<sup>18</sup>See Fund Prospectus for further details on the liquidity characteristics of your investment.

<sup>22</sup>Estimated using Net Asset Value (NAV), when available, or estimated as Computed Market Value minus adjusted Cost Basis.

<sup>24</sup>Distributions of this investment may be subject to reinvestment or recall by the partnership before or after the expiration of the commitment period.

<sup>25</sup>Cash may be included.

<sup>26</sup>This is based on Net Asset Value (NAV), when available, or estimated as total capital balance, when available, plus any contributions and minus any distributions since the last capital statement.

<sup>27</sup>Cap Statement Value for levered investors represents the remaining value of your equity plus the net earnings/loss on your leverage. A negative Cap Statement Value reflects losses on your leverage in excess of the remaining value of your equity and may reflect more than your actual liability which cannot exceed your remaining capital commitment. Computed Market Value represents the last available cap statement value plus subsequent contributions and less subsequent distributions but will not exceed your remaining capital commitment. As a result, a negative Computed Market Value reflects your actual liability.
