Part I Summary

1 Briefly describe the organization's mission or most significant activities
 The mission of the Blackfoot Challenge is to coordinate efforts that will conserve and enhance the natural resources and rural way of life in the Blackfoot River Valley for present and future generations. We support environmentally responsible resource stewardship through cooperation of private and public interests. The Blackfoot Challenge coordinates community-based programs to protect working land, conserve water and promote water use efficiency, educate all ages, increase fire safety and restore our forests, promote the values of community-based conservation, improve cross-boundary vegetation stewardship, and reduce conflicts between predators and people. Our success is structured by a strict process that leads with community values, invites participation from all watershed stakeholders, coordinates the conversations and partnerships, and supports these partnerships with good science. The Blackfoot has received national recognition for this success in coordinating private/public part.

Part III Statement of Program Service Accomplishments

Check if Schedule O contains a response or note to any line in this Part III

1 Briefly describe the organization's mission

The mission of the Blackfoot Challenge is to coordinate efforts that will conserve and enhance the natural resources and rural way of life in the Blackfoot River Valley for present and future generations We support environmentally responsible resource stewardship through cooperation of private and public interests The Blackfoot Challenge coordinates community-based programs to protect working land, conserve water and promote water use efficiency, educate all ages, increase fire safety and restore our forests, promote the values of community-based conservation, improve cross-boundary vegetation stewardship, and reduce conflicts between predators and people Our success is structured by a strict process that leads with community values, invites participation from all watershed stakeholders, coordinates the conversations and partnerships, and supports these partnerships with good science The Blackfoot has received national recognition for this success in coordinating private/public part

Conservation Strategies In 2000, the Conservation Strategies Committee formed to maintain a legacy of conservation while keeping the working landscapes of the Blackfoot intact Comprised of federal and state agency land managers, county planners, land trusts and private landowners, the committee continues to meet to share information and resources promoting collaborative conservation across the watershed Since the beginning of the Blackfoot Community Project in 2003, nearly 76,000 of 89,000 acres purchased from Plum Creek Timber Company have been transferred into public and private ownership To date, approximately 75 percent of the Blackfoot watershed is in conserved working status Blackfoot Community Conservation AreaThe Blackfoot Community Conservation Area, an outcome of the Blackfoot Community Project, is a community-managed 41,000-acre area at the intersection of wilderness, national forest and productive valley bottoms just north of Ovando The 15-member BCCA Council continues to manage the 5,600-acre core area for multi-use objectives This years accomplishments on the BCCA include Approximately 150 acres of weeds sprayed Five weed biocontrol releases for spotted knapweed 90 acres of forest health treatments completed Second year of Conservation Stewardship Program completed Two gravity stockwater systems installed to complement grazing rotation Continued enrollment in FWP Block Management Program Multiple field tours held for partner and student groups WeedsThe Blackfoot Challenge partnered with multiple agencies, landowners and land managers throughout 2013 to implement weed management activities across approximately 15,000 acres The release and monitoring of biological control insects complemented a variety of herbicide application methods Weed management partnerships enabled the Challenge to leverage cost-share grants and other funding, maximizing resources and results across boundaries Our 2013 accomplishments include 44 2 miles of the Blackfoot River bank treated 12,990 acres of Helena National Forest in the Lincoln and Helmsville areas treated 394 acres BLM land in Douglas Creek, Chamberlain/Marcum, North Hoodoos and Hamilton Gulch treated 153 acres of roadside within Lolo National Forest and Placid Lake State Park treated Over 450 acres of private land treated Biological controls establishment and insect releases on spotted knapweed, leafy spurge & yellow toadflax ForestryIn 2013 significant progress was made in portions of the Blackfoot watershed toward our goal of increased fire safety The loss of 19 young firefighters lives in the Yamell, Anz , fire reminded us how important this goal is Though we escaped any major fires in our watershed, homes were burned in nearby Lolo Creek, and Colorados Black Forest Fire destroyed 486 homes, the states most destructive fire on record The loss of lives and property to wildfire is preventable, especially in Western Montana where we can live safely in the forest after fuels are reduced to manageable levels To this end, landowners and land managers treated hundreds of acres of fuels in and around our communities in 2013 Our forestry accomplishments include 400 acres of fuels treated using Blackfoot Challenge cost-share funding Hundreds more acres treated as a result of technical assistance and partnerships WildlifeThroughout 2013 the Wildlife Committee continued to work to reduce grizzly bear-human conflicts and to proactively address wolf-livestock conflicts Overall, conflicts with grizzly bears and wolves remained low despite an adult grizzly female mortality New challenges emerged for us in 2013 like the seasonal use of agncultural crops by grizzlies We will bring our team lift approach to this important issue in the coming years Wolf-livestock conflicts were low in 2013 with two probable livestock losses to wolves and no wolves removed for depredations Our livestock carcass removal program, extensive system of electric fences, and our wolf and livestock monitoring program continue to help keep overall conflicts with carnivores low in the Blackfoot Valley Our 2013 wildlife accomplishments include Over 5,000 livestock carcasses removed in Blackfoot and Granite County since 2003 Five new livestock carcass management programs modeled after the Blackfoot Valley underway in Montana (2), Washington State (2), and Alberta (1) 18 electric fences on calving areas installed to protect livestock Three wolf packs and 12 livestock herds intensively monitored with range riders across 45,000 acres Over 2,100 hours of livestock monitoring logged by range riders and cooperating producers Water ResourcesThe Blackfoot Challenge takes a comprehensive approach to caring for our shared and limited water resources From drought management to irrigation efficiency, water stewardship strategies unite landowners, agencies and conservation partners under common goals In 2013, the Challenge completed its fourth year of the irrigation scheduling program, helping irrigators apply the right amount of water at the right time to meet crop production and water efficiency goals Late summer also brought low river flows and necessitated active drought response Overall, the lessons learned through all Blackfoot Challenge water programs helped to inform other watershed groups in 2013, most notably through the Challenge staffs participation in drafting the new Montana State Water Plan Our water program has Updated nearly 100 irrigators and partners weekly with irrigation scheduling reports Placed 1,200 acres under irrigation scheduling, bringing the four-year total to nearly 5,000 acres Completed the Blackfoot Irrigation Guide to help irrigators implement scheduling Conserved 32 million gallons of water through cooperative Blackfoot drought response Implemented Best Management Practices on 70 25 miles of roads to reduce sedimentation A SHARED APPROACH TO DROUGHTIn the last 13 years, the Blackfoot Drought Plan has been enacted eight times demonstrating the real need for this coordinated response By early August of 2013, the Blackfoot River had dropped below the 700 cfs flow trigger for implementing the plan once again The Drought Committee went into overdrive, coordinating with outfitters, irrigators and the general public to initiate and encourage a shared response to the low river conditions Water updates and drought response requests went out regularly to nearly 100 landowners and 120 river outfitters Dozens of irrigators voluntarily stepped up to scale back or discontinue irrigating Anglers followed fishing restrictions, limiting the timing and location where they could fish In the process of this shared sacrifice, we estimate that as much as 32 million gallons of water was conserved, helping to protect native fisheries and equitably share the responsibility for ensuring a healthy river system Education & OutreachWhile both education and outreach weave their way through all programs, a focus on fostering resource stewardship in the watersheds youth began early on The outdoors is the best classroom for teaching students about natural resources and the rural way of life Developed in association with teachers, Youth Field Day and the Adopt-A-Swan Program continue to be mainstays of the Challenges approach to place-based education We are very thankful to work with the many creative and passionate educators who call the Blackfoot home In 2013, we continued to share the community-based approach to conservation with those eager to learn We reached 3,230 individuals through tours, workshops and meetings within the watershed as well as at regional and national scales 100 students attended the Annual Trumpeter Swan Release, learning stations, and agency directors Q & A 85 people joined us for a Partners Tour of Bonner and Milltown on June 15th 150 4th-6th grade students attended the Annual Youth Field Day at Garnet Ghost Town in September 185 watershed residents turned out for Your Voice for Land and Community Sixty-five public and private participants at 2nd community-based conservation workshop YOUR VOICE FOR LAND AND COMMUNITYAs we reflect on 20 years of outcomes for the resources and people of the Blackfoot, we asked for your help evaluating our progress as well as prioritizing for the years ahead In September, the Challenge partnered with Headwaters Economics and The Wilderness Society to host a series of discussions centered around three themes environment, community and economy What do we value the most today? What do we want to be different in the future? And how can the Challenge help realize that vision? Across the watershed we heard that people value the high quality of life the Blackfoot has to offer People are neighborly, kind and respectful We value the watersheds rural character, agricultural heritage, and health of the natural environment Looking to the future, people see deliberate, diverse and sustainable economic development that do
