In most instances grants are made following the completion of the activity or event that is eligible for a grant. When an application is filed it includes the costs of the activity or event that are eligible for a grant. In a small percentage of grants half the funds are paid before the activity has occurred and the remaining half is paid once the activity is completed and the costs have been submitted. Because of this process, monitoring activities after the issuance of a grant is typically not necessary.

Form 990, Part VI, Line 15b - Compensation Process for Officers

Performance evaluations are conducted annually by the direct manager of the Officer(s)/Key Employee(s) and provided to the CEO for compensation consideration. Compensation is evaluated according to performance and position within a market range. The market range is established from surveys conducted for similar positions within the same industry, company size and non-profit status (when possible comparables exist). The market ranges represent a 50% spread from the minimum to the maximum of the range and are evaluated annually. If the market shows an increase of more than 5%, the increase in the ranges are capped at two times the annual salary budgeted increase. If the market shows less than a 5% increase or a market decrease, the ranges remain the same for the upcoming year. In addition to base compensation, these positions are also eligible for incentive compensation, paid according to the employee's performance and the financial health of the organization.
