4a	(Code) (Expenses \$ 6,324,764 including grants of \$ 6,097,306) (Revenue \$ 0) Donations to Swedish Medical Center Foundation helped advance patient-centered programs throughout the hospital in 2013, including the following key areas (1) Area of greatest need - Unrestricted donations provide Swedish with the flexibility to devote funds to essential, high-priority needs of the hospital. These gifts help us improve the health and well-being of each person we serve by funding (a) The latest medical technology such as a C-MAC video intubation platform which allows anesthesiologists to perform procedures such as nerve blocks and central lines under direct ultrasound guidance. Video intubation increases a physician's ability to visualize the patient's anatomy prior to starting a procedure, which increases accuracy and saves time. (b) Improved patient-care with the implementation of programs such as patient guides to help translate patient materials to better serve linguistically-diverse populations and tailor materials to be culturally relevant and appropriate for different literacy levels (c) Research to improve outcomes which address knowledge gaps and provide findings aimed to improve clinical care outcomes. (2.) Swedish Heart & Vascular Institute (SHVI) is the region's leading cardiovascular care center, with the broadest range of services and subspecialties and expertise in the most complex conditions. SHVI is dedicated to providing cutting-edge treatments to win the fight against heart disease. In our unique environment, heart and vascular specialists collaborate to provide the most advanced and effective treatments specific to each individual patient. Combining our expertise with the latest cardiovascular facilities, the most advanced technology, and state-of-the-art equipment, we offer advanced, integrated, and personalized care to patients throughout the Puget Sound region. Donations provide us with new technology, enhanced patient education, innovative research, and most importantly, improved patient care.
4b	(Code) (Expenses \$ 3,269,857 including grants of \$ 3,152,264) (Revenue \$ 0) Women and Infants Lytle Center - Nearly 10,000 babies are born each year at Swedish Providing the highest level of care, resources and education is imperative to helping families successfully navigate the experience of becoming a parent and caring for their new baby. Parents and caregivers face challenging issues such as shortened maternity stays, less family support, and higher financial demands. Helping families remain stable during pregnancy and the early months of a baby's life can have dramatic and lifelong effects on children. To address these needs, Swedish celebrated the opening of the Lytle Center for Pregnancy and Newborns in July of 2013. The Center's purpose is to provide care and support services to help families during the months before and after a baby is born. Our goal is to help parents be successful and confident caregivers, preparing them for the birth of a new child and helping them cope with the abrupt transition from high-tech, around-the-clock care to being at home alone with a newborn. The Center is open to all members of the community. It was constructed in a 5,400 square-foot, ground-level space on Swedish's First Hill campus, where it is easily accessible from the hospital's South Entrance. The Center was funded through \$3.5 million in philanthropic support from the community and serves more than 1,000 people per month.

	Neuro - MS Center Swedish had become a national leader in treating patients with multiple sclerosis (MS) and in conducting a broad range of MS-related clinical research studies. The MS Center at Swedish Neuroscience Institute is also the primary referral center for patients in the Puget Sound region seeking specialty care. To address and prepare for future growth, the Center recently underwent a major expansion. In April 2012, Swedish opened a new 11,700 square-foot space on the Swedish/Cherry Hill campus that is one of the largest and most comprehensive MS centers in the United States. The expansion consolidated state-of-the-art clinical care, research studies, and patient and family education activities in a facility designed to promote the well-being of MS patients and to advance the standard of care for MS. Today, the MS Center sees approximately 3,000 patients a year, 1,000 more patients than the program saw annually before the expansion, and roughly halfway to the program's long-term goal of seeing 6,000 patients a year. More than \$4.3 million in community support has been raised to date to support the MS Center's physical expansion, and the growth in comprehensive programming at the Center since 2010.
