## Independent Auditor's Report

To the Board of Trustees  
Erikson Institute  
Chicago, Illinois

### Report on the Financial Statements

We have audited the accompanying financial statements of Erikson Institute which comprise the statements of financial position as of June 30, 2013 and 2012, and the related statements of activities and changes in net assets, functional expenses and cash flows for the years then ended, and the related notes to the financial statements

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Erkson Institute as of June 30, 2013 and 2012, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America

**Note 1. Nature of Organization and Significant Accounting Policies**

Erikson Institute (Institute) is an independent institution of higher education located in Chicago, Illinois, that prepares child development professionals for leadership. Through its academic programs, applied research, and community service and engagement, the Institute advances the ability of practitioners and researchers to improve life for children and their families. The Institute is a catalyst for discovery and change, continually bringing the newest scientific knowledge on children's development and learning into its classrooms and out to the community so that professionals serving children and families are informed, inspired and responsive.

**Accounting policies** The Institute follows accounting standards established by the Financial Accounting Standards Board (FASB) to ensure consistent reporting of financial condition, changes in net assets, and cash flows. References to Generally Accepted Accounting Principles (GAAP) in these footnotes are to the *FASB Accounting Standards Codification*<sup>TM</sup>, sometimes referred to as the Codification or ASC.

In order to ensure the observance of limitations and restrictions placed on the use of available resources, the Institute maintains its financial accounts in accordance with the principles and practices of fund accounting. This is the procedure by which resources for various purposes are classified into funds established in accordance with their nature and purpose. For financial reporting purposes, fund balances and related activities of the various funds are classified as unrestricted, temporarily restricted, or permanently restricted based on the existence or absence of donor-imposed restrictions.

The Institute has designated a portion of the unrestricted net assets as an endowment. These funds are reflected in the financial statements as funds functioning as endowment.

**Revenue recognition.** Revenue is recorded on the accrual basis of accounting, whereby revenue is recognized when earned. Tuition revenue is recognized as the classes take place. Student fees and consulting revenue are recognized as the services are provided. Grant and consulting revenue are recognized when the services are provided.

All contributions are considered to be available for unrestricted use unless otherwise specifically restricted by donors. Contributions are recorded and recognized as revenue when a notice of an award or a pledge is received. Restricted contributions are recorded as revenue in temporarily restricted net assets if limited by donor imposed stipulations that either expire by passage of time or can be fulfilled and removed by action of the Institute, or in permanently restricted net assets if such contributions are non-expendable. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

**Expense allocation** The costs of providing various programs and other activities have been summarized on a functional basis in the statement of activities and in the statement of functional expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited, based on estimates made by management.

**Cash.** Cash includes cash on hand, demand deposits and time deposits with original maturities of less than three months.

The Institute maintains funds in accounts that at times are in excess of Federal Deposit Insurance Corporation insurance limits, however, the Institute minimizes this risk by maintaining deposits in high-quality financial institutions. The Institute has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk on cash.

#### Note 1. Nature of Organization and Significant Accounting Policies (Continued)

**Grants receivable:** Grants receivable are reported at their estimated realizable value and recognized as unrestricted revenue at the time the Institute performs the services. Management reviews the receivables for collectability and records an allowance for any accounts deemed uncollectible.

**Contributions receivable.** Contributions receivable are reported at their estimated realizable value and recognized as revenue at the time an unconditional promise to give is received from a donor. If the pledge is receivable over an extended period of time, the present value of the pledge is recorded.

**Investments** Investments in marketable securities held by the Institute are stated at fair value.

Investment income or loss (including gains and losses on investments, interest and dividends) is included in the statement of activities as increases or decreases in unrestricted net assets unless the income or loss is restricted by donor or law.

**Interest rate swap agreement** The Institute's interest rate swap agreement is recognized as either an asset or liability at its fair value in the statement of financial position with changes in the fair value reported as non-operating income or loss. For the years ended June 30, 2013 and 2012, the Institute recognized a gain of \$4,849,419 and a loss of \$7,365,282, respectively, on this instrument.

**Property and equipment.** Property and equipment are recorded at cost. Erikson capitalizes all expenditures for property and equipment in excess of \$5,000. Depreciation is being provided on a straight-line basis over the estimated useful lives of the assets as follows.

Furniture and equipment	10 years
Computer equipment	5 years
Building	39 years

Assets retired or otherwise disposed of are removed from the accounts at their net book value and the gain or loss is recognized as the difference between proceeds, if any, and the net book value. Repairs and maintenance are charged to expense as incurred.

**Unearned tuition and deposits** Tuition and deposits received for classes to be held subsequent to year-end are recorded as an unearned tuition and deposits liability at year-end.

**Fair value of financial instruments** The carrying amounts of financial instruments, including cash, accounts receivable, accounts payable and short-term borrowings approximate fair value due to the short maturity of these instruments. The carrying amount of long-term debt and the swap agreement approximates fair value because the interest rates fluctuate with market interest rates.

**Accounting estimates** The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

**Income taxes.** The Institute is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and applicable state law.

**Note 1. Nature of Organization and Significant Accounting Policies (Continued)**

The accounting standard on accounting for uncertainty in income taxes addresses the determination of whether tax benefits claimed or expected to be claimed on a tax return should be recorded in the financial statements. Under this guidance, the Institute may recognize the tax benefit from an uncertain tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. Examples of tax positions include the tax-exempt status of the Institute and various positions related to the potential sources of unrelated business taxable income. The tax benefits recognized in the financial statements from such a position are measured based on the largest benefit that has a greater than 50 percent likelihood of being realized upon ultimate settlement. There were no unrecognized tax benefits identified or recorded as liabilities during the periods covered by these financial statements.

The Institute files Forms 990 in the U.S. federal jurisdiction and the State of Illinois. The Institute is generally no longer subject to examination by the Internal Revenue Service for tax years before 2010.

**Reclassification** Certain items on the 2012 financial statements have been reclassified to correspond to the 2013 presentation. These reclassifications have no effect on the 2012 change in net assets.

**Subsequent events** Erikson Institute has evaluated subsequent events for potential recognition and/or disclosure through October 17, 2013, the date the financial statements were available to be issued.

**Note 2. Contributions Receivable**

Contributions receivable at June 30, 2013 and 2012 are due as follows:

	2013	2012
Amounts due in less than one year	\$ 3,099,184	\$ 2,718,666
Amounts due in one to five years	3,290,333	3,880,628

Less: Present value discount	(222,178)	(260,537)
	\$ 6,167,339	\$ 6,338,757

The receivables are discounted using a present value discount rate of 3 percent. Significant pledges include those from the Irving Harris Foundation for the Irving B. Harris Excellence Scholarship and for the Capital Campaign.

#### Note 4. Investments (Continued)

Components of investment income at June 30, 2013 and 2012 are as follows

	2013	2012
Net realized and unrealized gains	\$ 5,154,452	\$ 465,802
Interest and dividends	597,132	535,955
Investment fees and expenses	(89,260)	(83,036)
	<u>\$ 5,662,324</u>	<u>\$ 918,721</u>

The Board of Trustees designates only a portion of the Institute's cumulative investment return for support of current operations, the remainder is retained to support operations of future years and to offset potential market declines. The Institute considers the investment earnings allocation from the endowment assets to be operating income, with the remaining investment income recorded as non-operating. These amounts are reflected as investment income (loss) in the statements of activities as follows

	2013	2012
Support and revenue	\$ 1,584,809	\$ 1,497,915
Non-operating revenue (loss)	4,077,515	(579,194)
	<u>\$ 5,662,324</u>	<u>\$ 918,721</u>

#### Note 5. Fair Value Measurements

The Institute follows ASC Topic, Fair Value Measurements and Disclosure, which provides the framework for measuring fair value under generally accepted accounting principles. This Topic applies to all financial instruments that are being measured and reported on a fair value basis. As defined in the Topic, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In determining fair value, the Institute uses various methods including market, income, and cost approaches. Based on these approaches, the Institute often utilizes certain assumptions that market participants would use in pricing the asset or liability, including assumptions about risk and/or the risks inherent in the inputs to the valuation technique. These inputs can be readily observable, market corroborated, or generally unobservable inputs. The Institute utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. Based on the observability of the inputs used on the valuation techniques, the Institute is required to provide the following information according to the fair value hierarchy. The fair value hierarchy ranks the quality and reliability of the information used to determine fair values.

**Note 5. Fair Value Measurements (Continued)**

Financial assets and liabilities carried at fair value will be classified and disclosed in one of the following three categories

Level 1 Valuations for assets and liabilities traded in active exchange markets, such as the New York Stock Exchange. Level 1 assets primarily include listed equities, money market funds, government securities, and mutual funds. Valuations are obtained from readily available pricing sources for market transactions involving identical assets or liabilities.

Level 2 Valuations for assets and liabilities traded in less active dealer or broker markets. Valuations are obtained from third-party pricing services for identical or similar assets or liabilities. Level 2 assets primarily include equities traded in over-the-counter markets.

Level 3 Valuations for assets and liabilities that are derived from other valuation methodologies, including option pricing models, discounted cash flow models and similar techniques, and not based on market exchange, dealer, or broker-traded transactions. Level 3 valuations incorporate certain assumptions and projections in determining the fair value assigned to such assets or liabilities.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Institute's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment.

For fiscal years 2013 and 2012, the application of valuation techniques applied to similar assets and liabilities has been consistent with techniques used in previous years. The valuation methodologies used for instruments at fair value are described below.

Investments in securities traded on a national securities exchange, or reported on the NASDAQ national market, are stated at the last reported sales price on the day of valuation, other securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are stated at the last quoted bid price, except for short sales positions and call options written, for which the last quoted asked price is used. The fair values of the Institute's short-term investments, including cash and cash equivalents approximate their individual carrying amounts due to the relatively short period of time between their origination and expected realization. Restricted securities and other securities for which quotations are not readily available are valued at fair value as determined by the general partner.

Hedge funds and other investments, which generally are investment partnerships, are valued at fair value based on the applicable percentage ownership of the underlying partnerships' net assets as of the measurement date, as determined by the general partner. In determining fair value, the general partner utilizes valuations provided by the underlying investment partnerships. The underlying investment partnerships value securities and other financial instruments on a fair value basis of accounting. The estimated fair values of certain investments of the underlying investment partnerships, which may include private placements and other securities for which prices are not readily available, are determined by the general partner or sponsor of the respective other investment partnership and may not reflect amounts that could be realized upon immediate sale, or amounts that ultimately may be realized. Accordingly, the estimated fair values may differ significantly from the values that would have been used had a ready market existed for these investments. The fair value of the Institute's investment partnerships generally represents the amount the Institute would expect to receive if it were to liquidate its investment in the investment partnerships excluding any redemption charges that may apply. The current partnership has quarterly redemption periods with a 60 day notice period. At June 30, 2013 and 2012, the Institute had \$2,076,116 and \$729,576, respectively, of unfunded commitments related to these investments.

#### Note 5. Fair Value Measurements (Continued)

The following table sets forth the fair value of investments in certain entities that calculate net asset value per share (or its equivalent)

	June 30, 2012 Fair Value	June 30, 2013 Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Investment					
Hedge Funds and other investments					
William Harris Investors	\$ 1,676,465	\$ 2,090,006	\$ -	Quarterly	60 days
Common Sense Long-Biased Offshore, LTD	1,796,493	1,926,724	-	Quarterly	Over 90 days
Blackstone Partners Offshore Fund LTD	4,742,913	5,239,469	-	Quarterly	Over 90 days

These funds include investments in foreign and domestic common stocks and mutual funds. Investments in the category that can be redeemed within 90 days following advanced written notice at the current net asset value per share based on the fair value of underlying assets are classified as Level 2 while the investments in the category that cannot be redeemed within 90 days are classified as Level 3. The fair value of investments in these categories has been estimated using the net asset value per share of the investment.

The Institute assesses the levels of financial instruments at each measurement date, and transfers between levels are recognized on the actual date of the event of change in circumstances that caused the transfer in accordance with the Institute's accounting policy regard recognition of transfers between levels of the fair value hierarchy. There were no such transfers for fiscal 2013 or 2012.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Institute's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the investment.

The Institute's valuation of the interest-rate swap agreement is based on widely-accepted valuation techniques, including discounted cash flow analysis on the expected cash flows of the interest-rate swap agreement. This analysis reflects the contractual terms of the agreement, including the period to maturity, and uses observable market-based inputs, including LIBOR rate curves.

#### Note 7. Long-Term Debt

On December 12, 2007, the Institute entered into a bond trust agreement with the Illinois Finance Authority (IFA) to issue Adjustable Rate Demand Educational Facility Revenue Bonds, Series 2007, for \$32,500,000. The bonds are non-amortizing and have a term of thirty years. These funds were used to construct its building at 451 North LaSalle Street, Chicago, Illinois.

The bonds are secured by a transferable irrevocable letter of credit issued by Bank of America with a maturity date of November 29, 2013. The Institute also has a reimbursement agreement with Bank of America. As collateral, Bank of America has a negative pledge on all business assets of the Institute. Bank of America also requires the Institute to comply with certain financial covenants which are monitored on a quarterly and annual basis.

In order to reduce exposure to adjustable interest rates on variable rate debt, the Institute entered into a 30-year interest rate swap agreement in March 2008. The agreement has the effect of fixing the rate of interest at 3.5 percent for the variable rate debt. The notional amount of the swap agreement at June 30, 2013, is \$32,500,000. The fair value of the swap agreement is the estimated amount that the Institute would pay or receive to terminate the agreement as of the statement of financial position date, taking into account current interest rates and the current creditworthiness of the swap counterparty. As of June 30, 2013 and 2012, the fair value of the interest rate swap agreement was a liability of \$7,145,758 and \$11,995,177 and is presented on the statements of financial position as "Interest rate swap agreement." The Institute recorded a gain in the amount of \$4,849,419 and a loss of \$7,365,282, respectively, for the change in the fair value of the swap agreement, which is presented in the statements of activities as "Interest rate swap fair value adjustment."

#### Note 8. Retirement Plans

Pension expense for the Institute's defined contribution retirement plan was \$425,615 and \$407,945 in fiscal years 2013 and 2012, respectively. The plan covers all employees who have worked one year or were covered by a prior plan, and worked more than 1,000 hours during the year. Under this plan, pension benefits and costs are calculated separately for each participant and are funded currently.

The Institute has a nonqualified 457(b) deferred compensation plan for certain employees. Contributions to the plan are invested under the direction of the individual qualified employee from the same options available for the 403(b) plan. Eligible employees made contributions of \$65,313 and \$66,000 for the fiscal years ended 2013 and 2012, respectively. At June 30, 2013 and 2012, \$895,369 and \$760,970, as of June 30, 2013 and 2012, respectively, were accrued as a liability and set aside in a separate account for this benefit. The Plan is intended to constitute an unfunded plan and all amounts held are allocated to the employer.

#### Note 9. Funds Functioning as Endowment

The Board of Trustees has designated certain amounts of unrestricted revenues to be classified as funds functioning as endowment. The income on these funds will be used to support ongoing operations. As of June 30, 2013 and 2012, these funds were established for the following purposes.

	2013	2012
Facilities	\$ 15,551,232	\$ 14,715,610
General operations	7,010,723	3,363,325
Scholarships	165,449	160,520
	<u>\$ 22,727,404</u>	<u>\$ 18,239,455</u>

#### Note 12. Endowment Funds

##### Interpretation of Relevant Law

The Institute's Board of Trustees has interpreted Uniform Prudent Management of Invested Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Institute classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Institute in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Institute considers the following factors in making a determination to appropriate or accumulate earnings on donor-restricted endowment funds

- 1) The duration and preservation of the fund,
- 2) The purpose of the Institute and the donor-restricted endowment fund,
- 3) General economic conditions,
- 4) The possible effect of inflation and deflation,
- 5) The expected total return from income and the appreciation of investments,
- 6) Other resources of the Institute, and
- 7) The investment policies of the Institute

The Institute's endowment net asset composition by type of fund is as follows for the years ended June 30, 2013 and 2012:

	2013			Total
	Unrestricted	Temporarily Restricted	Permanently Restricted	
Board designated	\$ 22,727,404	\$ -	\$ -	\$ 22,727,404

#### Return Objectives and Risk Parameters

The Institute has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding. Funds functioning as endowment are only released by the Board of Trustees for spending based on organizational spending and investment policies or specifically directed spending in accordance with donor-specified uses. Endowment assets include those assets of donor-restricted funds that the Institute must hold in perpetuity as well as board-designated funds. Under this policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of the various indices set in the investment policy, while assuming a moderate level of investment risk.

**Note 12. Endowment Funds (Continued)**

**Strategies Employed for Achieving Objectives**

To satisfy its long-term rate-of-return objectives, the Institute relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Institute targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

**Spending Policy and How the Investment Objectives Relate to Spending Policy**

The Institute has a policy of appropriating for distribution a percentage of its endowment fund's average fair value over the prior 12 quarters through the calendar year preceding the fiscal year in which the distribution is planned. The policy is coordinated with its investment policy such that over the long-term, its endowment will be able to maintain its purchasing power over time.
