		Part I, L7 Col(f) A system wide community benefit of \$258 million reflects all entities within the system that provide community benefit and this amount is reported in the Statement of Program Service Accomplishments The \$30 million portion of total community benefit reported in Schedule H reflects all community benefit as provided by the members of the Group exemption that operate hospitals Accordingly, for purposes of Schedule H calculation of % of total expense in line 7, column f, total functional expenses less bad debt has been recalculated to reflect only those members operating Marion General Hospital, Grady Memorial Hospital, Hardin Memorial Hospital, and Doctors Hospital in Nelsonville
		Part III, Line 4 Accounts receivable for patients, insurance companies, and governmental agencies are based on gross charges An allowance for contractual adjustments is based on expected payment rates from payors based on current reimbursement methodologies This amount also includes amounts received as interim payments against unpaid claims by certain payors An allowance for uncollectible accounts is established on an aggregate basis by using historical write-off rate factors applied to unpaid accounts based on aging Loss rate factors are based on historical loss experience and adjusted for economic conditions and other trends affecting the Corporation's ability to collect outstanding amounts Uncollectible amounts are written off against the allowance for doubtful accounts in the period they are determined to be uncollectible For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Corporation records a provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible The difference between the standard rates (including uninsured discount) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts in the period they are determined to be uncollectable Each OhioHealth entity applies a discount to self-pay patient accounts that do not qualify for charity at the time of billing If the account is deemed uncollectible, the balance is written off to bad debt OhioHealth makes all reasonable efforts to qualify eligible patients for charity, including periodic retrospective account reviews to determine if patients that were written off to bad debt should have qualified for charity

Part III Supplemental Information

Complete this part to provide the information, explanation, or descriptions required for Part I, lines 1a, 1b, 3, 4a, 4b, 4c, 5a, 5b, 6a, 6b, 7, and 8, and for Part II. Also complete this part for any additional information.

Identifier	Return Reference	Explanation
	Part I, Line 1a	Tax indemnification and gross up payments. OhioHealth Corporation and its subsidiaries do not provide tax gross ups to executives. Non-executives receive tax gross ups when receiving various taxable incentive or recognition awards, non-cash gifts, or gift cards that are available to all employees. Occasionally, non-executives are reported in Form 990.
	Part I, Line 3	The Parent Corporation (a related organization) used the following methods to establish the compensation of the CEO for each of the filing organizations include in the OhioHealth Group 990 return: - Compensation committee - Independent compensation consultant - Form 990 of other organizations - Compensation survey or study - Approval by the board or compensation committee.
	Part I, Lines 4a-b	The following individuals listed in Form 990, Part VII received severance payments: Lisa Pettrey - \$105,231; Robert Walters - \$142,800. The following individuals listed in Form 990, Part VII participated in a supplemental non-qualified retirement plan: David P. Blom - \$896,681; Michael S. Bernstein - \$131,889; Steven J. Garlock - \$17,142; Bruce P. Hagen - \$136,393; Cheryl L. Herbert-Sinden - \$92,659; Richard L. Lehmuth - \$7,620; Michael W. Louge - \$419,629; Stephen E. Markovich, MD - \$155,526; Robert P. Millen - \$274,654; Karen J. Morrison - \$85,751; Frank T. Pandora II Esq. - \$153,931; Frank T. Pandora II Esq. - \$986,585 (payout at age 65); Michael L. Reichfield - \$101,731; Mark R. Seckinger - \$1,625; Hugh A. Thornhill - \$106,083; Bruce Vanderhoff, MD - \$141,979; Vinson M. Yates - \$83,441. These arrangements are an industry standard and are unfunded. Due to the substantial risk of forfeiture provision, there is no guarantee that these officers will ever receive these benefits. Amounts for these arrangements are included in the deferred compensation amount.
	Part I, Line 7	Incentive bonuses are calculated using an objective formula that includes clinical quality, patient, physician and employee satisfaction, and financial items. Minor modifications to increase or decrease incentive payments, within the maximum amount established for each position, may be made based on individual performance and accountabilities. In addition, one time bonuses may be awarded to recognize exemplary performance. All payments are examined for reasonableness and are reviewed and approved by either the Executive Compensation Committee (for disqualified persons) or through management and the company's human resources function (for non-disqualified persons).

	Form 990, Part VI, Section A, line 2	Many of the persons listed in Part VII have a "business relationship" with each other by virtue of sitting on related OhioHealth entity boards. OhioHealth Corporation has an ownership interest in limited liability companies (LLCs) that provide healthcare or related services. As a member of such LLCs, OhioHealth Corporation has the right to appoint two individuals to the managing board of such LLCs. As a result, these individuals may be deemed to have a "business relationship" with each other for purposes of Part VI, Section A, Line 2. Lisa George, Director of OhioHealth Foundation, and Tara M. Abraham, Director of OhioHealth Foundation, have a family relationship. Douglas T. Anderson, Director of OhioHealth Foundation, and Elizabeth Doody Anderson, Director of OhioHealth Foundation, have a family relationship. Steve Cox, Chairman of DHCN, and Bernita Crawford, Secretary of DHCN, have a business relationship. George W. McCloy, Director of OhioHealth Foundation, and Julie Mercker, Director of OhioHealth Foundation, have a family relationship. George W. McCloy, Director of OhioHealth Foundation, and Michael E. Menning, Director of OhioHealth Foundation, have a business relationship. Vic Ireland, Director of OhioHealth Foundation, and Douglas T. Anderson, Director of OhioHealth Foundation, have a business relationship. Michael J. Endres, Treasurer of Grady Memorial Hospital, Kerri B. Anderson, Director of Grady Memorial Hospital, and John P. McConnell, Director of Grady Memorial Hospital, have a business relationship. Carl A. Krantz Jr., M.D., Director of OhioHealth Foundation, and Larry J. Lilly, M.D., Director of OhioHealth Foundation, have a business relationship.

Identifier	Return Reference	Explanation
	Form 990, Part VI, Section B, line 11	Corporate Finance, using a public accounting tax firm, prepares the Form 990. Multiple levels of internal review occur, as well as a presentation to the OhioHealth Board Finance and Audit Committee prior to copies being provided to the OhioHealth Corporation Board before filing. Each entity within Group is a wholly owned or controlled subsidiary of OhioHealth and requires the approval of OhioHealth for major financial transactions. Due to the administrative burden of providing copies to all OhioHealth Corporation Group board members, copies will not automatically be provided to the members of the boards of each Group member entity. Any board member requesting a copy will be provided a copy in full compliance with public inspection requirements.

Identifier	Return Reference	Explanation
	Form 990, Part VI, Section B, line 12c	The conflict of interest policy has been reviewed by independent tax counsel to assure its compliance with the requirements of the Internal Revenue Service. The policy requires all officers, directors and key employees to complete an annual questionnaire pertaining to conflicts of interest. The questionnaire is administered by the General Counsel of OhioHealth, the parent company of the organization. The responses are recorded and reported to the Board in the format approved by the Chair of the Board (a community member). In the interim between questionnaires, conflicts are to be reported to the General Counsel, who will advise the conflicted officer, director or key employee on the steps required to manage or clear the conflict. Failure to report a conflict, or failure to follow the steps advised to clear the conflict, constitutes grounds for disciplinary action. Members of the governing board with a transactional conflict are required to recuse themselves from any discussion and/or vote pertaining to the conflicted transaction, and this is reflected in the minutes of the organization. Legal counsel attends Board meetings and Board committee meetings with the instruction to assure the conflict of interest policy is followed.

Identifier	Return Reference	Explanation
	Form 990, Part VI, Section B, line 15	The OhioHealth CEO's compensation is set by the Compensation Committee, which is composed of independent and disinterested members of the Board of Directors. The CEO's 2012 base salary and his 2012 total compensation (which includes annual incentive and all benefits) were estimated to approximate the 73rd percentile. The organization's performance for FY 6/30/2013 was at the 82nd percentile as measured by the Balanced Scorecard using Quality, Customer Service, Work life and Finance indicators. The Compensation Committee annually receives a report from its independent executive compensation consultant, which includes third-party comparability data for functionally-similar positions in comparable not-for-profit health systems across the United States. The annual report to the Compensation Committee, completed each fall, includes market analyses for base salaries, total cash compensation, benefits and perquisites, and aggregate total compensation values for the Chief Executive Officer, Executive Vice Presidents, Senior Vice Presidents and Entity Presidents, to support OhioHealth's qualification for the rebuttable presumption of reasonableness. The Compensation Committee reviews and approves each executive's compensation, based on performance and the compensation philosophy, and rationale for the Committee's decisions is documented in meeting minutes. With respect to non-disqualified positions, compensation is determined in the same manner as set forth above, however it is not reviewed by the Executive Compensation Committee and is instead determined by management.

Notes to Consolidated Financial Statements

June 30, 2013 and 2012

1. Organization

OhioHealth Corporation (OhioHealth or the Corporation) is a nonprofit corporation organized under the laws of the State of Ohio. The sole member of OhioHealth is the West Ohio Conference of The United Methodist Church. OhioHealth operates general acute care hospitals including Grant Medical Center (Grant), Riverside Methodist Hospital (Riverside), and Doctors Hospital (Doctors) each in Columbus, Ohio, and the Dublin Methodist Hospital (Dublin) in Dublin, Ohio. OhioHealth also operates several outpatient facilities. OhioHealth is the parent organization and sole voting member of the following Ohio nonprofit corporations: Grady Memorial Hospital (Grady), Marion General Hospital, Inc. (Marion), Hardin Memorial Hospital (Hardin), HomeReach and Subsidiary (HomeReach), and Doctors Health Corporation of Nelsonville (Nelsonville). In addition, OhioHealth is the parent organization and sole corporate member of OhioHealth Star Corporation (OhioHealth Star), an Ohio for-profit corporation, Intel Health Services Insurance Co., Ltd., OhioHealth Foundation, Inc., OhioHealth Research Institute, and Hospital Properties, Inc., and is the beneficial owner of all of the issued and outstanding shares of Grant/Riverside Medical Care Foundation, D B A OhioHealth Physician Group.

Grady, an Ohio nonprofit corporation, is the parent organization and sole voting member of Healthworks LLC, an Ohio nonprofit SMLLC. On January 1, 2013, GM Health Services, Inc. and Grady Anesthesia Services, Inc. were merged into Healthworks LLC.

Nelsonville and Marion are Ohio nonprofit corporations. OhioHealth Corporation is the sole member of Nelsonville and Marion. On August 1, 2012, Marion purchased the remaining interest in the joint ventures of Marion Area Health Center (MAHC) and Marion Ancillary Services (MAS). Also, on October 28, 2012, the Corporation purchased the assets of Smith Clinic, a nonprofit corporation that employs physicians.

Hardin, an Ohio nonprofit corporation, is the sole voting member of Hardin Memorial Hospital Foundation. HardinCare, Inc. is a for-profit wholly owned subsidiary of Hardin. Hardin is also the sole voting member of Hardin Physician Foundation, Inc. (the Physician Foundation). The Physician Foundation is an Ohio professional association, which employs physicians qualified and licensed to practice medicine in the state of Ohio. The Physician Foundation provides Hardin with physicians to render medical education services in addition to operating several clinics.

HomeReach, an Ohio nonprofit corporation, is the parent and sole voting member of HomeReach HomeCare (HomeCare). HomeReach operates as a multidisciplinary home care

2. Significant Accounting Policies

The significant accounting policies used in the consolidated financial statements are summarized below

Principles of Consolidation

The consolidated financial statements include the accounts of OhioHealth and its subsidiaries (the Corporation) All significant intercompany balances and transactions have been eliminated

Cash Equivalents

The Corporation considers investments, classified as current assets, with a maturity of three months or less when purchased to be cash equivalents The Corporation's cash and cash equivalents falls into two categories, highly rated money market mutual funds, which invest in only highly rated, short-term fixed income securities, and deposits at banking institutions Historically, the only Federal insurance provided to cover any of these funds was \$250,000

OhioHealth Corporation

Notes to Consolidated Financial Statements (continued)

June 30, 2013 and 2012

2. Significant Accounting Policies (continued)

Cash Equivalents (continued)

per account for funds on deposit in banks provided through the Federal Deposit Insurance Corporation ("FDIC") However, as part of the Dodd-Frank Wall Street Reform and Consumer Protection Act, the FDIC had temporarily expanded insurance coverage to all deposits in banking institutions to an unlimited amount until December 31, 2012 This expanded coverage lapsed at that time and reverted to the original maximum amount of \$250,000 Therefore, the Corporation's assets are again insured at the \$250,000 maximum, with the excess being uninsured in banking deposits and highly rated money market mutual funds

Accounts Receivable

Accounts receivable for patients, insurance companies, and governmental agencies are based on gross charges An allowance for contractual adjustments is based on expected payment rates from payors based on current reimbursement methodologies This amount also includes amounts received as interim payments against unpaid claims by certain payors An allowance for uncollectible accounts is established on an aggregate basis by using historical write-off rate factors applied to unpaid accounts based on aging Loss rate factors are based on historical loss experience and adjusted for economic conditions and other trends affecting the Corporation's ability to collect outstanding amounts Uncollectible amounts are written off against the allowance for doubtful accounts in the period they are determined to be uncollectible

For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Corporation records a provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible The difference between the standard rates (including uninsured discount) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts in the period they are determined to be uncollectable

Third-Party Reimbursement

The Corporation is a provider of services under contractual arrangements with the Medicare and Medicaid programs In addition, the Corporation has other third-party reimbursement arrangements Net patient service revenues include amounts estimated to be reimbursable by these programs under the provisions of various payment formulas Amounts received by the Corporation for treatment of patients covered by such programs are generally less than the

2. Significant Accounting Policies (continued)

Third-Party Reimbursement (continued)

established billing rates. The differences between established billing rates and amounts received are deducted in arriving at net patient service revenues.

Amounts earned under the Medicare and Medicaid contractual arrangements are subject to audit by appropriate government authorities or their agents. Adequate provision has been made in the financial statements for any adjustments that may result from such audits. At June 30, 2013, final determinations have not been made for all entities for 2009 through 2013 for Medicare and 2008 through 2013 for Medicaid. The amounts reported on the financial statements represent estimated settlements outstanding at June 30, 2013 and 2012. Gains related to prior year settlement and other reserve estimates resulted in an increase to net operating income in 2013 and 2012 of approximately \$13,813,000 and \$17,960,000, respectively. Medicare, Medicaid and Anthem represented approximately 55% and 56% of Corporation's net patient service revenues for the years ended June 30, 2013 and 2012, respectively.

The Medicare program has initiated a Recovery Audit Contractor (RAC) initiative, whereby claims subsequent to October 1, 2007 can be reviewed by contractors for validity, accuracy and proper documentation. The RAC program began for Ohio hospitals in late 2009. The Corporation charged approximately \$9,234,000 and \$7,215,000 to contractual deductions related to RAC for the years ended June 30, 2013 and 2012, respectively.

In the health care industry, laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Corporation believes that it is in substantial compliance with all applicable laws and regulations. Compliance with health care industry laws and regulations can be subject to future government review and interpretation as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs. As a result, there is a less than probable but greater than remote possibility as described in the accounting standards regarding the recognition of contingencies that recorded estimates will change by a material amount in the near term.

Inventories

Inventories are determined by physical count and are valued at the lower of cost or market. Inventories, generally consisting of surgical supplies, are accounted for using a weighted-average costing method. All other inventory costs are determined on the first-in, first-out method.

OhioHealth Corporation

Notes to Consolidated Financial Statements (continued)

June 30, 2013 and 2012

2. Significant Accounting Policies (continued)

Property and Equipment

Additions to property and equipment have been recorded at cost, or at fair market value if acquired by gift. The carrying amounts of assets sold, retired, or otherwise disposed of and the related allowances for depreciation are eliminated from the accounts and any resulting gain or loss is included in other operating revenues (expense) as a gain (loss) on disposition of assets. Depreciation of property and equipment is provided by annual charges to expense on a straight-line basis over the estimated useful lives of the assets. Equipment under capital leases is depreciated over the shorter of the estimated useful lives or lease terms. The estimated useful lives of buildings and improvements vary generally from 10 to 40 years and the estimated useful lives of equipment vary generally from 3 to 10 years.

Goodwill

The recorded amounts of goodwill from prior business combinations are based on management's best estimates of the fair value of assets acquired and liabilities assumed at the acquisition date. Annually, the Corporation assesses goodwill for impairment. No impairment charge was recognized in the years ended June 30, 2013 and June 30, 2012.

Electronic Health Record Technology (EHR)

The American Recovery and Reinvestment Act of 2009 (ARRA) established funding in order to provide incentive payments to hospitals and physicians that implement the use of electronic health record (EHR) technology by 2014. The Corporation may receive an incentive payment for up to four years, provided the Corporation demonstrates meaningful use of certified EHR technology for the EHR reporting period. The revenues from the incentive payments are recognized over the EHR reporting period when there is reasonable assurance that the Corporation will comply with eligibility requirements during the EHR reporting period and an incentive payment will be received. The amounts are recorded within other operating revenues as the incentive payments are related to the Corporation's ongoing and central activities yet not critical to the delivery of patient service.

During 2013, certain OhioHealth hospitals attested to Centers for Medicare and Medicaid Services (CMS) that they had met the first stage of meaningful use criteria for the first year EHR reporting period. The incentive payments were recognized as income within other operating revenues in the amount of \$15,921,000 and \$4,791,000 for the years ended June 30, 2013 and 2012, respectively.

OhioHealth Corporation

Notes to Consolidated Financial Statements (continued)

June 30, 2013 and 2012

2. Significant Accounting Policies (continued)

Assets Limited As To Use and Restricted Foundation Investments

Assets limited as to use consists of funds held by trustee, unrestricted foundation investments, funds internally designated for future expansion and replacement, and board designated funds. Funds held by trustee are principally for debt service and payment of malpractice and general patient liability losses. Earnings on these funds are included in investment income. Restricted foundation investments consist of assets whose use by the Corporation has been restricted by the donor.

All investments in equity and debt securities, with the exception of alternative investments, are designated as trading securities and are recorded at fair value based upon quoted market prices. Alternative investments are designated as available for sale securities and recorded at estimated fair market value. The fair value of certain alternative investments has been estimated by the investment manager in the absence of readily ascertainable market values. Investment income or loss (including realized gains and losses on the sale of investments, losses on investments deemed to be other-than-temporary for alternative investments, interest, and dividends) is included in excess of revenues over expenses unless the income is restricted by donor or law. The change in unrealized gains and losses on trading securities are included in excess of revenues over expenses. Unrealized gains and losses on available for sale securities are excluded from excess of revenues over expenses.

Equity Investments

Investments in jointly owned companies and other investees in which the Corporation has an equity basis interest are carried at cost, adjusted for the entities proportionate share of their undistributed earnings or losses. These investments (\$41,324,000 and \$32,386,000 as of June 30, 2013 and 2012, respectively) are included in other assets in the accompanying balance sheets (see Note 11).

Fair Value of Financial Instruments

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practicable to estimate that value:

Cash and Cash Equivalents – The carrying amount approximates fair value because of the short maturity of those instruments.

Investments – Fair values, which are the amounts reported in the consolidated balance sheets, are based on quoted market prices. Certain alternative investments are recorded at estimated

2. Significant Accounting Policies (continued)

Fair Value of Financial Instruments (continued)

fair market value, which have been estimated by the investment manager in the absence of readily ascertainable market values

Accounts Receivable, Estimated Third-Party Settlements, Accounts Payable and Accrued Liabilities – The carrying amount reported in the consolidated balance sheets for accounts receivable, estimated third-party settlements, accounts payable and accrued liabilities approximates its fair value

Interest Rate Swap – The fair value of the interest rate swap agreements are based on a mark to market calculation of the value of the interest rate swap contract

Long-Term Debt – The carrying amounts of variable rate long-term debt and capital lease obligations approximate their fair values due to the nature of the obligations. The fair value of fixed rate long-term debt is estimated using comparable issues in the security market

Malpractice and General Patient Liability Contingencies

Because of the nature of its operations, the Corporation is, at all times, subject to pending and threatened legal actions which arise in the normal course of its activities. Malpractice and general patient liability claims for incidents which may give rise to litigation have been asserted against the Corporation by various claimants. The claims are in various stages of processing and some may ultimately be brought to trial. There are also known incidents that have occurred through June 30, 2013 and June 30, 2012, respectively, that may result in the assertion of additional claims. At June 30, 2013 and June 30, 2012, an estimate of these contingent losses has been accrued. There may be other claims from unreported incidents arising from services provided to patients. The reserve for medical malpractice at June 30, 2013 and 2012 includes amounts for claims and related legal expenses for these unreported incidents. The reserve was actuarially determined by combining the Corporation's historical experience and industry data. The Corporation established a trust for the purpose of setting aside assets for the payment of claims based on actuarial funding recommendations. Under the trust agreements, the trust assets can only be used for payment of malpractice losses, related expenses and the cost of administering the trust.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the Corporation has been limited by donors to a specific time period or purpose. When a donor restriction expires, temporarily restricted net assets used for non-capital expenditures are reclassified to unrestricted net assets and are included in excess of revenues over expenses. The release of restrictions on

2. Significant Accounting Policies (continued)

Temporarily and Permanently Restricted Net Assets (continued)

temporarily restricted net assets restricted for the purchase of property and equipment are excluded from excess of revenues over expenses and are reported as an increase in unrestricted net assets

Permanently restricted net assets have been restricted by donors to be maintained by the Corporation in perpetuity, the income from which is expendable to support health care services. The Corporation has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. The Corporation classifies as permanently restricted net assets the original value of gifts donated to the permanent endowment and the original value of subsequent gifts to the permanent endowment. All earnings on permanently restricted net assets during the years ended June 30, 2013 and 2012 have been included in nonoperating income in the years earned. The Corporation invests these funds consistent with the investment policies of the Corporation. The Corporation has a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Corporation targets a diversified asset allocation to achieve these objectives. Changes in the endowment funds (permanently restricted) are presented in the consolidated statement of changes in net assets for the years ended June 30, 2013, and 2012.

Federal Income Taxes

OhioHealth and substantially all of its subsidiaries are tax-exempt organizations as defined under various sections of the Internal Revenue Code. With respect to the taxable corporations, income taxes are insignificant in fiscal 2013 and 2012. The Corporation files all applicable federal, state and local income tax returns. Fiscal years 2010 through 2013 are subject to audit by appropriate government authorities or their agents.

Management has analyzed the tax positions taken by the Corporation and its subsidiaries and has concluded that as of June 30, 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

Charity Care and Benefits to the Community

The Corporation provides medically necessary services without charge or at amounts less than its established rates to patients who meet certain criteria under its charity care policies. In assessing a patient's ability to pay, the Corporation not only utilizes generally recognized

OhioHealth Corporation

Notes to Consolidated Financial Statements (continued)

2. Significant Accounting Policies (continued)

Charity Care and Benefits to the Community (continued)

poverty income levels of the communities it serves, but also includes certain cases where incurred charges are significant when compared to the patient's financial resources. Because the Corporation does not expect to receive payment of amounts determined to qualify as charity care, these amounts are not included in net patient service revenues. Charity care is determined based on established policies, using patient income to determine payment ability. The amount reflects the cost of free or discounted health services, net of contributions and other revenues received, as direct assistance for the provision of charity care. The estimated cost of providing charity services is based on a calculation which applies a ratio of cost to charges to the gross uncompensated charges associated with providing care to charity patients. The Corporation estimates that it provided \$119,073,000 and \$104,830,000 of services to indigent patients during 2013 and 2012, respectively.

In addition, the Corporation provides community services intended to benefit the underserved and enhance the health status of the communities it serves. These services include 24 hour a day emergency rooms, community health screenings, forums for various support groups, health education classes, speakers and publications, hospice and medical research. The Corporation has been able to achieve a greater impact in the community by partnering financial and human resources with other organizations. These expenditures include a commitment to the project to reduce infant mortality, pastoral care service, various civic sponsorships, and other community partnership programs.

The Corporation's total benefit to the community includes the cost of charity care (net of assistance received from the Hospital Care Assurance Program), unpaid cost of Medicaid, and medical education programs as well as certain programs discussed above. The Corporation's benefit to the community was approximately \$257,920,000 and \$230,387,000 for the years ended June 30, 2013 and 2012, respectively. In addition, the unpaid cost of Medicare of approximately \$79,459,000 and \$59,711,000 was provided as an uncompensated service to the community for the years ended June 30, 2013 and 2012, respectively.

Hospital Care Assurance Program

The Hospital Care Assurance Program (HCAP) provides financial assistance to hospitals for care provided to the indigent. Under HCAP, hospitals are assessed amounts, which are matched with federal funds and subsequently redistributed to the hospitals. The Corporation recognized approximately \$35,069,000 and \$32,189,000 in net HCAP distributions for the years ended June 30, 2013 and 2012, respectively, recorded as a component of excess of revenues over expenses.

2. Significant Accounting Policies (continued)

Operating Activities

The Corporation's primary purpose is to provide diversified health care services to the community. As such, activities related to the ongoing operations of the Corporation are classified as operating revenues. Operating revenues include those generated from direct patient care, related support services, system service fee revenues, income (loss) from equity ventures in core business patient service facilities, gains (losses) on the disposition of assets, and sundry revenues related to the operations of the Corporation. Nonoperating income (expense) includes investment income and losses, unless the income or loss is restricted by the donor, change in net unrealized gains (losses) on trading securities, realized losses deemed other than temporary on alternative investments, loss on advanced refunding of debt, change in fair value of interest rate swaps, income from non-core business equity ventures, gain on purchase of remaining interest in joint ventures, and unrestricted contributions. Excluded from the performance indicator (excess of revenues over expenses) are changes in net unrealized gains and losses on alternative investments, net assets released from restrictions used for purchase of property and equipment, and pension-related changes other than net periodic pension cost.

The Corporation provides general health care services to residents within its geographic location. Expenses related to providing these services for 2013 and 2012 include health care expenses of approximately \$1,919,651,000 and \$1,778,447,000 respectively, and general and administrative expenses of approximately \$393,701,000 and \$363,996,000, respectively.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Net Patient Service Revenues

The Corporation has agreements with third-party payors that provide for payments to the Corporation at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per diem payments. Net patient service revenues are reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors.

OhioHealth Corporation

Notes to Consolidated Financial Statements (continued)

June 30, 2013 and 2012

2. Significant Accounting Policies (continued)

Net Patient Service Revenues (continued)

Third-party settlements are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. For uninsured patients that do not qualify for charity care, the Corporation recognizes revenue on the basis of its standard rates for services provided (or on the basis of discounted rates provided by policy). On the basis of historical experience, a significant portion of the Corporation's uninsured patients will be unable or unwilling to pay for the services provided. Thus, the Corporation records a provision for bad debts related to uninsured patients in the period the services are provided. Patient service revenue, net of contractual allowances and discounts (but before provision for bad debts), recognized in the period from these major payor sources in total was \$2,548,053,000 during 2013. The amount (net of contractual allowance and discounts, after provision for bad debts) is made up of amounts from third-party payors of \$2,428,092,000 and amounts from self-pay payors of \$8,522,000 for a total of \$2,436,614,000 during 2013.

Conditional Asset Retirement Obligations

Financial accounting standards clarified when an entity is required to recognize a liability for a conditional asset retirement obligation. Management has considered the standards, specifically as it relates to its legal obligation to perform asset retirement activities on its existing properties and determined any potential exposure to be immaterial. Management believes that there is an indeterminate settlement date for the asset retirement obligations because the range of time over which the Corporation may settle the obligations is unknown and cannot be estimated. As a result, management cannot reasonably estimate the liability related to these asset retirement activities as of June 30, 2013 and 2012.

Noncontrolling Interests in Consolidated Financial Statements

The Corporation has noncontrolling interest, sometimes called a minority interest, which is the portion of equity in a subsidiary not attributable, directly or indirectly, to a parent. In accordance with Accounting Standards Update (ASU) 2010-07 Not-for-Profit Entities (Topic 958) Not-for-Profit Entities—Mergers and Acquisitions, the Corporation consolidates excess of revenues over expenses at amounts that include the amounts attributable to both the parent and the noncontrolling interest. As a result, excess of revenues over expenses includes \$7,061,000 and \$4,985,000 for the years ended June 30, 2013 and June 30, 2012, respectively, attributable to noncontrolling interest.

Unrestricted net assets includes \$4,794,000 and \$4,578,000 for the years ended June 30, 2013 and June 30, 2012, respectively, attributable to noncontrolling interest.

2. Significant Accounting Policies (continued)

New Accounting Pronouncements

During 2011, the Financial Accounting Standards Board (FASB) adopted Accounting Standards Update (ASU) 2011-07 Health Care Entities (Topic 954) *Presentation and Disclosure of Patient Service Revenues, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities* establishing accounting and disclosures for healthcare entities to recognize significant amounts of patient service revenue at the time services are rendered even though the entities do not assess a patient's ability to pay. The amendments in the ASU change the presentation of the statement of operations and add new disclosures that are required under current Generally Accepted Accounting Principles for entities within the scope of this Update. The provision for bad debts associated with patient service revenue for certain entities is required to be presented on a separate line as a deduction from patient service revenue (net of contractual allowances and discounts) in the statement of operations. The ASU is effective for the Corporation for the year ending June 30, 2013 and the provision has been applied retrospectively to the year ended June 30, 2012. As a result of the retrospective application, total unrestricted revenue, gains, and other support and total operating expenses decreased by \$99,120,000 with no change to excess of revenues over expenses for the year ended June 30, 2012. The update requires new disclosures be provided on a prospective basis, and have therefore been presented for the year ended June 30, 2013 only.

Accumulated depreciation	(1,017,320)	(927,470)
	<u>\$ 911,155</u>	<u>\$ 803,499</u>

Title to certain land and buildings of the Corporation with net book value of \$73,679,000 is held by various governmental agencies pursuant to lease agreements in connection with the issuance of tax-exempt revenues bonds. Since the terms of the leases are essentially equivalent to a purchase, such assets are included in property and equipment and are subject to depreciation over the lesser of the related estimated useful lives of the assets or lease term. The lease obligations have been recorded as long-term obligations. During fiscal year 2012 the Corporation began construction on the OhioHealth Neuroscience Institute at Riverside. The total cost will be approximately \$322,000,000, with \$218,000,000 remaining at June 30, 2013.

	<u>\$ 25,842</u>	<u>\$ (5,174)</u>

The Corporation is exposed to changes in fair value of foreign currency due to changes in foreign currency exchange rates. As of June 30, 2013 and 2012, the Corporation has recorded unrealized gains (losses) on foreign currency in net assets of \$726,000 and (\$2,269,000), respectively. All realized gains and losses on foreign currency are included in the statement of operations. The Corporation has not recorded significant realized gains or losses on foreign currency.

The following is a description of the aggregate carrying amount of investments by major type of investment carried at fair value

	June 30

as restricted foundation investments at the same respective dates in the Corporation's consolidated financial statements

Other-Than-Temporary Declines in Investments

OhioHealth evaluates its available-for-sale holdings for other-than-temporary declines in fair value below cost basis. If an investment is determined to have an other-than-temporary decline in fair value, the unrealized losses for the investment are realized in nonoperating income.

The Corporation records all of its investments in equity and debt securities, with the exception of alternative investments, as trading securities. Alternative investments remain classified as available-for-sale securities. Unrealized losses on alternative investments were \$165,000 and \$368,000 as of June 30, 2013 and 2012, respectively.

Other-Than-Temporary Declines in Investments (continued)

The following table reflects OhioHealth's investment gross unrealized losses and fair value, at June 30, 2013 (in thousands):

Description of Securities	Loss Position for Less than 12 Months		Loss Position for 12 Months or More		Total	
	Fair	Unrealized	Fair	Unrealized	Fair	Unrealized
	Value	Losses	Value	Losses	Value	Losses
Alternative investments	\$1,502	\$(165)	\$ -	\$ -	\$1,502	\$(165)

The following table reflects OhioHealth's investment gross unrealized losses and fair value, at June 30, 2012 (in thousands):

Description of Securities	Loss Position for Less than 12 Months		Loss Position for 12 Months or More		Total

	Value	Losses	Value	Losses	Value	Losses
Alternative investments	\$19,172	\$(368)	\$ -	\$ -	\$19,172	\$(368)

For the fiscal years ended June 30, 2013 and 2012, existing impairments are temporary and no adjustments to the cost basis are deemed necessary due to the long term nature of the alternative investments. In addition, OhioHealth has the intent and ability to retain investments for a period of time sufficient to allow for the anticipated recovery in market value.

OhioHealth Corporation

Notes to Consolidated Financial Statements (continued)

4. Assets Limited As To Use and Restricted Foundation Investments (continued)

In order to evaluate the realizable value of its investments, OhioHealth evaluates the available facts and circumstances, including the investment intent, estimated twelve month target prices, and the nature of the investment. This evaluation requires significant judgment including determinations involving the estimation of the outcome of future events, and also consists of an accumulation of factors about general market conditions which reflect prospects for the economy as a whole, the specific industries, and/or the specific securities under consideration. These factors are considered by management in determining whether the security still has earnings potential in the near future, and whether the security has an anticipated recovery in market value.

5. Pension Plans

The Corporation has separate contributory and non-contributory defined benefit pension plans for employees who meet certain requirements as to age and length of service. The following table provides a reconciliation of the changes in the Plans' projected benefit obligations and fair value of assets for the years ended June 30, 2013 and 2012, and a statement of the funded status as of June 30, 2013 and 2012.

Expected return on plan assets	5.00%-6.60%	5.00%-6.50%
Rate of compensation increase	3.00%-4.00%	3.00%-4.20%

Asset Allocation

OhioHealth's weighted-average asset allocations and mix by asset category are as follows

	June 30			
	2013	2012	Target Range	Target
Fixed income	50%	43%	45%-60%	50%
Domestic and international securities	35%	44%	25%-40%	35%
Alternatives	15%	13%	10%-20%	15%
Cash equivalents	0%	0%	0%-5%	0%
	100%	100%		100%

OhioHealth monitors the allocation of assets on a monthly basis and utilizes a third-party investment advisor. OhioHealth's policy is to rebalance the asset allocations periodically as deemed necessary to maintain compliance with target ranges. The expected long-term rate of return on assets assumption is estimated based on expected plan returns based upon specific asset allocations, and comparing this to the historical return on plan assets.

Future Contributions

Contributions made to the Plans in fiscal year 2013 were in excess of required amounts. Estimated contributions to be made by OhioHealth into the Plans during fiscal year 2014 are \$44,000,000 based on current actuarial assumptions.

Future Benefit Payments

The benefits expected to be paid by the Plans over the next ten years, as estimated based on the same assumptions used to measure the Corporation's benefit obligation at the end of the year, are as follows

2014	\$ 29,888,000
2015	29,400,000
2016	29,677,000
2017	32,219,000
2018	33,987,000
2019-2023	212,792,000

Effective January 1, 2012, OhioHealth froze entrance for new associates to the largest non-contributory defined benefit pension plan. For associates hired after January 1, 2012, OhioHealth offers a defined contribution savings plan with an annual matching employer contribution and an automatic annual retirement contribution.

Retirement Savings Plans

The Corporation has multiple 403(b) retirement savings plans (the Retirement Plans) which include the OhioHealth Retirement Savings Plan, the Nelsonville Hospital Retirement Savings Plan, the Marion General Hospital Retirement Savings Plan, and the Hardin Memorial Hospital Retirement Savings Plan. All eligible employees who meet certain requirements as to age and length of service are eligible for the employer matching contribution, which is 50% of employee contributions ranging from 2% to 3% of the employee's salary. Expenses incurred in connection with the Retirement Plans were approximately \$15,492,000 and \$13,204,000 for the years ended June 30, 2013 and 2012, respectively.

6. Long-Term Obligations and Notes Payable (continued)

OhioHealth and certain subsidiaries have entered into a Master Trust Indenture and formed the OhioHealth Obligated Group to accomplish common financing plans. The Obligated Group consists of the Corporation, which operates Grant, Riverside, Doctors and the Dublin facilities, and the following nonprofit corporations of which the Corporation is the sole corporate member: Grady, Marion, Hardin and Nelsonville. Pursuant to this Master Trust Indenture, each member of the OhioHealth Obligated Group is jointly and severally obligated with respect to all of the Bond obligations. The terms of the OhioHealth Obligated Group's Master Trust Indenture require the OhioHealth Obligated Group members to, among other things, comply with certain financial ratios and restrict additional encumbrances.

In May 2013, the County of Franklin, Ohio issued, on behalf of the OhioHealth Obligated Group, \$226,000,000 of Hospital Facilities Revenue Refunding and Improvement Bonds, Series 2013. The Series 2013 Bond proceeds were used to finance, through reimbursement of prior capital expenditures, the acquisition, construction, installation and equipping of certain hospital facilities owned and/or operated by the Corporation and its affiliates, and to refund the Series 2003C-1 and 2003C-2 Bonds in the amounts of \$86,350,000 and \$33,145,000, respectively. The Corporation recorded a defeasance loss related to the refunding of Series 2003C-1 and 2003C-2 Bonds of \$1,975,000 in June 2013.

In June 2011, the County of Franklin, Ohio issued, on behalf of the OhioHealth Obligated Group, \$313,765,000 Revenue and Refunding Revenue Bonds consisting of \$130,025,000 Hospital Facilities Revenue Bonds, Series 2011A, \$61,205,000 Hospital Facilities Refunding Revenue Bonds, Series 2011B, \$61,240,000 Hospital Facilities Refunding Revenue Bonds, Series 2011C, and \$61,295,000 Hospital Facilities Refunding Revenue Bonds, Series 2011D. The Series 2011 Bond proceeds were used to finance and refinance, including through reimbursement of prior capital expenditures, the acquisition, construction, installation and equipping of certain hospital facilities owned and/or operated by the Corporation and its affiliates, to refund the Series 2008A Bonds in the amount of \$186,700,000, to terminate a tax-exempt synthetic operating lease and to pay the costs of issuance relating to this financing.

As of June 30, 2013, the Series 2011B bonds were subject to a mandatory tender date of July 9, 2013. These bonds were remarketed on June 26, 2013 with a new mandatory tender date of July 12, 2017. Since these bonds were remarketed prior to the date the financial statements were issued, these bonds are being presented on the June 30, 2013 balance sheet as long-term debt.

As of June 30, 2012, the Series 2011B bonds were subject to a mandatory tender date of July 2, 2012. These bonds were remarketed on July 3, 2012 with a new mandatory tender date of July 9, 2013. Since these bonds were remarketed prior to the date the financial statements

were issued, these bonds are being presented on the June 30, 2012 balance sheet as long-term debt

The OhioHealth Obligated Group's Hospital Facilities Refunding Revenue Bonds, Series 2011C of \$61,240,000, while subject to a long-term amortization period, the bonds are also subject to mandatory tenders in connection with the remarketing date of June 4, 2014 and accordingly are reflected under current liabilities as long-term debt subject to short term remarketing arrangements on the financial statements. To address the possibility that a material amount of these bonds would be tendered to the Corporation, steps have been taken to provide various sources of liquidity in such event, including maintaining unrestricted assets as a source of self-liquidity. In addition, the OhioHealth Obligated Group's Hospital Facilities Refunding Revenue Bonds, Series 2011D of \$61,295,000 are also subject to a mandatory tender to the Corporation on August 1, 2016. The Corporation has taken steps to provide various sources of liquidity.

In February 2009, the County of Franklin, Ohio issued, on behalf of the OhioHealth Obligated Group, \$82,900,000 Demand Hospital Facilities Refunding Revenue Bonds, Series 2009A and \$82,900,000 Demand Hospital Facilities Refunding Revenue Bonds, Series 2009B. The Series 2009A and B Bonds were issued as variable rate demand securities. These Series 2009A and B Bonds are secured by a Standby Bond Purchase Agreement (Liquidity Facility) with an expiration date of February 24, 2014.

The owners of the 2009A and B Bonds have the option to demand payment of their outstanding bond. OhioHealth has entered into a remarketing agreement that requires the remarketing agent to utilize its best efforts to remarket any such bonds that may be tendered for payment. In the event the 2009A and B Bonds cannot be remarketed, or the Standby Bond Purchase Agreement (SBPA) expires without a replacement liquidity facility, the SBPA provides that the liquidity provider will make payment for the 2009A and B Bonds tendered. OhioHealth has an obligation to make payments to the liquidity facility provider in equal quarterly principal installments, the first such installment being payable on the first quarterly business day following the first anniversary of the draw on the facility, such that the draw is paid in full no later than the fifth anniversary of the draw.

Interest costs incurred on the above debt obligations and line of credit agreements in 2013 and 2012 were approximately \$21,444,000 and \$21,104,000, respectively. At June 30, 2013 and June 30, 2012, the Corporation capitalized interest costs of approximately \$1,352,000 and \$415,000, respectively, as part of the cost of various construction projects. Interest paid on the above debt obligations and line of credit agreements was approximately \$20,996,000 and \$20,015,000 for the years ended June 30, 2013 and 2012, respectively.

The fair value of fixed rate long-term debt is estimated using comparable issues in the security market. The fair values of the long-term borrowings at June 30, 2013 and 2012 were approximately \$829,766,000 and \$731,600,000, respectively.

Long-term obligation scheduled principal payments, excluding the lines of credit draw and capital leases, over the next five years are:

2014	\$ 14,425,000
2015	15,255,000
2016	15,785,000
2017	16,865,000
2018	17,650,000

At June 30, 2013, the Corporation had no unsecured revolving lines of credit. In place of the lines of credit the Corporation entered into a commercial paper program of \$100,000,000. There were no borrowings against the commercial paper program at June 30, 2013.

One of the Corporation's joint ventures has an unsecured revolving line of credit with a bank totaling \$500,000. This line of credit is at an interest rate equal to Daily LIBOR plus 250 basis points. The \$500,000 line of credit expires on June 22, 2014. The borrowing against this line of credit was \$260,000 at June 30, 2013.

8. Assets and Liabilities Measured at Fair Value

The following tables present information about the Corporation's assets and liabilities measured at fair value on a recurring basis at June 30, 2013 and June 30, 2012, and the valuation techniques used by the Corporation to determine those fair values

As a basis for considering market participant assumptions in fair value measurements, accounting standards establish a fair value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participants assumptions (unobservable inputs classified within Level 3 of the hierarchy)

In general, fair values determined by Level 1 inputs use quoted prices in active markets for identical assets or liabilities that the Corporation has the ability to access

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets and liabilities in active markets, and other inputs such as interest rates and yield curves that are observable at commonly quoted intervals

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset or liability. Level 3 inputs are estimated by the investment manager in the absence of readily ascertainable market values

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Corporation's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset or liability

unrealized gains and losses on alternative investments are excluded from excess of revenues over expenses. Both observable and unobservable inputs may be used to determine the fair value of positions classified as Level 3 assets and liabilities. As a result, the unrealized gains and losses for these assets and liabilities presented in the tables above may include changes in fair value that were attributable to both observable and unobservable inputs. The Corporation's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no significant transfers between levels of the fair value hierarchy during 2013 and 2012.

Alternative investments are recorded at estimated fair market value, which have been estimated by the investment manager in the absence of readily ascertainable market values.

Investments in Entities that Calculate Net Asset Value per Share

The Corporation holds shares or interests in investment companies at year end where the fair value of the investment held is estimated based on the net asset value per share (or its equivalent) of the investment company. See Note 4.

At June 30, 2013 and 2012, respectively, the fair value, unfunded commitments, and redemption rules of those investments is as follows:

8. Assets and Liabilities Measured at Fair Value (continued)

The multi-strategy hedge fund class invests in hedge funds that pursue multiple strategies to generate investment return, diversify risks and reduce volatility. The fair values of the investments in this class have been estimated using the net asset value per share of the investments.

The real estate funds class includes one real estate fund that invests in U.S. university student housing. The fair values of the investments in this class have been estimated using the net asset value of the company's ownership interest in partners' capital.

The private equity funds class includes two private equity funds. One invests primarily in domestic energy companies and the other invests in European and Asian private companies across a range of industries. The fair values of the investments in this class have been estimated using the net asset value of the company's ownership interest in partners' capital.

Disclosures Regarding Redemption Only Upon Liquidation

The investments in the real estate and private equity classes above can never be redeemed with the funds. Distributions from each fund will be received only as the underlying investments of the funds are liquidated. It is estimated that the underlying assets of the fund will be liquidated over the next 7 to 12 years.
