The 23rd Annual Meeting of the International Association for Dance Medicine & Science (IADMS) was held in Seattle, Washington, USA from October 17 - 19, 2013. Meeting activities and sessions were held at the Renaissance Seattle Hotel. Two Special Interest Groups meetings were held on Sunday, October 20, 2013 for specialty groups from the dance medicine and science community: (1) A Day for Teachers and (2) Musculoskeletal Medicine Day. There were 471 total international participants. Goals for participants in attendance were to: (1) gain insights into the causes and treatments of musculoskeletal problems in dancers, as well as strategies for prevention, (2) enhance understanding of recent research and its application to the training and treatment of dancers, (3) enhance knowledge regarding the psychological and nutritional issues that affect dancers, (4) be inspired to move in new ways and to incorporate new techniques into your teaching after participating in a variety of movement sessions, and (5) increase effective communication with other dance professionals, be they dancers, dance educators, dance scientists, movement specialists, or health care professionals. The target audience for this IADMS meeting was individuals involved with the health care, education, administration and supervision of dancers, including physicians, physical therapists, allied health professionals, alternative health care practitioners, psychologists, arts administrators, artistic directors, choreographers, educators, scientists, movement specialists, and dancers. Continuing Medical Education credit was awarded to attendees for increasing competence and improving clinician practice in the care of dancers. We specifically anticipated improvements in skills and strategies to: (1) integrate best practices, including information from the latest evidence- and outcomes-based studies on medical, nutritional, psychological, and musculoskeletal disorders, into daily clinical practice in order to improve health outcomes for the dancer patient, (2) actively engage in unfiltered discussions with experts and colleagues regarding the critical challenges in clinical practice, and apply new insights and key concepts towards the goal of improving care for the dancer patient, and (3) enhance collaboration amongst health care providers of all disciplines, movement specialists, and dance educators in order to improve dancers' health and well-being.
