Notes to Consolidated Financial Statements

December 31, 2013

NOTE 1. Organization

The Bucks County Foundation (the Foundation) was founded in 1979 as a community foundation. The purpose of the Foundation is to afford individuals the opportunity to make lasting, flexible gifts to meet the needs of Bucks County residents and to assist the County's charitable organizations – both those in existence and those to come in years ahead. Revenue is derived primarily from investments, activities, and contributions. The Foundation has a Distribution Committee that acts as the governing body for the Foundation. For discussion purposes, these footnotes refer to this Committee as a Board of Directors.

Bucks County Foundation, Inc. (BCF, Inc.), a non-profit entity created in 2006, was created to raise funds to support the mission of the Foundation. All Board members of BCF, Inc. are also Board members of the Foundation.

Newtown Community Foundation, Inc. (NCF, Inc.), a non-profit entity created in 2003, became a supporting organization of the Foundation on January 6, 2005. As a supporting organization, NCF, Inc. will raise funds to support the mission of the Foundation. An annual administration fee will be provided to the Foundation to cover a portion of the cost of the services the Foundation will provide to them, calculated annually at 1% of the asset value of the NCF, Inc.'s designated funds. NCF, Inc. has a separate Board from the Foundation; however, the Foundation has final authority in approving the selection of the officers and Board members of NCF, Inc.

NOTE 2. Summary of Significant Accounting Principles

Accounting Basis: The Foundation prepares its financial statements on the modified cash basis of accounting. The modified cash basis of accounting is a basis of accounting other than generally accepted accounting principles. Under this basis of accounting, certain revenues and assets are recognized when received rather than when earned and certain expenses are recognized when paid rather than when the obligations are incurred. Consequently, the Foundation has not recognized receivables or accounts payable to vendors and their related effects on the changes in net assets in the accompanying financial statements. The financial statements are not intended to present financial position or results of operations in conformity with generally accepted accounting principles.

Under the modified cash basis of accounting, the Foundation capitalizes its fixed assets and depreciates them over their useful lives, rather than being expensed when purchased. Investments are reported at market value, and unrealized gains and losses are recognized. Employee withholdings from wages are shown as a payable until disbursed.

NOTE 2. Summary of Significant Accounting Principles (Continued)

Basis of Presentation: Net assets and revenues, expenses, gains, and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified and reported as follows:

Unrestricted Net Assets: Net assets that are not subject to donor-imposed stipulations. Unrestricted net assets may be designated for specific purposes by action of the Board or may otherwise be limited by contractual agreements with outside parties.

Donor Advised – funds in which the donor will advise the Foundation of organizations they prefer to receive grants. Although grant recommendations are accepted from the donors of these funds, the ultimate discretion of the use of funds lies with the Board of Directors of the Foundation.

Designated – the preferred recipient of the grants from these funds is stated in the original gift agreement. Although the donor states a preferred recipient of the funds, the ultimate discretion of the use of the funds lies with the Board of Directors of the Foundation.

Field-of-Interest – original gift agreements name a general type of organization as a preferred grant recipient. The Board of Directors of the Foundation has the ultimate discretion of the use of the funds.

Undesignated – funds which have no donor recommendation, designation or preference.

Temporarily Restricted Net Assets: Net assets subject to donor-imposed stipulations that may or will be met, either by actions of the Foundation and/or the passage of time. When a restriction expires, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of revenues, expenses, and changes in net assets as net assets released from restrictions.

Permanently Restricted Net Assets: Net assets subject to donor-imposed stipulations that they be maintained permanently by the Foundation. Generally, the donors of these assets permit the Foundation to use all or part of the income earned on any related investment for general or specific purposes.

Comparative Information: The financial statements include certain prior year summarized comparative information in total, but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with the modified cash basis of accounting. Accordingly, such information should be read in conjunction with the Foundation's financial statements for the year ended December 31, 2012, from which the summarized information was derived.

NOTE 2. Summary of Significant Accounting Principles (Continued)

Principles of Consolidation: The consolidated financial statements include the accounts of Bucks County Foundation (the Foundation) and related entities: Bucks County Foundation, Inc. and Newtown Community Foundation, Inc. All significant intercompany balances and transactions have been eliminated in consolidation.

Concentrations of Credit Risk: Financial instruments that potentially expose the Foundation to concentrations of credit risk consist principally of cash and cash equivalents and investments. The Foundation places its temporary cash and other investments with high-credit, quality financial institutions and securities dealers, which may exceed federally and privately insured amounts at times. The Foundation does not believe that it is exposed to any significant credit risk on uninsured amounts.

Investments: Investments in marketable securities with readily determinable fair values are reported at their quoted fair values in the statement of assets and net assets. Interest, dividends, realized gains and losses (reported as investment income), and unrealized gains and losses (reported as change in value of trust) are included in the change in net assets.

Contributions: Contributions received are recorded as unrestricted, temporarily restricted or permanently restricted support, depending on the existence of nature of any donor restriction.

Donor-restricted support is reported as an increase in temporarily or permanently restricted net assets depending on the nature of the restriction. When a restriction expires (that is, when a stipulated time restriction ends or when the purpose of the restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

Fixed Assets: Property and equipment are recorded at cost if purchased or fair value if contributed. Depreciation is computed using the straight-line method based upon the estimated useful life of each asset. Maintenance and repairs are charged to expense as incurred; replacements and betterments are capitalized. For the year ended December 31, 2013, fixed assets and accumulated depreciation totalled $1,594 and $1,116, respectively. Depreciation expense for the year ended December 31, 2013 was $319.

Loans Receivable: Loans Receivable is stated at original principal less repayments, net of an allowance for uncollectible amounts. The allowance for uncollectible amounts is provided for the estimated losses that may be incurred due to nonpayment of loans and is calculated based on management's experience. When management determines that a receivable is uncollectible, the balance is removed from the receivables balance and is charged to the allowance. Subsequent recoveries of amounts previously written off are credited directly to earnings. Receivables are considered delinquent when they are 90 days past their due date.

NOTE 2. Summary of Significant Accounting Principles (Continued)

Income Tax Status: The Foundation qualifies as a tax-exempt organization under Section 501(c)(3) of the Internal Revenue Code; therefore, no provision for federal or state income taxes is included in the accompanying financial statements. The Foundation is not classified as a private foundation.

As required by the FASB Accounting Standards Codification, entities are required to determine whether it is more likely than not that a tax position will be sustained upon examination by the appropriate taxing authorities before any part of the benefit can be recorded in the financial statements. It also provides guidance on the recognition, measurement, and classification of income tax uncertainties, along with any related interest or penalties. This standard had no impact on the Foundation's financial statements. The Foundation's federal tax return is subject to audit by taxing authorities. The Foundation's returns open audit periods are for the fiscal years ending December 31, 2010-2012.

Use of Estimates: The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3. Related Party Transactions

Certain members of the Board of Directors of the Foundation are related to entities providing investment services to the Foundation in the ordinary course of business. These Board members have been appointed by outside entities.

All board members of Bucks County Foundation, Inc. are also board members of Bucks County Foundation.

NOTE 4. Trustee Agreements

The Foundation operates with PNC Bank, N.A., Wells Fargo, BNY Mellon Bank, First National Bank of Newtown, Univest, and First Savings of Perkasie as Trustees. Compensation is determined based on income earned from fund assets. Trustee fees for the year ended December 31, 2013 were $100,435.

Notes to Consolidated Financial Statements

December 31, 2013

NOTE 5. Investments

The Foundation is an income beneficiary only to a portion of assets contained in various irrevocable trusts being held by independent investment managers. The provisions of the trusts do not give ownership of any amount of principal to the Foundation. Further, the Foundation has no voice in the appointment of investment managers or their investment decisions. The Foundation receives only income distributions during each fiscal year.

Given the nature of the promises, as well as the inability to compute the present value of the perpetual income stream of the trusts, the Foundation recorded $11,701,497 which was its proportionate share of the total fair market value of the principal upon which its income distributions are based as permanently, temporarily restricted, or unrestricted net assets depending on the nature of the respective trust.

For the year ended December 31, 2013, the Foundation received income from the irrevocable trusts of $250,132, which has been included in restricted and unrestricted income in accordance with the specifics of each trust in the statement of revenue, expenses and changes in net assets. Also, an increase in the fair value of the beneficial interest in trusts of $1,267,643 has been recorded as a restricted and unrestricted activity for the year ended December 31, 2013 in accordance with the specifics of each trust in the statement of revenue, expenses and changes in net assets.

The underlying assets of the Foundation's beneficial interest in trusts as of December 31, 2013 are summarized below:

	Fair Value
Temporarily Invested Cash	$ 541,831
Mutual Funds - Fixed Income	2,978,485
Mutual Funds - Equity	7,955,900
Complementary Strategies	118,923
Corporate Trust Certificate	106,358
	$ 11,701,497

The investments held by the various trusts are exposed to various risks, such as interest rate, credit and overall volatility risk. Due to the level of risk associated with certain investments, it is reasonably possible that such changes in the values of the investments will occur in the near term and that such changes could materially affect the amounts reported in the statement of assets and net assets.

NOTE 6. Fair Value Measurements

The Foundation follows Fair Value Measurements as required by the FASB Standards Codification, which applies to reported balances that are required or permitted to be measured at fair value under an existing accounting pronouncement. The Codification emphasizes that fair value is a market-based measurement, not an entity-specific measurement. Therefore, a fair value measurement should be determined based on the assumption that market participants would use in pricing the asset or liability and establishes a fair value hierarchy. The fair value hierarchy consists of three levels of inputs that may be used to measure fair value as follows:

Level 1 - Inputs that utilized quoted prices (unadjusted) in active markets for identical assets or liabilities that the Organization has the ability to access.

Level 2 - Inputs that include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument. Fair values for these instruments are estimated using pricing models, quoted pricing models, quoted prices of securities with similar characteristics, or discounted cash flows.

Level 3 - Inputs that are unobservable inputs for the asset or liability, which are typically based on an entity's own assumptions, as there is little, if any, related market activity.

In instances where the determination of the fair value measurement is based on inputs from different levels of the fair value hierarchy, the level in the fair value hierarchy within which the entire fair value measurement falls is based on the lowest level input that is significant to the fair value measurement in its entirety.

The following table sets forth by level, within the fair value hierarchy, the Foundation's assets at fair value as of December 31, 2013:

	Level 1	Level 2	Level 3	Total
Investments:				
Temporarily Invested Cash	$ 541,831	$ -	$ -	$ 541,831

NOTE 12. Endowments

The Foundation's endowments consist of individual funds established for a variety of purposes. The endowments consist of unrestricted, temporarily restricted, and permanently restricted investments. As required by GAAP, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

Interpretation of Relevant Law: The Board of Trustees of the Foundation have interpreted the law as requiring any donor-restricted contributions as being classified as unrestricted, temporarily restricted, or permanently restricted depending on the nature of the restriction. The foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

(1) The duration and preservation of the fund
(2) The purpose of the Foundation and the donor-restricted endowment fund
(3) General economic conditions
(4) The possible effect of inflation and deflation

Return Objectives and Risk Parameters: The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that the Foundation must hold in perpetuity or for a donor-specified period. Under this policy, as approved by the Board of Trustees, the endowment assets are invested in a manner that is intended to produce results that exceed the price and yield results of the S&P 500 index while assuming a moderate level of investment risk. The Foundation expects its endowment funds, over time, to provide an average rate of return, however, actual returns in any given year may vary from this amount.

NOTE 12. Endowments (Continued)

Strategies Employed for Achieving Objectives: To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). The Foundation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

Spending Policy and How the Investment Objectives Relate to Spending Policy: The Foundation has a policy of appropriating each year 5 percent of its endowment funds' average fair value over the prior 12 quarters through the calendar year-end preceding the fiscal year in which the distribution is planned. In establishing this policy, the Foundation considered the long-term expected return on its endowment. Accordingly, over the long term, the Organization expects the current spending policy to allow its endowment to grow at an average rate of 4 percent annually. This is consistent with the Foundation's objective to maintain the purchasing power of the endowment assets held in perpetuity or for a specified term as well as to provide additional real growth through new gifts and investment return.

NOTE 13. Student Loans Receivable

Student loans receivable are reported net of any anticipated losses due to uncollectibility. The Foundation considers a loan to be in default when it has been past due for a period of nine months. Student loans are interest free and paid directly to the individual colleges and universities, on behalf of the applicable students. Prior to 2012, half of the disbursement was considered a scholarship and half a loan. Any disbursement subsequent to that date is considered all scholarship. The allowance for uncollectible loans is calculated as 5% to 15% of loans receivable, depending on management's assessment of collectability. At December 31, 2013, student loans receivable of $387,780 net of the allowance for uncollectable loans of $58,988, totaled $328,792.

NOTE 14. Subsequent Events

The Foundation has evaluated events and transactions for potential recognition or disclosure in the financial statements through the date of this report which is the date the financial statements were available for release. No subsequent events have been recognized or disclosed.
