Explanation: The Center adopted the Accounting for Uncertainty in Income

Taxes accounting standard which requires the entity to determine whether a

tax position (and the related tax benefit) is more likely than not to be

sustained upon examination by the applicable taxing authority, based

solely on the technical merits of the position. The Center believes it

has appropriate support for any tax positions taken, and as such, does not

have any uncertain tax positions that are significant to the financial

statements. The Center's tax returns for the previous three years are

subject to examination by the IRS, generally for three years after initial

filing.
