Identifier	ReturnReference	Explanation
Bad debt expense - methodology used to estimate amount	Schedule H, Part III, Line 2	THE AMOUNT OF THE ORGANIZATION'S BAD DEBT AT COST IS DETERMINED BY APPLYING THE CCR (SEE ABOVE) TO PATIENT CHARGES THAT ARE DEEMED TO BE UNCOLLECTIBLE. THIS AMOUNT REPRESENTS THE COST OF SERVICES PROVIDED TO PATIENTS WHO ARE UNABLE OR REFUSE TO PAY THEIR BILLS AND DO NOT QUALIFY FOR FREE OR DISCOUNTED CARE, GOVERNMENT SPONSORED PROGRAMS OR OTHER FINANCIAL ASSISTANCE, AND ARE OTHERWISE UNINSURED. ANY PORTION OF A PATIENT BILL REMAINING AFTER APPLYING FINANCIAL, UNINSURED OR OTHER DISCOUNTS OR PAYMENTS RECEIVED ON THE ACCOUNT THAT ARE ULTIMATELY DETERMINED TO BE UNCOLLECTIBLE ARE WRITTEN OFF TO BAD DEBT. AS NOTED IN PART I, LINE 3B, SNMMH PROVIDES FREE OR DISCOUNTED CARE TO UNINSURED OR UNDER-INSURED INDIVIDUALS AT OR BELOW 500% OF THE FEDERAL POVERTY LEVEL. SNMMH ALSO PROVIDES PATIENTS OPTIONS FOR PROMPT PAY DISCOUNTS, DISCOUNTS FOR THE MEDICALLY INDIGENT, AND INTEREST-FREE EXTENDED PAYMENT PLANS FOR PATIENTS WHO HAVE DEMONSTRATED GOOD FAITH AND ARE COOPERATING IN RESOLVING THEIR HOSPITAL BILLS. ALL ACCOUNTS FOR ELIGIBLE UNINSURED PATIENTS RECEIVE AN AUTOMATIC UNINSURED DISCOUNT OF 25% FOR PATIENTS SEEN AT CALIFORNIA FACILITIES. THE EXPECTED PATIENT PAYMENT AMOUNT ON THE PATIENT'S BILL REFLECTS THIS DISCOUNT.
Bad debt expense - methodology used to estimate amount as community benefit	Schedule H, Part III, Line 3	SNMMH MAKES EVERY EFFORT IN DETERMINING IF A PATIENT QUALIFIES FOR CHARITY CARE UPON ADMISSION. SNMMH FOLLOWS DIGNITY HEALTH'S FINANCIAL ASSISTANCE POLICY. THIS FINANCIAL ASSISTANCE POLICY IS COMMUNICATED TO PATIENTS UPON ADMISSION AND IS AVAILABLE IN THE LANGUAGES PRIMARILY SPOKEN IN THE COMMUNITY. IT IS ALSO POSTED IN VARIOUS COMMON AREAS OF THE HOSPITAL AND IS PROVIDED UPON BILLING IF ELIGIBILITY IS NOT PREVIOUSLY DETERMINED. ELIGIBILITY IS REEVALUATED AS NEEDED AND AMOUNTS ARE CLASSIFIED AS FINANCIAL ASSISTANCE AS SOON AS ELIGIBILITY IS KNOWN. SNMMH ALSO UTILIZES A PAYMENT ASSISTANCE RANK ORDERING (PARO) SCORING SYSTEM TO ASSIST IN DETERMINING IF A PATIENT MAY QUALIFY FOR FINANCIAL ASSISTANCE EVEN THOUGH THEY HAVE NOT APPLIED FOR IT. PARO IS A METHODOLOGY THAT APPLIES CONSISTENT SCREENING AND APPLICATION STANDARDS TO ALL PATIENTS UTILIZING HISTORICAL DATA TO DEVELOP A PREDICTIVE MODEL FOR HEALTHCARE FINANCIAL ASSISTANCE. IN ITS DEVELOPMENT, SPECIAL ATTENTION WAS PAID TO THOSE SOCIO-ECONOMIC FACTORS THAT MIGHT ADVERSELY AFFECT THOSE PATIENTS DESERVING THE MOST ATTENTION. OTHER CRITERIA ARE ALSO UTILIZED TO ENSURE THAT NO SERVICES THAT HAVE QUALIFIED AS CHARITY ARE REPORTED AS BAD DEBT. AS SUCH, SNMMH DOES NOT BELIEVE THAT ANY AMOUNTS INCLUDED IN PART III, LINE 2, ARE ATTRIBUTABLE TO PATIENTS ELIGIBLE UNDER THE ORGANIZATION'S FINANCIAL ASSISTANCE POLICY.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
Dignity Health
San Francisco, California

We have audited the accompanying consolidated balance sheets of Dignity Health and Subordinate Corporations ("Dignity Health") as of June 30, 2013 and 2012, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to Dignity Health's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Dignity Health's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Dignity Health as of June 30, 2013 and 2012, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America

Disclaimer of Opinion on Un-sponsored Community Benefit Expense Information

Our audits were conducted for the purpose of forming an opinion on the basic consolidated financial statements as a whole. The un-sponsored community benefit expense information in Note 23 is presented for the purpose of additional analysis and is not a required part of the basic consolidated financial statements. This supplementary information is the responsibility of Dignity Health's management. Such information has not been subjected to the auditing procedures applied in our audits of the basic consolidated financial statements and, accordingly, it is inappropriate to and we do not express an opinion on the supplementary information referred to above.

DIGNITY HEALTH AND SUBORDINATE CORPORATIONS

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS YEARS ENDED June 30, 2013 and 2012

1. ORGANIZATION

Dignity Health (“the Corporation”) is a California nonprofit public benefit corporation exempt from federal and state income taxes. In January 2012, the Corporation, formerly known as Catholic Healthcare West, implemented a governance restructuring and announced its name change. The governance restructuring was implemented through revisions to Catholic Healthcare West’s corporate documents, including Restated Articles of Incorporation and Restated Bylaws. Dignity Health transitioned to a self-perpetuating Board of Directors structure from the prior structure where the Board of Directors was appointed by Corporate Members, which had been comprised of women religious appointed by the religious orders that sponsored the organization. There was no change to the ownership, use of the corporation’s assets or federal tax identification number, nor did the governance restructuring impact the corporation’s management structure or nonprofit status. Dignity Health received an IRS determination letter to maintain its 501(c)(3) tax-exempt status, retroactive to the application date in December 2011.

Dignity Health owns and operates healthcare facilities in California, Arizona and Nevada, and is the sole corporate member (parent corporation) of other primarily nonprofit corporations in California, Arizona and Nevada, which are exempt from federal and state income taxes. These organizations provide a variety of healthcare-related activities, education and other benefits to the communities in which they operate. Healthcare services include inpatient, outpatient, subacute and home healthcare services, as well as physician services through Dignity Health Medical Foundation and other affiliated medical groups. Dignity Health also provides occupational health and urgent care services in 17 additional states through U.S. HealthWorks, Inc.

The accompanying consolidated financial statements include Dignity Health and its subordinate corporations and subsidiaries (together “Dignity Health”), as disclosed in Note 24.

As part of a system-wide corporate financing plan, Dignity Health established an Obligated Group to access the capital markets and make loans to its members. Obligated Group members are jointly and severally liable for the long-term debt outstanding under a Master Trust Indenture. None of the other Dignity Health subordinate corporations have assumed any financial obligation related to payment of debt service on obligations issued under the Master Trust Indenture. A list of Obligated Group members and other subordinate corporations and subsidiaries is included in Note 24.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis for Presentation – The accompanying consolidated financial statements include the accounts of Dignity Health after elimination of intercompany transactions and balances. Certain reclassifications and changes in presentation were made in the 2012 consolidated financial statements to conform to the 2013 presentation. Also, the prior year statement of operations and changes in net assets have been retrospectively reclassified for discontinued operations as disclosed in Note 3.

Use of Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Dignity Health considers critical accounting policies to be those that require more significant judgments and estimates in the preparation of its consolidated financial statements, including the following recognition of net patient revenue, which includes contractual allowances and discounts, provisions for bad

debts and charity care, recorded values of investments and goodwill, losses and expenses related to the self-insured workers' compensation and professional and general liabilities, and risks and assumptions for measurement of pension and other postretirement liabilities. Management bases its estimates on historical experience and various other assumptions that it believes are reasonable under the particular facts and circumstances. Actual results could differ from those estimates.

Cash and Cash Equivalents – Cash and cash equivalents consist primarily of cash and highly liquid marketable securities with an original maturity of three months or less.

Securities Lending Program – Dignity Health participates in securities lending transactions with its custodian whereby Dignity Health lends a portion of its investments to various brokers in exchange for collateral for the securities loaned, usually on a short-term basis. Dignity Health maintains effective control of the loaned securities through its custodian during the term of the arrangement in that they may be recalled at any time. Collateral is provided by brokers at an amount equal to at least 100% of the original value of the securities on loan, and is subsequently adjusted for market fluctuations. Dignity Health must return to the borrower the original value of collateral received regardless of the impact of market fluctuations. Under the terms of the agreement, the borrower must return the same, or substantially the same, investments that were borrowed.

The securities on loan under this program are recorded in Board-designated assets in the accompanying consolidated balance sheets. Dignity Health receives both cash and non-cash collateral. Cash collateral is recorded as an asset of the organization. The market value of collateral held for loaned securities is reported as collateral held under securities lending program, and an obligation is reported for repayment of collateral upon settlement of the lending transaction as payable under securities lending program.

Inventory – Inventories are stated at the lower of cost or market value, determined using the first-in, first-out method.

Broker Receivables and Payables for Unsettled Investment Trades – Dignity Health accounts for its investments on a trade date basis. Amounts due to/from brokers for investment activity for transactions that have been initiated prior to the consolidated balance sheet date that are formally settled subsequent to the consolidated balance sheet date are recorded in broker receivables for unsettled investment trades for sales of investments and in broker payables for unsettled investment trades for purchases of investments.

Investments and Investment Income – The Dignity Health Board of Directors Investment Committee establishes guidelines for investment decisions. Within those guidelines, Dignity Health invests in equity and debt securities which are measured at fair value and are classified as trading securities.

Dignity Health also invests in alternative investments through limited partnerships. Alternative investments are comprised of private equity, real estate, hedge fund and other investment vehicles. Dignity Health receives a proportionate share of the investment gains and losses of the partnerships. The limited partnerships generally contract with managers who have full discretionary authority over the investment decisions, within Dignity Health's guidelines. These alternative investment vehicles invest in equity securities, fixed income securities, currencies, real estate, commodities, and derivatives.

Dignity Health accounts for its ownership interests in these alternative investments under the equity method, whose value is based on the net asset value ("NAV"), which approximates fair value, and is determined using investment valuations provided by the external investment managers and fund managers or the general partners.

Alternative investments generally are not marketable and many alternative investments have underlying investments which may not have quoted market values. The estimated value of such investments is subject to uncertainty and could differ had a ready market existed. Such differences could be material. Dignity Health's risk is limited to its capital investment in each investment and capital call commitments as discussed in Note 8.

Investment income or loss is included in excess of revenues over expenses unless the income or loss is restricted by donor or law. Income earned on tax-exempt borrowings for specific construction projects is offset against interest expense capitalized for such projects.

Board-Designated Assets for Capital Projects – The Board of Directors has a policy of funding depreciation, to the extent that funds are available, to be used for replacement, expansion and improvement of operating property and equipment.

Deferred Financing Costs and Original Issue Discounts/Premiums on Bond Indebtedness – Dignity Health amortizes deferred financing costs and original issue discounts/premiums on bond indebtedness over the estimated average period the related bonds will be outstanding. Deferred financing costs are included in other long-term assets. Original issue discounts/premiums are recorded with the related debt.

Property and Equipment – Property and equipment are stated at cost, if purchased, and at fair market value, if donated. Depreciation of property and equipment is recorded using the straight-line method for financial statement purposes. Amortization of capital leases is included in depreciation expense. Estimated useful lives by major classification are as follows:

Land improvements	2 to 40 years
Buildings	3 to 65 years
Equipment	2 to 40 years
Software development	5 to 10 years

Asset Retirement Obligations – Dignity Health recognizes the fair value of a liability for legal obligations associated with asset retirements in the period in which it is incurred, if a reasonable estimate of the fair value of the obligation can be made. Upon settlement of the obligation, any difference between the cost to settle the asset retirement obligation and the liability recorded is recognized as a gain or loss in the consolidated statements of operations and changes in net assets.

Asset Impairment – Dignity Health routinely evaluates the carrying value of its long-lived assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the asset, or related group of assets, may not be recoverable from estimated future undiscounted cash flows generated by the underlying tangible assets. When the carrying value of an asset exceeds the estimated recoverability, an asset impairment charge is recognized. The impairment tests are based on financial projections prepared by management that incorporate anticipated results from programs and initiatives being implemented and market value assessments of the assets. If these projections are not met, or if negative trends occur that impact the future outlook, the value of the long-lived assets may be impaired, which could be material. An asset impairment charge of \$8.0 million was recognized in 2013 reflecting the estimated non-recoverability of the carrying value of the assets of a facility in California and an impairment charge was recognized in discontinued operations related to Saint Mary's Regional Medical Center in 2012 as discussed in Note 3.

Dignity Health evaluates the carrying value of goodwill annually on various dates, depending on the annual impairment testing date of the reporting unit, or when an event or circumstance indicates the value of the reporting unit may have changed. If, after assessing events and circumstances, it is concluded that it is more likely than not that the asset is impaired, the fair value is determined and is compared to the carrying value. If the carrying value exceeds the fair value, an impairment charge is recognized.

Fair Value of Financial Instruments – The carrying amounts reported in the consolidated balance sheets for cash and cash equivalents, accounts receivable, accounts payable, and accrued liabilities approximate fair value due to their short maturities. The fair value of investments and debt is disclosed in Note 8.

Derivative Instruments – Dignity Health utilizes derivative arrangements to manage interest costs and the risk associated with changing interest rates. Dignity Health records derivative instruments on the consolidated balance sheet as either an asset or liability measured at its fair value. See Notes 8 and 17.

Dignity Health does not currently have derivative instruments that are designated as hedges. Changes in fair value are included in interest expense, net, in the consolidated statements of operations and changes in net assets.

Ownership Interests in Health-Related Activities – Generally, when the ownership interest in health-related activities is more than 50% and Dignity Health has a controlling interest, the ownership interests are consolidated and a noncontrolling interest is recorded in unrestricted net assets. When the ownership interest is at least 20%, but not more than 50%, or Dignity Health has the ability to exercise significant influence over operating and financial policies of the investee, it is accounted for under the equity method and the income or loss is reflected in revenue from health-related activities, net. Ownership interests for which Dignity Health's ownership is less than 20% or for which Dignity Health does not have the ability to exercise significant influence are carried at the lower of cost or estimated net realizable value. Other than the investments in Scripps Health, Mercy Care Plan and Phoenix Children's Hospital, Inc. (Note 10), these ownership interests are not material to the consolidated financial statements.

Self-Insurance Plans – Dignity Health maintains self-insurance programs for workers' compensation benefits for employees and for professional and general liability risks. Annual self-insurance expense under these programs is based on past claims experience and projected losses. Actuarial estimates of uninsured losses for each program at June 30, 2013 and 2012, have been accrued as liabilities and include an actuarial estimate for claims incurred but not reported.

Dignity Health has insurance coverage in place for amounts in excess of the self-insured retention for workers' compensation and professional and general liabilities.

Dignity Health maintains separate trusts for these programs from which claims and related expenses and costs of administering the plans are paid. Dignity Health's policy is to fund the trusts such that over time, assets held equal liabilities for claims incurred for workers' compensation and claims made for professional liability risks.

Self-insurance expense decreased \$28.4 million and \$16.2 million in 2013 and 2012, respectively, related to revisions to prior years' actuarially estimated liabilities. The expenses and related adjustments are recorded in salaries and benefits for workers' compensation benefits and in purchased services and other for professional and general liability risks in the accompanying consolidated statements of operations and changes in net assets.

Patient Accounts Receivable, Allowance for Doubtful Accounts and Net Patient Revenue – Dignity Health has agreements with third-party payors that provide for payments at amounts different from each hospital's established rates. Payment arrangements with third-party payors include prospectively determined rates per discharge, per diem payments, discounted charges and reimbursed costs. Patient accounts receivable and net patient revenue are reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered. Net patient revenue includes estimated settlements under payment agreements with third-party payors. Settlements with third-party payors are accrued on an estimated basis in the period in which the related services are rendered and adjusted in future periods as final settlements are determined.

Dignity Health recognizes patient revenue associated with services provided to patients who have third-party payor coverage on the basis of contractual rates for the services rendered and estimated collectability of deductibles and co-insurance. For uninsured patients that meet certain financial criteria, standard charity discounts are recorded. For uninsured patients that do not qualify for charity care, Dignity Health recognizes revenue on the basis of discounted rates. Dignity Health regularly reviews accounts and contracts and provides appropriate contractual allowances and reserves for charity and uncollectible amounts that are netted against patient accounts receivable in the consolidated balance sheets. Based on historical experience, trends in health care coverage, and other collection indicators, a significant portion of Dignity Health's uninsured patients will be unable or unwilling to pay for the services provided. Thus, Dignity Health records a significant provision for bad debts related to uninsured patients in the period the services are provided.

As part of Dignity Health's mission to serve the community, Dignity Health provides care to patients even though they may lack adequate insurance or may participate in programs with negotiated or regulated payment amounts. Dignity Health makes every effort to determine if a patient qualifies for charity care upon admission, though determination may also be made at a later time. After satisfaction of amounts due from insurance, the application of any financial, uninsured or other discounts or payments received on the account, and reasonable efforts to collect from the patient have been exhausted, Dignity Health follows established guidelines for placing certain past-due patient balances with collection agencies, subject to the terms of certain restrictions on collection efforts as determined by Dignity Health.

Premium Revenue – Dignity Health has at-risk agreements with various payors to provide medical services to enrollees. Under these agreements, Dignity Health receives monthly payments based on the number of enrollees, regardless of services actually performed by Dignity Health. Dignity Health accrues costs when services are rendered under these contracts, including estimates of incurred but not reported ("IBNR") claims and amounts receivable/payable under risk-sharing arrangements. The IBNR accrual includes an estimate of the costs of services for which Dignity Health is responsible, including out-of-network services.

Traditional Charity Care – Charity care is free or discounted health services provided to persons who cannot afford to pay and who meet Dignity Health's criteria for financial assistance. The amount of services quantified as customary charges was \$907.7 million and \$883.7 million for 2013 and 2012, respectively, including such charges from discontinued operations. Dignity Health estimates the cost of charity care by calculating a ratio of cost to usual and customary charges and applying that ratio to the usual and customary uncompensated charges associated with providing care to patients that qualify for charity care. The estimated cost of charity care provided in 2013 and 2012 was \$198.4 million and \$188.4 million, respectively. See Note 23.

Other Operating Revenue – Other operating revenue includes meaningful use incentives, net gains and losses on the sale of assets, cafeteria revenues, rental revenues, contributions released from restrictions and other nonpatient-care revenues. In 2013, other operating revenue includes \$37.6 million related to a gain on sale of certain assets related to Dignity Health's outreach lab services to two unrelated parties.

Contributions and Restricted Net Assets – Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is met, temporarily restricted net assets related to capital purchases are reclassified as unrestricted and reflected as net assets released from restrictions used for the purchase of property and equipment on the statements of changes in net assets, whereas temporarily restricted net assets related to other gifts are reclassified as unrestricted and recorded as other operating revenue in unrestricted revenues and other support. Gifts received with no restrictions are recorded as contributions in unrestricted revenues and other support. Gifts of long-lived operating assets, such as property and equipment, are reported as unrestricted net assets unless otherwise specified by the donor.

Unconditional promises to give cash and other assets to Dignity Health are recorded at fair value at the date the promise is received. Conditional promises to give are recorded when the conditions have been substantially met. Indications of intentions to give are not recorded; such gifts are recorded at fair value only upon actual receipt of the gift. Investment income on temporarily or permanently restricted net assets is classified pursuant to the intent or requirement of the donor.

Endowment assets include donor-restricted funds that the organization must hold in perpetuity or for a donor-specified period. Dignity Health preserves the fair value of these gifts as of the date of donation unless otherwise stipulated by the donor. The portion of donor-restricted endowment funds that are not classified in permanently restricted net assets are classified as temporarily restricted net assets until those amounts are appropriated for expenditure. Dignity Health considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds: (1) the duration and preservation of the fund, (2) the purposes of the organization and the donor-restricted endowment fund, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return

from income and the appreciation of investments, (6) other resources of the organization, and (7) the investment policies of Dignity Health

Dignity Health has investment and spending policies for endowment assets designed to provide a predictable stream of funding to programs supported by its endowments while seeking to maintain the purchasing power of the endowment assets

Endowment assets are invested in a manner that is intended to produce results that achieve the respective benchmark while assuming a moderate level of investment risk. Actual returns in any given year may vary from this amount. To satisfy its long-term rate-of-return objectives, Dignity Health relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Dignity Health targets a diversified asset allocation to achieve its long-term return objectives within prudent risk constraints.

From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that Dignity Health is required to retain as a fund of perpetual duration. Deficits of this nature are reported in unrestricted net assets, unless otherwise specified by the donor.

Community Benefits – As part of its mission, Dignity Health provides services to the poor and benefits for the broader community. The costs incurred to provide such services are included in excess of revenues over expenses in the consolidated statements of operations and changes in net assets. Dignity Health prepares a summary of unsponsored community benefit expense in accordance with Internal Revenue Service Form 990, Schedule H, and the Catholic Health Association of the United States (“CHA”) publication, *A Guide for Planning and Reporting Community Benefit*. See Note 23.

Interest Expense – Interest expense on debt issued for construction projects is capitalized until the projects are placed in service. The components of interest expense, net, include interest and fees on debt, swap cash settlements, and market adjustment on swaps. See Note 18.

Income Taxes – Dignity Health has established its status as an organization exempt from income taxes under the Internal Revenue Code Section 501(c)(3) and the laws of the states in which it operates, and as such, is generally not subject to federal or state income taxes. However, Dignity Health is subject to income taxes on net income derived from a trade or business, regularly carried on, which does not further the organization’s exempt purpose. No significant income tax provisions have been recorded in the accompanying consolidated financial statements for net income, if any, derived from any unrelated trade or business as management has determined that such amounts are not material to the consolidated financial statements taken as a whole.

Dignity Health’s for-profit subsidiaries account for income taxes related to their operations. The for-profit subsidiaries recognize deferred tax assets and liabilities for temporary differences between the financial reporting basis and the tax basis of their assets and liabilities along with net operating loss and tax credit carryovers only for tax positions that meet the more likely than not recognition criteria. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs.

Dignity Health reviews its tax positions annually and has determined that there are no material uncertain tax positions that require recognition in the accompanying consolidated financial statements.

Performance Indicator – Management considers excess of revenues over expenses to be Dignity Health’s performance indicator. Excess of revenues over expenses includes all changes in unrestricted net assets except for the effect of changes in accounting principles, losses from discontinued operations, change in net unrealized gains and losses on available-for-sale investments, net assets released from restrictions used for purchase of property and equipment, change in funded status of pension and other postretirement benefit plans, change in noncontrolling interest in health-related activities, change in accumulated unrealized derivative gains and losses, and funds donated from unconsolidated sources for purchase of property and equipment.

Transactions between Related Organizations – Certain Obligated Group members have a policy whereby assets are periodically transferred as charitable distributions to nonprofit corporations that are subordinate corporations of Dignity Health but are not members of the Obligated Group. The subordinate corporations conduct charitable healthcare, educational and religious activities and support subordinate nonprofit healthcare organizations. These transfers are accounted for as direct charges to the Obligated Group members' unrestricted net assets and direct credits to the subordinate corporations' unrestricted net assets. It is anticipated that Obligated Group members will continue to make asset transfers to the subordinate corporations.

Recent Accounting Pronouncements – In December 2011, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2011-11, *Balance Sheet (Topic 210), Disclosures about Offsetting Assets and Liabilities* ("ASU 2011-11"). The amendments in ASU 2011-11 require entities to disclose information about offsetting and related arrangements to enable users of its financial statements to understand the effect of those arrangements on its financial position. The disclosure requirements of ASU 2011-11, which are to be applied retrospectively, are effective for Dignity Health as of July 1, 2013. The adoption of ASU 2011-11 is not expected to have a material impact on the consolidated financial statements of Dignity Health.

In July 2011, the FASB issued ASU No. 2011-07, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities* ("ASU 2011-07") which amended Accounting Standards Codification ("ASC") No. 954, *Health Care Entities* to provide greater transparency regarding a health care entity's net patient revenue and the related allowance for doubtful accounts. ASU 2011-07 requires certain health care entities to change the presentation of the provision for bad debts associated with patient service revenue by reclassifying the provision from operating expenses to a deduction from net patient revenue and requires enhanced disclosures about net patient revenue and the policies for recognizing revenue and assessing bad debts. The provisions of ASU 2011-07, which are to be applied retrospectively, were adopted by Dignity Health beginning July 1, 2012. As such, the provision for bad debts associated with patient care has been reclassified for all periods presented in accordance with the provisions of this pronouncement. See Note 4.

Subsequent Events – Dignity Health has evaluated subsequent events occurring between the end of the most recent fiscal year and September 24, 2013, the date the financial statements were available to be issued. See Notes 10 and 16.

3. MERGERS, ACQUISITIONS AND DIVESTITURES

In August 2012, Dignity Health acquired all of the outstanding common stock of USHW Holdings Corporation (dba U.S. HealthWorks) ("USHW"), a multi-state for-profit operator of occupational health and urgent care centers, and paid \$455.0 million plus certain working capital adjustments. In addition, Dignity Health has agreed to pay additional amounts based on certain future events resulting in increased revenue to USHW to the extent they occur prior to January 31, 2014, subject to the terms and conditions of the purchase agreement. The fair value of the contingent consideration recognized on the acquisition was estimated at \$51.5 million. As of June 30, 2013, the estimated fair value of the contingent consideration was unchanged.

In connection with the acquisition, USHW subsidiaries became indirect subsidiaries of Dignity Health. As of June 30, 2013, these subsidiaries operated approximately 200 occupational health and urgent care centers in 19 states. All tangible and intangible assets acquired and liabilities assumed in the transaction were recorded at fair value in accordance with the acquisition method of accounting. The results of operations of USHW are included in Dignity Health's consolidated financial statements from the date of the acquisition.

The following summarizes the fair values of the assets acquired and liabilities assumed as of the acquisition date which are included in the condensed consolidated balance sheet at June 30, 2013 (in thousands)

Current assets, including cash and cash equivalents	\$ 81,425
Property and equipment, net	32,581
Goodwill	277,959
Intangible assets, net	
U S HealthWorks trade name	152,700
Customer relationships and other	79,750
Other long-term assets, net	<u>23,711</u>
Total assets acquired	<u>648,126</u>
Current liabilities	35,384
Long-term liabilities	<u>103,390</u>
Total liabilities acquired	<u>138,774</u>
Net acquired assets	<u>\$ 509,352</u>

The valuation of assets acquired was based on management's estimates, currently available information and reasonable and supportable assumptions. The purchase price allocation was based on the fair value of these assets determined using the income approach and the cost method approach. The income approach uses a discounted cash flow model. Dignity Health calculated the present value of the expected future cash flows attributable to the acquired intangibles using an 11.5% discount rate. With respect to intangible assets, Dignity Health used the excess earnings method and the cost method for valuing customer relationships and the relief from royalties method for valuing the trade name with a royalty rate of 3.0%. Contingent consideration was initially valued and will be periodically remeasured on a fair value basis using Level 3 pricing inputs as described in Note 8, using a probability weighted approach and a discount rate of 4.1%. Dignity Health allocated the residual value to goodwill. Goodwill represents the excess of the purchase price over the fair value of the net tangible and intangible assets acquired.

Also in connection with the acquisition, Dignity Health reversed an existing valuation allowance against its deferred tax assets of \$33.3 million as management anticipates that the tax benefits will be utilized by profitable operations from USHW. The reversal of the valuation allowance is reflected as a reduction of purchased services and other in the statements of operations and changes in net assets.

During 2013, Dignity Health entered into negotiations to sell 100% of the outstanding shares of capital stock of Saint Mary's Healthfirst, Saint Mary's Preferred Health Insurance Company, Inc., and CDS of Nevada, Inc. (the "Health Plans"), all in Reno, NV, to an unrelated party. Accordingly, the assets and liabilities of the entities with a carrying value of \$39.3 million and \$22.8 million, respectively, have been classified as held for sale on the accompanying balance sheet as of June 30, 2013, and the operations of the entities are reflected as discontinued in the accompanying statements of operations and changes in net assets for all periods presented. A gain is anticipated on the sale and will be recorded in discontinued operations in the statement of operations and changes in net assets at the date of the sale.

In June 2012, Dignity Health and its wholly-owned subsidiary Saint Mary's Multi-Specialty Clinic, Inc. (dba Saint Mary's Medical Group) sold substantially all of the land, buildings, equipment, inventory and certain other property of Saint Mary's Regional Medical Center, a 380-bed hospital, and the operations of Saint Mary's Medical Group, both in Reno, Nevada, to an unrelated party for \$50.0 million and the assumption of certain lease obligations pursuant to an asset purchase agreement. Property value adjustments were recorded in loss from discontinued operations in the statements of operations and changes in net assets when the assets were recorded as held for sale and a loss of approximately \$1.0 million was recorded upon closure of the sale. As a result of the sale, approximately \$94.0 million in outstanding tax-exempt debt required remediation within 90 days of the closure of the sale. Proceeds from the sale were used to legally

debt \$42.1 million of outstanding bond obligations to the first call date, satisfying the remediation requirement. The remaining bonds remain subject to their original maturity date.

The accompanying consolidated statements of operations and changes in net assets reflect the results of the operations of facilities sold, closed or held for sale as discontinued operations for all periods presented, including revenues of \$149.7 million and \$437.6 million for 2013 and 2012, respectively.

4. NET PATIENT REVENUE AND ACCOUNTS RECEIVABLE

The percentage of inpatient and outpatient services, calculated on the basis of usual and customary charges, is as follows:

	2013	2012
Inpatient services	61%	64%
Outpatient services	39%	36%

Patient revenue, net of contractual allowances and discounts (before provision for bad debts) is comprised of the following:

	2013	2012
Government	47%	49%
Contracted	37%	39%
Self-pay and other	16%	12%
	<u>100%</u>	<u>100%</u>

Government payor type includes Medicare fee for service, Medicare capitated, Medicare managed care fee for service, Medicaid fee for service, Medicaid capitated and Medicaid managed care fee for service patient accounts. Contracted payor type includes contracted rate payors and commercial capitated patient accounts.

5. REVENUE FROM GOVERNMENT PROGRAMS

The following enhance or adjust the per case, per diem, per procedure or per visit amounts received for patient services:

Medicaid Supplemental Reimbursement Programs – Net patient revenue includes \$684.5 million and \$575.3 million related to supplemental Medi-Cal payments provided under the California provider fee programs in 2013 and 2012, respectively. These programs are funded by quality assurance fees paid by participating hospitals and matching federal funds. Dignity Health recorded \$432.1 million and \$320.7 million in such fees in purchased services and other expense in 2013 and 2012, respectively. Grant payments to the California Health Foundation and Trust (“CHFT”) were recognized in connection with the California provider fee programs resulting in \$22.2 million and \$20.9 million recorded in purchased services and other expense in 2013 and 2012, respectively. Total net income recognized in 2013 and 2012 was \$230.2 million and \$233.7 million, respectively. The current California program is in effect until December 31, 2013.

In April 2013, the Centers for Medicare & Medicaid Services (“CMS”) approved the Access to Care Program adopted by the City of Phoenix, Arizona. The program is a provider fee program and covers the period from October 1, 2012, through December 31, 2013. In 2013, net patient revenue includes \$56.4 million and purchased services and other expense includes \$27.0 million related to this program, for a net income impact of \$29.4 million.

In 2013, net patient revenue also includes \$30.5 million and purchased services and other expense includes \$17.1 million of grant expense related to prior year supplemental Medicaid payments received in Arizona, resulting in a net income impact of \$13.4 million.

“Meaningful Use” Incentives –The American Recovery and Reinvestment Act of 2009 established incentive payments under the Medicare and Medicaid programs for certain professionals and hospitals that meaningfully use certified electronic health record (“EHR”) technology. The Medicare incentive payments are paid out to qualifying hospitals over four consecutive years on a transitional schedule. To qualify for Medicare incentives, hospitals and physicians must annually meet EHR “meaningful use” criteria that become more stringent over three stages as determined by CMS.

Medicaid programs and payment schedules vary by state. The Medicaid programs in California and Arizona require hospitals to register for the program prior to 2016, to engage in efforts to adopt, implement or upgrade certified EHR technology in order to qualify for the initial year of participation, and to demonstrate meaningful use of certified EHR technology in order to qualify for payment for up to three additional years through 2019 for Arizona and 2021 for California. Nevada implemented a similar program requiring hospitals to demonstrate meaningful use of EHR technology by 2016 to qualify for payment for up to two additional years through 2018.

In 2013 and 2012, Dignity Health recorded meaningful use incentive revenue of \$40.4 million and \$21.7 million, respectively, related to the Medicare program and \$20.0 million and \$38.7 million, respectively, related to Medicaid programs. These incentives have been recognized in other operating revenue following the grant accounting model, recognizing income ratably over the applicable reporting period as management becomes reasonably assured of meeting the required criteria. Amounts recognized represent management’s best estimates for payments ultimately expected to be received based on estimated discharges, charity care, and other input data. Subsequent changes to these estimates will be recognized in the period in which additional information is available.

Medicaid Disproportionate Share Payments - Certain hospitals qualified for and received Medi-Cal funding as disproportionate-share hospitals from the State of California in 2013 and 2012. The amounts recorded were \$97.0 million and \$82.0 million, respectively, and are included in net patient revenue.

Cost Reports and Other Settlements – In 2013 and 2012, net patient revenue includes \$26.2 million and \$53.9 million in favorable net prior years’ reimbursement settlements from Medicare, Medicaid and other programs. Included in these amounts are \$41.5 million and \$34.1 million in recovery audit contractor take-backs, net of recoveries, for 2013 and 2012, respectively. Amounts recorded in 2012 also include \$69.3 million for settlement of an appeal with CMS related to underpayments that occurred between 1998 and 2011 as a result of errors in the Medicare inpatient wage index calculation.

The current portion of assets limited as to use includes the amount of assets available to meet current obligations for debt service and claims payments under the self-insured programs for workers' compensation for employees and professional and general liability

8. FAIR VALUE MEASUREMENTS

Dignity Health accounts for certain assets and liabilities at fair value or on a basis that approximates fair value. A fair value hierarchy for valuation inputs prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of the three levels and is determined by the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

Level 1 Quoted prices are available in active markets for identical assets or liabilities as of the measurement date. Financial assets and liabilities in this category include U.S. Treasury securities and listed equities.

Level 2 Pricing inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities. Financial assets and liabilities in this category generally include asset-backed securities, corporate bonds and loans, municipal bonds, and interest rate swaps.

Level 3 Pricing inputs are generally unobservable for the assets or liabilities and include situations where there is little, if any, market activity for the investment. The inputs into the determination of fair value require management's judgment or estimation of assumptions that market participants would use in pricing the assets or liabilities. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques. Financial assets in this category include alternative investments and contingent consideration.

The following represents assets and liabilities measured at fair value on a recurring basis and certain assets accounted for under the equity method as of June 30, 2013 and 2012 (in thousands)

Assets and liabilities measured at fair value on a recurring basis and certain assets accounted for under the equity method are reported in short-term investments, assets limited as to use, and other accrued liabilities in the consolidated balance sheets. Such amounts do not include certain donor-restricted funds and receivables or interests in unconsolidated foundations.

There were no significant transfers to or from Levels 1 or 2 during the periods presented.

The Level 2 and 3 instruments listed in the fair value hierarchy tables above use the following valuation techniques and inputs:

For marketable securities such as U S and foreign government securities, U S and foreign corporate bonds, U S and foreign equity securities, asset-backed securities, and structured debt, in the instances where identical quoted market prices are not readily available, fair value is determined using quoted market prices and/or other market data for comparable instruments and transactions in establishing prices, discounted cash flow models and other pricing models. These inputs to fair value are included in industry-standard valuation techniques such as the income or market approach. Dignity Health classifies all such investments as Level 2.

For investments such as private equity funds, multi-strategy hedge funds, real estate funds, and other limited partnership investments, fair value is determined using the calculated net asset value ("NAV") provided by the fund. The value of underlying investments of private equity funds is estimated based on recent filings, operating results, balance sheet stability, growth, and other business and market sector fundamentals. Real estate investments are priced using valuation techniques that include income, sales

comparison (market), and cost approaches. Significant inputs include contract and market rents, operating expenses, capitalization rates, discount rates, sales of comparable properties, and market rent growth trends, as well as the use of the value of property plus the cost of building a similar structure of equal utility. Hedge funds and other limited partnership investments typically value underlying securities traded on a national securities exchange or reported on a national market at the last reported sales price on the day of the valuation. Underlying securities traded in the over-the-counter market and listed securities for which no sale was reported on the valuation date are typically valued at the mean between representative bid and ask quotes obtained. Where no fair value is readily available, the fund or investment manager may determine, in good faith, the fair value using models that take into account relevant information considered material. Due to the significant unobservable inputs present in these valuations, Dignity Health classifies all such investments as Level 3. Dignity Health's management regularly monitors and evaluates the accounting and valuation methodologies of the investment managers. Management also performs, on a regular basis when information is made available, various validations and testing of the NAV provided and determines that the investment managers' valuation techniques are compliant with fair value measurement accounting standards. Significant increases (decreases) in any unobservable inputs used for Level 3 holdings, in isolation, would result in significantly lower (higher) fair value measurement.

The fair value of collateral held under securities lending program classified as Level 2 is determined using the calculated NAV. The collateral held under this program is placed in commingled funds whose underlying investments are valued using techniques similar to those used for the marketable securities noted above. Amounts reported do not include non-cash collateral of \$23.7 million and \$17.3 million as of June 30, 2013 and 2012, respectively.

The fair value of liabilities for derivative instruments such as interest rate swaps classified as Level 2 is determined using an industry standard valuation model, which is based on a market approach. A credit risk spread (in basis points) is added as a flat spread to the discount curve used in the valuation model. Each leg is discounted and the difference between the present value of each leg's cash flows equals the market value of the swap.

The fair value of liabilities for derivative instruments such as risk participation agreements classified as Level 3 is determined using the market value of the referenced securities in the agreements, which factors in the credit risk of the issuer.

The following table presents the change in the balance of financial assets and liabilities using significant unobservable inputs (Level 3) measured on a recurring basis and certain assets accounted for under the equity method in 2013 and 2012 (in thousands):

- (1) This category includes investments in commingled funds that invest primarily in domestic and foreign debt and fixed income securities, the majority of which are traded in over-the-counter markets
- (2) This category includes investments in commingled funds that invest primarily in domestic or foreign equity securities with multiple investment strategies. A majority of the funds attempt to match the returns of specific equity indices
- (3) This category includes investments of collateral held under securities lending program. Dignity Health participates in a securities lending program administered by its custodian as a means to augment income from its portfolio. Securities are loaned to select brokerage firms who in turn post collateral. The collateral is placed in commingled funds that invest primarily in cash and cash equivalents, and domestic and foreign debt securities

- (4) This category includes investments in hedge funds that pursue diversification of both domestic and foreign fixed income and equity securities through multiple investment strategies. The primary objective for these funds is to seek attractive long-term risk-adjusted absolute returns. Under certain circumstances, an otherwise redeemable investment or portion thereof could become restricted. Such restrictions were not applicable at June 30, 2013. The following table reflects the various redemption frequencies, notice periods, and any applicable lock-up periods or gates to redemption as of June 30, 2013.

- (5) This category includes several private equity funds that specialize in providing capital to a variety of investment groups, including but not limited to venture capital, leveraged buyout, mezzanine debt, distressed debt, and other situations. There are no provisions for redemptions during the life of these funds. Distributions from each fund will be received as the underlying investments of the funds are liquidated, estimated at June 30, 2013, to be over the next 2-12 years.
- (6) This category includes investments in real estate funds that invest primarily in institutional quality commercial and residential real estate assets within the U.S. and investments in publicly traded real estate investment trusts.
- (7) This category includes a commingled fund that invests primarily in a fixed income fund that provides capital in a variety of mezzanine debt, distressed debt and other special debt securities situations.

The investments included above are not expected to be sold at amounts that are different from NAV.

Fair Value of Debt - The fair value of Dignity Health's debt is estimated based on the quoted market prices and/or other market data for the same or similar issues and transactions in active markets or on the current rates offered to Dignity Health for debt of the same remaining maturities, discounted cash flow models and other pricing models. These inputs to fair value are included in industry-standard valuation techniques. Based on the inputs and valuation techniques, the fair value of long-term debt is classified as Level 2 within the fair value hierarchy. The carrying value of Dignity Health's debt is reported within the current portion of long-term debt, demand bonds subject to short-term liquidity arrangements and long-term debt, net of current portion, on the statement of financial position. The estimated fair value of Dignity Health's long-term debt instruments as of June 30, 2013, is as follows (in thousands):

	Carrying Value	Fair Value
Debt issued under Master Trust Indenture		
Fixed rate revenue bonds	\$ 2,403,767	\$ 2,538,257

10. OWNERSHIP INTERESTS IN HEALTH-RELATED ACTIVITIES

Dignity Health has significant ownership interests in three health-related activities, as further described below, that are accounted for under the equity method and reflected in the accompanying balance sheet in ownership interests in health-related activities:

- Dignity Health and Scripps Health ("Scripps") entered into an affiliation agreement in August 1995 to enhance their mutual ability to serve the San Diego community. Through the affiliation, Dignity

Health transferred the sole voting membership of one of its subordinate corporations, Mercy Healthcare San Diego ("MHSD") to Scripps, along with the responsibility for its operation and governance. MHSD's principal activity is the operation of a hospital and a network of clinics.

Pursuant to the affiliation agreement, among other things, Dignity Health obtained the right to 20% of the net proceeds, with certain restrictions, upon the liquidation of Scripps. Twenty percent of the members of the Scripps Board of Directors are elected from nominees proposed by Dignity Health.

- Dignity Health and Carondelet Health Network (now a member of Ascension Health) entered into an affiliation agreement in June 1985 by which each affiliate made a 50% investment in Southwest Catholic Healthcare Network, dba Mercy Care Plan. Mercy Care Plan operates a health plan for Arizona's Medicaid program, Arizona Health Care Cost Containment System.
- Dignity Health transferred and contributed to Phoenix Children's Hospital, Inc. ("PCH"), an Arizona nonprofit corporation, substantially all of the pediatric program services and related assets of its facility in Phoenix, Arizona in June 2011. Pursuant to the transaction, Dignity Health obtained 20% of the outstanding membership interests of PCH.

The following table summarizes the financial position and results of operations for the health-related organizations discussed above which are accounted for under the equity method, as of and for the 12 months ended June 30, 2013 and 2012 (in thousands):

Related to consolidated investments in health-related activities, Dignity Health recorded net changes in noncontrolling interests related to revenues, expenses, gains, and losses of \$27.3 million and \$21.1 million in purchased services and other in the consolidated statements of operations and changes in net assets for 2013 and 2012, respectively.

In July 2013, Dignity Health entered into an agreement with OptumInsight, Inc., an indirect subsidiary of UnitedHealth Group Incorporated, whereby the parties agreed to form Optum360, LLC, to own and operate certain existing revenue cycle technology, content and services businesses and to perform "end-to-end" revenue cycle management functions for Dignity Health and, if intended, other prospective healthcare delivery system customers. OptumInsight, Inc. agreed to contribute revenue cycle-related technologies, content and service businesses to Optum360, LLC in exchange for a majority membership interest in Optum360, LLC. Dignity Health agreed to contribute certain equipment and the intellectual property related to its internal revenue cycle management functions in exchange for a noncontrolling minority interest in Optum360, LLC. Dignity Health expects to record a gain related to this asset contribution transaction.

Dignity Health concurrently entered into a Master Services Agreement (“MSA”) with Optum360, LLC for a 10-year term for the purchase of revenue cycle management services from Optum360, LLC at a cost of approximately \$250.0 million per year, subject to annual adjustments for inflation and achievement of certain performance levels. Dignity Health expects to achieve gains in revenue realization. The MSA is subject to significant penalties for cancellation without cause. The formation of Optum360 and the contributions described above were effective, and the term of the MSA commenced, as of September 1, 2013.

11. GOODWILL

Goodwill is measured as of the effective date of a business combination as the excess of the aggregate of the fair value of consideration transferred over the fair value of the tangible and intangible assets acquired and liabilities assumed. There was no impairment to goodwill recorded during 2013 and 2012, respectively.

The changes in the carrying amount of goodwill are as follows (in thousands):

	2013	2012
Balance at beginning of period	\$ 123,013	\$ 95,549
Addition from acquisitions	364,804	27,464

Balance at end of period	<u>\$ 486,773</u>	<u>\$ 123,013</u>

12. INTANGIBLE ASSETS, NET

Intangible assets reported in the consolidated balance sheets include amounts for the trade name of USHW, customer relationships, developed technology, favorable leasehold interests, non-compete agreements, licensing fees, and management fee contracts related to certain business combinations accounted for under the acquisition method which are amortized over a period of 3-15 years. Information related to intangible assets at June 30, 2013 and 2012, is as follows (in thousands):

	2013			
	Gross Carrying Amount	Accumulated Amortization	Net Balance at End of Period	Amortization period

15. RETIREMENT PROGRAMS

Dignity Health maintains defined benefit pension plans that cover most employees. Benefits are generally based on age, years of service and employee compensation. Dignity Health also offers postretirement healthcare benefits to most of its employees. For the majority of covered employees, the benefits are determined based on age, years of service and compensation up to specified amounts.

The plans are actuarially evaluated and involve various assumptions. These assumptions include the discount rate and the expected rate of return on plan assets (for pension), which are important elements of expense and liability measurement. Other assumptions involve demographic factors such as retirement age, mortality, turnover and the rate of compensation increases. Dignity Health evaluates assumptions annually and modifies them as appropriate. Pension costs and postretirement costs are allocated over the service period of the employees in the plans. The principle underlying this accounting is that employees render

service ratably over the period and, therefore, the effects in the consolidated statements of operations and changes in net assets follow the same pattern

Contributions to the defined benefit pension plans are based on actuarially determined amounts sufficient to meet the benefits to be paid to plan participants. Management believes these plans qualify under a church plan exemption, and as such are not subject to Employee Retirement Income Security Act ("ERISA") funding requirements. Dignity Health's funding policy requires that, at a minimum, contributions equal the unfunded normal cost plus amortization of any unfunded actuarial accrued liability. Contributions to these plans are anticipated at \$304.3 million in 2014.

Dignity Health has amended the pension plan resulting in a lower benefit obligation as of June 30, 2013, and also lower annual expense on an ongoing basis. The most significant provisions include updating the actuarial equivalence definition and making lump sum payments available in certain circumstances where they were previously unavailable.

The accumulated benefit obligation exceeds plan assets for each of the defined benefit plans and postretirement benefit plans for the years ended June 30, 2013 and 2012. The following summarizes the benefit obligations and funded status for the defined benefit pension and postretirement benefit plans for 2013 and 2012 (in thousands):

The asset allocation policy for the pension plans for 2013 and 2012 is as follows: domestic fixed income, 20% (which may include U S government securities, U S corporate bonds, asset-backed securities and/or structured debt), domestic equity, 30% (including U S equity securities), international equity, 27% (including foreign equity securities), private equity, 10% (which may include private equity investments and/or structured debt), hedge funds, 11% (which may include hedge fund investments, asset-backed securities and/or structured debt), and real estate, 2%

Dignity Health's investment strategy for the assets of the pension plans is designed to achieve returns to meet obligations and grow the assets of the portfolio longer term, consistent with a prudent level of risk. The strategy balances the liquidity needs of the pension plans with the long-term return goals necessary to satisfy future obligations. The target asset allocation is diversified across traditional and non-traditional asset classes. Diversification is also achieved through participation in U S and non-U S markets, market capitalization, and investment manager style and philosophy. The complimentary investment styles and approaches used by both traditional and alternative investment managers are aimed at reducing volatility while capturing the equity premium from the capital markets over the long term. Risk tolerance is established through consideration of plan liabilities, plan funded status, and corporate financial condition. Consistent with Dignity Health's fiduciary responsibilities, the fixed income allocation generally provides for security of principal to meet near term expenses and obligations. Periodic reviews of the market values and corresponding asset allocation percentages are performed to determine whether a rebalancing of the portfolio is necessary.

Dignity Health's pension plan portfolio return assumption of 8.0% for 2013 and 2012 was based on the long-term weighted average return of comparative market indices for the asset classes represented in the portfolio and discounted for pension plan expenses, and expectations about future returns.

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid (in thousands)

Dignity Health maintains defined contribution retirement plans for most employees. Employer contributions to those plans of \$49.5 million and \$45.1 million for 2013 and 2012, respectively, are primarily based on a percentage of a participant's contribution. Total retirement and postretirement expenses under all plans, including the defined contribution plans, was \$359.6 million and \$281.2 million for 2013 and 2012, respectively, and are included in salaries and benefits in the consolidated statements of operations and changes in net assets.

Master Trust Indenture – Dignity Health issues debt under a Master Trust Indenture of the Obligated Group which requires, among other things, gross revenue pledged as collateral, certain limitations on additional indebtedness, liens on property, and disposition or transfers of assets, and the maintenance of certain cash balances and other financial ratios. Dignity Health is in compliance with these requirements at June 30, 2013.

Debt Arrangements - Fixed Rate Revenue Bonds – Dignity Health has fixed rate revenue bonds outstanding that may be redeemed, in whole or in part, prior to the stated maturities without a premium.

Put Bonds - Dignity Health issued bonds under multimodal interest rate documents, initially issued at a fixed rate for 5 and 10-year periods, with bond maturities that extend to 2039. The bonds are not subject to optional redemption during the fixed rate period but are subject to a mandatory purchase on the put redemption date of July 2014 in the amount of \$195.0 million. Prior to the put redemption date, Dignity Health will appoint a remarketing agent to convert the bonds to another fixed rate put period or to a short-term interest rate mode, or Dignity Health will repay the par amount of the mandatory purchase.

Taxable Bonds and Senior Secured Notes Payable – Dignity Health has taxable bonds at a fixed interest rate that are due in 2023 and 2043 and taxable, senior secured notes outstanding at a fixed interest rate that are due at their stated maturity in 2015 and 2018. Early redemption of the debt, in whole or in part, may require a premium depending on market rates.

Variable Rate Demand Bonds – Variable rate demand bonds (“VRDBs”) are remarketed weekly and the VRDBs may be put at the option of the holders. Dignity Health maintains bank letters of credit to support \$785.4 million of VRDBs. The letters of credit serve as credit enhancement to ensure the availability of funds to purchase any bonds tendered that the remarketing agent is unable to remarket.

In October 2012, the letters of credit issued by two banks to support VRDBs were replaced with new letters of credit from four banks in amounts to support VRDBs of \$57.0 million, \$195.6 million, \$140.4 million and \$90.0 million. The substitute letters of credit mature in October 2015. This did not change the terms, provisions or classification of the VRDBs subject to short-term liquidity arrangements.

The bank letter of credit supporting \$61.4 million of VRDBs was renewed in July 2013 and is set to expire in July 2016. Dignity Health also has bank letters of credit supporting \$91.0 million and \$150.0 million of VRDBs that are set to expire in June 2014 and November 2016, respectively. In the event that the remarketing agent is unable to remarket the VRDBs, the bond trustee will make a draw on the bank letters of credit and the tendered VRDBs will become bank bonds.

Certain bank bonds are subject to various repayment provisions ranging from two to five years with further accelerations upon successful bond remarketing, early redemptions, bond cancellations, conversion to a different interest rate mode, defaults, substitution of letter of credit providers or under certain other conditions

VRDBs that are not remarketed and are subsequently funded by amounts drawn under the bank letters of credit and held as bank bonds are reported as extinguishments of debt and new borrowings, respectively, in the consolidated statements of cash flows. Repayments of these draws from proceeds of remarketed VRDBs are reported as extinguishments of debt and new borrowings, respectively, in the consolidated statements of cash flows

Auction Rate Certificates – Dignity Health has \$240.0 million of auction rate certificates (“ARCs”) that are remarketed weekly and \$83.4 million of ARCs that are remarketed every 35 days. The certificates are insured by various bond insurers. Holders of ARCs are required to hold the certificates until the remarketing agent can find a new buyer for any tendered certificates

Notes Payable to Banks Under Credit Agreement – In 2013, Dignity Health maintained a \$480.0 million syndicated line of credit facility for working capital, letters of credit, capital expenditures and other general corporate purposes. In July 2013, the facility was renegotiated at an increased amount of \$680.0 million. During 2013 and 2012, the maximum amount outstanding under the syndicated credit facility was \$474.0 million and \$459.9 million, respectively. There were no letters of credit issued under this facility as of June 30, 2013 and 2012.

Dignity Health also maintained a \$20.0 million single-bank line of credit facility for standby letters of credit which was renegotiated and increased to \$35.0 million in July 2013. Letters of credit issued under this facility were \$18.8 million and \$17.0 million as of June 30, 2013 and 2012, respectively, but no amounts have been drawn.

Both credit facilities were scheduled to expire in August 2013, but the expiration date was extended to July 2018 during renegotiations noted above.

2013 Financing Activity – During 2013, Dignity Health drew \$840.8 million on its syndicated line of credit facility, using \$310.0 million as interim financing of a portion of the acquisition of USHW, \$385.8 million to facilitate repurposing of its equipment loan pool program, and \$145.0 million to refinance a maturing senior secured note. At June 30, 2013, \$360.6 million of these draws had been refinanced by taxable bonds and \$302.4 million had been repaid from equipment loan pool proceeds.

In September 2012, \$42.1 million of outstanding bond obligations at Saint Mary’s Regional Medical Center in Reno, Nevada, were legally defeased to the first call date, satisfying the remediation requirement pursuant to the sale of the hospital, and a loss on early extinguishment of debt of \$8.0 million was recorded in discontinued operations.

In October 2012, Dignity Health issued \$600.0 million of taxable fixed rate bonds with a discount of \$5.2 million, with repayments of \$300.0 million to be made in November 2022 and 2042. A portion of the proceeds of the taxable debt were used to repay \$360.6 million of outstanding syndicated line of credit facility draws, primarily related to the USHW acquisition.

In October 2012, in conjunction with the replacement of the letters of credit supporting VRDBs, as discussed above, \$373.8 million of bonds were tendered, of which \$223.0 million of the bonds were subject to a mandatory tender and \$150.8 million of the bonds were optionally tendered, the bonds were remarketed on the same day.

In March 2013, USHW entered into two lines of credit aggregating to \$50.0 million with a bank primarily to finance acquisitions and other corporate purposes. Both credit facilities mature in February 2016. At June

30, 2013, \$25.0 million drawn on one line of credit was outstanding. The outstanding draws are included above in various notes payable and other debt payable.

In September 2013, Dignity Health entered into a \$169.0 million loan with a bank. The proceeds were used to refinance outstanding draws on the syndicated line of credit. The new loan matures in September 2018.

2012 Financing Activity – In July 2011, Dignity Health issued \$106.5 million of tax-exempt fixed rate bonds with a premium of \$8.5 million to repay \$115.0 million of previously outstanding bonds. Dignity Health also repaid \$30.5 million of outstanding bonds and the \$45.9 million put bond with a draw on its syndicated line of credit.

In November 2011, Dignity Health issued \$478.3 million of tax-exempt fixed rate bonds to refund \$249.3 million of previously outstanding bonds and accrued interest and \$40.9 million of draws on the syndicated line of credit, and to provide funds for capital projects. The bonds were sold at a net premium, bear interest at 3.0% to 5.25%, and mature in installments through March 2041. The proceeds used to refund previously outstanding bonds were placed in an irrevocable trust and the bonds were legally defeased.

In November 2011, Dignity Health issued \$150.0 million of variable rate demand bonds supported by new letters of credit from a single bank, which expire in November 2016. The bond proceeds will be used for capital projects.

In June 2012, Dignity Health issued \$215.0 million of tax-exempt fixed rate bonds which were delivered in connection with a tax-exempt private placement negotiated in November 2011 with a forward delivery date of June 2012. The bonds were used to refund \$210.5 million of put bonds and accrued interest due in July 2012. The bonds were sold at par, bear interest at 6.125% to 6.250%, are callable at par after one year, and mature in installments through March 2029. The proceeds used to refund previously outstanding bonds were placed in an irrevocable trust and the bonds were legally defeased.

17. DERIVATIVE INSTRUMENTS

Dignity Health's derivative instruments include 16 floating-to-fixed interest rate swaps as of June 30, 2013 and 2012, respectively. Dignity Health uses floating-to-fixed interest rate swaps to manage interest rate risk associated with outstanding variable rate debt. Under these swaps, Dignity Health receives a percentage of LIBOR ranging from 57.00% to 58.96% plus a spread ranging from 0.13% to 0.32% and pays a fixed rate. Dignity Health's derivative instruments also include four fixed-to-floating risk participation agreements as of June 30, 2013. Dignity Health uses fixed-to-floating risk participation agreements to reduce interest expense associated with fixed rate debt. Under these risk participation agreements, Dignity Health receives a fixed rate and pays a variable rate percentage of SIFMA plus a spread.

In March 2013, Dignity Health novated swaps with notional amounts of \$227.7 million from one counterparty to various counterparties. These swaps have various termination provisions as described below. Additionally, the option for the counterparty to exercise a put on \$209.8 million of notional amount outstanding in May 2013 was extended to May 2015 with put options every two years thereafter.

In August 2011, Dignity Health novated swaps with a notional amount of \$343.1 million to a new counterparty. One of the swaps with a notional amount of \$80.0 million had been insured by Assured Guaranty (formerly FSA); the insurance was removed at the request of Dignity Health and the counterparty upon the novation. Swaps with a notional amount of \$263.1 million were uninsured and the counterparty's right to terminate the swaps at each five-year anniversary was removed. The novated swaps retain certain early termination triggers caused by event of default or termination as described below.

The following table shows the outstanding notional amount of derivative instruments measured at fair value, net of credit value adjustments, as reported in other accrued liabilities in the consolidated balance sheet as of June 30, 2013 and 2012 (in thousands)

	Maturity Date of Derivatives	Interest Rate	Notional Amount Outstanding	Fair Value

Changes in fair value of derivative instruments have been recorded for 2013 and 2012 as follows (in thousands)

	2013	2012
Loss reclassified from unrestricted net assets into interest expense, net, related to derivatives in cash flow hedging relationships		
Interest rate swaps - amortization	<u>\$ (2,683)</u>	<u>\$ (2,683)</u>
Gain (loss) recognized in interest expense, net		
Changes in fair value of non-hedged derivatives - interest rate swaps	72,748	(117,358)
Amortization of amounts in unrestricted net assets - interest rate swaps	<u>(2,683)</u>	<u>(2,683)</u>
Total	<u>\$ 70,065</u>	<u>\$ (120,041)</u>

Of the amounts classified in unrestricted net assets as of June 30, 2013, Dignity Health anticipates reclassifying approximately \$2.7 million of additional non-cash losses from unrestricted net assets into interest expense, net, in the next twelve months. Amounts in unrestricted net assets will be amortized into earnings as the interest payments being economically hedged are made.

Of the \$940.6 million notional amount of interest rate swaps held by Dignity Health at June 30, 2013 and 2012, \$160.0 million are insured and have a negative fair value of \$31.9 million and \$47.2 million at June 30, 2013 and 2012, respectively. In the event the insurer, Assured Guaranty, is downgraded below A2/A or A3/A- (Moody's/Standard and Poor's), the counterparties have the right to terminate the swaps if Dignity Health does not provide alternative credit support acceptable to them within 30 days of being notified of the downgrade. If the insurer is downgraded below the thresholds noted above and Dignity Health is

downgraded below Baa3/BBB- (Moody's/Standard and Poor's), the counterparties have the right to terminate the swaps

Dignity Health has \$780.6 million of interest rate swaps that are not insured as of June 30, 2013 and 2012. While Dignity Health has the right to terminate the swaps prior to maturity for any reason, counterparties have various rights to terminate, including swaps in the outstanding notional amount of \$100.0 million at each five-year anniversary date commencing in March 2018 and swaps in the notional amount of \$209.8 million at each two-year anniversary commencing in May 2015. Swaps in the notional amount of \$60.0 million and swaps in the notional amount of \$67.7 million have mandatory puts in March 2021 and March 2023, respectively. The termination value would be the fair market value or the replacement cost of the swaps, depending on the circumstances. These interest rate swaps have a negative fair value of \$70.2 million and \$104.4 million at June 30, 2013 and 2012, respectively. The remaining uninsured swaps in the notional amount of \$343.1 million have a negative fair value of \$53.2 million and \$76.5 million as of June 30, 2013 and 2012, respectively. The fair value of the risk participation agreements is deemed immaterial as of June 30, 2013 and 2012.

All of the uninsured swaps and risk participation agreements have certain early termination triggers caused by an event of default or a termination event. The events of default include failure to make payments when due, failure to give notice of a termination event, failure to comply with or perform obligations under the agreements, bankruptcy or insolvency, and defaults under other agreements (cross-default provision). The termination events include credit ratings dropping below Baa1/BBB+ (Moody's/Standard & Poor's) by either party on a notional amount of \$529.8 million of swaps and below Baa2/BBB on a notional amount of \$410.8 million and Dignity Health's cash on hand dropping below 85 days.

Dignity Health, under the terms of its Master Trust Indenture, is prohibited from posting collateral on derivative instruments.

An estimated impairment of the carrying value of assets reflects the estimated non-recoverability of the carrying value of the assets of a facility in California

Abandoned software development costs relate to the write-off of certain costs in connection with a change in strategic direction and vendor for clinical systems

Restructuring costs for patient financial services consisting of severance and lease termination costs were recorded in connection with the announcement that Dignity Health would consolidate four of its patient financial service centers into a single service center

Expenses related to the name change to Dignity Health and governance restructuring announced in 2012 include legal and implementation costs

22. COMMITMENTS, CONTINGENT LIABILITIES, GUARANTEES AND OTHER

Litigation, Regulatory and Compliance Matters - General – The healthcare industry is subject to voluminous and complex laws and regulations of federal, state and local governments. Compliance with such laws and regulations can be subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time. These laws and regulations include, but are not necessarily limited to, the rules governing licensure, accreditation, controlled substances, privacy, government program participation, government reimbursement, antitrust, anti-kickback, prohibited referrals by physicians, false claims, and in the case of tax-exempt organizations, the requirements of tax exemption. In recent years, government activity has increased with respect to investigations and allegations of wrongdoing. In addition, during the course of business, Dignity Health becomes involved in civil litigation

Management assesses the probable outcome of unresolved litigation and investigations and records contingent liabilities reflecting estimated liability exposure. Following is a discussion of matters of note:

Department of Justice and OIG Investigations – Dignity Health and/or its facilities periodically receive notices from governmental agencies, such as the Department of Justice or the Office of Inspector General (“OIG”), requesting information regarding billing, payment, or other reimbursement matters, or initiating investigations, or indicating the existence of whistleblower litigation. The healthcare industry in general is experiencing an increase in these activities, as the federal government increases enforcement activities and institutes new programs designed to identify potential irregularities in reimbursement or quality of patient care. Based on the information received to date from the government, Dignity Health does not presently have information indicating that any of these current matters or their resolution will have a material effect on Dignity Health’s financial statements, taken as a whole. Nevertheless, investigations of this type and scope could lead to civil and/or criminal charges and material penalties or settlements. Consequently, there can be no assurance that the resolution of these matters will not affect the financial condition or operations of Dignity Health, taken as a whole.

Medicare Certification – From time to time, Dignity Health and/or its facilities receive notices from CMS that steps to terminate provider agreements will be taken unless certain corrective actions related to qualification for Medicare participation are undertaken. The process of responding to these notices involves plan(s) of correction by the facility and resurvey by CMS or its designee. Although termination is rare, there is no guarantee that CMS or its designee will be satisfied with a facility’s corrective action. Currently, Community Hospital of San Bernardino and Bakersfield Memorial Hospital are in the process of addressing such notices.

Retirement Plan Litigation – In April 2013, Dignity Health was served with a class action lawsuit filed by a former employee alleging breaches of fiduciary duty under ERISA in connection with the Dignity Health Retirement Plan (“DHRP”). The complaint alleges that the DHRP fails to meet ERISA’s minimum funding requirements, because it has unfunded liabilities of \$1.2 billion. It also challenges the constitutionality of ERISA’s church plan exemption. Dignity Health established the DHRP as a “church plan,” which is exempt from ERISA including ERISA’s funding requirements. The plaintiff seeks to represent a class comprised of all current DHRP participants and beneficiaries. The suit seeks both declaratory and economic relief to bring the DHRP into ERISA compliance. Dignity Health management understands that similar lawsuits have been filed against a number of Catholic health systems challenging the church plan status of their pension plans as well. Dignity Health plans to vigorously defend this matter. While it is too early to assess specific liability exposure, there can be no assurance that resolution of this matter will not adversely affect the financial condition or operations of Dignity Health, taken as a whole.

Employment Law Litigation – In February 2012, a jury in federal court awarded damages and lost wages to a former employee of Mercy General Hospital (Sacramento) in response to various employment law claims. The aggregate jury award of approximately \$168.0 million appeared to include duplication of award amounts and was subject to elimination of duplication, as well as certain statutory limits on damages. In April 2012, the trial judge entered judgment in the case, reducing the jury verdict to approximately \$82.3 million. Management believed the facts did not support the verdict or the damages. The parties engaged in post-trial motions and the court held a hearing on these motions in October 2012. In November 2012, the parties entered into a confidential settlement agreement for amounts significantly lower than the reduced verdict. The settlement did not result in a material change to estimates previously recorded. Dignity Health’s insurers dispute liability for a portion of the settlement, and declaratory relief actions remain pending. Dignity Health maintains that the settlement should be covered in full.

Property Tax Assessments – In 2012, Dignity Health received written notification from two county property tax assessors with respect to three of its hospitals asserting that the hospitals failed to satisfy a technical legal requirement to qualify for California property tax exemption. The possible liability exposure with respect to these hospitals could have been as high as approximately \$16.8 million. Dignity Health disagreed with the assessors’ assertions, made appropriate administrative filings and submitted a written argument in favor of the hospitals’ property tax exemption. The tax assessors subsequently agreed with Dignity Health’s position on the condition that the title records be corrected. Such corrections occurred; nevertheless, claims of this nature have the potential for a material effect on the financial condition or results of operations of Dignity Health.

Operating Leases – Dignity Health leases various equipment and facilities under operating leases. Gross rental expense for 2013 and 2012 was \$136.7 million and \$108.3 million, respectively, which is offset by sublease income of \$1.5 million and \$1.4 million for 2013 and 2012, respectively. These amounts are recorded in purchased services and other on the accompanying statements of operations and changes in net assets.

Net future minimum lease payments under non-cancelable operating leases as of June 30, 2013, are as follows (in thousands):

	Lease Payments	Sublease Income	Net Future Minimum Lease Payments
2014	\$ 83,993	\$ (2,439)	\$ 81,554
2015	68,492	(1,912)	66,580
2016	56,697	(1,207)	55,490
2017	45,590	(1,005)	44,585
2018	37,073	(980)	36,093
Thereafter	121,828	(16,780)	105,048
Total	<u>\$ 413,673</u>	<u>\$ (24,323)</u>	<u>\$ 389,350</u>

Long-term Contracts and Agreements – Dignity Health has a contract for information technology management services which specifies the types and levels of services, which can be modified by mutual agreement, and provides for monthly usage-based adjustments to fees. The agreement contains a mechanism for price adjustments should there be new affiliations or disaffiliations. Based on modifications to this agreement, the base fee under the contract was \$35.6 million in 2013 and will be \$21.9 million per year thereafter, increasing annually by inflation through October 2015, the term of the agreement. Dignity Health may cancel the agreement without cause subject to significant penalties through October 2013, and without penalty during the remaining two years of the contract. Under the terms of this agreement, Dignity Health expensed \$35.6 million and \$55.2 million in 2013 and 2012, respectively, in purchased services and other on the accompanying statements of operations and changes in net assets.

Dignity Health has an agreement for the development, implementation and management of certain clinical technology management programs for all Dignity Health hospitals. The agreement is in effect for five years upon each hospital's implementation. Dignity Health may cancel the agreement without cause subject to penalties during the first four years of the contract, based upon the implementation date at the respective hospital, and without penalty during the final year of the contract. As of June 30, 2013, approximately \$148.0 million in commitments remained under this contract through August 2016.

In December 2007, Dignity Health entered into a development agreement with the Sequoia Healthcare District ("District") whereby the District relinquished all control over Sequoia Health Services ("SHS") and agreed to provide funding of \$75.0 million toward the modernization, upgrading and seismic retrofitting of Sequoia Hospital. In return for the funding commitment, the District is entitled to 50% of Sequoia Hospital's annual Operating Earnings Before Interest, Depreciation and Amortization ("EBIDA") exceeding a 9.3% annual Operating EBIDA Margin for 40 years. Operating EBIDA is defined as operating income adjusted for certain excluded items. Dignity Health has committed to funding \$150.0 million toward the construction project and approximately \$15.0 million in additional funding is anticipated from philanthropic gifts. If the construction does not conform to certain agreed-upon specifications or is not completed consistent with the terms of the development agreement related to project timing, the District has the right to require the return of its \$75.0 million contribution. The multi-phased construction project began in September 2007 and is expected to be substantially completed in 2014. Dignity Health's management expects to meet the required construction specifications and time requirements under the agreement with the District.

Capital and Purchase Commitments – Dignity Health has undertaken various construction and expansion projects that may include certain capital commitment requirements. At June 30, 2013, remaining capital commitments related to these projects were approximately \$356.4 million. Dignity Health also enters into various agreements that require certain minimum purchases of goods and services. These commitments are at levels consistent with normal business requirements. Excluding the capital and long-term contract commitments discussed above, outstanding purchase commitments were approximately \$167.0 million at June 30, 2013.

Guarantees – Dignity Health has guaranteed the indebtedness of other organizations, which indebtedness was outstanding in the amount of \$14.0 million and \$12.7 million as of June 30, 2013 and 2012, respectively.

Dignity Health enters into physician recruitment agreements with certain physicians who agree to relocate to its communities to fill a need in the hospitals' service areas and commit to remain in practice there. Under these agreements, Dignity Health makes loans available to the physicians that are earned over the period the physicians fulfill their commitment to the community, which is typically three years, or are repayable by the physicians. The maximum potential amount of future undiscounted payments Dignity Health could be required to make under these guarantees is \$15.6 million and \$18.3 million as of June 30, 2013 and 2012, respectively. Dignity Health recorded \$10.1 million and \$12.1 million in other current liabilities as of June 30, 2013 and 2012, respectively, and \$5.5 million and \$6.2 million in other long-term liabilities as of June 30, 2013 and 2012, respectively, related to these guarantees.

Seismic Standards – The State of California issued seismic safety standards in 1994 which have been amended on several occasions since then. The regulations call for more stringent structural building standards to be in place by January 2013 for buildings remaining in acute care service beyond that date, with a two-year extension in most circumstances by meeting certain milestone dates, and further extension of the deadlines for achieving compliance in certain circumstances. California law currently imposes a separate more rigorous set of seismic standards that become effective in 2030 for acute care facilities.

Each of the acute care service buildings at Dignity Health's California facilities either (1) meets the standards in effect until 2030, (2) is not subject to those standards, (3) will not be used for acute care services beyond the deadline, or (4) is scheduled to undergo remediation before applicable deadline dates. Management currently estimates that remaining remediation costs required for meeting the standards for projects specific to structural and non-structural performance in effect until 2030 is approximately \$335.0 million. Management has initiated planning and design efforts at all facilities to meet the deadlines. Dignity Health has received extensions which allow for the deferral of approximately \$200.0 million of capital expenditures from 2013 through 2015 to 2016 through 2019. Dignity Health may choose to withdraw selected buildings from acute care service rather than satisfy the standards.

23. UNSPONSORED COMMUNITY BENEFIT EXPENSE (UNAUDITED)

Un-sponsored community benefits are programs or activities that provide treatment and/or promote health and healing as a response to identified community needs. These benefits (a) generate a low or negative margin, (b) respond to the needs of special populations, such as persons living in poverty and other disenfranchised persons, (c) supply services or programs that would likely be discontinued, or would need to be provided by another nonprofit or government provider, if the decision was made on a purely financial basis, (d) respond to public health needs, and/or (e) involve education or research that improves overall community health.

Benefits for the Poor include services provided to persons who are economically poor or are medically indigent and cannot afford to pay for healthcare services because they have inadequate resources and/or are uninsured or underinsured.

Benefits for the Broader Community refer to persons in the general communities that Dignity Health serves, beyond and including those in a target population. Most services for the broader community are aimed at improving the health and welfare of the overall community. Such services include the interest rate differential on below market rate loans that Dignity Health makes to nonprofit community-based organizations that promote the total health of their communities, including the development of affordable housing for low-income persons and families, increasing opportunities for jobs and job training, and expanding access to healthcare for uninsured and underinsured persons. As of June 30, 2013 and 2012, Dignity Health's community investment loan portfolio totaled \$33.6 million and \$39.6 million, respectively, which is included in other assets limited as to use.

Traditional Charity Care is free or discounted health services provided to persons who cannot afford to pay and who meet Dignity Health's criteria for financial assistance.

Net Community Benefit, excluding the unpaid cost of Medicare, is the total cost incurred after deducting direct offsetting revenue from government programs, patients, and other sources of payment or reimbursement for services provided to program patients. Including discontinued operations, the comparable amount of net community benefit was \$1.1 billion for 2012, and Net Community Benefit including the unpaid cost of Medicare was \$1.6 billion for 2012.

The following is a summary of Dignity Health's community benefits for 2013, in terms of services to the poor and benefits for the broader community, which has been prepared in accordance with Internal Revenue Service Form 990, Schedule H and the CHA publication, *A Guide for Planning and Reporting Community Benefit* (dollars in thousands)
