2013 ANNUAL STATEMENT SUMMARY

The following sections are provided to facilitate your review and the preparation of your tax return.

The 2013 Proceeds from Broker and Barter Exchange Transactions section includes both sales of positions for "covered securities" and "noncovered securities." A covered security includes those with a purchase date within the following timelines: Equities acquired on or after January 1, 2011 and Mutual Funds acquired on or after January 1, 2012. Legislation requires reporting the gross proceeds of the sale of "covered" and "noncovered" securities and the adjusted cost basis for "covered securities." Any sale of a security that is considered a "noncovered security" will still be included in this section with the adjusted cost basis (where available).

In calculating gain (loss), unless otherwise noted, it was assumed that the oldest position was liquidated first, and that you have made an election to amortize the premium paid on the purchase of taxable bonds. Under the Cost Basis Reporting Regulations, brokers need not track wash sale activity for substantially identical securities, transactions across accounts, or between covered and non-covered securities. However, you as a taxpayer will have to track and report wash sales as you have in the past which would include all of the aforementioned transaction types. Securities distributed from a retirement account reflect the tax basis on the date of distribution. Other methods for calculating gain (loss) are available. The cost basis for most Original Issue Discount ("OID") obligations includes the accretion of OID. For purposes of allocating original purchase price to the components of an equity unit consisting of a purchase contract and a debt security subject to a remarketing event, we assumed that the fair market value of the debt security on purchase date was equal to its adjusted issue price. The difference between your original cost and the amount allocated to the debt component was allocated to the purchase contract. In making adjustments to the cost basis of the purchase contract, it was assumed that the unit holder included certain adjustment payments in income when received.

This is important tax information and is being furnished to the Internal Revenue Service. If you are required to file a return, a negligence penalty or other sanction may be imposed on you if this income is taxable and the IRS determines that it has not been reported.
