EXPLANATION OF PART III, ANALYSIS IN NET WORTH

2013

All of the assets belonging to the Charitable Trust include a cash balance maintained in the Frost Bank, miscellaneous bonds, and other assets, and in brokerage accounts with Morgan Stanley and Raymond James and Associates. Interest and dividends are credited to these accounts as received and reinvested initially in money market accounts, and occasionally additional stock or other security investments are made. All charges of maintaining these accounts and all disbursements from the Trust are made from these accounts. If checks are written to make grants or pay specific expenses of the Trust, the checks are written on the Morgan Stanley account.

The change in values of investments in the accounts are monitored at least monthly, and if changes in investments are thought warranted, they are made. A final, month by month analysis and comparison to the previous month of each year is made at the end of the year, and the Trust investments are then further reviewed for possible changes by either additional investments or disposition of investments considered to be under performing.
