Supplemental Information

Provide the following information

- 1
- Required descriptions.** Provide the descriptions required for Part I, lines 3c, 6a, and 7, Part II and Part III, lines 2, 3, 4, 8 and 9b
- 2
- Needs assessment.** Describe how the organization assesses the health care needs of the communities it serves, in addition to any CHNAs reported in Part V, Section B
- 3
- Patient education of eligibility for assistance.** Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy
- 4
- Community information.** Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves
- 5
- Promotion of community health.** Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (e g , open medical staff, community board, use of surplus funds, etc)
- 6

- 7
- State filing of community benefit report.** If applicable, identify all states with which the organization, or a related organization, files a community benefit report

Form and Line Reference	Explanation
Part I, Line 7	A cost accounting system was used to calculate the amounts reported in the table The cost accounting system addresses all patient segments A cost-to-charge ratio was used The ratio was derived from Worksheet 2
Part I, Line 7g	All costs reported on Part I, Line 7g are attributable to a physician clinic

Form and Line Reference	Explanation
Part III, Line 4	Patient accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectibility of patient accounts receivable, the Hospital analyzes its past results and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Data for each major payor source is regularly reviewed to evaluate the adequacy of the allowance for doubtful accounts. For receivables relating to self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Hospital analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts in the period of service based on past experience, which indicates that many patients are unable or unwilling to pay amounts for which they are financially responsible. The difference between the standard rates (or discounted rates if negotiated or eligible) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged against the allowance for doubtful accounts. The costing methodology used in determining the amounts reported above was a ratio of cost to charge.
Part III, Line 8	The Organization used a cost report as the costing methodology to determine the amount of allowable Medicare costs.

Form and Line Reference	Explanation
Part VI, Line 2	Every 5 years, Androscoggin Valley Hospital participates in a community needs assessment with four other members of the community's health care system. Using information from that assessment allows the Hospital to provide healthcare services to the North Country community on an ongoing basis.
Part VI, Line 3	Androscoggin Valley Hospital offers many financial assistance and referral programs to ensure that cost will not be a barrier to patients getting the healthcare services they need. If payment of healthcare expenses could create a financial hardship, Hospital staff will work with patients to apply for financial assistance. Information regarding financial assistance policies is available at the Hospital's entrances and patient registration and on the Hospital's website. As part of the financial counseling application process, the Hospital will assess eligibility for health insurance coverage through federal or state programs such as New Hampshire Medicaid and assist in the application process.

Form and Line Reference	Explanation
Part VI, Line 4	The geographic area served by Androscoggin Valley Hospital is the Berlin service area. The Berlin service area is composed of the city of Berlin, and the towns of Gorham, Shelburne, Milan, Randolph, Dummer, Errol and Stark. These communities are within the boundaries of Coos County, which is bordered by the State of Maine to the east, the State of Vermont to the west and Quebec, Canada to the north. The city of Berlin defines much of the region as the largest community in the County with a population of 10,170. The total population of the Berlin service area is 16,453. The changing economic landscape and the closing of paper and pulp mills over the last four years in the Coos County have significantly impacted the area's unemployment rate and population compared to those experienced by the overall state of New Hampshire.
Part VI, Line 5	Androscoggin Valley Hospital is the leading provider of healthcare to thousands of families in the small-town communities of New Hampshire's North Country. As a Critical Access Hospital, AVH offers 24/7 emergency care, in-house treatment of most medical issues, and an arrangement for treatment of all other problems with the nearest tertiary-care facility. Over the past decade, AVH has invested significantly in expanding and improving our facilities and services, and enhancing our team of dedicated, highly trained doctors, nurses and other staff. The result is a hospital that more effectively contributes to the health of our communities than ever before. We recently unveiled our new 2-North wing, featuring numerous exam rooms, office space and two comfortable reception areas, which is home to expanded and enhanced space for innovative cardiac care, sleep medicine, and ear, nose & throat services. At the end of the day, our top priority is to ensure the highest level of quality healthcare to those that we are so fortunate to serve. In an effort to continue to provide a high quality of healthcare for all patients in the North Country, the hospitals of Coos County came together in 2008 to explore collaboration. We, the boards and senior management of Androscoggin Valley Hospital, Upper Connecticut Valley Hospital and Weeks Medical Center realize that significant national, state and local economic pressures are jeopardizing local access, quality and sustainability. We have therefore formed the Northern New Hampshire Healthcare Collaborative (NNHHC) with the stated objective of working collaboratively to better serve the healthcare needs of North Country patients. This collaborative effort will work to: 1. Ensure access to quality care within the communities in which our patients live 2. Provide local and high quality care with positive outcomes to our patients in Coos County 3. Control the cost of care through innovative programs and the use of shared resources National healthcare reform demands lower costs and higher quality from all hospitals, requiring collaboration in patient care across all providers: from primary care to specialist, from ambulance to hospital, from hospital to rehabilitation to home care, from local hospital to tertiary (specialty hospital) care. Therefore, Androscoggin Valley Hospital, Upper Connecticut Valley Hospital and Weeks Medical Center have formed this joint venture to identify and implement sustainable opportunities for our future. The NNHHC and its member hospitals are prepared to manage costs and coordinate care in a way that is financially sustainable, while continuing to provide local access to quality care throughout the county and beyond. The hospitals of Coos County must work together as critical parts of our Coos County care, economy and community.

FINANCIAL STATEMENTS

December 31, 2013 and 2012

With Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

The Board of Directors
Androscoggin Valley Hospital, Inc.

We have audited the accompanying financial statements of Androscoggin Valley Hospital, Inc., which comprise the balance sheets as of December 31, 2013 and 2012, and the related statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with U.S. generally accepted auditing standards. These standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Androscoggin Valley Hospital, Inc. as of December 31, 2013 and 2012, and the results of its operations, changes in its net assets, and its cash flows for the years then ended, in accordance with U.S. generally accepted accounting principles.

ANDROSCOGGIN VALLEY HOSPITAL, INC.

Notes to Financial Statements

December 31, 2013 and 2012

Nature of Business

Androscoggin Valley Hospital, Inc. (Hospital) is a non-profit critical access hospital which provides inpatient, outpatient, emergency care, ambulatory care, specialty care, and home health services to residents of Berlin, New Hampshire and the surrounding communities. The Hospital is controlled by NorthCare (NCR), a non-profit entity organized under New Hampshire law to serve as a holding company. NCR is the sole member of the Hospital. Related parties, Mountain Health Services, Inc. (MHS) and Androscoggin Valley Hospital Foundation (AVHF), are also controlled by NCR.

The Hospital, along with Upper Connecticut Valley Hospital (UCVH) and Weeks Medical Center (Weeks), has formed Northern New Hampshire Health Collaborative, LLC, (the Collaborative). The Collaborative is a New Hampshire limited liability company located in Berlin, New Hampshire with the purpose to promote effective, efficient and rational expenditure of resources in order to preserve and enhance future access to critical, primary, and preventive health care services within the respective communities served in Northern New Hampshire. Collaborative initiatives may include management agreements, joint ventures, purchasing arrangement and innovative healthcare delivery platforms. Membership interests will be allocated equally. The Collaborative has been approved by the New Hampshire Attorney General and a decision is pending from the Federal Trade Commission. During 2013, home health services of the Hospital and UCVH were transferred to and performed by Weeks. Effective January 1, 2014, home health services were transferred to the Collaborative.

1. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Estimates also affect reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include short-term investments which have a maturity of three months or less when purchased and exclude amounts limited as to use by Board designation.

Patient Accounts Receivable

Patient accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectibility of patient accounts receivable, the Hospital analyzes its past results and identifies trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Data for each major payor source is regularly reviewed to evaluate the adequacy of the allowance for doubtful accounts. For receivables relating to self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Hospital analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts in the period of service based on past experience, which indicates that

ANDROSCOGGIN VALLEY HOSPITAL, INC.

Notes to Financial Statements

December 31, 2013 and 2012

many patients are unable or unwilling to pay amounts for which they are financially responsible. The difference between the standard rates (or discounted rates if negotiated or eligible) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged against the allowance for doubtful accounts.

During 2013, the Hospital decreased its estimate from \$2,267,042 to \$2,151,353 in the allowance for doubtful accounts relating to self-pay patients and during 2012 the Hospital decreased its estimate from \$2,580,116 to \$2,267,042. During 2013, self-pay write-offs decreased from \$2,916,847 to \$2,624,369 and during 2012 self-pay write-offs increased from \$2,500,125 to \$2,916,847, respectively. These changes resulted from trends experienced in the collection of amounts from self-pay patients during 2013 and 2012, respectively.

Investments and Investment Income

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the balance sheets. Investment income or loss (including realized gains and losses on investments, interest, and dividends) is included in the excess of revenues and gains over expenses and losses unless the income or loss is restricted by donor or law. Unrealized gains and temporary unrealized losses on investments are excluded from this measure.

Investments are exposed to various risks, such as interest rate, credit, and overall market volatility. As such, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the balance sheets and statements of operations and changes in net assets.

Assets Limited as to Use

Assets limited as to use include designated assets set aside by the Board of Directors for future capital improvements, over which the Board retains control and may at its discretion subsequently use for other purposes.

Supplies

Supplies are carried at the lower of cost (determined by the first-in, first-out method) or market.

Property and Equipment

Property and equipment acquisitions are recorded at cost or, if contributed, at fair market value determined at the date of donation, less accumulated depreciation. The Hospital's policy is to capitalize expenditures for major improvements and charge maintenance and repairs currently for expenditures which do not extend the useful lives of the related assets. The provision for depreciation has been computed using the straight-line method at rates which are intended to amortize the cost of assets over their estimated useful lives.

ANDROSCOGGIN VALLEY HOSPITAL, INC.

Notes to Financial Statements

December 31, 2013 and 2012

Bond Issuance Costs

The costs incurred to obtain long-term financing are being amortized by the straight-line method over the repayment period of the related debt. The costs are included in long-term debt in the balance sheet.

Employee Fringe Benefits

The Hospital has an "earned time" plan which provides benefits to employees for paid leave hours. Under this plan, each employee earns paid leave for each period worked. These hours of paid leave may be used for vacations, holidays, or illnesses. Hours earned, but not used, are vested with the employee. The Hospital accrues a liability for such paid leave as it is earned. The earned time plan does not cover the physicians

Net Patient Service Revenue

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, fee schedules, and per diem payments. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are recorded on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Charity Care

The Hospital provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Hospital does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue. The cost of charity care provided was approximately \$1,788,000 in 2013 and \$1,963,000 in 2012. The cost is estimated by applying the ratio of total cost to total charges to the charges associated with providing such care

Operating Income

For purposes of display, transactions deemed by management to be ongoing, major, or central to the provision of health care services are reported as operating revenue and expenses. Gain or (loss) on disposal of property and equipment and investment income used to fund interest expense and other operating expenses are included in operating income. Peripheral or incidental transactions are reported as nonoperating gains (losses), which primarily include certain investment income (loss), contributions and program support, community benefit grants, and realized losses on an interest rate swap, terminated in 2012, and early extinguishment of long-term debt.

ANDROSCOGGIN VALLEY HOSPITAL, INC.

Notes to Financial Statements

December 31, 2013 and 2012

Excess of Revenues and Gains Over Expenses and Losses

The statements of operations and changes in net assets include excess of revenues and gains over expenses and losses. Changes in unrestricted net assets which are excluded from this measure, consistent with industry practice, include unrealized gains and temporary unrealized losses on investments other than trading securities and the change in net assets to recognize funded status of pension plan.

Income Taxes

The Hospital is a non-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code, and is exempt from federal income taxes.

Functional Expenses

The Hospital provides general health care services to residents within its geographic location. Expenses related to providing these services for the years ended December 31, 2013 and 2012 are as follows:

	<u>2013</u>	<u>2012</u>
Health care services	\$ 45,030,234	\$ 45,763,948

	<u>\$ 53,607,421</u>	<u>\$ 53,213,893</u>

Reclassifications

Certain amounts in the 2012 financial statements have been reclassified to conform to the current year's presentation.

Subsequent Events

For purposes of the preparation of these financial statements in conformity with U.S. generally accepted accounting principles, management has considered transactions or events occurring through April 24, 2014, which was the date the financial statements were issued.

	\$15,183,179	\$ 14,228,250

During 2012, the Hospital Board of Directors approved the design, purchase and installation of a biomass boiler at an estimated cost of approximately \$3,200,000. At December 31, 2013 and 2012, costs of approximately \$1,773,000 and \$515,000, respectively, are included in construction in progress related to this project. The project was completed in April 2014 and funded through operations.

4. Line of Credit

The Hospital has an unsecured \$3,500,000 revolving line of credit with a bank. There were no borrowings outstanding under this line at December 31, 2013 and 2012. Interest on borrowings is assessed at the Wall Street Journal prime rate. The line of credit expires May 30, 2014 and management expects it will be renewed.

5. Long-Term Debt

Long-term debt consists of the following as of December 31:

	<u>2013</u>	<u>2012</u>
New Hampshire Health and Education Facilities Authority (NHHEFA) Revenue Bonds, Androscoggin Valley Hospital Issue, Series 2012 (including \$102,398 and \$125,386 of unamortized bond issuance costs in 2013 and 2012, respectively)		
Term bonds, \$2,000,000 and \$12,500,000 maturing on April 1, 2019 and 2027, respectively, payable in equal monthly installments of \$26,428 and \$88,530, including interest at 2.951% and 3.312%, respectively.	\$ 12,781,633	\$ 13,697,885

Long-term debt, excluding current portion	<u>\$ 12,117,788</u>	<u>\$ 13,428,450</u>

The NHHEFA Revenue Bonds, (Androscoggin Valley Hospital Issue, Series 2012), in the amount of \$14,500,000, were issued in March 2012 for the purpose of refinancing existing indebtedness and terminating the Hospital's interest rate swap contract. The Revenue Bond consists of two term bonds in the amounts of \$2,000,000 and \$12,500,000. The terms of the bonds are seven years and ten years (with a five-year renewal option), respectively. A negative-negative pledge agreement was provided as security.

The Series 2012 Revenue Bond Agreement contains various restrictive covenants, which include compliance with certain financial ratios and a detail of events constituting defaults. The Hospital is in compliance with these requirements at December 31, 2013.

Scheduled annual principal repayments of long-term debt for the next five years and thereafter are as follows

2014 (included in current liabilities)	\$ 1,320,025

6. Net Patient Service Revenue

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

Medicare

The Hospital was granted Critical Access Hospital (CAH) status. Under CAH, the Hospital is reimbursed 101% of allowable costs for its inpatient, outpatient, and swing-bed services provided to Medicare beneficiaries. Home health services rendered to Medicare program beneficiaries are paid at prospectively determined rates based on clinical, diagnostic, and other factors.

ANDROSCOGGIN VALLEY HOSPITAL, INC.

Notes to Financial Statements

December 31, 2013 and 2012

The Hospital is reimbursed for cost reimbursable items at tentative rates, with final settlement determined after submission of annual cost reports by the Hospital and audits thereof by the Medicare fiscal intermediary. The Hospital's Medicare cost reports have been audited by the Medicare fiscal intermediary through December 31, 2009.

Medicaid

Inpatient services rendered to Medicaid program beneficiaries are reimbursed at prospectively determined rates per day of hospitalization. The prospectively determined per-diem rates are not subject to retroactive adjustment. Outpatient services rendered to Medicaid program beneficiaries are reimbursed under a cost reimbursement methodology. The Hospital is reimbursed at a tentative rate with final settlement determined after submission of annual cost reports by the Hospital and audits thereof by the fiscal intermediary. The Hospital's Medicaid cost reports have been audited by the fiscal intermediary through December 31, 2009.

Anthem Blue Cross

Inpatient and outpatient services rendered to Anthem Blue Cross subscribers are reimbursed at submitted charges less a negotiated discount. Ambulatory surgery and laboratory services are being reimbursed based on a fee schedule. The amounts paid to the Hospital are not subject to retroactive adjustments.

Revenues from Medicare and Medicaid programs accounted for approximately 46% and 11%, respectively, of the Hospital's patient revenue for the year ended 2013, and 47% and 11%, respectively, of the Hospital's patient revenue for the year ended 2012. Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Net patient service revenue decreased by approximately \$114,000 and \$371,000 in 2013 and 2012, respectively, due to adjustment of allowances or recognition of settlements no longer subject to audits, reviews, and investigations.

Patient service revenue, net of contractual allowances and discounts (but before the provision for bad debts), recognized during fiscal years ended December 31, 2013 and 2012 totaled \$54,973,391 and \$52,738,028, respectively, of which \$49,008,670 and \$46,341,271, respectively, were revenues from third-party payors and \$5,964,721 and \$6,396,757, respectively, were revenues from self-pay patients.

Notes to Financial Statements

December 31, 2013 and 2012

Gross patient service revenue, contractual allowances, and other allowances consisted of the following for the years ended December 31:

	<u>2013</u>	<u>2012</u>
Patient services		
Inpatient	\$ 20,369,781	\$ 19,385,120
Outpatient	66,195,049	62,813,410
Physician services	10,632,815	10,102,044
Home health	<u>763,932</u>	<u>1,702,398</u>
Gross patient service revenue	<u>97,961,577</u>	<u>94,002,972</u>
Less Medicare and Medicaid allowances	26,458,600	25,518,410
Less other contractual allowances	13,263,116	12,280,870
Less charity care allowances	<u>3,266,470</u>	<u>3,465,664</u>
Patient service revenue (net of contractual allowances and discounts)	54,973,391	52,738,028
Less provision for bad debts	<u>3,016,514</u>	<u>2,882,948</u>
Net patient service revenue	<u>\$ 51,956,877</u>	<u>\$ 49,855,080</u>

Under the State of New Hampshire's Medicaid program, the Hospital receives disproportionate share payments which amounted to \$4,029,981 and \$4,694,389 for 2013 and 2012, respectively, and are recorded in net patient service revenue. Because the State's program has not yet been approved and the methodologies used to determine disproportionate share payments remain unsettled, the Hospital has reserved for a portion of these amounts

7. Pension Plan and Other Deferred Compensation

The Hospital has a non-contributory defined benefit pension plan covering substantially all of its employees. The benefits are based on years of service and the employee's compensation during employment. The Hospital's funding policy is to contribute the amount recommended by the Hospital's actuary to fulfill ERISA requirements. Contributions are intended to provide not only for benefits attributed to service to date, but also those expected to be earned in the future. Effective December 31, 2006, the Hospital froze the defined benefit pension plan and established a defined contribution plan for all eligible employees.

ANDROSCOGGIN VALLEY HOSPITAL, INC.**Notes to Financial Statements****December 31, 2013 and 2012**

The following table sets forth the funded status of the defined benefit plan and amounts recognized in the Hospital's financial statements as of and for the years ended December 31:

	<u>2013</u>	<u>2012</u>

Assumptions

The assumptions used in the measurement of the Hospital's benefit obligation are shown in the following table:

	<u>2013</u>	<u>2012</u>
Weighted average assumptions at December 31:		
Discount rate		
For determining net periodic benefit cost	4.25 %	4.75 %
For determining benefit obligation	4.71	4.25
Expected return on plan assets	8.00	8.00

To achieve the expected long-term rate of return on plan assets assumption, the Hospital developed a plan investment policy to maximize the safety of the funds, provide adequate liquidity, and maximize return on funds invested. Assets may be allocated in accordance with the plan investment policy as follows

Equity investments, limited to companies listed on the major stock exchanges	0-65%
Fixed income investments, including cash equivalents with maturity dates under one year, short-term and intermediate funds, and specified insurance contracts	35-100%

Based on a current year actuarial schedule, the Hospital will set a percentage of the total assets to be invested in highly-liquid, short-term investments for that year.

Plan Assets

The Plan's primary investment objective is to ensure that contributions, assets, and returns from investments shall be sufficient to meet the Plan's obligations, without undue exposure to risk. Plan management directs its investment managers to maintain well-diversified portfolios. Fixed income portfolios are to be diversified by maturity, quality, sector, and industry in a manner comparable to the benchmark index (Lehman Intermediate Government/Credit Index).

Investment returns are to be measured using quarterly and annual investment performance reviews. The reviews will include measurement of return and comparison of return to appropriate indices, as well as risk and diversification analyses as compared to index values.

The Hospital's pension plan weighted-average asset allocations at December 31, 2013 and 2012, by asset category, are as follows:

	<u>2013</u>	<u>2012</u>
Cash and cash equivalents	6 %	7 %
Mutual funds	43	34
Fixed income	45	56
Alternative investments	<u>6</u>	<u>3</u>
Total	<u>100 %</u>	<u>100 %</u>

Notes to Financial Statements

December 31, 2013 and 2012

Contributions

The Hospital expects to contribute \$1,095,000 to the Plan in 2014.

Estimated Future Benefit Payments

The following benefit payments are expected to be paid as follows:

2014	\$ 734,000
2015	807,000
2016	916,000
2017	976,000
2018	1,003,000
Years 2019-2023	6,578,000

Additional Benefit Plans

The Hospital established a contributory defined contribution plan available to substantially all employees. The Hospital's policy under the defined contribution plan is to fund its portion of amounts due under the plan on a current basis and to recognize expense as incurred. During 2013 and 2012, the Hospital contributed \$310,671 and \$327,488 to this plan, respectively

The Hospital also maintains a nonqualified deferred compensation plan which was established for a select group of management or highly-compensated employees. The amounts contributed to the plan by the Hospital and employees are recognized as an asset and a corresponding liability in the financial statements.

8. Related Party Transactions

Advances to affiliates as of December 31 consisted of:

	<u>2013</u>	<u>2012</u>
Due from NCR	\$ 526,081	\$ 530,247
Due from AVHF	631,318	594,675

Notes to Financial Statements

December 31, 2013 and 2012

9. Concentrations of Credit Risk

The Hospital grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors was as follows as of December 31:

	<u>2013</u>	<u>2012</u>
Medicare	42 %	39 %
Medicaid	15	10
Commercial insurance and other	19	17
Patients	13	20
Anthem Blue Cross	<u>11</u>	<u>14</u>
	<u>100 %</u>	<u>100 %</u>

The Hospital maintains its cash in bank deposit accounts which, at times, may exceed federally insured limits. The Hospital has not experienced any losses in such accounts. Hospital management believes it is not exposed to any significant risk on cash and cash equivalents.

10. Commitments and Contingencies

Malpractice Loss Contingencies

The Hospital insures its medical malpractice risks on a claims-made basis under a policy which covers all employees of the Hospital. A claims-made policy provides specified coverage for claims reported during the policy term. The policy contains a provision which allows the Hospital to purchase "tail" coverage for an indefinite period of time to avoid any lapse in insurance coverage. The Hospital is subject to complaints, claims and litigation due to potential claims which arise in the normal course of doing business. Generally Accepted Accounting Principles require the Hospital to accrue the ultimate cost of malpractice claims when the incident that gives rise to the claim occurs, without consideration of insurance recoveries. Expected recoveries are presented as a separate asset. The Hospital has evaluated its exposure to losses arising from potential claims and determined that no such accrual is necessary for the year ended December 31, 2013 and 2012. The Hospital intends to renew coverage on a claims-made basis and anticipates that such coverage will be available.

Asset Retirement Obligation

FASB ASC 410, *Asset Retirement and Environmental Obligations*, requires entities to record asset retirement obligations at fair value if they can be reasonably estimated. The State of New Hampshire requires special disposal procedures relating to building materials containing asbestos. The Hospital building contains some encapsulated asbestos, but a liability has not been recognized. This is because there are no current plans to renovate or dispose of the building that would require the removal of the asbestos; accordingly, the liability has an indeterminate settlement date and its fair value cannot be reasonably estimated.

Notes to Financial Statements

December 31, 2013 and 2012

Community Benefit Grant

The Hospital and Coos County Family Health Services (CCFHS) have entered into an agreement whereby the Hospital will provide funding in the form of a community benefit grant to CCFHS for the purpose of supporting a portion of the otherwise uncompensated costs incurred by CCFHS in providing physician services. The terms of the agreement require that the Hospital provide CCFHS with the agreed-upon community benefit grant funds on July 1 of the appropriate grant year. The amount of the community benefit grant to be awarded will be determined on an annual basis in accordance with the terms of the agreement. The initial term of the community benefit grant agreement expires December 31, 2023. Grant expense of \$677,500 and \$638,401 was incurred in 2013 and 2012, respectively.

In February 2009, the community benefit grant was renegotiated to the following payment schedule, contingent upon CCFHS achieving certain annual encounter levels:

<u>On July 1</u>	<u>Not to Exceed</u>
2011 - 2022	\$700,000
2023	350,000

11. Meaningful Use Revenue

The Medicare and Medicaid electronic health record (EHR) incentive programs provide a financial incentive for achieving "meaningful use" of certified EHR technology. The Medicare criteria for meaningful use will be staged in three steps from fiscal year 2011 through 2015. The meaningful use attestation is subject to audit by the Centers of Medicare and Medicaid Services in future years. As part of this process, a final settlement amount for the incentive payments could be established that differs from the initial calculation, and could result in return of a portion or all of the incentive payments received by the Hospital. Management has determined that no allowance is needed against the established meaningful use receivable at December 31, 2013 and 2012.

The Medicaid program will provide incentive payments to hospitals and eligible professionals as they adopt, and implement, upgrade or demonstrate meaningful use in the first year of participation and demonstrate meaningful use for up to five remaining participation years. There will be no payment adjustments under the Medicaid EHR incentive program.

12 Fair Value Measurement

FASB ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. FASB ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date

ANDROSCOGGIN VALLEY HOSPITAL, INC.

Notes to Financial Statements

December 31, 2013 and 2012

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Assets and liabilities measured at fair value on a recurring basis are summarized below.

The fair value for Level 2 assets (excluding alternative investments) and liabilities is primarily based on market prices of underlying assets, comparable securities, interest rates, and credit risk. Those techniques are significantly affected by the assumptions used, including the discount rate and estimates of future cash flows. Accordingly, the fair value estimates may not be realized in an immediate settlement of the instrument.

The fair value for Level 2 alternative investments is based on the Hospital's pro-rata share of the total underlying fund assets, which all have readily determinable fair values.

The fair value for Level 3 alternative investments is based on the Hospital's pro-rata share of the total underlying fund assets, a significant portion of which are valued using reasonably available relevant information considered material and subject to subsequent revisions by the investment managers.

The Ivory Offshore Flagship Fund (the Fund) allows for quarterly redemptions; however, 45-day prior written notice is required to withdraw all or a portion of the investment in the Fund. In the event the Hospital withdraws all of its investment balance in the Fund, there is a 5% withhold until the Fund completes its annual audit, at which time the remaining 5% is distributed to the Hospital.

ANDROSCOGGIN VALLEY HOSPITAL, INC.

Notes to Financial Statements

December 31, 2013 and 2012

The Ironwood Institutional Fund (the Fund) allows for semi-annual redemptions on June 30 and December 31 of each year; however, 95-day prior written notice is required to withdraw all or a portion of the investment in the Fund. In the event the Hospital withdraws all of its investment balance in the Fund, there is a 5% withhold until the Fund completes its annual audit, at which time the remaining 5% is distributed to the Hospital.

The Hospital's financial instruments consist of cash and cash equivalents, marketable securities, trade accounts receivable and payable, estimated third-party payor settlements, and long-term debt. The fair values of all financial instruments approximate their carrying values at December 31, 2013 and 2012.
