### Realized gains and losses

Estimated 2013 gains and losses for transactions with trade dates through 12/31/13 have been incorporated into this statement. Please note that gain or loss recognized on the sale or redemption of certain Structured Products, like Contingent Debt Securities, may be ordinary, and not capital, gain or loss. Rease check with your tax advisor. To calculate gains and losses, we liquidate the defest security lot first. This is known as the first-in, first-out or FFO accounting method. We use this method unless you specified which tax lot to close when you packed your order. This is known as a versus purchases or VSP order.

See Important information about your statement on the last page of this statement for more information. We may not adjust gains and losses for all capital changes. Cost basis for coupon tax-exempt municipal secunites, include securities subject to AMT, has been adjusted for mandatory amortization of bond piremium. Estimates in the Unclassified section can not be classified as short term or long term because information is missing or the product is one in which the gandloss calculation is not provided.
