Part V Supplemental Information

Complete this part to provide the information required by Part I, line 2 (monitoring of funds); Part I, line 3, column (f) (accounting method; amounts of investments vs. expenditures per region); Part II, line 1 (accounting method); Part III (accounting method); and Part III, column (c) (estimated number of recipients), as applicable. Also complete this part to provide any additional information (see instructions).

Identifier	ReturnReference	Explanation
Grantmaker's Description of How Grants are Used in Foreign Country		When a foreign institution is the subrecipient of an award received by a Lifespan Affiliate, the following procedures are followed. A subrecipient agreement is prepared and executed between the foreign institution and the Lifespan affiliate. The agreement describes the funding source, terms and conditions of the award, statement of work, payment method and audit. The foreign institution prepares an invoice to the Lifespan affiliate for expenses incurred under the agreement. Once received, the invoice is approved by both the principal investigator at the Lifespan affiliate and the research administrator in the Office of Research Administration Check requests and wire transfer forms are prepared by the principal investigator, approved by the research administrator and forwarded to the Finance Department where payment is processed to the foreign institution Additionally, when the award is a federal award, a questionnaire is completed by the appropriate subrecipient official supplying information about the institution's financial system and method of accounting for the award. A request is also made for audited financial statements. When a foreign individual is not associated with an institution, a Professional Services. Agreement (PSA) is executed and the individual sends an invoice to the Lifespan affiliate principal investigator of the project or sponsored agreement that states the number of hours, dates of services, work performed, reimbursement for expenses and compensation amount. The same approval process and
		payment is used as described above

Part V Facility Information (continued)

Section B. Facility Policies and Practices

(Complete a separate Section B for each of the hospital facilities or facility reporting groups listed in Part V, Section A)
Rhode Island Hospital

Name of hospital facility or facility reporting group

For	single facility filers only: line Number of Hospital Facility (from Schedule H, Part V, Section A)	_	Yes	I No
	nmunity Health Needs Assessment (Lines 1 through 8c are optional for tax years begining on or before March 23, 2012)		165	140
1	During the tax year or either of the two immediately preceding tax years, did the hospital facility conduct a community health needs assessment (CHNA)? If "No," skip to line 9	1	Yes	
	If "Yes," indicate what the CHNA report describes (check all that apply)			
а	A definition of the community served by the hospital facility			
Ь	Demographics of the community			
c	Existing health care facilities and resources within the community that are available to respond to the health needs of the community			
d	How data was obtained			
е	The health needs of the community			
f	Primary and chronic disease needs and other health issues of uninsured persons, low-income persons, and minority groups			
g	The process for identifying and prioritizing community health needs and services to meet the community health needs			
h	The process for consulting with persons representing the community's interests			
i	Information gaps that limit the hospital facility's ability to assess the community's health needs			
j	Other (describe in Part VI)			
2	Indicate the tax year the hospital facility last conducted a CHNA 20 13			
3	In conducting its most recent CHNA, did the hospital facility take into account input from representatives of the community			
	served by the hospital facility, including those with special knowledge of or expertise in public health? If "Yes," describe in			
	Part VI how the hospital facility took into account input from persons who represent the community, and identify the persons the hospital facility consulted	3	Yes	
4		۲	1 03	\vdash
	facilities in Part VI	4	Yes	<u> </u>
5	Did the hospital facility make its CHNA report widely available to the public?	5	Yes	<u> </u>
	If "Yes," indicate how the CHNA report was made widely available (check all that apply)			
а	Hospital facility's website			
b	A vailable upon request from the hospital facility			
C	Other (describe in Part VI)			
6	If the hospital facility addressed needs identified in its most recently conducted CHNA, indicate how (check all that apply to date)			
а	A doption of an implementation strategy that addresses each of the community health needs identified through the CHNA			
b	Execution of the implementation strategy			
C	Participation in the development of a community-wide plan			
d	Participation in the execution of a community-wide plan			
е	Inclusion of a community benefit section in operational plans			
f	Adoption of a budget for provision of services that address the needs identified in the CHNA			
g	Prioritization of health needs in its community			
h	Prioritization of services that the hospital facility will undertake to meet health needs in its community			
i	O ther (describe in Part VI)			
7	Did the hospital facility address all of the needs identified in its most recently conducted CHNA? If "No," explain in Part VI which needs it has not addressed and the reasons why it has not addressed such needs	7	Yes	
8a	Did the organization incur an excise tax under section 4959 for the hospital facility's failure to conduct a CHNA as			
	required by section $501(r)(3)$?	8a	—	Νo
	If "Yes" to line 8a, did the organization file Form 4720 to report the section 4959 excise tax?	8b	Ь—	No
C	If "Yes" to line 8b, what is the total amount of section 4959 excise tax the organization reported on Form 4720 for all of its hospital facilities? \$			

Pä	art V Facility Information (continued)			
Fin	nancial Assistance Policy		Yes	No
9	Did the hospital facility have in place during the tax year a written financial assistance policy that			
	Explained eligibility criteria for financial assistance, and whether such assistance includes free or discounted care?	9	Yes	
10	Used federal poverty guidelines (FPG) to determine eligibility for providing free care?	10	Yes	
	If "Yes," indicate the FPG family income limit for eligibility for free care 200 0000%			
4.4	If "No," explain in Part VI the criteria the hospital facility used		l.,	
11	Used FPG to determine eligibility for providing discounted care?	11	Yes	
	If "Yes," indicate the FPG family income limit for eligibility for discounted care $\frac{400\ 0000}{}\%$ If "No," explain in Part VI the criteria the hospital facility used			
12	Explained the basis for calculating amounts charged to patients?	12	Yes	
	If "Yes," indicate the factors used in determining such amounts (check all that apply)			
а	▼ Income level			
b	Asset level			
c	Medical indigency			
d	▼ Insurance status			
е	Uninsured discount			
f	Medicaid/Medicare			
g	State regulation			
h	Other (describe in Part VI)			
13	Explained the method for applying for financial assistance?	13	Yes	
14	Included measures to publicize the policy within the community served by the hospital facility?	14	Yes	
	If "Yes," indicate how the hospital facility publicized the policy (check all that apply)			
а				
b	The policy was attached to billing invoices			
C	The policy was posted in the hospital facility's emergency rooms or waiting rooms			
d	The policy was posted in the hospital facility's admissions offices			
е	The policy was provided, in writing, to patients on admission to the hospital facility			
f	The policy was available upon request			
g	Other (describe in Part VI)			
	ling and Collections			
15	Did the hospital facility have in place during the tax year a separate billing and collections policy, or a written financial assistance policy (FAP) that explained actions the hospital facility may take upon non-payment?	15	Yes	
16	Check all of the following actions against an individual that were permitted under the hospital facility's policies during		1 63	
	the tax year before making reasonable efforts to determine the patient's eligibility under the facility's FAP			
а	Reporting to credit agency			
b	▼ Lawsuits			
C	Liens on residences			
d	Body attachments			
е	Other similar actions (describe in Part VI)			
17	Did the hospital facility or an authorized third party perform any of the following actions during the tax year before making reasonable efforts to determine the patient's eligibility under the facility's FAP?	17	Yes	
	If "Yes," check all actions in which the hospital facility or a third party engaged			
а	Reporting to credit agency			
b	▼ Lawsuits			
c	Liens on residences			
d	Body attachments			
е	Other similar actions (describe in Part VI)

Part VI Supplemental Information

Complete this part to provide the following information

- Required descriptions. Provide the descriptions required for Part I, lines 3c, 6a, and 7, Part II, Part III, lines 4, 8, and 9b, Part V, Section A, and Part V, Section B, lines 1j, 3, 4, 5c, 6i, 7, 10, 11, 12h, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22
- 2 Needs assessment. Describe how the organization assesses the health care needs of the communities it serves, in addition to any needs assessments reported in Part V, Section B
- 3 Patient education of eligibility for assistance. Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy
- 4 Community information. Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves
- **Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (e.g., open medical staff, community board, use of surplus funds, etc.)
- **Affiliated health care system.** If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served
- 7 State filing of community benefit report. If applicable, identify all states with which the organization, or a related organization, files a community benefit report
- **Facility reporting group(s).** If applicable, for each hospital facility in a facility reporting group provide the descriptions required for Part V, Section B, lines 1j, 3, 4, 5c, 6i, 7, 10, 11, 12h, 14g, 16e, 17e, 18e, 19c, 19d, 20d, 21, and 22

	Part VI - Affilated Health Care System Roles and Promotion	Lifespan's mission is to deliver health with care through highly personalized medical expertise provided with kindness and empathy. Lifespan is an academically based healthcare system at the forefront of medical care, continually engaging in research that will lead to medical breakthroughs. Lifespan affiliates provide comprehensive inpatient and outpatient medical, surgical, and psychiatric services for adults and children. Lifespan and its affiliates employ more than 13,500 people. The Lifespan system has approximately 2,400 physicians on the medical staffs of its affiliated hospitals, operates 1,155 licensed beds in four hospital complexes, and in 2013 generated approximately \$1.7 billion in total operating revenue. By each of these measures, Lifespan is RT's largest health system, serving a population of over 1.5 million. Three of its hospital members, Rhode Island Hospital (RTH.), The Miriam Hospital (TMH.) and Bradley Hospital (EPBH.), are teaching affiliates of The Warren Alpert Medical School of Brown University, with 77 percent of the residents and fellows in this program based at RTH, TMH, and EPBH Lifespan is a RT nonprofit corporation that is community-based and community-governed. As a nonprofit organization, Lifespan is run by a voluntary Board of Directors who are community representatives. Lifespan and all of its nonprofit hospital affiliates have received written notification from the Internal Revenue Service that they have been recognized as being organized and operated as entities described in Internal Revenue Code (IRC) Section 501(c)(3) and are generally exempt from income taxes under IRC Section 501(a) As of September 30, 2013, Lifespan Corporation employed approximately 750 full-time and part-time personnel, most of whom are located in Providence, RT. Lifespan Corporation provides support services to its affiliates, such as information services, telecommunications, risk management, legal, communications and public affairs, fundraising, facility development, strategic planning, internal aud

Part VI - Explanation Of How Organization Furthers Its Exempt Purpose	The Hospital is governed by a Board of Trustees, which is composed of leaders of the local community elected by Lifespan Corporation. The Hospital's purpose is to be staffed, equipped, and ready to serve the hospital needs of the community and its people from all walks of life. The Hospital works collaboratively with physicians, our employees, other health care organizations, and the community to create a measurably healthier community through the provision of high quality, cost-effective, customerfocused health care services in an environment that promotes patient safety. The Hospital monitors the healthcare needs of its service area to ensure alignment of its resources with its mission. The Hospital measures the results of the programs and services it provides based on the value added to the community as well as the financial health of each program and its impact on the Hospital. The Hospital is organized and operated for the benefit of the community it serves.
Part VI - Community Building Activities	The Hospital substantially subsidizes various health services including the following programs—adult psychiatry, dental, adolescent, and Alzheimer's, as well as the Center for Special Children, early intervention, and certain other specialty services. The Hospital also provides numerous other services to the community for which charges are not generated. These services include certain emergency services, community health screenings for cardiac health, prostate cancer and other diseases, smoking cessation, immunization and nutrition programs, diabetes education, community health training programs, patient advocacy, foreign language translation, physician referral services, and charitable contributions.

	r dit VI - Needs Assessment	Lifespan's Office of Strategic Planning and Analysis performs population-based studies for the Hospital regarding the need for inpatient medical and surgical services for both adults and children and a wide range of outpatient services including primary care office visits, specialty care, emergency services, imaging, ambulatory surgery, and specific high technology services such as radiation therapy and bone marrow transplantation. A population-based study examines the growth and changes in the population, the resources in the community, and the changing prevalence of diseases. In addition to this approach, Lifespan Strategic Planning also examines experience with wait times, the level of staffing, and the changing standards of care. All of this information is used to assess the demand for additional services to provide access to high quality care. In addition to population approaches to assessing and estimating need, all specialties and services monitor demand at the service-specific level by considering changing patterns of care and methods of treatment for the specific medical problem, wait times for visits/queues, and community resources. The service leadership then goes through a review process to add staff, expanded hours, and/or new sub-components to round out core services on an asneeded basis. At times, expansion requires more space, equipment, and staff, but often accommodation of community demand is achieved through expanded hours. Facilities are added as needed to accommodate these expansions, but most often minor renovations of existing locations with better, more modern layouts and equipment allow for greater patient access. The RI State Certificate of Need program requires a focused study of need for all projects over \$2.5 million, which is an important part of the program development process across Lifespan Based on a broad understanding of community health needs, the Hospital provides a wife span and its hospital affiliates monitor health trends in Rhode Island in an effort to identify areas of
Number of Hospital Faciltiy - 1	Determination of Individuals Without Insurance	rooms and areas for family, group and milieu therapy Uninsured patients receive an automatic 50% Community Benefit discount on Hospital charges Under Section 501 (r)(5), the maximum amounts that can be charged to FAP-eligible individuals for emergency or other medically necessary care are the amounts generally billed to individuals who have insurance covering such care. In no case was there a situation where an uninsured patient paid more than amounts charged through Medicare or negotiated commercial insurance rates.

Identifier	ReturnReference	Explanation
Number of Hospital Faciltiy - 1	Part V, Line 17e - Other Collection Actions by Facility or Third Party Engaged	The Hospital engages third parties to perform certain collection actions on its behalf. A pre-collect company is used for all self-pay accounts. Additionally, a collection agency is used if there is no payment activity on such accounts after 120 days. The collection process is explained in further detail in the response to Question 16e above.
Number of Hospital Faciltiy - 1	Part V, Line 16e - Other Collection Actions Against a Patient	Once an account balance or a portion thereof is classified as self-pay, it is placed with the Hospital's pre-collect company until the balance is paid in full, a monthly payment plan is in place, or insurance information is provided for billing After 120 days, if there is no payment activity, the account qualifies for bad debt and the pre-collect company returns the account to Patient Financial Services, which in turn forwards it to a collection agency The collection agency sends 3 to 5 notices to the patient requesting payment. If there are no responses after the notices are sent, collection calls are made. If there is no response after 120 days, the account is reviewed for legal action in the appropriate court. If there are no assets to pursue, the collection agency deems the account uncollectible and returns it to Patient Financial Services for writeoff. Note. In accordance with Center for Medicare and Medicaid Services mandates, Medicare patient accounts are held 130 days from last payment, after which if there has been no activity, the account is referred to collection.

Part III, Line 9b - Provisions On Collection Practices For Qualified Patients	The Hospital uses an outside pre-collection agency for all self-pay receivables. The pre-collection agency attempts to collect the debt for 120 days. During this time, 3 letters are sent to the patient's address of record and, for balances in excess of \$50, attempts are made to reach the patient by telephone. If the agency makes contact with the patient and the patient expresses an inability to pay, payment plans and/or Community. Free Service are offered (Please refer to the Charity Care Eligibility Criteria and Additional Information sections for further detail on those processes). If the pre-collection agency is unsuccessful in contacting the patient or no response is received within 120 days, the account is forwarded to a collection agency. The collection agency also sends statements and attempts to reach the patient via telephone. Again, if the agency makes contact with the patient and the patient expresses an inability to pay, payment plans and/or Community. Free Service are offered. If no response is received, the claim is referred to small claims court and the patient is summoned to appear. If the patient does not appear, the Hospital will receive a judgment in its favor. If the Hospital learns that the claim has a related settlement, i.e., an automobile accident, the Hospital can put a lien on such settlement. Alternatively, if the collection agency deems the account uncollectible, it will be written off.
Part III, Line 8 - Explanation Of Shortfall As Community Benefit	There is no Medicare shortfall for fiscal year 2013 If there was, it would not be treated as a community benefit The source of the Medicare allowable costs reported on Part III, Section B, Line 6 is the Medicare cost report, Form 2552-10

Identifier	ReturnReference	Explanation				
	r altili, Line 4 - Bad Debt Expense	Accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectible of accounts receivable, the Hospital analyzes its past history and identifies its revenue trends for each of its major payors to estimate the appropriate allowance for doubtful accounts and the associated provision for bad debts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts. For receivables associated with services provided to patients who have third-party coverage, the Hospital analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payor has not yet paid, or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Hospital records a significant allowance for doubtful accounts and provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates (or the discounted rates, if applicable) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts. The Hospital's allowance for doubtful accounts for self-pay patients increased from 79% of self-pay accounts receivable at September 30, 2013. The Hospital's self-pay writeoffs for the years ended September 30, 2013 and 2012 amounted to approximately \$59,319,000 and \$53,361,000, respectively. The Hospital did not change its charity care or u				
	Part III, Line 3 - Methodology of Estimated Amount & Rationale for Including in Community Benefit	party payors in either 2013 or 2012 Accounts pending transfer to bad debt are reviewed by the Hospital's patient advocate staff to determine qualification for financial assistance under the Hospital's policy. Accounts with insufficient information to determine eligibility are assigned a separate identifying code. These accounts are ultimately transferred to bad debt if the appropriate qualifying documentation is not received. The amount reported on Schedule H, Part III, Section A, Line 3 represents the account balances at charge written off to bad debt from the pending code, which are in turn converted to cost by applying the RCC rate as identified in Schedule H, Part III, Section A, Line 2				

Identifier	ReturnReference	Explanation
	TO Estimate Bad Debt Expense	The amount reported as bad debt expense is determined by applying the ratio of cost to charges (RCC) to the total charges written off to bad debt. The RCC rate is determined using data from the Hospital's cost accounting system and is adjusted for medical education, internally funded research, subsidized health services, community services, and charitable contributions. Discounts and payments are applied to patient accounts before such account balances are transferred to bad debt.
		The calculation of percentages disclosed for Schedule H, Part I Line 7, column (f) "percent of total expense", does not include bad debt expense Form 990, Part IX, Line 25 includes bad debt expense of \$73,162,545

Identifier	ReturnReference	Explanation
	Part I, Line 7 - Explanation of Costing Methodology	The Hospital's costing methodology used to calculate the amounts reported in Part I, Line 7 is as follows a) Financial Assistance at cost- involves utilization of a ratio derived from dividing patient costs, as defined, by patient charges, as
		defined, and applying that percentage to total charity care charges Patient costs reported in the cost accounting system are calculated based on Medicare principles of reimbursement
		by reducing total operating expenses by items such as bad debt expense, the cost of medical education, internally funded research, subsidized health services, community services,
		charitable contributions, and other operating revenue Patient costs are then divided by patient charges to determine a ratio of cost to charges (RCC) This RCC is applied as the costing
		methodology for determining charity care expense b) Medicaid- Medicaid expense is determined by cost as calculated by the Hospital's cost accounting system The system applies historical costing methods applied to all patient segments
		based on various patient demographics and utilizations. These costing standards exclude bad debt, charity care, and the Medicaid portion of costs of health professions education which
		are reported on other areas of Line 7 These expenses include Medicaid provider taxes Direct offsetting revenue is reported as amounts received from Medicaid, as well as other payments
		which include reimbursement under Federal "Upper Payment Limit" (UPL) and "Disproportionate Share Hospital" (DSH) programs e) Community health improvement services and
		community benefit operations- Community benefit operations expense are recorded as direct expenses incurred as reported by the Hospital's Community Health Services department
		Revenue received for these services is reported as direct offsetting revenue f) Health professions education- Health professions education expenses represent direct costs related
		to amounts associated with resident and intern programs utilized at the Hospital These costs are determined by reporting actual direct costs taken from the Medicare cost
		report Direct offsetting revenue is reported as any direct Medicare reimbursements received for such services provided, as reported on the Hospital's Medicare cost report g)
		Subsidized health services- Subsidized health services' community benefit expense is determined by the cost accounting system. These subsidized health services are
		recorded at cost in the Hospital's cost accounting system for all qualified subsidized health service divisions. This expense is adjusted to remove all related Graduate Medical Education (GME) expenses, as well as bad debt, Medicaid, and charity
		costs already reported in applicable sections of Line 7 Net patient service revenue is recorded as amounts received from various payer types related to these services. Revenue
		associated with Medicare GME and Medicaid is excluded from the amount disclosed for subsidized health services h) Research- The Hospital conducts extensive medical research
		focused on the prevention and treatment of HIV/AIDS, obesity, cancer, diabetes, cardiac disease, neurological problems, orthopedic advancements, and mental health concerns For all
		internal and external research conducted, the costs associated with these activities is calculated by combining the direct and indirect costs as reported within the Hospital's cost accounting
		system Revenue received for these services is reported as direct offsetting revenue i) Cash and in-kind contributions for community benefit- Expenses for cash and in-kind contributions
		for community benefit are made by the Hospital, including an allocation of contributions made by Lifespan Corporation on the Hospital's behalf
	Part I, Line 3c - Charity Care Eligibility Criteria (FPG Is Not Used)	Rhode Island Hospital (the Hospital) uses a dual system for determining financial aid eligibility federal poverty guidelines and an asset test The financial screening process at the Hospital is intended to define probable eligibility for public
		assistance (Medicaid or Community Free Service ("CFS")) for those patients who do not have the means to pay for hospital services rendered, as follows 1 Upon patient indication of an
		inability to pay required monies, the patient is offered the financial screening option to determine eligibility for public assistance (Medicaid, CFS) 2 The application for CFS is
		completed and includes information relative to income, expense, and other available resources and requires proof of such information which may include - most recently filed Federal
		income tax return and W-2 form(s)- copies of most recent savings and/or checking account statements- two most recently received payroll check stubs- copy of rent receipts for
		the last six months for proof of residency- copy of utility bills for the last month for proof of residency3. If the patient's financial situation falls within the guidelines for eligibility for Medicaid,
		has a long term disability, RIte Care or CFS, the appropriate application process is completed (Assistance to complete such applications is available from the Patient Financial Advocates (PFA) Office at the Hospital)4 Uninsured patients receive an
		automatic 50% deduction at the Hospital 5 Eligibility for CFS above the 50% discount is provided for those applicants whose family gross income is at or below twice the Federal Poverty
		Guidelines, with a sliding scale for individuals up to four times the poverty level in effect at the time of application. Full charity care applicants with assets worth more than \$9,400 for an
		individual (or \$14,100 for a family) may not qualify for care without charge, but may qualify for discounted care While the maximum 100% discount may not be available to all charity
		care applicants based on the results of their asset test, all uninsured patients who receive care are eligible for, at a minimum, the 50% charity care discount 6 For patients who
		qualify for less than 100% of the financial assistance program, a payment schedule is determined and agreed upon (discussed further below) Payment arrangements are established prior to
		service for non-urgent care 7 In either case, the final results of the financial screening are recorded in the comments section of the Hospital's billing system Requests for Payment
		Arrangements Patient Financial Advocates (PFA) will qualify patients that are receiving non-urgent, medically indicated procedures prior to services. The PFA will request 75% to 100% of estimated charges (net of the automatic 50%)
		discount) if the balance is under \$5,000 and 50% to 100% of estimated charges (net of the automatic 50% discount) if the estimated bill equals or exceeds \$5,000 For elective or non-
		urgent cases, the policy will require financial clearance prior to services or an exception from the Medical Director based on the clinical circumstances if the patient cannot meet the above
		payment agreement Patients who do not qualify for the total or partial CFS, but who have difficulty in paying their bills after services are rendered, may request enrollment in a payment
		plan Eligibility for the payment plan includes the following guidelines 1 Immediate payment in full will result in financial hardship to the patient or the patient's family 2 Deposit of one-
		half of the estimated total bill is requested prior to admission 3 The minimum monthly payment of \$50 00 4 The maximum length of the payment plan is twenty-four months The Customer
		Service staff will set up the payment plan using the above guidelines as well as complete the necessary information on the "Payment Agreement" form and mail to the patient for
		signature Account documentation will be done online. The pre- collect agency will be sent a copy of the payment agreement and all forms will be scanned into the PFS Optical Imaging

Complete this part to provide the information required in Part I, line 2, Part III, column (b), and any other additional information

Identifier	Return Reference	Explanation
Grantmaker's Description of How Grants are Used		Rhode Island Hospital is committed to community programs and provides support to various charitable organizations in Rhode Island and southeastern Massachusetts Donations are made to organizations recognized by the IRS as being described in IRC Section 501(c)(3) All contributions are approved by management and are made to organizations whose missions and goals align with those of the Hospital In 2012, Lifespan, on behalf of Rhode Island Hospital and The Miriam Hospital, reached an agreement with the City of Providence to make voluntary payments to help stabilize the city's financial health. Lifespan has always maintained a strong commitment to Providence through its many community-based programs, as well as through the charity care it provides. As an organization, Lifespan understands that Providence's fiscal health is vital to the economic health of the entire State of Rhode Island. The agreement is a groundbreaking partnership that demonstrates Lifespan's commitment to help ensure a strong and vital Providence Individual scholarships are awarded annually to applicants by a joint decision making body comprised of both IBT (International Brotherhood of Teamsters) and RIH representatives. Payments are made directly to qualified educational institutions on behalf of scholarship recipients.

Part IIII Supplemental Information

Complete this part to provide the information, explanation, or descriptions required for Part I, lines 1a, 1b, 3, 4a, 4b, 4c, 5a, 5b, 6a, 6b, 7, and 8, and for Part II Also complete this part for any additional information

Identifier	Return Reference	Explanation
Sch J, Part I, Line 7	Part I, Line 7 Non-Fixed payments not listed above	The Lifespan Annual Incentive Compensation Plan provides a financial award opportunity for designated members of management, based on quantified objectives that are approved in advance by the Compensation Committee of the Lifespan Corporation Board of Directors. A specified level of financial performance must be met before any award is earned. The objectives vary from year to year and generally include various aspects of financial measures in addition to non-financial performance measures. For certain participants in the Lifespan Annual Incentive Compensation Plan, the award opportunity is divided into two pools. The first pool represents 80% of any earned incentive award, based on the achievement of the team performance objectives. The remaining 20% pool is distributed on an individual basis to participants at the discretion of the CEO, in each case subject to approval by the Compensation Committee of the Lifespan Corporation Board of Directors.
Sch J, Part I, Line 1a	Part I, Line 1a Relevant information in regards to selections on 1a	Tax Indemnification and Gross-up Payments The Lifespan Executive Long Term Disability program provides financial protection to designated Lifespan executives in the event that they become disabled Premiums are paid to the insurance carrier by the insureds on an after tax basis to allow for income replacement at a reasonable cost. The income associated with the premiums is grossed-up to cover the total cost of the benefit as provided in the Lifespan Executive Benefit Plan and is included in Medicare wages, more specifically on Schedule J, Part II, Column B (iii) Housing Allowances or Residences for Personal Use A temporary housing allowance may be provided on a case-by-case basis as part of the recruitment of key executives. The allowance is documented in the individual employment contract or employment offer. In calendar year 2012 Lifespan provided this benefit to two executives and the taxable amounts paid for the temporary housing resulting from relocation are included in Medicare wages, more specifically on Schedule J, Part II, column B (iii) Social Club Dues. The job responsibilities of certain executives include development of relationships with business leaders and donors. Those relationships are facilitated by the ability to meet in private sessions during which focused business discussions take place. The Hope and University Clubs, which require individual memberships, are places in Providence where businessmen and women, civic, community, and social leaders can gather in a businesslike atmosphere. The cost of membership is considered by Lifespan to be reasonable and necessary and thus a qualified business expense not taxable to the employee. IRS regulations regarding documentation requirements are followed for any payments made for meetings held at the respective club, including the business purpose and nature of the business benefit derived, the nature of the business discussion or activity, and the identity and business relationship of attendees.

Identifier	Return Reference	Explanation
	Form 990, Schedule K, Part V	The Hospital has in place written post-issuance tax compliance procedures for tax-exempt obligations. To ensure that its bonds continue to qualify for tax-exempt status, the Hospital consults with bond counsel and other legal counsel and advisors, as needed, to ensure that all applicable post-issuance requirements are met. The Hospital has not identified any non-compliance with the requirements of its tax-exempt bonds.

Identifier	Return Reference	Explanation
		The proceeds of the Series 2009A Bonds are being used for the purposes of financing projects consisting of (i) the acquisition, construction, renovation, expansion and equipping of certain hospital and related health care facilities owned and operated or to be owned and operated by one or more of Rhode Island, The Miriam or Emma Pendleton Bradley Hospitals, located at and in the vicinity of the Hospital Campuses, (ii) equipping, furnishing and improving facilities and other depreciable assets used in health care operations on the Hospital Campuses, (iii) the funding of a debt service reserve fund for the Bonds, and (iv) the payment of certain expenses of issuance with respect to the Bonds

Identifier	Return Reference	Explanation
	Form 990, Schedule K, Part I, Line A, Column (f)	The proceeds of the Series 2006A Bonds were used (i) to advance refund a portion of the \$214,585,000 Hospital Financing Revenue Bonds, Lifespan Obligated Group Issue, Series 1996, (ii) to advance refund a portion of the \$78,000,000 Hospital Financing Revenue Bonds, Lifespan Obligated Group Issue, Series 2002 and (iii) to pay certain expenses incurred in connection with the issuance of the Series 2006A Bonds

Identifier	Return Reference	Explanation
	Form 990, Part XII, Line 2	While the Hospital did not produce a separate audited financial statement as of and for the year ended September 30, 2013, it was included in Rhode Island Hospital and Affiliates' consolidated audited financial statements, which include Rhode Island Hospital, RIH Ventures, Radiosurgery Center of Rhode Island, LLC, and Lifespan Pharmacy, LLC. There are no regulatory or creditor stipulations which require the preparation of a separate audited financial statement for the organization. The Lifespan Audit and Compliance Committee assumes responsibility for oversight of the audit of RIH's consolidated financial statements and the selection of Lifespan's independent accountant.

Identifier	Return Reference	Explanation
	Form 990, Part VI, Section A, Line 1b	Law rence Aubin, Vice Chair, is the owner of West Bay Medical Center Building which leases space to The Miriam Hospital. ldentifier	Return Reference	Explanation
	Form 990, Part VI Section B, Lines 15 a&b cont	Base Salary Actions The CEO recommends any salary adjustments for participants in the executive compensation program, using the results of the valuation study and his/her assessment of individual performance or other pertinent information, for the Committee's consideration New Participants in Executive Compensation Program With respect to compensation offers for individuals expected to participate in the executive compensation program, the office of the President works with the Committee's independent compensation consultant or relies on information previously provided by the consultant to establish a range of reasonable cash compensation within which recruitment is expected to conclude with acceptance of a reasonable compensation offer

ldentifier	Return Reference	Explanation
	Form 990, Part VI Section B, Lines 15 a&b	The following applies to Lifespan and all of its affiliates, including Rhode Island Hospital EXECUTIVE COMPENSATIONLIfespan's executive compensation philosophy balances appropriate stewardship of resources and the need to be competitive in recruiting and retaining talented individuals. It incorporates market-competitive and performance-related principles, and covers the President and CEO of Lifespan as well as other officers, senior management, and key employees. Lifespan's executive compensation program complies with both law and contemporary ethical norms, and is administered consistent with the organization's tax-exempt status under Section 501(c)(3) of the Internal Revenue Code (IRC) and the avoidance of transactions subject to intermediate sanctions under Section 4958 of the IRC Executive compensation is also administered consistent with Lifespan's Corporate Compliance Policy on Excess Benefit Transactions. The Compensation Committee of the Lifespan Corporation Board of Directors (the Committee), comprised of disinterested Lifespan and affiliate Board members, is responsible for diligent oversight of executive compensation to ensure compliance with IRC requirements. Its duties include * Approving eligibility for participation in the executive compensation program * Approving changes in compensation for existing executive participants * Approving quelleines, such as salary ranges and contract terms, on appropriate levels of compensation for other key employees* Approving new, and modifying or terminating existing, executive compensation plans including, but not limited to, annual incentive and executive benefit plans* Approving performance objectives associated with Lifespan's annual incentive plan, including measuring points, and using audited actual performance relative to these objectives as a precondition to approving the payment of any awards under the plan* Authorizing periodic performance benchmark studies to be conducted for purposes of assessing Lifespan's performance with the healthcare industry a

ldentifier	Return Reference	Explanation
	Form 990, Part VI Section B, Line 12c	Lifespan Corporation has a Conflict of Interest Policy that is applicable to all affiliates, including Rhode Island Hospital, and administered by Lifespan's Corporate Compliance Department as follows. Each designated person subject to Lifespan's conflict of interest policy is required to provide Lifespan with an initial disclosure statement and thereafter an annual statement attesting that (i) the designated person has read and is familiar with this policy, and (ii) the designated person and, to the best of his/her knowledge, family members, have not in the past engaged in, are not presently engaging in, or plan to engage in, any activity which contravenes this policy If, at any time during the course of employment or association, a designated person has reason to believe that an existing or contemplated activity may contravene this policy, the person shall submit a full written description of the activity to the Lifespan Compliance Officer or the Office of the General Counsel to seek a determination as to whether the contemplated activity does or does not contravene this policy. This requirement shall be acknowledged as part of the annual performance evaluation process. If the activity in question involves either the Chief Executive Officer, the Senior Vice President and General Counsel, or a Trustee, a full written disclosure must be made to, and a determination sought from the Chairman of the Board of Directors of Lifespan Corporation Annually, the Lifespan Compliance Officer shall review and report to the Lifespan Executive Corporate Compliance Committee and to the Lifespan Audit and Compliance Committee on the administration of this policy Failure on the part of any designated person to comply with this policy, including failure to submit in a timely fashion the conflict of interest disclosure statement, will be grounds for removal from his/her position and/or termination of his/her employment with Lifespan

Identifier	Return Reference	Explanation
	Form 990, Part III, Line 4c, continued	Major areas of research include Cancer RIH participates in clinical trials of new therapeutic agents in both adult and pediatric medicine. These trials are supported by Childrens' Oncology Group (COG), and National Surgical Adjuvant Breast and Bow el Project (NSABP). RIH is a participating hospital in the Brown University-sponsored Cancer Oncology group (BrUCOG). The Liver Research Center. The Liver Research Center emphasizes studies relating to the molecular biology of liver diseases such as Hepatitis B and C and cellular carcinoma. Heart Disease. General research continues in areas of invasive therapy, such as angioplasty, artherectomy, coronary stenting, and laser treatment of coronary artery disease. Neurological illness. The Alzheimer's Disease and Memory Disorder combines high quality neurological, neuropsychologic, and psychiatric services, thus creating a comprehensive diagnostic and treatment center for patients with memory disorders. Stroke The Stroke Center at Rhode Island Hospital provides services to adult and geriatric patients with suspected transient ischemic attack (TIA) or stroke annually in Rhode Island and Southeastern Massachusetts. As the region's only primary stroke center located within a Level 1 trauma center, Rhode Island Hospital is uniquely qualified to provide the most advanced clinical care to acute stroke patients. Other major research areas included multiple sclerosis, epilepsy, Parkinson's disease, and other movement disorders.

Identifier	Return Reference	Explanation
	Form 990, Part III, Line 4b, continued	Under an affiliation agreement with The Warren Alpert Medical School of Brown University (Brown), RIH participates jointly in various clinical training programs and research activities. In 2010, Brown named RIH its Principal Teaching Hospital The goals of the partnership are to facilitate the expansion of joint educational and research programs in order to compete both clinically and academically. The Hospital currently sponsors 47 graduate medical education programs accredited by or under the auspices of the Accreditation Council for Graduate Medical Education (ACGME), while also sponsoring another 27 hospital-approved residency and fellowship programs. The Hospital serves as the principal setting for these clinical training programs, which encompass the following disciplines internal medicine and medicine sub-specialties, including hematology and oncology, othropedics and orthopedic sub-specialties, clinical neurosciences, general surgery and surgical specialties, pediatrics and pediatric specialties, including hematology and oncology, dermatology, radiology, pathology, child psychiatry, emergency medicine and emergency medicine specialties, dentistry, and medical physics in 2013, Brown University enrolled 46s students in undergraduate medical education programs. All medical students at Brown receive training at RIH. The Hospital teaching faculty help to ensure that the experience for both undergraduate and graduate medical education trainess remains transformative - transforming novice practitioners into physicians able to think, act, and keep their focus on the ultimate goal of providing the best and most appropriate care for patients no matter what he setting or circumstances. The Hospital is also a participating clinical training site for another 200 residents and fellows based at other institutions in anesthesiology, pediatry, spychiatry, geniatric psychiatry, orthopedics, rheumatology, and radiation oncology programs. RIH serves as a clinical site for elective clerkships for Physician. Assistant student

Identifier	Return Reference	Explanation
	Form 990, Part III, Line 4a, continued	in 2013, RIH discharged 33,996 inpatients with total inpatient days of 182,206, treated 150,562 patients in its emergency departments, performed 21,811 inpatient and outpatient surgical procedures, and cared for 175,018 patients in outpatient clinics Special services, facilities and programs provided by RIH include the Comprehensive Cancer Center for adults, the Cardiovascular Institute, comprised of cardiac catheterization, balloon angioplasty and open heart surgery, critical care services, microvascular surgery, nuclear cardiology, radiology, laboratory, renal dialysis, computerized tomography, orthopedics, including minimally invasive carpal tunnel surgery and cartilage transplants for knee defects, and magnetic resonance imaging (MRI) RIH is the designated Level I Trauma Center for the State of Rhode Island and southeastern Massachusetts, with a state-of-the-art emergency department (ED) and a dedicated pediatric ED RIHs adult ED includes a dedicated radiology unit, including 4-slice and 16-slice CT scanners, ultrasound and x-ray machines, an all-inclusive chest pain center, a critical care unit for the most seriously injured and ill, and private treatment rooms in 2007, RIH was the first hospital in New England to place a cardiac catheterization lab in its ED, providing faster care and preserving heart muscle function for acute cardiac patients RIH provides a full range of services to patients, with particular expertise in diagnostic imaging, cardiology, oncology (both medical and radiation), neurosciences and orthopedics. RIH offers imaging with the PET/CT technology for cancer staging, while cardiac MRI and 64-slice cardiac CT scanners are powerful tools for evaluating heart disease and function. The Anne C. Pappas Center for Breast Imaging is the only facility in the state to be designated a Breast Imaging Center of Excellence by the American College of Radiologists in the area of cancer services, RIH pioneered image-guided tumor ablation, which shrinks or eliminates tumors by destroying them with heat

ldentifier	Return Reference	Explanation
	Form 990, Part I, Line 6	Volunteers support and contribute to the mission of RIH and HCH every day, giving their time, energy, and enthusiasm. Throughout the hospital, they are able to learn, meet other dedicated volunteers, better understand the healthcare environment, and gain personal satisfaction knowing they are making a difference to patients, families, and visitors alike Volunteer opportunities are available for both teens and adults in a wide variety of positions, including greeters, family liaisons, emergency room support, gift shop support, nurse aides, office support, pet therapy, physical therapy, patient visitors, recovery room support, art therapy, and central transporters. Volunteers also transport students and serve as guides, escorts, and interpreter aides.

ldentifier	Return Reference	Explanation
		RIH also offers pediatric services through its pediatric division, Hasbro Children's Hospi tal (HCH). HCHs specialties include cardiology, orthopedics, and hematology/oncology. ldentifier	Return Reference	Explanation
Form 990, Part VI, Line 11b	Form 990, Part VI, Line 11b Form 990 Review Process	The preparation and filing of the Form 990 and supporting schedules is the responsibility of the Chief Financial Officer and Lifespan's Finance Department, with review by Lifespan's tax advisors, KPMG LLP. The Form 990 is prepared by the accounting staff upon completion of Lifespan's annual independent audit and reviewed by the Corporate Services Tax Compliance Manager Further review is performed by the Director of Finance and the Vice President of Finance - Corporate Services Once the draft Form 990 is complete, the Director of Finance forwards it with all supporting worksheets to KPMG, which then reviews the completed form in detail. The Director of Finance answers questions as they arise and provides additional information as needed. KPMG provides the Director of Finance with any recommended changes which are reviewed, and if agreed upon, are incorporated into the return. The draft Form 990 is then provided to the Chief Financial Officer for final management review. Prior to filing the return with the Internal Revenue Service, a copy of the entire form, along with a video presentation detailing form highlights, are posted to the Hospital's Board of Trustees website portal in advance of its next Board meeting, at which all questions and concerns of the members of the Board are addressed by the Chief Financial Officer and incorporated into the Form 990 when appropriate. Once the Form 990 is complete and ready to be filed, the members of the Board are notified via email that a copy of the final version of the Form 990 is accessible through the same password protected website portal. The Chief Financial Officer is authorized to file the Form 990.

Independent Auditors' Report

The Board of Trustees Rhode Island Hospital

We have audited the accompanying consolidated financial statements of Rhode Island Hospital and Affiliates, which comprise the consolidated statements of financial position as of September 30, 2013 and 2012, and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U S generally accepted accounting principles, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

Opinion

In our opinion, the consolidated financial statements referred to above present fairly in all material respects, the financial position of Rhode Island Hospital and Affiliates as of September 30, 2013 and 2012, and the results of their operations and their cash flows for the years then ended in accordance with U S generally accepted accounting principles

(1) Description of Organization

Rhode Island Hospital (the Hospital), located in Providence, Rhode Island, is a 719-bed nonprofit general acute care teaching hospital with university affiliation providing a comprehensive range of diagnostic and therapeutic services for the acute care of patients principally from Rhode Island and southeastern Massachusetts. As a complement to its role in service and education, the Hospital actively supports research. The Hospital is accredited by the Joint Commission on Accreditation of Healthcare Organizations (JCAHO) and participates as a provider primarily in Medicare, Blue Cross, and Medicaid programs. The Hospital is also a member of Voluntary Hospitals of America, Inc. (VHA)

Effective August 9, 1994, the Hospital and The Miriam Hospital (TMH) of Providence, RI (247 beds) implemented a plan which included the creation of a not-for-profit parent company. Lifespan Corporation Each hospital continues to maintain its own identity, as well as its own campus and its own name Lifespan, the sole member of the Hospital and TMH, has the responsibility for strategic planning and initiatives, capital and operating budgets, and overall governance of the consolidated organization

The Board of Directors of Lifespan Corporation and the Boards of Trustees of the Hospital, TMH. Newport Health Care Corporation (NHCC). Newport Hospital, and Emma Pendleton Bradley Hospital approved a restructuring of their governance, effective October 23, 2012. The restructuring has increased governance effectiveness and has streamlined governance operation, as well as provided a single strategic perspective for the Lifespan system hospitals. Pursuant to the restructuring, the composition of the Boards of Trustees of each of the hospitals and of NHCC is defined as those persons serving from time to time as the directors of Lifespan Corporation. As a result, the Boards of each entity are comprised of the same individuals. The Board of each entity retains its responsibilities and authorities notwithstanding the revision in its composition. The composition of the Boards of Trustees of the respective hospital foundations are not impacted by this restructuring, however, the chairs of the four hospital foundations serve ex officio as directors of Lifespan Corporation, and by extension, as trustees of each of the hospitals

In 2009, Lifespan announced its intention to combine the Hospital and TMH into a single hospital with two campuses. Rhode Island Hospital Foundation and The Miriam Hospital Foundation remain as separate entities. The hospitals continue to integrate clinical programs and services.

(2) Charity Care and Other Community Benefits

The total net cost of charity care and other community benefits provided by the Hospital for the years ended September 30, 2013 and 2012 is summarized in the following table

	 2013	_	2012
Charity care	\$ 53,190	\$	50,601
Medical education, net	55,769		52,863
Research	12,381		11,317
Subsidized health services	12,118		10,461
Community health improvement services			
and community benefit operations	932		952
Unreimbursed Medicaid costs	 6,660		5,067
Total	\$ 141,050	\$_	131,261

Charity Care

The Hospital provides full charity care for individuals at or below twice the federal poverty level, with a sliding scale for individuals up to four times the poverty level. In addition, a substantial discount is offered to all other uninsured patients. The Hospital determines the costs associated with providing charity care by aggregating the applicable direct and indirect costs, including compensation and benefits, supplies, and other operating expenses, based on data from its costing system. The total cost, excluding medical education and research, incurred by the Hospital to provide charity care amounted to \$53,190 and \$50,601 in 2013 and 2012, respectively. Charges forgone, based on established rates, amounted to \$185,731 and \$175,109 in 2013 and 2012, respectively.

Medical Education

The Hospital provides the setting for and substantially supports medical education in various clinical training and nursing programs. The total cost of medical education provided by the Hospital exceeds the reimbursement received from third-party payors by \$55,769 and \$52,863 in 2013 and 2012, respectively

In 1969, the Hospital and certain other Rhode Island hospitals entered into an affiliation agreement to participate jointly in various clinical training programs and research activities with Brown Medical School, renamed The Warren Alpert Medical School of Brown University (Brown) In 2010, Brown named the Hospital its Principal Teaching Hospital TMH and Emma Pendleton Bradley Hospital (EPBH) continue to be designated as major teaching affiliates. The goals of the partnership are to facilitate the expansion of joint educational and research programs in order to compete both clinically and academically. The Hospital currently sponsors 47 graduate medical education programs accredited by or under the auspices of the Accreditation Council for Graduate Medical Education (ACGME), while also sponsoring another 27 hospital-approved residency and fellowship programs. The Hospital serves as the principal setting for these clinical training programs, which encompass the following disciplines internal medicine and medicine subspecialties, including hematology and oncology, orthopedics and orthopedic subspecialties, clinical neurosciences, general surgery and surgical specialties, pediatrics and pediatric specialties, including

7

Notes to Consolidated Financial Statements
September 30, 2013 and 2012
(In thousands)

(2) Charity Care and Other Community Benefits (continued)

hematology and oncology, dermatology, radiology, pathology, child psychiatry, emergency medicine and emergency medicine specialties, dentistry, and medical physics. The Hospital provides stipends to residents and physician fellows while in training

The Hospital is also a participating clinical training site for residents from other programs in anesthesiology, pediatric dentistry, family medicine, infectious disease, obstetrics/gynecology (OB/Gyn) and OB/Gyn subspecialties, otolaryngology, podiatry, psychiatry, geriatric psychiatry, orthopedics, rheumatology, and radiation oncology.

With respect to nursing education, the Hospital has developed educational affiliations with the University of Rhode Island College of Nursing. Rhode Island College School of Nursing, Community College of Rhode Island, Salve Regina University, Boston College, Yale University, Regis College, Simmons College, St. Joseph's Health Services' School of Nursing, the University of Massachusetts campuses at Dartmouth, Boston, Amherst, and Worcester, the University of Connecticut, New England Technical Institute, Northeastern University, Walden University, and the University of Pennsylvania, as well as other Schools of Nursing, pursuant to which their nursing students obtain clinical training and experience at the Hospital The Hospital does not receive any compensation from the various schools for providing a clinical setting for the student nurse training

The Hospital sponsors training programs in the following medical fields medical technology, diagnostic medical sonography, nuclear medical technology, radiologic technology, mammography, computed tomography, and magnetic resonance imaging. At the Hospital, clinical affiliations/student clinical training programs are provided through contracts with a number of colleges and universities in the professional areas of speech-language pathology and audiology, physical therapy, physical therapy assistants, occupational therapy, and certified occupational therapy assistants. The Hospital has clinical training affiliations in respiratory therapy with local colleges as well as Independence University (Utah). In addition, the Hospital serves as the clinical setting for training programs in histology, cytology, phlebotomy, child development, and social work.

The Hospital has clinical affiliations/student clinical training programs for pharmacy students provided through contracts with a number of colleges and universities. In addition, the Hospital's Pharmacy Department co-sponsors second-year postgraduate specialized pharmacy residency programs in oncology and ambulatory care. The Hospital's pharmacists also participate in the education of nursing and pharmacy students by providing didactic lectures at both Rhode Island College and the University of Rhode Island's College of Pharmacy.

Research

The Hospital conducts extensive medical research and is in the forefront of biomedical health care delivery research and among the leaders nationally in the National Institutes of Health programs. The Hospital also sponsors a significant level of these research activities, as indicated in the table on page 7.

Federal support accounts for approximately 72% of all externally funded research at the Hospital Researchers focus on clinical trials which investigate prevention and treatment of HIV/AIDS, obesity,

Notes to Consolidated Financial Statements
September 30, 2013 and 2012
(In thousands)

(2) Charity Care and Other Community Benefits (continued)

cancer, diabetes, cardiac disease, neurological problems, orthopedic advancements, and mental health concerns Researchers work in the laboratory or with patients, or both

Subsidized Health Services

The Hospital substantially subsidizes various health services including the following programs adult psychiatry, dental, adolescent, and Alzheimer's, as well as the Center for Special Children, early intervention, and certain other specialty services

Community Health Improvement Services and Community Benefit Operations

The Hospital also provides numerous other services to the community for which charges are not generated. These services include certain emergency services, community health screenings for cardiac health, prostate cancer and other diseases, smoking cessation, immunization and nutrition programs, diabetes education, community health training programs, patient advocacy, foreign language translation, physician referral services, and charitable contributions.

Unreimbursed Medicaid Costs

The Hospital subsidizes the cost of treating patients who receive government assistance where reimbursement is below cost. Medicaid is a means-tested health insurance program, jointly funded by state and federal governments. States administer the program and set rules for eligibility, benefits, and provider payments within broad federal guidelines. The program provides health care coverage to low-income children and families, pregnant women, long-term unemployed adults, seniors, and persons with disabilities. Eligibility is determined by a variety of factors, which include income relative to the federal poverty line, age and immigration status, and assets. The unreimbursed Medicaid costs do not include any allocation of medical education or research costs.

(3) Summary of Significant Accounting Policies

(a) Basis of Presentation

The consolidated financial statements, which are prepared on the accrual basis of accounting, include the accounts of the Hospital, RIH Ventures (RIHV), Radiosurgery Center of Rhode Island, LLC (RCRI), and Lifespan Pharmacy, LLC Operations of RIHV include phlebotomy services which facilitate laboratory specimen testing, as well as parking facilities that serve patients and staff of the Hospital The Hospital owns a 100% interest in RCRI, a limited liability company formed to operate a radiation therapy center utilizing cyberknife technology. The Hospital is also the sole member of Lifespan Pharmacy, LLC, which provides services to both patients and employees. All significant intercompany accounts and transactions have been eliminated in consolidation.

The Hospital considers events and transactions that occur after the consolidated statement of financial position date, but before the consolidated financial statements are issued, to provide additional evidence relative to certain estimates or to identify matters that require additional

Notes to Consolidated Financial Statements
September 30, 2013 and 2012
(In thousands)

(3) Summary of Significant Accounting Policies (continued)

disclosure. These consolidated financial statements were issued on February 24, 2014 and subsequent events have been evaluated through that date

(b) Use of Estimates

The preparation of financial statements in conformity with U S generally accepted accounting principles requires management to make estimates and assumptions that affect amounts reported in the consolidated financial statements and accompanying notes. Actual results could differ from those estimates

(c) Cash and Cash Equivalents

Cash and cash equivalents include all highly liquid debt instruments with maturities of three months or less when purchased, excluding amounts limited as to use by board-designation or other arrangements under trust agreements

(d) Investments and Investment Income

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Subtopic 820-10. Fair Value Measurements and Disclosures (ASC 820-10), defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. Fair value represents the price that would be received upon the sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants as of the measurement date. ASC 820-10 establishes a fair value hierarchy that prioritizes inputs used to measure fair value into three levels.

- Level 1 quoted prices (unadjusted) in active markets that are accessible at the measurement date.
- Level 2 observable prices that are based on inputs not quoted in active markets, but which are corroborated by market data, and
- Level 3 unobservable inputs that are used when little or no market data is available

The fair value hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. In determining fair value, the Hospital utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible.

Following is a description of the valuation methodologies used for investments measured at fair value

Cash and short-term investments Valued at the net asset value (NAV) reported by the financial institution.

US government agency and corporate obligations Valued using market quotations or prices obtained from independent pricing sources which may employ various pricing methods to value the

(3) Summary of Significant Accounting Policies (continued)

investments, including matrix pricing based on quoted prices for securities with similar coupons, ratings and maturities. These investments are designated by the Hospital as trading securities.

Corporate equity securities Valued at the closing prices reported by an active market in which the individual securities are traded. These investments are designated by the Hospital as trading securities.

Collective investment funds Investments in collective investment funds with monthly pricing and liquidity are valued using NAV as reported by the investment manager, which approximates the market values of the underlying investments within the fund or realizable value as estimated by the investment manager. Otherwise, such investments are recorded at historical cost. The Hospital has applied the accounting guidance in Accounting Standards Update No 2009-12, Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) (ASU 2009-12), which permits the use of NAV or its equivalent reported by each underlying alternative investment fund as a practical expedient to estimate the fair value of the investment. These investments are generally redeemable or may be liquidated at NAV under the original terms of the subscription agreements or operations of the underlying funds. Also, because the Hospital uses NAV as a practical expedient to estimate fair value, the level in the fair value hierarchy in which each fund's fair value measurement is classified is based primarily on the Hospital's ability to redeem its interest in the fund at or near the date of the consolidated statement of financial position. Accordingly, the inputs or methodology used for valuing or classifying investments for financial reporting purposes are not necessarily an indication of the risk associated with those investments or a reflection on the liquidity of each fund's underlying assets and liabilities

Investments of less than 5% in limited partnerships are recorded at historical cost. Investments of 5% or more in limited partnerships, limited liability corporations, or similar investments are accounted for using the equity method.

Investments designated by the Hospital as trading securities are reported at fair value, with gains or losses resulting from changes in fair value recognized in the consolidated statements of operations and changes in net assets as realized gains or losses on investments. For investment securities other than trading, a decline in the market value of the security below its cost that is designated to be other than temporary is recognized through an impairment charge classified as a realized loss and a new cost basis is established

Investment income or loss (including realized gains and losses on investments, interest, and dividends) is included in the (deficiency) excess of revenues over expenses unless the income or loss is restricted by donor or law. Unrealized gains and losses on investments other than those designated as trading securities are excluded from the (deficiency) excess of revenues over expenses.

Realized gains or losses on sales of investments are determined by the average cost method. Realized gains or losses on unrestricted investments are recorded as nonoperating gains or losses, realized.

Notes to Consolidated Financial Statements
September 30, 2013 and 2012
(In thousands)

(3) Summary of Significant Accounting Policies (continued)

gains or losses on restricted investments are recorded as an addition to or deduction from the appropriate restricted net asset category

Investment income from funds held by third parties under long-term debt agreements is recorded as other revenue. The Hospital maintains a spending policy for certain of its board-designated funds which provides that investment income from such funds is recorded within unrestricted revenues as endowment earnings contributed toward community benefit.

Income from permanently restricted investments is recorded within nonoperating gains when unrestricted by the donor and as an addition to the net assets of the appropriate temporarily restricted fund when restricted by the donor.

(e) Assets Limited as to Use

Assets limited as to use primarily include designated assets set aside by the Hospital's Board for future capital improvements, over which the Board retains control and may at its discretion subsequently use for other purposes, and assets whose use by the Hospital has been permanently restricted by donors or limited by grantors or donors to a specific purpose, as well as assets held by third parties under long-term debt agreements and irrevocable split-interest trusts. Amounts required to meet current liabilities of the Hospital are reported in current assets in the consolidated statements of financial position.

(f) Property and Equipment

Property and equipment acquisitions are recorded at cost. Depreciation is computed over the estimated useful life of each class of depreciable asset using the straight-line method. Buildings and improvements lives range from 5 to 40 years and equipment lives range from 3 to 20 years. Certain software development costs are amortized using the straight-line method over a period of five years. Net interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets.

(g) Deferred Financing Costs

Deferred financing costs, which relate to the issuance of long-term bonds payable to the Rhode Island Health and Educational Building Corporation (RIHEBC), are being amortized ratably over the periods the bonds are outstanding

(h) Goodwill and Indefinite-Lived Intangible Assets

Goodwill and intangible assets determined to have indefinite lives are not subject to amortization Goodwill and indefinite-lived intangible assets are reviewed for impairment on an annual basis or more frequently if circumstances indicate a potential impairment exists or has occurred.

(3) Summary of Significant Accounting Policies (continued)

(i) Classification of Net Assets

FASB ASC Subtopic 958-250 (ASC 958-250) provides guidance on the net asset classification of donor-restricted endowment funds for a not-for-profit organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA) and also requires disclosures about endowment funds, including donor-restricted endowment funds and board-designated endowment funds

The Hospital is incorporated in and subject to the laws of Rhode Island, which adopted UPMIFA effective as of June 30, 2009. Under UPMIFA, the assets of a donor-restricted endowment fund may be appropriated for expenditure by the Hospital in accordance with the standard of prudence prescribed by UPMIFA. As a result of this law and ASC 958-250, the Hospital has classified its net assets as follows.

- Permanently restricted net assets contain donor-imposed stipulations that neither expire with the passage of time nor can be fulfilled or otherwise removed by actions of the Hospital and primarily consist of the historic dollar value of contributions to establish or add to donor-restricted endowment funds
- Temporarily restricted net assets contain grantor or donor-imposed stipulations as to the timing of their availability or use for a particular purpose, including research activities. These net assets are released from restrictions when the specified time elapses or when actions have been taken to meet the restrictions. Net assets of donor-restricted endowment funds in excess of their historic dollar value are classified as temporarily restricted net assets until appropriated by the Hospital and spent in accordance with the standard of prudence imposed by UPMIFA.
- *Unrestricted net assets* contain no donor-imposed restrictions and are available for the general operations of the Hospital Such net assets may be designated by the Hospital for specific purposes, including functioning as endowment funds

See note 6 for more information about the Hospital's endowment.

(j) (Deficiency) Excess of Revenues Over Expenses

The consolidated statements of operations and changes in net assets include (deficiency) excess of revenues over expenses. Changes in unrestricted net assets which are excluded from (deficiency) excess of revenues over expenses, consistent with industry practice, include the change in the funded status of pension and other postretirement plans, the net change in unrealized gains on investments available for sale, net assets released from restrictions used for purchase of property and equipment, and the change in interest in net assets of Rhode Island Hospital Foundation

Notes to Consolidated Financial Statements

(In thousands)

(3) Summary of Significant Accounting Policies (continued)

(k) Net Patient Service Revenue

The Hospital provides care to patients under Medicare. Medicaid, managed care, and commercial insurance contractual arrangements. The Hospital has agreements with many third-party payors that provide for payments to the Hospital at amounts less than its established rates. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with some third-party payors.

Medicare and Medicaid utilize prospective payment systems for most inpatient hospital services rendered to program beneficiaries based on the classification of each case into a diagnostic-related group (DRG). Outpatient hospital services are primarily paid using an ambulatory payment classification system.

The majority of payments from managed care and commercial insurance companies are based upon fixed fee arrangements, some of which follow a DRG-based approach, while others employ a combination of per diem rates and specific case rates for inpatient services, along with fixed fees applicable to outpatient services.

Settlements and adjustments arising under reimbursement arrangements with some third-party payors, primarily Medicare. Medicaid, and Blue Cross, are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. The Hospital has classified a portion of accrued estimated third-party payor settlements as long-term because such amounts, by their nature or by virtue of regulation or legislation, will not be paid within one year. Changes in the Medicare and Medicaid programs, such as the reduction of reimbursement, could have an adverse impact on the Hospital.

(l) Provision for Bad Debts

Accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectibility of accounts receivable, the Hospital analyzes its past history and identifies its revenue trends for each of its major payors to estimate the appropriate allowance for doubtful accounts and the associated provision for bad debts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts. For receivables associated with services provided to patients who have third-party coverage, the Hospital analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payor has not yet paid, or for payors who are known to be having financial difficulties that make the realization of amounts due unlikely). For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Hospital records a significant allowance for doubtful accounts and provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling

14

Notes to Consolidated Financial Statements
September 30, 2013 and 2012
(In thousands)

(3) Summary of Significant Accounting Policies (continued)

to pay the portion of their bill for which they are financially responsible. The difference between the standard rates (or the discounted rates, if applicable) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts

The Hospital's allowance for doubtful accounts for self-pay patients increased from 79% of self-pay accounts receivable at September 30, 2012 to 80% of self-pay accounts receivable at September 30, 2013. The Hospital's self-pay writeoffs for the years ended September 30, 2013 and 2012 amounted to \$59,319 and \$53,361, respectively. The Hospital did not change its charity care or uninsured discount policies during the years ended September 30, 2013 and 2012, respectively. The Hospital does not maintain a material allowance for doubtful accounts from third-party payors, nor did it have significant writeoffs from third-party payors in either 2013 or 2012.

(m) Charity Care

The Hospital provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Hospital does not pursue collection of amounts determined to qualify as charity care, they are not reported as net patient service revenue (see note 2).

(n) Donor-Restricted Gifts

Unconditional promises to give cash and other assets to the Hospital are reported at fair value at the date the promise is received. The gifts are reported as temporarily or permanently restricted support that increase those net asset classes if they are received with stipulations that limit the use of the assets. When a donor or grantor restriction expires, that is, when a stipulated purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the consolidated statements of operations and changes in net assets as net assets released from restrictions.

(o) Inventories

Inventories, consisting primarily of medical/surgical supplies and pharmaceuticals, are stated at the lower of cost or market

(p) Estimated Self-Insurance Costs

The Hospital participates in Lifespan self-insurance programs with other Lifespan affiliates for losses arising from professional liability/medical malpractice, general liability, and workers' compensation claims, as well as health benefits to its employees. The Hospital has recorded provisions for estimated claims, which are based on the Hospital's own experience. The provisions for self-insured losses include estimates of the ultimate costs for both reported claims and claims incurred but not reported.

Notes to Consolidated Financial Statements
September 30, 2013 and 2012
(In thousands)

(3) Summary of Significant Accounting Policies (continued)

(q) Fair Value of Financial Instruments

The carrying amounts recorded in the consolidated statements of financial position for cash and cash equivalents, patient accounts receivable, assets limited as to use, accounts payable, accrued expenses, estimated third-party payor settlements, and estimated health care benefit self-insurance costs approximate their respective fair values. The estimated fair values of the Hospital's assets limited as to use, pension-related assets, and long-term debt are disclosed in notes 6, 9, and 12, respectively.

(r) Reclassifications

Certain 2012 amounts have been reclassified to conform with the 2013 reporting format

(4) Non-recurring Charges

Loss from operations for 2013 includes non-recurring charges of approximately \$1,788 related to streamlining initiatives resulting from the Hospital's review of its operating strategies. The charges include provisions for the severance costs of permanent management and supervisory workforce reductions. The liability related to the non-recurring charges was approximately \$767 at September 30, 2013 and is included in accrued employee benefits and compensation in the consolidated statement of financial position.

In July 2013, Lifespan announced a voluntary early retirement program (VERP), which was designed to provide salary and medical benefits continuation for eligible employees who wished to retire. The Hospital's estimated costs of this program in 2013 amounted to \$2,933 and are included in compensation and benefits in the consolidated statement of operations and changes in net assets. In 2012, compensation and benefits were reduced by \$2,369, as the estimated costs of the Hospital's 2011 VERP program were adjusted to account for updated information regarding employees who subsequently withdrew their VERP election. The liability related to the Hospital's VERP programs is approximately \$1,282 and \$864 as of September 30, 2013, and 2012, respectively, and is included in accrued employee benefits, and compensation in the consolidated statements of financial position.

(5) Disproportionate Share

The Hospital is a participant in the State of Rhode Island's Disproportionate Share Program, established in 1995 to assist hospitals which provide a disproportionate amount of uncompensated care. Under the program, Rhode Island hospitals, including the Hospital, receive federal and state Medicaid funds as additional reimbursement for treating a disproportionate share of low income patients. Total payments to the Hospital under the Disproportionate Share Program aggregated \$58,277 and \$53,415 in 2013 and 2012, respectively, and are reflected as part of net patient service revenue in the accompanying consolidated statements of operations and changes in net assets

For periods beyond 2015, the federal government is scheduled to change the level of federal matching funds for the Disproportionate Share Program Accordingly, it may be necessary for the State of Rhode Island to modify the program and the reimbursement to Rhode Island hospitals under the program At this time, the scope of such modifications or their effect on the Hospital cannot be reasonably determined

(6) Investments

The composition of assets limited as to use at September 30, 2013 and 2012 is set forth in the following table

	2013		2012
Unrestricted board-designated funds Funds held by third parties under long-term debt agreements Temporarily restricted funds Permanently restricted funds	\$ 221,758 40,414 228,221 39,671	\$	245,642 17,776 222,843 39,207
Total	\$ 530,064	\$ =	525,468

Assets limited as to use at September 30 are classified as follows

	_	2013	2012		
Available-for-sale Trading	\$	348,398 181,666	\$	370,352 155,116	
Total	\$ _	530,064	\$	525,468	

Assets limited as to use are classified as trading securities if the buy/sell decision with respect to each portfolio security is the responsibility of an external investment manager. All other assets limited as to use are classified as available-for-sale securities.

term debt agreements (note 12)	_	17.776			17,776		
Total	\$_	179,560 \$	268,991 \$	12,750 \$	461,301		

Investments held by third parties under long-term debt agreements consist of money market funds invested in U.S. Government and agency obligations and other high-quality, short-term debt securities

Investments of less than 5% in collective investment funds which do not have monthly pricing or liquidity are recorded at historical cost. Investments of less than 5% in limited partnerships are also recorded at historical cost. The aggregate historical cost of these investments, which approximates market value as reported by investment managers, amounted to \$57,150 at September 30, 2013 and \$64,167 at September 30, 2012.

Most investments classified in Levels 2 and 3 consist of shares or units in investment funds as opposed to direct interests in the funds' underlying holdings, which may be marketable. Because the NAV reported by each fund is used as a practical expedient to estimate the fair value of the Hospital's interest therein, its classification in Level 2 or 3 is based on the Hospital's ability to redeem its interest at or near the date of the consolidated statement of financial position. If the interest can be redeemed in ninety days or less, the investment is generally classified in Level 2. The classification of investments in the fair value hierarchy is not necessarily an indication of the risks, liquidity, or degree of difficulty in estimating the fair value of each investment's underlying assets and liabilities.

(In thousands)

(6) Investments (continued)

Liquidity

Investments as of September 30, 2013 and 2012 are summarized below based on when they may be redeemed or sold:

	2013		2012
Investment redemption or sale period		_	
Daily	\$ 253,579	\$	276,813
Weekly	41,979		_
Monthly	98,889		110,647
Quarterly	57,304		53,115
One-to-five years	730		729
Locked-up until liquidation	 20,433	_	19,997
Total	\$ 472,914	\$	461,301

Locked-up until liquidation includes assets held in trust (note 7) and the trustee-held debt service reserve fund under the 2009A bond indenture agreement (note 12)

Commitments

Venture capital, private equity, and certain energy and real estate investments are made through limited partnerships. Under the terms of these agreements, the Hospital is obligated to remit additional funding periodically as capital or liquidity calls are exercised by the manager. These partnerships have a limited existence, generally ten years, and such agreements may provide for annual extensions for the purpose of disposing portfolio positions and returning capital to investors. However, depending on market conditions, the inability to execute the fund's strategy, and other factors, a manager may extend the terms of a fund beyond its originally anticipated existence or may wind the fund down prematurely. The Hospital cannot anticipate such changes because they are based on unforeseen events, but should they occur they may result in less liquidity or return from the investment than originally anticipated. As a result, the timing and amount of future capital or liquidity calls expected to be exercised in any particular future year is uncertain. The aggregate amount of unfunded commitments associated with the above noted investment categories as of September 30, 2013 was \$6,656.

Notes to Consolidated Financial Statements
September 30, 2013 and 2012
(In thousands)

(6) Investments (continued)

Investments with Unrealized Losses

Information regarding investments with unrealized losses at September 30, 2013 and 2012 is presented below, segregated between those that have been in a continuous unrealized loss position for less than twelve months and those that have been in a continuous unrealized loss position for twelve or more months

		Less than 12	2 months	12 month	s or longer	Total					
		Fair value	Unrealized losses	Fair value	Unrealized losses	Fair value	Unrealized losses				
September 30, 2013 Unrestricted board-designated and temporarily restricted funds Collective investment funds	\$	18.083 \$	394_\$_	12.522	\$516_\$	30.605 \$	910				
Total temporarily impaired securities	\$ _	18.083 \$	394 \$	12.522	\$516_\$	30,605 \$	910				
	_	Less than 12			s or longer	Tota					
	_	Fair value	Unrealized losses	Fair value	Unrealized losses	Fair value	Unrealized losses				
September 30, 2012 Unrestricted board-designated and temporarily restricted funds Collective investment funds	\$	\$	\$_	15,670	\$\$	s	137				
Total temporarily impaired securities	\$	— s	— s	15,670	\$ 137 \$	5 15,670 \$	137				

The Hospital reviewed the above investments with unrealized losses and determined that no impairment was considered to be other than temporary. In the evaluation of whether an impairment is other than temporary, the Hospital considers the reasons for the impairment, its ability and intent to hold the investment until the market price recovers, the severity and duration of the impairment, current market conditions, and expected future performance

Endowments

The Hospital's endowment consists of approximately 304 individual funds established for a variety of purposes, including both donor-restricted endowment funds and funds designated by the Hospital to function as endowments Investments associated with endowment funds, including funds designated by the Hospital to function as endowments, are classified and reported based on the existence or absence of donor-imposed restrictions

Notes to Consolidated Financial Statements September 30, 2013 and 2012 (In thousands)

Endowments (continued)

(In thousands)

Endowments (continued)

(a) Interpretation of Relevant Law

The portion of donor-restricted endowment funds that is not classified as permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Hospital in a manner consistent with the standard of prudence prescribed by UPMIFA. In accordance with UPMIFA, the Hospital considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds

- The duration and preservation of the fund
- The purposes of the Hospital and donor-restricted endowment funds
- General economic conditions
- The possible effect of inflation and deflation
- The expected total return from income and the appreciation of investments
- Other resources of the Hospital
- The investment policies of Lifespan

(b) Return Objectives and Risk Parameters

Lifespan has adopted investment policies for endowment assets that attempt to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets, including both donor-restricted funds and unrestricted board-designated funds. Under this policy, as approved by Lifespan, the endowment assets are invested in a manner that is intended to produce results that exceed the total benchmark return while assuming a moderate level of investment risk. The Hospital expects its endowment funds, over a full market cycle, to provide an average annual real rate of return of approximately 5% plus inflation annually. Actual returns in any given year or period of years may vary from this amount

(c) Strategies Employed for Achieving Objectives

To satisfy its long-term rate of return objectives. Lifespan relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). Lifespan targets a diversified asset allocation that places emphasis on investments in public equity, marketable alternatives, real assets, and fixed income to achieve its long-term return objectives within prudent risk constraints.

Notes to Consolidated Financial Statements
September 30, 2013 and 2012
(In thousands)

Endowments (continued)

(d) Spending Policy

The Hospital invests its endowment funds in accordance with the total return concept. Applicable endowments include unrestricted board-designated endowment funds and donor-restricted endowment funds. The governing Board of the Hospital has approved an endowment spending rate of 4% based on all of the above factors. This spending rate is applied to the trailing twelve-quarter average fair value of the applicable endowments.

(7) Assets Held in Trust

The Hospital is a beneficiary of various irrevocable split-interest trusts. The fair market value of these investments at September 30, 2013 and 2012 was \$13,042 and \$12,578, respectively, and is reported as permanently restricted funds within assets limited as to use in the consolidated statements of financial position.

(8) Property and Equipment

Property and equipment, by major category, is as follows at September 30

		2013		2012
Land and improvements Buildings and improvements Equipment	\$	24,979 691,638 354,279	\$ _	23,742 678,034 360,685
		1,070,896		1,062,461
Less accumulated depreciation and amortization		598,167		589,566
		472,729		472,895
Construction in progress		54,192		32,034
Property and equipment, net	\$ _	526,921	\$ _	504,929

Depreciation and amortization expense for the years ended September 30, 2013 and 2012 amounted to \$38,821 and \$36,944, respectively

The estimated cost of completion of the Hospital's portion of Lifespan's multi-year information systems conversion project approximated \$44,500 at September 30, 2013 (see note 12)

The estimated cost of completion of construction in progress approximated \$6,300 at September 30, 2013, comprised of various building renovation projects. In addition, the Hospital has several building renovation projects pending contractual commitments with an estimated cost of completion of approximately \$5,800.

(9) Pension and Other Postretirement Benefits

Pension Benefits

Lifespan Corp sponsors the Lifespan Corporation Retirement Plan (the Plan), which was established effective January 1, 1996 when the Rhode Island Hospital Retirement Plan (the RIH Plan) merged into The Miriam Hospital Retirement Plan Upon completion of the merger, the new plan was renamed and is governed by provisions of the Plan Each employee who was a participant in the RIH Plan and was an eligible employee on January 1, 1996 continues to be a participant on and after January 1, 1996, subject to the provisions of the Plan Employees are included in the Plan on the first of the month which is the later of their first anniversary of employment or the attainment of age 18

The Plan is intended to constitute a plan described in Section 414(k) of the Internal Revenue Code, under which benefits are derived from employer contributions based on the separate account balances of participants in addition to the defined benefits provided under the Plan, which are based on an employee's years of credited service and annual compensation. Lifespan's funding policy is to contribute amounts to the Plan sufficient to meet minimum funding requirements set forth in the Employee Retirement Income Security. Act of 1974 (ERISA) and the Internal Revenue Code as amended, plus such additional amounts as may be determined to be appropriate by Lifespan. Lifespan may also make certain discretionary matching contributions to participant account balances included in Plan assets based on salary deferral elections of participants. No matching contributions were made in 2013, while matching contributions of \$6,201 were made in 2012.

Substantially all employees of Lifespan Corporation who meet the above requirements are eligible to participate in the Plan

The provisions of FASB ASC Topic 715, Compensation-Retirement Benefits Employers' Accounting for Defined Benefit Pension and Other Postretirement Plans (ASC 715), require an employer to recognize in its statement of financial position an asset for a benefit plan's overfunded status or a liability for a plan's underfunded status, and to recognize changes in that funded status in the year in which the changes occur through changes in unrestricted net assets. The funded-status amount is measured as the difference between the fair value of plan assets and the projected benefit obligation including all actuarial gains and losses and prior service cost. Based on September 30, 2013 and 2012 funded-status amounts for the Hospital's portion of the Plan, the Hospital recorded an increase in unrestricted net assets of \$51,592 in 2013 and a decrease in unrestricted net assets of \$41,768 in 2012

The estimated amounts that will be amortized from unrestricted net assets into net periodic pension cost in 2014 are as follows

Net actuarial loss Prior service cost	\$ 6,541 166
	\$ 6,707

Net Periodic Pension Cost

Components of net periodic pension cost are as follows for the years ended September 30

	 2013	 2012
Service cost Interest cost Expected return on plan assets Amortization of net actuarial loss Amortization of prior service benefit	\$ 25,801 26,657 (29,571) 15,544 (541)	\$ 24,220 26,972 (26,585) 10,918 (541)
Net periodic pension cost for Lifespan	\$ 37,890	\$ 34,984
Net periodic pension cost for the Hospital	\$ 25,174	\$ 23,050

Lifespan modified its discretionary matching contribution to participant account balances, reducing the Hospital's net periodic pension cost by \$749 and \$1,290 in 2013 and 2012, respectively.

The following weighted average assumptions were used by the Plan's actuary to determine net periodic pension cost and benefit obligations

	2013	2012	
Discount rate for benefit obligations	4 88%	3 66%	
Discount rate for net periodic pension cost	3 66%	4 70%	
Rate of compensation increase	4 50%	4 50%	
Expected long-term rate of return on Plan assets	7 75%	7 75%	

Notes to Consolidated Financial Statements

(In thousands)

(9) Pension and Other Postretirement Benefits (continued)

The asset allocation for the Plan at September 30, 2013 and 2012, and the target allocation for 2014, by asset category, are as follows

Target allocation	Percentage of plan assets September 30			
2014	2013	2012		
15-35%	15 7%	13 5%		
0-25%	14 5	13 6		
10-35%	16 5	14 6		
0-10%	0.8	11		
0-20%	6 2	7 5		
0-15%	2 0	2 3		
10-50%	39 3	42 1		
0-10%	5 0	5 3		
	100 0%	100 0%		
	allocation 2014 15-35% 0-25% 10-35% 0-10% 0-20% 0-15% 10-50%	allocation September 2014 2013 15-35% 15 7% 0-25% 14 5 10-35% 16 5 0-10% 0 8 0-20% 6 2 0-15% 2 0 10-50% 39 3 0-10% 5 0		

The asset allocation table above does not include \$102,832 and \$93,409 of Plan assets at September 30, 2013 and 2012, respectively, attributable to the separate savings account balances of participants which are managed in various mutual funds by Fidelity Investments (Fidelity)

The overall financial objective of the Plan is to meet present and future obligations to beneficiaries, while minimizing long-term contributions to the Plan (by earning an adequate, risk-adjusted return on Plan assets), with moderate volatility in year-to-vear contribution levels

The primary investment objective of the Plan is to attain the expected long-term rate of return on Plan assets in support of the above objective. The Plan's specific investment objective is to attain an average annual real total return (net of investment management fees) of at least 4.75% over the long term (rolling five-year periods). Real total return is the sum of capital appreciation (or loss) and current income (dividends and interest) adjusted for inflation as measured by the Consumer Price Index.

Lifespan employs a rigorous process to annually determine the expected long-term rate of return on Plan assets which is only changed based on significant shifts in economic and financial market conditions. This estimate is primarily driven by actual historical asset-class returns along with our long-term outlook for a globally diversified portfolio. Asset allocations are regularly updated based on evaluations of future market returns for each asset class.

Expected Cash Flows

Information about the expected cash flows for the Plan is as follows

Employer contributions 2014 (required for Lifespan) 2014 (required for the Hospital)	\$ 34,747 22,574
Expected benefit payments	
2014	\$ 32,058
2015	27,904
2016	27,278
2017	31,411
2018	33,397
2019 through 2023	193,472

Management evaluates its Plan assumptions annually and the expected employer contributions in 2014 could increase

Other Postretirement Benefits

In addition to providing pension benefits, the Hospital provides certain health care and life insurance benefits to retired employees. As of December 31, 2003, health care and life insurance postretirement benefits were eliminated for all active employees of the Hospital with fewer than fifteen years of consecutive service. The Hospital's postretirement plan is not expected to be materially affected by health care reform legislation.

Notes to Consolidated Financial Statements
September 30, 2013 and 2012
(In thousands)

(9) Pension and Other Postretirement Benefits (continued)

The Hospital recognizes in its consolidated statements of financial position an asset for a benefit plan's overfunded status or a liability for a plan's underfunded status, and recognizes changes in that funded status in the year in which the changes occur through changes in unrestricted net assets. The funded-status amount is measured as the difference between the fair value of plan assets and the benefit obligation including all actuarial gains and losses and prior service cost. Based on September 30, 2013 and 2012 funded-status amounts for the Hospital's postretirement benefit plan, the Hospital recorded increases in unrestricted net assets of \$6,854 in 2013 and \$891 in 2012, respectively.

Benefit Obligations

	 2013	2012
Change in accumulated postretirement benefit obligation Accumulated postretirement benefit obligation at		
beginning of year	\$ 24,762	\$ 25,354
Service cost	424	467

(In thousands)

(10) Patient Service Revenue and Related Reimbursement

The Hospital recognizes patient service revenue associated with services provided to patients who have third-party payor coverage on the basis of contractual rates for the services rendered. For uninsured patients that do not qualify for charity care, the Hospital recognizes revenue on the basis of its standard rates for services provided (or on the basis of discounted rates, if negotiated or provided by policy). The following is an approximate percentage breakdown of gross patient service revenue by payor type for the years ended September 30.

	2013	2012
Medicare and Senior Care	38%	37%
Blue Cross	17	17
Medicaid and RIte Care	18	19
Managed care	11	12
Commercial, self-pay, and other	16	15
	100%	100%

The Hospital grants credit to patients, most of whom are local residents. The Hospital generally does not require collateral or other security in extending credit to patients, however, it routinely obtains assignment of (or is otherwise entitled to receive) patients' benefits payable under their health insurance programs, plans or policies (e.g., Medicare, Medicaid, Blue Cross, managed care, or commercial insurance policies). On the basis of historical experience, a significant portion of the Hospital's uninsured patients will be unable or unwilling to pay for the services provided. Thus, the Hospital records a significant provision for bad debts related to uninsured patients in the period the services are provided.

Medicare cost reports filed annually with The Centers for Medicare and Medicaid Services (CMS) are subject to audit prior to final settlement. The 2013 Medicare cost report has not been filed and, therefore, is not settled. The State of Rhode Island Medicaid Program no longer requires annual cost reports and year-end retrospective settlements, however, Medicaid cost reports for 2005 through 2010 have not been final settled.

Regulations in effect require annual settlements based upon cost reports filed by the Hospital These settlements are estimated and recorded in the accompanying consolidated financial statements. Changes in these estimates are reflected in the consolidated financial statements in the year in which they occur. Net patient service revenue in the accompanying consolidated statements of operations and changes in net assets was increased by \$4,556 and \$3,796 in 2013 and 2012, respectively, to reflect changes in the estimated settlements for certain prior years.

Revenues from Medicare and Medicaid programs accounted for approximately 38% and 18%, respectively, of the Hospital's gross patient service revenue for the year ended September 30, 2013 Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation

Notes to Consolidated Financial Statements
September 30, 2013 and 2012
(In thousands)

(10) Patient Service Revenue and Related Reimbursement (continued)

The Hospital believes that it is in compliance with all applicable laws and regulations. Compliance with laws and regulations can be subject to future government review and interpretation as well as significant regulatory action, failure to comply with such laws and regulations can result in fines, penalties, and exclusion from Medicare and Medicaid programs

(11) Income Tax Status

The Hospital and its affiliates are not-for-profit corporations as described in Section 501(c)(3) of the Internal Revenue Code (the Code) and are exempt from Federal income taxes pursuant to Section 501(a) of the Code

The Hospital recognizes the effect of income tax positions only if those positions are more likely than not to be sustained Recognized income tax positions are measured at the largest amount of benefit that is greater than fifty percent likely to be realized upon settlement. Changes in measurement are reflected in the period in which the change in judgment occurs. The Hospital did not recognize the effect of any income tax positions in either 2013 or 2012.

(12) Long-Term Debt

Long-term debt consists of the following at September 30.

	_	2013		2012
Hospital Financing Revenue fixed rate serial and term bonds due May 15, 2014 through 2032 in annual amounts ranging from \$9.725 to \$15,020 at rates ranging from 4% to 5% (2006A Series – Lifespan Obligated Group)	\$	127.544	\$	134.930
Hospital Financing Revenue fixed rate serial and term bonds due May 15, 2027 through 2039 in annual amounts ranging from \$1,870 to \$7,900 at rates ranging from 6 125% to 7% (2009A Series – Lifespan Obligated Group)		72.441		72,441
Hospital Financing Revenue fixed rate serial and term bonds due May 15, 2014 through 2026 in annual amounts ranging from \$770 to \$14,705 at rates ranging from 5 25% to 5 75% (1996 Series – Lifespan Obligated Group)		42,805		43.407
Master lease and loan and security agreement due December 14, 2013 through 2020 in semiannual amounts ranging from \$3,383 to \$3,766 at 1 66% (the 2013 Financing)		35,450		_
Unamortized premium – 2006A Series Unamortized premium – 2009A Series		3,523 107	_	4,000 112
		281,870		254,890
Less current portion		13,212		7,988
Long-term debt, net of current portion	\$ _	268,658	\$_	246,902

The estimated fair value of the Hospital's long-term debt at September 30, 2013 and 2012 approximates \$286,000 and \$269,000, respectively, and is estimated using discounted cash flow analyses, based on the Hospital's current incremental borrowing rates for similar types of borrowing arrangements. The fair value of long-term debt is based on significant observable inputs and is categorized as Level 2 for purposes of valuation disclosure.

On June 14, 2013, the Hospital, TMH, and EPBH entered into a tax-exempt \$50,000 master lease and loan and security agreement (the 2013 Financing) with a seven-year term, to partially fund the capital costs associated with Lifespan's multi-year information systems conversion project. The 2013 Financing is secured by a first priority lien and security interest on the equipment (excluding intellectual property), goods, and other property financed with the proceeds of the 2013 Financing, as well as the unspent balance of the master lease obligation escrow fund (the Escrow Fund). The Hospital, TMH, and EPBH are jointly and severally liable for repayment of the 2013 Financing. Newport Health Care Corporation indirectly participated in the 2013 Financing via an intercompany payable of \$4,500 to the Hospital in exchange for an equivalent interest in the Escrow Fund.

(12) Long-Term Debt (continued)

On July 8, 2008, the Board of Directors of Lifespan Corporation, acting as the sole corporate member of EPBH, adopted a resolution authorizing EPBH to become a member of the Lifespan Obligated Group (OG). The EPBH Board of Trustees, as well as the Boards of the Hospital and TMH, also authorized related resolutions

On March 30, 2009, the Rhode Island Health and Educational Building Corporation (RIHEBC) issued, on behalf of the OG, which consists of the Hospital. TMH, EPBH, Rhode Island Hospital Foundation (RIHF) and The Miriam Hospital Foundation (TMHF), \$114,985 of tax-exempt bonds (the 2009A Bonds) for the purposes of financing the acquisition, construction, renovation, expansion and equipping of certain hospital and related health care facilities owned and operated by the Hospital. TMH and EPBH (the Obligated Group Hospitals), including the expansion, construction, renovation, equipping and furnishing of a two-story addition to EPBH's existing building and the renovation of vacated space in the existing building

The above outstanding 2009 Hospital Financing Revenue Bonds (OG – the Hospital, TMH, EPBH, RIHF and TMHF) are secured by a pledge of the gross receipts of the Obligated Group Hospitals and by mortgage liens on the Hospital's and TMH's real property and all buildings, structures and improvements thereon. The Obligated Group Hospitals, RIHF and TMHF are jointly and severally liable for repayment of the 2009A Bonds, recorded directly by the Obligated Group Hospitals as follows.

The Hospital	\$	72,441
TMH		19,547
EPBH	_	22,997
Total	\$	114,985

Payment of the principal amount of and interest on \$64.825 of the 2009A Bonds when due is guaranteed by a financial guaranty insurance policy issued by Assured Guaranty Corp

On February 14, 2006, RIHEBC issued, on behalf of the OG, which consisted of the Hospital and TMH, \$192,135 of tax-exempt bonds (the 2006A Bonds) for the purpose of refunding \$123,405 and \$65,315 of the OG's 1996 Bonds and 2002 Bonds, respectively. The advance refundings were allocated as follows

		1996 Bonds	_	2002 Bonds
The Hospital TMH		\$ 101,809 21,596	\$	48,986 16,329
	Total	\$ 123,405	\$	65,315

(In thousands)

(12) Long-Term Debt (continued)

On September 12. 2006, the Board of Directors of Lifespan Corporation, acting as the sole corporate member of both Rhode Island Hospital Foundation and The Miriam Hospital Foundation (the Foundations), adopted resolutions authorizing the Foundations to become members of the OG. The Boards of Trustees of each of the Foundations, as well as the then existing members of the OG, the Hospital and TMH, previously authorized related resolutions. The effective date for such change was October 1, 2006.

The above outstanding 2006 Hospital Financing Revenue Bonds (OG – the Hospital, TMH, EPBH, and the Foundations) are secured by a pledge of the gross receipts of the Hospital and TMH and by mortgage liens on the Hospital's and TMH's real property and all buildings, structures and improvements thereon. The Obligated Group Hospitals and the Foundations are jointly and severally liable for repayment of the 2006A Bonds, \$127.544 and \$32,286 of which has been recorded directly by the Hospital and TMH, respectively Payment of the principal and interest on the 2006A Bonds when due is guaranteed by a financial guaranty insurance policy issued by Assured Guaranty Corp

On December 1, 1996, RIHEBC issued, on behalf of the OG, \$214,585 of tax-exempt bonds (the 1996 Bonds), to finance portions of Lifespan's, the Hospital's and TMH's 1996, 1997, 1998, and 1999 expenditures for routine capital equipment and facility renovation/replacement, and to advance refund \$8,455 of TMH 1989 Series A bonds, \$1,900 of TMH 1992 Series A bonds, and \$10,065 of TMH 1992 Series B bonds

The above outstanding 1996 Hospital Financing Revenue Bonds (OG – the Hospital, TMH, EPBH, and the Foundations) are secured by a pledge of the gross receipts of the Hospital and TMH. The Obligated Group Hospitals and the Foundations are jointly and severally liable for repayment of the 1996 Bonds, \$42.805 and \$9.080 of which has been recorded directly by the Hospital and TMH, respectively. Payment of the principal and interest on the 1996 Bonds when due is guaranteed by a financial guaranty insurance policy issued by National Public Finance Guarantee Corp

Under the terms of the 2009A. 2006A and 1996 Bonds, the Obligated Group Hospitals are required to satisfy certain measures of financial performance as long as the bonds are outstanding. At September 30, 2013, management believes the Obligated Group Hospitals were in compliance with all covenants of the 2009A and 1996 bonds. As previously noted, the 2006A Bonds are insured by Assured Guaranty Corp. and the insurance policy requires the Obligated Group Hospitals to maintain a Debt Service Coverage Ratio (DSCR) of 2.0x or higher. The DSCR is 1.69x for the year ended September 30, 2013. Since this insurance covenant was not met, the Debt Service Reserve Fund (DSRF) associated with the Obligated Group Hospitals. 2006A. Bonds will need to be funded in the approximate amount of \$14,900. In connection therewith, the Lifespan Obligated Group has established a standby letter of credit which will provide for the availability of the DSRF requirement.

The Hospital's aggregate maturities of long-term debt for the five fiscal years ending in September 2018 are as follows 2014, \$13,212, 2015, \$13,713, 2016, \$14,231, 2017, \$14,763, and 2018, \$15,334

Notes to Consolidated Financial Statements

(In thousands)

(12) Long-Term Debt (continued)

Agreements underlying the various Hospital Financing Revenue Bonds and the 2013 Financing require that the Obligated Group Hospitals maintain certain funds included with assets limited as to use in the consolidated statements of financial position, as follows.

Project Fund – The Obligated Group Hospitals are required to apply monies in the Project Fund to pay the costs of debt issuance, facility renovation/replacement, and routine capital equipment

Bond Fund – The Obligated Group Hospitals are required to make periodic deposits to the trustee sufficient to provide sinking funds for the payment of principal and interest to bondholders when due

Debt Service Reserve Funds – The Obligated Group Hospitals are required to apply monies in the Debt Service Reserve Funds to remedy deficiencies in the Bond Fund, if any

Master Lease Obligation Escrow Fund – unspent balance of the 2013 Financing

The balances of the Hospital's funds at September 30 are summarized as follows

	 2013		2012
Project Fund – 2009A Series	\$ 7,147	\$	9,799
Bond Fund – 1996 Series	731		730
Debt Service Reserve Fund – 2009A Series	7,244		7,247
Master Lease Obligation Escrow Fund – 2013 Financing	 25,292	_	
Total	\$ 40,414	\$	17,776

(13) Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets at September 30 are available for the following purposes.

	 2013		2012	
General health care service activities Research	\$ 184,750 45,830	\$	180,585 45,025	
Interest in net assets of Rhode Island Hospital Foundation	 11,937	_	12,851	
Total	\$ 242,517	\$	238,461	

Notes to Consolidated Financial Statements

(In thousands)

(13) Temporarily and Permanently Restricted Net Assets (continued)

Permanently restricted net assets at September 30 are restricted to:

	 2013		2012
General health care service activities	\$ 35,206	\$	34,742
Research	4,461		4,461
Interest in net assets of Rhode Island Hospital Foundation	 35,015	_	34,200
Total	\$ 74,682	\$	73,403

Income from permanently restricted investments is expendable to support donor-restricted purposes

(14) Leases

The Hospital leases building space and equipment under various noncancelable operating lease agreements Future minimum lease payments, by year and in the aggregate, under noncancelable operating leases with terms of one year or more consist of the following at September 30, 2013

	_	Amount
Year ending September 30		
2014	\$	8,660
2015		6,819
2016		5,335
2017		4,022
2018		3,018
Thereafter		6,537
Total minimum lease payments	\$	34,391

Rental expense, including rentals under leases with terms of less than one year, for the years ended September 30, 2013 and 2012 was \$12.615 and \$10.637, respectively.

(15) Concentrations of Credit Risk

Financial instruments which potentially subject the Hospital to concentrations of credit risk consist primarily of accounts receivable and certain investments. The risk associated with temporary cash investments is mitigated by the fact that the investments are placed with what management believes are high credit quality financial institutions. Investments, which include government and agency obligations, stocks, and corporate bonds, are not concentrated in any corporation, industry, or geographical area.

The Hospital receives a significant portion of its payments for services rendered from a limited number of government and commercial third-party payors, including Medicare. Blue Cross, Medicaid, and various managed care entities. The Hospital has not historically incurred any significant concentrated credit losses in the normal course of business.

Notes to Consolidated Financial Statements
September 30, 2013 and 2012
(In thousands)

(16) Malpractice and Other Litigation

Professional Liability/Medical Malpractice and General Liability

Professional liability/medical malpractice coverage for the Hospital is supplied on a claims-made basis by Rhode Island Sound Enterprises Insurance Co Ltd (RISE). Lifespan's affiliated captive insurance company, which underwrites the medical malpractice risk of the Hospital (including the Hospital's contractual commitment to indemnify certain eligible nonemployed physicians). The adequacy of the coverage provided and the funding levels are reviewed annually by independent actuaries and consultants. The professional liability/medical malpractice insurance provided by RISE has liability limits of \$4,000 per claim with no annual aggregate. RISE provides a second layer of coverage which has limits of an additional \$2,000 per claim with a \$2,000 annual aggregate. In addition, commercial umbrella excess insurance has been obtained by Lifespan to increase the professional liability limits to \$32,000 per claim.

Also covered under the Hospital's professional liability/medical malpractice policy are 587 nonemployed physicians. Each of these physicians is provided with a \$2,000 indemnification per claim and a \$6,000 annual indemnification aggregate

The Hospital or its indemnified physicians have been named as defendants in a number of pending actions seeking damages for alleged medical malpractice liability. In the opinion of management, any liability and legal defense costs resulting from these actions will be within the limits of the Hospital's malpractice insurance coverage provided by RISE and/or commercial excess carriers

General liability coverage is provided to the Hospital by RISE amounting to \$4,000 per claim and \$4,000 in the annual aggregate Commercial excess liability insurance has been obtained by Lifespan which provides aggregate general liability coverage of \$80,000

Workers' Compensation

The Hospital has incurred a number of workers' compensation claims and, in the opinion of management, the liability of the Hospital will be within the limits of the assets of Lifespan's workers' compensation self-insurance trust fund

Other Litigation

The Hospital is also involved in a number of miscellaneous suits and general liability suits arising in the course of business. After consultation with legal counsel, management estimates that these matters will be resolved without material adverse effect on the Hospital's future financial position or results from operations.

Notes to Consolidated Financial Statements
