Form and Line Reference	Explanation
Schedule H, Part V, Section B, Line 3-Santa Barbara Cottage Hospital	As part of this Community Health Needs Assessment, five focus groups were held on October 9-10, 2013 The focus group participants included 52 local key informants representatives
	from public health, physicians, other health professionals, social
	service providers, employers, and other community leaders. A list of recommended participants for the focus groups was
	provided by Cottage Health System Potential participants were chosen because of their ability to identify primary concerns of the
	populations with whom they work, as well as of the community overall Focus group candidates were first contacted by letter to
	request their participation Follow-up phone calls were then made
	to ascertain whether or not they would be able to attend Confirmation calls were placed the day before the groups were
	scheduled to insure a reasonable turnout. Through this process, input was gathered from a representatives of local government.
	officials, public health, as well as several individuals whose organizations work with low-income, minority (including

Provide the following information

1 Required descriptions. Provide the descriptions required for Part I, lines 3c, 6a, and 7, Part II and Part III, lines 2, 3, 4, 8 and 9b

2 Needs assessment. Describe how the organization assesses the health care needs of the communities it serves, in addition to any CHNAs reported in Part V, Section B

3 Patient education of eligibility for assistance. Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's financial assistance policy

4 Community information. Describe the community the organization serves, taking into account the geographic area and demographic constituents it serves

Promotion of community health. Provide any other information important to describing how the organization's hospital facilities or other health care facilities further its exempt purpose by promoting the health of the community (e.g., open medical staff, community board, use of surplus funds, etc.)

Affiliated health care system. If the organization is part of an affiliated health care system, describe the respective roles of the organization and its affiliates in promoting the health of the communities served

7 State filing of community benefit report. If applicable, identify all states with which the organization, or a related organization, files a community benefit report

Form and Line Reference	Explanation
Schedule H, Part I, Line 6a	Cottage Health System prepares a Community Benefit Report on behalf of Santa Barbara Cottage Hospital, Goleta Valley Cottage Hospital and Santa Ynez Valley Cottage Hospital It is filed with the State of California, in compliance with California Senate Bill 697 The Community Benefit Report is available to the public upon request
Schedule H, Part I, Line 7	The costing methodology includes inpatient, outpatient, and emergency department and is broken down by payer categories. Both direct and overhead costs have been allocated, by services rendered Each Payers net revenue is offset by the total cost and the results by Payer are calculated. In addition to a hospital wide cost to charge ratio, we have calculated cost to charge ratios for each Payer, based on the cost of the type of services rendered to their specific patients. Therefore, the community benefit amounts attributable to Medicaid and other government programs are calculated based on their specific cost to charge ratio.

Form and Line Reference	Explanation				
Scheuule II. Fait I. Lille / u	Palliative Care services are provided at no cost to the patient. In addition, Santa Barbara Cottage Hospital provides pediatric outpatient clinics, cognitive health services, and lactation services to the community, all at a substantial financial loss to the hospital				
2	Patient service revenue, net of contractual allowances and discounts, is reduced by the provision for bad debts, and accounts receivable is reduced by an allowance for uncollectible accounts. The System establishes an allowance for uncollectible accounts based on many factors, including payer mix, age of receivables, historical cash collection experience, and other relevant information. A significant portion of the Systems uninsured patients will be unable or unwilling to pay for services provided and a significant portion of the Systems insured patients will be unable or unwilling to pay for co-payments and deductibles. Thus, the System records a significant provision for bad debts related to these insured and uninsured patients in the period the services are provided. The System writes down the expected reimbursement after reasonable collection efforts have been exhausted.				

Schedule H, Part III, Section A, Line 4	Bad debt is not included in the Community Benefit report FOOTNOTE Patient service revenue, net of contractual allowances and discounts, is reduced by the provision for bad debts, and accounts receivable is reduced by an allowance for uncollectible accounts. The System establishes an allowance for uncollectible accounts based on many factors, including payer mix, age of receivables, historical cash collection experience, and other relevant information. A significant portion of the Systems uninsured patients will be unable or unwilling to pay for services provided and a significant portion of the Systems insured patients will be unable or unwilling to pay for co-payments and deductibles. Thus, the System records a significant provision for bad debts related to these insured and uninsured patients in the period the services are provided. The System writes down the expected reimbursement after reasonable collection efforts have been exhausted.
Schedule H, Part III, Section B, Line 8	The shortfall from total costs for Medicare patients is a significant loss to the hospital. The Hospital is providing care to patients whose insurance (Medicare) does not cover the entire cost of their care. This provides significant aid to the elderly in the community. Some of these elderly people would qualify under FAP guidelines for charity care under any other Payer program. The dollars reported are taken from the 2013 Medicare Cost Report and are derived following their guidelines of allowable and non-allowable costs.

Explanation

Form and Line Reference

Form and Line Reference	Explanation
Schedule H, Part III, Section C, Line 9b	All patients receive 6 statements over 135 days, which include a statement about how to inquire about financial assistance. Patients who are known to qualify for charity care or are in the process of applying for charity care are not sent to collection until a final charity care determination is made. If they qualify, their account is written down to zero.
Schedule H, Part VI, Line 2	Cottage Health System, through its hospitals Santa Barbara Cottage Hospital, Goleta Valley Cottage Hospital and Santa Ynez Valley Cottage Hospital, assesses the needs of the community through the Community Health Needs Assessment For each hospital, an outside consultant was engaged to review the relevant health and population statistics, conduct a telephone survey of identified community members and hold focus groups with community leaders who represented a broad group of community members. Along with the CHNA conducted by the Hospital, CHS also utilizes the health assessment prepared by the County of Santa Barbara to assess the health of the community. Needs identified in the CHNA include. Access to Care, Immunization & Infectious Diseases, Infant Health & Family Planning, Oral Health, Substance Abuse, Nutrition, Physical Activity & Weight, Dementias, Diabetes, and Mental Health & Mental Disorders. Hospitals are using the information to further support the robust community benefit program that was already in place. The Hospitals provide critical funding for community health, charity care, and external grants, while also realizing shortfalls in Medicare, Medi-Cal, and indigent care. Activities in these areas included screenings and health fairs, classes, clinics, lectures, and seminars, community services, community collaborations, and coalitions/committees. In 2013, Cottage Health System spent over \$146 million on these programs.

Schedule H, Part VI, Line 3	Cottage Health System has a multifaceted Financial Assistance Program to ensure that patients who do not have insurance are screened for eligibility in a government sponsored healthcare plan and receive information about charity care programs. Every patient who does not present the hospital with proof of insurance or existing government support will be given a handout (in English or Spanish) upon registration that is compliant with California Assembly Bill 774 (AB774). The handout contains information about the Hospital charity care programs. This includes where to obtain applications, income guidelines, other qualification information and contact information for Customer Service and the Admitting department. The Hospital posts information about the charity care program in all registration areas required by AB774. Signs in English and Spanish are located in all areas where patients are registered for inpatient and outpatient services. Signs are also located in the patient billing office and cashier office. Patients will also be contacted by an admitting representative or eligibility counselor to assist the patient in determining eligibility for government sponsored insurance programs and assist with the application process at no cost to the patient.
	Financial Counselors who answer customer service calls are instructed to offer charity care applications to all patients who indicate they have financial need
Schedule H, Part VI, Line 4	applications to all patients who indicate they have financial need Santa Barbara County consists of 2,750 square miles of land and inland water area. Approximately rectangular in shape, Santa Barbara County is bordered on the north by San Luis Obispo County, on the east by Ventura County, and on the south and west by 107 miles of Pacific coastline. Much of the county is mountainous. The Santa Ynez, San Rafael and Sierra Madre mountains extend in a predominately east west direction. Within the county, there are numerous fertile agricultural areas, including the Santa Maria, Cuyama, Lompoc, and Santa Ynez Valleys, and the southeast coastal plain. These areas, which include most of the developed land, also accommodate the majority of the population. Los Padres National Forest, in the eastern part of the county, covers approximately 44 percent of the total county area. Vandenberg Air Force Base is in the Lompoc region, while UCSB is on the South Coast. North County refers to the area west and north of Gaviota and includes the Lompoc, Santa Maria, Santa Ynez and Cuyama valleys. South Coast refers to the Goleta, Santa Barbara, and Carpinteria coastal plain. Santa Barbara Countys 423,895 population is divided into six sub regions. Carpinteria Valley (4.2%), Santa Barbara/Goleta Region (4.3.5%), Santa Ynez Valley (5.3%), Lompoc Valley (1.4%), Santa Maria Valley (3.1%), Guadalupe Valley (1.7%), and the Cuyama Valley (3.8%). Of the total population, 50% are females. The median age is 3.3.6 years. The population age breakdown is 2.9% percent is 0 to 17 years old, 58% are 20 to 54 years old and 1.3% are 6.5 and older. For people reporting one race, 8.8.6% are White, 2.4% are Black or African American, 1.7% are American Indian or Alaska Native, 4.5% are Asian, less than 0.3% are Native Hawaiian or Other Pacific Islander, and 2.5% reported 2 or more races. 4.0.4% are persons of Hispanic or Latino origin. Of the County's population, 2.1% are foreign-born, 3.2.8% of persons over the age of five reported speaking a language ot

The Board of Directors is actively involved in the Hospitals strategic decisions and takes its commitment to the Community very seriously. The Board approves of an annual financial budget and ten year financial plan to guarantee the Hospital will continue to offer hospital services to the Community for years to come. The Board also approves of annual top goals that are consistent with the mission, vision and values of the Hospital. The financial forethought of the Board of Directors resulted in surplus funds that are being used to rebuild the facility. Santa Barbara Cottage Hospital is building a new hospital in order to comply with the unfunded mandate of the State of California Senate Bill 1953 (SB1953), which requires all hospitals to retrofit or rebuild in order to withstand a major earthquake. The Hospital used this opportunity to live the core value of excellence by ensuring that the new facility will meet the current and future healthcare needs of the Community. This is the largest project in the history of the Hospital. As the new facility is built the Hospital continues to evaluate bed allocations in order to ensure that Subacute services continue to be available, determining dedicated pediatric bed needs, and allocating beds by patient care unit based upon projected health needs. Santa Barbara Cottage Hospital works cooperatively with the open medical staff to improve healthcare in the community. The Hospital is exploring how to better align with physicians in order to
Schedule H, Part VI, Line 6	Cottage Health System is the parent organization of Santa Barbara Cottage Hospital, Goleta Valley Cottage Hospital and Santa Ynez Valley Cottage Hospital and Goleta Valley Professional Buildings, Inc. These organizations have a common Board of Directors. Cottage Health System Hospitals are the sole hospital providers in the Community and strategic plans are created with all the Hospitals and their Communities in mind. Santa Barbara Cottage Hospital Foundation provides grants to various organizations to promote healthy living and support nurse-training programs in the Community. Santa Barbara Cottage Hospital is the largest hospital in the system and provides the widest array of services. As such, Santa Barbara Cottage Hospital experiences the largest amount of charity care and Medicaid shortfall from cost. The hospital also provides the majority of community benefit programs, which are reported in the Cottage Health System Community Benefit Report.

Return Reference	Explanation
Schedule J, Part I, Line 3	On an annual basis the Executive Compensation Committee (ECC) of the Board of Directors meets to determine appropriate compensation for executives, including the CEO, COO, CFO, and vice presidents. All members of the ECC are independent members of the Board of Directors. The ECC engages an independent consultant to prepare comparative compensation reports for each position. The executives individual performance will also be considered when determining compensation. The ECC recommends compensation for the executives to the full Board for approval. This process takes place annually for all executives. Additional details found in the narrative for Schedule O, Part VI, Line 15.
	The amounts reported in the current years deferred compensation includes recognition of past service. The amounts are subject to a substantial risk of forfeiture. Any amounts paid under this plan in the future will be reported again as reportable compensation in the year paid. The System provides certain executives a supplemental retirement program. The program is defined as deferred compensation under the IRC Section 457(f). The annual contribution is 6.95% of base years salary with the contributions vesting five years from crediting date, or at age 62, or immediately in the event of death, disability, or involuntary termination without cause. The unvested account balances are assets of the System and are included in other assets and the accrued expense is included in pension liability and other in the accompanying consolidated balance sheets. Melinda Stavely received a payout from the 457(f) plan in the amount of \$14.492.

Report of Independent Auditors

The Board of Directors Cottage Health System

We have audited the accompanying consolidated financial statements of Cottage Health System (the System), which comprise the consolidated balance sheets as of December 31, 2013 and 2012, and the related consolidated statements of income, changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with US generally accepted accounting principles, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits We conducted our audits in accordance with auditing standards generally accepted in the United States Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control Accordingly, we express no such opinion An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Cottage Health System as of December 31, 2013 and 2012, and the consolidated results of its operations, changes in its net assets, and its cash flows for the years then ended, in conformity with U S generally accepted accounting principles

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. The accompanying supplementary information is presented for purposes of additional analysis and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated in all material respects in relation to the consolidated financial statements as a whole

Notes to Consolidated Financial Statements

December 31, 2013

1. Organization and Summary of Significant Accounting Policies

Organization

Cottage Health System (the System) was organized in 1996 as a not-for-profit California corporation to provide health care services through three acute care hospitals (collectively, the Hospitals) and related organizations in Santa Barbara, California The System is affiliated with the following not-for-profit entities, each of which shares a common Board of Directors (Board)

- Santa Barbara Cottage Hospital (Santa Barbara Cottage) an accredited 450-bed acute care facility offering inpatient and outpatient services
- Santa Ynez Valley Cottage Hospital (Santa Ynez Cottage) an accredited 10-bed acute care facility offering inpatient and outpatient services
- Goleta Valley Cottage Hospital (Goleta Valley Cottage) an accredited 122-bed acute care facility offering inpatient and outpatient services
- Goleta Valley Professional Buildings, Inc (the Professional Building) a corporation for medical office buildings which leases office space to medical providers and others
- Santa Barbara Cottage Hospital Foundation (the Santa Barbara Cottage Foundation) a charitable foundation which solicits funds for the benefit of Santa Barbara Cottage

The System is the sole corporate member of the above entities except for the Santa Barbara Cottage Foundation (see Note 5) The System is also affiliated with the following not-for-profit entities, which are governed by separate Boards of Directors

- Santa Ynez Valley Cottage Hospital Foundation (Santa Ynez Cottage Foundation) a charitable foundation which solicits funds for the benefit of Santa Ynez Cottage
- Goleta Valley Cottage Hospital Foundation (Goleta Valley Cottage Foundation) a charitable foundation which solicits funds for the benefit of Goleta Valley Cottage
- Rehabilitation Hospital Foundation (Rehabilitation Foundation) a charitable foundation which solicits funds for the benefit of rehabilitation programs performed at Santa Barbara Cottage

Notes to Consolidated Financial Statements (continued)

1. Organization and Summary of Significant Accounting Policies (continued)

Santa Barbara Cottage is the sole corporate member of Pacific Diagnostic Laboratories, LLC (Pacific Diagnostic), a reference laboratory

Basis of Presentation

The accompanying financial statements consolidate all not-for-profit organizations controlled by the System through sole corporate membership status, and all for-profit organizations for which the System holds a controlling financial interest, including the accounts of Santa Barbara Cottage, Goleta Valley Cottage, Santa Ynez Cottage, the Professional Building, and Pacific Diagnostic Laboratories All significant intercompany accounts and transactions have been eliminated

Santa Barbara Cottage Foundation

The System accounts for the Santa Barbara Cottage Foundation under the provisions of Financial Accounting Standards Board (FASB) Accounting Standard Codification (ASC) 958, Not-for-Profit Entities FASB ASC 958 addresses situations in which the recipient organization and the specified beneficiary meet the criteria defining them as financially interrelated organizations. If the organizations are financially interrelated, the recipient organization reports an asset and contribution revenue when it receives assets from the donor, and the specified beneficiary reports its interest in the net assets of the recipient organization. The System periodically adjusts its interest for its share of the change in net assets of the Santa Barbara Cottage Foundation.

Santa Barbara Cottage and the Santa Barbara Cottage Foundation's Board of Directors have historically been made up of the same individuals. However, neither the Santa Barbara Cottage Foundation's bylaws nor its articles of incorporation give Santa Barbara Cottage, its Board of Directors, or any other party the power to appoint or select members of the Santa Barbara Cottage Foundation's Board of Directors. As a result, Santa Barbara Cottage does not control Santa Barbara Cottage Foundation through the power to select Santa Barbara Cottage Foundation's directors. Thus, Santa Barbara Cottage Foundation is not consolidated in these financial statements. Santa Barbara Cottage Foundation solicits funds for the sole benefit of Santa Barbara Cottage. As such, the Santa Barbara Cottage Foundation and Santa Barbara Cottage are financially interrelated organizations as defined under FASB ASC 958. The interest in the net assets of the Santa Barbara Cottage Foundation is included in the accompanying

consolidated balance sheets The System records Santa Barbara Cottage Foundation's change in unrestricted net assets above the performance indicator because Santa Barbara Cottage has access to Santa Barbara Cottage Foundation's assets at will because of their common board of directors

The Rehabilitation Foundation solicits funds for the sole benefit of rehabilitation services performed at Santa Barbara Cottage As such, the Rehabilitation Foundation and Santa Barbara Cottage are financially interrelated organizations as defined by FASB ASC 958 The interest in the net assets of the Rehabilitation Foundation is included in the consolidated balance sheets

Goleta Valley Cottage Foundation

Goleta Valley Cottage and Goleta Valley Cottage Foundation are financially interrelated organizations as defined by FASB ASC 958 due to Goleta Valley Cottage's ability to influence the operating and financial decisions of Goleta Valley Cottage Foundation and Goleta Valley Cottage's ongoing economic interest in the net assets of the Goleta Valley Cottage Foundation The interest in the net assets of the Goleta Valley Cottage Foundation is included in the accompanying consolidated balance sheets

Use of Estimates

The preparation of financial statements in conformity with US generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements Estimates also affect the reported amounts of revenues and expenses during the reporting period Actual results could differ from these estimates

Community Benefit and Charity Care (Unaudited)

In furtherance of their charitable purpose, the Hospitals provide a wide variety of benefits to the community A large number of prevention and wellness programs are provided by the Hospitals, including low cost immunizations, wellness fairs, health screenings, health education classes, and the donation of space for use by community groups Additionally, the Hospitals and the Foundations provide multiple health care-related grants to local nonprofit organizations and support educational programs to increase the supply of health care professionals

A patient is classified as a charity patient by reference to certain established policies of the Hospitals Essentially, these policies define charity services as those services for which no payment is anticipated and includes patients who are unable to pay deductible and coinsurance amounts as determined by the insurance plan These charges are not included in accounts receivable or net patient service revenue The costs and expenses incurred in providing charity care are included in the Hospitals' operating expenses. It is the Hospitals' policy to treat emergency patients regardless of their ability to pay Charity care, uncompensated care to Medicare and Medicaid beneficiaries, and community benefits provided for the years ended December 31 were as follows

12,510,000	\$ 17,001,000

Net Patient Service Revenue

The Hospitals have agreements with third-party payors that provide for payments to the Hospitals at amounts different from their established rates Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per diem payments Net patient service revenue is reported on the accrual basis in the period in which

Notes to Consolidated Financial Statements (continued)

services are provided, net of third-party contractual allowances for Medicare, Medicaid, managed care, and other programs and insurers Contractual allowances include differences between established billing rates and amounts estimated by management as reimbursable under various cost reimbursement formulas and contracts in effect In 2013, the Hospitals recorded a change in estimate of \$8,500,000 in 2012 accounts receivable, benefiting net patient service revenue and excess of revenues over expenses in 2013

Net patient service revenue recognized for the years ended December 31 is as follows

		2013	2012
	(In Thousands)		
Government	\$	207,480 \$	189,305
Contracted		429,182	407,536
Self-pay and others		32,141	28,984
Patient service revenue (net of contractual allowances and discounts)		668,803	625,825
Provision for doubtful accounts		(20,332)	(20,905)
Net patient service revenue	\$	648,471 \$	604,920

The administrative procedures related to the cost reimbursement programs in effect generally preclude final determination of amounts due to or payable by the Hospitals until cost reports are audited or otherwise reviewed and settled upon by the applicable administrative agencies Normal estimation differences between final settlements and amounts accrued in previous years are reported as adjustments of net patient service revenue in the settlement year In 2013 and 2012, the Hospitals settled several previously filed Medicare and Medicaid cost reports and recorded changes in estimates benefiting net patient service revenue and excess of revenues over expenses totaling \$3,313,000 and \$4,721,000, respectively In the opinion of management, adequate provision has been made for adjustments, if any, that might result from subsequent reviews

Notes to Consolidated Financial Statements (continued)

1. Organization and Summary of Significant Accounting Policies (continued)

The Hospitals are reimbursed for services provided to patients under certain programs administered by governmental agencies. The Medicare program accounted for approximately 21% and 21% of the System's net patient service revenue in 2013 and 2012, respectively. The Medicaid programs accounted for approximately 8% of the System's net patient service revenue in 2013 and 2012.

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. The Hospitals believe that they are in compliance with all applicable laws and regulations and are not aware of any pending or threatened investigations involving allegations of potential wrongdoing. While no such regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation as well as significant regulatory action, including fines, penalties, and exclusion from the Medicare and Medicaid programs

Provision for Uncollectible Accounts

Patient service revenue, net of contractual allowances and discounts, is reduced by the provision for bad debts, and accounts receivable is reduced by an allowance for uncollectible accounts. The System establishes an allowance for uncollectible accounts based on many factors, including payer mix, age of receivables, historical cash collection experience, and other relevant information. A significant portion of the System's uninsured patients will be unable or unwilling to pay for services provided and a significant portion of the System's insured patients will be unable or unwilling to pay for co-payments and deductibles. Thus, the System records a significant provision for bad debts related to these insured and uninsured patients in the period the services are provided. The System writes down the expected reimbursement after reasonable collection efforts have been exhausted.

Hospital Medi-Cal Supplemental Payment and Quality Assurance Fee

The California Hospital Fee Program (the Program) was signed into law by the governor of California and became effective on January 1, 2010 Amending legislation, to conform to changes requested by the Centers for Medicare and Medicaid Services (CMS) during the approval process, was signed into law by the governor of California and became effective September 8, 2010 The primary legislation (AB 1383) and amending legislation (AB 1653) contain two components the Quality Assurance Fee Act, which governs the "hospital fee" or "Quality Assurance Fee" (QA Fee) paid by participating hospitals, and the Medi-Cal Hospital

Notes to Consolidated Financial Statements (continued)

1. Organization and Summary of Significant Accounting Policies (continued)

Provider Stabilization Act, which governs supplemental Medi-Cal payments (Supplemental Payments) made to providers Hospital participation is mandatory, with limited exceptions In December 2010, CMS gave final approval of the program

On May 9, 2011, CMS completed its preliminary review of the major components for a sixmonth extension of the Program for the period January 1, 2011 through June 30, 2011 (Six-Month Program) On December 29, 2011, CMS approved the Six-Month Program CMS approved a 30-month extension of the Program (30-Month Program) for the period July 1, 2011 through December 31, 2013 The legislation governing the 30-Month Program was amended to allow for the fee-for-service portion to be administered separately from the managed care portion In June 2012, CMS approved the fee-for-service portion of the 30-Month Program In May 2013 CMS approved the managed care portion of the program, but only up to June 30, 2013

Accordingly, during the years ended December 31, 2013 and 2012, the System recorded \$43 0 million and \$15 7 million in Supplemental Payments and \$29 7 million and \$22 7 million in QA Fees as Hospital Fee Program revenues and expenses, respectively, in the accompanying consolidated statements of income

Electronic Health Records Incentive Payments

The American Recovery and Reinvestment Act of 2009 included provisions for implementing health information technology under the Health Information Technology for Economic and Clinical Health Act (HITECH) The provisions were designed to increase the use of electronic health record (EHR) technology and establish the requirements for a Medicare and Medicaid incentive payment program beginning in 2012 for eligible providers that adopt meaningfully use certified EHR technology Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period Initial Medicaid incentive payments are available to providers that adopt, implement, or upgrade certified EHR technology Providers must demonstrate meaningful use of such technology in subsequent years to qualify for additional Medicaid incentive payments

For the years ended December 31, 2013 and 2012, the System recognized \$706,800 and \$1,178,000, respectively, of Medicaid meaningful-use revenues and \$0 and \$3,156,000, respectively, of Medicare meaningful-use revenues Such revenues are included in other operating revenues in the accompanying consolidated statements of income The System accounts for EHR incentive payments under the grant accounting method

Investments

The System participates with other affiliates in a custodial account (Custodial Account) The System records its share of the income, expenses, gains, and losses of the Custodial Account based on its pro rata share (units) of the Custodial Account's total fair value The System's share of the Custodial Account's assets was 69% and 65% at December 31, 2013 and 2012, respectively

The Custodial Account invests in equity securities, debt securities, mutual funds, and alternative investments, including funds-of-funds, limited partnerships, real estate, and private equity funds. These alternative investments implement a range of strategies, including, but not limited to, long/short equity positions, arbitrage investment activities, emerging markets investments, and real estate. Some of these partnership/funds have a specific industry focus in their investment assets or specific asset investments in their strategy focus. At the investment manager's discretion, the fund may invest in marketable equity and fixed-income securities denominated in both U.S. and foreign currency with exposure to both emerging markets and developed markets. Alternative investments, other than real estate and private equities, are redeemable monthly, quarterly, or annually, with a short-notice period of usually 60 days or less. Certain private equity funds and real estate funds are subject to lock-up provisions of ten years.

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the accompanying consolidated balance sheets based on quoted prices from recognized securities exchanges Management determines the appropriate classification of all marketable securities at the date of purchase and reevaluates such designations at each balance sheet date Such investments have been designated as trading securities at December 31, 2013 and 2012

Investment income or loss (including realized and unrealized gains and losses on trading securities, interest, dividends, and equity interests in gains and losses of alternative investments) is reported as excess of revenues over expenses in unrestricted net assets unless the income or loss is restricted by donor or law Realized and unrealized gains and losses with respect to disposition of investments are based on the specific-identification method

The gain or loss from the alternative investments is included in investment income in the accompanying consolidated statements of income As of December 31, 2013 and 2012, these alternative investments comprised approximately 31% and 35%, respectively, of the Custodial Account's total investments, including assets limited as to use

Derivatives and Hedging Activities

The System follows FASB ASC 815, *Derivatives and Hedging*, which requires derivative financial instruments, such as interest rate swaps, to be recognized as assets or liabilities in the consolidated balance sheets at fair value Derivatives that do not qualify for hedge accounting are adjusted to fair value in the consolidated statements of income, above the performance indicator At December 31, 2013 and 2012, the System's derivative instruments did not qualify for hedge accounting and were limited to interest rate swap agreements with a current notional amount totaling \$227 2 million and \$232 2 million, respectively (see Note 6) The System entered into interest rate swap agreements to manage its interest rate risk

Inventories

Inventories are recorded at cost (using the first-in, first-out method), which is not in excess of market

Assets Limited As to Use

Assets limited as to use include unrestricted resources designated by the Board for replacement and acquisitions of property, plant, and equipment, and self-insurance trust funds for medical malpractice claims

Property, Plant, and Equipment

Property, plant, and equipment are recorded at cost at the date of acquisition Depreciation is computed using the straight-line method over the estimated useful lives of the respective assets Leasehold improvements and equipment under capital lease obligations are amortized on the straight-line method over the shorter of the lease term or the estimated useful life and are included in depreciation and amortization expense Interest cost incurred on borrowed funds net of interest income on proceeds from bonds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets (see Note 6) Repairs and maintenance are charged to expense as incurred

Notes to Consolidated Financial Statements (continued)

1. Organization and Summary of Significant Accounting Policies (continued)

The general range of useful lives is as follows

Buildings	10–40 years
Land improvements	10–20 years
Equipment	3–20 years

Gifts of long-lived assets such as land, buildings, or equipment are reported as unrestricted support at fair market value at the date of donation, and are excluded from excess of revenues over expenses, unless explicit donor stipulations specify how the donated assets must be used Gifts of long-lived assets with explicit restrictions on use and gifts of cash or other assets that must be used to acquire long-lived assets are reported as temporarily restricted support Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service

Real Estate

Santa Barbara Cottage Hospital transferred five buildings with a net book value of \$18 6 million to the Goleta Valley Professional Buildings, Inc during 2013 The transfer includes buildings which support certain hospital programs as well as leases medical office space to physicians The transfer did not impact the consolidated financial statements at December 31, 2013, but did reduce the assets of the obligated Group by an amount permitted by the Master Trust Indenture See Note 6 for discussion of Obligated Group and Master Trust Indenture

Accounting for the Impairment of Long-Lived Assets and Long-Lived Assets to be Disposed of

The System reviews long-lived assets for impairment when events or changes in business conditions indicate that their carrying value may not be recoverable. The System considers assets to be impaired and writes them down to fair value if expected associated undiscounted cash flows are less than the carrying amounts. Fair value is the present value of the associated discounted cash flows. The System has determined that no long-lived assets are impaired at December 31, 2013.

Notes to Consolidated Financial Statements (continued)

1. Organization and Summary of Significant Accounting Policies (continued)

Donations and Donor-Restricted Net Assets

Donations are generally made to the Santa Barbara Cottage Foundation, Rehabilitation Foundation, Goleta Valley Cottage Foundation, and Santa Ynez Cottage Foundation (collectively, the Foundations) for the benefit of the Hospitals To the extent expenditures are made for the purpose intended, funds are transferred from the Foundations Unrestricted donations received directly by the Hospitals are included in other operating revenues Resources restricted by donors to specific time periods or operating purposes are recorded as temporarily restricted net assets Permanently restricted net assets have been restricted by donors to be maintained by the Hospitals in perpetuity

Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received. The gifts are reported as either temporarily or permanently restricted net assets if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets used in operations are reclassified as unrestricted net assets and reported as net assets released from restrictions. Donor-restricted contributions whose restrictions are met within the same year as received are reflected as unrestricted contributions (other operating revenue) in the accompanying consolidated statements of income Resources temporarily restricted by donors for additions to property, plant, and equipment whose purpose has been met are recorded as an increase in unrestricted net assets in the accompanying consolidated statements of income

Donor-restricted resources are invested in cash, marketable equity securities, and mutual funds until expended Donor-restricted resources held by the Foundations are included in the System's interest in net assets and amounts due from affiliates. Assets held by the System which are temporarily restricted by donors for operational uses are included in cash and cash equivalents and short-term investments. Resources held by the System, which are restricted by donors for capital acquisitions and permanently restricted assets, are included in other assets in the accompanying consolidated balance sheets

Accrued Self-Insurance Claims

The System is self-insured for certain employee health care claims. Employee health care claims, including an estimate for incurred but not reported claims, are estimated by management based on historical experience. Total accruals were \$2,960,000 and \$2,299,000 at December 31, 2013 and 2012, respectively

Notes to Consolidated Financial Statements (continued)

1. Organization and Summary of Significant Accounting Policies (continued)

The System is self-insured up to \$750,000 per workers' compensation claim. Claims in excess of these amounts are commercially insured. Accruals for the self-insurance portion of claims liabilities, including an estimate for claims incurred but not reported, are estimated by an actuary based on the Hospitals' claims experience and are discounted by an interest factor of 2% in 2013 and 2012. Total accruals at December 31, 2013 and 2012, were \$21,836,000 and \$20,284,000, respectively. The System's self-insurance obligations are guaranteed by the state of California through an alternative security program in the amount of \$20,085,000 and \$15,907,000 at December 31, 2013 and 2012, respectively.

The System is self-insured for general and professional liability claims up to \$500,000 per claim Individual claims in excess of \$500,000 are covered by claims-made insurance policies. An irrevocable trust fund has been established for the self-insurance program. Accruals for the self-insured portion of claims liabilities, including an estimate for claims incurred but not reported, are estimated by an actuary based upon the System's claims experience and are discounted by an interest factor of 2% in 2013 and 2012. Total liabilities were \$11,176,200 and \$8,952,000 at December 31, 2013 and 2012, respectively

Estimated claims payable are continually monitored and reviewed, and, as settlements are made or accruals adjusted, differences are reflected in current operations. Self-insurance accruals expected to be paid in the following year are included in accrued expenses and other liabilities. The remaining self-insured accruals are reported in noncurrent liabilities.

Consistent with Accounting Standards Update 2010-24, *Presentation of Insurance Claims and Related Insurance Recoveries*, the System calculates and records insurance claims irrespective of insurance recoveries. The related insurance recoveries of \$9,105,000 and \$7,521,000 at December 31, 2013 and 2012, respectively, are recorded as assets and reviewed for collectibility at period-end

Cash Equivalents and Short-Term Investments

The System considers all highly liquid debt instruments with remaining maturities, at acquisition date, of three months or less, to be cash equivalents Financial instruments, including debt securities with maturities over 90 days at the time of purchase, and marketable securities are included in short-term investments. Cash and cash equivalents and short-term investments exclude amounts which are limited as to use and resources which are permanently restricted by donors or temporarily restricted by donors for capital purchases

Notes to Consolidated Financial Statements (continued)

1. Organization and Summary of Significant Accounting Policies (continued)

Concentrations of Credit Risk

Financial instruments which potentially subject the System to concentrations of credit risk consist primarily of cash and cash equivalents, investments, and accounts receivable. The investment portfolio and Custodial Account are managed by the System within the guidelines established by the Board of Directors, which, as a matter of policy, limit the amounts which may be invested in any one issue. Concentrations of credit risk with respect to accounts receivable are limited, except with respect to programs under contract with the federal and state governments, due to the large number of payors comprising the System's patient base.

Fair Value of Financial Instruments

The System's consolidated balance sheets include the following financial instruments cash and cash equivalents, investments, accounts receivable, accounts payable and accrued liabilities, and long-term obligations. Investments are stated at fair value based primarily on quoted market prices (the composition of which is described elsewhere in Notes 1 and 4). The System considers the carrying amounts of all other current assets and liabilities to approximate their fair value because of the relatively short period of time between origination of the instruments and their expected realization or settlement. The carrying amount of Fixed-Rate Demand Revenue bonds Series 2003. B is \$47,980,000 and for Series 2010 is \$280,230,000, while the fair value is \$47,936,000 and \$284,795,000 as of December 31, 2013, respectively. The fair value was determined using a discounted cash flow analysis and is considered to be Level 2 inputs

Income Taxes

The System and its affiliates, except for Pacific Diagnostic Laboratories, are not-for-profit corporations and are tax-exempt pursuant to Section 501(c)(3) of the Internal Revenue Code (IRC) and are exempt from income taxation under (IRC) Section 501(a) and corresponding provisions of the California Revenue and Taxation Code, except to the extent of income derived from taxable unrelated business activities Unrelated business income is not material to the financial statements

Notes to Consolidated Financial Statements (continued)

1. Organization and Summary of Significant Accounting Policies (continued)

The System completed an analysis of its tax positions, in accordance with FASB ASC 740, *Income Taxes*, and determined that there are no uncertain tax positions taken The System has recognized no interest or penalties related to uncertain tax positions. The System is subject to routine audits by the taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The System believes it is no longer subject to income tax examinations for years prior to 2009.

Performance Indicator

Management considers excess of revenues over expenses to be the System's performance indicator Changes in unrestricted net assets which are excluded from excess of revenues over expenses, consistent with industry practice, include items such as change in pension liability, cumulative effect of changes in accounting principle, reclassification of endowment net assets, and contributions of long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purposes of acquiring such assets)

Physician Guarantees

The System has agreements with nonemployed physicians that guarantee a certain level of income to the physicians. The physicians are expected to practice in the System's defined area for a defined period. Amounts paid to the physician during the guarantee period are ratably forgiven, resulting in income to the physician in the years of forgiveness. The carrying amounts of the asset and liability for the System's obligation under these guarantees are \$5,193,000 and \$4,222,000, respectively, at December 31, 2013, and \$4,370,000 and \$3,311,000, respectively, at December 31, 2012, and are included in other assets and other liabilities in the accompanying consolidated balance sheets. Recourse provisions in the contracts provide for recovery of amounts paid if all terms of the contract are not fulfilled.

Fair Value Measurement

As defined in FASB ASC 820, Fair Value Measurements and Disclosures, fair value is based on the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. In order to increase consistency and comparability in fair value measurements, FASB ASC 820 establishes a fair

Notes to Consolidated Financial Statements (continued)

1. Organization and Summary of Significant Accounting Policies (continued)

value hierarchy that prioritizes observable and unobservable inputs used to measure fair value into three broad levels, which are described below

Level 1 – Quoted prices (unadjusted) in active markets that are accessible at the measurement date for assets or liabilities. The fair value hierarchy gives the highest priority to Level 1 inputs

Level 2 – Observable prices that are based on inputs not quoted on active markets, but corroborated by market data

Level 3 – Unobservable inputs are used when little or no market data is available. The fair value hierarchy gives the lowest priority to Level 3 inputs

Assets and liabilities measured at fair value are based on one or more of three valuation techniques noted in the tables below

- a) Market approach Prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities
- b) Cost approach Amount that would be required to replace the service capacity of an asset (replacement cost)
- c) Income approach Techniques to convert future amounts to a single present amount based on market expectations (including present value techniques, option-pricing, and excess earnings models)

In determining fair value, the System utilizes valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs to the extent possible as well as considers counterparty credit risk in its assessment of fair value

1. Organization and Summary of Significant Accounting Policies (continued)

The fair values of the instruments included in Level 1 were determined through quoted market prices. Level 1 instruments include cash and short-term investments such as money market funds. The fair values of Level 2 instruments were determined through evaluated bid prices based on recent trading activity and other relevant information, including market interest rate curves and referenced credit spreads, estimated prepayment rates, where applicable, are used for valuation purposes and are provided by third-party services where quoted market values are not available. As discussed earlier, the investments in the Custodial Account are comprised of cash, short-term investments, equity securities, debt securities, mutual funds, and alternative investments. The fair values of these underlying investments are determined using a variety of sources, including direct quoted prices for identical assets in active market or quoted prices for similar assets and liabilities in active markets or other inputs that are observable for the asset, either directly or indirectly, for substantially the full term of the financial asset. The investments in the Custodial Account have been designated in its entirety in Level 2, after considering the lowest level input that is significant to the entire measurement

The fair value of the System's interest rate swap contracts is determined by calculating the value of the discounted cash flows of the difference between the fixed interest rate of the interest rate swaps and the counterparty's forward London Interbank Offered Rate (LIBOR) curve, which would be the input used in the valuations The forward LIBOR curve is readily available in public markets or can be derived from information available in public quoted markets Therefore, the System has categorized the interest rate swaps as Level 2

Subsequent Events

The System has evaluated subsequent events occurring between the end of the most recent fiscal year and April 30, 2014, the date the consolidated financial statements were available for issuance

Reclassifications

Certain reclassifications were made to the 2012 consolidated financial statement presentation to conform to the 2013 presentation

3. Pension and Other Post-Retirement Benefit Plan

The System sponsors the Cottage Health System Cash Balance Retirement Plan (the Plan) The Plan is a contributory defined benefit pension plan covering substantially all of the employees of the Hospitals The Plan calls for a minimum contribution by the System to the participant's account equal to 2% of salary and an additional voluntary contribution by the participants up to 3% of the participant's salary, which will be matched 100% by the System

Supplemental Executive Retirement Program

The System provides certain executives a supplemental retirement program. The program is defined as deferred compensation under the IRC Section 457(f). The annual contribution is 6.95% of base year's salary with the contributions vesting five years from crediting date, or at age 62, or immediately in the event of death, disability, or involuntary termination without cause. The unvested account balances are assets of the System and are included in other assets and the accrued expense is included in pension liability and other in the accompanying consolidated balance sheets.

In addition to providing pension benefits, the System provides certain health care benefits (OPEBs) for retired employees who elect to continue care under the Medi-Gap Retiree Health Coverage Plan Substantially all of the System's employees who retire upon reaching age 60 (with 25 or more years of service) may become eligible for these benefits until they reach age 65 These and similar benefits for active employees are provided through the System's self-insurance program The System pays health care claims as they come due

Assumed health care cost trend rates could have a significant effect on the amounts reported for the health care plans. However, a one-percentage-point change in assumed health care cost trend rates would not have a significant effect on either the cost or benefit obligation of the OPEBs

Plan Assets

The composition of plan assets at December 31, 2013 and 2012, is as follows

3. Pension and Other Post-Retirement Benefit Plan (continued)

The primary objective is to achieve the highest possible total return commensurate with safety and preservation of capital in real (inflation adjusted) terms. The overall investment strategy does not follow the conventional weighted-average target asset allocations, but rather targets a return as required by current and future plan liabilities. Investments are broadly diversified to mitigate the specific risk of any particular asset class. Investments are diversified among common stocks, fixed-income instruments, cash equivalents, real estate, and alternative investments. In addition, investments are diversified within asset classes by style and size.

The overriding long-term objective is to ensure that the Plan is able to meet its distribution requirements while growing the assets to meet future liability expenditures, adjusted for inflation The return on the assets should meet or exceed the sum of the distribution rate, inflation rate, and growth of the assets to accommodate current and future liabilities

Defined Benefit Plan

Contributions

The System expects to contribute \$8.5 million to its pension plans and \$155,687 to its other post-retirement benefit plan in 2014

Net unrealized gains (losses) at December 30, 2013 and 2012, were \$56,124,000 and \$8,478,000, respectively

Substantially all of the System's investments are held in the Custodial Account The Custodial Account provides a vehicle whereby virtually all entities associated with the System can seek to optimize investment returns while managing investment risk Entities participating in the Custodial Account that are not consolidated in the accompanying financial statements have the ability to direct their invested amounts and liquidate and/or withdraw their interest without penalty as soon as practicable based on market conditions

Notes to Consolidated Financial Statements (continued)

4. Investments and Assets Limited as to Use (continued)

The Custodial Account asset allocation at December 31 is as follows

	2013	2012
Cash and cash equivalents	5%	10%
Marketable equity securities	46	39
Fixed-income securities	10	12
Mutual funds	8	4
Alternative investments	31	35
	100%	100%

The System Investment Subcommittee (the Investment Committee) of the Board of Directors is responsible for recommending asset allocations among fixed-income, equity, and alternative investments. At least annually, the Investment Committee reviews targeted allocations and, if necessary, recommends adjustments to targeted asset allocations. Given the diversity of the underlying securities in which the Custodial Account invests, management does not believe there is a significant concentration of credit risk. Direct expenses of the Custodial Account are less than 0.5% of total assets.

5. Transactions With Related Parties

A summary of the significant transactions between the System and its affiliates follows

The Santa Barbara Cottage Foundation

The Santa Barbara Cottage Foundation was established to engage in the solicitation, receipt, and administration of contributions for the sole benefit of Santa Barbara Cottage The Santa Barbara Cottage Foundation's unrestricted net assets are distributed to the Santa Barbara Cottage Hospital in amounts and in periods determined by the Santa Barbara Cottage Foundation's Board of Directors, which may restrict the use of these funds for specific purposes The Santa Barbara Cottage Foundation's temporarily restricted net assets are held or distributed to Santa Barbara Cottage at the donor's request

Notes to Consolidated Financial Statements (continued)

5. Transactions With Related Parties (continued)

6. Long-Term Debt (continued)

Santa Barbara Cottage, Goleta Valley Cottage, and Santa Ynez Cottage comprise the Members of the Obligated Group, and, as such, all three are jointly and severally obligated with respect to the obligations issued under the bond indentures collateralizing the bonds. The System is not a member of the Obligated Group, but acts as the Obligated Group Representative

Bond Covenants

The Master Trust Indentures (Indentures) govern the disposition and repayments of the Series 2003B Bonds and Series 2010 Bonds The terms of the Indentures require the Obligated Group to pledge all of the revenues or any other amounts held in any fund or account established pursuant to the Indentures for the terms of the Series 2003B and Series 2010 Bonds The Indentures and Agreement contain restrictions, which, among other things, require maintenance of certain financial ratios, limit the disposal of assets, and restrict certain additional indebtedness At December 31, 2013 and 2012, the Obligated Group complied with these covenants In 2013 and 2012, interest costs incurred were \$16,103,000 and \$16,229,000, respectively, of which \$4,838,000 and \$3,743,000, respectively, was capitalized as part of the costs of construction-in-progress The amounts capitalized are reduced by investment income earned on tax-exempt financings borrowed for specific qualifying projects For the years ended December 31, 2013 and 2012, there was no investment income earned that was capitalized as part of construction-in-progress

The aggregate amounts of annual maturities and sinking fund payments for the years subsequent to December 31, 2013, are as follows

2014	\$ 6,030,000
2015	6,270,000
2016	6,570,000
2017	6,880,000
2018	7,230,000
Thereafter	295,230,000_
	\$ 328,210,000

Interest Rate Swaps

The System has three interest rate swap contracts (the Swaps) with a combined current notional amount of \$157,650,000 and termination date of November 1, 2036 Under the terms of the Swaps, the System has agreed to pay to Morgan Stanley Capital Services, Inc (the Swap Counterparty) fixed rates of interest ranging from 3 592% to 3 667% and the Swap Counterparty has agreed to pay the System 68% of one-month LIBOR, based on the notional amounts of the Swaps In March 2011, the System entered into an additional interest rate swap contract with the Swap Counterparty, effectively reversing an existing swap contract Under the terms of the Swap contract, the Swap Counterparty agreed to pay the System a fixed rate of interest of 2 53% The current notional value of the interest rate swap is \$69,500,000

A benefit of \$11,982,000 and \$1,630,000 for 2013 and 2012, respectively, has been recorded as a component of other income in the accompanying consolidated statements of income related to the interest rate swaps. The fair value of three of the Swaps totaled \$22,681,000 and \$40,440,000 as of December 31, 2013 and 2012, respectively. The fair value of the fourth swap is recorded in other assets and totaled \$1,502,000 and \$7,280,000 in 2013 and 2012, respectively. Payments to the Swap Counterparty of \$4,098,000 and \$4,140,000 were recorded as interest expense for the years ended December 31, 2013 and 2012, respectively.

Each of the interest rate swap agreements has collateral posting thresholds when the mark-to-market in total exceeds \$40 million. The System has a cash collateral balance with the Swap Counterparty of \$0 at December 31, 2013 and 2012, respectively

7. Temporarily and Permanently Restricted Net Assets

Temporarily and permanently restricted net assets at December 31 are available for the following purposes

	 2013	2012
Purchase of equipment and construction	\$ 77,810,886	\$ 70,744,223
Patient care services and hospital operations	37,636,343	29,404,999

Employee assistance	 3,194	3,194
	\$ 119,949,425	\$104,056,138

Temporarily restricted net assets at December 31, 2013 and 2012, include \$87,443,000 and \$75,336,000, respectively, of donor-restricted resources held by the affiliates on behalf of the Hospitals Permanently restricted net assets of \$21,097,000 and \$19,442,000 were held by the System at December 31, 2013 and 2012, respectively These resources are restricted to investments to be held in perpetuity, the income from which is expendable to support health care services and research

FASB ASC 958 provides guidance on the net asset classification of donor-restricted endowment funds for a not-for-profit organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act of 2006 (UPMIFA) UPMIFA was enacted in California on September 30, 2008, with an effective date of January 1, 2009 The net asset classification provisions of FASB ASC 958 were adopted by the System in 2009 when UPMIFA was enacted into law in California FASB ASC 958 also contains disclosure provisions, which are included below

Endowment

The System's endowment includes all permanently and certain temporarily restricted net assets which contain donor restrictions as to use as well as Board-designated funds

Notes to Consolidated Financial Statements (continued)

7. Temporarily and Permanently Restricted Net Assets (continued)

Funds With Deficiencies

The fair value of assets associated with individual donor restricted endowment funds may fall below the level that the donor requires the System to retain as a fund of perpetual duration Deficiencies of this nature are reported in unrestricted net assets unless the income from such endowment funds is restricted as to use, in which case such amounts are reflected in temporarily restricted net assets. There were no such deficiencies as of December 31, 2013 and 2012

Return Objectives and Risk Parameters

The System has investment policies that attempt to provide a predictable stream of funding to programs supported by operations as well as endowment donations. Assets are invested in a manner that is intended to produce results that exceed the respective benchmark while assuming a moderate level of investment risk. Actual returns in any given year may vary from this amount

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the System relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends) The System targets a diversified asset allocation to achieve its long-term return objectives within prudent risk constraints

Interpretation of Relevant Law

The System has interpreted the Uniform Prudent Management of Institutional Funds Act (UPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the System classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until the donor's restriction is met and the funds are appropriated

Notes to Consolidated Financial Statements (continued)

7. Temporarily and Permanently Restricted Net Assets (continued)

In accordance with UPMIFA, the System considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds

- (1) The duration and preservation of the fund
- (2) The purposes of the donor-restricted endowment fund
- (3) General economic conditions
- (4) The possible effect of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other resources of the System
- (7) The investment policies of the System

Rent and lease expense under the operating leases totals approximately \$6,050,000 and \$6,580,000 for the years ended December 31, 2013 and 2012, respectively

Construction Projects

The Hospitals are required to comply with the Hospital Seismic Safety Act (SB 1953), which regulates the seismic performance of all aspects of hospital facilities in California SB 1953 imposes near-term and long-term compliance deadlines for seismic safety assessments, submission of corrective plans, and the retrofitting or replacement of the Hospitals' facilities to comply with current seismic standards. These requirements are expected to result in significant operational changes and capital outlays. Based on preliminary estimates, total costs for the Hospitals' Facilities Master Plan are estimated to be \$814 million (unaudited) for Santa Barbara Cottage. Actual amounts could differ from these estimates. The City of Santa Barbara and the Office of Statewide Health Planning and Development have approved the plans for Santa Barbara Cottage. The project consists of eight phases. Construction for phases one through four are complete. Phase five, which includes demolition of existing buildings began in June 2012 and will continue through June 2015.

Notes to Consolidated Financial Statements (continued)

8. Commitments and Contingencies (continued)

The plan for Goleta Valley Cottage received approval from the City of Goleta and the Office of Statewide Planning and Development Construction began in early 2011 and is anticipated to be completed in late 2014 This plan has an estimated cost of \$125 million (unaudited) Completion of the new wing at Santa Ynez Valley Cottage was completed in early 2011 and the remodel of the existing space is anticipated to be completed by the end of 2014 The total project cost is estimated at \$15 million (unaudited)

Asset Retirement Obligations

In 2006, the System adopted FASB ASC 410, Asset Retirement and Environmental Obligations, which clarifies that the term "conditional asset retirement obligations" (ARO) and refers to a legal obligation to perform an asset retirement activity in which the timing and/or method of settlements are conditional on a future event that may or may not be within the control of the entity. The guidance indicates that an entity must record a liability for a conditional asset retirement obligation if the fair value of the obligation can be reasonably estimated and also clarifies when an entity should have sufficient information to reasonably estimate the fair value of an asset retirement obligation. The System is subject to state requirements to retrofit certain buildings to current seismic standards by as early as 2013. Management has evaluated and estimated costs by which such facility will be brought into compliance with the current code (through replacement or retrofit), the settlement date and costs involved, including cost for asbestos abatement. A liability of \$1,326,000 and \$1,190,000 has been recorded in the December 31, 2013 and 2012, consolidated balance sheets

Legal Proceedings

A lawsuit was filed by a single person (on behalf of a proposed class) in early 2014 alleging release of confidential medical information and seeking to establish the lawsuit as a class action Plaintiffs seek statutory nominal damages of \$1,000 for the plaintiff and each member of the putative class plus attorney's fees and damages The System does not believe there is merit to the lawsuit

The System and its affiliates are defendants in various other legal actions arising from the normal conduct of business Management believes that the ultimate resolution of these various proceedings will not have a material adverse effect upon its consolidated financial position, results of operations, or cash flows

Notes to Consolidated Financial Statements (continued)

9. Functional Expenses

The System provides general health care services to residents within its geographic location Expenses related to providing these services for the years ended December 31 are as follows

	2013	2012
