Chambers Fund 3: The Dudley E. Chambers Fund for Education or Research (\$900,000)

As in past years, Stanford was pleased to apply The Dudley E Chambers Fund to the enhancement and maintenance of science and engineering classrooms. In 2012–13, this work included the following:

- Two large classrooms in the William R. Hewlett Teaching Center—seating 125 and 490 students, respectively—were rewired and equipped with a high definition system. A new, more sophisticated and intuitive control system also was installed. The two classrooms now offer maximum flexibility to faculty, who can customize the technology to suit individual teaching styles.
- Eight additional, smaller classrooms were upgraded through the addition of HD projection, improved control devices, and Blu-ray playback.
- Technology was added to one classroom that previously had none.
- Three full time technicians continued to support educational technology in science and engineering classrooms. The technicians installed and maintained the technology and trained faculty in its use.
- A pilot video capture program continued in two classrooms.
