		charity care discount is between 50 and 100% of the patient's annual household income, an additional discount of 25% will be applied to the patient's remaining balance. Minnesota residents
		whose household income is less than \$125,000 may also be eligible for the MN Uninsured Discount for hospital bills PART 1, LINE 6A ESSENTIA HEALTH ST MARY'S MEDICAL CENTER'S community benefit information is consolidated into the Essentia
		Health community benefit information which is included in the Essentia Health annual report. The annual report is made available to the public at www.essentiahealth.org.
		Health, headquartered in Duluth, Minn, is an integrated health system serving patients in Minnesota, Wisconsin, North Dakota and Idaho and is ESSENTIA HEALTH ST MARY'S MEDICAL CENTER'S parent corporation PART I, LINE 7G Not Applicable
		PART I, LINE 7, COLUMN (F) Bad debt expense that was subtracted from total expense to obtain the % of community benefit to total expense amounted to \$13,856,195 PART I,
		LINE 7 The cost to charge ratio derived from Worksheet 2, Ratio of Patient Care Cost-to-Charges was used to calculate the costs for the following community benefits Charity Care and Unreimbursed Medicaid Actual costs were used for the remainder
		of the community benefits reported PART II The majority of the community building activities reported are physician recruitment expenses. The hospital facility is located in a federally-
		designated medically underserved area and as such includes physician recruitment as a community building activity per the recommendation of the Catholic Health Association Community Benefit Guide PART III, LINE 2 Discounts, charity care, and bad
		debt expense are accounted for as reductions to revenue Bad debt expense on patient accounts would be identified as any balance on the account, less any previous payments and
		discounts, that has aged and is absent of any payments. If, during the collection process, it becomes known that the patient qualifies for charity care, the amounts included within bad debt expense would be reclassified to charity care. PART III, LINE 3
		ESSENTIA HEALTH ST MARY'S MEDICAL CENTER engaged 3rd party to analyze the organization's bad debt for the year and identify patient accounts that would qualify for charity care. Once
		Identified, those patient accounts were reclassified to the charity care allowance out of bad debt. Moving into the next fiscal year, ESSENTIA HEALTH ST. MARY'S MEDICAL CENTER will be using a tool that identifies accounts that would qualify for charity.
		care automatically and reclasses those accounts to charity care allowance As a result, we estimate \$0 of patient accounts written off to bad debt would qualify for charity care PART III, LINE 3
		ESSENTIA HEALTH ST MARY'S MEDICAL CENTER is a part of a larger organization, Essentia Health Essentia Health and its member organizations incorporate the cost of bad debt as a community benefit As a tax exempt hospital, we must provide the
		necessary services regardless of the patient's ability to pay for that care In doing so, Essentia Health makes quality patient care available to all in our community, regardless of their economic
		means PART III, LINE 4 The page number of the audit that contains the footnote describing the organization's bad debt expense is page 12 PART III, LINE 8 The methodology used in determining the reported Medicare Allowable Costs begins with
		the hospital's general ledger system The costs are obtained from the general ledger and then adjusted and reported in accordance with Centers for Medicare Services (CMS) "cost finding"
		guidelines as published in their Provider Reimbursement Manual Once the Medicare allowable costs are determined from the hospital's cost report, any costs attributed to subsidized health services, and Medical Education, are removed PART III, LINE 8
		Essentia Health St Mary's Medical Center is a part of a larger organization, Essentia Health Essentia Health and its member organizations incorporate the full value of the Medicare shortfall
		as a community benefit The rationale for the organization's opinion is providing care for the elderly and serving Medicare patients is an essential part of the community benefit standard Medicare, like Medicaid, does not pay the full cost of care and it
		is likely to get worse Many Medicare beneficiaries are poor and are eligible for Medicaid in addition to Medicare Medicare underpayment must be shouldered by the hospital in order to
		continue treating the community's elderly and poor These underpayments represent a real cost of serving the community Part III, Line 8 Each Essentia Health hospital is required to file a Medicare cost report 5 months after the close of their fiscal year
		The cost report provides Medicare with information that is used to determine utilization and spending trends but also is used to set future payment rates for most Medicare services. If the interim
		payments paid to a hospital are higher or lower than the filed cost report allowable reimbursement there will be a settlement for that fiscal year. This can be due to changes in utilization or cost of providing services for Critical Access Hospitals (CAH) or
		differences between interim and final payment factors for Disproportionate Share, Bad Debts, or Indirect Medical Education for non-CAH hospitals. An estimate for these settlements is
		recorded at the close of the fiscal year If the estimate varies from the final settlement received 6-7 months after the fiscal year ends then these amounts are recorded as prior year Medicare revenue Part III, Line 9b The policies and procedures
		for internal and external collection practices take into account the extent to which the patient qualifies for the Community Care Program and financial assistance, a patient's good faith effort to
		apply for a governmental program or for financial assistance from Essentia Health St Mary's Medical Center and the patient's good faith effort to comply with his/her payment agreements Essentia Health St Mary's Medical Center offers extended payment plans
		to eligible patients and will not impose liens on primary residences. Essentia Health St. Mary's Medical Center trains its outside debt collection agencies and attorneys about the Community Care Program and how a patient may obtain more
		information about the Community Care Program or submit an application for Community Care Essentia Health St Mary's Medical Center requires its outside collection agencies and
		attorneys to refer patients who may be eligible for Community Care to Essentia Health St Mary's Medical Center If a patient has submitted application for Community Care after an account
		has been referred for collection activity, Essentia Health St Mary's Medical Center and its outside debt collection agencies suspend all collection activity until the patient's Community Care application has been processed and Essentia Health St Mary's
VI, line 1 cont		Medical Center has notified the patient of its decision Part V, Line 1J The Community Health Needs Assessment also includes a Community Health Profile. The profile is based on data from the Rehavioral Rick Footons Surveillance System and the
		from the Behavioral Risk Factors Surveillance System and the University of Wisconsin Population Health Institute County Health Rankings Part V, Line 3 Three Community/Patient Focus Groups were held for community members to identify and
		prioritize their community health needs. In addition, persons were consulted at Town Hall Meetings, which are the first step in addressing each prioritized health need. During the Town Hall Meeting, intervention options for meeting the health need were
		presented, and participants identified an option for their community. Individuals from the following organizations attended the Town Hall Meeting (names and titles available upon request)

		Line 5a for a list of organizations that were invited to, but did not attend the town hall meetings. Employees of the Minnesota Department of Health, St. Louis County Public Health and Human Services, and the Community Health Board (names and titles
		available upon request) attended the Town Hall Meeting and provided input on the intervention options for addressing the highest priority health need. A wide variety of individuals attended the Community/Patient Focus Groups, including those
		from medically underserved, low-income, and minority populations and populations with chronic disease needs Furthermore, Community/Patient Focus Group participants were
		instructed to consider themselves as representatives of the community-at-large, which would include those previously-listed populations. While 92% of individuals in St. Louis County are Caucasian, data stratified by race/ethnicity were also presented.
		at the Community/Patient Focus Groups Part V, Line 4 Essentia Health St Mary's Medical Center is affiliated with Essentia Health In the interest of efficiency, cost effectiveness, and
		alignment with Essentia Health population health strategies, the hospital facility's CHNA was conducted in a coordinated process with fourteen other Essentia Health hospital facilities While still allowing for tailoring to each particular hospital facility,
		procedures were standardized across hospital facilities. The hospital facilities included in this coordinated process are Essentia Health Ada in Ada, MN, Clearwater Valley Hospital and

		Since Essentia Health West joined the collaborative effort on February 1, 2013, not all aspects of the Essentia Health West CHNA are coordinated with those of the other hospital facilities
		Essentia Health St Mary's Medical Center did and will collaborate more closely with one of the Essentia Health hospital facilities in particular - Essentia Health Duluth in Duluth, MN - by
		holding joint Community/Patient Focus Groups, Town Hall Meetings, and Intervention Planning Meetings. Additional collaboration between the two hospital facilities will occur throughout intervention implementation as the hospital facilities.
		will execute joint interventions for each priority health need. The hospital facility did not collaborate with any other hospital facility outside of the Essentia Health System. Part V, Line 5a The

Part VI, line 2		Needs assessment Describe how the organization assesses the health care needs of the communities it serves, in addition to any needs assessments reported in Part V, Section B In addition to the needs assessment, we assess community health needs through the programs we offer, requests we receive and staff involvement in their own communities. We collaborate with other community organizations such as the United Way, Community Health Care Boards and Community Health Plan Steering Committees and other local organizations in common efforts to address community health care needs. The Essentia Health Primary Care Patient and Family Advisory Council is another mechanism that is used to assess the community health care needs. The goals of the council include the following. I Strengthen communications among patients, families and care givers, and staff 2. Advocate for patient and family centered care. 3. Foster accountability for a health care environment that is safe, accessible and supportive 4. Improve coordination of quality care. 5. Provide input and feedback to Essentia leadership, physicians and staff 6. Facilitate a positive relationship between Essentia Health and the community. Another area that plays a key role in the assessment is the Essentia Health Foundation. Through the foundation's fund raising efforts the Newborn Intensive Care Unit at St. Mary's Medical Center was totally renovated, which enabled Essentia to provide state of the art care to the smallest and most.
Part VI, line 3		Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's Financial Assistance policy. Essentia Health St. Mary's Medical Center has financial assistance packets that contain information about their community care program as well as contact information on other federal and state government programs. These packets are distributed to patients once a financial need has been determined either through patient request or staff referrals. The Financial Assistance policy and application is available on the Essentia Health website at www essentiahealth org. Because financial assistance packets are given to patients when a need is determined, they may be given to the patient at any point (admission, discharge, during the billing process). Essentia Health St. Mary's Medical Center has Patient Account Representatives on staff to assist patients in Medicaid and other assistance programs (including the charity care program) that may be available to them. Contact information for the Patient Account Representatives is available on the Essentia Health website and is also included on the back of the billing statements. All hospital staff has been trained to refer patients to the Patient Account Representatives. The Patient Account Representatives often assist patients with the application process, mailing and follow up.

Part VI, line 6	ReturnReference	If the Organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served Essentia Health St. Mary's Medical Center is part of Essentia Health, an integrated health system of 16 hospitals, 65 clinics, eight long-term care facilities, two assisted living facilities, four independent living facilities in four states. Minnesota, Wisconsin, North Dakota and Idaho. The health system serves a predominantly rural population whose median incomes generally fall below averages of the states where they live. The presence of our clinics and hospitals ensures that people with few economic resources don't have to drive an hour or more to receive basic (and in some cases life-saving) medical care. In addition to staffing hospitals and clinics in federally-recognized underserved areas, we support the health of our communities through an active outreach program that brings specialists like oncologists, cardiologists, neurologists and others into our smaller communities. This eliminates barriers to care for many patients, particularly those who are elderly, living on low incomes, or are faced with other challenges that make it difficult to travel long distances for care. Our size and integrated structure allow us to offer patients services often found only in larger urban settings. Services ranging from chemotherapy to congestive heart failure management and hospice are available to patients in many of the rural communities we serve. Essentia Health also supports the health of our rural communities through active research and clinical trials by the Essentia Institute of Rural Health. The Institute conducts clinical, translational and health services research with a primary focus on the needs of rural Americans. Essentia Health is also serving patients through the use of the Epic electronic health record (EHR). The vast majority of Essentia's sopitals and clinics are using a fully-integrated EHR for patient care. Technolo

Report of Independent Auditors

The Board of Directors Essentia Health

We have audited the accompanying consolidated financial statements of Essentia Health, which comprise the consolidated balance sheets as of June 30, 2013 and 2012, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with US generally accepted accounting principles, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Essentia Health at June 30, 2013 and 2012, and the consolidated results of its operations and changes in net assets and its cash flows for the years then ended, in conformity with U S generally accepted accounting principles

1. Organization (continued)

Essentia's share of net income (loss) on its investments in joint ventures and related organizations is included in excess of revenue and gains over expenses and losses in the accompanying consolidated statements of operations and changes in net assets as follows

	Year Ended June 30					
		2013		2012		
Other operating revenue	\$	1,084	\$	1,153		
Non-operating gains, net		4,590		4,348

Net assets	214,110	205,632	

2. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements represent the consolidated financial position, results of operations, and cash flows of Essentia All significant interaffiliate accounts and transactions have been eliminated in consolidation

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with U S generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the amounts reported in these consolidated financial statements and accompanying notes Estimates also affect the reported amounts of revenue and expenses during the reporting period Although estimates are considered to be fairly stated at the time that the estimates were made, actual results could differ from those estimates

Cash and Cash Equivalents

Cash and cash equivalents include currency on hand, demand deposits with banks or other financial institutions, and short-term investments with maturities of 90 days or less from the date of purchase Cash deposits are federally insured in limited amounts

Short-Term Investments

Short-term investments are stated at fair value and include corporate bonds and notes with maturities of one year or less from the date of purchase, certificates of deposit, and certain mutual funds Short-term investments are available to meet Essentia's operating cash requirements

Accounts Receivable

Accounts receivable are stated at net realizable value. The allowance for uncollectible accounts is based upon management's ongoing assessment of historical and expected net collections for each major payor source considering historical business and economic conditions, trends in health care coverage, and other collection indicators. For receivables associated with services provided to patients who have third-party insurance coverage (including copayment and deductible amounts from patients), Essentia analyzes contractually due amounts and provides an allowance for contractual adjustments and a provision for uncollectible accounts. For receivables associated with private-pay patients, Essentia records a significant provision for uncollectible accounts in the period of service on the basis of its historical experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Summary of Significant Accounting Policies (continued)

Essentia follows established guidelines for placing certain past-due patient balances with collection agencies, subject to certain restrictions on collection efforts as determined by Essentia Accounts are written off when all reasonable internal and external collection efforts have been performed. These adjustments are accrued on an estimated basis and are revised as needed in future periods. The allowance for uncollectible accounts as a percentage of accounts receivable has increased from 22% for the year ended June 30, 2012 to 29% for the year ended June 30, 2013, consistent with industry trends

Inventories

Inventories, including drugs and supplies, are stated at the lower of cost (principally on the first-in, first-out basis) or market

Assets Whose Use Is Limited

Assets whose use is limited are composed primarily of investments held for trading, which are stated at fair value, and include assets designated by the Board of Directors (over which the Board retains control and may, at its discretion, subsequently use for other purposes) for future capital improvements and retirement of debt, investments of EHIS, which was formed as a professional liability funding arrangement, assets held by trustees under indenture agreements for construction and debt service payments, and other assets, which consist of donor-restricted assets provided on behalf of certain members of Essentia

Investment income earned on funds held by the bond trustee is reported as other operating revenue since the interest expense on the related bonds is reported as an operating expense All other investment income (including realized gains and losses on investments, interest, dividends, declines in value determined to be other than temporary, and net change in unrealized gains and losses on trading securities) is reported as non-operating income, other than changes in unrealized gains and losses on other-than-trading securities that are determined to be temporary, which are reported as other changes in unrestricted net assets Realized gains and losses are determined using the specific identification method

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Summary of Significant Accounting Policies (continued)

Essentia reviews its other-than-trading securities for impairment conditions, which could indicate that an other-than-temporary decline in market value has occurred In conducting this review, management considers numerous factors, which include specific information pertaining to an individual company or a particular industry, general market conditions that reflect prospects for the economy as a whole, and the ability and intent to hold the securities until recovery. The carrying value of investments is reduced to its estimated realizable value if a decline in fair value is considered to be other than temporary. The gross unrealized gains from other-than-trading securities at June 30, 2013, were \$122. There were no unrealized losses. At June 30, 2012, gross unrealized gains and losses from other-than-trading securities were \$4 and \$71, respectively. Based on management's analysis, no other-than-temporary loss was recognized during the years ended June 30, 2013 and 2012.

Net unrealized gains on trading securities held at June 30, 2013 and 2012, were \$31,829 and \$17,715, respectively

Derivative Financial Instruments

Essentia uses interest-rate, constant-maturity, fixed-payer, and basis-swap instruments (see Note 9) as part of a risk management strategy to manage exposure to fluctuations in interest rates and to manage the overall cost of its debt Derivatives are used to hedge identified and approved exposures and are not used for speculative purposes

All derivatives are recognized as either assets or liabilities and are measured at fair value Essentia uses pricing models for various types of derivative instruments that take into account the present value of estimated future cash flows. None of the swaps has been designated as a hedge Accordingly, all changes in the fair values of the swaps and the net difference between interest received and paid are reported as non-operating gains or losses in the consolidated statements of operations and changes in net assets

Property and Equipment

Property and equipment are stated at cost, if purchased, or at fair market value on the date received, if donated, less accumulated depreciation and amortization Depreciation is provided on a straight-line basis over estimated useful lives but not for a term in excess of the associated ground leases, if any

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Summary of Significant Accounting Policies (continued)

Maintenance and repairs are charged to expense as incurred Major improvements that extend the useful life of the related item are capitalized and depreciated. The cost and accumulated depreciation of property and equipment retired or disposed of are removed from the related accounts, and any residual value after considering proceeds is charged or credited to income

Intangible Assets

Identifiable intangible assets are amortized on a straight-line basis over a range of 15 to 40 years based on the expected useful lives Deferred financing costs, consisting primarily of underwriting fees and discounts, credit enhancement fees, and legal fees, are amortized using the interest method over the period that the obligation is outstanding

Asset Impairment

Essentia periodically evaluates whether events and circumstances have occurred that may affect the estimated useful life or recoverability of the net book value of property and equipment and the unamortized excess cost over net assets acquired. If such events or circumstances indicate that the carrying amounts may not be recoverable, an impairment loss is recorded based on an undiscounted cash flow analysis

Insurance

The provision for estimated self-insured general and professional liability claims includes estimates of the undiscounted ultimate costs for both reported claims and claims incurred but not reported (IBNR) Most of Essentia's members are self-insured for workers' compensation claims, and the estimated liability is discounted

Costs of Borrowing

Interest incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets For the years ended June 30, 2013 and 2012, capitalized interest totaled \$224 and \$1,060, respectively

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Summary of Significant Accounting Policies (continued)

Charity and Uncompensated Care

Essentia provides health care services to patients who meet certain criteria under its charity care policies without charge or at amounts less than established rates Since Essentia does not pursue collection of these amounts, they are not reported as revenue

EHR Incentive Payments

The American Recovery and Reinvestment Act of 2009 provides for Medicare and Medicaid incentive payments beginning in calendar year 2011 for eligible hospitals and professionals that implement and achieve meaningful use of certified electronic health record (EHR) technology Essentia adopted the gain contingency model to recognize Medicare and Medicaid EHR incentive payments as revenue EHR incentive payments are recognized as other operating revenue when attestation that the EHR meaningful use criteria for the required period of time has been completed and fully demonstrated

Essentia recognized EHR revenue of \$14,337 (consisting of Medicare revenue of \$10,036 and Medicaid revenue of \$4,301) and \$19,917 (consisting of Medicare revenue of \$15,466 and Medicaid revenue of \$4,451) during the years ended June 30, 2013 and 2012, respectively, of which \$1,076 and \$7,591 was receivable at June 30, 2013 and 2012, respectively

Essentia's attestation of compliance with the meaningful use criteria is subject to audit by the federal government or its designee. In addition, Medicare EHR incentive payments received are subject to retrospective adjustment upon final settlement of the applicable cost report from which payment amounts were determined.

Excess of Revenue and Gains Over Expenses and Losses

The consolidated statements of operations and changes in net assets include excess of revenue and gains over expenses and losses Changes in unrestricted net assets, which are excluded from excess of revenue and gains over expenses and losses, include unrealized gains and losses on other-than-trading securities that are determined to be temporary, and pension and other postretirement liability adjustments

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Summary of Significant Accounting Policies (continued)

Donor-Restricted Gifts

Unconditional promises to give cash and other assets to Essentia are reported at fair value at the date the promise is received Conditional promises and indications of intentions to give are reported at fair value at the date the conditions are met

Gifts are reported as temporarily restricted net assets if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction is fulfilled, temporarily restricted net assets are reclassified to other operating income or to an increase in unrestricted net assets in the consolidated statements of operations and changes in net assets depending on whether the donor's restriction was for the purchase of property and equipment or for research and education, respectively. Donor-restricted contributions whose restrictions are met within the same year as received are included directly in operating income or in increase in unrestricted net assets in the accompanying consolidated financial statements

Permanently restricted net assets are held in perpetuity

Deferred Taxes

Essentia records a valuation allowance for deferred tax assets when it is more likely than not that some portion of the deferred tax assets will not be realized. The ultimate realization of these deferred tax assets depends on the ability of the taxable affiliates to generate sufficient taxable income in the future.

Reclassifications

Certain prior year amounts in the consolidated financial statements have been reclassified to conform to the 2013 presentation. These reclassifications had no effect on the change in net assets or net assets as previously reported.

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Summary of Significant Accounting Policies (continued)

Adoption of New Accounting Standard

Effective July 1, 2012, Essentia adopted Accounting Standards Updated (ASU) 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs, which was issued by the Financial Accounting Standards Board in May 2011 The amendments in ASU 2011-04 result in common fair value measurement and disclosure requirements in GAAP and International Financial Reporting Standards (IFRSs) The guidance also changes the wording used to describe many of the requirements in GAAP for measuring fair value and for disclosing information about fair value measurements The adoption of this guidance did not have a material impact on the consolidated financial statements

3. Service to the Community

In the furtherance of its charitable purpose, Essentia provides a wide variety of benefits to the communities it serves, including offering various community-based social service programs, such as free clinics, health screenings, in-home caregiver services, social service and support counseling for patients and families, pastoral care, crisis intervention, transportation to and from the health care campuses, and the donation of space for use by community groups

In addition, a large number of health-related educational programs are provided for the benefit of the community, including health enhancements and wellness, classes on specific medical conditions, unreimbursed costs of medical education, telephone information services, and costs related to programs designed to improve the general health status of the community

Essentia also provides medical care without charge or at a reduced cost primarily through (a) services provided at no charge to the uninsured and (b) services provided to patients expressing a willingness to pay but who are determined to be unable to pay because of socioeconomic factors. The cost of providing charity care is measured by applying an overall cost to charge ratio to the charges incurred. Total cost includes salaries, wages and related benefits, professional fees, supplies, purchased services, repairs and maintenance, and general and administrative expenses. Charity care provided was approximately \$13,400 and \$10,600 for the years ended June 30, 2013 and 2012, respectively

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

4. Net Patient Revenue

Patient service revenue, net of contractual allowances and discounts (but before bad debt), is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered and includes estimated retroactive revenue adjustments due to future audits, reviews, and investigations Differences between amounts originally recorded and finally settled are included in operations in the year in which the differences become known Certain reimbursement arrangements are subject to retroactive audits and adjustments

Essentia derives patient revenue primarily from patients covered under the Medicare and Medicaid programs and agreements with commercial insurers and managed care organizations as well as from private-pay patients. The basis for payment under agreements with commercial insurers and managed care organizations includes prospectively determined rates, discounts from established charges, and allowable cost

Essentia provides care to patients under the Medicare and Medicaid programs and contractual arrangements with other third-party payors. The Medicare and Medicaid programs pay for inpatient and most outpatient services at predetermined rates under a prospective payment system.

Essentia has contracted with Blue Cross and Blue Shield of Minnesota, Wisconsin, and North Dakota (collectively, BCBS) to provide patient care to its members and is reimbursed based on negotiated rates

Essentia has negotiated "total cost-of-care" payor contracts with various health plan payors Under these agreements, Essentia receives a portion of the savings achieved in providing care to enrollees who are attributed to Essentia Attribution to Essentia is based on receiving the majority of care from Essentia providers Some of the contracts also have incentives related to the quality of care delivered

Essentia utilizes a process to identify and appeal settlements by Medicare and other payors Additional reimbursement is recorded in the year the appeal is successful During the years ended June 30, 2013 and 2012, additional revenue due to successful appeals and cost report settlements amounted to approximately \$10,100 and \$8,300, respectively

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

4. Net Patient Revenue (continued)

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. While management believes that Essentia is in material compliance with fraud and abuse laws and regulations, as well as other applicable government laws and regulations, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Changes in reimbursement from the Medicare program, including reduction of funding levels, could have an adverse effect on Essentia.

The mix of patient revenue from patients and third-party payors, net of contractual expense (but before bad debt), for the years ended June 30 is summarized below

		2013	%		2012	%
Medicare	\$	572,180	34%	\$	493,562	32%

Net patient revenue is presented net of Medicare, Medicaid, managed care, and other third-party contractual adjustments of \$1,542,294 and \$1,457,687 for the years ended June 30, 2013 and 2012, respectively

Essentia grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors at June 30 consists of the following

	 2013	2012
Medicare	\$ 59,744	\$ 63,347

Essentia invests in certain alternative investments, principally hedge funds and funds of hedge funds. These investments are accounted for using the equity method. At June 30, 2013 and 2012, Essentia's ownership percentage of alternative investments ranged from 0.03% to 9% and from 0.03% to 11%, respectively. Through these investments, Essentia may be indirectly involved in investment activities such as securities lending, short sales of securities, options, warrants, trading in futures and forward contracts, swap contracts, and other derivative products. Derivatives are used to maintain asset mix or adjust portfolio risk exposure. While these financial instruments may contain varying degrees of risk and have varying degrees of liquidity, mostly ranging from 60 days to 365 days, Essentia's risk is limited to its capital balance in each investment.

5. Investments and Assets Whose Use Is Limited (continued)

Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of certain investments will occur in the near term and that such changes could materially affect the amounts reported in the consolidated financial statements subsequent to year-end

Investment return for the years ended June 30 consists of and was reported in the consolidated statements of operations and changes in net assets as follows

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The disclosure framework consists of a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

6. Fair Value of Financial Instruments (continued)

Essentia's valuation methodologies for assets and liabilities measured at fair value is as follows

- Fair value for Level 1 is based upon quoted market prices
- Fair value for Level 2 is based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets Inputs are obtained from various sources, including market participants, dealers, and brokers
- Fair value for Level 3 is based on unobservable market data, primarily credit valuation adjustments (CVAs) for derivative financial instruments. The fair value is determined by an independent third party utilizing a discounted cash flow methodology for valuing derivative financial instruments. The valuations reflect a credit spread adjustment to the London Interbank Offered Rate (LIBOR) swap curve in order to reflect CVAs for non-performance risk. The credit spread adjustment is derived from other comparably rated entities' bonds priced in the market. As of June 30, 2013 and 2012, Essentia's fair value of swaps included a CVA of \$1,703 and \$3,338, respectively

The methods described above may produce a fair value calculation that is not indicative of net realizable value or reflective of future fair values Furthermore, while Essentia believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date

6. Fair Value of Financial Instruments (continued)

The following table is a rollforward of the consolidated balance sheet amounts for financial instruments classified by Essentia in Level 3 of the valuation hierarchy

	Swap Assets and Liabilities, Net				
Fair value at June 30, 2011	\$ (13,083)				
Realized and unrealized losses, net on swap agreements included					
in excess of revenue and gains over expenses and losses	(11,770)				
Settlements	977				
Fair value at June 30, 2012	(23,876)

in excess of revenue and gains over expenses and losses	3,949				
Settlements	4,099				
Fair value at June 30, 2013	\$ (15,828)				

Carrying amounts of cash and cash equivalents, patient accounts receivable, accounts payable, payable to third-party payors and accrued liabilities are reasonable estimates of fair value due to the short-term nature of these financial instruments

Fair value of fixed rate long-term debt (Level 2) is completed by a third party and based on quoted market prices for these issues or, where such prices are not available, the estimated present value of future cash flows, discounted at interest rates available at the reporting date to Essentia for new debt of similar type and remaining maturity At June 30, 2013 and 2012, the fair value of Essentia's long-term debt was approximately \$605,800 and \$551,300, respectively, compared with its carrying value of \$578,945 and \$519,123 Fair value of variable rate long-term debt (Level 2) approximated its carrying value at both June 30, 2013 and 2012

Essentia's Obligated Group consists of Essentia, CAG, EH East, Essentia Health St Mary's Medical Center, Essentia Health Duluth, The Duluth Clinic, Ltd, Essentia Health Polinsky Medical Rehabilitation Center, Essentia Health St Mary's Hospital – Superior, EH Central, Essentia Health St Joseph's Medical Center, Essentia Health Brainerd Specialty Clinic, Essentia Health St Mary's – Detroit Lakes, St Mary's Innovis Health, and EH West

Certain indebtedness of members of the Obligated Group and related entities is secured by notes issued under the Amended and Restated Master Trust Indenture, dated as of April 1, 1999 (the Master Trust Indenture (MTI)), and related documents, which require Obligated Group members to be jointly and severally obligated for the debt service on all obligations issued thereunder

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

9. Long-Term Debt (continued)

All Obligated Group members have pledged certain unrestricted receivables and certain passthrough obligations for payment of long-term indebtedness issued under the MTI No passthrough obligations were subject to the pledge as of June 30, 2013 Most of the non-Obligated Group's debt is secured by certain assets of the entity that have borrowed the proceeds from the debt issue

In February 2013, Essentia issued non-rated, taxable Senior Secured Notes in the amount of \$159,525 The outstanding Variable Rate Revenue Bonds, Series 2010, in the amount of \$101,305 and certain other revenue bonds totaling \$7,087 were refinanced As a result of the refinancing, Essentia recorded a non-operating loss of \$454

In March 2011, Essentia issued Revenue Bonds, Series 2011, in the amount of \$25,155 The bonds are subject to semiannual interest-only payments until February 2015, at which time the outstanding principal balance becomes due

In February 2010, Essentia restructured a portion of the outstanding Variable Rate Demand Revenue Bonds, Series 2008, which included converting \$234,195 of Series 2008A, Series 2008B, and Series 2008C-1 Variable Rate Demand Bonds to fixed rate bonds with annual interest rates ranging from 3 00% to 5 50%

A portion of the proceeds of various bond issuances and funds available under prior bond indentures that are deemed to be legally defeased have been deposited into escrow accounts and invested in certain U S government obligations, which will be sufficient to pay the principal and interest on refunded bonds

In June 2011, Essentia entered into a long-term master revolving line of credit with a bank under which it may borrow up to an aggregate of \$60,000. The annual interest rate is based on LIBOR plus an applicable margin (1 15% at June 30, 2013). The line of credit terminates in June 2014, at the option of the bank. The line of credit is secured by a note issued under the MTI and is an obligation of the Essentia Obligated Group. As of June 30, 2013, and 2012, there were no amounts outstanding under the line of credit.

Essentia has a revolving line of credit with a bank under which it may borrow up to an aggregate of \$30,000 There were no outstanding borrowings at June 30, 2013 and 2012

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

9. Long-Term Debt (continued)

The aggregate annual maturities of long-term debt, excluding the line of credit, for each of the five years subsequent to June 30, 2013, are as follows

2014	\$ 16,410
2015	41,810
2016	8,800
2017	26,279
2018	15,016

The MTI contains various covenants, including the requirement for the Essentia Obligated Group to maintain certain financial ratios, limit the incurrence of significant additional indebtedness, and limit transfers to non-Obligated Group members

The proceeds of bonds, which were placed in various trust funds to be used in accordance with the applicable indenture provisions, are as follows at June 30

	2013			2012		
Bond interest, principal, and construction funds	\$	3,108	\$	6,426

Certain of Essentia's derivative instruments contain provisions that require Essentia to post collateral when the net liability of the derivative instruments is greater than predetermined thresholds ranging from \$10,000 to \$20,000 No collateral was required at June 30, 2013 or 2012

Derivative transactions contain credit risk in the event the parties are unable to meet the terms of the contract, which is generally limited to the fair value due from counterparties on outstanding contracts. At June 30, 2013 and 2012, the counterparty with fair values due to Essentia had a Standard & Poor's credit quality rating of A-

10. Income Taxes

Deferred tax assets at June 30, 2013 and 2012, relate primarily to depreciation along with federal and state net operating loss (NOL) carryovers. As of June 30, 2013, Essentia had federal NOLs of \$4,332 and state NOLs of \$4,296, expiring in varying amounts through 2033. Due to the operating performance of Essentia's taxable subsidiaries, a full valuation allowance of \$1,894 and \$1,853 has been established at June 30, 2013 and 2012, respectively, since it is more likely than not that none of the deferred tax asset will be realized

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

10. Income Taxes (continued)

The statute of limitations for tax years ended June 30, 2010 through June 30, 2013, remains open to examination by the major U S taxing jurisdictions to which Essentia is subject In addition, for all tax years prior to June 30, 2010, generating an NOL, tax authorities have the right to adjust the amount of the NOL

11. Employee Benefit Plans

Essentia sponsors two defined benefit retirement plans (Defined Benefit Plans), which cover certain groups of Essentia's employees Although the Defined Benefit Plans are closed to new participants, certain plan participants continue to accrue benefits Essentia also provides other postemployment benefits to certain eligible participants, including a partial subsidy for health insurance coverage

A summary of the change in the benefit obligation, the change in plan assets and the resulting funded status, the amounts recognized in the consolidated balance sheets, and the components of net periodic benefit of the Defined Benefit Plans as of June 30 (measurement date) are as follows

	Year Ended June 30

11. Employee Benefit Plans (continued)

Accumulated benefit obligation was \$193,825 and \$195,326 at June 30, 2013 and 2012, respectively

Effective July 1, 2012, Essentia elected to change the amortization period for unrecognized actuarial gains and losses from the average remaining working period to the average future lifetime of plan participants Since over 90% of plan participants are inactive, Essentia believes that the average future lifetime of plan participants provides a better estimate of the amortization expense The change in amortization period, which is considered to be a change in accounting method, has no impact on Essentia's consolidated balance sheet but results in a decrease in future pension expense (\$1,909 for the year ended June 30, 2013)

Changes in plan assets and benefit obligations recognized in unrestricted net assets during the years ended June 30 consist of

	 2013	2012
Current year actuarial (gain) loss Amortization of actuarial loss	\$ (5,954) \$ (3,981)	49,237 (2,887)
Total	\$ (9,935) \$	46,350

Actuarial losses included in unrestricted net assets that have not been recognized in net periodic pension cost at June 30, 2013 and 2012, were \$83,493 and \$93,428, respectively It is expected that actuarial losses recognized in net periodic pension cost during the year ending June 30, 2014, will be \$3,300 Unrecognized actuarial losses are amortized on a straight-line basis

Components of net periodic pension cost for the years ended June 30 are as follows

	 2013	2012
Service cost	\$ 2,770 \$	2,358
Interest cost	10,323	10,529
Expected return on plan assets	(9,542)	(10,036)

The overall weighted average return on plan assets is determined by applying management's judgment to the results of computer modeling, historical trends, and benchmarking data

The Investment Committee of the Defined Benefit Plans, which consists of at least two members of the Board of Directors and a minimum of four staff members, annually reviews and approves the investment policy and asset allocation targets. The Investment Committee activities are supported by an independent investment consulting firm. The investment policy covers responsibilities of the investment managers, investment objectives, asset allocation targets and ranges, asset guidelines, and manager review criteria. The Investment Committee reviews asset allocation quarterly to determine if the current structure is appropriate and whether any changes are necessary. All assets are invested with outside managers.

The current target allocation and the actual asset allocation as of June 30 are as follows

11. Employee Benefit Plans (continued)

Other Plans

Under a collective bargaining agreement, Essentia contributes to a union-sponsored multiemployer retirement plan The risks of participation in these multiemployer plans differ from those of single-employer plans in the following aspects a) assets contributed to the multiemployer plan by one employer may be used to provide benefits to employees of other participating employers, b) if a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers, and c) if Essentia chooses to stop participating in its multiemployer plan and if the plan is underfunded, Essentia may be required to pay those plans an amount based on the underfunded status of the plan, referred to as the withdrawal liability

Essentia's participation in the multiemployer plan for the years ended June 30, 2013 and 2012, is outlined in the table below. The "EIN/Pension Plan Number" column provides the Employee Identification Number (EIN) and the three-digit plan number, if applicable. Unless otherwise noted, the most recent Pension Protection Act zone status available in 2013 and 2012 is for the plan's year-end at December 31, 2012 and 2011, respectively. The zone status is based on information that Essentia received from the plan and is certified by the plan's actuary. Among other factors, plans in the red zone are generally less than 65% funded, plans in the yellow zone are less than 80% funded, and plans in the green zone are at least 80% funded. The "FIP/RP Status Pending/Implemented" column indicates plans for which a financial improvement plan (FIP) or a rehabilitation plan (RP) is either pending or has been implemented. The last column lists the range of expiration dates of various collective-bargaining agreements to which the plans are subject.

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

11. Employee Benefit Plans (continued)

The union-sponsored multiemployer plan was at least 80% funded at December 31, 2012 and 2011 Total amounts expensed under the union-sponsored multiemployer plan were \$3,682 and \$3,652 for the years ended December 31, 2012 and 2011, respectively Essentia is required to make contributions ranging from 3% to 5% of covered employees' gross earnings for the year ending December 31, 2013

At the date Essentia's consolidated financial statements were issued, Form 5500 was not available for the union-sponsored multiemployer plan's year ended December 31, 2012

Substantially all of Essentia's entities have individual defined contribution plans covering most of their employees Contributions are based on a percentage of eligible employees' salaries Total pension expense relating to the union-sponsored multiemployer retirement plan and defined contribution pension plans was \$44,726 and \$43,209 for the years ended June 30, 2013 and 2012, respectively

12. Insurance

EHIS provides insurance coverage to most of Essentia's members (except the critical access hospitals) on a claims-made basis with limits of \$5,000 per claim and \$12,000 in the aggregate per policy year for professional liabilities and \$3,000 per claim and \$6,000 in the aggregate for each policy year for general liabilities Premiums are based on claims experience Essentia's rural critical access hospitals are insured by a commercial insurance policy with a \$25 deductible and limits of \$2,000 per claim and \$6,000 in the aggregate per policy year on a claims-made basis for both professional liability and general liability risks

Essentia has self-funded the estimated value of professional and general liability claims, which amounted to \$26,461 and \$22,063 at June 30, 2013 and 2012, respectively, based on historical data, and includes IBNR claims Essentia has purchased excess professional and general liability insurances from the commercial insurance market with limits totaling \$35,000 per claim and in the aggregate per policy year

Essentia is self-insured for workers' compensation claims, employee health care claims, and unemployment compensation risks, with stop-loss coverage above certain limits.
