All applications for grants should be addressed as follows:

Stedman West Foundation
P.O. Box 7
Houston, TX 77001
Attention: Stuart W. Stedman
Telephone: 713.520.0400

Part XV, Line 2b

Applications for grants should be submitted in letter or proposal form. Organizations that apply should include a brief description of the organization's activity, the proposed use of the funds requested, the amount of funds requested and other information considered pertinent to the request.

Part XV, Line 2c

Grants may be made at any meeting of the Trustees. Applications should be submitted prior to the first day of December.

Part XV, Line 2d

Grants are made only to publicly supported 501(c)(3) organizations. Applications from individuals are not considered.

In awarding grants, the Foundation gives preference to Texas organizations. The majority of grants are made to medical, educational and cultural arts organizations; however, to the extent that funds are available, grants may be made for other purposes and to organizations in other states.

2013 ANNUAL STATEMENT SUMMARY

The following sections are provided to facilitate your review and the preparation of your tax return

The 2013 Proceeds from Broker and Barter Exchange Transactions section includes both sales of positions for "covered securities" and "noncovered securities". A covered security includes those with a purchase date within the following timeline: Equities acquired on or after January 1, 2011 and Mutual Funds acquired on or after January 1, 2012. Legislation requires reporting the gross proceeds of the sales of "covered" and "noncovered" securities and the adjusted cost basis for "covered securities". Any sale of a security that is considered a "noncovered security" will still be included in this section with the adjusted cost basis (where available)

In calculating gain (loss), unless otherwise noted, it was assumed that the oldest position was liquidated first, and that you have made an election to amortize the premium paid on the purchase of taxable bonds. Under the Cost Basis Reporting Regulations, brokers need not track wash sale activity for substantially identical securities, transactions across accounts, or between covered and non-covered securities. However, you as a taxpayer still have to track and report wash sales as you have in the past which would include all of the aforementioned transaction types. Securities distributed from a retirement account reflect the tax basis on the date of distribution. Other methods for calculating gain (loss) are available. The cost basis for most Original Issue Discount ("OID") obligations includes the accretion of OID. For purposes of allocating original purchase price to the components of an equity unit consisting of a purchase contract and a debt security subject to a remarketing event, we assumed that the fair market value of the debt security on purchase date was equal to its adjusted issue price. The difference between your original cost and the amount allocable to the debt component was allocated to the purchase contract. In making adjustments to the cost basis of the purchase contract, it was assumed that the unit holder included contract adjustment payments in income when received.

This is important tax information and is being furnished to the Internal Revenue Service. If you are required to file a return, a negligence penalty or other sanction may be imposed on you if this income is taxable and the IRS determines that it has not been reported.

2013 ANNUAL STATEMENT SUMMARY

The following sections are provided to facilitate your review and the preparation of your tax return

The 2013 Proceeds from Broker and Barter Exchange Transactions section includes both sales of positions for "covered securities" and "noncovered securities". A covered security includes those with a purchase date within the following timeline: Equities acquired on or after January 1, 2011 and Mutual Funds acquired on or after January 1, 2012. Legislation requires reporting the gross proceeds of the sales of "covered" and "noncovered" securities and the adjusted cost basis for "covered securities". Any sale of a security that is considered a "noncovered security" will still be included in this section with the adjusted cost basis (where available)

In calculating gain (loss), unless otherwise noted, it was assumed that the oldest position was liquidated first, and that you have made an election to amortize the premium paid on the purchase of taxable bonds. Under the Cost Basis Reporting Regulations, brokers need not track wash sale activity for substantially identical securities, transactions across accounts, or between covered and non-covered securities. However, you as a taxpayer still have to track and report wash sales as you have in the past which would include all of the aforementioned transaction types. Securities distributed from a retirement account reflect the tax basis on the date of distribution. Other methods for calculating gain (loss) are available. The cost basis for most Original Issue Discount ("OID") obligations includes the accretion of OID. For purposes of allocating original purchase price to the components of an equity unit consisting of a purchase contract and a debt security subject to a remarketing event, we assumed that the fair market value of the debt security on purchase date was equal to its adjusted issue price. The difference between your original cost and the amount allocable to the debt component was allocated to the purchase contract. In making adjustments to the cost basis of the purchase contract, it was assumed that the unit holder included contract adjustment payments in income when received.

This is important tax information and is being furnished to the Internal Revenue Service. If you are required to file a return, a negligence penalty or other sanction may be imposed on you if this income is taxable and the IRS determines that it has not been reported.

2013 ANNUAL STATEMENT SUMMARY

The following sections are provided to facilitate your review and the preparation of your tax return

The 2013 Proceeds from Broker and Barter Exchange Transactions section includes both sales of positions for "covered securities" and "noncovered securities". A covered security includes those with a purchase date within the following timeline: Equities acquired on or after January 1, 2011 and Mutual Funds acquired on or after January 1, 2012. Legislation requires reporting the gross proceeds of the sales of "covered" and "noncovered" securities and the adjusted cost basis for "covered securities". Any sale of a security that is considered a "noncovered security" will still be included in this section with the adjusted cost basis (where available)

In calculating gain (loss), unless otherwise noted, it was assumed that the oldest position was liquidated first, and that you have made an election to amortize the premium paid on the purchase of taxable bonds. Under the Cost Basis Reporting Regulations, brokers need not track wash sale activity for substantially identical securities, transactions across accounts, or between covered and non-covered securities. However, you as a taxpayer still have to track and report wash sales as you have in the past which would include all of the aforementioned transaction types. Securities distributed from a retirement account reflect the tax basis on the date of distribution. Other methods for calculating gain (loss) are available. The cost basis for most Original Issue Discount ("OID") obligations includes the accretion of OID. For purposes of allocating original purchase price to the components of an equity unit consisting of a purchase contract and a debt security subject to a remarketing event, we assumed that the fair market value of the debt security on purchase date was equal to its adjusted issue price. The difference between your original cost and the amount allocable to the debt component was allocated to the purchase contract. In making adjustments to the cost basis of the purchase contract, it was assumed that the unit holder included contract adjustment payments in income when received.

This is important tax information and is being furnished to the Internal Revenue Service if you are required to file a return, a negligence penalty or other sanction may be imposed on you if this income is taxable and the IRS determines that it has not been reported

2013 ANNUAL STATEMENT SUMMARY

The following sections are provided to facilitate your review and the preparation of your tax return

The 2013 Proceeds from Broker and Barter Exchange Transactions section includes both sales of positions for "covered securities" and "noncovered securities". A covered security includes those with a purchase date within the following timeline: Equities acquired on or after January 1, 2011 and Mutual Funds acquired on or after January 1, 2012. Legislation requires reporting the gross proceeds of the sales of "covered" and "noncovered" securities and the adjusted cost basis for "covered securities". Any sale of a security that is considered a "noncovered security" will still be included in this section with the adjusted cost basis (where available)

In calculating gain (loss), unless otherwise noted, it was assumed that the oldest position was liquidated first, and that you have made an election to amortize the premium paid on the purchase of taxable bonds. Under the Cost Basis Reporting Regulations, brokers need not track wash sale activity for substantially identical securities, transactions across accounts, or between covered and non-covered securities. However, you as a taxpayer still have to track and report wash sales as you have in the past which would include all of the aforementioned transaction types. Securities distributed from a retirement account reflect the tax basis on the date of distribution. Other methods for calculating gain (loss) are available. The cost basis for most Original Issue Discount ("OID") obligations includes the accretion of OID. For purposes of allocating original purchase price to the components of an equity unit consisting of a purchase contract and a debt security subject to a remarketing event, we assumed that the fair market value of the debt security on purchase date was equal to its adjusted issue price. The difference between your original cost and the amount allocable to the debt component was allocated to the purchase contract. In making adjustments to the cost basis of the purchase contract, it was assumed that the unit holder included contract adjustment payments in income when received.

This is important tax information and is being furnished to the Internal Revenue Service. If you are required to file a return, a negligence penalty or other sanction may be imposed on you if this income is taxable and the IRS determines that it has not been reported.

2013 ANNUAL STATEMENT SUMMARY

The following sections are provided to facilitate your review and the preparation of your tax return

The 2013 Proceeds from Broker and Barter Exchange Transactions section includes both sales of positions for "covered securities" and "noncovered securities". A covered security includes those with a purchase date within the following timeline: Equities acquired on or after January 1, 2011 and Mutual Funds acquired on or after January 1, 2012. Legislation requires reporting the gross proceeds of the sales of "covered" and "noncovered" securities and the adjusted cost basis for "covered securities". Any sale of a security that is considered a "noncovered security" will still be included in this section with the adjusted cost basis (where available).

In calculating gain (loss), unless otherwise noted, it was assumed that the oldest position was liquidated first, and that you have made an election to amortize the premium paid on the purchase of taxable bonds. Under the Cost Basis Reporting Regulations, brokers need not track wash sale activity for substantially identical securities, transactions across accounts, or between covered and non-covered securities. However, you as a taxpayer still have to track and report wash sales as you have in the past which would include all of the aforementioned transaction types. Securities distributed from a retirement account reflect the tax basis on the date of distribution. Other methods for calculating gain (loss) are available. The cost basis for most Original Issue Discount ("OID") obligations includes the accretion of OID. For purposes of allocating original purchase price to the components of an equity unit consisting of a purchase contract and a debt security subject to a remarketing event, we assumed that the fair market value of the debt security on purchase date was equal to its adjusted issue price. The difference between your original cost and the amount allocable to the debt component was allocated to the purchase contract. In making adjustments to the cost basis of the purchase contract, it was assumed that the unit holder included contract adjustment payments in income when received.

This is important tax information and is being furnished to the Internal Revenue Service if you are required to file a return, a negligence penalty or other sanction may be imposed on you if this income is taxable and the IRS determines that it has not been reported
