Part III Statement of Program Service Accomplishments

Check if Schedule O contains a response or note to any line in this Part II.

1 Briefly describe the organization's mission

Healing all people with compassion, faith, and excellence

2 Did the organization undertake any significant program services during the year which were not listed on the prior Form 990 or 990-EZ?

Yes No

If "Yes," describe these new services on Schedule C

3 Did the organization cease conducting, or make significant changes in how it conducts, any programs or services?

Yes No

If "Yes," describe these changes on Schedule C

4 Describe the organization's program service accomplishments for each of its three largest program services, as measured by expenses. Section 501(c)(3) and 501(c)(4) organizations are required to report the amount of grants and allocations to others, the total expenses, and revenue, if any, for each program service reported.

4a (Code) (Expenses \$ 290,654,741 including grants of \$ 443,558) (Revenue \$ 385,718,457

In 2013, Roper Hospital contributed \$22,618,000 million in community benefit. These benefits included charity care, unreimbursed Medicaid, and numerous sponsorships and community outreach programs (see Schedule H for additional details). Moments of giving back can be found throughout our organization. Whether it's a financial counselor working with a patient to help them pay for services or teams across the hospital gathering to raise awareness and dollars, each team member works to demonstrate Roper Hospital's mission of healing all people with faith, compassion and excellence. Highlights of Roper Hospital's busy year include 37,400 volunteer staff hours for activities such as health fairs, career days and public programs that benefited nearly 80,000 individuals in the community, hosting the Students Can Really Use Bedside Skills (SCRUBS) program, which gives students an opportunity to learn about health careers from experts in the field, the American Heart Association Heart walk to raise awareness of the prevalence of heart disease and stroke in the Lowcountry, Families for a Healthy Heart, the American Lung Association, American Red Cross blood drives and Achieving Wheelchair Equality, an Bridge Run-sponsored team, among others. The new Clinical Biotechnology Research Institute is also heavily involved in Alzheimer's research by supporting a team that works closely with the Lowcountry Alzheimer's Association. In addition to Roper Hospital's commitment to bettering and supporting the health of the community, the organization also supported many charitable organizations that work to fulfill additional needs. That list includes Crisis Ministries, which provides food, hope and shelter to the homeless, Respite Care Ministries, which offers day programs with people suffering from memory loss, and a partnership with the Gibbes Museum of Art on a program entitled "Art of Healing", which takes the holistic approach that borrowed artwork can help individuals heal along with medical treatment. This volunteer work and community partnerships really bring the Roper Hospital continuum of care into a higher realm of service. With these programs and enthusiasm for creating solid medical change in our community, the hospital has been quite successful as seen by the numerous awards and recognition it has received in the past several years. Examples of these prestigious recognitions earned accolades from Healthgrades.com, the leading source of medical information for consumers, Becker's Hospital Review, U.S. News and World Report, a BlueCross/Blue Shield Blue Distinction and Medicare Distinction - to name a few.

Return Reference	Explanation
Part X, Line 2	Roper Hospital is a not-for-profit organization as described in Section 501(c)(3) of the Internal Revenue Code and is generally exempt from federal and state income taxes. The Lowcountry Surgery Center is a limited liability company. Under current laws, income or loss of limited liability companies is included in the income tax returns of the members. Accordingly, no provision for income taxes is made in the consolidated financial statements. Although [the consolidated group] is generally exempt from federal and state income taxes, it evaluates whether there are any uncertain tax positions that fail to meet the more-likely-than-not threshold for recognition in the consolidated financial statements. Uncertain tax positions may include the characterization of income, such as a characterization of income as passive, a decision to exclude reporting taxable income in a tax return, or a decision to classify a transaction, entity, or other position in a tax return as tax exempt. The tax return benefit from an uncertain tax position is recognized when it is more likely than not that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, based on the technical merits. The organization has no unrecognized tax positions as of December 31, 2013 and 2012, and does not expect that unrecognized tax benefits will materially increase within the next 12 months. Tax years 2010 through 2012 are subject to examination by the federal and state taxing authorities, respectively. There are no income tax examinations currently in process. Interest and penalties related to uncertain tax positions, if any, would be recognized in the consolidated financial statements as income tax expense.

Form and Line Reference	Explanation
Part I, Line 3c	In addition to using the federal poverty guidelines to determine free and discounted care (see Part I, Lines 3a and 3b), the hospital system offers a 35% discount for patients who are uninsured. A 10% prompt payment discount is offered to all self-pay or self-pay-after-insurance patients who pay the balance at one time. Medical indigency adjustments are available to those that meet the established guidelines. The hospital will provide free care for patients with a signed charity care application who have income between 0 - 299% of FPG. If a signed charity care application is not obtained, after 120 days of collection efforts, the hospital will use the Health Care Advisory Board's self pay compass program to automatically qualify patients for charity care through the use of an electronic scoring technique. The hospital will provide free care for patients who have income of 350% and below of FPG as determined by the self pay compass program. The hospital will provide a 90% discount for patients with a signed charity care application who have income between 300 - 399% of FPG. If a signed charity care application is not obtained, the hospital will not provide discounted care.
Part I, Line 6a	The organization's community benefit report is made available through its corporate parent, CareAlliance Health Services d/b/a Roper St. Francis Healthcare

Part III, Line 3	For patients who do not turn in a signed charity care application, after 120 days of collection efforts, RSFH uses the Health Care Advisory Board's self pay compass program to automatically qualify patients for charity care through the use of an electronic scoring technique. The data received through this software is believed to err on the side of denying charity. The estimate of bad debt that could have been charity is based on the system error rate. Please note that patients who complete a full charity care application and qualify for charity under our policy are granted charity regardless of the score in the self-pay compass system.
Part III, Line 4	Bad debts reported on Part III, Line 2 are reported at gross charges per the organization's audited financial statements. Please refer to the second footnote of the organization's audited financial statements for a description of receivables and bad debts.

Part III, Line 8	<p>The entire amount of Medicare shortfall qualifies as community benefit. Our treatment of Medicare patients, as described in IRS Rev. Rul. 69-545, indicates that Roper Hospital operates to promote the health of the community. By taking Medicare patients, the hospital promotes access to healthcare services, which is a community benefit. The organization uses the Medicare cost report to determine the costs reported on Part III, Line 5 and 6. Had we included revenues and costs from all Medicare programs including Medicare Part C this would have resulted in an additional shortfall of \$7,639,462.</p>
Part III, Line 9b	<p>The hospital uses the Health Care Advisory Board's self pay compass program to identify a patient's propensity to pay. Accounts with an FPL of 350% and below will be identified once the self pay AR billing process has been completed and prior to the account being referred to a collection agency. Accounts with FPL of 350% and below will be given a charity adjustment. Once an account has been referred to bad debt, the organization will make every effort to ensure that all self-pay collectors demonstrate consistent, compassionate, and professional service while conducting business on behalf of the health system. This will include, but is not limited to, guarantor notification and contact/collection attempts, discount opportunities, payment plan arrangements, account balance notifications, face to face meetings, and detailed bill generation. An outsourced self-pay billing agency will contact the guarantor to set up payment arrangements. Financial assistance discounts are offered to guarantors who meet the charity guidelines. Self pay patients receive a 35% discount off total charges. They are also eligible for a 10% prompt payment discount if they pay the balance during the discussion. Discounts may be combined if all requirements are met. In pursuit of collections, the hospital and its agents will not attach liens on property, garnish wages, pursue legal actions (unless recommended by the self pay billing entities), sell accounts, or send bankrupt guarantors to collection agencies.</p>

Part VI, Line 2	<p>Roper St Francis Healthcare identified community health needs by undergoing an assessment process in 2013 that complies with IRS Section 501(r). The Needs Assessment is posted on our website http://www.rsfh.com/About_Us/Mission_and_Community_Activities/Needs_Assessment.aspx and we invite the community to review and respond to this document so that our collaborative efforts can make living in our community more enjoyable and healthier. As allowed by IRS guidelines, Roper St Francis Healthcare decided to produce a joint CHNA report in collaboration with its three Charleston area hospitals as those facilities define their communities to be the same. Each hospital files a Schedule H and has a customized implementation plan attached. The community needs assessment process consists of 5 steps: data assessment, community input, prioritization and implementation strategy, reporting, and monitoring. In the data assessment step, service areas were defined, external data research was completed and key findings were summarized. Interviews were conducted with persons with special knowledge of public health, hospital personnel, local organizations, and community outreach advocates. Our service area for this assessment is defined as the Tri-County area of Charleston, Berkeley, and Dorchester Counties. We used the following sources in the data assessment process: Nielson Claritas, 2012 County Health Rankings, Health Indicators Warehouse, The Advisory Board Company, Kids Count Data Center, Truven Health Analytics, and the USDA. Data from these sources was used to identify at-risk populations, underserved populations, health need areas, and professional shortage areas. See the answer to Schedule H, Part VI, question 4 for a description of the community served. Subsequent to the data assessment step, the Community Needs Assessment Team entered into dialogue with key hospital administrators, physicians, those with knowledge/expertise in public health, and those serving underserved and chronic disease populations. During the community input phase, the team conducted face-to-face interviews, phone interviews, and surveys in which respondents were able to comment and discuss general community health issues of their specific service area. Through these numerous interviews and surveys, a summary of community input was created. This summary would eventually be used to help focus in on priorities and ultimately, implementation strategies. Respondents who participated in this phase included experts in the field of public health, hospital administration members, community outreach groups, and other local organizations. Respondents included Dana Millet, Director of DHEC Lowcountry Region, Joseph Chambers, MD, Public Health expert and consultant, Thaddeus Bell, MD, with Closing the Gap in Healthcare. Other respondents were from focus groups in the Charleston Promise Neighborhood (North Charleston), East Cooper Community Outreach (Mt Pleasant), Neighborhood House (Charleston), and Our Lady of Mercy Outreach Center (Johns Island). Collection and analysis of results from the CHNA data assessment, survey, interviews, and focus groups provided a strong foundation for identifying health needs and service gaps. In June 2013, Roper St Francis Healthcare held multiple sessions with leading stakeholders to assess initial findings and establish priorities. These various constituents included representatives from the Medical University of South Carolina's strategic planning team, leadership of Trident United Way's Health Council and 2-1-1 program, experts from Joseph P. Riley Jr. Center for Livable Communities at the College of Charleston, and public health consultants. Twelve priority areas of need emerged for the Tri-County service area. As part of the prioritization process, Roper St Francis Healthcare conducted an inventory of existing system-based outreach programs, community partnerships, and other collaborative resources that currently address each of the priority areas: 1) Access to Services for Uninsured and Underinsured: Access Health Tri-County Network, RSF Financial Assistance Policy and Patient Financial Services staff to assist, partnerships with Free Clinics such as Barrier Island Free Medical Clinic, Our Lady of Mercy Outreach and Crisis Ministries, new RSF Mt Pleasant Hospital and Physician Partners network development; 2) Obesity, Nutrition, and Activity: RSF Bariatric & Metabolic Services, Diabetes Treatment Center, Cardiac Rehabilitation Centers and related programs, Lowcountry Senior Center programs, Families for Healthy Heart program, Employee "Wellness Works" program with coaching available, partnering with community groups such as City of Charleston's "Lighten Up Charleston" and "Closing the Gap in Healthcare", farmers markets at hospitals; 3) Mental Health: "Highway to Hope" program with mobile van/partnership with mental health departments, Behavioral Health Unit, case management/assessment through Emergency Departments; 4) Alcohol and Drug Abuse: Community investment support for community programs, addressed through Behavioral Health Unit and Physician Partners practices; 5) Breast Center/Mammography: Breast Cancer Center at Roper Hospital, RSF Cancer Center, "Ladies Night Out" community outreach programs; 6) Maternal and Child Healthcare/Infant Mortality: Prenatal Care programs throughout system, special focus on prenatal care and treatment through RSF Mt Pleasant and Bon Secours St Francis hospitals specifically, with outreach to rural communities, support and partnership with Our Lady of Mercy Outreach, Franklin C. Fetter Clinic and others; 7) Prevention/Wellness/Outreach: Employee "Wellness Works" program with coaching available, Families for Healthy Heart program, Community Screenings and health fairs, partnerships and support for community wellness and prevention programs; 8) High Prevalence of Chronic Disease: Heart and Vascular treatments and programs, development of Palliative Care program, Cancer Center outreach and support programs; 9) Lack of Transportation: ITN (Independent Transportation Network), volunteers giving rides for medical appointments, support for CARTA public transportation and use of taxis throughout system when needed, development of Physician Partners network for closer proximity of population areas; 10) Low Healthcare Literacy and Distrust Among Those with Limited Access: Health Literacy training through Professional Development, Case Management and Nursing focus on discharge planning and instructions, "Closing the Gap in Healthcare" public education programs; 11) Coordination of Care Across Settings: "Transitions of Care" process throughout RSF, new grant through Duke Endowment for this, Case Management model for Access Health Tri-County Network, RSF Home Health, Palliative Care program and new Hospice program; 12) Cultural Awareness and Effective Programs: Professional Development programs for cultural competencies, development of Diversity program and educational efforts, support for "Closing the Gap in Healthcare" program, Mandatory online program for employees. After examining the range of services currently available, the expertise, outreach, and capacity of the RSFH system, and the resources available to best address needs through other community organizations, Roper St Francis Healthcare senior leadership chose the following 6 issues as priorities to implement for its current CHNA: Access to Services and Coverage for the Uninsured and Underserved, Mental Health, Maternal and Child Health, Prevention/Wellness/Outreach, High Prevalence of Chronic Disease, and Coordination of Care Across Settings. For the needs identified through the CHNA that did not emerge as strategic priority areas of need (Obesity, Nutrition and Activity, Alcohol and Drug Abuse, Breast Cancer/Mammography, Lack of Transportation, Low Healthcare Literacy and Distrust Among Those with Limited Access, Cultural Awareness and Effective Programs), Roper St Francis Healthcare will continue to provide the support and services as listed in the inventory of community outreach and services to address these issues. The Roper St Francis Community Needs Assessment Team developed implementation strategies for each health issue identified as a strategic priority. This implementation plan (attached) will be rolled out over the next 3 years. Strategies are clearly defined with a matrix of which areas each RSFH hospital will address. Some strategies may be addressed by more than one RSFH hospital or the system as a whole. The team will develop a monitoring method to provide status and results of these efforts to improve community health. RSFH is committed to conducting another health needs assessment in three years. The Community Health Needs Assessment for fiscal December 31, 2013 was approved by the Board of Directors at its meeting held on October 12, 2013.</p>
Part VI, Line 3	<p>The Hospital shall send anyone who requests information on the hospital's financial assistance program a letter outlining required information and a financial assistance application form. Requests for financial assistance may be proposed by sources other than the patient, such as the patient's physician, family members, social service organizations, community or religious groups, or hospital personnel. Statements to patients from the Hospital outline our charity care policy and our charity care policy is posted on our website. If patients indicate they are not able to pay their bill, we will provide the patient with a charity care application. Patients can also meet with a member of our financial counseling department to learn about their financial assistance options. Brochures are printed in English and Spanish telling patients to contact the financial counseling department. The Hospital wants its patients' focus to be on health and recovery and not financial worry. There is absolutely no additional cost for our financial counseling assistance. Additionally, patients can meet with staff of the Medicaid program. The program staff will meet with patients individually to help them apply for publicly supported programs such as Medicaid, Medicare, and disability. Counselors meet with patients in the hospital as well as making home visits as appropriate. The staff can also help identify resources to help pay for medication. All of this information is posted on our website with the appropriate contact information.</p>

Part VI, Line 4	<p>The System's primary service area consists of Charleston, Berkeley, and Dorchester counties, and includes the major municipalities of Charleston, North Charleston, Mount Pleasant, and Summerville. Approximately 703,000 residents live within the primary service area, based on Nielsen Claritas estimates for 2013. Population in the primary service area is projected to grow 8.1% between 2013 and 2018 based on Nielsen Claritas projections. In 2013, 14% of households within the primary service area had income less than \$15K, 12% had income between \$15K and \$25K, 26% had income between \$25K and \$50K, 18% between \$50K and \$75K, 12% between \$75K and \$100K, and 18% above \$100K compared to the national rates of 14%, 12%, 25%, 18%, 12%, and 19%, respectively. Within the primary service area, poverty continues to be an issue. According to the US Census Bureau's 2010 Small Area Health Insurance Estimates (SAHIE), an estimated 108,943 Tri-county residents lack health insurance. There is a vast overrepresentation of the uninsured living at or below the Federal Poverty Level. The US Department of Health and Human Services designated 6 medically underserved areas and 1 medically underserved population within our primary service area. From April 2012 to April 2013, the unemployment rate in the primary service area decreased from 7.1% to 5.9%. This is a lower unemployment rate than the national average, which was 7.7% in April 2012 declining to 7.1% in April 2013. The secondary service area includes Colleton, Orangeburg, Georgetown, Hampton, Beaufort, Williamsburg, and Horry counties. In addition to the system's facilities, there are three other non-military hospitals in the primary service area.</p>
Part VI, Line 5	<p>In keeping with our mission of healing all people with compassion, faith, and excellence, Roper St. Francis Healthcare strives to enrich the health of our community. We do this by offering charity care to those in need, reaching out to our neighbors with health fairs and educational materials, sponsoring organizations and events that promote wellness and community well-being, and marshalling our resources to advance the health and dignity of each person with whom we come in contact. We are the lowcountry's only non-governmental, not for profit healthcare system. With this distinction, we believe it is our responsibility to advocate for and respond to our neighbors' needs through community benefit. Surplus funds are returned to our community through the development of new facilities to serve population growth, the expansion of existing facilities, subsidizing care for those who are unable to pay, sponsorship of healthcare related activities including outreach clinics and programs for the uninsured, and investing in technology to improve the quality of patient care. The organization is committed to the enrichment of healthcare in our community as evidenced by the composition of our Board of Directors and Open Medical Staff. Our governing body is comprised of a 13-member Board of Directors. At least nine directors must have their primary residence in a community served by the system. Five directors must be physicians actively engaged in the full time practice of medicine. The hospital extends medical staff privileges to all qualified physicians in the area for most of our departments.</p>

Part I, Line 4b	The Vice Presidents, CFO, and CEO participate in the 457(f) Plan. The vesting period changed from 3 to 5 years in 2013, so not all Vice Presidents received payouts in 2013. The following participants received compensation through a 457(f) Plan: Steven Shapiro - 138,861 (from a related organization) Howard Harrison - 14,400 (from a related organization) Bret Johnson - 77,448 (from a related organization) David Dunlap - 65,893 (from a related organization)
Part I, Line 6	Goals are developed each year to support the organization's strategic initiatives for people, quality, financial, growth and service. The Ad Hoc Compensation Committee approves the system goals annually and reports to the full Board of Directors. Progress on each metric is reported to the board each month on the corporate scorecard. At year end, the Ad Hoc Compensation Committee approves the final scorecard number and reports results to the full board. Annual incentives for the executives are based on 60% on the corporate scorecard and 40% on individual performance. Executives maintain an individual scorecard on the leader evaluation manager and discuss results monthly with the President/CEO. The President/CEO approves the individual executive scorecard. System Vice Presidents and the system CEO are eligible to participate in a long term incentive plan (LTIP). An LTIP typically takes place over a three year period and does not vest until the end of the third year. To receive payment, executives must still be employed by the system at the end of the plan period. Each LTIP has a financial and clinical objective that is aligned with the organization's strategic goals. Threshold, target, and maximum performance ranges are established for these objectives and are measured based on performance against similar organizations or compared to an internal metric such as an improvement over prior performance. These targets and objectives are approved by the Ad Hoc Compensation Committee. The incentive is earned based on the satisfaction of the threshold, target, or maximum performance ranges. The Ad Hoc Compensation Committee also approves the final LTIP performance score and the amount paid to executives under the plan. Results are reported to the full board annually.
Part I, Line 7	See the response to Line 6 above
Part II, Line 1 Compensation from unrelated organizations	Carolinas Healthcare System provides the compensation of David L. Dunlap, CEO, CareAlliance Health Services, Bret D. Johnson, CFO, CareAlliance Health Services, and John Sullivan, CEO, Roper St. Francis Mt. Pleasant Hospital. Mr. Dunlap and Mr. Johnson are employees of Carolinas Healthcare System and their compensation is paid by CareAlliance Health Services, a related organization, through a management fee to Carolinas Healthcare System. Mr. Sullivan is also an employee of Carolinas Healthcare System, and his compensation is paid by Roper St. Francis Mt. Pleasant hospital, a related organization, through a management fee to Carolinas Healthcare System. Additional information: CareAlliance Health Services has board representations from the 3 founding organizations: The Medical Society of SC (6 board members), Bon-Secours Health System, Inc (6 board members), and Carolinas Healthcare System (1 board member). None of the 13 appointed board members receive compensation for their membership. Additionally, 4 of the 6 board members appointed by the Medical Society of South Carolina also serve on the Board of the Medical Society. None receive compensation for their services as a board member. It is the founding members' intent that the members of the Board of Directors are appointed to such positions because they have a willingness to serve the needs of the system as a whole and not the needs of any individual founding member.

Form 990, Part VI, Section A, line 3	Carolinas Healthcare System (CHS), an unrelated organization, provides the compensation of Mr. David L. Dunlap, CEO, CareAlliance Health Services, Mr. Bret D. Johnson, CFO, CareAlliance Health Services, and Mr. John Sullivan, CEO, Roper St. Francis Mt. Pleasant Hospital. Mr. Dunlap and Mr. Johnson are employees of CHS and their compensation is paid by CareAlliance Health Services, a related organization, through a management fee to CHS. Mr. Sullivan is also an employee of CHS, and his compensation is paid through a management fee by Roper St. Francis Mt. Pleasant Hospital.

Return Reference	Explanation
Form 990, Part VI, Section A, line 6	The sole member of the corporation is CareAlliance Health Services, a South Carolina nonprofit, nonstock Corporation, d/b/a Roper St. Francis Healthcare. CareAlliance Health Services is in turn governed by a Board of Directors appointed by the "founding members." Please see the response to Line 7a below. The bylaws of the organization specify certain qualifications of the thirteen member Board of Directors. At least nine directors must have their primary residence in a community served by the system. Five directors must be physicians actively engaged in the full time practice of medicine. Five of the directors are appointed to the Board of Directors by virtue of positions held within MSSC, BSHSI and CHS (ex-officio directors). Each of the five ex-officio directors serves as a director of the organization for so long as such person holds his or her respective elected or appointed office in his or her respective founding member organization. Directors serve three-year terms and are limited to three consecutive terms. After an absence of at least one year, directors are again eligible for appointment to the Board of Directors for two consecutive complete terms.

Return Reference	Explanation
Form 990, Part VI, Section A, line 7a	The organization is governed by a thirteen member Board of Directors appointed by the founding members. Subject to certain nominating and governance committee approvals, six directors are appointed by the Medical Society of South Carolina (MSSC), Bon Secours Health Systems, Inc (BSHSI) and one director is appointed by Carolinas Healthcare Systems (CHS). It is the founding members' intent that the members of the organization's Board of Directors are appointed to such positions because they have a willingness to serve the needs of the system as a whole and not the needs of any individual founding member.

Form 990, Part VI, Section B, line 15	<p>An independent company, Towers Watson, provides research, advice and guidance to the compensation committee and senior leadership to ensure the organization's compensation programs for executives covered by the "Intermediate Sanctions Legislation" (IRC Section 4958) are aligned with its stated philosophy. Base salaries are targeted at the 50th percentile of the established comparator market, Total cash compensation (base salary plus annual incentive payments) are targeted at the 75th percentile of the established comparator market, Total direct compensation (total cash compensation plus long term incentive payments) will not exceed the 90th percentile of the established comparator market, Benefits are targeted at market median, and In aggregate, base salary, total cash compensation, total direct compensation and benefits comprise total compensation for executives. The compensation committee ensures that executive total compensation is reflective of the organization's stated compensation philosophy. The committee, in this process, authorizes and supports an annual three step process utilizing Towers Watson's resources:</p> <ul style="list-style-type: none"> 1) Salary levels, annual bonus targets/payments and long term incentive grants are compared rigorously each year with market data based on comparable positions and organizations. A Comparable organizations are typically not-for-profit healthcare systems with similar operating revenues. Private sector employer data, when available, are also included in the analysis for "transferable skills positions". B Historically, performance incentive payouts generally track with a normal bonus payout distribution. Incentive goals are primarily based on formally defined quantitative goals approved by the ad hoc Compensation Committee of the RSFH Board of Directors. 2) All recommended pay decisions are tested against these data and the organization's stated compensation philosophy. 3) A formal opinion letter is prepared by Towers Watson, representing that senior executives are compensated within the reasonableness standards mandated by the IRS. A similar process is performed by Towers Watson for the CEO and CFO positions. This letter provides a "safe harbor" for the organization's "directors" relative to the reasonableness of total executive compensation consistent with IRC Section 4958.

Form 990, Part III	<p>Creating Life Changing Moments in our Community The Roper St. Francis 2013 Community Benefit Report Dear Friends, At Roper St. Francis, we believe every moment matters. Each moment of providing excellent care, each smile amongst teammates and every moment spent giving back to our community. Moments of giving back can be found throughout our organization. It's the financial counselor going to a patient's home to help them enroll in Medicaid. It's the energized team of walkers at the Heart Walk coming together to raise awareness and dollars. And it's the nurse donating her own time to help the uninsured at the Barrier Island Free Clinic. In 2013, we gave over \$50 million in community benefit. This number represents millions of small moments combined to make an enormous impact on our community. I hope you find the moments of giving detailed in this report as inspiring as I do. Sincerely, David L. Dunlap, FACHE President and Chief Executive Officer * Roper St. Francis uses the Voluntary Hospital Association /Catholic Health Association's standardized community benefit valuation methodology</p>

Form 990, Part III	<p>Our Community Benefit \$35,107,560 Charity Care at Cost \$6,040,677 Unreimbursed Medicaid Cost \$8,475,021 Community Outreach Programs \$515,347 Community Investment \$50,138,605 Total Community Benefit Expense 6.6% of Roper St. Francis' Net Operating Revenue goes towards Community Benefit A Teaching Moment We believe that feeling good helps you live every moment to the fullest, that's why we at Roper St. Francis are passionate about reaching out beyond the walls of our facilities to support our communities' health. In 2013, we provided 89,262 hours of staff time in support of wellness initiatives that directly touched 107,277 of our neighbors. This includes participating in over 100 community healthfairs. A Moment to Give Back Sponsorships Monetary contributions, volunteering our time and donating equipment are among the many ways we support community organizations and events that are consistent with our mission. In 2013, we provided \$515,347 in sponsorships Trident United Way. In 2013, Roper St. Francis employees showed their enormous commitment to our Low county community and donated \$370,533 to the Trident United Way American Heart Association's Heart Walk. We walk the walk! Roper St. Francis employees raised \$21,600 for the American Heart Association's Heart Walk. A Moment to Serve Barrier Island Free Clinic Roper St. Francis helps serve hundreds of uninsured people via our partnership with the Barrier Island Free Medical Clinic. In 2013, we provided financial support along with free lab and imaging tests. In addition, several of our nurses and doctors volunteer their time at the clinic. Crisis Ministries We create moments of wellness and fellowship through our partnership with Crisis Ministries a place where people can receive a meal, a bed and access to a health clinic. Roper St. Francis sponsors an on-site nurse and makes regular donations of medical equipment, lab tests and medication. We are also supporting the creation of the new health clinic that will open in 2014. East Cooper Community Outreach Roper St. Francis' sponsorship dollars and support helps East Cooper Community Outreach provide case management services, medication assistance and healthcare. Our Lady of Mercy Community Outreach Center Welcoming a new baby into the world is one of life's greatest moments. Roper St. Francis proudly partners with Our Lady of Mercy Community Outreach Center to provide prenatal and wellness care to women in need. A Moment for Advocacy Medicaid Expansion A large part of our mission is providing care to the poor. The Affordable Care Act gives states the option to accept federal funding to expand Medicaid and provide healthcare coverage to many more people. We believe the acceptance of federal funding available for Medicaid expansion is the moral and right thing to do. Mission Days Low country In August of 2013, hundreds of our teammates volunteered at a two day medical clinic for the uninsured. Organized by the South Carolina Hospital Association, and with all local hospitals working together, one thousand people were seen and given primary medical care. Those attending were also put in touch with Tricounty Access Health and other local agencies for follow-up and ongoing care. Community Health Needs Assessment Throughout 2013, Roper St. Francis completed a Needs Assessment for the Tricounty area, utilizing public health data, surveys and focus groups. The assessment identified strategic priorities for our system and an implementation plan was created to address those needs. The six highlighted areas within our scope of care and planning are: Access to Services and Coverage for the Uninsured and Underinsured, Access to Mental Health Services, Infant Mortality and Maternal and Child Health Prevention, Wellness Outreach, High Prevalence of Chronic Disease, Coordination of Care Across Settings. A Moment for Recovery The Roper Rehabilitation Hospital is a 52-bed unique hospital within Roper Hospital that is dedicated to rehabilitation and functional recovery. Our excellent team is committed to making every moment of our patients' recovery matter. For generations, Roper St. Francis has been trusted with the health of our community. We understand the importance of your health and that of those you love - it's at the center of everything we do. It's why every moment matters. Why every second saved in the ER is crucial, why every bedside minute gets our full attention, why every moment spent learning about wellness and prevention is time well-spent. We believe that smiles can change lives. We believe in the power of caring. We believe it is the muscle behind medicine and the reason for hope. We believe in the power of community, of reaching out, of extending care and generosity to those who need it most. We believe that every moment matters.</p>

INDEPENDENT AUDITORS' REPORT

To the Board of Directors of
CareAlliance Health Services
(d/b/a Roper St. Francis Healthcare)

We have audited the accompanying consolidated financial statements of CareAlliance Health Services (d/b/a Roper St. Francis Healthcare) ("CareAlliance"), which comprise the consolidated balance sheets as of December 31, 2013 and 2012, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to CareAlliance's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of CareAlliance's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of CareAlliance as of December 31, 2013 and 2012, and the results of its operations and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
AS OF AND FOR THE YEARS ENDED DECEMBER 31, 2013 AND 2012**

1. ORGANIZATION

CareAlliance Health Services (d/b/a Roper St. Francis Healthcare (RSFH)) ("CareAlliance") is a charitable health care delivery system based in Charleston, South Carolina. CareAlliance provides services at more than 90 sites in five counties. These facilities include three acute care hospitals with 657 licensed beds, one specialty hospital, 15 centers for outpatient services, including surgery, diagnostics, and rehabilitation (physical, occupational, and speech therapies), three industrial medicine sites, five emergency rooms, and two urgent care centers. CareAlliance employs approximately 200 physicians, with a large primary care base and a variety of specialties.

CareAlliance was formed effective August 1, 1998, through the execution of an affiliation agreement between the following Founding Members, with each member's respective initial membership percentage:

The Medical Society of South Carolina (MSSC)	63 %
Bon-Secours Health System, Inc (BSHSI)	27
Carolinas HealthCare System (CHS)	10

RSFH is governed by a thirteen (13)-member Board of Directors (the "Board of Directors") appointed by the Founding Members. Subject to certain Nominating Committee approvals, six (6) directors are appointed by each of MSSC and BSHSI, and one (1) director is appointed by CHS. It is the Founding Members' intent that the members of RSFH's Board of Directors are appointed to such positions because they have a willingness to serve the needs of the system as a whole and not the needs of any individual Founding Member.

The By-Laws of RSFH specify certain qualifications of the thirteen (13)-member Board of Directors. At least nine (9) directors must have their primary residence in a community served by the system. Five (5) directors must be physicians actively engaged in the full-time practice of medicine. Five (5) of the directors are appointed to the Board of Directors by virtue of positions held within BSHSI, MSSC, and CHS ("Ex-officio Directors"). Each of the five (5) Ex-officio Directors serves as a director of the corporation for so long as such person holds his or her respective elected or appointed office in their respective Founding Member organization. Directors serve three-year terms and are limited to three consecutive terms. After an absence of at least one (1) year, Ex-officio Directors are again eligible for appointment to the Board of Directors for two consecutive complete terms.

CareAlliance is the sole corporate member and, through its By-Laws, has the power to control the financial and business affairs of the following organizations:

- Roper Hospital, Inc ("Roper Hospital")
- Bon Secours — St. Francis Xavier Hospital, Inc ("St. Francis")
- Roper St. Francis Mount Pleasant Hospital, Inc ("Mount Pleasant")
- Roper St. Francis Foundation ("Foundation")
- Roper St. Francis Physicians Network ("Physician Partners")

CareAlliance, Roper Hospital, St Francis, Mount Pleasant, Foundation, and the Physician Partners are not-for-profit organizations as described in Section 501(c)(3) of the Internal Revenue Code and are exempt from federal and state income taxes

During 2011, CareAlliance sold a 49.5% noncontrolling interest in the Lowcountry Surgery Center LLC (d/b/a Roper St Francis Eye Surgery Center) (LSC) to participating physicians. Operations at the LSC began in 2012

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation — The consolidated financial statements have been prepared under the accrual basis in accordance with accounting principles generally accepted in the United States of America (GAAP) as set forth in the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC)

Principles of Consolidation — The consolidated financial statements of CareAlliance include the accounts of CareAlliance, Roper Hospital (and subsidiaries), St Francis (and subsidiaries), Mount Pleasant, the Foundation, Physician Partners, and LSC

Use of Estimates — The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the consolidated financial statements, and the reported amounts of revenues and expenses during the reporting period. Significant estimates and assumptions are used for, but not limited to, recognition of net patient service revenue, valuation of accounts receivable, including contractual allowances and provisions for doubtful accounts, liabilities for losses and expenses related to employee health care, workers compensation, and professional and general liability risks, valuation of investments and derivative instruments, depreciation of property and equipment, and estimated third-party settlements. Future events and their effects cannot be predicted with certainty, accordingly, management's accounting estimates require the exercise of judgment. The accounting estimates used in the preparation of the accompanying consolidated financial statements will change as new events occur, as more experience is acquired, as additional information is obtained and as the operating environment changes. Management regularly evaluates the accounting policies and estimates it uses. In general, management relies on historical experience and on other assumptions believed to be reasonable under the circumstances, and may employ outside experts to assist in the evaluation, as considered necessary. Although management believes all adjustments considered necessary for fair presentation have been included, actual results may vary from those estimates.

Cash and Cash Equivalents — For purposes of the consolidated statements of cash flows, CareAlliance considers all highly liquid investments with an original maturity of three months or less at the time of purchase to be cash equivalents, excluding amounts included in investments and assets limited as to use. At December 31, 2013 and 2012, cash and cash equivalents include a compensating balance of approximately \$4,487,000 and \$4,484,000, respectively, held on deposit with a bank to secure a portion of CareAlliance's other long-term debt. CareAlliance's deposits exceeded federally insured limits at December 31, 2013 and 2012.

Receivables — Receivables are reported at the net realizable amounts due from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Substantially all CareAlliance's accounts receivable are related to providing healthcare services to patients. Collection of these accounts receivable is CareAlliance's primary source of cash and is critical to operating performance. CareAlliance's primary collection risks relate to uninsured patients and outstanding patient balances for which the primary or secondary insurance has paid some but not all of the outstanding balance, with the remaining outstanding balance (generally deductibles and co-payments) owed by the patient.

The process of estimating the allowance for doubtful accounts requires CareAlliance to estimate the collectability of patient accounts receivable, which is primarily based on our collection history, adjusted for expected recoveries. CareAlliance collects substantially all of third-party insured receivables, which include receivables from governmental agencies. Collections are impacted by the economic ability of patients to pay and the effectiveness of collection efforts. Significant changes in pay or mix, business office operations, economic conditions or trends in federal and state governmental healthcare coverage could affect the collection of accounts receivable. CareAlliance also continually reviews overall reserve adequacy by monitoring historical cash collections as a percentage of trailing net revenue, as well as by analyzing current period gross revenue and admissions by payor classification, aged accounts receivable by payor, and days revenue outstanding.

The allowance for doubtful accounts was \$77,146,000 and \$68,581,000, for the years ended December 31, 2013 and 2012, respectively. The increase in the allowance for doubtful accounts between 2012 and 2013 is primarily a result of the increase in the percentage of self-pay accounts within accounts receivables and the amount of aged accounts not yet written off.

Inventories — Inventories are stated at the lower of cost (first-in, first-out method) or market.

Property and Equipment — Property and equipment is stated at cost or, in the case of donated property, at fair market value at the time of donation. Property and equipment held for sale is stated at the lower of cost or fair value. Assets are depreciated using the straight-line method over their estimated useful lives. Expenditures that materially increase values, change capacities, or extend useful lives are capitalized. Routine maintenance, repairs, and replacements are charged to expense when incurred.

CareAlliance capitalizes purchased software that is ready for service and software development costs incurred on significant projects starting from the time that the preliminary project stage is completed and management commits to funding a project until the project is substantially complete and the software is ready for its intended use. Capitalized costs include direct material and service costs and payroll and payroll-related costs. Training and maintenance costs related to software development are expensed as incurred. Capitalized software costs are amortized using the straight-line method over the estimated useful life of the underlying system.

The following is a summary of the estimated useful lives used in computing depreciation:

Buildings	40 years
Building improvements	5–25 years
Equipment and software	3–20 years

Long-Term Investments and Assets Limited as to Use — Long-term investments, including investments classified as assets limited as to use, consist of debt and equity securities held in common collective trust funds, other debt and equity securities and money market funds, and investments in limited partnerships. Investments in common collective trust funds, equity securities with readily determinable fair values, and all investments in debt securities and money market funds are classified as trading securities and measured at fair value at the balance sheet date. Management determined that the

trading security category is appropriate based on CareAlliance's investment strategy and policies. Investment managers may execute individual purchases and sales of investments without prior approval from CareAlliance as long as they comply with CareAlliance's investment strategy and policies. Investment gains or losses on trading securities are included in the excess of revenues over expenses, unless the income or loss is restricted by donor or laws.

CareAlliance has elected the fair value option to account for its investments in limited partnerships, which are not readily marketable and are less liquid than CareAlliance's other investments. Management determined the fair value option is appropriate based on CareAlliance's investment strategy and policies with respect to investments in limited partnerships. Management estimates the fair value of its investments in limited partnerships based on information provided by the fund managers. Investment income or loss from investments in limited partnerships is included in the excess of revenues over expenses. Assets limited as to use primarily include assets held by trustees under indenture agreements and designated net assets set aside by the Board of Directors for future capital improvements, over which the Board of Directors retains control and may at its discretion subsequently use for other purposes.

Short-Term Investments — Short-term investments consist of marketable debt securities, which are intended to be used to meet current liabilities, and, therefore, are reported as current assets in the consolidated balance sheets. Gains and losses on short-term investments are included in the excess of revenues over expenses.

Other Assets — Other assets consist primarily of deferred financing costs incurred during the issuance of revenue bonds, temporarily and permanently restricted assets of the Foundation, and goodwill. Goodwill represents acquisition costs in excess of the fair value of the net identifiable tangible and intangible assets of businesses purchased. Goodwill was \$16,432,000 and \$16,432,000 as of December 31, 2013 and 2012, respectively. CareAlliance subjects goodwill to an impairment evaluation on an annual basis, or more frequently if events or circumstances indicate that assets might be impaired. There was no impairment of goodwill as of or during the years ended December 31, 2013 and 2012.

Contribution Accrued to Members — In accordance with its By-Laws and the terms of the affiliation agreement between its Founding Members, CareAlliance is required to make annual cash contributions to its members, in accordance with their respective membership interest percentages, equal to 50% of System Free Cash Flow as defined in CareAlliance's By-Laws. The determination of System Free Cash Flow and the timing of related cash contributions have been adjusted from time to time by mutual agreement of CareAlliance and its Founding Members. During February 2010, the Founding Members agreed via resolution that MSSC will defer any annual contributions above \$12,600,000 beginning in 2010. Such deferrals will continue until CareAlliance achieves certain balance sheet targets, at which time the cumulative amount of deferred contributions will be payable to MSSC with interest at a rate of 7% per annum. Payments of deferred contributions and related accrued interest are contingent upon CareAlliance maintaining certain liquidity targets. As of December 31, 2013 and 2012, CareAlliance has recorded liabilities for the contribution payable to members of \$31,872,000 and \$23,435,000, respectively, related to the System Free Cash Flow. The contribution payable at December 31, 2012, included deferred contributions of \$2,216,000 payable to MSSC, and is reported within other liabilities in the accompanying consolidated balance sheet. This deferred contribution was paid to MSSC on October 15, 2013. There were no deferred contributions at December 31, 2013.

Derivative Financial Instruments — CareAlliance uses derivative financial instruments primarily to manage its exposure to movements in interest rates. Interest rate swaps are contractual agreements between two parties for the exchange of interest payments on a notional principal amount at agreed-upon fixed or floating rates, for defined periods. Interest rate swaps are stated at fair value in the

accompanying consolidated balance sheets, with the change in fair value recorded as realized gains (losses) and included in nonoperating gains (losses) in the accompanying consolidated statements of operations CareAlliance does not enter into derivative financial instruments for trading purposes

Donor-Restricted Gifts — Unconditional promises to give cash and other assets to CareAlliance are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. Gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported as other revenue in the consolidated statements of operations. Donor-restricted contributions whose restrictions are met within the same year are reported as unrestricted support and are included in other revenue in the consolidated statements of operations.

Net Assets — CareAlliance has three net asset groups as follows

Unrestricted — Unrestricted net assets consist of all resources of CareAlliance that have no donor-imposed restrictions. Certain of these resources have been designated by CareAlliance's Board of Directors to serve certain long-term program objectives of CareAlliance, or have been limited by contractual agreements with outside parties. These assets are included with assets limited as to use.

Temporarily Restricted — Temporarily restricted net assets consist of contributions and related investment income for which CareAlliance's use is limited through externally imposed stipulations as to a specific time or purpose.

Permanently Restricted — Permanently restricted net assets consist of contributions and related investment income restricted by donors to be maintained by CareAlliance in perpetuity. The portion of a donor-restricted endowment fund that is classified as permanently restricted is not reduced by losses on investments in the fund, except to the extent required by the donor, including losses related to specific investments that the donor requires the organization to hold. Investment income from donor-restricted endowment funds that is not permanently restricted is classified as temporarily restricted until appropriated for expenditure by CareAlliance. Losses on the investments of donor-restricted endowment funds are recorded as a reduction of temporarily restricted net assets to the extent that donor-imposed temporary restrictions on net appreciation of the fund have not been met before the loss occurs. Any remaining losses reduce unrestricted net assets and are excluded from the excess of revenues over expenses. Gains that restore the fair value of the assets of the endowment fund to the required level are classified as increases in unrestricted net assets and are excluded from the excess of revenues over expenses.

Net Patient Service Revenue — Net patient service revenue is reported at the estimated net realizable amounts due from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined. For uninsured patients that do not qualify for charity care, CareAlliance recognizes revenue on the basis of its standard rates for services provided (or on the basis of discounted rates, if negotiated or provided by policy). On the basis of historical experience, a significant portion of CareAlliance's uninsured patients will be unable or unwilling to pay for the services provided. Thus, CareAlliance records a significant provision for bad debts related to uninsured patients in the period the services are provided.

Electronic Health Records (EHR) Incentives — The American Recovery and Reinvestment Act of 2009 established incentive payments under the Medicare and Medicaid programs for certain professionals and hospitals that meaningfully use certified EHR technology. The EHR incentive payments to hospitals include a base amount, plus a discharge-related portion, which is calculated by the Centers for Medicare and Medicaid Services (CMS) based on the hospital's most recently filed cost report and are subject to adjustment upon settlement of the cost report for the hospital's fiscal year that begins after the beginning of the payment year. A hospital may receive incentive payments for up to four years, provided that it successfully demonstrates meaningful use for each applicable EHR reporting period. CareAlliance recognizes revenue for EHR incentive payments in the period in which it is reasonably assured that it will comply with the applicable EHR meaningful use requirements. EHR incentive revenues are recognized ratably over the applicable meaningful use reporting period and are included in other revenue in the consolidated statements of operations. CareAlliance recognized EHR incentive revenues of \$8,491,000 and \$7,848,000 for the years ended December 31, 2013 and 2012, respectively. CareAlliance's attestations regarding the meaningful use of EHR technology are subject to audit by the federal government or its designee.

Charity Care — CareAlliance provides care to patients who meet certain criteria under its charity care policies without charge or at amounts less than its established rates. Because CareAlliance does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue. CareAlliance estimates the direct and indirect costs of providing charity care using a calculated ratio of costs to gross charges for each facility.

Operating Income — Transactions deemed by management to be ongoing, major, or central to the provision of health care services are reported as income from operations. Peripheral or incidental transactions are reported as nonoperating gains and losses.

Excess of Revenues over Expenses — The consolidated statements of operations include excess of revenues over expenses. Changes in unrestricted net assets, which are excluded from excess of revenues over expenses, consistent with industry practice, include contributions restricted for purchases of property and equipment and permanent transfers of assets to and from affiliates for other than goods and services.

Income Taxes — CareAlliance, Roper Hospital, St. Francis, Mount Pleasant, the Foundation, and Physician Partners are not-for-profit organizations as described in Section 501(c)(3) of the Internal Revenue Code and are generally exempt from federal and state income taxes. The LSC is a limited liability company. Under current laws, income or loss of limited liability companies is included in the income tax returns of the members. Accordingly, no provision for income taxes is made in the consolidated financial statements.

Although CareAlliance is generally exempt from federal and state income taxes, it evaluates whether there are any uncertain tax positions that fail to meet the more-likely-than-not threshold for recognition in the consolidated financial statements. Uncertain tax positions may include the characterization of income, such as a characterization of income as passive, a decision to exclude reporting taxable income in a tax return, or a decision to classify a transaction, entity, or other position in a tax return as tax exempt. The tax benefit from an uncertain tax position is recognized when it is more likely than not that the position will be sustained upon examination, including resolutions of any related appeals or litigation processes, based on the technical merits. CareAlliance had no unrecognized tax positions as of December 31, 2013 and 2012, and does not expect that unrecognized tax benefits will materially increase within the next 12 months. Tax years from 2010 through 2012 are subject to examination by the federal and state taxing authorities. There are no income tax examinations currently in process.

Interest and penalties related to uncertain tax positions, if any, would be recognized in the consolidated financial statements as income tax expense

Fair Value of Financial Instruments — See Note 15 for classification of CareAlliance's financial assets and liabilities accounted for at fair value

Risks and Uncertainties — CareAlliance's investments consist of various combinations of equity securities, fixed income securities, money market funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect CareAlliance's investment balances reported in the consolidated balance sheets.

The Patient Protection and Affordable Care Act (PPACA) was signed into law on March 23, 2010. In addition, the Health Care and Education Affordability Reconciliation Act ("Reconciliation Act"), which contains a number of amendments to PPACA, was signed into law on March 30, 2010. These health care bills (collectively, the "Reform Legislation") seek to increase the number of persons with access to health insurance in the United States by requiring substantially all U.S. citizens to maintain medical insurance coverage. The Reform Legislation also provides for material reductions in the growth of Medicare program spending, including reductions in Medicare market basket updates and Medicare disproportionate share hospital (DSH) funding. From time to time, CMS revises the reimbursement systems used to reimburse health care providers, which may include additional changes to the Medicare Severity-Diagnosis Related Group system and other payment systems. These changes may result in reduced Medicare payments.

The Reform Legislation also includes provisions aimed at reducing fraud, waste, and abuse in the health care industry. These provisions allocate significant additional resources to federal enforcement agencies and expand the use of private contractors to recover potentially inappropriate Medicare and Medicaid payments. The Reform Legislation amends several existing federal laws, including the Medicare Anti-Kickback Statute and the False Claims Act, making it easier for government agencies and private plaintiffs to prevail in lawsuits brought against health care providers. These amendments also make it easier for potentially severe fines and penalties to be imposed on health care providers accused of violating applicable laws and regulations.

Management is in the process of assessing the impact the Reform Legislation may have on CareAlliance's consolidated financial position, results of operations, or cash flows.

Subsequent Events — CareAlliance has evaluated subsequent events from the end of the most recent fiscal year through May 21, 2014, the date the consolidated financial statements were issued.

Recently Issued Accounting Guidance — In May 2012, the FASB issued amendments to the classification of the sale proceeds of donated financial assets in the statement of cash flows. The amendments require not-for-profit (NFP) entities to classify cash receipts from the sale of donated financial assets consistently with cash donations received in the statement of cash flows if those cash receipts were from the sale of donated financial assets that upon receipt were directed without the NFP imposing any limitations for sale and were converted nearly immediately into cash. The new guidance is effective for fiscal years beginning after June 15, 2013. CareAlliance has not determined the impact on its consolidated financial statements from the adoption of these amendments.

In February 2013, the FASB issued guidance for the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the

obligation within the scope of this guidance is fixed at the reporting date. The new guidance requires entities to measure these obligations as the sum of the amount the reporting entity agreed to pay on the basis of its arrangement among its co-obligors and any additional amount the reporting entity expects to pay on behalf of its co-obligors. The new guidance is effective for nonpublic entities for fiscal years ending after December 15, 2014. CareAlliance has not determined the impact on its consolidated financial statements from the adoption of this guidance.

3. CHARITY CARE

In accordance with CareAlliance's mission to improve the health of its communities, CareAlliance facilities accept patients regardless of their ability to pay. CareAlliance offers financial assistance to patients who meet established financial assistance guidelines. Patients with an annual income of 399% or less of the federal poverty guidelines may be eligible for charity adjustments. CareAlliance offers Medical Indigency Adjustments for patients, whose medical expenses outweigh their ability to pay, constituting a financial hardship. CareAlliance also offers flexible payment plans, charity adjustments to patients who are homeless, and discounts for uninsured patients who do not qualify for its charity care program.

The estimated cost of traditional charity care provided by CareAlliance under its charity care policy was \$35,108,000 and \$33,499,000 for the years ended December 31, 2013 and 2012, respectively.

In addition to traditional charity care, management estimates the unpaid cost of services provided under the Medicaid program to be \$6,041,000 and \$9,647,000 for the years ended December 31, 2013 and 2012, respectively. CareAlliance also provides community benefit programs and services for the general community, mainly for indigent patients but also for people with chronic health risks. Examples of these programs include health promotion and education, free clinics and screenings, and other community services. Management estimates the unreimbursed costs of community benefit programs and services to be \$8,990,000 and \$9,571,000 for the years ended December 31, 2013 and 2012, respectively.

4. NET PATIENT SERVICE REVENUE

CareAlliance has agreements with third-party payors that provide for payments to CareAlliance at amounts different from its established rates. A summary of the payment arrangements with major third-party payors is as follows.

Medicare and Medicaid — Inpatient acute care services rendered to program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors. Inpatient nonacute care services, certain outpatient services, and defined capital and medical education costs related to beneficiaries are paid based on a cost reimbursement methodology. Outpatient services are paid at prospectively determined rates. CareAlliance is reimbursed for cost-reimbursable items at a tentative rate with final settlement determined after submission of annual cost reports by CareAlliance and audits thereof by the fiscal intermediary. CareAlliance's cost reports have been audited by the Medicare intermediary through December 31, 2009.

Other — CareAlliance has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations. The basis for payments to CareAlliance under these agreements includes prospectively determined rates per day or discharge and discounts from established charges.

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Final determination of amounts due from Medicare and Medicaid programs is subject to review by these programs. Changes resulting from final determination are reflected as changes in estimates, generally in the year of determination. In the opinion of management, adequate provision has been made for adjustments, if any, that may result from such reviews. Net patient service revenue increased by approximately \$2,847,000 and decreased by \$586,000 for the years ended December 31, 2013 and 2012, respectively, due to the effect of settlement adjustments. There were no settlements with commercial payors during the years ended December 31, 2013 and 2012. During the years ended December 31, 2013 and 2012, CareAlliance established liabilities of \$1,157,000 and \$1,893,000, respectively, for estimated future settlements related to net patient service revenue recognized during those years. These liabilities are included in accrued expenses in the accompanying consolidated balance sheets.

During 2006, the state of South Carolina (the "State") implemented changes to the method of funding the Medicaid disproportionate share and upper payment limit programs. Under the new plan, providers are assessed a quarterly tax and receive periodic Medicaid disproportionate share and upper payment limit payments from the State. The tax assessment was \$15,623,000 and \$15,517,000 for the years ended December 31, 2013 and 2012, respectively, and is recorded as an operating expense in the accompanying consolidated statements of operations. CareAlliance received approximately \$22,200,000 and \$23,728,000 of disproportionate share and upper payment limit payments from the State in 2013 and 2012, respectively, which are recorded in patient service revenue (net of contractual allowances and discounts) within the accompanying consolidated statements of operations. Funds received under the upper payment limit program may be subject to a retroactive settlement process. Management continues to evaluate the settlement process related to the upper payment limit payment program and has recorded adequate liabilities as of December 31, 2013 and 2012, in accrued expenses in the accompanying consolidated balance sheets. Future receipts of the Medicaid disproportionate share and supplemental payment program reimbursement are not guaranteed.

Payments received or to be received under these and other payment arrangements with third-party payors were less than amounts due at established rates by approximately \$1,387,992,000 and \$1,400,212,000 for the years ended December 31, 2013 and 2012, respectively.

Patient service revenue (net of contractual allowances and discounts) for the years ended December 31, 2013 and 2012, is summarized as follows:

	2013	2012
Third-party payors	\$ 726,636,000	\$ 698,885,000
Self-pay	<u>47,374,000</u>	<u>51,032,000</u>
 Total patient service revenue (net of contractual allowances and discounts)	 <u>\$ 774,010,000</u>	 <u>\$ 749,917,000</u>

5. INVESTMENTS AND ASSETS LIMITED AS TO USE

Investments and assets limited as to use as of December 31, 2013 and 2012, are summarized as follows

	2013	2012
Marketable equity securities	\$ 21,166,000	\$ 15,635,000
Debt securities — short-term investments	16,586,000	15,075,000

Total	<u>\$235,179,000</u>	<u>\$206,942,000</u>

Investment gains from long-term investments and assets limited as to use for the years ended December 31, 2013 and 2012, consist of the following

	2013	2012
Interest and dividend income — net of investment fees	\$ 1,774,000	\$ 3,311,000
Net realized gains on sales of investments	3,543,000	1,515,000
Net change in unrealized gains on investments	<u>22,552,000</u>	<u>14,457,000</u>
Total investment gains — net	<u>\$27,869,000</u>	<u>\$19,283,000</u>

CareAlliance had no unfunded commitments with respect to these funds as of December 31, 2013 and 2012

6. PROPERTY AND EQUIPMENT

A summary of property and equipment as of December 31, 2013 and 2012, is as follows

	2013	2012
Land	\$ 36,505,000	\$ 37,370,000
Land improvements	8,947,000	8,947,000
Buildings and improvements	515,485,000	490,361,000
Equipment	287,084,000	291,946,000
Leased equipment under capital lease obligations	<u>19,308,000</u>	<u>15,135,000</u>

	472,212,000	474,780,000
Construction in progress	<u>4,319,000</u>	<u>27,763,000</u>
Total property and equipment — net	<u>\$476,531,000</u>	<u>\$502,543,000</u>

Depreciation expense and capital lease-related amortization expense for the years ended December 31, 2013 and 2012, amounted to approximately \$49,815,000 and \$48,249,000, respectively. Accumulated amortization for equipment under capital lease obligations as of December 31, 2013 and 2012, was \$12,056,000 and \$10,759,000, respectively.

In July 2009, Roper Hospital entered into an agreement with RSFH West Ashley Cancer Center, LLC (WACC) to lease a portion of a medical office building (WACC MOB) located on the St Francis campus. CareAlliance owns a 9.26% interest in WACC (following a sale of 116.67 units effective August 2013) that is accounted for under the equity method and has guaranteed a portion of WACC's construction loan up to 200% of its equity investment in WACC. CareAlliance's equity method investment in WACC was \$72,000 and \$231,000 as of December 31, 2013 and 2012, respectively, and is included in other assets in the consolidated balance sheets. CareAlliance has determined that it is the deemed owner of the WACC MOB under GAAP due to its ownership interest in and continuing involvement with WACC. Accordingly, CareAlliance recorded an asset (included in property and equipment — net) amounting to \$14,770,000 at December 31, 2013, and a corresponding liability (included in other liabilities) amounting to \$16,252,000 at December 31, 2013, for the cost of construction of the WACC MOB. Construction of the WACC MOB was completed in 2010.

In June 2011, CareAlliance entered into an agreement with MSSC related to the relocation of CareAlliance's existing data facilities to land owned by MSSC in the city of North Charleston, South Carolina. MSSC has agreed to borrow up to \$18,000,000 for the acquisition of the land and construction and equipping of the new data center to be leased to CareAlliance upon completion. CareAlliance has determined that it is the deemed owner of the data center under GAAP due to its involvement in the construction of the asset. Accordingly, CareAlliance recorded an asset (included in property and equipment — net) amounting to \$17,700,000 at December 31, 2013, and a corresponding liability (included in other liabilities) amounting to \$17,640,000 at December 31, 2013 for the cost of the land and construction of the data center. Construction of the data center was complete as of May 1, 2013.

7. ACCRUED LIABILITIES

Accrued liabilities as of December 31, 2013 and 2012, consist of the following

	2013	2012
Accrued compensation	\$ 44,862,000	\$ 41,483,000
Self-insurance liabilities	9,939,000	10,425,000
Interest	1,526,000	1,724,000
Estimated third-party liabilities	12,979,000	17,299,000
Other accrued liabilities	<u>1,917,000</u>	<u>1,765,000</u>
 Total accrued expenses	 <u>\$ 71,223,000</u>	 <u>\$ 72,696,000</u>

8. LONG-TERM DEBT

Long-term debt as of December 31, 2013 and 2012, consists of the following

	2013	2012
Tax-Exempt Fixed Rate Serial Bonds ("Series 1999A"), bearing interest at a rate of 5.125% ^o , maturing in 2015 and 2016	\$ 13,165,000	\$ 13,165,000
Tax-Exempt Variable Rate Bonds ("Series 1999B"), bearing interest at an auction rate of 0.195% ^o at December 31, 2012, redeemed in 2013		1,125,000
Tax-Exempt Fixed Rate Serial Bonds ("Series 2004A"), bearing interest at rates ranging from 4.25% ^o -5.50% ^o , maturing through 2013		1,705,000
Tax-Exempt Variable Rate Direct Purchase Bonds ("Series 2004B-1"), bearing interest at a rate of 1.119% ^o at December 31, 2013, maturing through 2030	20,475,000	20,475,000
Tax-Exempt Fixed Rate Term Bonds ("Series 2004B-1"), bearing interest at rates ranging from 4.50% ^o -5.00% ^o , maturing in 2013 through 2024	30,510,000	31,710,000

Revenue Bonds — All of the bonds outstanding at December 31, 2013 and 2012, are governed by a Master Trust Indenture (the "Master Indenture") and related agreements. CareAlliance, Roper Hospital, St. Francis Hospital, Mount Pleasant Hospital, and the Physician Partners (the "Obligated Group") are jointly and severally liable for the obligation. The bonds are collateralized by a pledge of the Obligated Group's gross revenue and the funds and accounts established under the Master Indenture. Additionally, the periodic payment of interest and principal is unconditionally guaranteed through municipal bond insurance for all obligations. Among other financial covenants, the Master Indenture requires the Obligated Group to maintain a debt service coverage ratio of not less than 1.1 to 1.0, debt-to-capitalization ratio of no more than 65%, and days cash on hand of not less than 75 days. The

Supplemental Master Indentures for the Series 2004 bonds and after require the Obligated Group to maintain a debt service coverage ratio of 1.25 to 1.0. The Series 2009 and 2010 require a debt service coverage ratio of 1.75 to 1.0. In addition, the supplemental master indentures for each bond series contain certain provisions which provide for establishment of reserve funds, funded by CareAlliance, and collateralization of the bonds through CareAlliance's property and equipment in the event that certain minimum financial covenants and credit ratings are not maintained. The Obligated Group was in compliance with all such provisions of the Master Indenture and related agreements as of and during the year ended December 31, 2013. The net assets of the Obligated Group are in excess of 90% of the net assets of CareAlliance. All of CareAlliance's debt can be prepaid without penalty with the exception of the Series 2012A bonds which, if prepaid, are subject to a redemption premium determined based on the difference between the stated interest rate of the bonds and the bond equivalent yield for United States Treasury securities with similar maturities.

The Series 1999A and 1999B, and Series 2004A and 2004B bonds are limited obligations of Charleston County, South Carolina (the "County"), payable by the County solely from the loan repayments to be made by the Obligated Group. The Series 2007A, 2007B, 2011, and 2012 bonds are limited obligations of the South Carolina Jobs-Economic Development Authority (the "Authority"), payable by the Authority solely from the loan repayments of the Obligated Group.

On September 1, 2012, the Authority issued \$31,935,000 Series 2012A tax-exempt fixed rate revenue bonds pursuant to a Bond Purchase and Loan Agreement (the "Agreement") dated September 1, 2012, among the Authority, TD Bank, N.A., and CareAlliance. The bond proceeds were loaned to the Obligated Group for the purpose of (i) refunding \$31,935,000 of the outstanding principal amount of the Series 1999A bonds, and (ii) to pay costs of issuing the Series 2012A bonds. The bonds bear interest at 2.26% per annum.

On September 1, 2012, the Authority issued \$47,265,000 Series 2012B tax-exempt variable rate revenue bonds pursuant to a Bond Purchase and Loan Agreement dated September 1, 2012, among the Authority, TD Bank, N.A., and CareAlliance. The bond proceeds were loaned to the Obligated Group for the purpose of (i) refunding \$17,265,000 of the outstanding principal amount of the Series 1999A bonds, and defraying the cost of certain capital improvements, and (ii) to pay costs of issuing 2012B bonds. The bonds bear interest at 75% multiplied by the sum of (i) the London InterBank Offered Rate (LIBOR) plus (ii) 1.18% per annum.

As a result of the refunding of the Series 1999A Bonds described above, CareAlliance recorded a loss on extinguishment of debt of \$1,266,000.

On April 23, 2013, CareAlliance redeemed the outstanding Series 1999B bonds, resulting in a loss on extinguishment of debt of \$21,000.

On August 31, 2011, the Authority issued \$39,855,000 Series 2011 tax-exempt fixed rate revenue bonds pursuant to a Note Purchase and Loan Agreement dated August 1, 2011, among the Authority, Wells Fargo Bank, and CareAlliance. The bond proceeds were used for the purpose of refunding that portion of the \$145,910,000 Charleston County, South Carolina Revenue Bonds, Series 1999A maturing on August 15 in the years 2012, 2013, 2014, and 2019.

On February 3, 2011, CareAlliance converted \$20,475,000 of the Series 2004B-1 bonds and \$80,000,000 of the Series 2007B bonds from variable rate demand bonds to direct purchase bonds.

On February 3, 2011, the irrevocable, standby letter of credit agreement with a financial institution to provide credit and liquidity support for the Series 2004B-2 bonds was restated and amended. The

amended letter of credit was renewed in September 2012 for a three-year term expiring in August 2015, and is subject to extension at the option of the financial institution. In the event that any or all of the bonds are tendered for purchase and cannot be remarketed, the letter of credit provides that the financial institution will provide funds to purchase the unremarketed bonds. Bonds purchased with letter of credit funds bear interest during a 120-day remarketing period at a variable rate equal to the Prime Rate per annum during the first 90 days, and at the Prime Rate, plus 2% per annum for days 91 through 120. Bonds that are not remarketed after 120 days (the "Term Loan Conversion Date") convert to a term loan payable to the financial institution with interest at a variable rate equal to the Prime Rate, plus 2% per annum. Principal payments are due in 24 equal monthly installments commencing on the first day of the month beginning 367 days after the Term Loan Conversion Date. The letter of credit has a fee of 88 basis points per annum based on the available commitment and is generally subject to the same financial and operating covenants provisions contained in the Master Trust Indenture, however, the letter of credit requires the Obligated Group to maintain a debt service coverage ratio of 1.75 to 1.0. CareAlliance was in compliance with all such provisions as of December 31, 2013. In the event that the letter of credit is not extended or replaced prior to expiration, the Master Trust Indenture provides for mandatory tender of the bonds.

On August 10, 2010, the Authority issued a \$30,000,000 Series 2010 tax-exempt variable rate revenue note pursuant to a Note Purchase and Loan Agreement dated August 1, 2010, among the Authority, Branch Banking and Trust Company, and CareAlliance. The note proceeds were loaned to CareAlliance for the purpose of partially refunding the \$41,450,000 Charleston County, South Carolina Variable Rate Demand Bonds, Series 1999B (CareAlliance Health Services). The loan bears interest at the Adjusted LIBOR. All outstanding principal and interest are due in full at maturity on August 15, 2021.

On September 1, 2009, the Authority issued a \$12,500,000 Series 2009 tax-exempt variable rate revenue note pursuant to a Note Purchase and Loan Agreement dated September 1, 2009, among the Authority, Branch Banking and Trust Company, and CareAlliance. The note proceeds were loaned to Obligated Group for the purpose of expanding Physician Partners through the acquisition of the assets of Lowcountry Medical Associates. The note bears interest at a variable rate based on LIBOR, with a minimum rate of 2.26%. The principal is payable in fixed monthly installments of \$104,000. All outstanding principal and interest are due in full at maturity on September 15, 2014.

On November 1, 2007, the Authority issued \$130,000,000 of revenue bonds, Series 2007A and 2007B. The bond proceeds were loaned to the Obligated Group for the acquisition, constructing, and equipping of the new 85-bed Mount Pleasant hospital facility in Mount Pleasant, South Carolina.

On July 1, 2004, the County issued \$99,480,000 of Revenue Bonds, Series 2004A, 2004B-1, and 2004B-2. The bond proceeds were loaned to the Obligated Group for construction of a patient care tower and a parking garage at Roper Hospital. The Series 2004B-1 Bonds are subject to mandatory sinking fund payments beginning in 2010. The Series 2004B-2 Bonds are subject to mandatory sinking fund payments beginning in 2030. The Series 2004A Bonds fully matured on August 15, 2013.

On January 26, 1999, the County issued \$187,360,000 of Revenue Bonds, Series 1999A and 1999B. The bond proceeds were loaned to the Obligated Group for hospital construction projects and the defeasance of the outstanding long-term debt of members of the Obligated Group. The Series 1999B bonds of \$0 and \$1,125,000 at December 31, 2013 and 2012, respectively, are subject to mandatory sinking fund payments beginning in 2021 and bear interest at auction rates not to exceed 150% of the index rate on AA rated commercial paper.

Other Long-Term Debt — Other long-term debt consists of notes payable and various capital lease obligations. At December 31, 2013 and 2012, notes payable consists of 2.53% to 6.30% notes payable.

and a variable rate term loan totaling \$2,419,000 and \$3,903,000, respectively. At December 31, 2013 and 2012, capital lease obligations, which are collateralized by leased equipment, amount to \$7,397,000 and \$4,499,000, respectively, at an interest rate of approximately 6%. CareAlliance's capital lease obligations expire in 2014 through 2016.

Scheduled maturities of all long-term debt as of December 31, 2013, are as follows:

**Years Ending
December 31**

2014	\$ 26,238,000
2015	20,520,000
2016	19,335,000
2017	17,336,000
2018	15,410,000
Thereafter	<u>238,509,000</u>
 Total	 <u>\$ 337,348,000</u>

During 2013 or 2012, CareAlliance capitalized no interest costs related to borrowings for capital projects.

9. DERIVATIVE FINANCIAL INSTRUMENTS

During 2004, CareAlliance entered into an interest rate hedge related to \$19,000,000 of its variable rate debt. The effect of this hedge is to convert the variable rate of this amount of the debt to a fixed rate of 3.81%. At December 31, 2013 and 2012, the fair value of the hedge was \$(3,667,000) and \$(6,302,000), respectively, and is recorded in other liabilities in the accompanying consolidated balance sheets.

During 2006, CareAlliance entered into an interest rate hedge related to \$80,000,000 of the \$130,000,000 debt issued in 2007. The effect of this hedge is to convert the variable rate of this amount of the debt to a fixed rate of 3.56%. At December 31, 2013 and 2012, the fair value of the hedge was \$(12,702,000) and \$(25,555,000), respectively, and is recorded in other liabilities in the accompanying consolidated balance sheets.

During 2010, CareAlliance entered into an interest rate hedge related to the \$30,000,000 debt issued in 2010. The effect of this hedge is to convert the variable rate of this amount of the debt to a fixed rate of 3.06%. At December 31, 2013 and 2012, the fair value of the hedge was \$(795,000) and \$(1,853,000), respectively, and is recorded in other liabilities in the accompanying consolidated balance sheets.

During 2011, CareAlliance entered into interest rate hedges related to the outstanding fixed rate bonds Series 1999A, 2004 B-1, and 2007A. The effect of these hedges is to retain the basis risk between paying a tax-exempt floating rate (SIFMA) and receiving a taxable rate (LIBOR) through a basis swap. At December 31, 2013 and 2012, the fair value of these hedges was \$(97,000) and \$756,000, respectively, and is recorded in other liabilities in the accompanying consolidated balance sheets.

The change in fair value of interest rate hedges for the years ended December 31, 2013 and 2012, was \$15,693,000 and \$2,364,000, and is recorded as a realized gain and included within nonoperating gains (losses) in the accompanying consolidated statements of operations for the years ended December 31, 2013 and 2012, respectively.

Payments of fixed rate interest to be made by CareAlliance under its interest rate hedges are insured by financial guaranty insurance policies issued by Assured Guaranty Ltd (AG). CareAlliance's interest rate hedge agreements contain provisions that require CareAlliance's debt to maintain certain credit ratings from Standard & Poor's Rating Group (S&P) and Moody's Investors Services, Inc ("Moody's"). If the credit ratings for CareAlliance's debt were to fall below "BBB-" for S&P or "Baa3" for Moody's, it would be in violation of these provisions, and the counterparties to the interest rate hedges could demand settlement of the interest rate hedges. In addition, the interest rate hedge agreements contain provisions that require AG to maintain a credit rating of "A-" or higher from S&P or "A3" or higher from Moody's. If AG's credit rating were to fall below these levels, then the counterparties to the interest rate hedges could require CareAlliance to post collateral on interest rate hedges in a net liability position in excess of certain thresholds that are determined based on the credit ratings for CareAlliance's debt. The threshold in effect for each interest rate hedge agreement as of December 31, 2013, is \$2,000,000 based on CareAlliance's credit rating as of December 31, 2013. CareAlliance was not required to post collateral on any of its interest rate hedge agreements as of December 31, 2013 or 2012, based on AG's credit ratings as of those dates.

10. LEASE OBLIGATIONS

CareAlliance leases various equipment and buildings used in its operations. Future lease payments on operating leases that have initial or remaining noncancelable lease terms in excess of one year and deemed ownership obligations (Note 6) as of December 31, 2013, are as follows:

Years Ending December 31	Operating Leases	Deemed Ownership Obligations (Note 4)	Total
2014	\$ 15,257,000	\$ 1,478,000	\$ 16,735,000
2015	12,447,000	1,507,000	13,954,000
2016	9,193,000	1,536,000	10,729,000
2017	5,895,000	1,566,000	7,461,000
2018	5,285,000	1,596,000	6,881,000
Thereafter	<u>9,640,000</u>	<u>25,609,000</u>	<u>35,249,000</u>
Total minimum future rentals	<u>\$ 57,717,000</u>	<u>\$ 33,292,000</u>	<u>\$ 91,009,000</u>

Rent expense for building space for the years ended December 31, 2013 and 2012, was approximately \$18,773,000 and \$16,970,000, respectively.

The future operating lease payments above include approximately \$10,470,000 payable to MSSC under a 10-year master lease for medical office building space that began in fiscal 2010. Also included in the deemed ownership obligations above is approximately \$17,640,000 payable to MSSC under a lease for CareAlliance's data center that began in fiscal 2013.

CareAlliance also leases office space to physicians. The rental income from these leases for the years ended December 31, 2013 and 2012, was approximately \$1,689,000 and \$1,593,000, respectively, and is included in other nonoperating income in the consolidated statements of operations.

11. TEMPORARILY RESTRICTED NET ASSETS

Temporarily restricted net assets as of December 31, 2013 and 2012, are available for the following purposes

	2013	2012

 Total net assets released from restrictions	 <u>\$ 3,493,000</u>	 <u>\$ 3,682,000</u>

12. PERMANENTLY RESTRICTED NET ASSETS AND BOARD-DESIGNATED FUNDS

CareAlliance's endowment funds consist of approximately 30 donor-restricted individual funds established for a variety of purposes and board-designated funds set aside for capital expenditures and self-insurance

On an annual basis, CareAlliance requests funds from the Foundation for reimbursement of expenditures incurred specifically related to unrestricted or temporarily restricted purposes. The Foundation has developed an investment policy for all its investable assets whose general purpose is to preserve the capital and purchasing power of the Foundation and to produce sufficient investment earnings for current and future spending needs. The Foundation has adopted a total return strategy whose asset allocation is designed to give balance to the overall structure of the Foundation's investment program over a long-term period.

The endowment net asset composition by fund type as of December 31, 2013, is composed of the following

Endowment Net Asset Composition by Fund Type as of December 31, 2013

13. RETIREMENT PLANS

CareAlliance has established the FutureSaver 403(b) Retirement Plan, a matching savings plan for all employees who have attained the age of 20-1/2, are paid for 1,000 hours or more, and are employed on December 31 of that plan year. Employer-matching contributions shall be made at a rate equal to 50% of the elective deferrals of each employee, up to 4% of annual compensation, for a total possible matching contribution of 2% of compensation.

The plan administrator is the Retirement Committee. Employer contributions for the FutureSaver 403(b) Retirement Plan for the years ended December 31, 2013 and 2012, were approximately \$10,241,000 and \$10,191,000, respectively, and are included in salaries and employee benefits in the accompanying consolidated statements of operations.

14. CONCENTRATION OF CREDIT RISK

Roper Hospital, St. Francis Hospital, and Mount Pleasant Hospital provide services primarily to the residents of the greater Charleston, South Carolina, area without collateral or other proof of ability to pay, most of whom are insured by third-party pay or agreements.

The mix of receivables from patients and third-party payors as of December 31, 2013 and 2012, is as follows

	2013	2012
Medicare	34 %	37 %
Medicaid	12	11
Commercial and others	31	30
Patients	<u>23</u>	<u>22</u>
 Total	 <u>100 %</u>	 <u>100 %</u>

15. FAIR VALUE OF FINANCIAL INSTRUMENTS

In accordance with GAAP, certain assets and liabilities are required to be measured at fair value on a recurring basis. For CareAlliance, the assets and liabilities that are adjusted at fair value on a recurring basis are short- and long-term investments, assets whose use is limited, and interest rate swaps.

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. Additionally, the inputs used to measure fair value are prioritized based on a three-level hierarchy. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

Level 1 — Valuations based on unadjusted quoted prices for identical instruments in active markets that are available as of the measurement date

Level 2 — Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly

Level 3 — Valuations based on inputs that are unobservable and significant to the overall fair value measurement

There were no transfers of investments between levels for the years ended December 31, 2013 and 2012.

The fair value hierarchy of investments and assets limited as to use as of December 31, 2013 and 2012, is as follows

	Fair Value Measurement at Reporting Date Using			
	Fair Value	Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs	Significant Unobservable Inputs
		(Level 1)	(Level 2)	(Level 3)
As of December 31, 2013

CareAlliance estimates the fair value of investments in common collective trust funds, which do not have readily determinable fair values, using the reported net asset value as a practical expedient for fair value. The use of net asset value as a practical expedient for fair value is permitted under GAAP for investments in entities that meet the description of an investment company and whose underlying investments are measured at fair value. The common collective trust funds held by CareAlliance invest primarily in marketable debt and equity securities with readily determinable fair values.

CareAlliance estimates the fair value of its investments in limited partnerships based on information provided by the fund managers. Because CareAlliance's investments in limited partnerships are not readily marketable and do not transact frequently, their estimated fair value is subject to uncertainty and, therefore, may differ from the fair value that would have been used had a ready market for such investments existed. Such differences could be material.

A reconciliation of changes in beginning and ending balances for investments measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the years ended December 31, 2013 and 2012, is as follows

	Fair Value Measurements Using Significant Unobservable Inputs	
	Level 3 — Limited Partnerships	
	2013	2012
Beginning balance — January 1	\$ 46,984,000	\$ 31,253,000

Management estimates the fair value of interest rate hedges based primarily on Level 2 inputs. Management also considers the creditworthiness of CareAlliance and its counterparties in estimating the

fair value of interest rate hedges, however, the effect of credit valuation adjustments was not significant to the fair value measurements as of December 31, 2013 or 2012

As of December 31, 2013 and 2012, the carrying amounts reported in CareAlliance's consolidated balance sheets for cash equivalents, receivables, accounts payable, and accrued expenses approximate fair value. At December 31, 2013 and 2012, the fair value of CareAlliance's long-term debt was approximately \$314,999,000 and \$339,898,000, respectively. Management estimates the fair value of long-term debt based primarily on Level 2 inputs.

16. COMMITMENTS AND CONTINGENCIES

CareAlliance is self-insured for professional malpractice claims exposures. The laws of the State currently limit the amount that can be received from certain nonprofit medical facilities for damages for medical services rendered by the facility or the facility's employees to \$300,000 per claim and an aggregate of \$600,000 per occurrence. CareAlliance's provision for estimated medical malpractice claims includes estimates of the ultimate costs for reported claims and claims incurred but not reported. CareAlliance's liability for professional malpractice is based on actuarially projected estimates discounted to present value at a rate of 4% at December 31, 2013.

CareAlliance is also self-insured for employee health insurance claims and employee workers' compensation claims. Liabilities for asserted and unasserted claims under each of these self-insurance programs have been recorded and included in accrued expenses in the consolidated balance sheets.

CareAlliance is involved in litigation arising in the ordinary course of business. It is the opinion of management, based on consultation with legal counsel, that these cases will be resolved without material adverse effect on CareAlliance's financial position, results from operations, or cash flows.

The health care industry is subject to numerous laws and regulations of federal, state, and local governments. These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government health care program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Recently, government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by health care providers.

Violations of these laws and regulations could result in expulsion from government health care programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed. Management believes that CareAlliance is in compliance with fraud and abuse statutes and regulations, as well as other applicable government laws and regulations.

CareAlliance has entered into an agreement with MSSC which grants CareAlliance the unilateral option, through October 25, 2017, to purchase approximately 66 acres of land in Berkeley County, South Carolina, at an amount equal to the initial purchase price paid by MSSC of \$8,902,700, plus increases of 6% cumulatively on each subsequent anniversary of the purchase date (the "Estimated Projected Value of the Property"). If CareAlliance does not purchase the property by October 25, 2017, MSSC shall have the right to retain or sell the property at its own cost and expense, provided that CareAlliance shall pay MSSC a termination payment equal to the difference between the actual sales price and the Estimated Projected Value of the Property. Management has estimated the value of the termination payment to be approximately \$3,625,000 and \$2,894,000 as of December 31, 2013 and 2012, respectively.

17. FUNCTIONAL EXPENSES

CareAlliance provides general health care services to residents within its geographic location. Expenses related to providing these services for the years ended December 31, 2013 and 2012, are as follows

	2013	2012
Health care services	\$ 657,620,000	\$ 638,325,000
Supporting services	<u>81,659,000</u>	<u>77,893,000</u>
Total expenses	<u><u>\$ 739,279,000</u></u>	<u><u>\$ 716,218,000</u></u>

18. RELATED-PARTY TRANSACTIONS

Payments to the Founding Members for management fees and services were approximately \$11,632,000 and \$8,701,000 for the years ended December 31, 2013 and 2012, respectively.

At December 31, 2013, CareAlliance had other receivables of \$1,184,000 due from MSSC reflecting unpaid member contributions for reimbursement of expenses. In addition, CareAlliance received \$1,185,000 from MSSC for acquisition of property and equipment during the year ended December 31, 2013.

19. SUBSEQUENT EVENTS

The System's Founding Members have entered into a liquidity replenishment agreement whereby the Founding Members agreed to contribute cash to the System if days cash on hand (as defined in the agreement) is below 75 days as of any biannual measurement date (measured as of June 30 and December 31) or if below 85 days as of any biannual measurement date and 90 days thereafter. In either event, the Founding Members agree to contribute cash to the System so that it maintains a minimum of 85 days cash on hand. The Founding Members have also agreed to limit the System's total annual cash contribution to the Founding Members to \$14.8 million. The Medical Society of South Carolina has the right to remove the limit on the annual distribution, but must give the System at least a three-year notice prior to removing the limit on the annual distribution.
