Est of Bad Debt Exp Attributable to Patients Eligible Under Charity Care	Schedule H, Part III, Section A, Line 3	THE FILING ORGANIZATION RECOGNIZES THAT SOME PATIENTS ARE UNABLE OR UNWILLING TO SEEK FINANCIAL ASSISTANCE DUE TO BARRIERS SUCH AS EDUCATIONAL LEVEL, LITERACY, DOCUMENTATION REQUIREMENTS, OR BEING INTIMIDATED BY THE APPLICATION PROCESS. IN ORDER TO ESTIMATE THE AMOUNT OF THE ORGANIZATION'S BAD DEBT EXPENSE ATTRIBUTABLE TO PATIENTS WHO MAY BE ELIGIBLE FOR FINANCIAL ASSISTANCE BUT HAVE NOT SUBMITTED AN APPLICATION, THE ORGANIZATION ENGAGED PARO DECISION SUPPORT, LLC. PARO CHARITY SCORE IS DESIGNED TO IDENTIFY PATIENTS THAT LIKELY QUALIFY FOR FINANCIAL ASSISTANCE BASED ON A PREDICTIVE MODEL AND OTHER FINANCIAL AND ASSET ESTIMATES FOR THE PATIENT DERIVED FROM PUBLIC RECORD SOURCES. IN ORDER TO ASSESS THE BAD DEBT ACCOUNTS THAT WOULD LIKELY QUALIFY FOR CHARITY CARE, THE FOLLOWING CRITERIA WERE ESTABLISHED BASED ON AN ANALYSIS OF HISTORICAL DATA OF CHRISTUS HEALTH AND ITS RELATED ORGANIZATIONS: 1. PARO SCORE OF LESS THAN OR EQUAL TO 586, WHICH IS A PREDICTOR DEFINING THE LIKELY SOCIOECONOMIC CONDITIONS FOR THE PATIENT; 2. ESTIMATED FEDERAL POVERTY LEVEL OF LESS THAN OR EQUAL TO 226%, WHICH IS BASED ON ESTIMATED HOUSEHOLD SIZE AND HOUSEHOLD ESTIMATED INCOME; AND 3. THIRD PARTY DATA AVAILABLE ON PATIENT ACCOUNTS WHICH INDICATE THAT THE PATIENT IS NOT A HOMEOWNER OR A PROBABLE HOMEOWNER. FOR THE FISCAL YEAR ENDING JUNE 30, 2011, THE ORGANIZATION REPORTED THAT 30% OF BAD DEBT EXPENSES WERE ATTRIBUTABLE TO PATIENTS WHO MAY HAVE BEEN ELIGIBLE FOR FINANCIAL ASSISTANCE BUT WERE NOT RESPONSIVE TO THE APPLICATION PROCESS EXISTING AT THAT TIME. THIS FIGURE WAS BASED ON THE PARO ANALYSIS AND ESTIMATES OF PATIENTS' FINANCIAL NEEDS THAT EXAMINED WHETHER PATIENTS WERE CHARACTERISTIC OF OTHERS WHO HISTORICALLY QUALIFIED FOR ASSISTANCE UNDER THE TRADITIONAL APPLICATION PROCESS. THE PRESUMPTIVE CHARITY CARE ANALYSIS PERFORMED FOR THE PRIOR FISCAL YEAR DETERMINED A BENCHMARK OF BAD DEBT ACCOUNTS IN THE CHRISTUS HEALTH SYSTEM THAT LACKED THE INFORMATION TO QUALIFY FOR CHARITY CARE UNDER THE FILING ORGANIZATION'S CUSTOMARY PROCESS BUT WOULD HAVE LIKELY QUALIFIED FOR ASSISTANCE. DURING THE FISCAL YEAR ENDING JUNE 30, 2013, THE ORGANIZATION UTILIZED THE PARO SCORE TO IDENTIFY THE ACCOUNTS OF INDIVIDUAL PATIENTS THAT WERE LIKELY ELIGIBLE FOR FINANCIAL ASSISTANCE DESPITE HAVING NOT COMPLETED AN APPLICATION, AND SUCH ANALYSIS DETERMINED THAT 27.19% OF SUCH ACCOUNTS WERE LIKELY ELIGIBLE FOR FINANCIAL ASSISTANCE. THE ORGANIZATION GRANTED PRESUMPTIVE ELIGIBILITY FOR THESE ACCOUNTS AND THEY WERE RECLASSIFIED UNDER OUR FINANCIAL ASSISTANCE POLICY. THESE AMOUNTS WERE NOT REPORTED AS BAD DEBT. THE AMOUNT REPORTED ON SCHEDULE H, PART III, LINE 3 IS THE DIFFERENCE BETWEEN THE PRESUMPTIVE CHARITY CARE BENCHMARK ESTABLISHED IN THE FISCAL YEAR ENDING JUNE 30, 2011 AND THE AGGREGATE OF INDIVIDUAL ACCOUNTS FOR WHICH THE ORGANIZATION GRANTED PRESUMPTIVE ELIGIBILITY IN THE FISCAL YEAR ENDING JUNE 30, 2013. THUS, THE ORGANIZATION ESTIMATES THAT ONLY XXX% OF THE BAD DEBT EXPENSES IN FISCAL YEAR ENDING JUNE 30, 2013 ARE ATTRIBUTABLE TO PATIENTS WHO WOULD LIKELY HAVE QUALIFIED FOR FINANCIAL ASSISTANCE. IT IS IMPORTANT TO NOTE THAT THE FIGURE CALCULATED FOR FISCAL YEAR ENDING JUNE 30, 2011 WAS ESTIMATED AND NOT EXACT, AND THEREFORE THE DIFFERENCE BETWEEN THE AMOUNTS QUALIFIED AS PRESUMPTIVE CHARITY CARE IN ANY FISCAL YEAR MAY VARY FROM THE BENCHMARK ESTABLISHED IN FISCAL YEAR ENDING JUNE 30, 2011.
Bad Debt Expense Footnote	Schedule H, Part III, Section A, Line 4	THE FOOTNOTE TO THE CHRISTUS HEALTH CONSOLIDATED FINANCIAL STATEMENTS SAYS, "THE PREPARATION OF THE ACCOMPANYING CONSOLIDATED FINANCIAL STATEMENTS IN CONFORMITY WITH ACCOUNTING PRINCIPLES GENERALLY ACCEPTED IN THE UNITED STATES REQUIRES MANAGEMENT OF THE SYSTEM TO MAKE ASSUMPTIONS, ESTIMATES, AND JUDGMENTS THAT AFFECT THE AMOUNTS REPORTED IN THE FINANCIAL STATEMENTS, INCLUDING THE NOTES THERETO, AND RELATED DISCLOSURES OF COMMITMENTS AND CONTINGENCIES, IF ANY. THE SYSTEM CONSIDERS CRITICAL ACCOUNTING POLICIES TO BE THOSE THAT REQUIRE MORE SIGNIFICANT JUDGMENTS AND ESTIMATES IN THE PREPARATION OF ITS FINANCIAL STATEMENTS, INCLUDING THE FOLLOWING: RECOGNITION OF NET PATIENT REVENUES, WHICH INCLUDE CONTRACTUAL ALLOWANCES, PROVISIONS FOR BAD DEBT, RESERVES FOR LOSSES AND EXPENSES RELATED TO HEALTH CARE PROFESSIONAL AND GENERAL LIABILITIES, DETERMINATION OF FAIR VALUES OF CERTAIN FINANCIAL INSTRUMENTS, DETERMINATION OF FAIR VALUE OF CERTAIN GOODWILL AND LONG-LIVED ASSETS, AND RISKS AND ASSUMPTIONS FOR MEASUREMENT OF PENSION AND RETIREE MEDICAL LIABILITIES. MANAGEMENT RELIES ON HISTORICAL EXPERIENCE AND ON OTHER ASSUMPTIONS BELIEVED TO BE REASONABLE UNDER THE CIRCUMSTANCES IN MAKING ITS JUDGMENT AND ESTIMATES. ACTUAL RESULTS COULD DIFFER MATERIALLY FROM THESE ESTIMATES."

ROOTED IN OUR MISSION AND TRADITION, THE FOUNDERS AND SPONSORS OF CHRISTUS HEALTH AND THOSE WHO CO-MINISTER WITH THEM SEEK NEW AND INNOVATIVE WAYS OF DELIVERING QUALITY HEALTH CARE THAT IS BOTH AFFORDABLE AND ACCESSIBLE TO ALL. TODAY, MORE THAN EVER, WE MUST AIM TO IMPROVE THE TOTAL HEALTH STATUS OF THE COMMUNITY THROUGH PROGRAMS THAT PLACE OUR SERVICES WHERE THEY ARE NEEDED MOST, WITH SPECIAL ATTENTION AND PREFERENCE GIVEN TO PROGRAMS THAT SUPPORT AND BENEFIT THE HEALTH AND WELFARE OF THE POOR AND UNDERSERVED. COMMUNITY SERVICES FOR THE POOR AND UNDERSERVED REPRESENT THE UNPAID COST OF SERVICES PROVIDED FOR WHICH A PATIENT IS NOT BILLED, OR FOR WHICH A FEE HAS BEEN ASSESSED THAT RECOVERS ONLY A PORTION OF THE COST OF THE RENDERED SERVICE. THIS CATEGORY INCLUDES INITIATIVES THAT REACH OUT TO THOSE IN NEED THROUGH COMMUNITY HEALTH AND SOCIAL PROGRAMS. THESE PROGRAMS SEEK JUSTICE FOR THE VULNERABLE AND WORK TO BRING ABOUT CHANGES IN OUR POLITICAL AND ECONOMIC SYSTEMS. THE PROGRAMS COVER A BROAD SPECTRUM OF SERVICES FROM CHARITY CLINICS TO IMMUNIZATIONS FOR CHILDREN AND SENIORS, AND A VARIETY OF OTHER SOCIAL SERVICES. ST VINCENT HOSPITAL PROVIDES MEDICATION ASSISTANCE FOR COMMUNITY RESIDENTS WHO ARE UNABLE TO AFFORD THE MEDICATIONS THEY NEED. THE HOSPITAL WORKS WITH COMMUNITY PHARMACIES AND OTHER PHARMACEUTICAL COMPANIES TO IDENTIFY THESE PATIENTS AND THEN DISTRIBUTE THE NEEDED MEDICATIONS TO THEM. PROGRAM SERVICE EXPENSE = \$1,952,119. COMPENSATION DETERMINATION PROCESS	FORM 990, PART VI, QUESTIONS 15A & 15B	THE EXECUTIVE COMPENSATION COMMITTEE OF CHRISTUS HEALTH DETERMINES THE COMPENSATION OF THE CEO (OR EXECUTIVE DIRECTOR, AS APPLICABLE), OFFICERS AND KEY EMPLOYEES OF CHRISTUS HEALTH, ITS RELATED ORGANIZATIONS AND ORGANIZATIONS FOR WHICH IT IS A MEMBER, INCLUDING ST VINCENT HOSPITAL. THE EXECUTIVE COMPENSATION COMMITTEE IS COMPOSED OF INDIVIDUALS WHO HAVE NO CONFLICT OF INTEREST WITH THE COMPENSATION ARRANGEMENTS AT HAND. THE EXECUTIVE COMPENSATION COMMITTEE OF THE CHRISTUS HEALTH BOARD SELECTS AN INDEPENDENT EXTERNAL FIRM TO PERFORM AN INDEPENDENT COMPENSATION REVIEW, TO ENSURE THAT ALL COMPENSATION IS REASONABLE AND COMPARABLE TO OTHER SIMILARLY SITUATED ORGANIZATIONS, FOR SIMILARLY QUALIFIED PERSONS IN FUNCTIONALLY COMPARABLE POSITIONS, AND TO PROVIDE SUPPORTING INFORMATION OF COMPENSATION DECISIONS. ON AN ANNUAL BASIS THE EXTERNAL CONSULTANT 1 DEVELOPS THE MERIT INCREASE RECOMMENDATIONS FOR ALL DESIGNATED SYSTEM EXECUTIVES BASED ON MARKET COMPARABILITY. 2 RECOMMENDS THE CHANGES IN THE COMPENSATION STRUCTURE (GRADES) BASED ON THE MARKET CHANGES. 3 COMPLETES A REVIEW AND EVALUATION OF NEWLY CREATED POSITIONS TO RECOMMEND A GRADE PLACEMENT TO THE COMMITTEE FOR ITS DISCUSSION AND APPROVAL. ON A BI-ANNUAL BASIS, THE EXTERNAL CONSULTANT COMPLETES A DETAILED REVIEW OF ALL OTHER DESIGNATED SYSTEM EXECUTIVES' COMPENSATION AND BENEFITS. THIS GROUP INCLUDES ALL TOP MANAGEMENT OFFICIALS, OTHER OFFICERS AND KEY LEADERS OF THE ORGANIZATION. THE REVIEW INCLUDES RECOMMENDATIONS TO THE COMMITTEE ON ANY CHANGES NECESSARY IN EITHER SPECIFIC COMPENSATION OR COMPENSATION STRUCTURE TO ENSURE MARKET COMPETITIVENESS, REASONABLENESS AND INTERNAL EQUITY. UPON RECOMMENDATIONS FROM THE INDEPENDENT EXTERNAL FIRM, THE EXECUTIVE COMPENSATION COMMITTEE MAKES FINAL COMPENSATION DECISIONS. Report of Independent Auditors

The Board of Directors
CHRISTUS Health

We have audited the accompanying consolidated financial statements of CHRISTUS Health, which comprise the consolidated balance sheets as of June 30, 2013 and 2012, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U S generally accepted accounting principles, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of CHRISTUS Health at June 30, 2013 and 2012, and the consolidated results of its operations and changes in net assets and its cash flows for the years then ended, in conformity with U S generally accepted accounting principles

Adoption of Accounting Standards Updated (ASU) No. 2011-07, Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities

As discussed in Note 3 to the consolidated financial statements, the System changed the presentation of the provision for bad debts as a result of the adoption of ASU No 2011-07, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities*, effective July 1, 2012

CHRISTUS Health

Notes to Consolidated Financial Statements

June 30, 2013

1. Mission, Vision, and Organization of CHRISTUS Health

CHRISTUS Health was incorporated as a Texas nonprofit corporation on December 15, 1998. CHRISTUS Health (CHRISTUS or the System) is sponsored by the Congregation of the Sisters of Charity of the Incarnate Word of Houston, Texas, and the Congregation of the Sisters of the Charity of the Incarnate Word of San Antonio, Texas. The Congregation of the Sisters of Charity of the Incarnate Word of Houston, Texas, sponsors the Sisters of Charity Health Care System (SCH), and the Congregation of the Sisters of Charity of the Incarnate Word of San Antonio, Texas, sponsors the Incarnate Word Health System (IWHS). SCH and IWHS continue to exist and carry out their ministries.

The mission of CHRISTUS is to extend the healing ministry of Jesus Christ. The Gospel values underlying the mission statement challenge CHRISTUS to make choices that respond to the economically disadvantaged and the underserved with health care needs. The growth and development of CHRISTUS are determined by the health care needs of the communities that CHRISTUS serves, its available resources, and the interrelationship of those serving and those being served. Responsible stewardship mandates that CHRISTUS searches out new, effective means to deliver quality health care and to promote wholeness in the human person.

The vision of CHRISTUS is to be a leader, a partner, and an advocate in the creation of innovative health and wellness solutions that improve the lives of individuals and communities so that all may experience God's healing presence and love.

The consolidated financial statements of CHRISTUS include activities of its affiliated market-based organizations and other related entities, all of which are wholly or majority-owned and commonly referred to as regions or entities. For purposes of these consolidated financial statements, the "System" is defined as CHRISTUS's affiliated market-based organizations and other related entities. The other related entities include, but are not limited to, hospital foundations, professional office buildings, management services organizations, physician groups, outpatient surgery centers, a collection agency, self-insurance trusts, an offshore captive insurance company, health plans, integrated community health networks, and diagnostic imaging companies.

CHRISTUS controls or owns, directly or indirectly, or manages various nonprofit and for-profit corporations and other organizations that currently operate in the states of Texas, Arkansas, Georgia, Louisiana, Missouri, New Mexico, Iowa, the country of Chile, and in the Republic of Mexico.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

1. Mission, Vision, and Organization of CHRISTUS Health (continued)

CHRISTUS and certain affiliated nonprofit corporations are generally exempt from federal income taxes under Section 501(a) of the Internal Revenue Code, as organizations described in Section 501(c)(3)

2. Community Health

In accordance with its mission and philosophy, the System commits significant resources to improving the health of the communities it serves. In support of its mission, the System provides programs and services for entire communities, with a special consideration for those who are poor and underserved.

Programs and Services for the Poor and Underserved – These programs and services represent the financial commitment to serve those who have inadequate resources and/or are uninsured or underinsured. Services are offered with the conviction that health care is a basic human right and all deserve access. The categories included as programs and services for the poor and the underserved are as follows:

Charity Care – In accordance with the Catholic Health Association (CHA) guidelines, charity care represents the unpaid costs of free or discounted health services provided to persons who cannot afford to pay and who meet the organization's criteria for financial assistance. Traditional charity care is defined by the state of Texas as the unreimbursed costs of providing, funding, or otherwise financially supporting the health care services provided to a person with income at or below 200% of the federal poverty level. Charity care services provided to these patients are not reported as revenue in the consolidated statements of operations and changes in net assets as there is no expectation of payment. The amount of traditional charity care provided, determined on the basis of cost, excluding the provision for bad debt expense, was approximately \$195,839,000 and \$168,645,000 for the years ended June 30, 2013 and 2012, respectively.

Unpaid Costs of Medicaid and Other Public Programs for the Indigent – This category represents the cost of providing services to beneficiaries of public programs, including state Medicaid and indigent care programs, in excess of any payments received from all sources.

Notes to Consolidated Financial Statements (continued)

2. Community Health (continued)

Community Services for the Poor and Underserved – This category represents the unpaid cost of services provided for which a patient is not billed, or for which a fee has been assessed that recovers only a portion of the cost of the rendered service. This category includes services to those in need through community health programs. The programs cover a broad spectrum of services, from community health centers to immunizations for children and seniors, Meals on Wheels, transportation services, home repair projects, and a variety of other social services. These programs may also seek justice for the vulnerable and work to bring about changes in political and economic systems.

Examples of CHRISTUS Community Benefits accounted for under Community Services for the Poor and Underserved include:

- The CHRISTUS Community Direct Investment (CDI) Program was established to support community-driven initiatives primarily for affordable housing and economic development by providing financing at below-market interest rates. The majority of the support is provided to programs in the CHRISTUS operating regions. The amount the System would have earned on these monies is the forgone income that is considered a community benefit.
- The CHRISTUS Fund was established for the purpose of providing grants to support community planning, healthy community initiatives, and community-based programs, with a focus on the poor and underserved areas where CHRISTUS ministries and sponsoring congregations are involved.

Community Services Provided for the Broader Community – This category represents the unpaid cost of services provided for the benefit of the entire community. The majority of these expenditures are for graduate medical education programs, either through CHRISTUS-sponsored or affiliated programs. Other benefits for the broader community include health promotion and wellness programs, health screenings, newsletters, and radio or television programs intended for health education. These programs are not intended to be financially self-supporting.

Education and Research – This category represents the direct costs associated with medical education and other health professional educational programs in excess of governmental payments.

Other Community Services – This category represents leadership activities, community planning, and advocacy.

3. Summary of Significant Accounting Policies

Basis of Consolidation

The consolidated financial statements include the accounts of all entities of the System (see Note 1) All significant inter-entity transactions and accounts have been eliminated in consolidation

Use of Estimates

The preparation of the accompanying consolidated financial statements in conformity with accounting principles generally accepted in the United States requires management of the System to make assumptions, estimates, and judgments that affect the amounts reported in the financial statements, including the notes thereto, and related disclosures of commitments and contingencies, if any The System considers critical accounting policies to be those that require more significant judgments and estimates in the preparation of its financial statements, including the following recognition of net patient service revenues, which include contractual allowances and the provision for bad debt, reserves for losses and expenses related to health care professional and general liabilities, determination of fair values of certain financial instruments, determination of fair value of certain goodwill and long-lived assets, and risks and assumptions for measurement of pension and retiree medical liabilities Management relies on historical experience and on other assumptions believed to be reasonable under the circumstances in making its judgments and estimates Actual results could differ materially from these estimates

Cash and Cash Equivalents

Cash equivalents include short-term, highly liquid investments with original maturities of three months or less

Investments

The System's investment portfolio is classified as trading, with unrealized gains and losses included in revenues in excess of expenses Investments in equity securities and funds with readily determinable fair values and all investments in debt securities are measured at fair value in the consolidated balance sheets Investments also include equity investments in managed funds structured as limited liability corporations or partnerships These investments are accounted for under the equity method Investment income or loss (including equity investment

3. Summary of Significant Accounting Policies (continued)

earnings (losses) on managed funds, realized and unrealized gains and losses, computed on the average-cost basis of the security at the time of sale, and interest and dividends) is included in revenues in excess (deficit) of expenses unless the income or loss is restricted by donor or law

Investment income earned on assets held by trustees under bond indenture agreements, assets held by foundations, assets deposited in trust funds for self-insurance purposes, and funds held by insurance subsidiaries in accordance with industry practices are included in other revenue in the consolidated statements of operations and changes in net assets

Derivative Financial Instruments

The System utilizes interest rate swaps to hedge interest rate exposures. Changes in the fair value of the System's interest rate swaps are recorded as a component of nonoperating investment gain (loss) in the accompanying consolidated statements of operations and changes in net assets. The expense representing the net of the payments made and received under the swap agreements is also recorded as a component of nonoperating investment gain (loss).

Inventories

The System values inventories, which consist principally of medical supplies and pharmaceuticals, at the lower of cost (first-in, first-out, or weighted-average cost valuation method) or market basis.

Property and Equipment

Property and equipment acquisitions are recorded at cost or, if donated, at fair value at the time of donation. Expenditures that materially increase values, change capacities, or extend useful lives are capitalized. Routine maintenance, repairs, and minor equipment replacement costs are charged against operations.

Depreciation is calculated and recorded over the estimated useful life of each class of depreciable assets using the straight-line method. The *American Hospital Association – Estimated Useful Lives of Depreciable Hospital Assets* is used as a general guide in establishing depreciable lives. Amortization of capital leases is included in depreciation expense.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

3. Summary of Significant Accounting Policies (continued)

Asset Impairment

The System periodically evaluates the carrying value of its operating long-lived assets and assets held for sale for impairment when indicators of impairment are identified. These evaluations are primarily based on the estimated recoverability of the assets' carrying value. Impairment write-downs are recognized as a reduction in operating income for the operating long-lived assets and as a reduction in nonoperating gain for the assets held for sale at the time the impairment is identified.

In May 2013, the CHRISTUS board of directors approved a plan to consolidate the operations of two of its hospitals located in its Northern Louisiana Region, which will result in the closure of one of the facilities by the end of 2014. Accordingly, management evaluated the ongoing value of the long-lived assets and determined that the value of certain long-lived assets were no longer recoverable as their carrying value exceeded the expected cash flows. At June 30, 2013, the System wrote down the respective long-lived assets to their estimated fair value by recognizing an impairment loss of \$73,981,000, which is included in depreciation and amortization expense in the accompanying consolidated statements of operations and changes in net assets. In addition, an impairment loss of \$4,576,000 was recognized in fiscal year 2013 related to other long-lived assets. There were no impairments recognized in fiscal year 2012.

Investments in Unconsolidated Organizations and Noncontrolling Interest

The System has investments in certain organizations for which it does not have a majority ownership interest or significant control, and, therefore, these organizations are not consolidated. Generally, these investments are recorded using the equity method of accounting for those organizations in which the System owns greater than 20% and has significant influence over the organization. The cost method of accounting is used for organizations in which the System owns 20% or less.

The System attributed excess of revenue over expenses of \$17,171,000 and \$12,601,000 for the years ended June 30, 2013 and 2012, respectively, to the noncontrolling interest based on the contractual terms of joint ventures and the ownership percentage of the noncontrolling interests in certain of the consolidated subsidiaries. These amounts are reflected in unrestricted net assets in the consolidated balance sheets, net of distributions. As discussed below, the System acquired a portion of the noncontrolling interest in CHRISTUS Muguerza, S A de C V, during fiscal years 2013 and 2012.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

3. Summary of Significant Accounting Policies (continued)

Securities Lending

The System participates in securities lending transactions facilitated by the lending agent. Such loans are secured by collateral of 103% of the market value of domestic securities at the time of the loan. Per the securities lending agreement, such collateral will typically be cash or debt securities issued by the U S government or any of its agencies. Cash collateral received in connection with these loans is currently invested in a pooled fund of securities that mature in no more than 13 months and is maintained by the lending agent. The securities on loan and invested collateral are marked to market throughout the duration of the loan.

Goodwill

The System records goodwill arising from a business combination as the excess of purchase price over the fair value of identifiable tangible and intangible assets acquired and liabilities assumed. At June 30, 2013 and 2012, the System had goodwill of \$89,730,000 and \$101,858,000, respectively. During fiscal year 2013, the System wrote off goodwill of \$15,823,000 related to the sale of Baptist St. Anthony's Health System (BSAHS).

Goodwill is tested at least annually for impairment at the reporting unit level. Impairment is the condition that exists when the carrying amount of goodwill exceeds its implied fair value. Additional impairment assessments may be performed on an interim basis if the System encounters events or changes in circumstances that would indicate that it is more likely than not that the carrying value of goodwill has been impaired. The System has determined that its reporting units are the various geographic Regions of the System. The first step in the impairment process is to determine the fair value of the reporting unit and then compare it to the carrying value, including goodwill. If the fair value exceeds the carrying value, no further action is required and no impairment loss is recognized.

The System applied the optional provisions of ASU 2011-08, *Intangibles – Goodwill and Other: Testing Goodwill for Impairment*. A qualitative impairment analysis concluded that it was more likely than not that the fair value exceeded the carrying value of the applicable reporting units. Therefore, no two-step impairment analysis was required, and no impairment charges were recorded in fiscal year 2013 or 2012.

3. Summary of Significant Accounting Policies (continued)

Deferred Financing Costs

Deferred financing costs, net of accumulated amortization, included in other assets at June 30, 2013 and 2012, are \$17,181,000 and \$18,576,000, respectively, which are being amortized using the interest method over the terms of the indebtedness to which they relate

Temporary and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the System has been limited by donors to a specific time period or purpose Temporarily restricted net assets also include the System's beneficial interest in the net assets of affiliated and financially interrelated organizations, whose use has been limited by grant agreements and donors to a specific time period or use Permanently restricted net assets have been restricted by donors to be maintained by the System in perpetuity

Patient Accounts Receivable, Estimated Payables to Third-Party Payors, and Net Patient Service Revenue

The System has agreements with third-party payors that provide for payments to the System at amounts different from established rates Patient accounts receivable and net patient service revenue are reported at the estimated net realizable amounts from third-party payors and others for services rendered Estimated retroactive adjustments under reimbursement agreements with third-party payors are included in net patient service revenue and estimated third-party payor settlements Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods, as final settlements are determined

The System has adopted an uncompensated care policy whereby revenue from services provided to the uninsured is recognized at the time of payment, rather than at the time of service This policy is a result of the lack of reasonable assurance of collection for services provided to the uninsured due to the System's historically low collection rate Management has estimated that the difference between recording this revenue on the cash basis versus the accrual basis is immaterial to net patient service revenue for fiscal years 2013 and 2012 Accordingly, all accounts receivable from the uninsured have been fully reserved in the allowance for doubtful accounts The resulting adjustment is recorded as revenue deductions from gross charges to arrive at net patient service revenue

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

3. Summary of Significant Accounting Policies (continued)

Provision for Bad Debts

The System's recorded allowance for doubtful accounts is based on expected net collections, after contractual adjustments, primarily from patients. Management routinely assesses these recorded allowances relative to changes in payor mix, cash collections, write-offs, recoveries, and market dynamics.

A summary of activity in the System's allowance for doubtful accounts is as follows (in thousands):

	Balance at Beginning of Year	Provision for Bad Debts	Accounts Written Off, Net of Recoveries	Balance at End of Year
Year ended June 30, 2013	\$ 84,366	\$ 239,406	\$ (230,346)	\$ 93,426

Electronic Health Record Incentive Payments

The American Recovery and Reinvestment Act of 2009 (ARRA) included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act (HITECH). The provisions were designed to increase the use of electronic health record (EHR) technology and establish the requirements for a Medicare and Medicaid incentive payment program beginning in 2011 for eligible providers that adopt and meaningfully use certified EHR technology. Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period. Initial Medicaid incentive payments are available to providers that adopt, implement, or upgrade certified EHR technology. Providers must demonstrate meaningful use of such technology in subsequent years to qualify for additional Medicaid incentive payments.

CHRISTUS accounts for HITECH incentive payments under the gain contingency model as grants related to income. Income from Medicare incentive payments is recognized as revenue after CHRISTUS has determined it is reasonably assured to comply with the meaningful use criteria over the entire applicable compliance period and the cost report period that will be used to determine the final incentive payment has ended. CHRISTUS recognized revenue from Medicaid incentive payments after it adopted certified EHR technology. Incentive payments

totaling \$25,109,000 and \$27,668,000 for the years ended June 30, 2013 and 2012, respectively, are included in other revenue in the accompanying consolidated statements of operations and changes in net assets. Income from incentive payments is subject to retrospective adjustment as the incentive payments are calculated using Medicare cost report data that is subject to audit. Additionally, CHRISTUS's compliance with the meaningful use criteria is subject to audit by the federal government.

Premium Revenue and Associated Costs

Premium revenue represents revenues derived under capitated arrangements with third parties. In return for these premiums, the contracting entity is responsible for providing essentially all health care services to enrolled participants. Costs for providing these services, including services provided by other health care providers, are included as operating expenses in the accompanying consolidated financial statements. At June 30, 2013 and 2012, the respective contracting entities have accrued expenses for incurred but not reported claims based upon claims experience. The contracting entities maintain stop-loss insurance coverage to limit exposure for certain catastrophic claims.

Other Revenue

Other revenue is derived from services other than providing health care services or coverage to patients, residents, or enrollees. This revenue typically includes investment income from all funds held by a trustee, malpractice funds, or other miscellaneous investment activities, rental of health care facility space, sales of medical and pharmaceutical supplies to employees, physicians, and others, proceeds from sales of cafeteria meals and guest trays to employees, medical staff, and visitors, and proceeds from sales at gift shops, snack bars, newsstands, parking lots, vending machines, or other service facilities operated by the health care organization.

Donor-Restricted Gifts

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as

unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements.

International Operations

CHRISTUS Muguerza

The System owns a 75.2% interest in CHRISTUS Muguerza, S.A. de C.V. (CHRISTUS Muguerza), headquartered in Monterrey, Mexico. CHRISTUS Muguerza is a private health care system and is subject to taxes in accordance with the regulations of the Republic of Mexico. The financial statements of CHRISTUS Muguerza are presented in accordance with accounting principles generally accepted in the United States and are consolidated in the CHRISTUS consolidated financial statements. CHRISTUS Muguerza has net assets of \$95,519,000 and \$72,909,000 at June 30, 2013 and 2012, respectively.

The System increased its ownership interest in CHRISTUS Muguerza from 64.6% to 75.2% by purchasing 6,982,327 additional shares from the noncontrolling interest holders in December 2012 for cash consideration in the amount of \$7,000,000 and 3,377,462 additional shares for cash consideration of \$3,500,000 in May 2013. Additionally, the System acquired newly issued shares of CHRISTUS Muguerza for \$11,079,000 in April 2013. During the year ended June 30, 2012, the System acquired 11,300,168 additional shares for cash consideration in the amount of \$6,000,000.

In November 2012, the System and certain noncontrolling interest holders entered into a revised shareholders agreement, whereby the noncontrolling interest holders of CHRISTUS Muguerza have a series of put options through December 31, 2028. These options will require the System to acquire shares, subject to an annual cap of either \$3,500,000 or \$2,000,000 depending on the year, at a formula price as defined. At June 30, 2013, the System had \$3,739,000 recorded as unrestricted net assets attributable to noncontrolling interest to reflect such obligation to the noncontrolling interest holders in connection with the agreement.

Pontificia Universidad Católica de Chile

CHRISTUS has signed a memorandum of understanding with Pontificia Universidad Católica de Chile (PUC) in Santiago, Chile, to enter into a joint venture agreement for the ownership, operation, and expansion of PUC's health network. PUC is owned by the Catholic Church and operates one of the largest health systems in Chile for medical care and teaching. CHRISTUS and PUC will complete due diligence and negotiations over the coming months.

CHRISTUS and PUC have also entered into an interim management agreement under which CHRISTUS will provide management services to the PUC health network through the due diligence and negotiation period. This agreement commenced March 1, 2013.

Minimum Revenue Guarantees

CHRISTUS enters into agreements with non-employed physicians that include minimum revenue guarantees. These guarantees primarily arise through physician recruiting efforts and vary by physician specialty. Generally, the term of these guarantees ranges from one to two years, with the majority including a forgiveness period that begins during the second year of the guarantees. The estimated amount of the liability for CHRISTUS's obligation under these guarantees was \$8,755,000 and \$9,129,000 at June 30, 2013 and 2012, respectively, and is included in accrued expenses and other long-term obligations in the accompanying consolidated balance sheets.

The maximum amount of future payments that the System could be required to make under all existing guarantees is approximately \$21,398,000.

Uncertainty in Income Taxes

The authoritative guidance in Accounting Standards Codification (ASC) Topic 740, *Income Taxes*, creates a single model to address uncertainty in tax positions and clarifies the accounting for income taxes by prescribing the minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. Under the requirements of this guidance, tax-exempt organizations could be required to record an obligation as the result of a tax position they have historically taken on various tax exposure items. There are no material unrecorded tax liabilities as of June 30, 2013 and 2012.

New and Pending Accounting Pronouncements

In May 2011, the FASB issued ASU 2011-04, *Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. Generally Accepted Accounting Principles (GAAP) and International Financial Reporting Standards (IFRS)*. The amendments in the ASU result in common fair value measurement and disclosure requirements in GAAP and IFRS. Additionally, the ASU changes the wording used to describe many of the requirements in GAAP for measuring fair value and for disclosing information about fair value measurements. This ASU was effective for the System on July 1, 2012. The adoption of this standard did not have an effect on the System's consolidated financial statements.

In July 2011, the FASB issued ASU 2011-07, *Health Care Entities (Topic 954): Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities*. The amendments in the ASU require the System to change the presentation of its consolidated statement of operations and changes in net assets by reclassifying the provision for bad debts associated with patient service revenue from an operating expense to a deduction from patient service revenue (net of contractual allowances and discounts). Additionally, the ASU requires enhanced disclosure about the System's policies for recognizing revenue and assessing bad debts, patient service revenue (net of contractual allowances and discounts), and qualitative and quantitative information about changes in the allowance for doubtful accounts. This ASU was effective for the System on July 1, 2012. This amended presentation is reflected in the System's accompanying consolidated statements of operations and changes in net assets.

In December 2011, the FASB issued ASU 2011-11, *Disclosures about Offsetting Assets and Liabilities*, an amendment to the accounting guidance for disclosure of offsetting assets and liabilities. In January 2013, the FASB issued ASU 2013-01, *Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities*. These ASUs expand the disclosure requirements in that entities will be required to disclose both gross and net information about instruments and transactions eligible for offset in the balance sheet. This new guidance is effective for the System on July 1, 2013. The adoption of this standard will not have a material effect on the System's consolidated financial statements.

Reclassifications

Certain prior-year amounts have been reclassified to conform to the current-year presentation. These include the presentation of investments (see Note 5) and the classification of certain activities as nonoperating.

4. Net Patient Service Revenue

Net patient service revenue is reported at the estimated net realizable amounts from third-party payors and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Amounts subject to retroactive adjustments are estimated and recorded in the period the related services are rendered and adjusted in future periods as final settlements are determined. The estimated settlements recorded at June 30, 2013 and 2012 could differ from actual settlements. Inpatient acute care services and outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates. These rates vary according to a patient diagnosis-related group classification system that is based on clinical, diagnostic, and other factors.

For fiscal years 2013 and 2012, net patient service revenue increased approximately \$7,153,000 and \$16,629,000, respectively, related to changes in estimates for cost report re-openings, appeals, and tentative and final cost report settlements on filed cost reports, of which some are still subject to audit, additional re-opening, and/or appeal.

Inpatient and outpatient services rendered to Medicaid program beneficiaries are paid under cost reimbursement methodologies, prospectively determined rates per discharge, and prospectively determined or negotiated rates.

Revenue from the Medicare and Medicaid programs accounted for approximately 23% and 10%, respectively, of the System's net patient revenue for the fiscal year ended June 30, 2013, and 27% and 10%, respectively, of the System's net patient revenue for the fiscal year ended June 30, 2012. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

4. Net Patient Service Revenue (continued)

The System has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payment to the System under these agreements includes prospectively determined rates per discharge, discounts from established charges, and negotiated daily rates.

Patient service revenue (in thousands), net of contractual allowances and discounts (but before the provision for bad debts) recognized for the year ended June 30, 2013, by payor, was

	Patient Service Revenue	% of Total
Medicare	\$ 797,700	23%
Medicaid	328,332	10%
Managed care organizations	1,498,620	43%
Commercial payors	256,497	7%
Self-pay and other	582,420	17%
	<u>\$ 3,463,569</u>	<u>100%</u>

Federal law requires that state Medicaid programs make special payments to hospitals that serve a disproportionately large number of Medicaid and low-income patients. Such hospitals are called disproportionate share hospitals and receive disproportionate share funding under the program known as "DSH." DSH funds are different from most other Medicaid payments because they are not tied to specific services for Medicaid-eligible patients. There were 172 Texas hospitals that qualified to receive such payments in both 2013 and 2012. The state of Texas has been making DSH payments to providers since 1987.

Additionally, the federal Medicaid rules allow for hospitals to be reimbursed for some of the uncompensated cost of treating Medicaid and uninsured patients up to an Upper Payment Limit (UPL) as modified by the 1115(b) demonstration waiver. UPL programs act as mechanisms to draw federal Medicaid dollars into local communities. The Texas Medicaid program has chosen a county-specific UPL strategy to receive supplemental federal matching funds. Under these programs, various hospital participants in the respective counties have elected to provide health care services to the indigent population in the county as charity services and, as such, no third party has an obligation to pay for these services. Separately, and with no legal obligation or link to the hospitals' provision of charity services, the tax-supported governmental entity may choose,

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

4. Net Patient Service Revenue (continued)

entirely at its discretion, to contribute a portion of its tax revenues into the state's Medicaid program. The amounts transferred by the governmental entity to the state Medicaid program are then matched at the federal level, and the total amount (the amount transferred to the state Medicaid program by the governmental entity and the related federal match) is then paid to the hospital participants based upon each hospital's individual applicable funding entitlement. In addition to the allocations received by the Medicaid program, hospital participants in some communities may make charity community benefit transfers to each other throughout the year to reach a previously agreed-upon sharing ratio.

Medicaid supplemental payments, which include Medicaid DSH and UPL payments, net of settlements and amounts transferred between program participants, of approximately \$329,829,000 and \$252,756,000 were recorded in 2013 and 2012, respectively. Net patient service revenue in the accompanying consolidated statements of operations and changes in net assets includes all Medicaid supplemental funds.

The Texas Health and Human Services Commission (HHSC) filed an application with the Centers for Medicare and Medicaid Services (CMS) to approve an 1115(b) demonstration waiver (the 1115(b) waiver) from traditional Medicaid financial and eligibility rules. Texas is approaching the third demonstration year for the Texas 1115(b) waiver program, beginning October 1, 2013. While in its third year of implementation, the program has had a slow transition from a traditional UPL program to a pay-for-performance program. The pay-for-performance program provides payments to hospitals through two pools, the Uncompensated Care Pool and the Delivery System Reform Incentive Pool (DSRIP). Both pools replace the former UPL program and can cover the unreimbursed shortfall on Medicaid claims. CHRISTUS has operations in five different regional health partnerships (RHP) under this program and has approximately 40 DSRIP projects that are eligible for funding to our hospitals; the projects are currently under review by CMS. For fiscal year 2013, CHRISTUS has received \$9,713,000 in DSRIP funding, which is included in other revenue in the accompanying consolidated statement of operations and changes in net assets.

While DSH and UPL funds are separate, the implementation of the 1115(b) waiver created a disincentive for transferring hospitals to participate in the DSH program, jeopardizing the full funding of the program. These funds helped to offset the uncompensated cost of care due to the State of Texas's limited Medicaid funding and the growing uninsured population. In the Texas 83rd legislative session, lawmakers passed a budget rider that requires the Texas HHSC to work with both public and private providers, through the rule-making process, to maintain the supplemental program for program years 2014 and 2015.

The health care industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, participation requirements of government health care programs, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Government activity has continued with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by health care providers. Violations of these laws and regulations could result in expulsion from government health care programs, together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. There are matters currently under audit and/or review by regulatory and government officials. These reviews and audits may or may not result in revisions to cost reports, resubmitted billings, unasserted possible claims that are probable of assertion, or loss contingencies. Compliance with such laws and regulations may be subject to future government review and interpretation, as well as regulatory actions.

5. Cash and Investments (continued)

Cash and cash equivalents include cash, money market bank accounts, interest-bearing bank accounts, and debt securities with original maturities of less than three months. United States government securities include debt securities issued by the U S government or a U S government agency. Fixed-income securities and fixed-income funds include corporate debt securities and common collective trusts. Domestic equities and equity funds, preferred stocks, and international equities include domestic and foreign stocks, as well as mutual funds and common collective trusts.

Equity in managed funds includes investments in limited liability partnerships or corporations and other alternative investments. The System's equity investments in managed funds are recorded based on the System's share of the underlying value of marketable securities and nonmarketable interests held by these funds, as reported to the System. Equity-method investments include reported changes in value as reported to the System by the fund custodians. These investments are recorded at amounts confirmed by fund custodians, and there can be no assurance such reported amounts will be ultimately realized.

The System's investments are subject to various types of risks, as explained below.

Fixed Income

This investment class includes investments in various fixed-income instruments that include investment-grade and high-yield domestic and international bonds, preferred stocks, mortgage pools, master limited partnership units, and bonds issued by U S government agencies. This investment class also includes investments in common trust funds, mutual funds, and exchange-traded funds that hold investments in fixed-income securities. The fixed-income investments are exposed to various kinds and levels of risk, including interest rate risk, credit risk, foreign exchange risk, and liquidity risk.

Equities

This investment class consists primarily of common and preferred equity securities of domestic and foreign companies. These securities trade through the major public domestic and international exchanges. This investment class also includes investments in common trust funds, mutual funds, and exchange-traded funds that hold investments in equity securities. The equity securities investments are exposed to various risks, including market risk, individual security risk, foreign exchange risk, and, for common equity of companies with a small market capitalization, liquidity risk.

Equity Investments in Managed Funds

These funds are invested with external investment managers who invest primarily in various categories, including fixed income, long and short equity positions, managed futures, emerging markets, distressed enterprises, arbitrage, risk parity, private equity, and real estate positions. These investments are domestic and international in nature, are illiquid, and may not be realized for a period of several years after the investments are made. The risks associated with these investments are numerous, resulting in a greater likelihood of losing invested capital. The risks include the following:

Nonregulation Risk – Some of these funds are not required to register with the Securities and Exchange Commission (SEC) and are not subject to regulatory controls.

Managerial Risk – Fund managers may fail to produce the intended returns and are not subject to oversight.

Minimal Liquidity – Many funds impose lock-up periods that prevent investors from redeeming their shares or impose penalties to redeem.

Limited Transparency – As unregistered investment vehicles, funds are not required to disclose the holdings in their portfolios to investors.

Investment Strategy Risk – The funds often employ sophisticated, risky investment strategies, are speculative, and may use leverage, which could result in volatile returns.

The System has classified certain funds with underlying investments in fixed income securities under the caption “Equity in managed funds – fixed income funds” at June 30, 2013 and 2012. Previously, these funds totaling \$90,429,000 at June 30, 2012 were classified under the caption “Fixed-income securities and fixed-income funds.”

The System has no commitments for funding to equity investments in managed funds as of June 30, 2013.

6. Fair Value Measurements

The three-level valuation hierarchy for disclosure of fair value measurements is based on the transparency of inputs to the valuation of an asset or liability as of the reporting date. The three levels are defined as follows:

- Level 1 – Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities at the reporting date
- Level 2 – Inputs to the valuation methodology other than quoted market prices included in Level 1 that are observable for the asset or liability. Level 2 pricing inputs include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument
- Level 3 – Inputs to the valuation methodology are unobservable for the asset or liability

A financial instrument's categorization within the valuation hierarchy is based on the lowest level of input that is significant to the fair value measurement. There were no significant transfers between levels during the years ended June 30, 2013 and 2012.

Equity investments in managed funds of \$440,188,000 and \$279,071,000 at June 30, 2013 and 2012, respectively, are not included in this table since they are accounted for using the equity method of accounting

The valuation methodologies used for instruments measured at fair value as presented in the tables above are as follows

- *Investments* – Investments valued at quoted prices available in an active market are classified within Level 1 of the valuation hierarchy. Investments valued based on evaluated bid prices provided by third-party pricing services where quoted market prices are not available are classified within Level 2 of the valuation hierarchy.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

6. Fair Value Measurements (continued)

- *Interest rate swap agreements* – Interest rate swap agreements are valued using third-party models that use observable market conditions as their input and are classified within Level 2 of the valuation hierarchy

At June 30, 2013 and 2012, the System's financial instruments included cash and cash equivalents, accounts receivable, assets limited as to use, accounts payable and accrued expenses, estimated third-party payor settlements, and long-term debt. The carrying amounts reported in the consolidated balance sheets for these financial instruments, except for long-term debt, approximate their fair values.

The System's fixed-rate debt is enhanced with bond insurance. The estimated fair value of the fixed-rate debt, if it were not enhanced by insurance, approximates \$585,862,000 at June 30, 2013, as compared to its carrying value of \$530,728,000. This fair value is based on a combination of quoted market prices for identical securities when available, a Level 1 input, and quoted market prices for similarly rated healthcare revenue bond issues, a Level 2 input.

At June 30, 2013, the System has several issues of variable-rate demand and auction-rate bonds outstanding. The System's continued participation in these debt programs depends on its ability to extend or replace the existing credit facilities supporting the respective standby purchase agreements. If these credit facilities are not available, the System will likely refund these outstanding series with available funds or funds derived from fixed-rate series proceeds. It is not practicable to estimate the fair value of the variable-rate demand and auction-rate bonds separate from the value supported by the credit facilities.

The fair values of nonrecurring impairment losses for long-lived assets in fiscal year 2013 totaling \$78,557,000 were estimated based on a sales comparison approach using Level 2 inputs.

Total	<u>\$ 1,618,670</u>	<u>\$ 1,719,060</u>

Depreciation expense for the System for fiscal years 2013 and 2012 totaled \$263,298,000 (inclusive of impairment charges of \$78,557,000) and \$209,672,000, respectively

8. Investments in Unconsolidated Organizations

The System has unrestricted investments in unconsolidated organizations of \$37,302,000 and \$209,938,000 at June 30, 2013 and 2012, respectively. The following investments account for 63% and 93% of the System's total investments in unconsolidated organizations in both 2013 and 2012 respectively

Baptist St. Anthony's Health System

CHRISTUS has a 50% membership interest in Baptist St. Anthony's Health System (BSAHS), a Texas nonprofit corporation. On January 2, 2013, BSAHS completed a transaction that resulted in the sale of substantially all the assets of BSAHS to a subsidiary of Ardent Health Services, based in Nashville, Tennessee. CHRISTUS recorded a gain of \$95,997,000 on the sale of BSAHS, which is included in equity in income of unconsolidated organizations in the accompanying consolidated statements of operations and changes in net assets. At June 30, 2013, CHRISTUS's portion of additional sales proceeds of \$20,963,000 have been placed in escrow for a period of up to 18 months to provide for certain contingencies existing or that may exist as of the date of the transaction.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

8. Investments in Unconsolidated Organizations (continued)

CHRISTUS's recorded investment in BSAHS, accounted for under the equity method, was \$193,376,000, including \$9,148,000 of restricted net assets that were recorded as other restricted assets at the time of the sale. At June 30, 2012, the investment in BSAHS was \$184,367,000, including \$15,823,000 of goodwill and \$11,592,000 of restricted net assets. The System also recorded its share of BSAHS's gains from operations through the date of the sale of \$8,624,000 and \$19,906,000 for the year ending June 30, 2012. The System recorded its share of unrealized losses on investments through the date of the sale of \$139,000 and \$538,000 during the year ended June 30, 2012, as changes in unrestricted net assets.

Preferred Professional Insurance Company

CHRISTUS has a 13.1% ownership interest in Preferred Professional Insurance Company (PPIC), a taxable Nebraska corporation. This corporation, formed in 1988, was established to provide excess professional and general liability insurance. CHRISTUS's recorded investment in PPIC, accounted for under the cost method, was \$17,059,000 at both June 30, 2013 and 2012. The System recorded income from its investment in PPIC in fiscal years 2013 and 2012 of \$320,000 and \$296,000, respectively.

CS USP Surgery Centers, L.P.

CHRISTUS Spohn Health System Corporation has a 50% ownership interest in a Texas limited liability partnership with United Surgical Partners International, Inc. for the purpose of owning and operating ambulatory surgery centers in Corpus Christi, Texas. The venture consists of two surgery centers near the campus of Spohn Shoreline, specifically Corpus Christi Outpatient Surgery and SurgiCare. CHRISTUS's recorded investment, accounted for under the equity method, was \$5,594,000 and \$5,755,000 at June 30, 2013 and 2012, respectively. The System recorded its share of income from operations in fiscal years 2013 and 2012 of \$853,000 and \$754,000, respectively.

9. Long-Term Debt (continued)

Under the provisions of the Master Trust Indenture, the obligations of CHRISTUS and the other members of the Obligated Group are secured by a pledge of gross revenues. Additionally, each member of the Obligated Group has undertaken certain covenants, including the following: to ensure the payment of debt service, to ensure the payment of taxes and other claims, to deliver compliance statement(s), to preserve corporate existence, to maintain books and records subject to inspection by the Master Trustee, to maintain insurance, to conform to defined lien limitations, to establish adequate service rates, to maintain a sufficient debt service coverage and indebtedness ratio, to maintain a required aggregate amount of unrestricted cash and investments, and to adhere to certain defined conditions with respect to consolidation, merger, conveyance, or transfer, and admission or withdrawal of Obligated Group members pursuant to the Master Trust Indenture, insurer, and letter of credit bank agreements.

CHRISTUS has letter of credit bank agreements on Series 2008C and 2009B variable-rate demand bonds (VRDB). Effective October 3, 2012, the letters of credit supporting the outstanding Series 2008C bonds issued by Bank of America were substituted by PNC Bank, NA for the Series 2008C-1 bonds that expire October 2, 2015, The Bank of New York Mellon for the 2008C-2 bonds that expire October 3, 2017, and Bank of Montreal, acting through its Chicago Branch, for the Series 2008C-3 and 2008C-4 bonds that expire October 2, 2017. The Series 2009B VRDBs are supported by letters of credit issued by The Bank of New York Mellon that expire on July 31, 2014. Based on the terms of the letter of credit bank agreements, the Series 2008C and 2009B Bonds are classified as long-term debt in the accompanying consolidated balance sheets.

In addition, the System was obligated on approximately \$119,584,000 and \$129,429,000 of additional long-term debt, which included capitalized leases and notes payable to others as of June 30, 2013 and 2012, respectively.

10. Derivative Financial Instruments

Interest rate swap contracts between the System and third parties (counterparties) provide for the periodic exchange of payments between the parties based on changes in a defined index and a fixed rate. These swaps expose the System to market risk and credit risk. Credit risk is the risk that contractual obligations of the counterparties will not be fulfilled. Concentrations of credit risk relate to groups of counterparties that have similar economic or industry characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions. Counterparty credit risk is managed by requiring high credit standards for the System's counterparties. The counterparties to these contracts are financial institutions that carry investment-grade credit ratings.

Market risk is the adverse effect on the value of a financial instrument that results from a change in interest rates. The market risk associated with interest rate changes is managed by establishing and monitoring parameters that limit the types and degrees of market risk that may be undertaken. Management also mitigates risk through periodic reviews of their derivative positions in the context of their blended cost of capital. As of June 2013 and 2012, CHRISTUS has interest rate swap agreements to manage interest rate risk exposure, not designated as hedging instruments, with a total notional amount of \$954,185,000 and \$961,435,000, respectively.

The counterparties to these contracts are financial institutions that carry investment-grade credit ratings.

CHRISTUS is required to post collateral for negative valuations on each of its swaps according to the terms of (i) the swap insurance agreements, where applicable and (ii) the agreement with each counterparty. CHRISTUS has complied with this requirement. At June 30, 2013 and 2012, no collateral was posted. The System does not anticipate nonperformance by its counterparties. The fair value of these swap agreements was a liability of \$92,624,000 and \$136,786,000 at June 30, 2013 and 2012, respectively. The change in fair value of \$44,162,000 and (\$76,813,000) for the years ended June 30, 2013 and 2012, respectively, is combined with the payments, net of receipts made under the agreements, of \$15,338,000 and \$9,577,000 for the years ended June 30, 2013 and 2012, respectively. This total is included in nonoperating investment gain (loss) in the accompanying consolidated statements of operations and changes in net assets.

On August 26, 2011, CHRISTUS terminated two swaps with counterparty Citigroup, N A. CHRISTUS terminated one of the 2005 Fixed Payor Swaps with a notional amount of \$52,150,000 and a termination date of July 1, 2022, and the Constant Maturity Swap with a notional amount of \$200,000,000 and a termination date of June 1, 2022. CHRISTUS received net proceeds of \$5,785,000 as a result of the terminations.

On December 28, 2011, CHRISTUS entered into a swap novation with Citibank, N A as transferor and Wells Fargo Bank, N A as transferee of the Fixed Payor Swap with an original notional amount of \$212,175,000 and had an effective date of January 4, 2012. The original transaction with Citibank, N A had a notional amount of \$225,925,000, a trade date of July 13, 2005, and an effective date of November 8, 2005. The original transaction was insured by FSA (now – Assured Guaranty Municipal Corp.) The swap insurance was terminated in connection with the novation. The payment terms, expiration, events of default and termination events remain substantially the same. The collateral posting threshold under the novated swap increased from \$15 million to \$45 million.

The fixed payor swaps are insured by either AMBAC (terminated August 26, 2011), Assured Guaranty Municipal Corp, previously known as FSA (insurance terminated in connection with novation effective January 4, 2012), or MBIA.

CHRISTUS currently voluntarily posts, on a quarterly basis, selected information relating to its outstanding interest rate swap transactions on the Municipal Securities Rulemaking Board's (MSRB) Electronic Municipal Market Access system (EMMA) and the Texas State Repository – Texas Municipal Advisory Council (MAC). No assurances can be given that CHRISTUS will continue to post such information in the future.

11. Cash Balance Plan and Postretirement Health Care Benefits

Cash Balance Plan

The System has established a noncontributory, defined-benefit retirement plan that operates as a cash balance plan and covers substantially all CHRISTUS employees who meet age and service requirements. The plan benefits are calculated based on a cash balance formula wherein participants earn an annual accrual based on compensation and participant account balances accrue interest at a rate that tracks 10-year treasury notes, the maximum rate is 8%. On

Notes to Consolidated Financial Statements (continued)

11. Cash Balance Plan and Postretirement Health Care Benefits (continued)

October 22, 2012, the CHRISTUS board approved significant plan changes for the plan year starting January 1, 2013. These changes include closing the plan to new participants, reducing the annual accrual rate from 6% to 3%, and eliminating the minimum 2% interest accrual rate. The plan was remeasured effective November 1, 2012, due to the changes. The remeasurement resulted in an \$83,187,000 decrease in the projected benefit obligation of the plan.

Postretirement Health Care Benefits

Comprehensive medical benefits are provided to eligible active employees who, immediately upon retirement and attainment of the age of 55, will receive a pension under the CHRISTUS retirement plan. Postretirement benefits are also provided to former employees who are currently receiving pension benefits. The comprehensive medical program, which is self-insured, provides reimbursement benefits until the participant attains the age of 65. The program also covers dependents of retirees, in addition to former employees. Contributions are required. Retirees may choose one of two self-insured indemnity plan options. Effective February 1, 1999, the CHRISTUS postretirement benefit plan was curtailed prospectively. As of the effective date, new employees or employees that had not vested as of that date are not eligible for the postretirement health care benefits. The liability associated with the postretirement plan will be reduced as employee participation decreases.

Simplified Early Retirement Plan (SERP)

Prior to the formation of CHRISTUS, a plan for executives was curtailed prospectively. Under this plan, eligible participants receive a cash benefit payment until death and participate in the System's retiree health, dental and group term life program. Fewer than two dozen participating retirees currently maintain benefit payment status. Benefits are recalculated when participants attain the age of 65 and remain constant thereafter. At June 30, 2013 and 2012, the total liability recorded pertaining to this SERP was \$4,734,000 and \$5,215,000, respectively.

Restoration Plan

The restoration plan, a nonqualified, deferred compensation plan, was designed to restore benefits that are lost under the cash balance plan due to the statutory limit on recognizable compensation. Eligibility is limited to designated executives. The plan provides benefits upon termination of employment to qualifying participants. Plan benefits are calculated using the same methodology for the cash balance plan, vesting requirements are also the same. The restoration plan is unfunded.

11. Cash Balance Plan and Postretirement Health Care Benefits (continued)

As of June 30, 2013 and 2012, the CHRISTUS cash balance plan had accumulated benefit obligations of \$847,269,000 and \$848,224,000, respectively. Assumptions used to determine benefit obligations and net periodic benefit cost for the fiscal years were as follows:

	Cash Balance Plan		Postretirement		SERP		Restoration Plan	
	2013	2012	2013	2012	2013	2012	2013	2012
Benefit obligations								
Discount rate	4.75%	4.21%	3.88%	3.79%	4.75%	4.21%	4.75%	4.21%
Rate of compensation increase	4.09	4.09	N/A	N/A	N/A	N/A	4.09	4.09
Net periodic benefit cost								
Discount rate	3.92	5.15	3.79	4.96	4.21	5.15	4.21	5.15

Rate of compensation increase	4.09	4.09	N/A	N/A	N/A	N/A	4.09	4.09

The investment objective with regard to the plan assets is one of long-term capital appreciation and generation of a stream of current income. This balanced approach is expected to earn long-term total returns, consisting of capital appreciation and current income, which are commensurate with the expected rate of return used by the plans.

The following information pertains only to the CHRISTUS Health postretirement plan. The first table details information pertaining to assumed health care cost trend rates. The second table depicts the effect of a 1% point change in assumed health care cost trend rates.

	Postretirement			Postretirement

Investment Policy and Asset Allocations

The investment policies and strategies for the assets of the cash balance plan incorporate a well-diversified approach that is expected to generate long-term returns from capital appreciation and a growing stream of current income. This approach recognizes that assets are exposed to risk and the market value of the plan assets may fluctuate from year to year. Risk tolerance is determined based on the plan's financial stability and the ability to withstand return volatility. In developing the expected return on plan assets, the System evaluates the historical performance of total plan assets, the relative weighting of plan assets, interest rates, economic indicators, and industry forecasts. In line with the investment return objective and risk parameters, the mix of assets includes a diversified portfolio of equity, fixed income, and alternative investments. Equity investments include international stocks and a blend of domestic growth and value stocks of various sizes of capitalization. The aggregate asset allocation is rebalanced as needed, but not less than on an annual basis.

The asset allocations for the cash balance plan at June 30, by asset category, are detailed below (in thousands). The postretirement plan, SERP, and restoration plan are unfunded.

	2013	2012

11. Cash Balance Plan and Postretirement Health Care Benefits (continued)

The cash balance plan has \$76,996,000 of funding commitments to equity investments in managed funds as of June 30, 2013

Contributions

In fiscal year 2014, CHRISTUS expects to contribute \$30,000,000 to the cash balance plan based on asset values for the plan year beginning January 1, 2013. Contributions to the cash balance plan of \$60,000,000, and \$56,400,000 were made for plan years beginning January 1, 2012 and 2011, respectively. Since the postretirement plan, SERP, and restoration plan are unfunded, no cash contributions are expected.

Benefit Payments

The following benefit payments, which reflect expected future service relative to the cash balance plan and expected benefit payments for services previously rendered relative to the postretirement plan and the SERP, are expected to be paid as follows (in thousands):

	Cash Balance Plan	Post retirement	SERP	Restoration Plan
2014	\$ 43,083	\$ 865	\$ 570	\$ 1,047
2015	44,614	1,049	551	319

Years 2019–2023	288,009	7,390	1,990	1,714

Defined-Contribution Plans

The System has a defined-contribution plan (the Matched Savings Plan) covering substantially all CHRISTUS employees. Annual employee contributions are limited to 50% of compensation, up to the Internal Revenue Service dollar limits. The System will match 50% of employee contributions, not to exceed 4% of annual compensation. Employer contributions vest to the employee over a five-year period. For the years ended June 30, 2013 and 2012, expenses attributable to the Matched Savings Plan amounted to \$8,097,000 and \$8,059,023, respectively.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

11. Cash Balance Plan and Postretirement Health Care Benefits (continued)

CHRISTUS St Vincent Regional Medical Center (St Vincent) has two 403(b) defined-contribution plans for union and nonunion employees. St Vincent makes a set lump-sum contribution per year for nurse union employees and a contribution of 3.5% of gross salaries for nonunion employees, as defined by the plans' agreements. For fiscal years 2013 and 2012, St Vincent has incurred approximately \$3,597,000 and \$3,885,000 in expenses related to the plans, respectively.

ExecuFLEX Benefit Plan

The System established an ExecuFLEX plan (ExecuFLEX), which is limited to designated executives. Plan participants receive an ExecuFLEX allowance to be allocated among four different components: CHRISTUS Health ExecuFLEX Individual Long-Term Disability Plan, CHRISTUS Health ExecuFLEX Supplemental Survivor Plan, CHRISTUS Health ExecuFLEX Spouse Survivor Plan, and CHRISTUS Health ExecuFLEX Deferred Income Account (DIA) Plan.

CHRISTUS maintains a collateral interest in the individual life insurance policies under the supplemental survivor plan and the spouse survivor plan to the extent of the cumulative advanced premiums paid on behalf of the participant(s). Upon termination of employment, a participant is required to surrender any policy with a cash surrender value less than the advanced premiums.

The DIA Plan is a nonqualified, deferred compensation plan; eligibility is limited to designated executives. Benefits vest based on certain qualifying events and are paid to participants when fully vested. The funds contributed by participants to this component of the ExecuFLEX Plan are held in a Rabbi Trust until vesting requirements have been satisfied. The System has an asset recorded for the investments in the Rabbi Trust with a corresponding liability. As of June 30, 2013 and 2012, the total asset and the corresponding liability were \$9,514,000 and \$6,717,000, respectively.

12. Self-Funded Liabilities

The System self-funds and insures for primary professional and general liability, workers' compensation, and employee medical benefits. A wholly owned, captive insurance company, Emerald Assurance Cayman Ltd (Emerald), is used to fund primary professional and general liability. Additionally, the System internally sets aside funds for workers' compensation and employee medical benefits. Funding amounts are based on actuarial recommendations.

CHRISTUS Health

Notes to Consolidated Financial Statements (continued)

12. Self-Funded Liabilities (continued)

The assets of the captive insurance company, internally designated funds, and the estimated liability for losses are reported in the consolidated balance sheets. Investment income from the assets and the provision for estimated self-funded losses and administrative costs are reported in the accompanying consolidated statements of operations and changes in net assets. The estimated self-funded losses include expected claim payments, including settlement costs for reported claims and an actuarial determination of expected losses related to claims that have been incurred but not reported.

Emerald was incorporated in the Cayman Islands on June 27, 2003, and operates subject to the provisions of the Companies Law (2003 Revision) of the Cayman Islands. Emerald was granted an Unrestricted Class “B” Insurer’s license on June 30, 2003, which it holds subject to the provisions of the Insurance Law (2003 Revision) of the Cayman Islands. Emerald has received an undertaking from the Cayman Islands government exempting it from local income, profits, and capital gains taxes until July 29, 2023. No such taxes are currently levied in the Cayman Islands.

13. Concentrations of Credit Risk

The System grants credit without collateral to its patients, most of who are local residents of the geographies of the various System health care centers and are insured under third-party payor agreements. The mix of accounts receivables from patients and third-party payors at June 30, was as follows:

	2013	2012
Medicare	24.6%	23.2%
Medicaid	6.1	6.1
Managed care organizations	37.4	37.3
Commercial insurance	6.1	6.2
Self-pay	15.3	16.9
Others	10.5	10.3
	100.0%	100.0%

CHRISTUS Health

14. Commitments and Contingencies

Operating Leases

The System leases various equipment and facilities under noncancelable operating leases expiring at various dates through May 20, 2045. Total rental expense in 2013 and 2012 for all operating leases was approximately \$56,336,000 and \$47,617,000, respectively.

The System's leases have varying terms, which may include renewal or purchase options and escalation clauses that are factored into determining minimum lease payments. The following is a schedule by year of future minimum lease payments under operating leases as of June 30, 2013, that have initial or remaining lease terms in excess of one year (in thousands):

2014	\$ 38,017
2015	33,504
2016	26,959
2017	28,169
2018	22,442
Thereafter	61,494
Total	<u>\$ 210,585</u>

From time to time, the System is subject to litigation in the ordinary course of operations. In management's opinion, any future settlements or judgments on asserted or unasserted claims will not have a material effect on the System's consolidated financial statements.

CHRISTUS has received notification that several regions have been identified as part of the nationwide Department of Justice (DOJ) investigation to determine whether, in certain cases, implantable cardioverter defibrillators (ICD) were provided to certain Medicare beneficiaries in accordance with national coverage criteria. Through September 13, 2013, the DOJ has not asserted any claims against the System. The System continues to fully cooperate with the DOJ in its investigation. While maximum penalties could have a material effect on CHRISTUS's financial condition, management anticipates that any final settlement will not have a material adverse effect on its financial condition.

Because the government's enforcement efforts presently are widespread within the industry and may vary from region to region, there can be no assurance that the compliance program will significantly reduce or eliminate the exposure of the System to civil or criminal sanctions or adverse administrative determinations.

15. Functional Expenses

The System provides general health care services to residents throughout various geographic locations. Expenses related to providing these services at June 30 are as follows (in thousands):

	<u>2013</u>	<u>2012</u>
Health care services	\$ 2,566,807	\$ 2,515,189
Physician services	253,752	228,298
General and administrative	807,661	798,490
Total	<u>\$ 3,628,220</u>	<u>\$ 3,541,977</u>

16. Temporarily and Permanently Restricted Net Assets

During 2013, the System determined that in prior years it should have recorded a beneficial interest in the net assets of financially inter-related entities in the Santa Rosa Region, since those entities hold funds that are restricted for the benefit of Santa Rosa Children's Hospital. The System determined this amount was not material to the prior-year financial statements, and therefore recorded the beneficial interest in the current-year financial statements. The prior-year effect of recording the beneficial interest was \$40,841,000, which is included as an adjustment to beginning net assets in the accompanying consolidated statements of operations and changes in net assets.

Temporarily restricted net assets at June 30 are available for the following purposes (in thousands):

	<u>2013</u>	<u>2012</u>

18. Significant Events

Baptist St. Anthony

On January 2, 2013, BSAHS completed a transaction that resulted in the transfer of substantially all the assets of BSAHS to a subsidiary of Ardent Health Services, based in Nashville, Tennessee. CHRISTUS recorded a gain of \$95,997,000 on the sale of BSAHS, which is included in the accompanying consolidated statements of operations and changes in net assets in equity in income of unconsolidated organizations. For additional details regarding this transaction refer to Note 8, Investments in Unconsolidated Organizations.

Atlanta Memorial Hospital

Effective January 1, 2013, Atlanta Memorial Hospital in Atlanta, Texas, began operating as CHRISTUS St. Michael Hospital – Atlanta. Through an agreement finalized on August 31, 2013, CHRISTUS St. Michael Health System will lease the hospital for 10 years.

Santa Rosa City Center

In July 2012, the CHRISTUS Santa Rosa City Center campus ceased adult services and began implementation of a plan to transition the campus to a free-standing pediatric facility, CHRISTUS Santa Rosa Children's Hospital. The facility expansion and renovation project is expected to cost \$135,000,000, and is expected to be completed within 24 months. The pediatric services will continue operation throughout the project. Once completed, the CHRISTUS Santa Rosa Children's Hospital will be licensed for 275 beds.

CHRISTUS Spohn and Nueces County Hospital District Relationship

On October 1, 2012, CHRISTUS Spohn Health System Corporation (Spohn) entered into a membership agreement with Nueces County Hospital District (the District) for the purpose of ensuring the continued operation of Spohn as the public safety-net hospital in Nueces County. Under the terms of the agreement, the District will provide Spohn with the right to use and operate the facilities at the CHRISTUS Spohn Hospital Corpus Christi – Memorial location. As under the terms of the agreement, Spohn will provide to the District a pro rata share, to be determined annually, of the non-federal patient collections. For the period October 1, 2012, to September 30, 2013, the pro rata share is 35.5%. Through June 30, 2013, Spohn has recorded transfers of \$67,481,000 in revenue to the District under this term of agreement, reflected as expenses within operating income in the accompanying consolidated statements of operations and changes in net assets.

Community Benefit (Unaudited)

CHRISTUS Health (CHRISTUS or the System) complies with the Catholic Health Association's (CHA), *A Guide for Planning and Reporting Community Benefits*, ⁶ 2008, and the state of Texas reporting requirements. CHA guidelines have adopted the instructions for IRS Form 990, Schedule H.

Following is a summary of the System's quantifiable costs of community benefits provided for the years ended June 30 (in thousands)

	2013	2012
	<i>(Unaudited)</i>	
Programs and services for the poor and underserved		
Charity care at unpaid cost	\$ 195,839	\$ 168,645
Unpaid cost of Medicaid and other public programs	(112,653)	(60,976)
Community services for the poor and underserved	76,776	135,145
Total for the poor and underserved	159,962	242,814
Community services for the broader community		
Education and research	10,661	11,378
Other community services	6,001	5,555
Total for the broader community	16,662	16,933
Total community benefits	\$ 176,624	\$ 259,747

The totals are calculated following CHA guidelines and adhere to IRS Form 990, Schedule H methodology. CHRISTUS has multiple reporting requirements of charity care and community benefit, which vary based on the definitional and timing requirements of each requesting organization.

In addition to the community benefits reported above, the state of Texas requires that the unpaid costs of Medicare and other government-sponsored programs be reported. For the fiscal years ended June 30, 2013 and 2012, the unpaid costs of these programs were \$125,732,000 and \$163,223,000, respectively. The unpaid costs of the Medicare program represent the cost of providing services to primarily elderly beneficiaries of the Medicare program, in excess of governmental and managed care contract payments. The unpaid costs of other government-sponsored programs represent the cost for providing health care services to the beneficiaries of the Department of Defense (DOD) civilian care, included as per the State of Texas guidelines.

CHRISTUS Health

Community Benefit (Unaudited) (continued)

As noted, the CHRISTUS Community Direct Investment (CDI) Program was established to support community-driven initiatives, primarily for affordable housing and economic development, by providing financing at below-market interest rates. At June 30, 2013 and 2012, the CDI Program had \$5,727,000 and \$5,881,000, respectively, in outstanding loans, in both years approximately 83% of these loans relate to projects in CHRISTUS regions. The difference between the interest rates charged on the loans and the amount that the System would have earned on these monies is the forgone interest that is considered a community benefit. In fiscal years 2013 and 2012, the amount recognized as a community benefit related to this program was \$154,000 and \$171,000, respectively.

As noted, the CHRISTUS Fund was established for the purpose of providing grants to support community planning, healthy community initiatives, and community-based programs, with a focus on the poor and underserved areas where CHRISTUS ministries and sponsoring congregations are involved. During fiscal years 2013 and 2012, the CHRISTUS Fund provided grants of \$1,017,000 and \$1,237,000, respectively, approximately 100% and 95% of the grants relate to programs in CHRISTUS regions in 2013 and 2012, respectively.
