cash Equivalents

Cash and cash equivalents include cash management funds with original maturities of three months or less, excluding amounts whose use is limited by Board-designation or other arrangements under trust agreements. The System maintains cash and cash equivalents in local banks.

Investments

The System follows standards issued by the Financial Accounting Standards Board ("FASB") related to fair value accounting. The standards define fair value, establish a framework for measuring fair value and expand disclosures about fair value measurements. The standards also provide an option to report selected financial assets and liabilities at fair value and establish presentation and disclosure requirements. The fair value option permits the System to elect to measure eligible items at fair value on an instrument-by-instrument basis and then report the unrealized gains and losses for those items in the System's revenues and gains over expenses and losses. The System has chosen to record all of its investments under the fair value option permitted under these standards.

Under these fair value standards, the System is required to categorize and disclose certain assets and liabilities, including investments, at fair value, according to three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date.

The following is a description of the System's valuation methodologies for investments carried at fair value. These methods may produce a fair value calculation that may not be reflective of future fair values. Furthermore, while the System believes that its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of investments could result in a different estimate of fair value at the reporting date.

Where quoted prices are available in an active market, investments are classified in Level 1 of the valuation hierarchy. Investments in Level 1 are cash management funds, fixed income investments, exchange-trade equity securities and debt securities. If quoted prices are not

Pinnacle Health System
(And controlled entities and subsidiaries)
Notes to Consolidated Financial Statements
June 30, 2013 and 2012

available the investments are considered to be Level 2 or Level 3 and other accepted valuation methodologies, such as quotes for similar securities are used. These valuation services estimate fair values using pricing models and other accepted valuation methodologies, such as quotes for similar securities and observable yield curves and spreads. As part of the System's overall valuation process, management evaluates these third-party methodologies to ensure that they are representative of exit prices in the System's principal markets. Investments in Level 2 include cash management funds, corporate obligations, fixed income investments, other domestic equity investments, foreign equity investments and funds held in trust by others. See Note 6 for additional details related to the System's investments.

Investment partnerships include limited partnerships and limited liability corporations that do not price shares on a daily basis or require notice to redeem shares. The partnerships invest in securities traded in foreign and domestic markets and are carried in the balance sheet at a net asset value as determined by the general partner which approximates fair value. There are no unfunded commitments for these investments.

Derivative Instruments

The System accounts for derivative financial instruments in accordance with standards issued by the FASB. These standards require that all derivative instruments be recorded on the balance sheet at fair value as either assets or liabilities. Since the derivatives entered into by the System do not qualify for hedge accounting, changes in fair value of the derivative are recognized in nonoperating gains/(losses). The use of derivative instruments by the System is currently limited to interest rate swaps.

Inventories

Inventories are stated at lower of cost (first-in, first-out method) or market.

Assets Limited as to Use

Assets limited as to use include Board-designated funds, Board-designated funds for capital acquisition and the portion of self-insurance funds and funds held by trustee that have not been reflected as current assets to meet the current portion of self-insured liabilities and long-term debt. Insurance collateral funds represent monies that are designated as collateral for a letter of credit that is designated to fund current and future liabilities for payment of professional liability and workers' compensation claims. Board-designated funds and Board-designated funds for capital acquisition represent funds designated by the Board of Directors for capital acquisition and replacement and to support System initiatives.

Property, Plant and Equipment

Property, plant and equipment is stated at cost, net of accumulated depreciation and amortization. Depreciation is computed on the straight-line method over the estimated useful lives of the assets. Gains and losses resulting from the sale or disposal of property, plant and equipment are included in nonoperating gains (losses). Equipment under capital lease obligations is amortized on the straight-line method over the shorter period of the lease term or the estimated useful life of the equipment. Such amortization is included in depreciation and amortization in the financial statements.

Investments in and Advances to Joint Ventures and Affiliates

The System, through its controlled entities and subsidiaries, maintains an ownership interest in several joint ventures which provide various clinical and nonclinical services. These investments, with the exception of VNA Community Care Services, Inc., are accounted for by the equity method.

Pinnacle Health System
(And controlled entities and subsidiaries)
Notes to Consolidated Financial Statements
June 30, 2013 and 2012

since the ownership interest is between 20.0% and 50.0% and control is not exercised. The System maintains an 11.8% ownership interest in VNA Community Care Services, Inc. and accounts for it on the cost method. Under the terms of the agreements, the System may be required from time to time to make additional cash contributions and provide working capital advances to the joint ventures.

Pledges Receivable

The System records its pledges receivable at the estimated net realizable value, discounted at a rate of 4% at June 30, 2013 and 2012. Pledges receivable in the amounts of \$4,070, \$1,707, \$1,237, \$1,235, and \$111 are due in fiscal years 2014, 2015, 2016, 2017 and 2018, respectively.

Deferred Financing Costs

Deferred financing costs are amortized over the life of the bonds using the effective interest method.

During 2013, the System capitalized financing costs of \$1,501, incurred as a result of the issuance of the Series 2012A Health System Revenue Bond.

Amortization expense was \$161 and \$115 for the years ended June 30, 2013 and 2012, respectively.

Accrued Insurance Costs

Accrued insurance costs consist of estimated liabilities for reported and incurred but not reported claims related to professional liability, workers' compensation and employee health care. The System discounts its liabilities for professional liability and workers' compensation claims. As of June 30, 2013 and 2012, the discount rate was 3.50%.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the System has been limited by donors to a specific time period or purpose. Permanently restricted net assets, excluding interest and dividend income earned on such assets which is unrestricted, have been restricted by donors to be maintained by the System or outside beneficial trusts in perpetuity.

Donor Restricted Gifts

Unconditional promises to give cash and other assets to the System are reported at estimated fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at estimated fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose or restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

Income Taxes

The majority of the System is exempt from federal income tax under Section 501(c)(3) of the Internal Revenue Code. On such basis, the exempt entities will not incur any liability for federal income taxes, except for possible unrelated business income.

Pinnacle Health System
(And controlled entities and subsidiaries)
Notes to Consolidated Financial Statements
June 30, 2013 and 2012

The System evaluates uncertain tax positions using a two-step approach for recognizing and measuring tax benefits taken or expected to be taken in an unrelated business activity tax return and disclosures regarding uncertainties in tax positions. No adjustments to the consolidated financial statements were required as a result of this evaluation.

The following entities are not exempt from federal income tax: PHCVI, PHMG, PHVI, RRG and WSSC, and therefore, may incur liabilities for federal and state income taxes.

Fair Value of Financial Instruments

Financial instruments include cash and cash equivalents, accounts receivable, investments, and interest rate swap agreement. The carrying amount reported in the consolidated balance sheets for cash and cash equivalents, accounts receivable, investments, and interest rate swap agreement equals fair value as of June 30, 2013 and 2012.

The undiscounted carrying value of the System's 2009A, 2011A, and 2012A revenue bonds was \$403,825 and \$275,615 at June 30, 2013 and 2012, respectively. The undiscounted fair value of the System's 2009A, 2011A, and 2012A revenue bonds was \$415,968 and \$299,970 at June 30, 2013 and 2012, respectively. The fair value of the System's revenue bonds was based on quoted market prices. The System considers the inputs in the valuation process of its long-term debt to be Level 2 in the fair value hierarchy.

Supplemental Disclosure of Cash Flow Information

Interest paid for the years ended June 30, 2013 and 2012 was \$18,800 and \$14,639, respectively.

There were no income taxes paid in fiscal 2013 and 2012.

During 2013 and 2012, capital lease obligations of \$0 and \$5,388 were incurred when the System entered into lease agreements to provide surgical and imaging equipment. These obligations are considered to be a noncash financing activity.

During 2013 and 2012, property, plant and equipment of \$14,240 and \$2,681 were included in accounts payable and accrued expenses.

Accounting for Defined Benefit and Other Postretirement Benefits

The System follows FASB standards over employer's accounting for defined benefit pension and other postretirement plans. Included in these standards is a requirement for an entity to recognize in its balance sheet, the overfunded or underfunded status of its defined benefit postretirement plans measured as the difference between the fair value of the plan assets and the benefit obligation. For a pension plan, this would be the projected benefit obligation, for any other postretirement plan, the benefit obligation would be the accumulated postretirement benefit obligation. These standards also require measurement dates for the pension plan obligation to be measured as of the date of the entity's balance sheet.

Recently Issued Accounting Pronouncements

The System adopted Accounting Standards Update No. 2011-08 ("ASU 2011-08"), Testing Goodwill for Impairment, effective September 30, 2011. The System performs its annual goodwill impairment test as of March 31. Under ASU 2011-08, the Company assessed certain qualitative factors to determine if it was more likely than not that the fair value of certain segments within Pinnacle Health Medical Services, Pinnacle Health Hospitals, and Pinnacle Health Cardiovascular

Institute were less than their carrying amount. As a result of this assessment, it was determined that it was more likely than not that the fair value of two segments were less than their carrying amounts, therefore, a reduction of \$1,584 was recorded against the value of goodwill.

3. Acquisitions

During fiscal year ended June 30, 2013 Pinnacle Health System acquired the building and assets of Greater Harrisburg Cancer Center for a total cost of \$4,600 which included goodwill totaling \$3,050. The building was located on land owned by Pinnacle Health System adjacent to the Pinnacle Health System Cancer Center and will be used to accommodate the increased demand in the area for cancer treatment services.

In fiscal year ended June 30, 2012, Pinnacle Health System recorded acquisitions totaling \$38,945 and goodwill of \$34,893. On March 1, 2012, Pinnacle Health System acquired all of the outstanding stock of an outpatient imaging organization with four locations throughout the Harrisburg area, purchased all of the assets of a professional medical group with eleven primary care offices and an imaging center on April 1, 2012, and purchased the assets of a large cardiovascular practice with two locations each including ancillary services on August 1, 2011. The purchase transactions were accounted for using the acquisition method of accounting, which required all assets and liabilities to be measured at their fair value. The fair values at the acquisition date were determined using various fair value techniques from outside third parties. All of the practices are located in and around the Harrisburg area. These acquisitions were performed to expand and diversify the services Pinnacle Health System offers to its patients.

4. Net Patient Service Revenues

The System has arrangements with third-party payors that provide for payments to the System at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows.

- **Medicare:** Inpatient acute care and rehabilitation services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors. Medical education and transplant costs related to Medicare beneficiaries are paid based on a cost reimbursement methodology. Outpatient services are paid based on the ambulatory payment classification. The System is paid for cost reimbursable items at a tentative rate with final settlement determined after submission of annual cost reports by the System and audits thereof by the Medicare fiscal intermediary.
- **Medicaid:** Inpatient services are rendered to Medicaid program beneficiaries based on a patient classification system similar to Medicare. Outpatient services are paid on a predetermined fee schedule.
- **Capital Blue Cross and Highmark Blue Shield:** Inpatient acute care services and certain outpatient procedures rendered to Blue Cross and Blue Shield program beneficiaries are paid at prospectively determined rates per discharge or per procedure. Other outpatient services are paid at a discount from established rates.

Pinnacle Health System
(And controlled entities and subsidiaries)
Notes to Consolidated Financial Statements
June 30, 2013 and 2012

- **Other Payors.** The System has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the System under these agreements includes prospectively determined rates per discharge, discounts from established charges, and prospectively determined daily rates.

In accordance with ASU 2011-07, the following schedule represents the System's estimated net patient service revenue, before provision for bad debt expense, aggregated between self-pay and all other third-party payors for the fiscal years ended June 30, 2013 and 2012.

	June 30, 2013		
	Third-Party Payors	Self-Pay	Total All Payors
Patient service revenue (net of contractual allowances and discounts)	\$ 802,228	\$ 47,489	\$ 849,717

	June 30, 2012		
	Third-Party Payors	Self-Pay	Total All Payors
Patient service revenue (net of contractual allowances and discounts)	\$ 729,152	\$ 37,239	\$ 766,391

Revenue received under agreements with several third-party payors is subject to audit and retroactive adjustment. Adjustments related to settlements with third-party payors are included in the determination of revenues and gains over expenses and losses in the year in which such adjustments become known. Such adjustments resulted in an increase in revenue of approximately \$2,730 and \$11,242 in 2013 and 2012, respectively, due to the receipt of tobacco settlement payments, Medicare budget neutrality appeal payment and changes in general reserve estimates and other miscellaneous estimates.

5. Charity Care and Community Service

The System provides services to patients who meet the criteria of its charity care policy without charge or at amounts less than the established rates. Criteria for charity care consider family income levels, household size and ability to pay. Federal poverty guidelines are used as a means to determine the patient's ability to pay. Individuals who qualify for charity care are either uninsured or are extremely indigent and cannot afford their deductibles or coinsurance amounts.

The System maintains records to identify and monitor the level of charity care and community service it provides. These records include the amount of charges foregone based on established rates for services and the estimated cost of those services furnished under its charity care policy. The System provides community service programs to the community at large. A report is issued annually to inventory community benefits in furtherance of its exempt purpose.

Charges foregone associated with charity care service to individuals were approximately \$26,597 and \$20,976 for 2013 and 2012, respectively. The charity care amounts have been excluded from net patient service revenues. The cost incurred to provide such care was approximately \$8,498 and \$7,371 for 2013 and 2012, respectively.

Assets whose use is limited include investments pledged as collateral for a letter of credit to satisfy the requirements of the State of Pennsylvania to fund current and future payments of professional liability and worker's compensation claims

At the time of issuance of the 2009A bonds, the System was required to deposit an amount equal to \$14,584 into a Debt Service Reserve Fund. These funds are invested in cash management funds and are classified as "Funds held by trustee, net of current portion" on the System's balance sheet. There was no Debt Service Fund requirement associated with the issuance of the 2012A bonds.

Investment income, including interest and dividend income, realized gains or losses on sales of securities, unrealized gains and losses from certain wholly owned insurance captives, investment partnerships, and unrestricted income from temporarily restricted funds and investments permanently restricted as to use, is comprised of the following for the years ended June 30, 2013 and 2012:

	2013	2012

	<u>\$ 23,500</u>	<u>\$ 10,098</u>

The System's investments are managed by investment managers and bank trust departments. Because the System's investments include a variety of financial instruments, the related values as presented in the consolidated financial statements are subject to various market fluctuations which include changes in the equity markets, interest rate environment and general economic conditions.

The following table represents the fair value measurement levels for all assets and liabilities, which the System has recorded at fair value:

- (1) Cash management funds include investments with original maturities of three months or less, including cash, money market funds, overnight investments and commercial paper. Commercial paper and money market funds are carried at market value.
- (2) U S Government Agencies and Treasuries, are individually owned and held through the System's investment portfolio and are readily marketable securities, therefore, they are considered Level 1
- (3) Corporate obligations and fixed income securities are investments in mutual funds and investment partnerships whose underlying investments include corporate bonds, mortgage backed securities, collateralized mortgage obligations and other fixed income securities. The mutual funds investments are considered Level 1. The investment partnership holdings are valued each month using NAV per unit and are considered Level 2.
- (4) Domestic common stock includes individual equities held. All individual equities are considered Level 1
- (5) Other domestic equity investments and foreign equity investments are investments in mutual funds and investment partnerships whose underlying investments are individual equity securities. Mutual funds are considered Level 1. The investment partnership holdings are valued each month using NAV per unit and are considered Level 2
- (6) Funds held in trust are investments held in trust instruments that have been either donated or received as a testamentary trust from the grantors will where the System is the beneficiary of the trust instrument. The underlying securities in each trust are typically individually owned fixed income or equity securities or mutual funds which are invested in fixed income or equity securities. The trustee of each trust is responsible for managing and investing the assets in accordance with the trust arrangement. The funds held in trust are classified as Level 2

Notes to Consolidated Financial Statements
June 30, 2013 and 2012

As of June 30, 2013 and 2012, cash management funds of \$66 and \$100, fixed income securities of \$23,989 and \$24,925, respectively, other domestic equity investments and pooled trusts of \$50,202 and \$23,142, respectively and foreign equity investments of \$32,831 and \$19,488, respectively are considered Level 2 due to being included in investment partnerships where the partners determine the fair value of the investment

The System adopted the updated GAAP valuation standard related to investment funds that do not have a readily determinable fair value effective July 1, 2010. The guidance allows the fair value measurements for these funds to be based on reported NAV if certain criteria are met, and establishes additional disclosures related to these investment funds. Accordingly, the fair values of the following investment funds have been estimated using reported NAV.

7. Goodwill

Goodwill is reported in other assets in the Consolidated Balance Sheets. Accounting standards do not allow goodwill to be amortized but requires that it be tested for impairment annually or more frequently when events or circumstances indicates that the carrying value of a reporting unit more likely than not either exceeds or is less than its fair value. The System's annual goodwill impairment testing date is March 31 of each year.

As a result of the goodwill impairment testing at March 31, 2013 and 2012, it was determined that an impairment loss of \$1,584 and \$0, respectively, was needed to be recognized. The factors that management considered in determining that it was not more likely than not that the fair value of the segments containing goodwill was less than its carrying amount included industry and market conditions, overall financial performance compared to projected results, and volume growth.

Lines of Credit

At June 30, 2013 and 2012, the System had unused lines of credit of \$0 and \$3,095, which bear interest at fixed and variable rates. At June 30, 2012, the variable rate line in the amount of \$2,960 had a rate of 1.24%. One fixed line was outstanding at June 30, 2012 in the amount of \$135, bearing interest at rate between 3.25% and 4.00%. All lines of credit were closed during fiscal year 2013.

Letters of Credit

The System was contingently liable for outstanding letters of credit in the amounts of approximately \$8,158 and \$5,449 for the years ended June 30, 2013 and 2012, respectively, to satisfy the requirements of professional liability insurance policies, future worker's compensation claims, current construction site work and security deposits on certain real estate leases.

Bank Note

On March 1, 2012, the System secured a \$26,000 taxable five year term bank loan through PNC Bank, N. A. which was primarily used to finance certain acquisitions. The interest rate was reset monthly and equals the 1 month LIBOR Index plus a margin of 58 basis points. The interest rate will not exceed the maximum rate permitted by law. All transaction related fees were paid directly from Pinnacle Health System operating funds. The loan was paid in full on March 1, 2013.

During fiscal year 2011, the Series 2011A Bond was issued to extinguish \$70,000 of the outstanding 2009B Revenue Note as well as to provide an additional \$30,000 in order to fund certain capital projects at the Hospital.

Revenue Bonds

The Series 2009A, 2011A and 2012A Bonds were issued under Master Trust Indentures which contains certain covenants of the Obligated Group, including, but not limited to, covenants regarding the payment of debt service on all the Master Notes and Master Guarantees issued thereunder, rates and charges, liquidity, indebtedness, transfers of assets, the incurrence of additional indebtedness and the granting of security interests in property and a pledge of gross receipts to collateralize such indebtedness.

A summary of scheduled principal repayments on long-term debt is as follows:

11. Interest Rate Swaps

The System has used derivative instruments, such as interest rate swaps, to manage certain interest rate exposures. Derivative instruments are viewed as risk management tools by the System and are not used for trading and speculative purposes.

When quoted market prices are not available, the valuation of derivative instruments is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including interest rate curves and implied volatilities. The estimates of fair value are made by an independent third-party valuation service using a standardized methodology based on observable market inputs. As part of the System's overall valuation process, management evaluates this third-party methodology to ensure that it is representative of exit prices in the principal markets. These future net cash flows, however, are susceptible to change primarily due to fluctuations in interest rates. As a result, the estimated values of these derivatives will change over time as cash is received and paid and also as market conditions change. As these changes take place, they may have a positive or negative impact on estimated valuations. Based on the nature and limited purposes of the derivatives that the System employs, fluctuation in interest rates have had only a modest effect on its results of operations. As such, fluctuations are generally expected to be countered by offsetting changes in income, expense, and/or values of assets and liabilities.

As of July 14, 2005, in conjunction with the Series 2005 Bond, the Hospital entered into an interest rate swap agreement with an initial notional amount of \$55,000. Under the agreement the Hospital paid the counterparty, Citigroup, a fixed rate of 3.36% and in exchange Citigroup pays the Hospital 61.80% of LIBOR plus 0.32%. Due to the redemption of the Series 2005 Bonds, the interest rate swap agreement was amended and restated on June 24, 2009 in conjunction with the Series 2009A Bond. As of June 30, 2013, the Hospital recorded a liability of \$5,741 and a related gain of \$1,375, which was recorded in gain on interest rate swaps in the consolidated statement of operations. As of June 30, 2012, the Hospital recorded a liability of \$8,585 and a related loss of \$5,451, which was recorded in loss on interest rate swaps in the consolidated statement of operations.

The System has classified its interest rate swap in Level 2 of the fair value hierarchy, as the significant inputs to the overall valuations are based on market-observable data or information derived from or corroborated by market-observable data. For over-the-counter derivatives that trade in liquid markets, such as interest rate swaps, model inputs (i.e. contractual terms, market prices, yield curves, credit curves, and measures of volatility) can generally be verified, and model selection does not involve significant management judgment.

A summary of the related liabilities and income statement impact of the swaps at June 30, 2013 and 2012 is as follows.

Interest Rate Swap	Balance Sheets		Statements of Operations	
	2013	2012	2013	2012

12. Funds Held by Trustee and Other

Certain funds are required to be established and controlled by the trustee during the periods certain bonds are outstanding

Proceeds of \$135,250 from the 2012A Revenue Bonds received on August 7, 2012 are to be used to undertake a project consisting of equipping, and development of a new approximately 200,000 square foot, 108 bed acute care hospital on the Fredricksen Campus located in Cumberland County, Pennsylvania; renovations and improvements to the Harrisburg Hospital facilities located in the City of Harrisburg, Pennsylvania; renovations and improvements to the Community General Hospital facilities located in Dauphin County, Pennsylvania; and payment of the costs of issuing the Bonds. During the fiscal year \$46,064 of the proceeds were released to pay for approved invoices, underwriters discount and issuance fees related to the projects. The amount remaining is included in investments designated for capital projects until such time as approved invoices are paid to satisfy the requirements of the Bond agreement.

The additional proceeds of \$30,000 from the 2011A Revenue Bonds received June 28, 2011 were to be used to fund approved capital projects at both the Harrisburg Hospital and Community General Osteopathic Hospital, plus pay issuance costs. As of June 30, 2013, all of the proceeds were expended.

Nonoperating gains include \$30 and \$3 interest earned on the funds held by trustee and other for the years ended June 30, 2013 and 2012, respectively.

13. Retirement Plans

The System sponsors defined contribution plans covering substantially all of its employees and employees of certain wholly- and partially-owned subsidiaries. The plans allow participating employees to contribute a percentage of their annual salary subject to current Internal Revenue Service ("IRS") limitations. Employee contributions are matched by the System at various percentages. The System's contributions to the savings plans are \$13,062 and \$13,943 for 2013 and 2012, respectively.

The System sponsors a noncontributory defined benefit pension plan (the "Plan") covering substantially all of its employees and employees of certain wholly owned subsidiaries employed prior to January 1, 2007. Effective December 31, 2006, the System amended the Plan by freezing benefits for all participants. Additional retirement benefits are provided through increased contributions to the defined contribution plans. The Parent also sponsors a supplemental noncontributory defined benefit pension plan covering certain executives of the controlled entities of the System. The supplemental plan is unfunded and the Hospital has recorded a liability of \$3,287 and \$3,612 at June 30, 2013 and 2012, respectively.

The System sponsors a nonqualified deferred compensation plan covering certain employees of PHCVI. The plan allows participating employees to defer a percentage of their compensation during the plan year as well as allowing company contributions subject to plan limitations. The System's contributions to the plan are \$559 and \$582 for 2013 and 2012, respectively.

Notes to Consolidated Financial Statements
June 30, 2013 and 2012

Pension costs are funded to the limits specified by the Employee Retirement Income Security Act of 1974, as amended. From time to time, the System may contribute additional amounts to the Plan as it deems appropriate, subject to funding limitations. During fiscal year 2014, the System expects to contribute approximately \$14,000 to the Plan.

Other benefits provided by the System are a defined benefit postretirement health plan and a defined benefit postretirement life plan both covering employees of the former Capital Area Health Foundation who retired by December 31, 1996. The plan is unfunded and the Hospital has recorded a liability of \$5,073 and \$5,162 at June 30, 2013 and 2012, respectively.

The following is the status of the various employee benefit plans as of the measurement dates of June 30, 2013 and 2012.

Sensitivity Analysis, Postretirement Benefits

Assumed health care cost trend rates have a significant effect on the amounts reported for the health care plan. At June 30, 2013, a one-percentage-point change in assumed health care cost trend rates would have the following effects:

	One-Percentage-Point	
	Increase	Decrease
Effect on total of service and interest cost components	\$ 6	\$ (5)
Effect on postretirement benefit obligation	121	(107)

Expected benefit payments for the years ended June 30 are as follows:

	Pension Benefits	Other Benefits
2014	\$ 13,383	\$ 244
2015	14,251	251
2016	15,077	258

June 30, 2013 and 2012

The pension plan's asset allocation at June 30, 2013 and 2012, by asset category, is as follows:

	2013	2012
Pension plan assets		
Equity securities	56.40 %	53.30 %
Fixed income securities	32.20	36.00
Tactical allocation	9.90	10.30
Cash and cash equivalents	1.50	0.40
	<u>100.00 %</u>	<u>100.00 %</u>

The primary investment objective for the plan assets is to achieve maximum rates of return commensurate with safety of principal. Target asset allocation, credit quality and diversification guidelines and restrictions are approved by the Investment Committee of the Board of Directors of the Parent. The plan asset allocation is reviewed quarterly to determine whether the portfolio mix is within an acceptable range of the target allocation. Target asset allocations are based on asset and liability studies.

The target asset allocation for the portfolio is 55.00% equity and 35.00% fixed income securities, 10.00% tactical allocation and 0.00% cash equivalents.

The following table represents the fair value measurement levels for all pension assets, which the System has recorded at fair value.

As of June 30, 2013 and 2012, fixed income securities of \$0 and \$83,988, respectively, other domestic equity investments and pooled trusts of \$51,927 and \$19,429, respectively and foreign equity investments of \$10,322 and \$26,916, respectively are considered Level 2 due to being included in investment partnerships where the partners determine the fair value of the investment

The System adopted the updated GAAP valuation standard related to investment funds that do not have a readily determinable fair value effective July 1, 2010. The guidance allows the fair value measurements for these funds to be based on reported NAV if certain criteria are met, and establishes additional disclosures related to these investment funds. Accordingly, the fair values of the following investment funds have been estimated using reported NAV.

14. Insurance Coverage

The System maintains self-insurance trust funds for professional liability claims that are not insured by captive insurance arrangements. The System's contributions to its self-insurance trust funds and the related self-insured liabilities are based on actuarial assumptions and methodologies, which are reviewed continuously with any adjustments reflected in current operations. Management believes that the accrual for self-insured liabilities is adequate as of June 30, 2013, however, it is reasonably possible the estimated reserve for self-insurance claims could change in the near term due to the inherent variability in determining such estimates.

Effective December 31, 2002, primary professional and general liability insurance is provided through the System's wholly owned for profit captive insurance company, RRG. Professional liability is provided on a claims-made basis meeting statutory limit requirements of \$500 per claim subject to a \$2,500 annual aggregate for the Hospital, and a \$1,500 annual aggregate for physician and skilled nursing claims. Additional coverage of \$500 per claim and \$1,500 in the aggregate is provided by the Mcare Fund (formerly the Medical Professional Liability Catastrophic Fund – "CAT Fund") established under the Medical Care Availability and Reduction of Error Act ("Mcare Act"). Coverage for general liability is on an occurrence basis providing \$1,000 per claim subject to a \$2,000 aggregate.

Prior to December 31, 2002, malpractice coverage was provided by commercial carriers on a claims-made basis with statutory/primary limits of \$500 per claim and \$2,500 for hospital claims and \$1,500 for physician and skilled nursing claims in the aggregate with additional coverage of \$700 per claim and \$2,100 in the aggregate by the Mcare Fund. Coverage for general liability was on an occurrence basis providing \$1,000 per claim subject to a \$1,000 aggregate.

Effective January 1, 2013, the System purchased \$30,000 in excess liability limits with separate limits established for professional liability exposure and general liability and other underlying coverage. For the period January 1, 2012 to December 31, 2012, excess limits were \$25,000 with separate limits for Professional and General Liability. A \$4,000 self-insured retention layer for professional and general liability exposure is underwritten by the System's wholly owned captive, UHR. For period January 1, 2010 to December 31, 2011, excess limits were \$20,000 with separate limits for Professional and General Liability. For period January 1, 2007 to December 31, 2009, excess limits were \$10,000 with separate limits for Professional and General Liability. At January 1, 2006, coverage included a \$2,000 self-insured retention with an \$8,000 annual aggregate limit for professional and general liability exposure. Effective January 1, 2004 through December 31, 2005, a shared \$8,000 excess layer over a \$1,000 self-insured retention layer. Claims in the \$8,000 excess layer are shared 50% by a commercial insurance carrier and 50% self-insured. Self insured exposure is re-insured through the Parent's wholly owned captive, UHR. Effective January 1, 2003 through December 31, 2003, the System maintained excess liability coverage of \$4,000 per claim and in the aggregate provided through UHR, with an additional \$5,000 per claim and in the aggregate provided by a commercial insurance carrier. Prior to January 1, 2003, the System maintained excess liability coverage with a commercial carrier in the amount of \$25,000 over the above limits.

At June 30, 2013 and 2012, the System also maintained Directors and Officers liability coverage with limits of \$20,000 and Excess Workers' Compensation coverage over a self-insured retention of \$750.

Notes to Consolidated Financial Statements
June 30, 2013 and 2012

The actuarially computed liability to all health care providers (hospitals, physicians, and others) participating in the Mcare Fund at June 30, 2013 is expected to be substantially in excess of the amount the Mcare Fund has available to pay these claims. The Commonwealth of Pennsylvania has indicated that the unfunded liability will be funded exclusively through surcharge assessments in future years as claims are settled and paid. No provision has been made for any future Mcare Fund assessments in the accompanying June 30, 2013 and 2012 consolidated financial statements as the System's portion of the Mcare Fund unfunded liability could not be reasonably estimated.

15. Significant Concentrations of Credit Risk

The System's operations are located in Harrisburg, Pennsylvania. Its primary service area includes Harrisburg, Pennsylvania and the surrounding Greater Harrisburg Metropolitan Area. Financial instruments which subject the System to concentrations of credit risk consist primarily of cash and cash equivalents, investments, and accounts receivable.

The System typically maintains cash and cash equivalents and temporary investments in local banks. As of July 21, 2010, cash and cash equivalents and temporary investments are insured by the FDIC up to a limit of \$250.

The System grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors at June 30, 2013 and 2012 was as follows.

	2013	2012
Medicare	27.00 %	27.00 %
Medicaid	18.00	18.00
Capital Blue Cross/Highmark Blue Shield	24.00	24.00
HMO	5.00	5.00
Other third-party payors	10.00	11.00
Patients	16.00	15.00
	<u>100.00 %</u>	<u>100.00 %</u>

16. Commitments and Contingencies

Operating Leases

The System has entered into various lease arrangements for equipment, office space, and storage. Lease expense was \$13,577 and \$9,935 for the years ended June 30, 2013 and 2012, respectively. As of June 30, 2013, the System's lease commitments for the years ended June 30, 2014, 2015, 2016, 2017 and 2018 are \$10,149, \$9,542, \$8,787, \$8,228 and \$8,025, respectively, and \$40,335 in the aggregate for the years thereafter.

Loan Commitment and Debt Guarantees

As of June 30, 2013 and 2012 there was no outstanding debt guaranteed.

Purchase Commitments

The System has outstanding purchase commitments related to various projects of approximately \$103,597 and \$5,775 at June 30, 2013 and 2012, respectively.

Pinnacle Health System

Notes to Consolidated Financial Statements
June 30, 2013 and 2012

Equity Contribution Commitments

The System is committed to provide equity contributions to PPI to fund any losses. During 2013 and 2012, the System provided equity contributions of \$2,250 and \$2,050, respectively

Regulatory Compliance

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The System believes that it is in compliance with all applicable laws and regulations through the years ended June 30, 2013 and 2012. Compliance with such laws and regulations can be subject to government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid program

17. Functional Expenses

The System provides general health care services to residents within its geographical area. Expenses related to providing these services for the years ended June 30, 2013 and 2012 are approximately as follows.

	2013	2012
Health care services	\$ 616,540	\$ 586,718
General and administrative	<u>160,911</u>	<u>162,125</u>
	<u>\$ 777,451</u>	<u>\$ 748,843</u>

18. Subsequent Events

The System evaluated subsequent events through September 9, 2013, which is the date the financial statements are considered widely distributed. Management reviews for and identifies subsequent events through participation at Board of Director meetings and subcommittee meetings and has determined there are no subsequent events to be disclosed.

**Report of Independent Auditors
on Accompanying Consolidating Information**

To the Board of Directors of Pinnacle Health System.

We have audited the consolidated financial statements of Pinnacle Health System and its controlled entities and subsidiaries (collectively, the "System") as of June 30, 2013 and for the year then ended and our report thereon appears on pages 35-38 of this document. That audit was conducted for the purpose of forming an opinion on the consolidated financial statements taken as a whole. The consolidating information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The consolidating information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves and other additional procedures, in accordance with auditing standards generally accepted in the United States of America. In our opinion, the consolidating information is fairly stated, in all material respects, in relation to the consolidated financial statements taken as a whole. The consolidating information is presented for purposes of additional analysis of the consolidated financial statements rather than to present the financial position, results of operations and changes in net assets of the individual companies and is not a required part of the consolidated financial statements. Accordingly, we do not express an opinion on the financial position, results of operations and changes in net assets of the individual companies.
