In 2012 there has been a 13% decrease in sales. Compared to the decrease in sales of other specialty plates, however, the Stop Heart Disease specialty license plate has had the LOWEST rate of decrease of all other specialty plates. We believe this stronghold is due to three key reasons: people are strong supporters of the cause, people love the design, and we consistently devote time into marketing the plate.

In spite of this lag in sales, we are well over the state's minimum requirement of 1,000 sold in one year.

Most of the highly populated counties continue to lead in license plate sales largely due to our marketing efforts (plates sold per county/per month):

1. Miami-Dade County
2. Broward County
3. Palm Beach County
4. Hillsborough
5. Pinellas

FHRI works closely with the county tax collectors offices across the state in promotion and marketing of the license plate. They recognize the value and importance of the Stop Heart Disease license plate and the Florida Heart Research Institute's mission and have been very supportive of both our cause and our marketing efforts.

Where the Money Goes: License plate revenue is expended on a fiscal year basis from July 1 to June 30. Therefore, from July 1, 2012 to December 31, 2012, the Stop Heart Disease specialty license plate funded the following Research, Education and Prevention programs:

Amount	Area	Project Description
Research	60,000.00	Adams cell model study in mice

The following is a summary of some of our 2012 license plate marketing efforts and achievements:

- ♥ **Gubernatorial Proclamation** – Governor Crist proclaimed the week of February 6 – 13, 2013 to be **Stop Heart Disease Week** in order for us to wage a public awareness campaign. Several publications printed the announcement of the proclamation; which highly publicized Florida Heart Research Institute and the work we continue to do.
- ♥ **Corporate Outreach Program** – Through our Corporate Screening and Education Program, we are able to promote the license plate to corporations and organizations throughout South Florida.
- ♥ **Stop Heart Disease Researcher of the Year Award** - This was the seventh award given for cardiovascular research at the annual conference of the Florida Chapter of the American College of Cardiology. This year, the \$25,000 award was given to Dr. Lina Shehadeh, from the University of Miami. She has been awarded this prestigious award for her innovative work on the molecular biology of atherosclerosis
- ♥ **Screening Outreach** – We continue to travel throughout the state to screen Florida residents and simultaneously promote the license plate. Of special interest was the Annual Tax Collector's Conference held in Orlando this year that was attended by over 500 tax collectors and their top managers. Since most motorists purchase their license plates from their local tax collector, this is an extremely important marketing effort because they see firsthand what we do for the general public. In addition, each February we are selected by both Hillsborough and Pinellas County Tax Collectors to do a month long campaign highlighting the Stop Heart Disease License Plate. We provide them with posters, buttons, etc to bring awareness to their patrons so that they can recognize and purchase the plate. In addition, we are also able to provide them with our Educational Awareness Brochures so that they can provide them to their patrons. We also offer a free cardiovascular screening out of their offices during the month of February.
- ♥ **Heart Smart Tag Art Award** – FHRI has partnered with Polk County through the tax collector's office to participate in their Kids Tag Art program. We created the "Heart Smart Tag Art Award" to encourage youth to be mindful of being heart smart by creating a creative Kids Tag Art design. This year three 5th graders were

recognized and honored for their creative "Heart Smart Tag Art" in Polk County at the Polk County Tax collector's office

- ♥ **County Promotion-** Several counties across the state collaborated with FHRI in the month of February to promote the Stop Heart Disease license plate as well as bring awareness to this cause.
- ♥ **Insert Renewal program-** this past year we were given permission by approximately 18 counties to include our "PUSHCPR" educational insert that accompanied license plate renewal forms sent to the February birthday renewals. This year we sent close to 400,000 inserts statewide. This year we increased inserts by 100,000 from last year and had 4 additional counties agree to allow the educational inserts compared to 2011. The insert allowed us to provide valuable educational information about the sudden cardiac arrest and learning of PUSHCPR.

REQUEST FOR CANDIDATES – Stop Heart Disease Researcher of the Year Award

My Dear Colleague:

In order to promote and support excellence in cardiovascular research in the State of Florida, the Florida Heart Research Institute (FHRI) announces the eleventh annual **Stop Heart Disease Researcher of the Year Award**. This prestigious \$25,000 award is given annually to the Florida researcher who is felt to have the broadest impact on the advancement of knowledge in the diagnosis and/or treatment of cardiovascular disease.

Will you be Florida's next Stop Heart Disease Researcher of the Year?

Last year, the Florida Heart Research Institute presented its tenth annual award to **Dr. Lina Shehadeh from the University of Miami Miller School of Medicine**. Dr. Shehadeh was given this prestigious award for her innovative work on the molecular biology of atherosclerosis. She currently serves as an integral part of the interdisciplinary Stem Cell Institute where she has made some very compelling discoveries regarding vascular smooth muscle cellular plasticity, atherosclerosis and the use of aptamirs for the delivery of microRNA's.

The Florida Heart Research Institute will be assigning the next award in close collaboration with the Florida Chapter of the American College of Cardiology. **The actual award presentation will be made at the annual meeting at Disney's Contemporary Hotel on Saturday, August 17, 2013.** For more information on the meeting or to register online, please visit www.accfl.org.

In order to qualify for the award, the researcher must:

- ♥ Be active in the arena of clinical and/or basic cardiovascular research
- ♥ Have reported the results of his work in the peer review arena of scientific meetings and/or publications
- ♥ Be recommended for the award by a colleague(s)
- ♥ Be a resident of and conduct research in the State of Florida
- ♥ Be available and willing to accept the award at the annual meeting of the FCACC (expenses for attending the dinner is not included in the award)

EMBARGOED: FOR RELEASE

Florida State University Researcher Wins Prestigious Cardiology Research Award

Kissimmee, Florida, August 17, 2013—The Florida Heart Research Institute has named Dr. Jose Pinto its eleventh **"Stop Heart Disease Researcher of the Year"** at the annual meeting of the Florida Chapter of the American College of Cardiology (FCACC) at Disney's Contemporary Hotel in Kissimmee, Florida on Saturday evening. "The future in cardiovascular medicine relies on the highest quality of innovative scientific research," said Kathleen DuCasse, Chief Executive Officer of the Florida Heart Research Institute, in presenting the award.

After receiving his doctorate from the Federal University of Rio de Janeiro, Dr. Pinto applied his knowledge of muscular biochemistry to a fascinating project during his post-doctoral years with the Department of Molecular and Cellular Pharmacology at the University of Miami. Focusing on two genetically-determined but somewhat opposite manifestations of heart disease—hypertrophic cardiomyopathy and dilated cardiomyopathy, Dr. Pinto arrived at a unifying concept of muscle function related to calcium sensitivity that is broadly applicable both to cardiac disease and potentially to muscular dystrophies as well. As Assistant Professor of Biomedical Sciences at the recently created Florida State University College of Medicine, Dr. Pinto is applying his prodigious talents and expertise in muscle biochemistry to numerous projects further exploring the mechanisms of this muscular function. Heart failure currently afflicts 6 million Americans and is the leading cause of heart death. Dr. Pinto is emerging as a leader in our scientific understanding of the underlying mechanism of disease, and new potential avenues for its cure.

Tori Gabriel, MBA-HA, FHRI's Director of Education & Prevention, hailed Dr. Pinto for his innovative approach to the study of heart muscle biochemistry when presenting the award. "Dr. Pinto is paving the way to novel approaches to our understanding and treatment of heart muscle dysfunction, a major component of congestive heart failure."

This prestigious award is granted to the individual within the State of Florida whose research is felt to have had the broadest impact on the advancement of knowledge in the diagnosis and/or treatment of cardiovascular disease. To be considered for the award, the researcher must be nominated by a colleague, conduct research within and be a resident of Florida, be active in the arena of clinical and/or basic science, and have reported the results of his or her work in the peer review arena of scientific meetings and/or publications. For his achievements in cardiovascular research, Dr. Pinto received \$25,000 from the Florida Heart Research Institute to be applied toward future cardiac research in Florida.

The award is given in conjunction with the Florida Heart Research Foundation, a subsidiary of FHRI, to promote Florida's **Stop Heart Disease** license plate that is now available to Florida residents. Proceeds from the sale of the specialty license plate are used for heart disease

research, education and prevention programs throughout the state. Since its inception in 2002, the license plate has funded this prestigious award to recognize and encourage leading edge cardiovascular research within the state of Florida. It has also funded life saving screenings for Floridians throughout the state.

Heart disease is the number one cause of death and disability in the U.S. In Florida, there will be more than 50,000 deaths per year from cardiovascular disease, and hospitalization costs to care for Floridians with this disease will top \$18.6 billion per year.

FHRI was founded more than 65 years ago as Miami Heart Research Institute, an international leader with a mission to **Stop Heart Disease** through cardiovascular research, education, and prevention. For more information, go to www.stopheartdisease.org and www.floridaheart.org.
