CHARLES EDISON FUND

The Charles Edison Fund (the "Fund") is an endowed foundation dedicated to the support of worthwhile endeavors generally within the areas of medical research, science education and historic preservation. It both operates programs and makes grants to support these endeavors. The Fund is an extension of the benefactions and aspirations of its Founder, a man of discerning foresight, rare achievement and background.

BACKGROUND

A son of Thomas Alva Edison, Charles Edison was Secretary of the Navy, Governor of New Jersey and a nationally recognized corporate executive. He died July 31, 1969, three days shy of his seventy-ninth birthday.

Mr. Edison incorporated what is now called the Charles Edison Fund on March 3, 1948 as The Brook Foundation (the "Brook"). His choice of the name was prompted by his recollection of a Sunday School song from the days of his childhood. Written by Lucy Wheelock, a pioneer in kindergarten education, the song carried these words:

Give, said the little brook,
Give, oh give - give, oh give
Give, said the little brook,
Oh give, oh give away.

I am little I know, but wherever I go
I give, I give, I give.
I am little I know, but wherever I go
I give, I give away.
Giving, giving all the day;

Give, oh give, oh give away.
Giving, giving all the day,
I give, I give away.

The Brook name was retained until shortly after Mr. Edison's passing at which time the Trustees changed its name to the Charles Edison Fund (as used herein, the word "Fund" also applies to the period when the name was the Brook Foundation).

Mr. Edison was fifty-eight when he created the Fund. Motivating this action was his desire to disassociate insofar as possible his personal philanthropies from the vagaries of year-to-year fluctuations in the economy which, almost invariably in the past, had influenced his level of giving to the many deserving causes to which he was a contributor. This was no idle fancy on his part because, virtually simultaneously, he instituted a similar system within Thomas A. Edison, Incorporated, the company he headed and of which he was the majority stockholder.

His theory was this: since organizations dependent on charitable contributions have budgetary problems comparable to those confronting individuals and for-profit corporations, it is equally important for recipient charities to be able to estimate annual levels of giving by their benefactors. Mr. Edison, therefore, decided he would build up a surplus in the Fund, funnel much of his personal philanthropies through it, and thereby make it possible to maintain his level of giving in bad as well as good years.

This was his short-range goal. His long-range goal, however, was that of creating an institution capable of carrying on after his passing. A childless widower at the time of death, Mr. Edison bequeathed the bulk of his multi-million-dollar estate to the Fund.

OPERATING PROGRAMS

In addition to assisting other qualified organizations financially, the Fund operates several public sector programs on its own.

EDISONIA MUSEUMS

First, in the area of historic preservation, the Fund acquired over the years a large collection consisting of over five thousand tangible items of Edisonia, namely, early electric lamps, vintage phonographs, motion picture projectors, and numerous other artifacts related to the inventions and discoveries of Thomas Edison. This collection, when coupled with the Charles Edison Estate items, totals approximately 8,300 artifacts. These items of Edisonia are on display in some fifty seven (57) museums across the continental United States. With some frequency these exhibits are moved from one museum to another to enhance their public exposure. The Fund's Museum Coordinator pays periodic visits to these museums to insure that the Fund's properties are properly cared for and displayed. The Curator offers advice, when needed, on how to make better use of the materials for the education and enjoyment of the American public and international visitors.

EDISON NATIONAL HISTORICAL PARK

Thomas Edison National Historical Park ("TENHP") promotes an international understanding and appreciation of the life and achievements of Thomas Alva Edison by preserving the largest of his laboratories, home of the perfected phonograph, motion pictures, the nickel-iron alkaline storage battery, and a variety of other products. Glenmont, the Edison estate in nearby Llewellyn Park, was the domestic retreat from the frenzy of lab and factory.

The Laboratory Complex includes fourteen historic structures, six of which were built in 1887 as the first laboratory dedicated to the "business of inventing." Many rooms contain their original furnishings. A replica of the world's first motion picture studio, the "Black Maria," is also part of the park. Museum collections encompass over 400,000 artifacts including prototype and commercial Edison products, laboratory furnishings and equipment, and personal items used by the Edisons in their home. The Edison Archives includes an estimated five million documents, 48,000 sound recordings, 10,000 rare books, 4,000 laboratory notebooks and 60,000 photographic images.

These collections are among the largest in the National Park Service. The Edison home at Glenmont is a twenty-nine room brick and timber mansion built in 1880 and surrounded by fifteen acres of landscaped grounds, a greenhouse and potting shed, barn and stables, and a garage (made of Edison poured concrete).

INTERNET PROGRAMS

Parenthetically, the Fund is committed to producing its own programs for use on the Internet. The "Best of Edison" Science Teaching Kits and its fifty seven (57) museum programs displaying Edison artifacts together with a walking tour of the Edison National Historical Park are included in this project. Finally, the Fund would like to link all seven Edison Sites in the United States so they can share their respective contributions to Edison and his work.

EDUCATIONAL TEACHING KITS – ONLINE

Paramount among its public sector operations for the past quarter century is the providing of science teaching kits outlining simple, proven experiments to teachers throughout the United States. They are constantly updated and, to date, over 70,000 kits have been distributed via hard copy (previous format) or online. These experiments can also be downloaded from the Fund's website at www.charlesedisonfund.org. The Fund's motto is "Keep it Simple" providing the 1-2-3 in basic science experiments which last forever and is never out of touch with current knowledge of science education needed by everyone, past, present and future. With that said, the Fund has converted these experiments to an interactive CD-ROM in an effort to make these projects easier to use and understand for teachers and students alike. Based on its database, the Fund estimates that over 30 million students have used these kits.

GRANT MAKING PROCESS

Apart from dollars spent by the Fund on its own programs, it has given financial support since its inception to other charitable, scientific and educational organizations, institutions and projects in an amount that exceeds $18 Million. It is a seed money organization. It does not just make grants but makes grants happen. It chooses projects that would not otherwise "get off the ground". Because the Fund remained relatively small until its inheritance from the estate of Charles Edison, its record of providing financial assistance to other organizations mushroomed following his death.

In more recent years, a pattern of giving has emerged within the Fund. Its contributions tend to be divided among medical research projects (25%), science education (55%), and historic preservation (20%). Additionally, but with some important and increasing exceptions, institutions and organizations assisted are based principally in the New York-New Jersey Metropolitan area. This concentration of interest facilitates the efforts of the Trustees to evaluate the work of recipient groups, frequently accomplished by personal visitations.

The Fund recommends that a grant request be submitted on the requesting organization's letterhead and be signed by an official on behalf of the governing board. The Fund does not require or supply application forms. The request should be detailed, complete and include background information about the organization, a full explanation of the project and its costs, and a financial report, current budget and evidence of tax-exempt status of the requesting organization.

The Fund meets three times a year, usually in February or March, June and December at which time requests which have been submitted at least three weeks prior to the meeting will be considered. Progress reports and a final accounting of the use of grant funds are required of all grant recipients.

Continuing grants over a period of time are made in special circumstances; however, the

YEAR IN REVIEW

The Charles Edison Fund was founded to continue and support the Edison Legacy, and is unique in its combination of operating programs and grant-making activities. Each of the Trustees and Officers is steeped in historical knowledge of Edison. Each is dedicated to Edison and his inspiration. Their backgrounds include business, medicine, finance, engineering, education, law and public relations. Each has an ingrained love and dedication for Edison's accomplishments in science and his ever-searching mind. Edison is one of mankind's greatest benefactors.

DAILY PROJECTS

Listed below are some of the Fund's daily activities that support its programs and grants:

1. Certain Trustees and staff pay periodic visits to museums and render assistance in special projects, advancing the Edison inspiration.

2. The Fund provides the services of a professional museum coordinator who travels (together with certain Trustees from time to time) the United States and systematically visits the museums at which the Fund has exhibits.

3. The Fund assists museums throughout the country in preparing and expanding science exhibits and also provides detailed historical information towards educating museum staffs in the proper captioning and interpretation of the artifacts.

4. The Fund works closely with producers of educational films and documentaries on Thomas A. Edison, providing access to photographs, the artifacts, editing the media copy and working with the writers and photographers. In 2013, the Fund has been

exploring various TV programs on Edison for major networks.

5. The Fund and the Park are associated with the Library of Congress Motion Picture Section and the Smithsonian Institute Department of Science and Invention. The Fund and the Park donated original nitrate 35mm films providing priceless historical information to the Library of Congress as well as funds for the transfer.

6. The Fund maintains an information service with respect to historical questions regarding Thomas Edison, his life and inventions.

7. The Fund has the most extensive genealogical file of the Edison family. It is made available to descendants of the Edison and related families, genealogical libraries, scholars, and Edison former associates, employees and their families.

8. Staff of the Fund repairs Edison phonographs at museums throughout the United States either on site or shipped back to the Fund where they are put into working condition and returned to the museum at no cost. In addition, the Fund provides good quality early cylinder records from the 1900's.

9. The Fund provides, at no cost, videotapes of the "Great Train Robbery" filmed by Edison in the Watchung Mountains of New Jersey, circa 1905. It is the first Motion Picture to have a plot.

10. In response to requests, the Fund provides authenticated speech material on the life and accomplishments of Thomas Alva Edison to educate museum personnel and science seminars.

PART IX-A SUMMARY OF DIRECT CHARITABLE ACTIVITIES

11. Paramount among its public sector operations for the past quarter century, as described above, the Fund has been the providing of science teaching kits outlining simple experiments to teachers throughout the United States. The Fund converted the kits over to an online format which allows teachers and students easier access to the experiments. As background information and based upon one-quarter century experience, it has been conclusively evidenced that teachers are anxious for the simplest, easiest, most direct route to follow in teaching the science class. Young students are very impressionistic and have the ready ability to retain knowledge. The kit appeals to simplicity and contains easily-downloadable instructions that permit the teacher to distribute any of the 82 experiments and provide fun learning resulting in needed, universal, elementary science knowledge and establishing a foundation for future science education. As a philanthropic, charitable foundation, the Fund provides these free and the simple experiments are ageless and timeless for Grades 4 through Junior High. Our motto "Keep It Simple" providing the 1-2-3 in basic science that lasts forever and is never out of touch with the necessary, fundamental knowledge of science education needed by everyone, past, present and future. The experiments are reviewed by panels of experts in the education field and graded for effectiveness and suitable class level.

12.. A major endeavor of the Fund is to continue to preserve of the Thomas Edison National Historical Park, located in West Orange, New Jersey, which appeared on the list as one of the ten most endangered sites in the country as reported by the National Trust For Historic Preservation. The Fund's concern is so great that it has incorporated a separate entity known as the "Edison Innovation Foundation" for the purpose of securing funds to assure the enhancement and preservation of the Edison Legacy.

2013 SPECIFIC PROJECTS AND PROGRAMS

In 2013, the Charles Edison Fund participated in the planning of several important new and past activities intended to serve as adjuncts to the program and projects of its public sector operations.

1. The Fund worked with Georgia Institute of Technology in Atlanta, Georgia to establish a Venture Fund for faculty in both the hard and soft sciences to develop ideas into practical products and processes. This fund is prenatal in nature; thus providing the faculty the wherewithal to move an idea from their lab to an incubator.

2. The Fund, through its affiliated Foundation, Edison Innovation Foundation ("EIF"), maintains an active internet and social media presence. Every ten (10) days a science and technology Blog (www.EdisonMuckers.org), is posted commenting on current science or technology developments, often with a connection to the legacy of Thomas Alva Edison. EIF, an affiliate of the Foundation, has a newly designed active website (www.ThomasEdison.org) which promotes science and technology education, particularly for woman and minorities. The Foundation, through EIF, also is active on Facebook, Twitter, Pinterest and YouTube.

3. A series of science education programs, for educators, youth and families, at the Chautauqua Institution, has been supported by the Fund and the Carnegie Science Center. Presented by the education outreach staff from the Carnegie Science Center, the programs would be a combination of small group, hands-on activities, and larger public lectures and demonstrations.

4. The Fund works with the Electronic Information and Education Service of New Jersey (EIES) in an effort to provide comprehensive, direct, immediate and convenient access to printed information for blind, visually and physically disabled

persons throughout northern New Jersey utilizing state-of-art electronic technology.

5. The Fund collaborated with Sterling Publishing (a subsidiary of Barnes & Noble) and author (Lenard DeGraaf) in the writing and publishing of a new comprehensive book on Thomas Alva Edison entitled "Edison- The Rise of Innovation". The book reviews, in text and photos, the multiple inventions of Thomas Edison and describes his amazing level of vision and innovation over his 50 plus year career. The book was published on October, 2013 and Bill Gates, a fan of Thomas Edison, wrote a Foreward.

6. Eighteen years ago, the Fund established a student summer intern program at the Edison National Historical Park in West Orange (the "Park") in which students participated in archival projects. Both Seton Hall Prep and Park personnel are enthusiastic about this project because it provides an avenue of learning for both as well as minority participation and representation at the Site. Last year, 5 students participated at the Park.

7. The Fund continues to work with the National Trust for Historic Preservation. The goal of the Trust is to help protect America's historic and cultural heritage. To do this, the National Trust offers advice on preservation problems, works with individuals, preservation groups and public agencies to help it plan and carry out preservation programs; sponsors educational programs, issues publications and owns and operates historical museums and other properties.

8. The Fund was co-creator with New Jersey Technology Teachers Association ("NJTEEA") of an Alternative Energy Contest (Thomas Edison Invention Challenge) held each year for students (grades 6 to 12). The students, mainly from NJ schools are asked to compete by inventing a product or service in the fields of wind, solar power or geothermal energy. The winning teams receive

trophies and exposure on the Foundations Blog, web site and special social media postings.

9. The Fund supported a new program titled "Femgineers" (women high school students interested in engineering) partnering with the New Jersey Technology Education and Engineering Association of Livingston, New Jersey and is mentored by science and technology teachers. The Fund strongly supports STEM programs and the Femgineers from Livingston's Heritage Middle School's STEM program received a Magna Award from the National Schools Board Association.

10. The New Jersey Hall of Fame is a New Jersey 501(c)3 organization dedicated to enhancing the image of New Jersey through, among other things, educational projects. Recently, it has embarked on a program to build a mobile museum and have it visit various school districts around the State to implement these educational programs. Thomas Edison was the first inductee into the New Jersey Hall of Fame and our Fund has continued to support this organization. Since this is an educational program promoting a "good and great image" for New Jersey and, inasmuch as Thomas Alva Edison was a "Jersey boy", this falls specifically in line with the Fund's educational guidelines.

11. The Fund approved a grant to help underwrite Matthew Deriggi's medical expenses who has Duchene Muscular Dystrophy for a vehicle lift to assist in moving him in and out of their family van for numerous visits to his medical doctors and school. This request fell within the Fund's medical guidelines.

12. Twin Lights Museum is the first place where the Pledge of Allegiance was made to our flag and a favorite destination spot for Marconi. At this location, Edison and Marconi worked together on patents pertaining to wireless communication. On July 12, John Keegan visited with Mary Jo Kenny, President of Twin Lights Historical Society, to discuss a new "Seeing Stars" Exhibit which will be a collection of flags and the possibility of a $10,000 grant for this exhibit to help promote the remaining $200,000 needed. This request was within the Fund's guidelines for historical preservation and was approved.

13. Kids in Crisis ("KIC") is the only program in Connecticut providing free, 24 hour intervention and emergency shelter for children and teens to protect them from abuse and provide counseling for families in crisis. Every child in residence receives complete medical and psychological care. After the horrific Sandy Hook Elementary shooting, the Executive Committee of the Fund was interested in making a contribution to support the families of Newtown, CT. KIC placed 38 of its grief counselors in Newtown giving counseling help to families and teachers. Trustee, Tom Ungerland, was approached by a senior fund raiser of KIC for a possible grant in the amount of $10,000 to help support this effort. This grant falls in line with the Fund's medical and educational guidelines and was approved.

14. Due to the significant damage caused by Hurricane Sandy, St. John's Soup Kitchen has had an influx of homeless people and is reaching into its reserves in order to

feed them. Therefore, the Fund received a request for financial assistance. Because this is one of the Fund's close associations and to feed the homeless and give them nutrition falls within its medical guidelines, a grant in the amount of $10,000 was approved.

15. Since 2004, the Charles Edison Fund ("Fund") has supported this clinic in Newark in the total amount of $30,585. Msgr. Mahoney stated in his recent letter that the clinic has supported over 2000 patients since it inception with a variety of ailments including AIDS all of which put a tremendous strain on its budget. Because the clinic improves the medical and qualitative life of the homeless it falls within its guidelines for medical programs and the Fund approved a grant in the amount of $10,000.

16. The Fund received a request in the amount of $25,000 to establish the Thomas A. Edison Innovation Award to Cure Hearing Loss and to approve the use of the Edison name. The Hearing Health Foundation was informed the Fund is a "seed money" organization committed to establish worthwhile programs, not to underwrite projects on an annual basis. A one-time grant in the amount of $5000 was approved to help with the current Emerging Research Grants Program. Governor Edison was a strong supporter of this organization.
