## Report of Independent Auditors

The Board of Trustees Greenwich Hospital

We have audited the accompanying financial statements of Greenwich Hospital (the "Hospital"), which comprise the statements of financial position as of September 30, 2013 and 2012, and the related statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the financial statements

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with US generally accepted accounting principles, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

#### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Greenwich Hospital at September 30, 2013 and 2012, and the results of its operations and changes in its net assets and its cash flows for the years then ended in conformity with U S generally accepted accounting principles

#### **Change in Presentation of the Provision for Bad Debts**

As discussed in Note 1 to the accompanying financial statements, in 2013, the Hospital adopted the provisions of Accounting Standards Update No 2011-07, *Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities*, which resulted in a change to the presentation of the provision for bad debts in the accompanying statements of operations and changes in net assets effective October 1, 2011 Our opinion is not modified with respect to this matter

#### Notes to Financial Statements

September 30, 2013

#### 1. Organization and Significant Accounting Policies

#### **Organization**

Greenwich Hospital (the Hospital) is a not-for-profit acute care hospital located in Greenwich, Connecticut The Greenwich Hospital Endowment Fund, Inc (the Foundation) has been included as part of the reporting entity of the Hospital, based upon the financial interrelationship between the two organizations. The accompanying financial statements have been prepared from the separate records maintained by the Hospital and the Foundation. The Hospital's sole member is Greenwich Health Care Services, Inc (GHCS or the Parent)

Yale-New Haven Health Services Corporation (YNHHSC) is the sole member of GHCS and two similar organizations. Each of these three tax-exempt organizations serves as the sole member/parent for its respective delivery network of regional health care providers and related entities. Under the terms of an agreement with YNHHSC, GHCS continues to operate autonomously with separate boards, management and medical staff, however, YNHHSC approves the strategic plans, operating and capital budgets, and board appointments

The Foundation is a 501(c)(3) organization whose tax-exempt status is based upon its support of the Hospital and is a stand-alone corporation with its own board of directors. The Foundation was formed without variance power to receive and administer funds for the benefit of the Hospital, GHCS and any or all of their affiliates, which are exempt from federal income tax

#### **Use of Estimates**

The preparation of financial statements in conformity with U S generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, including estimated uncollectibles for accounts receivable for services to patients, and liabilities, estimated settlements with third-party payors and professional insurance liabilities, and disclosures of contingent assets and liabilities at the date of the financial statements Estimates also affect the amounts of revenue reported during the year There is at least a reasonable possibility that certain estimates will change by material amounts in the near term Actual results could differ from those estimates

During fiscal 2013 and 2012, the Hospital recorded a change in estimate of approximately \$(0 3) million and \$2 5 million, respectively Included in the change are amounts related to third-party payor settlements at September 30, 2013 and 2012, respectively

## Notes to Financial Statements (continued)

#### 1. Organization and Significant Accounting Policies (continued)

#### **Temporarily and Permanently Restricted Net Assets**

Temporarily restricted net assets are those whose use by the Hospital has been limited by donors to a specific time period or purpose and appreciation on permanently restricted net assets Permanently restricted net assets have been restricted by donors to be maintained by the Hospital and Foundation in perpetuity The Hospital is a partial beneficiary to various perpetual trust agreements Assets recorded under these agreements are recognized at fair value

Certain restricted funds investments are pooled with certain unrestricted investments to facilitate their management. Investment income is allocated to the restricted funds based on a percentage of total initial endowment to total corpus. The Board of Trustees approves spending for certain pooled funds based on total return. Realized gains and losses from the sale of securities are computed using the average cost method.

Contributions, including unconditional promises to give, are recognized as revenue in the period received Conditional promises to give are not recognized until the conditions on which they depend are substantially met Contributions receivable to be received after one year are discounted at a discount rate commensurate with the risks involved Amortization of the discount is recognized as revenue and is classified as either unrestricted or temporarily restricted in accordance with donor imposed restrictions, if any, on the contributions

#### **Donor Restricted Gifts**

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. All gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets.

#### Cash and Cash Equivalents

Cash and cash equivalents include investments in highly liquid financial instruments with original maturities of three months or less when purchased, which are not classified as assets limited as to use and which are not maintained in the investment portfolios

## Notes to Financial Statements (continued)

#### 1. Organization and Significant Accounting Policies (continued)

Cash and cash equivalents are maintained with domestic financial institutions with deposits which exceed federally insured limits It is the Hospital's policy to monitor the financial strength of the financial institutions

#### **Accounts Receivable**

Patient accounts receivable result from the healthcare services provided by the Hospital Changes to the allowance for doubtful accounts result from changes to the provision for bad debts Accounts written off as uncollectible are recorded as bad debt expense

The amount of the allowance for doubtful accounts is based upon management's assessment of historical and expected net collections, business and economic conditions, trends in Medicare and Medicaid health care coverage and other collection indicators. See Note 2 for additional information relative to third-party payor programs

#### **Investments**

The Hospital has designated its investment portfolio as trading Investment income or loss (including realized gains and losses on investments, interest and dividends) and the change in net unrealized gains and losses are included in the excess of revenue over expenses unless the income or loss is restricted by donor or law

Investments in equity securities with readily determinable fair values and investments in debt securities are measured at fair value (quoted market prices) in the accompanying balance sheets

To diversify its investment portfolio and to enhance opportunities for increased rate of return, the Hospital has invested in alternative investments. Alternative investments in non-marketable and market-traded debt and equity securities. Alternative investments are accounted for under the equity method, which is estimated using the net asset values of each alternative investment. Net asset values of these investments, provided by the investment manager or general partner, are primarily based upon financial data derived from underlying securities and other financial instruments and estimates that require varying degrees of judgment. The investments may indirectly expose the Hospital to securities lending, short sales of securities, and trading in futures and forwards contracts, options, swap contracts and other derivative products. While these financial instruments may contain varying degrees of risk, the Hospital's risk with respect to such transactions is limited to its capital balance in each

## Notes to Financial Statements (continued)

#### 1. Organization and Significant Accounting Policies (continued)

investment The financial statements of the investees are audited annually by independent auditors Certain alternative investments are subject to various withdrawal restrictions regarding timing, fees and enhanced disclosure required transaction limits at September 30, 2013 and 2012 Future funding commitments for alternative investments aggregated approximately \$1 2 million at September 30, 2013

Short-term investments represent those securities that are available for the Hospital's operations and can be converted to cash within one year

#### **Inventories**

Inventories are stated at the lower of cost or market The Hospital values its inventories using the first-in, first-out method

#### Assets Limited as to Use

Assets so classified represent assets held by trustees under indenture agreements, beneficial interest in perpetual trusts and designated assets set aside by the Board of Trustees for future capital improvements and other Board approved uses. The Board of Trustees retains control and, at its discretion, may use for other purposes assets limited as to use for plant improvements and expansion. Amounts required to meet current liabilities are reported as current assets. These funds primarily consist of U.S. government securities, mutual funds, and money market funds.

#### **Perpetual Trusts**

The Hospital is the beneficiary of certain perpetual trusts held and administered by others. The present values of the estimated future cash receipts, which are measured based on the fair value of the assets held by the trust, are recognized as assets and contribution revenues at the dates the trusts are established. Distributions from the trusts related to earnings and investment income are recorded as contributions and the carrying value of the assets is adjusted for changes in the fair value.

### Notes to Financial Statements (continued)

#### 1. Organization and Significant Accounting Policies (continued)

#### **Interest Rate Swap Agreements**

The Hospital utilizes interest rate swap agreements to reduce risks associated with changes in interest rates. Interest rate swap agreements are reported at fair value. The Hospital is exposed to credit loss in the event of non-performance by the counterparties to its interest rate swap agreements. The Hospital is also exposed to the risk that the swap receipts may not offset its variable rate debt service. To the extent these variable rate payments do not equal variable interest payments on the bonds, there will be a net loss or net benefit to the Hospital.

#### Beneficial Interest in the Net Assets of the Foundation

The Hospital has recognized its beneficial interest in the net assets of the Foundation The investment is decreased when the Foundation makes distributions to the Hospital

### **Deferred Financing Costs**

Issuance costs, included in other assets, related to the Hospital's bond issuance are being amortized over the term of the applicable indebtedness using the effective interest method. The accumulated amortization of deferred financing costs was approximately \$0.2 million and \$0.1 million for September 30, 2013 and 2012, respectively. Amortization, included in interest expense in the accompanying statements of operations and changes in net assets, was approximately \$30,000 for the years ended September 30, 2013 and 2012.

#### **Beneficial Interest in Trusts**

The Hospital has recognized its beneficial interest in trusts held by a third party at fair value Under these arrangements, the Hospital is receiving distributions to fund free care programs. The Hospital received distributions of approximately \$400,000 and \$500,000 for the years ended September 30, 2013 and 2012, respectively

## Notes to Financial Statements (continued)

#### 1. Organization and Significant Accounting Policies (continued)

#### **Beneficial Interest in Remainder Trusts**

The Hospital is the ultimate beneficiary of certain charitable remainder trusts and similar arrangements Under most of these arrangements, the Hospital is not receiving any distributions, but will be entitled to the remaining assets in the trust upon the death of the donor and any other named beneficiaries In certain cases, use of such assets ultimately to be received by the Hospital is restricted to specific purposes

#### **Benefits and Insurance**

The Hospital provides medical, dental, hospitalization and prescription drug benefits to employees for which it is self-insured Liabilities have been accrued for claims, including claims incurred but not reported (IBNRs), which are based on Hospital-specific experience At September 30, 2013 and 2012, the estimated liability for self-insured employee medical, prescription and other benefit claims and IBNRs aggregated approximately \$0.9 million and \$1.2 million, respectively, and is included in accrued expenses in the accompanying balance sheets

The Hospital is effectively self-insured for workers' compensation claims Estimated amounts are accrued for claims, including IBNRs, which are based on Hospital-specific experience At September 30, 2013 and 2012, the estimated liability for self-insured workers' compensation claims and IBNRs, discounted at 25% in 2013 and 30% in 2012, aggregated approximately \$2 3 million and \$2 8 million, respectively, and is included in other long-term liabilities in the accompanying balance sheets

#### **Professional Liability Insurance**

The Hospital participates in the YNHHSC coordinated professional liability program Based on the terms of the agreement with YNHHSC, the Hospital records the actuarially determined liabilities for professional and general liabilities

#### Property, Plant, and Equipment

Property, plant, and equipment purchased are carried at cost, and those acquired by gifts and bequests are carried at fair value established at date of contribution. The carrying amounts of assets and the related accumulated depreciation are removed from the accounts when such assets are disposed of and any resulting gain or loss is included in income from operations. Depreciation of property, plant, and equipment is computed by the straight-line method in amounts sufficient to depreciate the cost of the assets over their estimated useful lives, ranging from 3 to 50 years. The cost of additions and improvements are capitalized and expenditures for repairs and maintenance, including the cost of replacing minor items not considered substantial enhancements, are expensed as incurred

#### **Excess of Revenue Over Expenses**

In the accompanying statements of operations and changes in net assets, excess of revenue over expenses is the performance indicator Peripheral or incidental transactions are included in excess of revenue and gains over expenses. Those gains and losses deemed by management to be closely related to ongoing operations are included in other revenue, other gains and losses are classified as nonoperating

Contributions of, or restricted to, property, plant and equipment, transfers of assets to and from affiliates for other than goods and services, and pension adjustments are excluded from the performance indicator but are included in the changes in net assets

#### **Income Taxes**

The Hospital is a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code (the Code), and is exempt from Federal income taxes on related income pursuant to Section 501(a) of the Code The Hospital also is exempt from state income tax

#### **Impairment of Assets**

The Hospital reviews property, equipment and intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of the assets may not be recoverable If such impairment indicators are present, the Hospital recognizes a loss on the basis of whether these amounts are fully recoverable

#### **New Accounting Pronouncement**

In July 2011, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") No 2011-07, Presentation and Disclosure of Patient Service Revenue, Provision for Bad Debts, and the Allowance for Doubtful Accounts for Certain Health Care Entities ("ASU No 2011-07") In accordance with ASU No 2011-07, the Hospital changed the presentation of its statement of operations and changes in net assets by reclassifying the provision for bad debts associated with patient service revenue from an operating expense to a deduction from patient service revenue, similar to contractual allowances and discounts Additionally, the Hospital has provided enhanced disclosures about its policies for recognizing revenue and assessing bad debts, as well as qualitative and quantitative information about changes in the allowance for doubtful accounts The Hospital adopted this accounting standard update as of October 1, 2012, and retrospectively applied the presentation of the provision for bad debts in the accompanying consolidated statements of operations and changes in net assets to all periods presented The enhanced disclosure requirements are required in the period of adoption and subsequent reporting periods (see Note 2) The Hospital's adoption of this update has no effect on the previously reported excess of revenue over expenses or on net assets

#### Reclassifications

Certain reclassifications have been made to the year ended September 30, 2012 balances previously reported in the financial statements in order to conform with the year ended September 30, 2013 presentation, including the reclassification of provision for doubtful accounts on the statements of operations and changes in net assets related to the adoption of ASU 2011-07

#### 2. Accounts Receivable for Services to Patients and Net Patient Service Revenue

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. The difference is accounted for as allowances Payment arrangements include prospectively determined rates per discharge, reimbursed costs, fee-for-service, discounted charges and per diem payments. Net patient service revenue is affected by the State of Connecticut Disproportionate Share program, includes premium revenue and is reported at the estimated net realizable amounts due from patients, third-party payors and others for services rendered and includes estimated retroactive revenue adjustments due to future audits, reviews and investigations. Retroactive adjustments are considered in the recognition of

revenue on an estimated basis in the period the related services are rendered and such amounts are adjusted in future periods as adjustments become known or as years are no longer subject to such audits, reviews and investigations

Third-party payor receivables included in other receivables were \$2 3 million and \$2 2 million at September 30, 2013 and 2012, respectively Third-party payor liabilities included in other current liabilities were \$3 9 million and \$3 2 million at September 30, 2013 and 2012, respectively Third-party payor liabilities included in other long-term liabilities were \$12 1 million and \$11 3 million at September 30, 2013 and 2012, respectively

The Hospital has established estimates, based on information presently available, of amounts due to or from Medicare, Medicaid and other third-party payors for adjustments to current and prior year payment rates, based on industry-wide and hospital-specific data Such amounts are included in the accompanying balance sheets Additionally, certain payors' payment rates for various years have been appealed by the Hospital If the appeals are successful, additional income applicable to those years might be realized

Revenue from Medicare and Medicaid programs accounted for approximately 28% and 3%, respectively, of the Hospital's net patient service revenue for the year ended September 30, 2013 and approximately 27% and 3%, respectively, of the Hospital's net patient service revenue for the year ended September 30, 2012 Inpatient discharges relating to Medicare and Medicaid programs accounted for approximately 39% and 5%, respectively, for the year ended September 30, 2013, and approximately 38% and 6%, respectively, for the year ended September 30, 2012 Laws and regulations governing the Medicare and Medicaid programs are extremely complex and are subject to interpretation As a result, there is at least a reasonable possibility that recorded estimates will change by material amounts in the near term

The Hospital believes that it is in compliance with all applicable laws and regulations and is not aware of any pending or threatened investigations involving allegations of potential wrongdoing Compliance with such laws and regulations can be subject to future government review and interpretation, as well as significant regulatory action including fines, penalties, and exclusion from the Medicare and Medicaid programs Changes in the Medicare and Medicaid programs and the reduction of funding levels could have an adverse impact on the Hospital Cost reports for the Hospital, which serve as the basis for final settlement with government payors, have been settled by final settlement through 2011 for Medicare and 1995 for Medicaid Other years remain open for settlement

# 2. Accounts Receivable for Services to Patients and Net Patient Service Revenue (continued)

The significant concentrations of accounts receivable for services to patients include 30% from Medicare, 5% from Medicaid, and 65% from non-governmental payors at September 30, 2013 and 33% from Medicare, 3% from Medicaid, and 64% from non-governmental payors at September 30, 2012

Net patient service revenue is comprised of the following for the years ended September 30, 2013 and 2012, (in thousands)

|                                    | 2013         | 2012          |
|------------------------------------|--------------|---------------|
| Gross revenue at charges           | \$ 1,081,143 | \$<br>971,611 |
| Deductions                         |              |               |
| Contractual allowances             | 737,594      | 645,389       |
| Charity and free care (at charges) | 15,851       | 21,876        |
| Provision for doubtful accounts    | 14,716       | 14,042        |
| Net patient service revenue        | \$ 312,982   | \$<br>290,304 |

Patient service revenue for the year ended September 30, 2013, net of contractual allowances and discounts (but before the provision for bad debts), recognized from these major payor sources based on primary insurance designation, is as follows

|   | Third-Party | Self-Pay      | Total All<br>Payors |
|---|-------------|---------------|---------------------|
| Patient service revenue (net of contractual | (1          | ın thousands) |                     |

Deductibles and copayments under third-party payment programs within the third-party payor amount above are the patient's responsibility and the Hospital considers these amounts in its determination of the provision for bad debts based on collection experience. Accounts receivable are also reduced by an allowance for doubtful accounts. In evaluating the collectability of accounts receivable, the Hospital analyzes its past history and identifies trends for each of its

major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts.

The Hospital's allowance for doubtful accounts totaled approximately \$19 1 million and \$19 7 million at September 30, 2013 and 2012, respectively The allowance for doubtful accounts for self-pay patients was approximately 60 1% and 51 6% of self-pay accounts receivable as of September 30, 2013 and 2012, respectively Overall, the total of self-pay discounts and write-offs did not change significantly in 2013 The Hospital did not experience significant changes in write-off trends and did not change its charity care policy in 2013

#### 3. Uncompensated Care and Community Benefit Expense

The Hospital's commitment to community service is evidenced by services provided to the poor and benefits provided to the broader community. Services provided to the poor include services provided to persons who cannot afford healthcare because of inadequate resources and/or who are uninsured or underinsured.

The Hospital makes available free care programs for qualifying patients. In accordance with the established policies of the Hospital, during the registration, billing and collection process a patient's eligibility for free care funds is determined. For patients who were determined by the Hospital to have the ability to pay but did not, the uncollected amounts are bad debt expense. For patients who do not avail themselves of any free care program and whose ability to pay cannot be determined by the Hospital, care given but not paid for, is classified as charity care

Together, charity care and bad debt expense represent uncompensated care. The estimated cost of total uncompensated care is approximately \$11.2 million and \$13.2 million for the years ended September 30, 2013 and 2012, respectively. The estimated cost of uncompensated care is determined by the Hospital's cost accounting system. This analysis calculates the actual percentage of accounts written off or designated as bad debt vs. charity care while taking into account the total costs incurred by the hospital for each account analyzed.

The estimated cost of charity care provided was \$5 8 million and \$8 1 million for the years ended September 30, 2013 and 2012, respectively The estimated cost of charity care is determined by the Hospital's cost accounting system

### Notes to Financial Statements (continued)

#### 3. Uncompensated Care and Community Benefit Expense (continued)

For the years ended September 30, 2013 and 2012, bad debt expense, at charges, was \$14 7 million and \$14 0 million, respectively For the years ended September 30, 2013 and 2012, bad debt expense, at cost, was \$5 4 million and \$5 2 million, respectively The bad debt expense is multiplied by the ratio of cost to charges for purposes of inclusion in the total uncompensated care amount identified above

The Connecticut Disproportionate Share Hospital Program (CDSHP) was established to provide funds to hospitals for the provision of uncompensated care and is funded, in part, by an assessment on hospital net patient service revenue During the years ended September 30, 2013 and 2012, the Hospital received \$2 8 million and \$4 6 million, respectively, in CDSHP distributions, of which approximately \$1 4 million and \$2 8 million was related to charity care The Hospital made payments into the CDSHP of \$12 1 million for the years ended September 30, 2013 and 2012, respectively, for the assessment

Additionally, the Hospital provides benefits for the broader community which includes services provided to other needy populations that may not qualify as poor but need special services and support Benefits include the cost of health promotion and education of the general community, interns and residents, health screenings, and medical research. The benefits are provided through the community health centers, some of which service non-English speaking residents, disabled children, and various community support groups

In addition to the quantifiable services defined above, the Hospital provides additional benefits to the community through its advocacy of community service by employees. The Hospital's employees serve numerous organizations through board representation, membership in associations and other related activities. The Hospital also solicits the assistance of other healthcare professionals to provide their services at no charge through participation in various community seminars and training programs.

#### 4. Investments and Assets Limited as to Use (continued)

The Hospital participates in the Yale-New Haven Health System Investment Trust (the Trust), a unitized Delaware Investment Trust created to pool assets for investment by the Health System nonprofit entities The Hospital's ownership percentage of the Trust was approximately 1 3% and 1 4% as of September 30, 2013 and 2012, respectively

#### 5. Endowment

The Hospital's endowment includes donor-restricted endowment funds. Net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

The Hospital has interpreted the Connecticut Uniform Prudent Management of Institutional Funds Act (CUPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds, absent explicit donor stipulations to the contrary As a result of this interpretation, the Hospital classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment and (c) accumulations to the permanent endowment related to the Hospital's beneficial interest in perpetual trusts made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Hospital in a manner consistent with the standard of prudence prescribed by CUPMIFA

In accordance with CUPMIFA, the Hospital considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds (1) the duration and preservation of the fund, (2) the purposes of the Hospital and the donor-restricted endowment fund, (3) general economic conditions, (4) the possible effect of inflation and deflation, (5) the expected total return from income and the appreciation of investments, (6) other resources of the Hospital, and (7) the investment and spending policies of the Hospital

#### **Return Objectives and Risk Parameters**

The Hospital has adopted an investment and a spending policy for endowed assets that attempt to provide a predictable stream of funding to programs supported by its endowment Endowment assets include those assets of donor-restricted funds that the organization must hold in perpetuity Under this policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce results that over time provide a rate of return that meets the spending policy objectives adjusted for inflation Actual returns in any given year may vary from this amount

#### **Strategies Employed for Achieving Objectives**

To satisfy its long-term rate of return objectives, the Hospital relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends) The Hospital targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints

#### Spending Policy and How the Investment Objectives Relate to Spending Policy

The Hospital has a policy of appropriating funds for distribution each year based on the greater of \$800,000 or 5% of the average market value of its investments for the prior 12 quarters. In establishing this policy, the Hospital considered the long-term expected return on its endowment

On March 1, 1996, the State of Connecticut Health and Educational Facilities Authority (CHEFA) issued \$62.9 million of its Revenue Bonds on behalf of Greenwich Hospital, Series A, consisting of \$12.8 million of serial bonds and \$50.1 million of term bonds, the proceeds of which have been loaned by CHEFA to the Hospital for the master facility renovation project

On April 3, 2006, CHEFA issued \$56.6 million of its Revenue Bonds on behalf of Greenwich Hospital, Series B, consisting of auction rate certificates. The proceeds were utilized for the defeasance and retirement of the outstanding Series A revenue bonds at a redemption price of 102%, which occurred on July 1, 2006.

On May 6, 2008, CHEFA issued \$53 6 million of its Revenue Bonds on behalf of Greenwich Hospital, Series C, consisting of variable rate demand bonds. The proceeds were utilized for the refunding of the outstanding Series B revenue bonds. Principal amounts related to the Series C revenue bonds mature annually each July 1 through fiscal 2026. The effective interest rate of 3 22% is the result of the variable rate paid to bondholders, disclosed as interest expense of approximately \$0.1 million and net counterparty payments of approximately \$1.3 million in connection with the interest rate swap included in nonoperating gains and losses

The Series C bonds are required to be supported by a letter of credit which has been executed with Bank of America The letter of credit is scheduled to expire in May 2016

For the years ended September 30, 2013 and 2012, the Hospital paid approximately \$0 1 million for interest related to long-term debt, exclusive of the swap agreements

#### 7. Long-Term Debt (continued)

Aggregate principal and sinking fund payments required by the Hospital for the Series C revenue bonds for fiscal 2014 through fiscal 2018 and thereafter are as follows (in thousands)

| Years ending |              |
|--------------|--------------|
| 2014         | \$<br>2,505  |
| 2015         | 2,605        |

| Thereafter   | <br>26,770   |
|              | \$<br>40,215 |

Required payments on the Series C revenue bonds by the Hospital are made to a trustee in amounts sufficient to provide for the payment of principal, interest and sinking fund installments as the same become due, and certain other payments Additionally, the Hospital has granted a collateral interest to CHEFA on its gross receipts

Pursuant to the State of Connecticut Health and Educational Authority Trust Indenture (Trust Indenture), dated May 1, 2008, the Hospital is required to maintain a debt service fund with a trustee to cover payment of principal and interest The Hospital is required to comply with a variety of covenants, including a debt service coverage ratio In connection with the Series C revenue bonds, the Parent is part of the Obligated Group with the Hospital (including the Hospital's Foundation) At September 30, 2013 and 2012, the Obligated Group was in compliance with its debt covenants

At September 30, 2013 and 2012, the Obligated Group was in compliance with its debt covenants

In connection with its Series C revenue bonds, the Hospital entered into an interest rate swap agreement (the swap) with a financial institution Under the terms of the swap, the Hospital will receive variable interest payments and pay fixed interest payments on a notional value of \$27.4 million

For the year ended September 30, 2013 and 2012 the Hospital paid approximately \$0.1 million for interest related to long-term debt, exclusive of swap agreements

# Notes to Financial Statements (continued)

#### 7. Long-Term Debt (continued)

There was a favorable change in fair value of approximately \$2 3 million for the year ended September 30, 2013 and an unfavorable change in fair value of \$0 4 million for the year ended September 30, 2012, which were recorded in the excess of revenue over expenses. Although an unfavorable change in market value of the Series C swap has occurred during the year ended September 30, 2012, the terms of the swap agreement have not required the Hospital to collateralize funds to be held by the financial institution as of September 30, 2013 and 2012

#### 8. Retirement Plan

#### **Defined Contribution Pension Plan**

The Hospital provides a defined contribution pension plan for those employees eligible to participate The plan contains three separate benefits The incentive contribution, which is generally available to all non-management employees, is designed to reward employees when the Hospital meets certain predetermined quality and financial measures (if paid, this benefit varies based on service from 1% to 3% of pay) Effective January 1, 2007, a matching contribution, which is generally available to all employees no longer accruing benefits under the defined benefit plan, is designed to provide an incentive to employees to save for retirement by matching employee contributions (employees can receive up to 3% of pay on contributions equal to 5% of pay)

The length of service contribution, effective January 1, 2007, which is generally available to all employees no longer accruing benefits under the defined benefit plan, is designed to provide future retirement income that rewards continued service at the Hospital (this benefit varies based on service from 3% to 8% of pay)

In total, the Hospital contributed approximately \$5.2 million and \$5.5 million to the Plan for the years ended September 30, 2013 and 2012, respectively

#### **Defined Benefit Pension Plan**

Prior to December 31, 2006, the Hospital provided a noncontributory defined benefit pension plan (the Plan) covering substantially all employees. The benefits provided are based on age, years of service and compensation. The Hospital's policy is to at least make annual contributions to fund the Plan's minimum required contribution as defined by the Employee Retirement Income Security Act of 1974. Effective as of December 31, 2006, the Plan was amended to

freeze benefits for employees who were under age 50 with less than five years of service. This amendment is reflected in the tables below. Future retirement benefits will be provided through the defined contribution plan for those employees affected by the freeze. Employees who were age 50 or older with five years of service continue to accumulate benefits under the defined benefit plan and do not participate in the employer matching and length of service portions of the defined contribution plan.

The Hospital is required to measure plan assets and benefit obligations at a date consistent with its fiscal year-end balance sheet. Included in unrestricted net assets at September 30, 2013 and 2012, are the following amounts that have not yet been recognized in net periodic benefit cost (in thousands)

#### **Description of Investment Policies and Strategies**

The Hospital's investment strategy for its pension assets, balances the liquidity needs of the pension plan with the long-term return goals necessary to satisfy future pension obligations. The target asset allocation seeks to capture the equity premium granted by the capital markets over the long-term while ensuring security of principal to meet near term expenses and obligations through the fixed income allocation. The allocations of the investment pool to various sectors of the markets are designed to reduce volatility in the portfolio

#### 8. Retirement Plan (continued)

The Hospital's pension portfolio return assumption of 775% is based on the targeted weighted-average return of comparative market indices for the asset classes represented in the portfolio and discounted for pension expenses

#### **Cash Flows**

Contributions: The Hospital expects to make cash contributions of approximately \$5.5 million to the Plan in fiscal 2014

Estimated Future Benefit Payments: Benefit payments, which reflect expected future service, as appropriate, are expected to be paid as follows (in thousands)

| Years Ending |          |
|--------------|----------|
| 2014         | \$ 7,730 |
| 2015         | 8,232    |
| 2016         | 8,972    |
| 2017         | 9,783    |
| 2018         | 10,549   |
| 2019 to 2023 | 62,459   |

#### 9. Professional Liability Insurance

Yale-New Haven Hospital (YNHH) and a number of academic medical centers are shareholders in The Medical Center Insurance Company, Ltd ("the Captive") The Captive was formed to insure for professional and comprehensive general liability risks of its shareholders and certain affiliated entities of the shareholders On October 1, 1997, the Hospital was added to the YNHH program as an additional insured The Captive and its wholly-owned subsidiary write direct insurance and reinsurance for varying levels of per claim limit exposure. The Captive has reinsurance coverage from outside reinsurers for amounts above the per claim limits. Premiums are based on modified claims made coverage and are actuarially determined based on actual experience of the Hospital, and the Captive. The Hospital pays insurance premiums to YNHHSC.

#### 9. Professional Liability Insurance (continued)

The estimate for modified claims-made professional liabilities and the estimate for incidents that have been incurred and not reported aggregated approximately \$26.3 and \$16.4 million at September 30, 2013 and 2012, respectively. The undiscounted estimate for incidents that have been incurred but not reported aggregated approximately \$6.5 million and \$6.2 million at September 30, 2013 and 2012, respectively, and is included in professional liabilities in the accompanying balance sheets at the actuarially determined present value of approximately \$5.8 million and \$5.5 million, respectively, based on a discount rate of 2.5% and 3.0% for the years ended September 30, 2013 and 2012, respectively

The Hospital has recorded related insurance recoveries receivable of approximately \$20.5 million and \$10.9 million at September 30, 2013 and 2012, respectively, in consideration of the expected insurance recoveries for the total discounted modified claims-made insurance. The current portion of professional liabilities and the related insurance receivable represents an estimate of expected settlements and insurance recoveries over the next 12 months.

The Hospital's estimates for professional insurance liabilities are based upon complex actuarial calculations which utilize factors such as historical claims experience for the Hospital and related industry factors, trending models, estimates for the payment patterns of future claims and present value discount factors. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Revisions to estimated amounts resulting from actual experience differing from projected expectations are recorded in the period the information becomes known or when changes are anticipated.

#### 10. Commitments and Contingencies

#### Leases

The Hospital leases various equipment and properties under operating leases and has long-term commitments under service contracts expiring at various dates through fiscal 2019 Expense under such leases and service contracts was approximately \$7.6 million and \$5.3 million for fiscal 2013 and 2012, respectively

# Notes to Financial Statements (continued)

#### 10. Commitments and Contingencies (continued)

Future minimum lease payments for each of the following five years subsequent to September 30, 2013, under noncancelable operating leases and service contracts are as follows (in thousands)

|              | \$<br>27,771 |

The Hospital has been involved in leasing leased and owned houses and properties to Hospital employees Expenses for the years ended September 30, 2013 and 2012, under these leases are included in supplies and other expenses. The amounts received from employees relating to these leases are included in other revenue (see Note 12)

The Hospital has a leasing arrangement, renewable annually, with an affiliate, Perryridge Corporation, to rent four office buildings (the Cohen Pavilion, 55 Holly Hill Lane, 500 West Putnam Avenue and 2015 West Main Street) Included in supplies and other expenses was approximately \$3.4 million and \$3.1 million for fiscal 2013 and 2012, respectively. It is anticipated that this arrangement will be renewed in the future

#### Litigation

Various lawsuits and claims arising in the normal course of operations are pending or are in progress against the Hospital Such lawsuits and claims are either specifically covered by insurance as explained in Note 9 or are deemed to be immaterial. While the outcomes of the lawsuits and claims cannot be determined at this time, management believes that any loss which may arise from these will not have a material adverse effect on the financial position or changes in net assets of the Hospital

# Notes to Financial Statements (continued)

#### 10. Commitments and Contingencies (continued)

The Hospital has received requests for information from certain governmental agencies relating to, among other things, patient billings These requests cover several prior years relating to compliance with certain laws and regulations Management is cooperating with those governmental agencies in their information requests and ongoing investigations. The ultimate results of those investigations, including the impact on the Hospital, cannot be determined at this time

#### 11. Functional Expense

Functional expenses related to the Hospital's operating activities for the years ended September 30, 2013 and 2012, are as follows (in thousands)

#### 13. Supplemental Operating Data (continued)

The American Recovery and Reinvestment Act of 2009 included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act (HITECH) The provisions were designed to increase the use of electronic health record (EHR) technology and establish the requirements for a Medicare and Medicaid incentive payment program beginning in 2012 for eligible providers that adopt and meaningfully use certified EHR technology Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period Initial Medicaid incentive payments are available to providers that adopt, implement, or upgrade certified EHR technology In subsequent years, providers must demonstrate meaningful use of such technology to qualify for additional Medicaid incentive payments Hospitals that do not successfully demonstrate meaningful use of EHR technology are subject to payment penalties or downward adjustments to their Medicare payments beginning in federal fiscal year 2015

The Hospital uses a grant accounting model to recognize revenue for the Medicare and Medicaid EHR incentive payments. Under this accounting policy, EHR incentive payment revenue is recognized when the Hospital is reasonably assured that the EHR meaningful use criteria for the required period of time were met and that the grant revenue will be received. Medicare EHR incentive payment revenue was approximately \$1.7 million and \$1.9 million for the years ended. September 30, 2013 and 2012, respectively, and Medicaid EHR incentive payment revenue was approximately \$0.1 million for the years ended. September 30, 2013 and 2012. EHR incentive payment revenue is included in other revenue in the accompanying statement of operations and changes in net assets. Income from incentive payments is subject to retrospective adjustment upon final settlement of the applicable cost report from which payments were calculated. Additionally, the Hospital's attestation of compliance with the meaningful use criteria is subject to audit by the federal government.

Annually, the Foundation has committed to make a distribution to the Hospital, calculated as the greater of \$800,000 or 5% of the average market value of its investments for the prior 12 quarters (see Note 1)

#### 14. Fair Value Measurements

In determining fair value, the Hospital utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. The Hospital also considers nonperformance risk in the overall assessment of fair value

# Notes to Financial Statements (continued)

#### 14. Fair Value Measurements (continued)

ASC 820-10, Fair Value Measurements, establishes a three tier valuation hierarchy for fair value disclosure purposes. This hierarchy is based on the transparency of the inputs utilized for the valuation. The three levels are defined as follows.

- Level 1: Quoted prices in active markets that are accessible at the measurement date for identical assets or liabilities. This established hierarchy assigns the highest priority to Level 1 assets.
- Level 2: Observable inputs that are based on data not quoted in active markets, but corroborated by market data
- Level 3: Unobservable inputs that are used when little or no market data is available The Level 3 inputs are assigned the lowest priority
