Part I, Line 3c: The organization provides medically necessary care to all patients, regardless of race, color, creed, ethnic origin, gender, disability or economic status. The hospital uses a percentage of federal poverty level (FPL) to determine free and discounted care. At a minimum, patients with income less than or equal to 200% of the FPL, which may be adjusted for cost of living utilizing the local wage index compared to the national wage index, will be eligible for 100% charity care write off of charges for services that have been provided to them. Also, at a minimum, patients with incomes above 200% of the FPL but not exceeding 400% of the FPL, subject to adjustments for cost of living utilizing the local wage index compared to national wage index, will receive a discount on the services provided to them.

Part I, Line 7: The cost of providing charity care, means tested government programs, and community benefit programs is estimated using internal cost data, and is calculated in compliance with Catholic Health Association ("CHA") guidelines. The organization uses a cost accounting system that addresses all patient segments (for example, inpatient,

outpatient, emergency room, private insurance, Medicaid, Medicare, uninsured, or self pay). The best available data was used to calculate the amounts reported in the table. For the information in the table, a cost-to-charge ratio was calculated and applied.

Part II: St. Vincent Anderson Regional Hospital promotes the health of its communities by striving to improve the quality of life within the community. Research has established that factors such as economic status, employment, housing, education level, and built environment can all be powerful social determinants of health. Additionally, helping to create greater capacity within the community to address a broad range of quality of life issues also impacts health. St. Vincent Anderson Regional Hospital meets regularly with local organizations in the community to learn what resources are available and plan community health improvement efforts. In fiscal year 2013, these organizations included: American Cancer Society, YMCA, Honor Our Children, Anderson Schools, Madison County Corporation for Economic Development and United Way.

## Schedule H, Part III, Line 2:

After satisfaction of amounts due from insurance and reasonable efforts to collect from the patient have been exhausted, the Corporation follows established guidelines for placing certain past-due patient balances within collection agencies, subject to the terms of certain restrictions on collection efforts as determined by Ascension Health. Accounts receivable are written off after collection efforts have been followed in accordance with the Corporation's policies. After applying the cost-to-charge ratio, the share of the bad debt expense in fiscal

year 2013 was \$7,149,394 at charges, (\$2,058,311 at cost).

Schedule H, Part III, Line 3:

The provision for doubtful accounts is based upon management's assessment of expected net collections considering economic conditions, historical experience, trends in health care coverage, and other collection indicators. Periodically throughout the year, management assesses the adequacy of the allowance for doubtful accounts based upon historical write-off experience by payor category, including those amounts not covered by insurance. The results of this review are then used to make any modifications to the provision for doubtful accounts to establish an appropriate allowance for doubtful accounts.

Part III, Line 4: The organization is part of the St. Vincent Health System's consolidated audit in which the footnote that discusses the bad debt expense is located on page 22.

Part III, Line 8: A cost to charge ratio is applied to the organization's Medicare Expense to determine the Medicare allowable costs reported in the organization's Medicare Cost Report. Ascension Health and its related health ministries follow the Catholic Health Association (CHA) guidelines for determining community benefit. CHA community benefit reporting guidelines suggest that Medicare shortfall is not treated as community benefit.

Part III, Line 9b: The organization has a written debt collection policy that also includes a provision on the collection practices to be

followed for patients who are known to qualify for charity care or financial assistance. If a patient qualifies for charity or financial assistance certain collection practices do not apply.

non-profit healthcare system consisting of 22 locally-sponsored ministries serving over 47 counties throughout Central Indiana. Sponsored by Ascension Health, the nation's largest Catholic healthcare system, St. Vincent Health is one of the largest healthcare employers in the state.

As part of St. Vincent Health, the St. Vincent Anderson Regional Hospital's vision is to deliver a continuum of holistic, high-quality health services and improve the lives and health of Indiana individuals and communities, with special attention to the poor and vulnerable. This is accomplished through strong partnerships with businesses, community organizations, local, state and federal government, physicians, St. Vincent Anderson associates and others. Working with its partners, and utilizing the CHNA completed every three years, St. Vincent Anderson Regional Hospital is committed to addressing community health needs and developing and executing an implementation strategy to meet identified needs to improve health outcomes within the community.

Community benefit is not the work of a single department or group within St. Vincent Anderson Regional Hospital, but is part of the St. Vincent mission and cultural fabric. The hospital leadership team provides direction and resources in developing and executing the Implementation Strategy in conjunction with the St. Vincent Health Community Development Department, but associates at all levels of the organization contribute to community benefit and health improvement.

Charity Care and Certain Other Community Benefits at Cost

**Part VI** Supplemental InformationPatient Services for Poor and Vulnerable

Hospital and outpatient care is provided to patients that cannot pay for services, including hospitalizations, surgeries, prescription drugs, medical equipment and medical supplies. Patients with income less than 200% of the Federal Poverty level (FPL) are eligible for 100% charity care for services. Patients with incomes at or above 200% of the FPL, but not exceeding 400% of the FPL, receive discounted services based on an income-dependent sliding scale. Hospital financial counselors and health access workers assist patients in determining eligibility and in completing necessary documentation. St. Vincent Anderson Regional Hospital is committed to 100% access, and is proactive in providing healthcare that leaves no one behind.

Public Program Participation

St. Vincent Anderson Regional Hospital participates in government programs including Medicaid, SCHIP (Hoosier Healthwise), Healthy Indiana Plan (HIP) and Medicare and assists patients in enrolling for programs for which they are eligible. Per Catholic Health Association guidelines and St. Vincent Health's conservative approach, Medicare shortfall is not included as community benefit.

Community Health Needs Assessment

True community benefit responds to the particular needs and challenges of the community, building on its unique strengths and assets. The hospital leads a community health needs assessment every 3 years. Using a variety of tools, including surveys, key person interviews, focus groups, secondary data, and data analysis professionals, the team

identifies community issues and concerns. These are shared with the community at large, and a consensus is reached about priorities and available resources.

To provide community input and a basis for collaboration within the community to address health needs, St. Vincent leads or participates in a community roundtable or forum. This group brings together individuals and organizations from throughout the community who share a common interest in improving health status and quality of life and provide expertise in a variety of community areas including public health. Obesity, tobacco cessation/substance abuse, mental health and access to primary care have all been identified as key community needs.

**Implementation Strategy**

Using the CHNA completed in 2013, the hospital developed a 2014-2016 Implementation Strategy to address priority community health needs. These strategies include:

**Part VI** Supplemental Information

Hospital is one of eight St. Vincent Health ministries that participate in Rural and Urban Access to Health (RUAH), a community based care coordination program. Effective care coordination provides a strategy for addressing certain social determinants of health by assuring barriers to care are addressed and individuals are connected to critical prevention and treatment services. Central to the program are Health Access Workers whose roles are to connect each hospital to its community by helping individuals address barriers to accessing health care, and referring them to other local resources as needed. Each Health Access Worker assists individuals with finding a medical home; applying for public programs such as Medicaid, food stamps and the Healthy Indiana Plan; and in assessing needs so referrals can be made for other forms of community-based assistance. The Health Access Worker also advocates for clients with service providers and serves as a system navigator. RUAH outcomes are measured using the Pathways Model with 5 defined pathways/protocols (enrollment, medical home, pregnancy, medical referral and social services) as a means of tracking interventions and improving accountability towards positive measurable changes in patients' lives. During fiscal year 2013, the St. Vincent Anderson Regional Hospital Health Access Worker opened 270 pathways and completed 168 pathways.

**Medication Assistance**

In addition to care coordination, RUAH assists patients who meet income guidelines in obtaining free or reduced-cost prescription drugs. St. Vincent Anderson Regional Hospital provides a medication assistant who works with a sophisticated and continually-updated database to track eligibility and requirements that vary by company and by

medication. In 2013, the St. Vincent Anderson medication assistant helped patients obtain a total of 826 medications for which the average wholesale price totaled \$684,564.

**Saint John's Children's Clinic**

Saint John's Children's Clinic serves children from birth to 18 years who do not have insurance and cannot pay for services. The Clinic also provides care for children covered by Medicaid. The Children's Clinic provides immunizations, physicals, care of illnesses and injuries, prescription medications, and referrals for surgery, specialized diagnostic procedures and counseling. Because the Clinic assists children whose families cannot afford medical care, eligibility for services is determined using guidelines similar to those of federal poverty programs. During fiscal year 2013, 2,667 children received medical services and 925 women received medical services through midwives at the Saint John's Children's Clinic at St. Vincent Anderson Regional Hospital.

**Birth Center**

Infant mortality rates are higher for women living in poverty. The infant mortality rate for infants born at poverty level is 13.5 per 1,000 births compared to 8.3 per 1,000 births for infants born to mothers with family incomes above poverty level. As a response to these astounding statistics, St. Vincent Anderson Regional Hospital Birth Center provides free classes to expectant parents and their families. The Birth Center reaches out to any expectant mothers with limited family income. Courses included prenatal care, Lamaze childbirth, and classes for siblings. Personnel also assist expectant mothers in

In fiscal year 2013, approximately 85 families attained services from this program.

## Report of Independent Auditors

The Board of Directors  
St. Vincent Health, Inc.

We have audited the accompanying consolidated financial statements of St. Vincent Health, Inc., which comprise the consolidated balance sheets as of June 30, 2013 and 2012, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

## Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of St. Vincent Health, Inc. at June 30, 2013 and 2012, and the consolidated results of its operations and its cash flows for the years then ended in conformity with U.S. generally accepted accounting principles.

As discussed in Note 1 to the consolidated financial statements, St. Mary's Health, Inc. changed its corporate membership from Ascension Health to St. Vincent Health, Inc.; St. Vincent Health, Inc. retrospectively adjusted its 2012 consolidated financial statements to include the historical operations and historical balances of St. Mary's Health, Inc. for comparative purposes.

As discussed in Note 2 to the consolidated financial statements, St. Vincent Health, Inc. changed the presentation of the provision for bad debts as a result of adopting the amendments to the FASB Accounting Standards Codification resulting from Accounting Standards Update 2011-07, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowances for Doubtful Accounts for Certain Health Care Entities*, effective July 1, 2012.

In addition to serving as the sole corporate member of Ascension Health, Ascension Health Alliance serves as the member or shareholder of various other subsidiaries. Ascension Health Alliance, its subsidiaries, and the Health Ministries are referred to collectively from time to time hereafter as the System.

Ascension Health Alliance is sponsored by Ascension Health Ministries, a Public Juridic Person. The participating entities of Ascension Health Ministries are the Daughters of Charity of St. Vincent de Paul in the United States, St. Louise Province; the Congregation of St. Joseph; the Congregation of the Sisters of St. Joseph of Carondelet; the Congregation of Alexian Brothers of the Immaculate Conception Province – American Province; and the Sisters of the Sorrowful Mother of the Third Order of St. Francis of Assisi – US/Caribbean Province.

The Corporation, located in Indianapolis, Indiana, is a nonprofit acute care hospital system. The Corporation's hospitals provide inpatient, outpatient, and emergency care services for the residents of central and southern Indiana, southeastern Illinois, and western Kentucky. Admitting physicians are primarily practitioners in the local area. The Corporation is related to Ascension Health's other sponsored organizations through common control. Substantially all expenses of Ascension Health are related to providing health care services.

The Corporation is continuing to enhance its development as an integrated health care delivery system through relationships and affiliations with other providers, practitioners, and insurers throughout the states of Indiana and Ohio. In this connection, the Corporation has formed separate affiliation arrangements with Cardinal Health System, Inc. (Delaware County) and Columbus Regional Hospital, Inc. (Bartholomew County) to develop joint services in the communities they commonly serve. In addition, the Corporation entered into an agreement with Cincinnati Children's Medical Center to enhance the pediatric subspecialty services to Peyton Manning Children's Hospital at St. Vincent. The Corporation has also entered into an agreement with the Cleveland Clinic to manage the renal transplant program at the St. Vincent Indianapolis Hospital. None of these affiliations have resulted in significant asset transfers and have not resulted in consolidation of the related entities.

**1. Organization and Mission (continued)**

**Mission**

The System directs its governance and management activities toward strong, vibrant, Catholic Health Ministries united in service and healing and dedicates its resources to spiritually centered care that sustains and improves the health of the individuals and communities it serves. In accordance with the System's mission of service to those persons living in poverty and other vulnerable persons, each Health Ministry accepts patients regardless of their ability to pay. The System uses four categories to identify the resources utilized for the care of persons living in poverty and community benefit programs:

- Traditional charity care includes the cost of services provided to persons who cannot afford health care because of inadequate resources and/or who are uninsured or underinsured.
- Unpaid cost of public programs, excluding Medicare, represents the unpaid cost of services provided to persons covered by public programs for persons living in poverty and other vulnerable persons.
- Cost of other programs for persons living in poverty and other vulnerable persons includes unreimbursed costs of programs intentionally designed to serve the persons living in poverty and other vulnerable persons of the community, including substance abusers, the homeless, victims of child abuse, and persons with acquired immune deficiency syndrome.
- Community benefit consists of the unreimbursed costs of community benefit programs and services for the general community, not solely for the persons living in poverty, including health promotion and education, health clinics and screenings, and medical research.

Discounts are provided to all uninsured patients, including those with the means to pay. Discounts provided to those patients who did not qualify for assistance under charity care guidelines are not included in the cost of providing care of persons living in poverty and community benefit programs. The cost of providing care to persons living in poverty and community benefit programs is estimated using internal cost data and is calculated in compliance with guidelines established by both the Catholic Health Association and the Internal Revenue Service.

St. Vincent Health, Inc.

The amount of unpaid cost of public programs, cost of other programs for persons living in poverty and other vulnerable persons, and community benefit cost are reported in the accompanying supplementary information.

**2. Significant Accounting Policies**

**Principles of Consolidation**

All corporations and other entities for which operating control is exercised by the Corporation or one of its member corporations are consolidated, and all significant inter-entity transactions have been eliminated in consolidation. Investments in entities where the Corporation does not have operating control are recorded under the equity or cost method of accounting. For entities recorded under the equity or cost method of accounting, the following table reflects the Corporation's interest in unconsolidated entities in the consolidated balance sheets, as well as income or loss for such entities included in the consolidated excess of revenues and gains over expenses and losses in the accompanying Consolidated Statements of Operations and Changes in Net Assets.

The Corporation's equity in the net income (loss) of unconsolidated entities is recorded in other operating revenue if the investment relates to providing health care services and is recorded in other nonoperating gains (losses) if the investment relates to activities not related to providing health care services. The Corporation recorded \$20,639 and \$20,741 in other operating revenue for the years ended June 30, 2013 and 2012, respectively. The Corporation recorded \$796 and \$(2,478) in other nonoperating gains (losses) for the years ended June 30, 2013 and 2012, respectively.

The Corporation purchased an equity interest in Indiana Orthopaedic Hospital, LLC effective October 23, 2009, for a purchase price of \$40,000. The transaction resulted in \$37,788 of goodwill. As of July 1, 2010, the remaining goodwill balance of \$36,109 is no longer amortized and is maintained within the investment in unconsolidated entities in the accompanying Consolidated Balance Sheets.

Cash and cash equivalents consist of cash and interest-bearing deposits with original maturities of three months or less.

**Interest in Investments held by Ascension Health Alliance, Investments and Investment Return**

Prior to April 2012, the Corporation held a significant portion of its investments through the Ascension Legacy Portfolio (formerly the Health System Depository, or HSD), an investment pool of funds in which the System and a limited number of nonprofit health care providers participated. The Ascension Legacy Portfolio investments were managed primarily by external investment managers within established investment guidelines. The value of the Corporation's investment in the Ascension Legacy Portfolio represented the Corporation's pro rata share of the Ascension Legacy Portfolio's funds held for participants.

During the year ended June 30, 2012, the CHIMCO Alpha Fund, LLC (Alpha Fund) was created to hold primarily all investments previously held through the Ascension Legacy Portfolio. Catholic Healthcare Investment Management Company (CHIMCO), a wholly owned subsidiary of Ascension Health Alliance, acts as a manager and serves as the principal investment advisor for the Alpha Fund, overseeing the investment strategies offered to the Alpha Fund's members. In April 2012, a significant portion of the assets in the Ascension Legacy Portfolio was transferred to the Alpha Fund, in which Ascension Health Alliance has an investment interest, as a member of the Alpha Fund. Ascension Health Alliance invests funds in the Alpha Fund on behalf of the Corporation. As of June 30, 2013 and 2012, the Corporation has an interest in investments held by Ascension Health Alliance, which is reflected in the Consolidated Balance Sheets, and represents the Corporation's pro rata share of Ascension Health Alliance's investment interest in the Alpha Fund.

The Corporation also invests in cash and short-term investments, U.S. government obligations, corporate obligations, marketable equity securities, international securities, and real estate investments that are locally managed. Most of these funds are held in locally managed foundations where the Corporation has control over foundation assets.

**2. Significant Accounting Policies (continued)**

The Corporation reports its interest in investments held by Ascension Health Alliance in the accompanying Consolidated Balance Sheets as short or long term, based on liquidity needs, which, prior to June 30, 2013, were directed by the Corporation and as of June 30, 2013, are directed by Ascension Health Alliance. The Corporation's interest in investments held by Ascension Health Alliance are also classified based on whether such investments are restricted by law or donors or designated for specific purposes by a governing body of the Corporation. The Corporation reports its other investments, including Foundation investments in the accompanying Consolidated Balance Sheets based upon the long or short term nature of the investments and whether such investments are restricted by law or donors or designated for specific purposes by a governing body of the Corporation.

The Corporation's investments, including its interest in investments held by Ascension Health Alliance, are measured at fair value and are classified as trading securities. The Alpha Fund's and the Ascension Legacy Portfolio's investments that are required to be recorded at fair value are classified as trading securities and include pooled short term investment funds; U.S. government, state, municipal, and agency obligations; corporate and foreign fixed income securities; asset-backed securities; and equity securities. The Alpha Fund's and the Ascension Legacy Portfolio's investments also include alternative investments and other investments, which are valued based on the net asset value of the investments. In addition, the Alpha Fund participates, and the Ascension Legacy Portfolio participated, in securities lending transactions whereby a portion of its investments is loaned to selected established brokerage firms in return for cash and securities from the brokers as collateral for the investments loaned.

Purchases and sales of investments are accounted for on a trade-date basis. Investment returns are comprised of dividends, interest, and gains and losses on the Corporation's investments, as well as the Corporation's return on its interest in investments held by Ascension Health Alliance, and are reported as nonoperating gains (losses) in the Consolidated Statements of Operations and Changes in Net Assets, unless the return is restricted by donor or law.

**Inventories**

Inventories, consisting primarily of medical supplies and pharmaceuticals, are stated at the lower of cost or market value utilizing the first-in, first-out (FIFO) method.

Intangible Assets

Intangible assets primarily consist of goodwill and capitalized computer software costs, including software internally developed. Costs incurred in the development and installation of internal use software are expensed or capitalized depending on whether they are incurred in the preliminary project stage (expensed), application development stage (capitalized), or post-implementation stage (expensed). Intangible assets are included in other noncurrent assets on the Consolidated Balance Sheets and are comprised of the following:

|                                                           | June 30           |                   |

Intangible assets whose lives are indefinite, primarily goodwill, are not amortized and are evaluated for impairment at least annually, while intangible assets with definite lives, primarily capitalized computer software costs and other intangibles, are amortized over their expected useful lives.

Computer software costs are amortized over a range of 3 to 7 years. Other finite life intangibles include lease acquisition costs and assumed contracts and are amortized over a range of 5 to 15 years. Total amortization expense for 2013 and 2012 was \$20,946 and \$20,515, respectively. The five-year amortization of computer software and other finite life intangibles is as follows: 2014 – \$19,005; 2015 – \$16,201; 2016 – \$15,201; 2017 – \$10,772; and 2018 – \$8,325.

**Property and Equipment**

Property and equipment are stated at cost or, if donated, at fair market value at the date of the gift. Depreciation is determined on a straight-line basis over the estimated useful lives of the related assets. Depreciation expense in 2013 and 2012 was \$91,259 and \$80,868, respectively. Additional depreciation expense of \$9,989 related to St. Mary's property and equipment was recorded during 2013 but related to previous years' activity and was an immaterial correction of an error. The Corporation has not restated the prior year consolidated financial statements due to immateriality.

Estimated useful lives by asset category are as follows: land improvements – 10 to 25 years; buildings – 20 to 40 years; and equipment – 3 to 20 years. Interest costs incurred as part of related construction are capitalized during the period of construction. Net interest capitalized in 2013 and 2012 was \$877 and \$175, respectively.

Several capital projects have remaining construction and related equipment purchase commitments of \$20,921 as of June 30, 2013.

The Corporation recognizes the fair value of asset retirement obligations, including conditional asset retirement obligations, if the fair value can be reasonably estimated, in the period in which the liability is incurred. Asset retirement obligations include, but are not limited to, certain types of environmental issues that are legally required to be remediated upon an asset's retirement, as well as contractually required asset retirement obligations. Conditional asset retirement obligations are obligations whose settlement may be conditional on a future event and/or where the timing or method of such settlement may be uncertain. Subsequent to initial recognition, accretion expense is recognized until the asset retirement liability is estimated to be settled.

The Corporation's most significant asset retirement obligation relates to required future asbestos remediation in certain hospital buildings. Asset retirement obligations of \$9,527 and \$9,053 as of June 30, 2013 and 2012, respectively, are recorded in other noncurrent liabilities in the accompanying Consolidated Balance Sheets. During 2013, \$3 of retirement obligations were incurred and settled. Accretion expense of \$477 and \$455 was recorded in 2013 and 2012, respectively.

**Noncontrolling Interest**

The consolidated financial statements include all assets, liabilities, revenue, and expenses of less than 100% owned or controlled entities the Corporation controls in accordance with applicable accounting guidance. Accordingly, the Corporation has reflected a noncontrolling interest for the portion of net assets not owned or controlled by the Corporation separately on the Consolidated Balance Sheets.

**Temporarily and Permanently Restricted Net Assets**

Temporarily restricted net assets are those assets whose use by the Corporation has been limited by donors to a specific time period or purpose. Permanently restricted net assets consist of gifts with corpus values that have been restricted by donors to be maintained in perpetuity, which includes endowment funds. Temporarily restricted net assets and earnings on permanently restricted net assets, including earnings on endowment funds, are used in accordance with the donor's wishes, primarily to purchase equipment and to provide charity care and other health and educational services. Contributions with donor-imposed restrictions that are met in the same reporting period are reported as unrestricted.

**Performance Indicator**

The performance indicator is the excess of revenues and gains over expenses and losses. Changes in unrestricted net assets that are excluded from the performance indicator primarily include pension and other postretirement liability adjustments, transfers to or from sponsors and other affiliates, net assets released from restrictions for property acquisitions, contributions of property and equipment, and other transfers between funds.

**Operating and Nonoperating Activities**

The Corporation's primary mission is to meet the health care needs in its market area through a broad range of general and specialized health care services, including inpatient acute care, outpatient services, long-term care, and other health care services. Activities directly associated with the furtherance of this purpose are considered to be operating activities. Other activities that result in gains or losses peripheral to the Corporation's primary mission are considered to be nonoperating, consisting primarily of investment return and income (loss) from certain unconsolidated joint ventures, offset by grants or donations made to other tax-exempt entities.

**Net Patient Service Revenue, Accounts Receivable, and Allowance for Doubtful Accounts**

Net patient service revenue is reported at the estimated realizable amounts from patients, third-party payors, and others for services provided and includes estimated retroactive adjustments under reimbursement agreements with third-party payors. Revenue under certain third-party payor agreements is subject to audit, retroactive adjustments, and significant regulatory actions. Provisions for third-party payor settlements and adjustments are estimated in the period the related services are provided and adjusted in future periods as additional information becomes available and as final settlements are determined.

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. As a result, there is at least a possibility that recorded estimates will change by a material amount in the near term. Adjustments to revenue related to prior periods increased net patient service revenue by \$11,999 and \$26,248 for the years ended June 30, 2013 and 2012, respectively.

The percentage of net patient service revenue earned by payor for the years ended June 30, 2013 and 2012, is as follows:

|                    | <b>Year Ended June 30</b> |               |

|                    | <b>2013</b>               | <b>2012</b>   |

**2. Significant Accounting Policies (continued)**

The System grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor arrangements. Significant concentrations of accounts receivable, less allowance for doubtful accounts, at June 30, 2013 and 2012, are as follows:

|                    | June 30       |               |
|--------------------|---------------|---------------|
|                    | 2013          | 2012          |
| Medicare           | 18.1%         | 17.7%         |
| Medicaid           | 8.8           | 8.1           |
| HMO/PPO            | 20.6          | 20.6          |
| Blue Cross         | 19.4          | 17.7          |
| Commercial         | 5.5           | 6.1           |
| Self-pay and other | 27.6          | 29.8          |
|                    | <u>100.0%</u> | <u>100.0%</u> |

The provision for doubtful accounts is based upon management's assessment of expected net collections considering economic conditions, historical experience, trends in health care coverage, and other collection indicators. Periodically throughout the year, management assesses the adequacy of the allowance for doubtful accounts based upon historical write-off experience by payor category, including those amounts not covered by insurance. The results of this review are then used to make any modifications to the provision for doubtful accounts to establish an appropriate allowance for doubtful accounts. After satisfaction of amounts due from insurance and reasonable efforts to collect from the patient have been exhausted, the Corporation follows established guidelines for placing certain past-due patient balances with collection agencies, subject to the terms of certain restrictions on collection efforts as determined by Ascension Health. Accounts receivable are written off after collection efforts have been followed in accordance with the Corporation's policies. See Adoption of New Accounting Standards section for change in accounting presentation of provision for doubtful accounts in the accompanying Consolidated Statements of Operations and Changes in Net Assets.

**2. Significant Accounting Policies (continued)**

The Corporation has an agreement to transfer certain patient receivables with recourse to a third party in exchange for cash at a discounted rate. The Corporation is deemed to have retained the risk of ownership of the receivables, which serve as collateral for the cash advanced to the Corporation, and the Corporation continues to reflect the receivables and related liability to the third party on its Consolidated Balance Sheets. As of June 30, 2013 and 2012, receivables subject to this arrangement were \$23,616 and \$24,323, respectively, and are included in other current assets. The Corporation estimates its recourse obligation, which is reflected in accounts payable and other accrued liabilities.

**Hospital Assessment Fee**

The Indiana Hospital Association (IHA) and the Office of Medicaid Policy and Planning (OMPP) worked together to develop and implement a hospital assessment fee program as enacted by the 2011 Session of the Indiana General Assembly. The Centers for Medicare and Medicaid Services (CMS) approved the state plan amendment necessary to implement these changes with an effective date of July 1, 2011. The program continued through June 30, 2013, and has been renewed by the Hospital Assessment Fee Committee, subject to CMS approval, for another four-year period through June 30, 2017. Under this program, OMPP will collect an assessment fee from eligible hospitals (the Medicaid tax). The Medicaid tax will be used in part to increase reimbursement to eligible hospitals for services provided in both fee-for-service and managed care programs and as the state share of disproportionate share hospital (DSH) payments. During 2013 and 2012, the Corporation incurred \$98,748 and \$74,073, respectively, in Medicaid tax under this program, which is reflected in total operating expenses in the accompanying Consolidated Statements of Operations and Changes in Net Assets. The Corporation earned additional Hospital Assessment Fee (HAF) reimbursement of \$147,988 and \$126,488 in 2013 and 2012, respectively, which is reflected in net patient service revenue in the accompanying Consolidated Statements of Operations and Changes in Net Assets.

**Electronic Health Record Incentive Payments**

The American Recovery and Reinvestment Act of 2009 (ARRA) included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act (HITECH). The provisions were designed to increase the use of electronic health record (EHR) technology and establish the requirements for a Medicare and Medicaid incentive payment program beginning in 2011 for eligible providers that adopt and meaningfully use certified EHR technology. Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period. Initial Medicaid incentive payments are available to providers that adopt, implement, or upgrade certified EHR technology. Providers must demonstrate meaningful use of such technology in subsequent years to qualify for additional Medicaid incentive payments.

The Corporation accounts for HITECH incentive payments as a gain contingency. Income from Medicare incentive payments is recognized as revenue after the Corporation has demonstrated that it complied with the meaningful use criteria over the entire applicable compliance period and the cost report period that will be used to determine the final incentive payment has ended. The Corporation recognized revenue from Medicaid incentive payments after it adopted certified EHR technology. Incentive payments totaling \$13,661 and \$4,243 for the years ended June 30, 2013 and 2012, respectively, are included in total operating revenue in the accompanying Consolidated Statements of Operations and Changes in Net Assets. Income from incentive payments is subject to retrospective adjustment as the incentive payments are calculated using Medicare cost report data that is subject to audit. Additionally, the Corporation's compliance with the meaningful use criteria is subject to audit by the federal government.

**Impairment, Restructuring, and Nonrecurring Gains (Losses)**

Long-lived assets are reviewed for impairment whenever events or business conditions indicate the carrying amount of such assets may not be fully recoverable. Initial assessments of recoverability are based on estimates of undiscounted future net cash flows associated with an asset or group of assets. Where impairment is indicated, the carrying amount of these long-lived assets is reduced to fair value based on future discounted net cash flows or other estimates of fair value.

**2. Significant Accounting Policies (continued)**

During the years ended June 30, 2013 and 2012, the Corporation recorded total impairment, restructuring, and nonrecurring (losses) and gains of \$(11,499) and \$69,256, respectively. For the year ended June 30, 2013, this amount was comprised of restructuring and nonrecurring expenses primarily related to severance for reduction in force and other retention payments. For the year ended June 30, 2012, this amount was comprised of long-lived asset impairments of \$(4,887) related to the termination of an information technology service contract and impairment of an office building offset by a nonrecurring pension curtailment gain of approximately \$74,143.

**Income Taxes**

The member health care entities of the Corporation, an Indiana not-for-profit corporation, are primarily tax-exempt organizations under Internal Revenue Code (the Code) Section 501(c)(3) or 501(c)(2), and their related income is exempt from federal income tax under Section 501(a). The Corporation accounts for uncertainty in income tax positions by applying a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return.

At June 30, 2013, the Corporation has a net operating loss carryforward of \$57,840, which results in a deferred tax asset of \$23,613 for federal and state income tax purposes. These losses expire in varying amounts from 2015 through 2032. A valuation allowance has been recorded for the full amount of the deferred asset related to the net operating loss carryforwards due to the uncertainty regarding their use.

SVHCI members have elected, under the applicable provisions of the Code, to be taxed as a partnership, whereby taxable income is taxed directly to the members and not to SVHCI. The allocable share of earnings from SVHCI is also exempt from income tax because it is related to the Corporation's tax-exempt purpose. Accordingly, the consolidated financial statements do not include any provision for federal or state income taxes.

**Regulatory Compliance**

Various federal and state agencies have initiated investigations regarding reimbursement claimed by certain members of the Corporation. The investigations are in various stages of discovery, and the ultimate resolution of these matters, including the liabilities, if any, cannot be readily determined; however, in the opinion of management, the results of these investigations will not have a material adverse impact on the consolidated financial statements of the Corporation.

**Reclassifications**

Certain reclassifications were made to the 2012 accompanying consolidated financial statements to conform to the 2013 presentation. Such reclassifications had no impact on the change in net assets.

**Subsequent Events**

The Corporation evaluates the impact of subsequent events, which are events that occur after the Consolidated Balance Sheet date but before the financial statements are issued, for potential recognition or disclosure in the consolidated financial statements as of the Consolidated Balance Sheet date. For the year ended June 30, 2013, the Corporation evaluated subsequent events through September 13, 2013, representing the date on which the accompanying audited consolidated financial statements were available to be issued. During this period, there were no subsequent events that required recognition or disclosure in the accompanying consolidated financial statements. Additionally, there were no nonrecognized subsequent events that required disclosure.

**Adoption of New Accounting Standards**

In July 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-07, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debt and the Allowance for Doubtful Accounts for Certain Health Care Entities*. ASU 2011-07 requires healthcare entities that recognize significant amounts of patient service revenue at the time services are rendered to present the provision for doubtful accounts related to patient service revenue adjacent to patient service revenue in the Statements of Operations and Changes in Net Assets rather than as operating expense. Additional disclosures relating to sources of patient service revenue and the allowance for doubtful accounts are also required. This new guidance is effective for fiscal years and interim periods within those fiscal years beginning after December 15, 2011.

The Corporation recognizes a significant amount of patient service revenue at the time services are rendered even though the patient's ability to pay is not initially assessed. The Corporation adopted this guidance as of July 1, 2012, and retrospectively applied the presentation requirements to all periods presented. The adoption of this guidance resulted in the reclassification of the Corporation's provision for doubtful accounts for the year ended June 30, 2012, decreasing total operating revenue and total operating expenses before impairment, restructuring and nonrecurring gains (losses), net by \$121,071.

**3. Cash and Cash Equivalents, Interest in Investments Held by Ascension Health Alliance, and Assets Limited as to Use and Other Long-term investments**

At June 30, 2013 and 2012, the Corporation's investments are comprised of its interest in investments held by Ascension Health Alliance and certain other investments, including investments held and managed by the Foundations. Board-designated investments represent investments designated by resolution of the Board of Trustees to put amounts aside primarily for future capital expansion and improvements. Assets limited as to use primarily include investments restricted by donors. **4. Fair Value Measurements**

The Corporation categorizes, for disclosure purposes, assets and liabilities measured at fair value in the consolidated financial statements based upon whether the inputs used to determine their fair values are observable or unobservable. Observable inputs are inputs that are based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about pricing the asset or liability, based on the best information available in the circumstances.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an asset's or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement of the asset or liability. The Corporation's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

The Corporation follows the three-level fair value hierarchy to categorize these assets and liabilities recognized at fair value at each reporting period, which prioritizes the inputs used to measure such fair values. Level inputs are defined as follows:

Level 1 – Quoted prices (unadjusted) that are readily available in active markets or exchanges for identical assets or liabilities on the reporting date.

Level 2 – Inputs other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 pricing inputs include prices quoted for similar assets and liabilities in active markets or exchanges or prices quoted for identical or similar assets and liabilities in markets that are not active. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Significant pricing inputs that are unobservable for the asset or liability, including assets or liabilities for which there is little, if any, market activity for such asset or liability. Inputs to the determination of fair value for Level 3 assets and liabilities require management judgment and estimation.

**4. Fair Value Measurements (continued)**

As of June 30, 2013 and 2012, the Level 2 and Level 3 assets and liabilities listed in the fair value hierarchy tables on the following pages utilize the following valuation techniques and inputs:

*Cash and cash equivalents and short-term investments*

Short-term investments designated as Level 2 investments primarily consist of commercial paper, whose fair value is based on amortized cost. Significant observable inputs include security cost, maturity, and credit rating, interest rate, and par value. Cash and cash equivalents and additional short-term investments include certificates of deposit, whose fair value is based on cost plus accrued interest. Significant observable inputs include security cost, maturity, and relevant short-term interest rates.

*Pooled short-term investment funds*

The fair value of pooled short-term investment funds is based on cost plus guaranteed, annuity contract-based interest rates. Significant unobservable inputs to the guaranteed rate include the fair value and average duration of the portfolio of investments underlying the annuity contract, the contract value and the annualized weighted-average yield to maturity of the underlying investment portfolio.

*U.S. government, state, municipal, and agency obligations*

The fair value of investments in U.S. government, state, municipal, and agency obligations is primarily determined using techniques consistent with the income approach. Significant observable inputs to the income approach include data points for benchmark constant maturity curves and spreads.

*Corporate and foreign fixed income securities*

The fair value of investments in U.S. and international corporate bonds, including commingled funds that invest primarily in such bonds, and foreign government bonds is primarily determined using techniques that are consistent with the market approach. Significant observable inputs include benchmark yields, reported trades, observable broker-dealer quotes, issuer spreads, and security specific characteristics, such as early redemption options.

**4. Fair Value Measurements (continued)**

*Asset-backed securities*

The fair value of U.S. agency and corporate asset-backed securities is primarily determined using techniques consistent with the income approach. Significant observable inputs include prepayment speeds and spreads, benchmark yield curves, volatility measures, and quotes.

*Equity securities*

The fair value of investments in U.S. and international equity securities is primarily determined using the calculated net asset value. The values for underlying investments are fair value estimates determined by external fund managers based on operating results, balance sheet stability, growth, and other business and market sector fundamentals.

*Alternative investments and other investments*

Alternative investments consist of hedge funds, private equity funds, commodity funds, and real estate partnerships. The fair value of alternative investments is primarily determined using techniques consistent with both the market and income approaches, based on the Corporation's estimates and assumptions in the absence of observable market data. The market approach considers comparable company, comparable transaction, and company-specific information, including, but not limited to, restrictions on disposition, subsequent purchases of the same or similar securities by other investors, pending mergers or acquisitions, and current financial position and operating results. The income approach considers the projected operating performance of the portfolio company.

Other alternative investments are valued using net asset values, which approximate fair value, as determined by an external fund manager based on quoted market prices, operating results, balance sheet stability, growth, and other business and market sector fundamentals.

**4. Fair Value Measurements (continued)**

Assets and liabilities classified as Level 1 are valued using unadjusted quoted market prices for identical assets or liabilities in active markets. The Corporation uses techniques consistent with the market approach and income approach for measuring fair value of its Level 2 and Level 3 assets and liabilities. The market approach is a valuation technique that uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The income approach generally converts future amounts (cash flows or earnings) to a single present value amount (discounted).

During the years ended June 30, 2013 and 2012, the changes in the fair value of the foregoing assets measured using significant unobservable inputs (Level 3) were comprised of the following. Transfers in or out of Level 3 are recognized as of the beginning of the reporting period. The balance at July 1, 2011, was \$3,578; purchases, issuances, and settlements were \$559; and transfers into Level 3 were \$334. The balance at July 1, 2012, was \$4,471; purchases, issuances, and settlements were \$1,126; and transfers out of Level 3 were \$493, resulting in an ending balance at June 30, 2013, of \$5,104.

Certain members of Ascension Health Alliance formed the Ascension Health Credit Group (Senior Credit Group). Each Senior Credit Group member is identified as either a senior obligated group member, a senior designated affiliate, or a senior limited designated affiliate. Senior obligated group members are jointly and severally liable under a Senior Master Trust Indenture (Senior MTI) to make all payments required with respect to obligations under the Senior MTI and may be entities not controlled directly or indirectly by Ascension Health Alliance. Though senior designated affiliates and senior limited designated affiliates are not obligated to make debt service payments on the obligations under the Senior MTI, Ascension Health Alliance may cause each senior designated affiliate to transfer such amounts as are necessary to enable the obligated group to comply with the terms of the Senior MTI, including repayment of the outstanding obligations. Additionally, each senior limited designated affiliate has an independent limited designated affiliate agreement and promissory note with Ascension Health Alliance with stipulated repayment terms and conditions, each subject to the governing law of the senior limited designated affiliate's state of incorporation. The Corporation is a senior obligated group member under the terms of the Senior MTI.

Pursuant to a Supplemental Master Indenture dated February 1, 2005, senior obligated group members, which are operating entities, have pledged and assigned to the Master Trustee a security interest in all of their rights, title, and interest in their pledged revenues and proceeds thereof.

**5. Long-Term Debt (continued)**

A Subordinate Credit Group, which is comprised of subordinate obligated group members, subordinate designated affiliates, and subordinate limited designated affiliates, was created under the Subordinate Master Trust Indenture (the Subordinate MTI). The subordinate obligated group members are jointly and severally liable under the Subordinate MTI to make all payments required with respect to obligations under the Subordinate MTI and may be entities not controlled directly or indirectly by Ascension Health Alliance. Though subordinate designated affiliates and subordinate limited designated affiliates are not obligated to make debt service payments on the obligations under the Subordinate MTI, Ascension Health Alliance may cause each subordinate designated affiliate to transfer such amounts as are necessary to enable the obligated group members to comply with the terms of the Subordinate MTI, including payment of the outstanding obligations. Additionally, each subordinate limited designated affiliate has an independent subordinate limited designated affiliate agreement and promissory note with Ascension Health Alliance, with stipulated repayment terms and conditions, each subject to the governing law of the subordinate limited designated affiliate's state of incorporation. The Corporation is a subordinate obligated group member under the terms of the Subordinate MTI.

The borrowing portfolio of the Senior and Subordinate Credit Group includes a combination of fixed and variable rate hospital revenue bonds, commercial paper and other obligations, the proceeds of which are in turn loaned to the Senior and Subordinate Credit Group members subject to a long-term amortization schedule of 1 to 39 years.

Certain portions of Senior and Subordinate Credit Groups borrowings may be periodically subject to interest rate swap arrangements to effectively convert borrowing rates on such obligations from a floating to a fixed interest rate or vice versa based on market conditions. Additionally, Senior and Subordinate Credit Groups borrowings may, from time to time, be refinanced or restructured in order to take advantage of favorable market interest rates or other financial opportunities. Any gain or loss on refinancing, as well as any bond premiums or discounts, are allocated to the Senior and Subordinate Credit Groups members based on their pro rata share of the Senior and Subordinate Credit Groups' obligations. Senior and Subordinate Credit Groups refinancing transactions rarely have a significant impact on the outstanding borrowings or intercompany debt amortization schedule of any individual Senior and Subordinate Credit Group member.

The carrying amounts of intercompany debt with Ascension Health Alliance and other debt approximate fair value based on a portfolio market valuation provided by a third party.

**5. Long-Term Debt (continued)**

The Senior and Subordinate Credit Groups financing documents contain certain restrictive covenants, including a debt service coverage ratio.

As of June 30, 2013, the Senior Credit Group has a line of credit of \$1,000,000, which may be used as a source of funding for unremarketed variable rate debt (including commercial paper) or for general corporate purposes, toward which bank commitments totaling \$1,000,000 extend to November 9, 2014. As of June 30, 2013 and 2012, there were no borrowings under the line of credit.

As of June 30, 2013, the Subordinate Credit Group has a \$75,000 revolving line of credit related to its letters of credit program, toward which a bank commitment of \$75,000 extends to November 27, 2013. As of June 30, 2013, \$49,990 of letters of credit had been extended under the revolving line of credit, although there were no borrowings under any of the letters of credit.

The outstanding principal amount of all hospital revenue bonds is \$5,196,235, which represents 40% of the combined unrestricted net assets of the Senior and Subordinate Credit Groups members at June 30, 2013.

Guarantees are contingent commitments issued by the Senior and Subordinate Credit Groups generally to guarantee the performance of a sponsored organization or an affiliate to a third party in borrowing arrangements such as commercial paper issuances, bond financing, and similar transactions. The term of the guarantee is equal to the term of the related debt, which can be as short as 30 days or as long as 27 years. The maximum potential amount of future payments the Senior and Subordinate Credit Groups could be required to make under its guarantees and other commitments at June 30, 2013, is approximately \$377,000.

During the years ended June 30, 2013 and 2012, interest paid was \$16,426 and \$18,438, respectively. Capitalized interest was \$877 and \$175 for the years ended June 30, 2013 and 2012, respectively.

**6. Pension Plans**

The Corporation participates in the Ascension Health Pension Plan, the Ascension Health Defined Contribution Plan, and the St. Vincent Heart Center of Indiana Retirement Plan. Details of these plans are as follows.

**Ascension Health Pension Plan**

The Corporation participates in the Ascension Health Pension Plan (the Ascension Plan), a noncontributory defined benefit pension plan that covers substantially all eligible employees of certain System entities. Benefits are based on each participant's years of service and compensation. The Ascension Plan's assets are invested in the Ascension Health Master Pension Trust (the Trust), a master trust consisting of cash and cash equivalents, equity, fixed income funds, and alternative investments. The Trust also invests in derivative instruments, the purpose of which is to economically hedge the change in the net funded status of the Ascension Plan for a significant portion of the total pension liability that can occur due to changes in interest rates. Contributions to the Ascension Plan are based on actuarially determined amounts sufficient to meet the benefits to be paid to plan participants. Net periodic pension cost of \$2,252 in 2013 and \$20,417 in 2012 was charged to the Corporation. The service cost component of net periodic pension cost charged to the Corporation is actuarially determined, while all other components are allocated based on the Corporation's pro rata share of Ascension Health's overall projected benefit obligation.

During the year ended June 30, 2012, the System approved and communicated to employees a redesign of associate retirement benefits, which affects the Ascension Plan and provides an enhanced comprehensive defined contribution plan. These changes became effective January 1, 2013. These changes resulted in the Corporation's recognition of a nonrecurring curtailment gain of \$74,143 during the year ended June 30, 2012. These changes also resulted in one-time decreases to the projected benefit obligation of \$89,004. The projected benefit obligation is included in pension and other postretirement liabilities in the Accompanying Consolidated Balance Sheets.

**6. Pension Plans (continued)**

The assets of the Ascension Plan are available to pay the benefits of eligible employees of all participating entities. In the event participating entities are unable to fulfill their financial obligations under the Ascension Plan, the other participating entities are obligated to do so. As of June 30, 2013, the Ascension Plan had a net unfunded liability of \$187,362. The Corporation's allocated share of the Ascension Plan's net unfunded liability reflected in the accompanying Consolidated Balance Sheets at June 30, 2013 and 2012, was \$100,665 and \$104,665, respectively. As a result of updating the funded status of the Plan, Ascension Health transferred an additional pension liability of \$3,742 and \$43,453 to the Corporation during 2013 and 2012, respectively. These transfers are included in pension and other postretirement liability adjustments in the accompanying Consolidated Statements of Operations and Changes in Net Assets.

As of June 30, 2013 and 2012, the fair value of the Ascension Plan's assets available for benefits was \$3,849,706 and \$3,948,293, respectively. As discussed in the Fair Value Measurements note, the Corporation, as well as the System, follows a three-level hierarchy to categorize assets and liabilities measured at fair value. In accordance with this hierarchy, as of June 30, 2013, 21%, 39%, and 40% of the Ascension Plan's assets that were measured at fair value on a recurring basis were categorized as Level 1, Level 2, and Level 3, respectively. With respect to the Ascension Plan's liabilities measured at fair value on a recurring basis, 0%, 0%, and 100% were categorized as Level 1, Level 2, and Level 3, respectively, as of June 30, 2013. Additionally, as of June 30, 2012, 16%, 51%, and 33% of the Ascension Plan's assets that were measured at fair value on a recurring basis were categorized as Level 1, Level 2, and Level 3, respectively. With respect to the Ascension Plan's liabilities measured at fair value on a recurring basis, 6%, 87%, and 7% were categorized as Level 1, Level 2, and Level 3, respectively, as of June 30, 2012.

**Ascension Health Defined Contribution Plan**

The Corporation participates in the Ascension Health Defined Contribution Plan (the Defined Contribution Plan), a contributory and noncontributory, defined contribution plan sponsored by Ascension Health that covers all eligible associates. There are three primary types of contributions to the Defined Contribution Plan: employer automatic contributions, employee contributions, and employer matching contributions. Benefits for employer automatic contributions are determined as a percentage of a participant's salary. These benefits are funded annually, and participants become fully vested over a period of time. Benefits for employer matching contributions are determined as a percentage of an eligible participant's contributions each payroll period. These benefits are funded each payroll period, and participants become fully vested in all employer contributions immediately. Defined contribution expense, representing both employer automatic contributions and employer matching contributions (including the St. Vincent Heart Center of Indiana Retirement Plan amounts), was \$33,250 and \$18,713 for the years ended June 30, 2013 and 2012, respectively.

**St. Vincent Heart Center of Indiana Retirement Plan**

Through September 30, 2012, SVHCI had a defined contribution retirement plan that covered substantially all employees. SVHCI made nonelective contributions that were based on the participating employee's compensation. Employees were immediately vested in this portion of the plan. In addition, SVHCI matched the participating employee's elective 401(k) contributions up to 3% of the employee's compensation. Vesting in SVHCI matching contributions was based on years of service, and such contributions were 100% vested to the employee after five years of service. Effective September 30, 2012, the St. Vincent Heart Center of Indiana Retirement Plan was frozen, all participant balances became fully vested, and the Plan assets were transferred to the Ascension Health Defined Contribution Plan (with the same benefits as the Ascension Health Defined Contribution Plan noted above).

#### 7. Self-Insurance Programs

The Corporation participates in pooled risk programs to insure professional and general liability risks and workers' compensation risks to the extent of certain self-insured limits. In addition, various umbrella insurance policies have been purchased to provide coverage in excess of the self-insured limits. Actuarially determined amounts, discounted at 6%, are contributed to the trusts and the captive insurance company to provide for the estimated cost of claims. The loss reserves recorded for estimated self-insured professional, general liability, and workers' compensation claims include estimates of the ultimate costs for both reported claims and claims incurred but not reported and are discounted at 6% in 2013 and 2012. In the event that sufficient funds are not available from the self-insurance programs, each participating entity may be assessed its pro rata share of the deficiency. If contributions exceed the losses paid, the excess may be returned to participating entities.

#### Professional and General Liability Programs

The Corporation participates in Ascension Health's professional and general liability self-insured program. Professional liability coverage is provided on an occurrence basis through a wholly owned on-shore trust with a self-insured retention of \$250 per occurrence and up to \$7,500 in aggregate in compliance with participation in the Patient Compensation Fund. The Patient Compensation Fund applies to claims in excess of the primary self-insured limit. General liability coverage is provided on a claims-made basis through a wholly owned on-shore trust and offshore captive insurance company, Ascension Health Insurance, Ltd. (AHIL), with a self-insured retention of \$10,000 per occurrence with no aggregate. Excess coverage is provided through AHIL with limits up to \$185,000. AHIL also retains a 20% quota share of the first \$25,000 of umbrella excess. The remaining excess coverage is reinsured by commercial carriers. The Corporation has a deductible of up to \$100 for both professional and general liability claims. One entity obtains professional liability coverage through a commercial policy on a claims-made basis with limits up to \$250 per occurrence and \$750 in aggregate in compliance with participation in the Patient Compensation Fund. The Patient Compensation Fund applies to claims in excess of the primary limit.

For the year ended June 30, 2013, the expense has been reduced by \$5,660 of excess premiums previously retained by Ascension Health's professional and general liability self-insured program which has been returned to the Health Ministry. Included in current and long-term self-insurance liabilities on the accompanying Consolidated Balance Sheets are liabilities for deductibles and reserves for claims incurred but not yet reported of \$5,816 and \$4,664 at June 30, 2013 and 2012, respectively.

**Workers' Compensation**

The Corporation participates in Ascension Health's workers' compensation program, which provides occurrence coverage through a grantor trust. The trust provides coverage up to \$1,000 per occurrence with no aggregate. On July 1, 2012, the Corporation implemented a \$100 deductible, thereby assuming responsibility for indemnity and expenses for each and every claim occurring and reported after that date, up to the deductible amount. The trust provides a mechanism for funding the workers' compensation obligations of its members. Excess insurance against catastrophic loss is obtained through commercial insurers. Premium payments made to the trust are expensed and reflect both claims reported and claims incurred but not reported.

Included in operating expenses in the accompanying Consolidated Statements of Operations and Changes in Net Assets is workers' compensation expense of \$4,672 and \$6,284 for the years ended June 30, 2013 and 2012, respectively. Included in current self-insurance liabilities on the accompanying Consolidated Balance Sheets are workers' compensation loss reserves of \$1,597 and \$0 at June 30, 2013 and 2012, respectively.

At June 30, 2013 and 2012, the liability for such covered medical and dental claims was \$12,235 and \$12,769, respectively, and is included in accounts payable and accrued liabilities in the accompanying Consolidated Balance Sheets.

Rental expense under operating leases amounted to \$63,959 and \$63,101 in 2013 and 2012, respectively.

In May 2003, the Corporation sold various outpatient and professional MOB's to a real estate investment trust (REIT) and contemporaneously leased back certain space in those buildings to support ongoing ministry operations for a period of 12 years with leases extending through 2015. These space leases are being accounted for as operating leases based on their terms, and future minimum lease payments under these leases are included in the amounts reported above. The building sales were accounted for as sale-leaseback transactions, and as such, certain gains on the sales were deferred. As of June 30, 2013 and 2012, net deferred gains of \$502 and \$1,050, respectively, were included in other noncurrent liabilities in the accompanying Consolidated Balance Sheets. These gains are being recognized as operating income over the related leaseback terms. In connection with that sale, the Corporation entered into a long-term ground lease for the property underlying the buildings, whereby the REIT is able to take control of the buildings for 50 years with one 25-year renewal at the option of the REIT.

**9. Related-Party Transactions**

The Corporation utilizes various centralized programs and overhead services of the System or its other sponsored organizations, including risk management, retirement services, treasury, debt management, executive management support, internal audit services, administrative services, biomedical engineering, supply chain, and information technology services. The charges allocated to the Corporation for these services represent both allocations of common costs and specifically identified expenses that are incurred by the System on behalf of the Corporation. Allocations are based on relevant metrics such as the Corporation's pro rata share of revenues, certain costs, debt, or investments to the consolidated totals of the System. The amounts charged to the Corporation for these services may not necessarily result in the net costs that would be incurred by the Corporation on a stand-alone basis. The charges allocated to the Corporation were \$146,224 and \$136,171 for the years ended June 30, 2013 and 2012, respectively.

In addition to the charges discussed above, the Corporation made payments to the System of \$40,841 and \$42,691 for the years ended June 30, 2013 and 2012, respectively, representing the Corporation's share of costs to fund a System-wide information technology and process standardization project that is expected to continue through December 2015. Also, during the years ending June 30, 2013 and 2012, the Corporation transferred cash and investments of \$27,940 and \$6,002, respectively, in support of Ascension Health's strategic initiatives and Sister Services. These payments are included in transfers to sponsor and other affiliates, net, in the accompanying Consolidated Statements of Operations and Changes in Net Assets.

The Corporation purchased \$48,103 and \$31,008 of laboratory services in 2013 and 2012, respectively, from Mid America Clinical Laboratories, LLC (MACL). SVHHS is a 25% owner of MACL.

The Corporation paid \$88 and \$577 to Suburban Health Organization (SHO) in 2013 and 2012, respectively, for items such as physician recruitment dues, third-party administration services, and network development. SHO processed \$30,424 and \$45,303 in claim payments for the Corporation in 2013 and 2012, respectively. SVH is a Class D stockholder of SHO.

The Corporation paid \$1,697 and \$1,688 to NeuroOncology Equipment, LLC (Novalis) in 2013 and 2012, respectively, for rental of equipment. SVHHS is a 50% owner of Novalis.

The Corporation paid \$1,678 and \$1,800 to United Hospital Services, LLC (UHS) in 2013 and 2012, respectively, for laundry services. SVHHS is a 16.7% owner of UHS.

**9. Related-Party Transactions (continued)**

The Corporation paid \$615 to Breast MRI Leasing Company, LLC (Breast MRI) in both 2013 and 2012 for rental of equipment. SVHHS is a 50% owner of Breast MRI.

The Corporation paid \$3,100 and \$2,400 to Orthopaedic Consulting Services, LLC (OCS) in 2013 and 2012, respectively, for management fees. SVHHS is a 5% owner of OCS.

The Corporation paid \$2,435 and \$0 to Women's Services Management, LLC (WSM) in 2013 and 2012, respectively, for management fees. SVHHS is a 5% owner of WSM.

The Corporation participates in a joint venture arrangement for the operation of the Rehabilitation Hospital of Indiana, Inc. (RHI), a free-standing, not-for-profit, comprehensive rehabilitation facility. The Corporation is a 49% owner and guarantees 50% of the outstanding bonds and line of credit amounts (\$8,035 at June 30, 2013), using a supporting letter of credit for payment of principal and interest on certain debt issued on behalf of RHI. The guarantee extends through the term of the debt and expires on November 1, 2020. A long-term liability has been recorded in the accompanying Consolidated Balance Sheets of \$85 and \$90 in 2013 and 2012, respectively, representing the fair value of this guarantee determined using a discounted cash flow analysis. The Corporation also made a working capital loan of \$1,500 to RHI on June 1, 2010.

The Corporation is a 34.5% owner of Advantage Health Solutions, Inc. (Advantage). SVHHS is a 50% guarantor on the minimum statutory net worth requirement with the Indiana Department of Insurance. The guarantee amount was \$4,544 at June 30, 2013; however, because Advantage is well in excess of the minimum statutory net worth requirements, the Corporation estimates the fair value of this guarantee to be zero.

As part of the formation of the Meridian Heights Associates, LLC joint venture with St. Vincent Carmel, St. Vincent Carmel pledged 9.51 acres of land as collateral for the financing of the joint venture. St. Vincent Carmel is a 50% owner of the Meridian Heights Associates, LLC joint venture.

The Corporation provides professional services to some of its joint ventures. The revenue received for these services was \$38,260 and \$41,747 in 2013 and 2012, respectively, and is included in other revenue in the accompanying Consolidated Statements of Operations and Changes in Net Assets.

**10. Contingencies and Commitments**

In addition to professional liability claims, the Corporation is involved in litigation and regulatory investigations arising in the ordinary course of business. In the opinion of management, after consultation with legal counsel, these matters are expected to be resolved without material adverse effect on the Corporation's Consolidated Balance Sheets.

In March 2013, Ascension Health Alliance and some of its subsidiaries were named as defendants to litigation surrounding the Church Plan status of the Ascension Plan. The Corporation does not believe that this matter will have a material adverse effect on the Corporation's consolidated financial position or results of operations.

In September 2010, Ascension Health received a letter from the U.S. Department of Justice (the DOJ) in connection with its nationwide review to determine whether, in certain cases, implantable cardioverter defibrillators were provided to certain Medicare beneficiaries in accordance with national coverage criteria. In connection with this nationwide review, the Corporation will be reviewing applicable medical records for response to the DOJ. The DOJ's investigation spans a time frame beginning in 2004 and extending through the present time. Through September 13, 2013, the DOJ has not asserted any claims against the Corporation. Ascension Health and the Corporation continue to fully cooperate with the DOJ in its investigation.

**10. Contingencies and Commitments (continued)**

The Corporation enters into agreements with nonemployed physicians that include minimum revenue guarantees. These guarantees provide financial incentives to induce physicians to relocate their practices to a health ministry that serves an area with a demonstrated community need. Guarantees are designed to assist a physician in establishing a viable medical practice in a community in order to promote the health of the community. The Corporation agrees to make payments to the physician at the end of specific time periods if the gross receipts generated by the practice do not equal or exceed a specific dollar amount. The Corporation has also entered into agreements with physician groups to provide emergency room, anesthesia, orthopaedic trauma with Orthopaedics Indianapolis, P.C. (80% owner of Indiana Orthopaedic Hospital, LLC), and obstetrics emergency department coverage in areas with a demonstrated community need. The Corporation guarantees to cover the costs of providing coverage if there are not sufficient patient billings that exceed the cost of providing the coverage. The carrying amounts of the liability for the Corporation's obligation under these guarantees were \$41,628 and \$22,557 at June 30, 2013 and 2012, respectively, and are included in noncurrent liabilities in the accompanying Consolidated Balance Sheets. The corresponding deferred charges of \$41,779 and \$22,624 at June 30, 2013 and 2012, respectively, are included in other assets in the accompanying Consolidated Balance Sheets and are amortized to expense over the term of the related guarantee.

The maximum amount of future payments that the Corporation could be required to make under these guarantees is \$91,373. However, the Corporation is entitled to proceeds of receivables collected to offset guarantee amounts paid, which reduces the total maximum guarantee amount.

The Corporation has certain supply commitments totaling \$2,974 at June 30, 2013.
