Most brokers issue their own substitute statement instead of using Form 1099-B. They also may provide basis information (usually your cost) to you on the statement even if it is not reported to the IRS. Before you check Box D, E, or F below, determine whether you received any statement(s) and, if so, the transactions for which basis was reported to the IRS. Brokers are required to report basis to the IRS for most stock you bought in 2011 or later.

Part II Long-Term. Transactions involving capital assets you held more than one year are long term. For short-term transactions, see page 1.

Note. You may aggregate all long-term transactions reported on Form(s) 1099-B showing basis was reported to the IRS and for which no adjustments or codes are required. Enter the total directly on Schedule D, line 8a; you are not required to report these transactions on Form 8949 (see instructions).

You must check Box D, E, or F below. Check only one box. If more than one box applies for your long-term transactions, complete a separate Form 8949, page 2, for each applicable box. If you have more long-term transactions than will fit on this page for one or more of the boxes, complete as many forms with the same box checked as you need.

- ☐ (D) Long-term transactions reported on Form(s) 1099-B showing basis was reported to the IRS (see **Note** above)
- ☐ (E) Long-term transactions reported on Form(s) 1099-B showing basis was **not** reported to the IRS
- ☒ (F) Long-term transactions not reported to you on Form 1099-B

Important information regarding Auction Rate Securities (ARS) ARS are debt or preferred securities with an interest or dividend rate reset periodically in an auction. Although there may be daily, weekly and monthly resets, there is no guarantee that there will be liquidity. If there are not enough bids at an auction to redeem the securities available for sale, the result may be a failed auction. In the event of a failed auction, there is no assurance that a secondary market will develop or that the security will trade at par or any other price reflected on statements and online. Accordingly, investors should not rely on pricing information appearing in their statements or online with respect to ARS. When J.P. Morgan is unable to obtain a price from an internal or outside source for a particular ARS, the price column on your statement will indicate "unpriced".

Valuations of over-the-counter derivative transactions, including certain derivatives-related deposit products, have been prepared on a mid-market basis. These valuations are sourced from the various issuers of the securities or they are sourced from a third party valuation provider. J.P. Morgan expressly disclaims any responsibility for (1) the accuracy of the models or estimates used in deriving the valuations, (2) any errors or omissions in computing or disseminating the valuations, and (3) any uses to which the valuations are put. Valuations are provided for information purposes only and are intended solely for your own use. Please refer to the trade confirmation for details of each transaction.

Certain assets, including but not limited to, pooled and private investments, non-publicly traded and infrequently traded securities, derivatives, partnership interests and tangible assets are generally illiquid, the value of such asset may have been provided to us by third parties who may or may not be independent of the issuer or manager. Such information is reflected as of the last date provided to us, and is not independently verified.

In cases where we are unable to obtain a current market value from an internal or outside source for a particular security, the price column on your statement will indicate "unpriced". Although such securities may have value, please note that the value of a security indicated as "unpriced" will not be included in your overall current market value as reflected on the statement.

J.P. Morgan makes no representation, warranty or guarantee, express or implied, that any quoted value represents the actual terms at which securities could be bought or sold or new transactions could be entered into, or the actual terms on which existing transactions or securities could be liquidated. Such values may only be indicative.

When we are unable to obtain a current value from an internal or outside source for a particular security, the price column on your statement will indicate "unpriced".

If a partial call is made with respect to an issue of securities included in your Accounts we will allocate the call by a method we deem fair and equitable.

To the extent applicable, please note the following regarding estimated annual income (EAI) and estimated yield (EY). EAI and EY for certain types of securities could include a return of principal or capital gains in which case the EAI and EY would be overstated. EAI and EY are estimates and the actual income and yield might be lower or higher than the estimated amounts. EY reflects only the income generated by an investment. It does not reflect changes in its price, which may fluctuate.

Hedge funds generally calculate the price (the "Net Asset Value" or "NAV"), 10-15 business days following the last business day of the month. For that reason, hedge fund NAVs shown will generally be the NAV of the month preceding this statement period. In general, the NAV is stated net of management and incentive fees. The NAV is calculated according to the General Partner's or Manager's stated methodology. For redemptions, there is generally a notification period that can be a long interval before the actual redemption date. Redemption proceeds are generally paid 15 calendar days after the final NAV is issued, but can be subject to a holdback of a portion of the proceeds until an annual audit of the Fund has been completed. Please refer to the applicable hedge fund's operative documentation for further details or for your Investment Management or Trust account contact your J.P. Morgan team.
