protocols nationally recognized as best practice approaches for  
medical detoxification. These medical protocols are directed by

licensed medical practitioners and supported by our clinical team of  
registered nurses, behavioral team specialists, peer support

specialists, and transitional coordinators. Our goal is to stop  
the "Revolving Door" by not only providing a safe medical detox,

but also providing an ongoing assessment while the patient is in  
our care. During July 2013-September 2013, medical detox had 964

to determine the most appropriate level of care. If determined clinically and medically appropriate the individual may remain at the SRU for a period lasting between 24-hours and 6 days and/or be transitioned into either our Outpatient or Intensive Outpatient Program located on-site. During this "ongoing stabilization" period the patient will continue to have their vitals assessed by an EMT to ensure medical stability and will also be enrolled in an outpatient program that is specific to early recovery and the development of a Relapse Prevention Plan. Peer Support Specialists and a Behavioral Health Professional will work with each patient individually to identify any current professional or social supports to assist with this early recovery planning process. Once a Relapse Prevention Plan has been developed and the patient presents with a medium to low level of risk, they will be discharged from the SRU for continuing care as defined by their individualized discharge plan. During July 2013-September 2013, SRU had 1,400 admissions with 92% successfully completing the program.
