Financial Statements as of December 31, 2013 and 2012 Together with Independent Auditor's Report

# Bonadio & Co., LLP Certified Public Accountants

# **INDEPENDENT AUDITOR'S REPORT**

May 1, 2014

To the Board of Directors of Cayuga Medical Center at Ithaca, Inc.

We have audited the accompanying financial statements of Cayuga Medical Center at Ithaca, Inc (a New York not-for-profit Organization) (the Medical Center), which comprise the balance sheets as of December 31, 2013 and 2012, and the related statements of activities and changes in net assets, and cash flows for the years then ended, and the related notes to the financial statements

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error in making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

#### Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Medical Center as of December 31, 2013 and 2012, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America

# NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2013 AND 2012

#### 1. THE ORGANIZATION

Cayuga Medical Center at Ithaca, Inc (the Medical Center) is an acute care facility located in Ithaca, New York serving residents primarily in Tompkins County and its surrounding areas

# 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

## **Financial Reporting**

The financial statements of the Medical Center are prepared in conformity with accounting principles generally accepted in the United States of America. The Medical Center reports its activities and the related net assets using the following net asset categories.

#### Unrestricted

Unrestricted net assets include resources which are available for the support of the Medical Center's operating activities

## Temporarily Restricted Net Assets

Temporarily restricted net assets include resources that have been donated to the Medical Center, subject to restrictions as defined by the donor. When a donor restriction expires, that is, when a stipulated time restriction ends or a purpose restriction is met, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the statements of activities and changes in net assets as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reflected as unrestricted contributions in the accompanying financial statements. Substantially all of the Medical Center's temporarily restricted funds are to be used for capital additions and to benefit the Medical Center's patients.

#### Permanently Restricted

Permanently restricted net assets include resources that have donor-imposed restrictions that stipulate resources be maintained in perpetuity. Income from these funds is used in accordance with the donor's wishes

#### **Endowment Funds**

The Medical Center's endowment consists of individual donor-restricted funds, the earnings on which are used for a variety of purposes. The endowment funds totaled \$326,238 and \$427,881 at December 31, 2013 and 2012, respectively, and are included in the accompanying balance sheets as Assets Whose Use is Limited.

## Interpretation of Relevant Law

The Medical Center's Board of Trustees has interpreted the applicable provisions of New York Not-for-Profit Corporation Law to mean that the classification of appreciation on permanently restricted endowment gifts, beyond the original gift amount, follows the donor's restrictions on the use of the related income (interest and dividends) and income is classified as temporarily restricted until appropriated by the board for expenditure

#### **Performance Indicator**

The statements of activities and changes in net assets include the Medical Center's excess of revenue over expenses. Changes in unrestricted net assets which are excluded from excess of revenue over expenses, consistent with industry practice, include changes in net unrealized gains and losses on investments and contributions of long-lived assets (including cash donations which, by donor restriction, are to be used for the purpose of acquiring such assets), pension related changes, and changes in the fair value of derivatives

#### **Net Patient Service Revenue and Patient Accounts Receivable**

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors

Third-party payors retain the rights to review and propose adjustments to amounts recorded by the Medical Center—Such adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined—The Medical Center believes the amounts recorded in the accompanying financial statements will not be materially affected by such adjustments

Inpatient acute care services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors

Under the New York Health Care Reform Act, hospitals are authorized to negotiate reimbursement rates for inpatient acute care services with all other non-Medicare payors except for Medicaid, Workers' Compensation and No-Fault, which are regulated by New York State Reimbursement rates for these non-Medicare payors are determined on a prospective basis as determined by the New York State Prospective Hospital Reimbursement Methodology (NYPHRM), which was subsequently adopted under the provisions of the New York State Health Care Regulations Act (NYHCRA) as of January 1, 1999 These rates also vary according to a patient classification system defined by NYHCRA that is based on clinical, diagnostic and other factors.

Outpatient services are paid under various reimbursement methods including cost reimbursement, prospectively determined rates, fee schedules, and charges

An allowance for doubtful accounts receivable is estimated by management based on periodic reviews of the collectability of accounts receivable considering historical collection experience, national experience, and prevailing economic conditions. In evaluating the collectability of accounts receivable, the Medical Center analyzed its past history and identified trends for each of its major payor sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for bad debts. Management regularly reviewed data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts. For receivables associated with services provided to patients who had third-party coverage, the Medical Center analyzed amounts due contractually and provided an allowance for doubtful accounts and provision for bad debt, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payor had not yet paid, or for payors who were known to be having financial difficulties that made the realization of amounts due unlikely)

### Net Patient Service Revenue and Patient Accounts Receivable (Continued)

The Medical Center has not changed its charity care or uninsured discount policies during fiscal years 2013 to 2012. The Medical Center did not maintain a material allowance for doubtful accounts from third-party payors, nor did it have significant write-offs from third-party payors.

During 2013 and 2012, for uninsured patients that do not qualify for charity care, the Medical Center recognizes revenue on the basis of its standard rates for services provided. The Medical Center records a provision for bad debts related to uninsured patients in the period the service was provided. Patient service revenue, net of contractual allowances and discounts (but before provision for bad debts), recognized from major payor sources, is as follows for the year ended December 31, 2013.

	I hird-party <u>Payors</u>	Self-pay	<u>Total</u>
Patient service revenues (net of contractual allowances and discounts)	\$ 168,355,489	\$ 5,594,647	\$ 173,950,136

Patient service revenue, net of contractual allowances and discounts (but before provision for bad debts), recognized from major payor sources, is as follows for the year ended December 31, 2012

	Third-party <u>Payors</u>	Self-pay	<u>Total</u>
Patient service revenues (net of contractual allowances and discounts)	\$ 163,279,841	\$ 3,292,299	\$ 166,572,140

The Medical Center grants credit without collateral to third-party payors and its patients, most of whom are local residents and are insured under third-party payor agreements. Patient receivables consist of the following as of December 31

	<u>2013</u>	<u>2012</u>
Patient receivables, net of contractual adjustments Reserve for doubtful accounts	\$ 50,353,592 (4,995,121)	\$ 44,329,398 (4,919,091)
	<u>\$ 45,358,471</u>	\$ 39,410,307

The mix of receivables from patients and third-party payors at December 31 was as follows.

	<u>2013</u>	<u>2012</u>
Medicare	20%	30%
Medicaid	10%	11%
Commercial	65%	49%
Other third-party payors	4%	5%
Self-pay	1%	<u>5</u> %
	<u>100</u> %	100%

### Adjustment of Prior Years' Revenue and Expense

During 2013 and 2012, the Medical Center recognized approximately (\$118,200) and \$176,400, respectively, of net patient service revenue as a result of changes in estimates related to third-party settlements. These amounts are included in net patient service revenue in the accompanying statements of activities and changes in net assets.

#### Other Operating Revenue

Other operating revenue consists of amounts received from miscellaneous sources, primarily from cafeteria and service revenues

#### **Cash and Cash Equivalents**

Cash and cash equivalents consist of bank deposit accounts, savings accounts and other highly liquid investments with maturities, when purchased, of 90 days or less, excluding amounts limited as to use. The carrying amount reported in the balance sheets for cash and cash equivalents approximates fair value.

The Medical Center maintains its cash and cash equivalents in bank accounts at one banking institution, which, at times, may exceed federally insured limits. The Medical Center has not experienced any losses in such accounts and believes it is not exposed to any significant credit risk with respect to cash and cash equivalents.

#### Inventories

Inventories consist primarily of medical and related supplies and pharmaceuticals and are stated at the lower of cost, determined using the first-in, first-out (FIFO) method, or market.

The Medical Center also maintains inventory that is on consignment. These items are not reported on the balance sheet and are expensed when used

## **Prepaid Expenses and Other Current Assets**

Prepaid expenses and other current assets consist primarily of prepaid maintenance contracts, prepaid dues and subscriptions, workers' compensation and health insurance deposits, and various other related party receivables

#### Insurance Receivable

Amounts included in insurance receivable are related to payments expected to be made by the Medical Center's malpractice insurance to settle lawsuits. There is a corresponding liability, accrued insurance claims, which accrues for the settlement payment.

#### **Intangible Assets**

In March 2011, the Medical Center purchased the equipment, supplies, contracts, intellectual property, and patient lists and medical records, free of liability, of the Ithaca Medical Group, LLC (the Practice) located in Ithaca, New York. The Medical Center determined the purchase of the Practice will assure the availability of quality affordable oncology services by integrating the Practice with its other oncology services. The Medical Center paid approximately \$1,900,000 for the Practice. The Medical Center recognized an intangible asset representing goodwill of approximately \$1,500,000. The Medical Center evaluated the intangible asset as of December 31, 2013 and determined no impairment was required to be recognized during 2013. The Medical Center includes this intangible asset in Other Assets in the accompanying balance sheet.

#### **Beneficial Interest in Assets of Foundation**

As a result of the Medical Center having an economic interest in a portion of the Foundation's assets, the Medical Center has recognized its interest in those assets of the Foundation as Beneficial Interest in Assets of Foundation in the accompanying balance sheets and periodically adjusts its interest for changes in the value of the Foundation's assets

#### **Assets Whose Use is Limited**

Assets whose use is limited represent funds designated by the Board of Directors for funded depreciation, capital expenditures, reorganization, program development, and other identified purposes as well as donor-restricted endowments. These funds consist of investments in temporary cash accounts, marketable equity securities, corporate obligations, mutual funds, and U.S. Government obligations, and are stated at fair value.

Investment income or loss, unless the income or loss is restricted by donor or law, is included in unrestricted non-operating income, as none of the investments are classified as trading securities. When the market value of a security has declined below cost and the decline is deemed to be other-than-temporary, the asset is considered impaired and the loss is recognized as an operating expense.

Investment securities are exposed to various risks, such as interest rate, market, currency and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values in the near term could materially affect the amounts reported in the accompanying financial statements. The Medical Center utilizes an asset allocation methodology in order to control its risk related to market valuation of investments.

#### Fair Value Measurement - Definition and Hierarchy

Accounting Standards Codification (ASC) Section 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Medical Center uses various valuation techniques in determining fair value. ASC Section 820 establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available. The hierarchy is broken down into three levels based on the reliability of inputs as follows

 Level 1 - Valuations based on quoted prices in active markets for identical assets or liabilities that the Medical Center has the ability to access. Valuation adjustments are not applied to Level 1 instruments. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgment.

The Medical Center's marketable equity securities, mutual funds, and U.S. Treasury and municipal bond obligations are valued utilizing quoted market prices

 Level 2 - Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, directly or indirectly

The Medical Center's corporate obligations, government agency obligations, and interest rate swap contracts are valued utilizing Level 2 inputs

### Fair Value Measurement - Definition and Hierarchy (Continued)

 Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement

In 2013, the Medical Center did not have any assets or liabilities that were valued using Level 3 inputs

The availability of observable inputs can vary and is affected by a wide variety of factors. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Medical Center in determining fair value is greatest for instruments categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

Fair value of the Medical Center's corporate bonds and government agency obligations is determined by entering standard inputs into a pricing model. These inputs may include benchmark yields, reported trades, broker/dealer quotes, issuer spreads, benchmark securities, bids, offers, reference data and industry and economic events. The custodian of Medical Center's corporate bonds relies on an independent pricing service to perform the pricing calculations.

The fair value of the interest rate swap agreement is based on a pricing model that utilizes the following inputs, swap spreads, LIBOR rates, treasury rates, and numerous mathematical adjustments.

#### Property, Plant and Equipment

Property, plant and equipment is recorded at cost, or if donated, at the fair value of the asset at the date of donation, less accumulated depreciation. The Medical Center capitalizes assets that have a cost in excess of \$5,000 and an estimated useful life greater than one year Depreciation is provided over the assets' estimated useful lives using the straight-line method as follows.

Land improvements	12 years
Buildings	25 years
Building improvements	15 years
Building fixtures and equipment	11 years
Moveable equipment	3 - 10 years

Maintenance and repairs are expensed as incurred. Interest is capitalized during periods of construction on significant projects when there is related debt. No interest was capitalized in 2013 or 2012.

Gifts of long-lived assets such as land, buildings, or equipment are reported as unrestricted support, unless explicit donor stipulations specify how the donated assets must be used, and are excluded from excess of revenue over expenses. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long these long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

#### **Donated Services**

Volunteers have donated significant amounts of time in support of the Medical Center's activities. However, the value of these services is not reflected in the accompanying statements, as they do not meet the criteria for recognition set forth in generally accepted accounting principles.

#### **Charity Care**

The Medical Center provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than their established rates. This care is not reported as revenue because the Medical Center does not pursue collection of amounts determined to qualify as charity care.

The cost of providing charity care services and supplies furnished under the Medical Center's charity care policy aggregated approximately \$152,000 and \$268,000 in 2013 and 2012, respectively. The Medical Center utilizes a cost accounting system to identify the cost of services and supplies provided to patients receiving financial assistance, which includes charity care. The Medical Center uses an estimation technique to identify costs provided to charity care patients by calculating a ratio of gross charges provided to charity care patients as a percentage of gross charges of services provided to financial assistance patients and then multiplying the resulting percentage by costs identified in the cost accounting system.

#### Income Taxes

The Medical Center is a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code, and is exempt from federal income taxes on related income pursuant to Section 501(a) of the Internal Revenue Code The Medical Center has also been classified by the Internal Revenue Service (IRS) as an entity that is not a private foundation

As of December 31, 2013 and 2012, the Medical Center did not have a liability for unrecognized tax benefits. The Medical Center files income tax returns in the U.S. federal jurisdiction and New York State. The Medical Center is no longer subject to U.S. federal and state income tax examinations by tax authorities for years before 2010.

#### **Advertising Costs**

Advertising costs are charged to expense as incurred Amounts incurred for advertising during the years ended December 31, 2013 and 2012 were \$1,068,014 and \$570,084, respectively

#### **Estimates**

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates

#### Reclassifications

Certain reclassifications have been made to the 2012 financial statements to conform to the current year presentation

# 3. ASSETS WHOSE USE IS LIMITED

The composition of assets whose use is limited as of December 31 was as follows

	20	)13	20	)12

Total return on investments	<u>\$ 16,458,298</u>	<u>\$ 12,490,659</u>

The Medical Center's investments are managed by investment managers and bank trust departments. Because the Medical Center's investments include a variety of financial instruments, the related values, as presented in the financial statements, are subject to various market fluctuations which include changes in the equity markets, interest rate environment and global economic conditions

The Medical Center evaluated its assets whose use is limited at the investment security level for impairment. For investments in an unrealized loss position relative to original cost, the Medical Center assesses whether the investment is other-than-temporarily impaired. No impairments were recognized during 2013 and 2012.

## 3. ASSETS WHOSE USE IS LIMITED (Continued)

The portion of the Medical Center's investments in an unrealized loss position relative to original cost, for which other-than-temporary impairments have not been recognized, categorized by the length of time that the investment has been in a loss position as of December 31, 2013, are as follows

	Less Than 12 Months			_	12 Months or Greater				Total

The unrealized losses on the Medical Center's investments were caused by market volatility Based on the Medical Center's analysis of impairment and the Medical Center's ability and intent to hold these investments until a recovery of fair value, the Medical Center did not consider these investments to be other-than-temporarily impaired at December 31, 2013 and 2012

#### 4. ENDOWMENT

# **Return Objectives**

The Medical Center has adopted an investment policy that attempts to provide a growth of principal within a prudent investment framework while seeking to maintain the purchasing power of the assets. Endowment assets include those assets that the organization must hold in perpetuity based on donor restrictions. To satisfy its long-term objectives, the Medical Center relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Medical Center targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

# **Spending Policy**

The Medical Center has a policy of budgeting and appropriating funds for distribution each year during the adoption of their annual budget. In determining annual distributions, the Medical Center considers the long-term expected return on its endowment, and maintains a minimum amount to allow for a diversified portfolio and assets allocation. This is consistent with the Medical Center's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return

### 6. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment consist of the following at December 31

	<u>2013</u>	<u>2012</u>
Land and land improvements Buildings and building improvements Building fixtures and equipment Moveable equipment Construction-in-progress	\$ 7,034,749 76,117,907 31,470,747 79,599,873 	\$ 7,013,576 75,867,907 24,127,439 73,435,624 12,254,253

The estimated costs to complete the construction-in-progress were approximately \$21,696,000 and \$32,648,000 at December 31, 2013 and 2012, respectively

Property, plant and equipment included equipment acquired under capital lease obligations with a cost of \$5,111,992 Accumulated amortization of these assets was \$5,111,992 and \$4,600,793 at December 31, 2013 and 2012, respectively

Approximately \$9,914,000 and \$23,145,000 of construction in progress projects were completed during 2013 and 2012, respectively, and transferred to the appropriate property, plant and equipment categories shown above

#### 7. COMMITMENTS

The Medical Center leases certain properties and equipment under non-cancelable operating leases expiring at various dates through 2027

Future minimum rental payments required under operating leases that have initial or remaining non-cancelable lease terms in excess of one year are as follows at December 31

2014	\$	1,340,998
2015		1,286,361
2016		950,931
2017		787,391
2018		537,556
Thereafter		<u>1,181,970</u>
	_	
	\$	6,085,207

Rental expense for all operating leases was approximately \$1,340,000 and \$1,822,000 for the years ended December 31, 2013 and 2012, respectively

### **County Employee Retiree Health Benefit**

The Medical Center is obligated to pay for health insurance premiums for retired employees of the County Hospital facility that was privatized to form the Medical Center in 1981. The accompanying balance sheets reflect a liability of approximately \$700,000 for 2013 and 2012, which represents an estimate of the future obligation of the Medical Center under this commitment. Total payments during 2013 and 2012 related to retired employees amounted to approximately \$35,000 and \$45,000, respectively

#### 8. LONG-TERM DEBT

#### **IDA Bond**

In October 2003, the Medical Center entered into a lease agreement with Tompkins County Industrial Development Agency (IDA) whereby the Medical Center leased certain assets through IDA. In turn, IDA issued a series of Variable Rate Demand Civic Facility Revenue bonds totaling \$15 million in the aggregate, which were purchased by JP Morgan Chase Bank Principal is paid annually until maturity in October 2018. Interest on the bonds is based on the Bond Market Association Index (BMA), 0.06% and 0.13% at December 31, 2013 and 2012, respectively, plus 35 basis points. The obligation is collateralized by the related equipment The amount outstanding under this bond was \$6,100,000 and \$7,200,000 at December 31, 2013 and 2012, respectively.

#### **Development Corporation Bond**

In August 2010, the Medical Center entered into an agreement with Tompkins County Development Corporation (Development Corporation) and Bank of America, N A (the Bank) whereby the Bank provided the proceeds of a Tax Exempt Revenue Bond issue in the aggregate principal amount of \$14 275 million to the Development Corporation. The proceeds from the bond issue were distributed to the Medical Center to finance certain construction projects and to purchase equipment. Principal is paid annually until maturity in August 2022. Annual interest on the bond is a rate equal to 64 1% of LIBOR with a designated maturity of one month (0.17% and 0.21% at December 31, 2013 and 2012, respectively) plus 1.04%. The interest rate at December 31, 2013 and 2012 was approximately 1.21% and 1.25%, respectively. The obligation is collateralized by the related buildings and equipment. The amount outstanding under this bond was \$11,230,000 and \$12,280,000 at December 31, 2013 and 2012, respectively.

### 8. LONG-TERM DEBT (Continued)

#### **Development Corporation Bond (Continued)**

In April 2013, the Medical Center entered into a bond purchase agreement with the Development Corporation and Tompkins Trust Company (the Holder) whereby the Holder purchased Tax Exempt Revenue Bond issue in the aggregate principal amount of \$25 million from the Development Corporation. The proceeds from the bond issue were then made available to the Medical Center to cover construction costs already incurred. Principal and interest payments of \$135,288 are to be paid monthly until April 2023, at which time the remaining balance is due. Annual interest is fixed at a rate of 2 69%. The amount outstanding under this bond was \$24,368,484 at December 31, 2013.

### **IDA Capital Lease**

The Medical Center entered into a capital lease agreement with IDA whereby the Medical Center leases certain assets through IDA, which is payable in monthly installments of \$94,032, including interest at 4 09%, maturing in February 2013. The obligation is collateralized by the leased equipment.

The IDA and Development Corporation bonds contain certain covenants with which the Medical Center has agreed to comply. At December 31, 2013 and 2012, the Medical Center was in compliance with these covenants

#### **Debt Acquisition Costs**

During 2013, \$613,238 of bond costs were capitalized as a result of the 2013 Development Corporation bond issuance. Total capitalized debt acquisition cost were \$1,554,643 and \$941,405 as of December 31, 2013 and 2012, respectively. The related accumulated amortization on the deferred financing costs was \$495,264 and \$383,994 at December 31, 2013 and 2012, respectively. These amounts are included in other assets in the accompanying balance sheets. The amortization expense for the years ended December 31, 2013 and 2012 was approximately \$111,000 and \$70,000, respectively. Amortization of debt acquisition costs will be approximately \$131,500 for the next four years and drop to approximately \$126,000 in the fifth year.

#### 9. DERIVATIVE FINANCIAL INSTRUMENTS AND HEDGING ACTIVITIES

#### **Interest Rate Swap Contracts**

The Medical Center entered into two interest rate swap agreements (the swaps) in order to reduce the impact of changes in interest rates. The swaps qualify as cash flow hedges under generally accepted accounting principles. As such, the Medical Center has assumed no ineffectiveness in the swaps due to the fact that, among other things, the notional amount of the swaps matches the principal amount of the related debt, the variable rate that the Medical Center receives under the swaps matches the variable rate of the related debt and the maturity dates of the swaps match the maturity dates of the related debt. The fair value of the swaps is recorded as a liability in the accompanying balance sheets. For the Medical Center, changes in the fair value of the swaps are accounted for as gains or losses on interest rate swap contracts in the accompanying statements of activities.

The change in the fair value of the swaps for the Medical Center was an unrealized gain of \$594,354 and \$74,361, and is recorded as an increase in net assets in the accompanying statements of activities in 2013 and 2012, respectively. For the Medical Center, gains and losses will never be realized as long as the underlying payments are made in accordance with the terms of the existing debt agreements and the swap contracts remain in place until maturity.

At December 31, 2013 and 2012, the fair values of the swaps as follows

Derivative Instruments Designated as Hedging Instruments Interest rate swap contract	Balance Sheet Account		<u>2013</u>		<u>2012</u>

#### 10. BENEFICIAL INTEREST IN ASSETS OF FOUNDATION

The Foundation is a not-for-profit corporation that solicits gifts and donations on behalf of the Medical Center and others. The Foundation has discretionary control over the amounts and timing of any distribution of funds. At December 31, 2013 and 2012, the Foundation had net assets of approximately \$5.6 million and \$4.5 million, respectively, of which approximately \$1.0 million represents permanently restricted endowment funds. The carrying value of the interest reported in the balance sheets approximates fair value. The Foundation reimburses the Medical Center for certain administrative, contracted, and fundraising services, which was approximately \$237,000 and \$189,000 in 2013 and 2012, respectively

#### 11. PENSION AND POSTRETIREMENT BENEFITS

#### **Description of Plan**

The Medical Center has a defined benefit pension plan covering substantially all eligible employees after one year of service. Under the pension plan, retirement benefits are based on years of credited service and the employee's final average compensation. In addition, the Medical Center provides certain postretirement healthcare and life insurance benefits to eligible retirees and their dependents. Eligibility for benefits depends upon age and years of service.

## **Obligations and Funded Status**

The following tables set forth the plans' funded status and amounts recognized in the Medical Center's financial statements at December 31, 2013 and 2012

return on plan assets Rate of compensation	8 0%	8 0%	N/A	N/A	
increase	3 75%	3 75%	N/A	N/A	

#### **Assumptions (Continued)**

The expected long-term rate of return on the pension plan's assets is based on historical and projected rates of return for current and planned asset categories in the pension plan's investment portfolio. Assumed projected rates of return for each asset category were selected after analyzing historical expectations of the returns and volatility for assets of that category using benchmark rates. Based on the target asset allocation among the asset categories, the overall expected rate of return for the portfolio was developed and adjusted for historical and expected experience of active portfolio management results compared to benchmark returns and for the effect of expenses paid from plan assets. The target allocation percentages are expected to remain the same in 2014.

Due to the Medical Center having a capped commitment related to the postretirement healthcare and life insurance benefits, there is no assumption used for the healthcare cost trend rate to determine obligations under this plan

In 2013 and 2012, the actuarial assumptions regarding mortality rates were based on the 2014 and 2013, respectively, PPA annuitant and non-annuitant tables for males and females

#### Plan Assets

The Medical Center's pension plan weighted average asset allocations and respective targets at December 31, 2013 and 2012, by asset category were as follows

#### **Measurement Dates**

The measurement date for the year-end benefit obligation and assets for the plan was December 31, 2013 and 2012

#### Plan Objectives

The financial objectives of the pension plan are to reach and maintain full funding of the actuarial present value of projected plan benefits without undue risk or increasing any unfunded liability and where possible, to reduce the contribution rate in future years

### 12. RELATED PARTY TRANSACTIONS

#### **Tompkins Office Management Systems, Inc.**

The Medical Center's investment in Tompkins Office Management Systems, Inc (TOMS), an unconsolidated, wholly-owned for-profit subsidiary that is accounted for under the equity method, is approximately \$574,000 and \$660,000 at December 31, 2013 and 2012, respectively

During 2005, TOMS acquired a 70% interest in Island Health & Fitness LLC (IH&F)—IH&F operates a health and fitness facility—IH&F has entered into an operating lease agreement with an unrelated third-party for the facility—The lease has a fifteen-year term, commencing January 1, 2006 and ending December 31, 2020 and the monthly payments amount to approximately \$52,000—The Medical Center has guaranteed 70% payment on the operating lease—The Medical Center provides TOMS with management services that approximated \$51,000 and \$48,000 in 2013 and 2012, respectively

### Cayuga Medical Office Building, L.P.

TOMS is also a 10% general partner of Cayuga Medical Office Building L P d/b/a Cayuga Medical Office Building Associates (CMOBA) CMOBA operates a medical office building on land that is adjacent to and owned by the Medical Center. The land is leased by the Medical Center to CMOBA. The Medical Center rents office space from CMOBA. Rental expense approximated \$497,000 and 483,000 in 2013 and 2012, respectively. Additionally CMOBA shares costs with the Medical Center, which totaled approximately \$117,000 and \$139,000 during 2013 and 2012, respectively. TOMS' investment in CMOBA is adjusted for its 10% interest in the partnership.

The Medical Center had a 58% limited partnership interest in CMOBA at December 31, 2013 and 2012. This investment is accounted for under the cost method, and the carrying value is approximately \$2,591,000 and \$2,425,000 as of December 31, 2013 and 2012, respectively. The investment in CMOBA, if recorded based on the underlying equity of book value (including the building recorded at 20% of original cost as of December 31, 2013 and 2012) would be \$934,000 and \$766,000 as of December 31, 2013 and 2012, respectively

TOMS and CMOBA have not been consolidated in the Medical Center's financial statements. The Medical Center's investments in TOMS and CMOBA are included in other assets in the accompanying balance sheets.

## Cayuga Area Plan, Inc. and Cayuga Area Preferred, Inc.

The Medical Center has a 50% ownership in both Cayuga Area Plan, Inc. and Cayuga Area Preferred, Inc. (CAP). CAP are for-profit, taxable corporations organized to arrange for the delivery of health care services to enrolled members of a health plan and an indemnity or self-insured health plan. The Medical Center's investment in CAP, which is accounted for under the equity method, was approximately \$524,000 and \$70,000 at December 31, 2013 and 2012, respectively. The Medical Center provided certain management and other services that approximated \$105,000 and \$102,000 in 2013 and 2012, respectively.

The Medical Center has an 85% ownership in CAP Connect with the remaining 15% owned by Cayuga Area Physicians Alliance (CAPa). The Medical Center's investment in CAP Connect, which is accounted for under the equity method, was approximately \$569,000 and \$552,000 at December 31, 2013 and 2012, respectively. During 2012, the Medical Center contributed equity totaling \$552,036

#### 13. INSURANCE

#### **Medical Malpractice**

The Medical Center is insured for medical malpractice risks through a claims-made professional liability insurance policy. Should the annual claims-made policy not be renewed or replaced with equivalent insurance, claims based on incidents during its term, but reported subsequently, will be uninsured. The Medical Center has not provided for any unreported incidents, as it is unable to reasonably estimate the extent of any such losses.

Certain malpractice claims have been asserted against the Medical Center by various claimants. The claims are in various stages of processing and some may ultimately be brought to trial. Also, other claims may also be asserted arising from services provided to patients in the past. Although the Medical Center's management and legal counsel are unable to conclude as to the ultimate outcome of the actions, it is the opinion of the Medical Center's management that adequate insurance is maintained to provide for all asserted or potential claims.

#### Health

The Medical Center provides health insurance coverage through Excellus Health Plan, Inc. A Single Plan was offered during 2013. The Plan is a Blue PPO Plan with a 3-Tier Benefit Structure.

The plan was funded through an Administrative Services Contract (ASC) with Excellus Under the ASC arrangement the Medical Center pays a per member per month administrative fee The Medical Center advanced \$506,800 to BC/BS to pay claims during 2013, which was recorded as a prepaid expense

CMC had an Irrevocable Letter of Credit with Tompkins Trust Company in the amount of \$1,173,800 which expired at 12/30/2012 Effective 12/31/2012, the Medical Center is required to maintain a restricted deposit account. For calendar year 2013, a balance of \$1,314,300 was maintained in this account, which is included in other current assets. For calendar year 2014, a balance of \$1,339,300 is required to be maintained in this account.

### **Workers' Compensation**

The Medical Center is self-insured for workers' compensation. Effective 4/30/13 EBS-RMSCO resigned as Claims Administrator as a consequence of their decision to exit the business of Workers' Compensation Claims Administration. Effective 5/1/13 claims are administered by NCA Comp Inc. and NCA Comp Inc. performs a reserve analysis on a claim-by-claim basis. All historical claims data was transferred from EBS-RMSCO to NCA Comp. Inc. shortly after the effective date of transition. Effective 2/01/2008, the Medical Center began participating in UHS' Workers' Compensation PPO, which provides case management services on all claims incurred after 2/01/2008. In addition, the Medical Center engages SG Risk, Actuaries & Consultants to perform an Unpaid Claim Estimate Analysis as of October 31st each year for the purpose of establishing Workers' Compensation Reserves at December 31st.

### 13. INSURANCE (Continued)

#### **Workers' Compensation (Continued)**

The Letter of Credit was renewed through 12/30/2012 in the amount of \$3,567,701. Effective 12/31/2012, the method of providing security to the Workers' Compensation Board was revised and a security deposit to the Workers' Compensation Board is now required. A deposit in the amount of \$3,567,701, has been made and is recorded in other current assets in the balance sheet.

Excess Worker's Compensation coverage is with Star Insurance Co Coverage limits are \$1,000,000 per accident or employee disease, with a cash flow limit of \$175,000, which begins paying once the first \$175,000 is paid towards self-insured retention. Effective 10/1/13, excess Workers' Compensation coverage was moved to State National Ins. Co, where the coverage limit of \$1,000,000, self-insured retention of \$450,000 and policy cash flow of \$175,000 are unchanged from the policy being replaced.

#### 14. CONTINGENCIES

### **Governmental Payors**

The U.S healthcare industry, and hospitals in particular, have become the subject of increased scrutiny by both federal and state governmental payors with respect to reimbursements providers have received for service provision. Specific areas for review by the governmental payors and their investigative personnel include appropriate billing practices, reimbursement maximization strategies, technical regulation compliance, etc. The stated purpose for these reviews is to recover reimbursements that the payors believe may have been inappropriate

The Medical Center has reviewed its internal records and policies with respect to such matters. Due to the nature of these matters, however, it is difficult to estimate definitively the ultimate liability, if any, that the Medial Center may incur for such matters.

### Litigation

The Medical Center is a defendant in various litigation matters. In the opinion of management, the Medical Center has adequate insurance or has recorded sufficient liabilities for these items and the settlement of these suits will not have a material adverse effect on the Medical Center's financial position
