Return Reference	Explanation	
	C FOOTPRINTS	FOOTPRINTS IS A PROGRAM OF ADVOCACY AND SUPPORT FOR CHILDREN LIVING WITH SERIOUS, COMPLEX ILLNESS. THE MISSION OF THE PROGRAM IS TO HAVE OUR CHILDREN, AND THEIR FAMILIES LIVE WELL ALONG THEIR JOURNEY. WE DEFINE "LIVING WELL" FOR EACH FAMILY BY FACILITATING CARE COORDINATION FOR THE CHILD, BY WORKING WITH THE FAMILY MEMBERS TO DEVELOP A FAMILY-CENTERED PLAN OF CARE FOR THE CHILD THAT FOCUSES ON THE COMFORT OF THE CHILD AND RESPECTS THE VALUES AND BELIEFS OF THE FAMILY, AND BY COLLABORATING WITH THE HEALTH CARE TEAM TO ENSURE THE FAMILY GOALS ARE HONORED AND SUPPORTED BY ALL THOSE INVOLVED IN CARING FOR THE CHILD. FOOTPRINTS CHILDREN ARE FOLLOWED BY OUR STAFF WHILE IN THE HOSPITAL, DURING OUTPATIENT CLINIC VISITS, AND AT HOME BY MEANS OF NUMEROUS PHONE CALLS AND AT TIMES, HOME VISITS. FOR SOME CHILDREN, "LIVING WELL" MEANS BEING AT HOME WITH FAMILY AND FRIENDS, PETS, ETC., LIVING AS CLOSE TO "NORMAL" A LIFE AS POSSIBLE. FOR OTHERS, IT MEANS HAVING ACCESS TO COSTLY MEDICAL EQUIPMENT OR NURSING SERVICES THAT ARE NOT COVERED BY INSURANCE, BUT ARE NECESSARY TO KEEP THE CHILD COMFORTABLE AND "WELL" AS POSSIBLE. AND LASTLY, FOR OTHERS, IT MEANS RELIEF OF SOME OF THE EXTRAORDINARY EXPENSES RELATED TO CARING LONG TERM FOR A CHILD WITH SERIOUS ILLNESS. FUNDS RAISED FOR THE PROGRAM ALLOW US TO ADDRESS SOME OF THESE NEEDS. FOOTPRINTS STAFF PROVIDE EDUCATION TO THE LOCAL, REGIONAL, AND NATIONAL COMMUNITY AROUND BEST PRACTICE PEDIATRIC PALLIATIVE CARE. A THREE-YEAR, ONGOING PARTNERSHIP WITH OTHERS IN CHILDREN'S HOSPITAL PROGRAMS IN THE STATE HAS ALLOWED US THE OPPORTUNITY TO ESTABLISH ACCESS TO PEDIATRIC PALLIATIVE CARE, SIMILAR TO THE FOOTPRINTS MODEL, IN THE MISSOURI CITIES OF SPRINGFIELD, CAPE GIRARDEAU, COLUMBIA AND OTHER SITES IN ST. LOUIS. MISSOURI POISON CENTER: THE HOSPITAL RESPONDS TO THE NEEDS OF THE LOCAL AREA (INDEED, THE ENTIRE STATE OF MISSOURI) FOR EXPERT EVALUATION AND TREATMENT ADVICE FOR HUMAN EXPOSURES TO TOXIC CHEMICALS AND PRODUCTS, PLANTS, INSECTS, AND MEDICINES. THE POISON CENTER RESPONDS TO MORE THAN 193,000 CALLS FOR ASSISTANCE EACH YEAR, REPRESENTING APPROXIMATELY ONE CALL FOR EVERY 33 MISSOURIANS. SEVENTY-FOUR PERCENT OF CALLS ARE MANAGED OVER THE PHONE BY SPECIALLY TRAINED PHARMACISTS AND NURSES WORKING THE POISON HOTLINE, AVOIDING UNNECESSARY AND COSTLY EMERGENCY DEPARTMENT, LABORATORY AND PHYSICIAN FEES. (FOR EVERY \$1 SPENT ON POISON CENTER SERVICES, \$12 IN HEALTH CARE COSTS ARE AVOIDED.) THESE FIGURES ALONE ATTEST TO THE NEED FOR THE POISON CENTER AS A PUBLIC GOOD. ALTHOUGH ACCIDENTAL EXPOSURES IN CHILDREN UNDER THE AGE OF 5 ARE MOST FREQUENTLY THE REASON FOR A CALL, OTHER SITUATIONS INCLUDE SUBSTANCE ABUSE AMONG YOUTH AND ADULTS, MEDICATION ERRORS IN OLDER ADULTS, AND EXPOSURES AT THE WORKPLACE. THUS, ALL AGES AND ALL STATES OF LIFE HAVE NEED FOR THE POISON CENTER. NO OTHER AGENCIES OR PROGRAMS EXIST TO FILL THIS NEED IN MISSOURI. TOLL-FREE TELEPHONE AVAILABILITY OF THE POISON CENTER SIGNIFICANTLY IMPROVES ACCESS TO EXPERT ADVICE FOR THE POPULATION IN FEDERALLY DESIGNATED MEDICALLY UNDERSERVED AREAS, HEALTH PROFESSIONAL SHORTAGE AREAS AND IMPOVERISHED COUNTIES FOR WHOM ACCESS TO OTHER HEALTH CARE MAY BE LIMITED. LIKEWISE, POISON CENTER TELEPHONE-BASED SERVICE TO THE POPULATION IN THE STATE'S FOUR METROPOLITAN AREAS GIVES MANY MEDICALLY UNDERSERVED PERSONS AND DISADVANTAGED MINORITIES OTHER OPTIONS FOR CARE FOR POISONING EMERGENCIES BESIDES OVERCROWDED CITY HOSPITALS. SUCH UNIVERSAL ACCESS TO A CENTRAL HEALTH RESOURCE ACTS TO REDUCE HEALTH DISPARITIES FOR SOME OF OUR MOST VULNERABLE POPULATIONS. PUBLIC EDUCATION PRESENTATIONS ARE ALSO MADE AVAILABLE THROUGHOUT THE STATE TO TEACH THE BASIC STRATEGIES OF POISON PREVENTION. THIS EMPOWERS AND ENABLES MEMBERS OF THE COMMUNITY TO ACT EFFECTIVELY FOR THEIR OWN SAFETY. ST. LOUIS CORD BLOOD BANK: THE ST. LOUIS CORD BLOOD BANK, ONE OF THE LARGEST PUBLIC CORD BLOOD BANKS IN THE WORLD, RECEIVED LICENSURE APPROVAL FROM THE U.S. FOOD AND DRUG ADMINISTRATION TO MANUFACTURE AND DISTRIBUTE CORD BLOOD-DERIVED STEM CELL PRODUCTS IN 2013. IT WAS THE FIRST BANK IN THE REGION AND THE FOURTH BANK IN THE WORLD TO EARN THIS HIGH DISTINCTION. THE BLOOD BANK WORKS WITH MORE THAN 450 DOCTORS AT 29 HOSPITALS THROUGHOUT EASTERN MISSOURI AND SOUTHERN ILLINOIS AS WELL AS SAINT LUKE'S CORD BLOOD PROGRAM IN KANSAS CITY, MISSOURI. THE ST. LOUIS CORD BLOOD BANK COLLECTS, PROCESSES AND STORES UMBILICAL CORD BLOOD, PROVIDING A LIFE-SAVING USE FOR A BIRTH BY-PRODUCT THAT WOULD OTHERWISE BE DISCARDED AS MEDICAL WASTE. CORD BLOOD CAN BE USED TO TREAT MORE THAN 70 DISEASES, INCLUDING LEUKEMIA AND SICKLE-CELL ANEMIA. SINCE 1995, OVER 140,000 FAMILIES HAVE DONATED THEIR CHILD'S CORD BLOOD IN THE HOPE OF SAVING THE LIFE OF ANOTHER UNRELATED PERSON. THE BANK HAS DISTRIBUTED NEARLY 2,500 OF THESE CORD BLOOD UNITS FOR TRANSPLANT WORLDWIDE, SAVING MORE THAN 1,850 LIVES SINCE IT BEGAN. MORE THAN 24,000 UNITS REMAIN IN STORAGE AT THE ST. LOUIS CORD BLOOD BANK, AVAILABLE TO TREAT PATIENTS.

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
SSM Health Care
St Louis, Missouri

We have audited the accompanying consolidated financial statements of SSM Health Care Corporation and its subsidiaries (the "Organization"), which comprise the consolidated balance sheets as of December 31, 2013 and 2012, and the related consolidated statements of operations and changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Organization's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Organization's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of SSM Health Care Corporation and its subsidiaries as of December 31,

2013 and 2012, and the results of their operations and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America

Report on Supplementary Consolidating Information

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The supplementary consolidating information on pages 52–56 is presented for the purpose of additional analysis of the consolidated financial statements rather than to present the financial position and results of operations of the individual companies, and is not a required part of the consolidated financial statements. This supplementary information is the responsibility of the Organization's management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. Such information has been subjected to the auditing procedures applied in our audits of the consolidated financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, such information is fairly stated in all material respects in relation to the consolidated financial statements as a whole.

SSM HEALTH CARE

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012 (DOLLARS IN THOUSANDS)

1. ORGANIZATION

SSM Health Care (SSMHC) is a multi-institutional health care system comprised of SSM Health Care Corporation (SSMHCC) as the principal not-for-profit corporation which holds membership or stock ownership in other affiliated corporations. SSMHCC has been established as the parent corporation. Through its affiliated corporations, SSMHC owns and operates 18 acute care hospitals, one children's hospital, two long-term care facilities, an extensive network of physician practice operations, and other health care businesses located primarily in Missouri, Oklahoma, Wisconsin, and Illinois. SSMHC also has exclusive affiliation agreements with certain acute care hospitals. SSMHCC and most of its affiliated subsidiary corporations are organizations described in Section 501(c)(3) of the Internal Revenue Code (IRC). As such, they are exempt from federal income tax on income from activities related to their exempt purposes under IRC Section 501(a).

On April 16, 2013, SSMHC and Dean Health Systems, Inc. (DHS) entered into a merger agreement whereby DHS would become a wholly owned subsidiary of SSMHC. The merger was finalized on September 1, 2013. DHS includes a large multi-specialty physician group, Dean Health Plan (DHP), a health maintenance organization, Navitus Health Solutions, LLC (Navitus), a national pharmacy benefit management company, and various subsidiary organizations. DHS is a taxable corporation under the IRC. See Note 11 for further discussion of the impact of this merger agreement and other merger/acquisition activity.

Prior to November 15, 2013, SSMHC was sponsored by the Franciscan Sisters of Mary (FSM). As of November 15, 2013, with Vatican approval, FSM transitioned sponsorship of SSMHC to SSM Health Ministries. SSM Health Ministries is an independent 6-member body comprised of three Franciscan Sisters of Mary and three lay people who collectively hold certain reserved powers over SSMHC.

2. SSMHCC SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Presentation — The consolidated financial statements include the accounts of SSMHCC and all wholly owned, majority owned, and controlled entities, including the consolidated statements of SSMHC Liability Trust I and SSMHC Liability Trust II as described in Note 14. Operating consolidated results of DHS are included for the period September 1, 2013 through December 31, 2013 as further described in Note 11. All significant intercompany balances and transactions have been eliminated in consolidation.

Cash and Cash Equivalents — Cash and cash equivalents include investments in highly liquid debt instruments with a maturity of three months or less when purchased.

Short-Term Investments — Short-term investments are measured at fair value and include liquid investments maintained for near-term cash flow purposes.

Financial Instruments — The carrying amounts of cash equivalents and unsettled investment transactions approximate fair value. Management's estimates of the fair value of other financial instruments are described elsewhere in the notes to the consolidated financial statements. Investments

reported as assets that are designated as limited as to use or restricted. short-term investments. and interest rate swaps are measured at fair value as described in Note 7 Long-term debt fair value is disclosed in Note 12 Due to the volatility of the U S economy and the financial markets. there is uncertainty regarding the long-term impact market conditions will have on SSMHC's investment portfolio

Patient Accounts Receivable — Patient accounts receivable are stated at estimated net realizable amounts from patients. third-party payors. and other insurers for services provided Management periodically reviews the adequacy of the allowance for uncollectible accounts based on historical experience. trends in health care coverage. and other collection indicators Reserves for charity and uncollectible amounts have been established and are netted against patient accounts receivable in the consolidated balance sheets

SSMHC's mission is to provide exceptional health care services to all persons regardless of their ability to pay After all payments. discounts and reasonable collection efforts have been exhausted. SSMHC follows established guidelines for placing certain past-due patient balances with collection agencies. subject to the terms of certain restrictions on collection efforts as determined by SSMHC Accounts placed with collection agencies are written off and excluded from patient accounts receivable and allowance for doubtful accounts

Premiums Receivable and Unearned Premiums — Premiums are recognized in the period for which services are covered Premiums receivable include amounts due from subscriber groups for premiums Premiums billed and due in advance of a coverage period are included in unearned premiums

Inventories — Inventories are stated at the lower of cost or market Cost is determined principally using the first-in. first-out method Supplies and pharmaceuticals are expensed when they are distributed for use SSMHC held inventories in the amount of \$62.189 and \$52.280 at December 31. 2013 and 2012. respectively These amounts are included in inventories. prepaid expenses. and other

Assets Limited as to use or Restricted — Assets limited as to use include investments and other assets set aside by the Board of Directors at their discretion for future capital improvements. medical insurance claims or for other purposes. and assets held in trust under bond indentures and self-insurance agreements Unsettled investment transactions include receivables and payables from investment sales which have been initiated prior to the consolidated balance sheet date that are not formally settled until the following year Assets restricted as to use include investments and other assets whose use is restricted by donors (temporarily or permanently)

Pooled Investments — SSMHC holds the majority of its investments in a pooled investment program which also includes the investments of its defined benefit plans as well as other smaller nonconsolidated entities The earnings are allocated proportionately according to ownership percentages as defined in pooled investment agreements The combined investments of SSMHC and its defined benefit plans account for over 99% of the pooled investments

SSMHC has elected the fair value option for financial investments in limited partnerships and limited liability corporations made through its centralized investment program that would otherwise be recorded using either the cost or equity methods SSMHC made this election in order to ensure that the accounting treatment of these investments was comparable between categories. regardless of the current organizational structure of the various investments

Derivative Instruments — It is SSMHC's policy to provide sound stewardship of fiscal resources by effectively managing both the level of outstanding debt and the proportion of variable to fixed rate debt

Accordingly, SSMHC periodically enters into derivative arrangements to manage interest rate risk related to variable rate debt

SSMHC records derivative instruments as either an asset or liability measured at its fair value (Note 7) The estimated fair value of interest rate swap instruments has been determined using available market information and valuation methodologies, primarily discounted cash flows This amount is reported in other noncurrent liabilities

The net change in the fair value is recorded as a nonoperating gain or loss The difference between the actual amount paid and the actual amount received on all interest rate swaps is accrued and recognized as an adjustment to interest expense

Securities Lending Program — SSMHC participates in securities lending transactions with its custodian whereby SSMHC lends a portion of its investments to various brokers in exchange for collateral for the securities loaned, usually on a short-term basis SSMHC maintains effective control of the loaned securities through its custodian during the term of the arrangement in that they may be recalled at any time Collateral received from brokers must equal at least 100% of the original market value of the securities on loan, and is subsequently adjusted for market fluctuations SSMHC must return to the borrower the original value of collateral received regardless of the impact of market fluctuations The collateral is invested in a pool maintained by the custodian Under the terms of the agreement, the borrower must return the same, or substantially the same, investments that were borrowed

The securities on loan under this program are recorded as assets whose use is limited The market value of collateral held for loaned securities is reported as collateral held under securities lending program which is recorded in assets whose use is limited, and an obligation is recorded in current liabilities for repayment of collateral upon settlement of the lending transaction

Property and Equipment — Property and equipment acquisitions are recorded at cost or, if donated or impaired, at fair value at the date of receipt or impairment Depreciation expense is determined using the straight-line method over the estimated useful life of the asset 5 to 25 years for land improvements, 5 to 40 years for buildings, and 3 to 20 years for equipment Equipment under capital leases is amortized using the straight-line method over the shorter of the lease term or the estimated useful life of the equipment Such amortization is included in depreciation and amortization expense Interest costs incurred on borrowed funds during construction periods are capitalized as a component of the asset cost

SSMHC periodically evaluates property and equipment to determine whether assets may have been impaired The evaluations address the estimated recoverability of the assets' carrying value Such analyses require various valuation techniques using management assumptions, including estimates of future cash flows As a result, there is at least a reasonable possibility that recorded estimates of fair value and impairment will change by a material amount

Deferred Financing Costs — Deferred financing costs are amortized using the effective interest rate method over the term of the related obligation

Goodwill — Goodwill represents the excess of costs over the fair value of assets of businesses acquired Goodwill acquired in business combinations is not amortized, but instead is subject to impairment tests performed at least annually Goodwill is evaluated for possible impairment at the reporting unit level at least annually or whenever events or changes in circumstances indicate that the carrying amount of such assets may not be recoverable Goodwill is evaluated for possible impairment by comparing the fair value of a reporting unit with its carrying value, including the goodwill assigned to that reporting unit Fair value of a reporting unit is estimated using a combination of income-based and market-based

valuation methodologies. Under the income approach, forecasted cash flows of a reporting unit are discounted to a present value using a discount rate commensurate with the risks of those cash flows. Under the market approach, the fair value of a reporting unit is estimated based on the revenues and earnings multiples based on recent transactions involving comparable entities. An impairment charge is recorded if the carrying value of the goodwill exceeds its implied fair value. The determination of a reporting unit's fair value requires management to make significant assumptions regarding estimated future cash flows and long-term growth rates. As a result, there is at least a reasonable possibility that recorded estimates of fair value and impairment will change.

Intangibles — Intangible assets include capitalized computer software costs, tradenames, non-compete agreements and other intangible assets acquired from independent parties. Intangible assets with a definite life are amortized on a straight-line basis, with estimated useful lives ranging from one to 20 years. Amortization of intangibles is included in depreciation and amortization expense. SSMHC reviews the carrying value of its amortizable intangible assets only when impairment indicators are present. SSMHC evaluates intangible assets for impairment by comparing the estimates of undiscounted future cash flows to the carrying values of the related assets. Indefinite-lived intangible assets are evaluated for possible impairment at least annually or whenever events or changes in circumstances indicate the asset might be impaired. There were no impairments identified during 2013 or 2012.

Software Costs — Capitalized computer software costs include internally developed software. Costs incurred in developing and installing internal use software are expensed or capitalized depending on whether they are incurred in the preliminary project stage, application development stage, or post-implementation stage. Capitalized software costs and related accumulated amortization expense are included in net intangible assets.

Investments in Unconsolidated Entities — Investments in unconsolidated entities, other than limited partnerships and limited liability corporations in the pooled investment program, are accounted for under the cost or equity method of accounting, as appropriate. SSMHC utilizes the equity method of accounting for its investments in unconsolidated entities over which it exercises significant influence. SSMHC's equity income or loss on these investments is recorded as other revenue. SSMHC evaluates these investments for other-than-temporary impairment in accordance with accounting standards for equity method investments.

Unfunded Pension Liability — Unfunded pension liability represents the value of the projected benefit obligation of SSMHC's pension plans over the fair value of the plans' assets. The pension plan obligations and plan assets are measured as of December 31. In 2013, SSMHC recorded \$268,606 to decrease other liabilities and increase unrestricted net assets due to recognition of the change in the underfunded status of the plan. The gain was a result of higher discount rates as well as strong investment returns. In 2012, SSMHC recorded \$22,969 to decrease other liabilities and increase unrestricted net assets due to recognition of the change in the underfunded status of the plan. The gain was a result of plan amendments as described in Note 13 offset by the impact of the declining discount rate.

Other Liabilities — Other liabilities include various deferred compensation plans, the fair value of interest rate swaps and various other noncurrent liabilities.

Temporarily and Permanently Restricted Net Assets — Temporarily restricted net assets are those whose use by SSMHC has been limited by donors to a specific time period or purpose. These assets are restricted for funding a specific program, capital projects, and other purposes. Permanently restricted net assets have been restricted by donors to be maintained by SSMHC in perpetuity. They are generally restricted to provide ongoing income for a specific program.

Noncontrolling Interests — The consolidated financial statements include all assets, liabilities, revenue and expenses of less than 100% owned or controlled entities SSMHC controls in accordance with applicable accounting guidance. Accordingly, SSMHC has reflected a noncontrolling interest for the portion of net assets not owned or controlled by SSMHC separately on the consolidated balance sheets.

Net Patient Service Revenues — SSMHC recognizes net patient service revenue before provision for bad debt in the period in which services are provided. SSMHC has agreements with payors that provide for payments at amounts different from established charges. The basis for payment under these agreements includes prospectively determined rates, cost reimbursement, and negotiated discounts from established charges.

Net patient service revenues are reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments due to future audits, reviews, and investigations. The differences between the estimated and actual adjustments are recorded as part of net patient service revenues in future periods, as the amounts become known, or as years are no longer subject to such audits, reviews, and investigations.

Premiums Earned — SSMHC receives capitation insurance premiums based on the demographic characteristics of covered members in exchange for providing comprehensive medical services for those members. SSMHC recorded capitated revenues of \$360,880 and \$10,370 for the years ended December 31, 2013 and 2012, respectively. Capitation revenues are included in premium revenues.

Effective January 1, 2011, SSMHC and Dean Health Systems, Inc. entered into a risk sharing arrangement for certain health care services provided to members of Dean Health Insurance, Inc. (DHI) and Dean Health Plan, Inc. (DHP). Under the risk sharing arrangement, a percentage of the DHI and DHP premiums are paid into various pools for which SSMHC assumes a portion of the risk. Payments are made from the pools for certain covered services. SSMHC receives disbursements from the pools for their share of the accumulated surplus or pays into the pools for their share of the accumulated deficit. Total payments received during the eight month period ended August 31, 2013 and the year ended December 31, 2012 for services, net of accumulated deficits, were \$105,693 and \$133,612, respectively, which are included within net patient service revenues. Payments received subsequent to August 31, 2013 were eliminated on consolidation.

Medical Claims — Medical claims consist of payments to health care providers and are accrued as of the date of service and reported net of recoveries of \$5,294 for the period from September 1, 2013 to December 31, 2013. Recoveries consist mainly of drug company volume discounts, Centers for Medicare and Medicaid Services (CMS) risk-sharing, and subsidies and reinsurance.

Changes in estimates of claims costs resulting from an ongoing review process and differences between estimates and payments for claims are recognized in the period in which the estimates are changed or payments are made. The liability for unpaid medical claims for medical services purchased, which is included in accounts payable, is based on known amounts of reported claims and an estimate of incurred but not reported claims using past experience adjusted for current trends.

Investment Income — Most investment income is reported as nonoperating gains or losses. Investment income on funds held in trust for self-insurance purposes, funds held for insurance and pharmacy benefit purposes, and unrestricted funds held by foundations is included in other operating revenue. The cost of investments sold is based on the specific-identification method.

Investment income on investments of donor-restricted funds, other than endowments, is included in excess of revenues over expenses unless the income or loss is restricted by donors. Investment income

that is restricted by the donor is recorded directly to temporarily or permanently restricted net assets, in accordance with the donor-imposed restrictions

SSMHC values hedge funds, real estate investments, and partnership interests at fair value. Gains and losses on these investments are included in nonoperating investment income unless it is restricted by donors

SSMHC classifies its debt and equity securities as trading securities. Changes in the fair values of trading securities are recorded in the excess of revenues over expenses

The change in unrealized gains and losses on investments recorded as a change in unrestricted net assets includes the unrealized gains or losses related to investments available for sale at equity method investees

SSMHC reports investment income net of investment fees paid. Investment fees totaled \$10,603 and \$10,464 for the years ended December 31, 2013 and 2012, respectively

Contributions — Contributions, including unconditional promises to give, are recognized at their fair value at the time of receipt. For financial reporting purposes, SSMHC distinguishes between contributions that are unrestricted, temporarily restricted, or permanently restricted based on the restrictions placed on their use by the donors. Contributions restricted for additions to property and equipment are recorded as temporarily restricted assets. When the restrictions have been met, these temporarily restricted contributions are recorded as net assets released from restrictions for property acquisitions. Contributions temporarily restricted for other purposes are reported as temporarily restricted contributions if the restrictions are not met in the same reporting period. When such donor-imposed restrictions are met in subsequent reporting periods, they are reported as net assets released from restrictions and an increase to unrestricted net assets. Contributions of assets that donors have stipulated must be maintained permanently, with only the income earned thereon available for use, are classified as permanently restricted assets. Contributions for which donors have not stipulated restrictions are reported as other revenue

Endowment assets include donor-restricted funds that SSMHC must hold in perpetuity or for a donor-specified period. SSMHC preserves the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. SSMHC classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and, if applicable, (c) accumulations to the permanent endowment made in accordance with specific donor instructions. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the SSMHC entity that received the donation. SSMHC considers the following factors in making determinations to appropriate or accumulate donor-restricted endowment funds

- a State law
- b The duration and preservation of the fund
- c The purposes of the donor-restricted endowment funds and how they relate to SSMHC's priorities for carrying out its mission within the communities it serves
- d General economic conditions

- e The possible effects of inflation and deflation
- f The expected total return from income and the appreciation of investments
- g Other resources available to the entity and its beneficiary, if applicable
- h The investment policies of the entity

Electronic Health Record Incentives — Under certain provisions of the American Recovery and Reinvestment Act of 2009 (ARRA), federal incentive payments are available to hospitals, physicians and certain other professionals (Providers) when they adopt, implement or upgrade (AIU) certified electronic health record (EHR) technology or become “meaningful users,” as defined under ARRA, of EHR technology in ways that demonstrate improved quality, safety and effectiveness of care. Providers can become eligible for annual Medicare incentive payments by demonstrating meaningful use of EHR technology in each period over four periods. Medicaid providers can receive their initial incentive payment by satisfying AIU criteria, but must demonstrate meaningful use of EHR technology in subsequent years in order to qualify for additional payments. Hospitals may be eligible for both Medicare and Medicaid EHR incentive payments, however, physicians and other professionals may be eligible for either Medicare or Medicaid incentive payments, but not both. Hospitals that are meaningful users under the Medicare EHR incentive payment program are deemed meaningful users under the Medicaid EHR incentive payment program and do not need to meet additional criteria imposed by a state. Medicaid EHR incentive payments to Providers are 100% federally funded and administered by the states. The Centers for Medicare and Medicaid Services (CMS) established calendar year 2011 as the first year states could offer EHR incentive payments. Before a state may offer EHR incentive payments, the state must submit and CMS must approve the state’s incentive plan.

SSMHC recognizes Medicaid EHR incentive payments in its consolidated statements of operations for the first payment year when (1) CMS approves a state’s EHR incentive plan, and (2) its hospital or employed physician acquires certified EHR. Medicare and Medicaid EHR incentive payments for subsequent payment years are recognized in the period during which the specified meaningful use criteria are met. SSMHC recognizes Medicare EHR incentive when (1) the specified meaningful use criteria are met, and (2) contingencies in estimating the amount of the incentive payments to be received are resolved. During the years ended December 31, 2013 and 2012, certain of SSMHC’s entities satisfied the CMS AIU and/or meaningful use criteria. As a result, SSMHC recognized approximately \$3.799 and \$3.528 of Medicaid EHR incentive payments as other revenue for the years ended December 31, 2013 and 2012, respectively. SSMHC’s entities recognized \$13.408 and \$20.846 of Medicare EHR incentive payments as other revenue for the years ended December 31, 2013 and 2012, respectively.

Performance Indicator — The consolidated statements of operations and changes in net assets include excess of revenues over expenses as SSMHC’s performance indicator. Changes in unrestricted net assets that are excluded from excess of revenues over expenses, consistent with industry practice, include changes in unrealized gains and losses on investments related to available for sale investments held by equity investees, permanent transfers of assets to and from affiliates for other than goods and services, contributions of long-lived assets (including assets acquired using contributions that by donor restriction were to be used for the purpose of acquiring such assets), and pension related changes other than net periodic pension cost.

Consolidated Statements of Operations — For purpose of display, transactions deemed by management to be ongoing, major, or central to the provision of health care and related services are

reported as operating revenue and expenses. Peripheral or incidental transactions are reported as nonoperating gains and losses.

Advertising Costs — SSMHC expenses advertising costs as they are incurred. Advertising expenses were \$13,110 and \$10,749 for the years ended December 31, 2013 and 2012, respectively, and are included in professional fees and other.

Income Taxes — SSMHC has established its status as an organization exempt from income taxes under IRC Section 501(c)(3) and the laws of the states in which it operates, and as such, is generally not subject to federal or state income taxes. However, SSMHC is subject to income taxes on net income derived from a trade or business, regularly carried on, which does not further the organization's exempt purpose. SSMHC is also subject to income tax on debt-financed investment income derived from various investments. No significant income tax provisions have been recorded in the financial statements for net income, if any, derived from any unrelated business or investment income as management has determined that such amounts are not material to the consolidated financial statements taken as a whole.

SSMHC's for-profit subsidiaries account for income taxes related to their operations. The for-profit subsidiaries recognize deferred tax assets and liabilities for temporary differences between the financial reporting basis and the tax basis of their assets and liabilities along with net operating losses that meet the more likely than not recognition criteria. Changes in recognition or measurement are reflected in the period in which the change in judgment occurs. Penalties and interest incurred on income tax liabilities are included in income tax expense.

SSMHC evaluates its uncertain tax positions on an annual basis. A tax benefit from an uncertain tax position may be recognized when it is more likely than not that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, based on the technical merits. There have been no uncertain tax positions recorded in 2013 or 2012.

Use of Estimates — The preparation of the consolidated financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Non-Cash Transactions — During the years ended December 31, 2013 and 2012, SSMHC had the following non-cash transactions:

	2013	2012
Collateral received under securities lending program	\$ 10,157	\$ 22,300
Property and equipment purchases included in accounts payable	12,367	19,618
Acquisition of health care entities included in accounts payable	4,762	-
Investment in unconsolidated entities included in long-term debt	-	8,648
Acquisition of hospital and health care entities	42,690	-

New Accounting Pronouncements — In February 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2013-04, *Liabilities (Topic 405), Obligations Resulting from Joint and Several Liability Arrangements for Which the Total Amount of the Obligation is Fixed at the Reporting Date* (ASU 2013-04). ASU 2013-04 requires SSMHC to measure obligations resulting from joint and several liability arrangements for which the total amount of the obligation is fixed at the reporting date as the sum of the amount SSMHC agreed to pay on the basis of its

arrangement amount the co-obligors and any additional amount that SSMHC expects to pay on behalf of its co-obligors. ASU 2013-04 is effective for SSMHC as of January 1, 2014, and is not expected to have a material impact on SSMHC's consolidated financial statements.

In January 2013, the FASB issued ASU No. 2013-01, *Balance Sheet (Topic 210), Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities*, (ASU 2013-01) to address implementation issues about the scope of ASU 2011-11 (*Balance Sheet (Topic 210), Disclosures about Offsetting Assets and Liabilities*). The amendments clarify the scope applies to certain derivatives, repurchase agreements and reverse repurchase agreements, and securities borrowing and securities lending transactions that are either offset or subject to an enforceable master netting arrangement or similar agreement. The adoption of ASU 2013-01 was effective for fiscal years beginning on or after January 1, 2013 and resulted in additional disclosures at Note 17.

In October 2012, FASB issued ASU No. 2012-05, *Statement of Cash Flows (Topic 230), Not-for-Profit Entities: Classification of the Sale Proceeds of Donated Financial Assets in the Statement of Cash Flows* (ASU 2012-05) to address diversity in practice about how to classify cash receipts arising from the sale of certain donated financial assets, such as securities, in the statement of cash flows of not-for-profit entities. The adoption of ASU 2012-05 was effective prospectively for SSMHC as of January 1, 2013 and did not have a material impact on SSMHC's consolidated financial statements.

In July 2012, the FASB issued ASU 2012-02, *Intangibles – Goodwill and Other (Topic 350), Testing Indefinite-Lived Intangible Assets for Impairment*, (ASU 2012-02) which permits an entity to first assess qualitative factors to determine whether it is more likely than not that an indefinite-lived intangible asset is impaired as a basis for determining whether it is necessary to perform the quantitative impairment test as described in Topic 350. The adoption of ASU 2012-02 was effective for SSMHC as of January 1, 2013, and did not have a material impact on SSMHC's consolidated financial statements.

In July 2011, FASB issued ASU No. 2011-06, *Other Expenses (Topic 720), Fees Paid to the Federal Government by Health Insurers* (ASU 2011-06) which provides guidance regarding how health insurers should recognize and classify fees mandated by the Patient Protection and Affordable Care Act and the Health Care and Education Reconciliation Act of 2010 (collectively, Health Insurance Reform Legislation). The Health Insurance Reform Legislation imposes a nondeductible annual fee on health insurers for each calendar year beginning on January 1, 2014. ASU 2011-06 requires that the liability for the fee should be estimated and recorded in full once SSMHC provides qualifying insurance coverage in the applicable calendar year in which the fee is payable, with a corresponding deferred cost that is amortized to expense over the calendar year. ASU 2011-06 is effective for SSMHC as of January 1, 2014.

Change in Presentation — Effective January 1, 2013, SSMHC reclassified net software acquisition costs to intangibles on the consolidated balance sheets. This change did not have a material impact on SSMHC's consolidated financial statements other than the reclassification of net software costs totaling \$51.515 from plant and equipment – net to intangibles – net for the year ended December 31, 2012.

Effective September 1, 2013, SSMHC reported premiums earned in the consolidated statement of operations and changes in net assets. This change did not have a material impact on SSMHC's consolidated financial statements other than the reclassification of premiums earned totaling \$10,370 from net patient service revenue to premiums earned for the year ended December 31, 2012.

3. UNCOMPENSATED CARE

In line with its mission, SSMHC provides services to patients without regard to their ability to pay for those services. For some of its patient services, SSMHC receives no payment or payment that is less than the full cost of providing the services.

SSMHC voluntarily provides free care to patients who are unable to pay for all or part of their health care expenses as determined by SSMHC's criteria for financial assistance. Because SSMHC does not pursue collection of amounts determined to qualify as charity care, they are not reported as patient service revenues.

In some cases, SSMHC does not receive the amount billed for patient services even though it did not receive information necessary to determine if the patients met the criteria for financial assistance.

The estimated cost of charity care and the cost of doubtful accounts are as follows. The estimated costs are calculated using the costs of providing patient care divided by gross patient service revenue. This ratio is then multiplied by the gross charity and doubtful charges to determine estimated costs.

	2013	2012
Cost of charity care	\$92,871	\$95,484
Cost of doubtful accounts	86,340	69,954

SSMHC also commits significant time and resources to activities and critical services that address unmet community needs. Many of these activities are sponsored with the knowledge that they will not be self-supporting or financially viable. Such programs include health screenings and assessments, prenatal education and care, hospice, support for residences for homeless persons, trauma care, community health education and various support groups.

4. NET PATIENT SERVICE REVENUES

A significant portion of SSMHC's revenue is generated under agreements with Medicare and Medicaid. Payments for services covered by Medicare are based on federal regulations specific to the type of service provided. Medicare pays for most services at a prospective rate. Hospital facilities that meet certain requirements receive additional funds in partial payment for the cost of medical education and caring for the indigent. The rates for services covered by Medicaid are determined by the regulations of the state in which the beneficiary is a resident. Medicare and Medicaid regulations are complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount.

SSMHC has an estimation process for recording Medicare net patient service revenue and estimated cost report settlements. Accruals are recorded to reflect the expected final cost report settlements. Accruals are based upon filed cost reports or an estimate of what is expected to be reported on cost reports not yet filed.

In addition, SSMHC has negotiated contracts with certain other third-party payors. Revenues under these contracts are based primarily on payment terms involving predetermined rates per diagnosis, per-diem rates, discounted fee-for-service rates and other similar contractual arrangements. SSMHC estimates the discounts for contractual allowances at the individual hospital level utilizing billing data on an individual patient basis. On a monthly basis, an estimate is made of the expected reimbursement for patients of managed care plans based on the applicable contract terms.

SSMHC provides discounts on charges for hospital services to all patients without insurance and who do not receive their health care services under Medicare, Medicaid or a public aid program. The discount varies by geographical location, primarily based on the discounts negotiated with SSMHC private third-party payors in that location. The total discounts provided to uninsured patients under this policy were \$214,638 and \$205,362 for the years ended December 31, 2013 and 2012, respectively, and are included as a reduction in net patient service revenues. If it is determined that an uninsured patient is eligible for a charity discount for hospital services, the charity discount will be taken after the discount for uninsured patients has been applied.

SSMHC participates in assessment programs in the four states in which it operates. For the year ended December 31, 2013, SSMHC recognized \$187,907 in revenue and \$137,466 in expenses relating to these programs. For the year ended December 31, 2012, SSMHC recognized \$191,375 in revenue and \$136,319 in expenses relating to these programs. The revenue is included in net patient service revenues and the expenses are included in professional fees and other expenses.

The table below shows the sources of net patient service revenue before provision for bad debt.

	2013	2012
Medicare	\$ 895,907	\$ 907,218
Medicaid	446,431	479,091
Managed Care	1,561,920	1,501,064
Other	<u>412,893</u>	<u>331,404</u>
Net patient service revenue before provision for bad debt	<u>\$3,317,151</u>	<u>\$3,218,777</u>

A summary of SSMHC's Medicare, Medicaid and managed care utilization percentages, based upon gross patient service revenues was as follows:

	2013	2012
Medicare	34 %	33 %
Medicaid	12	12
Managed Care	42	45
Other	<u>12</u>	<u>10</u>
	<u>100 %</u>	<u>100 %</u>

In 2013 and 2012, net patient service revenues (decreased) increased by (\$66,806) and \$32,466, respectively, relating to changes in estimates for prior years' settlements from Medicare, Medicaid and other programs. Of the 2013 decrease, \$61,244 was based upon an adverse ruling rendered by CMS. During a periodic cost report audit performed by the Medicare intermediary in Oklahoma, the intermediary identified potential issues with the calculation of the disproportionate share hospital (DSH) payments paid to SSMHC's Oklahoma facility. The specific issue identified was whether the care furnished for children and adolescents in an adolescent psychiatric program at SSMHC's Oklahoma facility is similar in acuity to services that are usually paid for under Medicare's inpatient hospital prospective payment system. As of December 31, 2013, CMS rendered a ruling for full repayment of the DSH payments received and recognized as revenue attributable to the adolescent psychiatric program for the year ended December 31, 2006. Management anticipates that this ruling will be applied to the remainder of the period 2004 – 2013. As a result, SSMHC has recorded a liability for full repayment for this period, of which \$61,244 related to prior years. In 2012, net patient service revenues increased by

\$24,236 in settlement of an appeal with CMS related to underpayments that occurred between 1998 and 2011 as a result of errors in the Medicare inpatient wage index calculation

5. CONCENTRATION OF CREDIT RISK

SSMHC provides health care services through its inpatient and outpatient care facilities located in their respective communities. SSMHC attempts to collect amounts due from patients, including co-payments and deductibles for patients with insurance, at the time of service while complying with all federal and state laws and regulations, including the Emergency Medical Treatment and Active Labor Act (EMTALA). Generally, as required by EMTALA, patients may not be denied emergency treatment due to the inability to pay. In non-emergency circumstances or for elective procedures, SSMHC's policy is to verify insurance prior to treatment, however, exceptions can occur. SSMHC generally does not require collateral or other security in extending credit to patients, however, it routinely obtains assignment of (or is otherwise entitled to receive) patients' benefits payable under their health insurance programs, plans or policies (e.g., Medicare, Medicaid, health maintenance organizations, and commercial insurance policies).

SSMHC records an allowance for uncollectible accounts by establishing an allowance to reduce the carrying value of receivables to their estimated net realizable value. This allowance is calculated on an individual hospital basis and is based upon the aging of accounts receivable by payor class, historical collection experience and other relevant factors. SSMHC has not changed its charity care allowance for uncollectible accounts or uninsured discount policies during the years ended December 31, 2013 and 2012. The allowance for uncollectible accounts increased \$25,028 from \$120,927 at December 31, 2012 to \$145,955 at December 31, 2013. Of this increase, \$4,524 was attributable to the acquisition of DHS entities. The remainder of the increase was primarily due to increased volumes of self-pay patients as well as co-payments and deductibles for patients with insurance.

The mix of net receivables from patients and third-party payors as of December 31, 2013 and 2012, was as follows:

	2013	2012
Medicare	22 %	26 %
Medicaid	11	15
Managed Care	40	43
Other	<u>27</u>	<u>16</u>
	<u>100 %</u>	<u>100 %</u>

Cash Concentrations — SSMHC has cash and cash equivalents deposited in financial institutions in which the balances exceed the Federal Deposit Insurance Corporation (FDIC) insured limit of \$250. No losses have been incurred to date, and management believes SSMHC is not exposed to any significant credit risk.

6. ASSETS LIMITED AS TO USE OR RESTRICTED

The SSMHC Board of Directors has designated the accumulation of certain funds for future replacement of property and equipment, other capital improvements, debt retirement, medical insurance claims, and other purposes. Additionally, under the terms of the indentures for various bond issues, funds held by trustees have been established and legally designated for debt service.

A summary of assets limited as to use or restricted as of December 31, 2013 and 2012, is as follows

	2013	2012
Assets limited as to use

Total	<u>\$214,019</u>	<u>\$182,421</u>

The collateral held for the securities loaned and related payable of equal value at December 31, 2013 and 2012, were \$207,345 and \$197,188, respectively

The securities on loan are included in the following classifications

	2013	2012
Equity securities	\$ 91,238	\$ 39,700
Government securities	97,955	133,306
Corporate obligations	<u>13,970</u>	<u>20,704</u>
Total	<u>\$203,163</u>	<u>\$193,710</u>

SSMHC recorded net investment income of \$571 and \$1,225 on these transactions for the years ended December 31, 2013 and 2012, respectively. Net investment income represents the amount received as investment income on the securities received as collateral, offset by the fees paid to the various brokers and the investment earnings on the securities loaned to the brokers

7. FAIR VALUE MEASUREMENTS

SSMHC defines fair value as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities should include consideration of non-performance risk including SSMHC's own credit risk.

The fair values of all assets and liabilities recognized or disclosed at fair value are classified based on the lowest level significant inputs. SSMHC used the following methods to determine fair value:

Level 1 — Quoted prices (unadjusted) in active markets for identical assets or liabilities that SSMHC has the ability to access on the report date

Level 2 — Inputs (financial matrices, models, valuation techniques) other than quoted market prices included in Level 1, that are observable for the asset or liability, either directly or indirectly. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability. Such observable inputs include benchmarking prices for similar assets in active, liquid markets, quoted prices in markets that are not active and observable yields and spreads in the market. SSMHC's Level 2 assets and liabilities include investment securities with quoted prices

that are traded less frequently than exchange-traded instruments and derivative contracts whose values are determined using market standard valuation techniques. This category primarily includes corporate obligations and government securities, among others. Level 2 valuations are generally obtained from third party pricing services for identical or comparable assets or liabilities. Prices from services are validated through analytical reviews and assessment of current market activity. Interest rate swaps are valued using discounted future cash flows.

Level 3 — Inputs (such as professional appraisals, quoted prices from inactive markets that require adjustment based on significant assumptions or data that is not current, data from independent sources) that are unobservable for the asset or liability. SSMHC holds investments in real estate funds, hedge funds, and partnership interests. The real estate funds invest in real estate investment trusts and commercial real estate, diversified by geographical location and use. The hedge funds invest in funds that hold various types of debt and equity securities.

For the years ended December 31, 2013 and 2012, a majority of the hedge funds, real estate investments, and partnership interests are recorded at the net asset value (NAV), which is the estimated fair value of the investments.

Following is a summary of assets and liabilities measured at fair value on a recurring basis by the level of significant input.

It is SSMHC's policy that transfers between levels will occur when revised information regarding the lowest level of significant inputs becomes available. There were no transfers between levels during 2013 or 2012.

Changes related to the fair values based on Level 3 inputs for the years ended December 31, 2013 and 2012, are summarized as follows:

	2013	2012
Assets		
Beginning balance	\$ 313,883	\$ 332,810
Total gains	25,326	16,011
Purchases	441,389	15,696
Sales	<u>(442,302)</u>	<u>(50,634)</u>
Ending balance	<u>\$ 338,296</u>	<u>\$ 313,883</u>

Unrealized gains on Level 3 investments were \$2,439 and \$15,249 for 2013 and 2012, respectively, and are recorded as nonoperating investment income.

The hedge funds, real estate investments, and partnership interests are redeemable at NAV under the original terms of the agreements. However, it is possible that these redemption rights may be restricted or eliminated by the funds in the future in accordance with the underlying fund agreements. Due to the nature of the investments held by the funds, changes in market conditions and the economic

environment may significantly impact the net asset value of the funds and, consequently, the fair value of SSMHC's interests in the funds. Although a secondary market exists for these investments, it is not active and individual transactions are typically not observable. When transactions do occur in this limited secondary market, they may occur at discounts to the reported net asset value. It is therefore reasonably possible that if SSMHC were to sell these investments in the secondary market a buyer may require a discount to the reported net asset value, and the discount could be significant. As such, SSMHC has classified these as Level 3 investments. In addition, the unfunded commitments to these funds are \$5,823 and \$8,830 at December 31, 2013 and 2012, respectively. Assets recorded at NAV at December 31, 2013, are as follows:

December 31, 2013

- (a) This category includes investments in hedge funds that maintain positions both long and short in equity and equity derivative securities. A wide variety of investment processes can be employed to arrive at an investment decision, including both quantitative and fundamental techniques, and the managers can maintain net long or net short exposure levels based on market views. The strategy designs a diversified portfolio of managers and strategies with the objective of significantly lowering the risk and volatility of investing with an individual manager.
- (b) This category includes investments in a limited partnership interest that invests in multiple long-short, market-neutral equity hedge fund managers. The investment is designed to achieve consistent market returns across all market cycles and mitigate market directional portfolio risk through maintaining low net exposure.
- (c) This category includes investments in real estate funds that invest in the following underperforming and distressed real estate assets at well below potential replacement cost and which create significant value-added upside through extensive repositioning and capital improvements: distressed real estate and real estate-related debt, companies, securities, and other assets, high quality properties in major metropolitan areas, participating mortgages secured by core real estate properties. Investments in real estate are valued based upon independent appraisals using

a cost approach, market approach or income approach as well as consideration of other third party evidence

10. INVESTMENTS IN UNCONSOLIDATED ENTITIES

Investments in Unconsolidated Affiliates — SSMHC included the following income from operations from equity method investments in health care joint ventures for the years ended December 31, 2013 and 2012, as other revenue

	2013	2012
Income from operations	\$ 25,851	\$ 17,495
Losses from operations	<u>(5,872)</u>	<u>(9,576)</u>
Net income from operations	<u>\$ 19,979</u>	<u>\$ 7,919</u>

The total carrying amount of cost-method investments was \$6,967 and \$15,341 at December 31, 2013 and 2012, respectively

At December 31, 2012, SSMHC was a member owner of Premier, Inc., a national healthcare alliance. During 2013, Premier, Inc. issued an initial public offering (IPO). As a result of the IPO, Premier, Inc. acquired under a Unit Put/Call Agreement a portion of SSMHC's pre-IPO partnership units for \$11.133 and SSMHC's remaining investment in Premier, Inc. was converted to common units. This transaction reduced SSMHC's investment in Premier to \$1.967 at December 31, 2013, and resulted in a realized gain of \$10,759 which is included in operating investment income. SSMHC has recorded its common units and membership interest as a cost method investment in unconsolidated entities with a carrying amount of \$1.967 and \$2,341 at December 31, 2013 and 2012, respectively.

11. BUSINESS ACQUISITIONS

SSMHC entered into the following significant acquisition activities during the years ended December 31, 2013 and 2012

Dean Health Systems, Inc. — Effective April 16, 2013, SSMHC and DHS (a Wisconsin based company) entered into an Agreement and Plan of Merger with DHS and its subsidiaries becoming wholly owned subsidiaries of SSMHC on September 1, 2013. Prior to the acquisition, SSMHC owned 5% of the outstanding stock of DHS, accounted for under the cost method of accounting, 47% of the outstanding stock of DHI and 47% of Dean Health Holdings, LLC (DHH), both accounted for under the equity method of accounting, with DHS owning the remaining 53% interest.

In addition, SSMHC and DHS were previously joint venture partners, each owning 50% in St. Mary's Dean Ventures (SMDV), Wisconsin Integrated Information Technology and Telemedicine Systems, LLC (WIITTS), and Dean Clinic and St. Mary's Hospital Accountable Care Organization, LLC (ACO). Prior to the acquisition of DHS, SSMHC accounted for its interest in each joint venture under the equity method of accounting.

Prior to the acquisition, SSMHC reported its investment in all of the aforementioned entities within investments in unconsolidated entities in the consolidated balance sheets.

DHS's assets include more than 60 clinics in Wisconsin, DHP, Navitus, and various subsidiary organizations. The clinics and their 500 physicians provide primary, specialty and tertiary care. DHP is a provider-based health maintenance organization in South Central Wisconsin serving more than 300,000 members. Navitus provides pharmacy benefit administration services to a variety of clients on a national scale, including health plans and self-funded employer groups, covering over 2.6 million lives at

December 31, 2013. The primary purpose of the merger between SSMHC and DHS is to enhance the alignment of strategic initiatives, improve the delivery and efficiency of patient care, utilize the combined resources of both organizations more effectively and provide for greater financial strength.

SSMHC completed the acquisition of the outstanding stock of DHS for consideration of \$363,373. Consideration consisted of cash of \$315,921, escrow deposit of \$30,000, settlement of a non-compete agreement of \$11,914, accounts payable of \$4,762 and settlement of liabilities of \$776. Through the acquisition of DHS, SSMHC also acquired the remaining 53% of the outstanding stock of DHI and DHH and the remaining interest in all DHS subsidiary organizations. SSMHC recorded related goodwill of \$95,299.

The non-compete agreement of \$11,914 existed between SSMHC and SMDV prior to the acquisition. The settlement of liabilities of \$776 related to distributions from DHS to shareholders. Both of these pre-existing relationships are considered additional consideration when settled at the acquisition date.

SSMHC recorded a gain of \$23,571 related to the acquisition which is recorded in operating investment income. The acquisition-date fair value of previously held equity interests in DHS and its subsidiaries was \$160,133. The fair value of these interests was determined by applying a lack of control discount to the equity values for each pre-existing interest on a controlling marketable basis as determined by a discounted cash flow model. The gain consisted of a gain of \$28,038 due to the remeasurement of SSMHC's previous investments in DHS and its subsidiaries at their acquisition-date fair value. The gain also included unrealized gains on available for sale securities totaling \$1,571 and the loss from interest rate swaps totaling \$6,038 which were reclassified from unrestricted net assets. These are included in the calculation of the gain as of the acquisition date.

The acquisition related costs incurred by SSMHC in relation to the transaction are \$9,646 and are recorded in professional fees and other.

Summarized balance sheet information for DHS and its subsidiaries at September 1, 2013 is shown below:

Cash	\$ 161,109
Current assets	408,204
Property and equipment	250,432

SSM Health Care Master Indenture — SSMHCC is a member of the SSM Health Care Credit Group (Credit Group) and the only Obligated Group Member pursuant to a Master Trust Indenture (amended and restated) dated May 15, 1998. SSMHC corporations not included in the Credit Group include a variety of entities consisting primarily of foundations, medical office building corporations, employed physician practices, and various other corporations involved in activities supporting SSMHC. As of December 31, 2013, DHS entities are not included in the Credit Group. Certain of SSMHC's affiliates are "Designated Affiliates" under the Master Trust Indenture. The net assets of the Designated Affiliates are available to SSMHCC to service all obligations under the Master Indenture. Various issuing authorities have issued tax-exempt revenue bonds under the Master Trust Indenture. The payment of Series 2002B, 1998B, and 1992A, which aggregate \$126,535 and \$144,875 at December 31, 2013 and 2012, respectively, is insured by municipal bond insurance policies. The remaining bonds are uninsured. All Master Indenture debt is subject to certain debt covenants, including, among other things, the maintenance of certain cash balances and other financial ratios. SSMHC was in compliance with all debt covenants as of December 31, 2013.

On July 26, 2012, SSMHC issued \$183,265 of direct tax-exempt loans through the Health and Educational Facilities Authority of the State of Missouri. The proceeds were used for the partial repayment of the Series 2005C bonds and the complete repayment of the 2005A and 2010C bonds. SSMHC recorded a loss on the extinguishment of debt of \$1,125 in connection with these transactions during the year ended December 31, 2012.

Taxable Debt — On June 27, 2012, SSMHC entered into a term loan agreement with a financial institution in the amount of \$100,000.

Revenue Bonds — On April 1, 2013, SSMHC became the sole member of Audrain and assumed all of Audrain's debt. This included the 2001 Hospital Refunding and Improvement Revenue Bonds which had a fair value of \$5,020 at acquisition. These bonds are secured by the net revenues of Audrain and the assets restricted under the bond indenture agreement. As of December 31, 2013, Audrain was in compliance with its financial covenants, with the exception of the Minimum Debt Service Coverage Ratio. SSMHC was granted a waiver by the lender as of December 31, 2013. In return for the waiver, SSMHC deposited \$2,611 into the Debt Service Fund at the Trustee in order to satisfy all remaining principal and interest payments. This deposit was made subsequent to year end.

Auction Rate Bonds — The debt includes \$121,300 and \$137,150 at December 31, 2013 and 2012, respectively, of variable auction rate bonds. The interest rates on these bonds are reset at regular intervals of 35 days. The bonds are bought and sold at the lowest bid rate at which all of the outstanding bonds can be sold. This rate varies based on market conditions. If there are insufficient orders to purchase all of the bonds available for sale, the rate is set at a maximum rate required by the bond agreement. The maximum rate for SSMHC's auction rate bonds is the higher of the 175% of the after-tax equivalent rate or the Kenny Index, but no more than 12%.

Variable Rate Bonds — The debt includes \$611,835 and \$615,085 at December 31, 2013 and 2012, respectively, of variable rate demand bonds. The interest rates on these bonds are reset at daily or weekly intervals. The bonds are supported by credit facilities for the full amount of the bonds.

Acquisition of DHS — As of August 31, 2013, SSMHC assumed \$106,921 in long-term debt upon the acquisition of DHS. As collateral for DHS's obligations under the term loan and senior secured notes, which are included in other long-term notes payable at \$1,539 at December 31, 2013, DHS and certain of its subsidiaries have granted a first priority lien on certain bank accounts, accounts receivable, marketable securities, and selected real and personal property currently owned or subsequently acquired. The term loan and senior secured notes provide for certain financial covenants and limit the additional

amounts that can be borrowed. Effective December 31, 2013, DHS was in compliance with its financial covenants.

The debt includes a building construction loan and an equipment loan in the aggregate amount of \$44,199 at December 31, 2013, which SMDV has entered into to finance the construction of an outpatient surgery facility and to purchase related equipment for the facility. The loans contain covenants with respect to certain financial ratios and operating matters. As of December 31, 2013, SMDV was in compliance with its financial covenants, with the exception of the Minimum Fixed Charge Coverage Ratio, as defined. SMDV has requested and received a waiver for this covenant violation from the lender.

During 2012, as part of a new third-party service agreement, DHI entered into a surplus note agreement in the amount of \$6.663. Principal and interest repayments must be approved by the Office of the Commissioner of Insurance (OCI) of the State of Wisconsin. Repayment of the note will not occur until the earlier of OCI approval or 18 months after the service agreement termination date of December 31, 2019. Interest is accrued on the outstanding principal balance at the one-year U.S. Treasury securities rate as set on the first business day of the calendar year. The annual interest rate for the period from September 1, 2013 to December 31, 2013 was 0.15%.

On February 28, 2014, SSMHC entered into a \$150,000 revolving line of credit agreement. This line replaced currently existing lines of credit totaling \$180,000. The total amount of the line of credit is available for the issuance of Letters of Credit. SSMHC pays interest based on LIBOR plus a spread. The line is secured under SSMHC's existing Master Trust Indenture. On March 28, 2014, SSMHC drew on the revolving line of credit in the amount of \$92,971 in order to fund the early pay off of certain term loans and outstanding swaps.

Note Payable to FSI — On July 1, 2007, SSMHC entered into an installment note payable to the Felician Services, Inc. (FSI). Under the terms of the agreement, FSI may elect to convert the note to pay status on or after December 31, 2014. SSMHC will begin making twenty annual payments on the note, with the first one due one year after FSI has notified SSMHC of its election to convert the note to pay status. Under specified circumstances SSMHC can issue a resolution which enables FSI to convert the note to pay status prior to December 31, 2014, with installments to begin two years from notice. The fixed interest rate will be equal to the 20-year municipal market data index plus 0.25 on the first day the note is in pay status.

Until the note is in pay status, the principal is adjusted annually based on a specified consumer price index. The principal of the note was adjusted \$612 and \$698 for the years ended December 31, 2013 and 2012, respectively, from the fair value at July 1, 2007, which is reflected in interest expense.

Liquidity Agreements — The Series 2005C, 2005D, 2010D, and 2010E Variable Rate Demand Bonds require remarketing agents to purchase and remarket any bonds tendered before the stated maturity date. To provide liquidity support for the timely payment of any bonds that are not successfully remarketed, SSMHC has liquidity agreements with five banking corporations. If the bonds are not successfully remarketed, SSMHC is required to pay an interest rate specified in the liquidity agreement. These agreements have terms that expire in 2014 through 2019 or require accelerated principal repayment terms in the event of a failed remarketing.

The 2005C, 2005D, 2010D, and 2010E Variable Rate Demand Bonds are classified between long-term borrowings and short-term borrowings based upon these accelerated terms. The contingent payments below reflect these accelerated terms. However, SSMHC's contractual payments do not reflect these accelerated terms. If any of these agreements are terminated and not replaced, extended, or renewed,

SSMHC can be required to purchase the tendered bonds at the specified bank rate in a short period of time

Contractual and Contingent Principal Repayments — Contractual and contingent principal repayments on long-term debt and capital lease obligations of SSMHC are as follows

	Long-Term Debt		Capital Lease Obligations
	Contractual Payments	Contingent Payments	
2014	\$ 39,645	\$ 45,645	\$ 7,539
2015	116,660	116,660	2,714

Revolving Line of Credit — At December 31, 2013, SSMHC had 4 line of credit agreements with banks. One line is at varying rates of interest through July 15, 2014 and permits SSMHC to borrow up to \$50,000. There was no outstanding balance under this agreement at December 31, 2013. The remaining lines are at varying rates of interest through February 26, 2014. Two of these permit SSMHC to borrow up to \$50,000 while the other permits borrowing up to \$30,000. There were no outstanding borrowings under these agreements at December 31, 2013. At December 31, 2012, SSMHC had outstanding borrowings of \$37,000 under line of credit agreements which expired in 2013.

DHS has a direct-pay letter of credit (LOC) facility to support a commercial paper program whereby DHS is the issuer and obligor. At December 31, 2013, the combined commercial paper annual interest rate and LOC spread in effect was 2.4% and the commitment fee charged on any unused portion of the LOC was 0.50%. The LOC is convertible to a loan and has a total amount available of \$100,000 at December 31, 2013. Both the LOC and combined term loan expire/mature in 2015 with annual renewals thereafter, at the discretion of the commitment issuer. The outstanding balance under this program at December 31, 2013, was \$85,000 which is included in revolving line of credit.

Note Payable — On August 29, 2013, SSMHC entered into a short-term taxable note payable agreement with a financial institution to provide interim financing in the principal amount of \$275,000. On November 15, 2013, SSMHC borrowed an additional \$125,000 under this same note agreement. The note carries a variable interest rate and is due on July 31, 2014.

Fair Value of Long-Term Debt — The valuation of the estimated fair value of long-term debt is completed by a third party service and accepted by management and takes into account a number of factors including, but not limited to, any one or more of the following: general interest rate and market conditions, macroeconomic and/or deal-specific credit fundamentals, valuations of other financial instruments which may be comparable in terms of rating, structure, maturity and/or covenant protection, investor opinions about the respective deal parties, size of the transaction, cash flow projections, which

in turn are based on assumptions about certain parameters that include, but are not limited to, default, recovery, prepayment and reinvestment rates, administrator reports, asset manager estimates, broker quotations and/or trustee reports, and comparable trades, where observable. Based on the inputs in determining the estimated fair value of debt this liability would be considered Level 2. The fair value approximated \$1,397,577 and \$1,341,457 at December 31, 2013 and 2012, respectively, compared to carrying amounts of \$1,388,096 and \$1,320,568, respectively.

Interest Rate Swaps — SSMHC utilizes interest rate swap agreements which effectively change SSMHC's interest exposure on its variable debt to fixed rates. None of these swaps has been designated as hedges of the interest payments on outstanding debt obligations for accounting purposes.

The following table shows the outstanding notional amount of derivative instruments measured at fair value as reported in other liabilities in the consolidated balance sheets as of December 31, 2013 and 2012.

	Recorded on Balance Sheet	Maturity Date of Derivatives	Fixed Rate	Notional Amount Outstanding	Fair Value
December 31, 2013					
Derivatives not designated as hedges — interest rate swaps	Other liabilities	2015–2035	2.90%–5.98%	\$701,774	\$ (88,019)

Fair value is based on significant other observable inputs (Level 2) at December 31, 2013 and 2012. The gain (loss) related to derivative instruments has been recorded for the years ended December 31, 2013 and 2012, as follows:

		Gain (Loss) December 31,	
Recorded as		2013	2012
Settled amounts	Operating interest expense	\$ (21,129)	\$ (19,431)
Unrealized gains	Change in fair value of interest rate swap	<u>61,539</u>	<u>306</u>
Total		<u>\$ 40,410</u>	<u>\$ (19,125)</u>

Cash Paid for Interest — Cash paid for interest totaled \$47,264 and \$37,848 for the years ended December 31, 2013 and 2012, respectively. SSMHC capitalized interest cost in the amounts of \$3,409 and \$6,342 in the years ended December 31, 2013 and 2012, respectively.

13. PENSION

SSMHC administers several qualified and non-qualified pension plans for its employees. As of March 31, 2012, SSMHC made changes to its retirement plans including a change in its final average benefit structure (beginning in 2013) and a lump sum feature for current and future employees (beginning in 2012 and phasing-in over the next several years). The result of the plan changes was a reduction in the plans' liabilities and improvement of the funded status of \$263,987, measured as of March 31, 2012. The reduction in liability was first used to reduce any current unrecognized prior service cost with the remainder recorded as a prior service credit.

On April 1, 2013, the Pension Plan of Audrain Medical Center was acquired along with the other assets and liabilities of Audrain. This acquisition resulted in an increase in benefit obligation of \$23,689 and an increase in the fair value of plan assets of \$11,467.

The following table summarizes the benefit obligations, the fair value of plan assets and the funded status at December 31, 2013 and 2012.

The actual plan asset allocations and the allocation goals comprise the following investment classifications at December 31, 2013 and 2012

	2013	2012	Allocation Goals
Cash, cash equivalents, and short-term investments	2 %	1 %	2 %
Equities	48	48	47

SSMHC's investment objective with respect to pension plans is to produce sufficient current income and capital growth through a portfolio of equity, real estate, hedge fund, and fixed income investments, which together with appropriate employer contributions is sufficient to provide for the pension benefit obligations. The assumed return on plan assets is intended to be a long-term rate expected on funds invested or to be invested in accordance with SSMHC's asset allocation policy to provide for benefits reflected in the plans' projected benefit obligation. In developing the assumptions, SSMHC evaluates input from its actuary and pension fund investment advisors. Pension assets are managed by outside investment managers in accordance with the investment policies and guidelines established by the pension trustees, and are diversified by investment style, asset category, sector, industry, issuer, geographical location, and maturity. Pension assets are rebalanced each quarter to the plan's asset allocation guidelines. SSMHC anticipates that its investment managers will continue to generate long-term returns equal to or in excess of its assumed rates.

It is SSMHC's policy that transfers between levels will occur when revised information regarding the lowest level of significant inputs becomes available. There were no transfers between levels in 2013 or 2012.

Changes related to the fair values based on Level 3 inputs, are summarized as follows:

	2013	2012
Beginning balance	\$ 244,058	\$ 215,838
Actual return on plan assets — realized	18,314	544
Actual return on plan assets — unrealized	1,942	10,901
Purchases, sales, and settlements — net	<u>20,051</u>	<u>16,775</u>
Ending balance	<u>\$ 284,365</u>	<u>\$ 244,058</u>

Unrealized gains on Level 3 investments were \$1,942 and \$10,901 for 2013 and 2012, respectively.

The hedge funds and real estate investments are redeemable at NAV under the original terms of the agreements. However, it is possible that these redemption rights may be restricted or eliminated by the funds in the future in accordance with the underlying fund agreements. Due to the nature of the investments held by the funds, changes in market conditions and the economic environment may significantly impact the net asset value of the funds and, consequently, the fair value of SSMHC's interests in the funds. Although a secondary market exists for these investments, it is not active and individual transactions are typically not observable. When transactions do occur in this limited secondary market, they may occur at discounts to the reported net asset value. It is therefore reasonably possible that if SSMHC were to sell these investments in the secondary market a buyer may require a discount to the reported net asset value, and the discount could be significant. As such, SSMHC has classified these as Level 3 investments. In addition, the unfunded commitments to these funds are \$5,163 and \$7,345 at December 31, 2013 and 2012, respectively. Assets recorded at NAV at December 31, 2013, are as follows:

December 31, 2013			Redemption Frequency (if Currently Eligible)	Redemption Notice Period
	Fair Value	Unfunded Commitments		
Hedge funds (a)	\$ 165,267	\$ -	Quarterly	30–100 days
Real estate investments (b)	<u>119,098</u>	<u>5,163</u>		
Total	<u>\$ 284,365</u>	<u>\$ 5,163</u>		
December 31, 2012			Redemption Frequency (if Currently Eligible)	Redemption Notice Period
	Fair Value	Unfunded Commitments		
Hedge funds (a)	\$ 143,066	\$ -	Quarterly	30–100 days
Real estate investments (b)	<u>100,992</u>	<u>7,345</u>		
Total	<u>\$ 244,058</u>	<u>\$ 7,345</u>		

- (a) This category includes investments in hedge funds that maintain positions both long and short in equity and equity derivative securities. A wide variety of investment processes can be employed to arrive at an investment decision, including both quantitative and fundamental techniques, and the

managers can maintain net long or net short exposure levels based on market views. The strategy designs a diversified portfolio of managers and strategies with the objective of significantly lowering the risk and volatility of investing with an individual manager.

- (b) This category includes investments in real estate funds that invest in the following underperforming and distressed real estate assets at well below potential replacement cost and which create significant value-added upside through extensive repositioning and capital improvements, distressed real estate and real estate-related debt, companies, securities, and other assets, high quality properties in major metropolitan areas, participating mortgages secured by core real estate properties. Investments in real estate are valued based upon independent appraisals using a cost approach, market approach or income approach as well as consideration of other third party evidence.

Defined Contribution Plans — SSMHC also sponsors defined contribution plans covering employees (excluding DHS employees) who participate in the voluntary tax deferred annuity program and who meet age and service requirements. SSMHC's contributions to these plans are based on a percentage of employee compensation or employee contributions. Defined contribution pension expense for these plans was \$11,551 and \$10,684 for 2013 and 2012, respectively, and is included in salaries and benefits.

DHS and its subsidiaries sponsor several defined contribution plans covering substantially all employees of DHS. Total contributions to these plans for the period from September 1, 2013 to December 31, 2013 was \$3,067 which is included in salaries and benefits.

14. SELF-INSURANCE

Professional and General Liability Insurance — A majority of the members of SSMHC (excluding DHS) participate in the SSMHC Liability Trust I or SSMHC Liability Trust II (Trusts). Both Trusts are revocable grantor trusts. These Trusts, which cover primary limits of professional and general liability, require annual contributions by participating entities at actuarially determined amounts. All professional and general liability claims and workers' compensation claims are paid from the Trusts subject to certain liability limitations.

SSMHC's underlying self-insured retention for professional liability claims is as follows:

	January 1, 2012 to December 31, 2013
Per occurrence limits — Missouri, Oklahoma, and Illinois	\$ 5,000
Annual aggregate	None

SSMHC's hospitals and physicians located in Wisconsin are qualified healthcare providers as defined by Wisconsin state statutes regarding professional liability coverage and participate in the State of Wisconsin Injured Patients and Families Compensation Fund (PCF). As defined by Wisconsin state statute, these hospitals and physicians have separate professional liability limits of \$1,000 per claim and \$3,000 annual aggregate applied to each qualified provider. Losses in excess of these amounts are fully covered through mandatory participation in the PCF. SSMHC is commercially insured up to these limits for these hospitals and physicians.

SSMHC's underlying self-insured retention for general liability claims is as follows

	January 1, 2012 to December 31, 2013
Per occurrence limits — Missouri, Oklahoma, Wisconsin and Illinois	\$ 3,000
Annual aggregate	None

SSMHC maintains reinsurance through a wholly owned captive for professional and general liability claims exceeding the underlying self-insured retention. As of December 31, 2013, the reinsurance provides coverage up to the limits in the following table. The sublimits that apply are part of and not in addition to the overall policy aggregate limits.

	All Locations
Each loss event	\$ 135,000
Annual aggregate, per location	135,000
Annual aggregate all locations	160,000

The estimated professional and general liability obligation is recorded in the consolidated financial statements at the present value of future cash payments for both asserted and unasserted claims, using a discount rate of 3.0% at December 31, 2013 and 2012. The liability for self-insured reserves represents estimates of the ultimate net cost of all losses and related expenses, which are incurred but not paid at the balance sheet date based on an actuarial valuation. This estimated obligation is \$67,106 and \$77,520 at December 31, 2013 and 2012, respectively, of which \$18,095 and \$17,754 is recorded in accounts payable and accrued liabilities at December 31, 2013 and 2012, respectively.

The accumulated assets of the Trusts are not available to participating members except to pay covered professional liability claims or to reduce future contributions when warranted by claims experience. In the event the Trusts are ever depleted, the participating members would be required to fund deficiencies based on future actuarial determinations.

DHS retains deductible levels with respect to its professional liability program. For professional liability claims reported on or after July 1, 2004, the per-occurrence deductible level is \$1,000 per defendant, and the annual aggregate deductible level is \$3,000. DHS is contractually obligated to reimburse its insurance carriers for all claims paid under the professional liability policies. The PCF also provides unlimited insurance limits for amounts in excess of the deductibles. At December 31, 2013, DHS recognized a liability of \$9,500, of which \$1,662 is recorded in accounts payable and accrued expenses at December 31, 2013.

Workers' Compensation — A majority of the members of SSMHC participate in SSMHC's centralized self-insured workers' compensation program. Claims in excess of certain liability limitations are covered by commercial insurance. The estimated workers' compensation liability obligation is actuarially determined and recorded in the consolidated financial statements at the present value of future cash payments for both asserted and unasserted claims, using a discount rate of 1.0% at December 31, 2013 and 2012. DHS maintains a fully insured workers' compensation program through commercial insurance.

Employee Health Insurance — A majority of the members of SSMHC participate in the SSM Employee Health Care Plan (the "HC Plan"). Each participating member funds an actuarially determined amount for payment of covered benefits and related expenses, which are subject to certain

limitations. Claims paid by the HC Plan are included in salaries and benefits expense and include claims paid by the HC Plan to SSMHC entities were \$67,617 and \$62,119 for the years ended December 31, 2013 and 2012, respectively. DHS members are fully insured under DHP.

15. ASSET RETIREMENT OBLIGATIONS

SSMHC has recorded conditional asset retirement obligations and capitalized retirement costs related to the estimated cost of removing asbestos from its facilities. Federal and state regulations require the removal of asbestos when a building is demolished or, at a minimum, encapsulation of the asbestos when it would be exposed during renovation. The obligation is included in other liabilities, and the capitalized costs are included in property and equipment. The following summarizes the asset retirement obligations at December 31, 2013 and 2012.

	2013	2012

16. ENDOWMENTS

Endowments consist of approximately 50 individual funds established for a variety of purposes. They include both donor-restricted endowment funds and funds designated by the boards of trustees or governors of its 15 foundations to function as endowments (board-designated endowment funds). Net assets associated with endowment funds, including board-designated funds, are classified and reported based on the existence or absence of donor-imposed restrictions and the nature of the restrictions, if any.

Transfers in (out) include a reclassification of permanently restricted endowment earnings and new endowments acquired through acquisitions

Funds with Deficiencies — From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or current law requires SSMHC to retain as a fund of perpetual duration. In accordance with accounting principles generally accepted in the United States of America, deficiencies of this nature are reported in unrestricted net assets. There were no such deficiencies as of December 31, 2013 and 2012.

Return Objectives and Risk Parameters — SSMHC has investment and spending practices for endowment assets that intend to provide a predictable stream of funding to programs supported by its endowment while seeking to maintain the purchasing power of the endowment assets. Endowment assets include those assets of donor-restricted funds that SSMHC must hold in perpetuity or for a donor-specified period(s) as well as board-designated funds. The policy allows the endowment assets to be invested in a manner that is intended to produce results that exceed the price and yield results of the allocation index while assuming a moderate level of investment risk. SSMHC expects its endowment funds to provide a rate of return that preserves the gift and generates earnings to achieve the endowment purpose.

Strategies Employed for Achieving Objectives — To satisfy its long-term rate-of-return objectives, SSMHC relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and interest and dividend income. SSMHC uses a diversified asset allocation to achieve its long-term return objectives within prudent risk constraints to preserve capital.

Spending Policy and how the Investment Objectives Relate to Spending Policy — SSMHC has a practice of distributing the major portion of current year earnings on the endowment funds, if the restrictions have been met. Some of the donor-restricted endowments require a portion of the earnings to increase the corpus of the endowment. This is consistent with the organization's objective to maintain the purchasing power of the endowment assets held in perpetuity as well as to provide additional real growth through new gifts and investment return.

17. BALANCE SHEET OFFSETTING

SSMHC's interest rate swap agreements allow for net settlements of payment in the normal course as well as offsetting of all contracts with a given counterparty in the event of default or bankruptcy of one of the two parties of the transaction. As of December 31, 2013 and 2012, there was no collateral posted for the interest rate swaps. In addition, SSMHC's security lending agreement allows for the sale of the collateral to settle securities lending activities should a deficit arise.

The net presentation of SSMHC's financial instruments subject to rights of offset are summarized as follows:

Description	Gross Amounts of Recognized Liabilities	Gross Amounts Offset in the Consolidated Balance Sheets	Net Amounts Presented in the Consolidated Balance Sheets	Gross Amounts Not Offset in the Consolidated Balance Sheets	Net Amount
As of December 31, 2013

18. INCOME TAXES

The components of income tax expense for the years ended December 31, 2013 and 2012 are as follows

	2013	2012
Current tax expense		
Federal	\$ 1,692	\$ -
State	<u>(20)</u>	<u>-</u>
	1,672	-
Deferred tax expense — Federal	<u>-</u>	<u>-</u>
	<u>\$ 1,672</u>	<u>\$ -</u>

Deferred income taxes reflect the tax impact of carry forwards and temporary differences between the financial statement carrying amounts and the tax basis of assets and liabilities. Deferred tax assets and liabilities are classified as either current or non-current based on the classification of the related liability or asset for financial reporting. A deferred tax asset or liability that is not related to an asset or liability for financial reporting, including deferred taxes related to carry forwards, is classified according to the expected reversal date of the temporary differences as of the end of the year. The components of deferred taxes are as follows

	2013	2012
Current		
Accrued employee compensation	\$ 10,167	\$ 970
Doubtful accounts	3,940	3,782
Other non-deductible liabilities	4,688	487

Other noncurrent non-deductible liabilities	7,508	145
Unrealized (gains) losses	(3,490)	54
Investment in subsidiaries	(19,100)	(13)
Other	2,004	906
Valuation allowance	<u>(221,895)</u>	<u>(181,673)</u>
Net long-term	<u>-</u>	<u>-</u>
Net deferred income tax assets	<u>\$ -</u>	<u>\$ -</u>
Deferred tax assets	\$ 365,912	\$ 187,084
Deferred tax liabilities	(126,688)	(262)
Less valuation allowance	<u>(239,224)</u>	<u>(186,822)</u>
Net deferred taxes	<u>\$ -</u>	<u>\$ -</u>

As of December 31, 2013 and 2012, the deferred income tax benefits were recorded net of a valuation allowance of \$239,224 and \$186,822 primarily due to net operating loss (NOL) carry forwards available related to its for-profit subsidiaries which expire between 2014 and 2034. A valuation allowance was provided because it is more likely than not that the net operating losses will expire unutilized. During the year ended December 31, 2013, SSMHC increased the valuation allowance by an additional \$26,323 based on 2013 net losses and \$26,079 for tax losses generated due to acquisitions. During the year ended December 31, 2012, SSMHC increased the valuation allowance by an additional \$16,953 based on 2012 net losses.

A reconciliation of expected income tax expense, computed by applying the statutory federal income tax rate (34%) to income before income taxes is as follows:

	2013	2012
Income tax expense at statutory rate	\$ 43,634	\$ 70,134
Reduction in income tax resulting from:		
Tax exempt income	(13,232)	(51,059)
State taxes	(2,407)	(2,122)
Change in valuation allowance on net operating loss	<u>(26,323)</u>	<u>(16,953)</u>
	<u>\$ 1,672</u>	<u>\$ -</u>

SSMHC files income tax returns in the U.S. federal jurisdiction and in various state jurisdictions. SSMHC is no longer subject to U.S. or state income tax examinations by tax authorities for years before 2009. Tax returns for DHS for the years ended 2010 and 2011 are currently under examination by the IRS. The settlement of the tax examination is not expected to have a material impact on the consolidated financial statements.

Cash Paid for Income Taxes — Cash paid for income taxes totaled \$1,603 and \$0 for the periods ended December 31, 2013 and 2012, respectively.

19. NET ASSETS

SSMHC reports the noncontrolling interest in the net assets of consolidated subsidiaries as a separate component of the appropriate class of net assets. The reconciliation of noncontrolling interest reported in unrestricted net assets is as follows:

	Total	SSMHC Unrestricted Net Assets	Noncontrolling Interest
Unrestricted net assets — January 1, 2012	\$ 1,272,214	\$ 1,260,018	\$ 12,196

20. FUNCTIONAL EXPENSES

SSMHC provides general health care services to residents within its geographic locations. Expenses related to providing these services are as follows:

	2013	2012
Health care services	\$3,586,442	\$3,054,404
General and administrative	292,708	205,336
Fundraising	9,809	9,249
Total expenses	<u>\$3,888,959</u>	<u>\$3,268,989</u>

21. COMMITMENTS AND CONTINGENT LIABILITIES

Leases for property and equipment that do not meet the criteria for capitalization are classified as operating leases with related rentals charged to operating expense on a straight-line basis over the term of the lease.

The following is a schedule of future minimum lease payments under operating leases as of December 31, 2013, that have initial or remaining lease terms in excess of one year

2014	\$ 46.249
2015	40.874
2016	33.122
2017	26.071
2018	20.822
Thereafter	<u>38.716</u>
Total minimum lease payments	<u>\$ 205.854</u>

Total rental expense was approximately \$51.208 and \$46.083 in 2013 and 2012, respectively

SSMHC has outstanding letters of credit of \$15.419 and \$12.605 at December 31, 2013 and 2012, respectively. There were no outstanding draws on these letters of credit

At December 31, 2013, SSMHC has entered into construction projects for new facilities and capital improvements to existing facilities. The commitments for these projects totaled approximately \$232.398. As of December 31, 2013, SSMHC has unmet commitments of approximately \$143.322, which will be financed with board-designated assets, project funds or cash generated from operations. Of this amount, \$15.000 will be reimbursed by a third party upon payment.

As part of acquisition agreements in Wisconsin and Missouri, SSMHC has committed an additional \$80.000 for facility improvements to be paid out from 2014 to 2018.

SSMHCC has guaranteed that certain lease payments will be made by some of its equity investments. The amount of future lease payments guaranteed by SSMHCC totaled \$78 and \$109 at December 31, 2013 and 2012, respectively. In addition, SSMHC has entered into certain other income guarantees with outside entities to be paid out from 2014 through 2018 which totaled \$95.250 at December 31, 2013.

Certain of SSMHC's hospitals are part of a nationwide investigation to determine if implantable cardioverter defibrillator (ICD) procedures from 2002 to 2010 complied with Medicare coverage requirements. In August 2012, the Department of Justice (DOJ) released the patient conditions and criteria for the medical necessity of the implantation of ICDs in Medicare beneficiaries and how the DOJ will enforce the repayment obligations of hospitals. As of December 31, 2013, management has established a reserve of \$5.700 to reflect the current estimate of probable liability.

SSMHC is involved in litigation and regulatory investigations arising in the normal course of business. After consultation with legal counsel, it is management's opinion that these matters will be resolved without a material adverse effect on SSMHC's consolidated financial position or consolidated results of operations.

22. SUBSEQUENT EVENTS

For the year ended December 31, 2013, SSMHC has evaluated subsequent events for potential recognition and disclosure through April 9, 2014, the date the financial statements were available for issuance.

SSM HEALTH CARE

NOTES TO CONSOLIDATING ADDITIONAL INFORMATION AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012

1. PRINCIPLES OF INCLUSION

The Credit Group is made up of SSM Health Care Corporation and its wholly owned Designated Affiliates as defined in the Master Trust Indenture, including the activities, assets, and liabilities of wholly owned and partially owned subsidiaries that are consolidated under generally accepted accounting principles. The Credit Group does not include DHS, SSMHC's physician group practices, charitable foundations, and the interests of SSMHC in various other minor subsidiaries and ancillary joint ventures that are referred to herein as Other Entities. In 2013 and 2012, the assets of the Credit Group represented 76% and 93% of the consolidated total, and the total operating revenues represented 78% and 88% of the consolidated total, respectively.

2. PRESENTATION

Entities included in the Credit Group do not reflect their equity interest in Other Entities on their balance sheets, except for beneficial interest in foundations.

3. OBLIGATIONS

Included in Other Entities are certain entities with negative net assets totaling \$58,148 and \$39,472 at December 31, 2013 and 2012, respectively. The Credit Group may be required to provide operating capital to these entities to ensure their solvency.
