Independent Auditor's Report

Board of Directors
Central Maine Healthcare Corporation and Subsidiaries
Lewiston, Maine

We have audited the accompanying consolidated financial statements of Central Maine Healthcare Corporation and Subsidiaries, which comprise the consolidated balance sheets as of June 30, 2014 and 2013, and the related consolidated statements of operations, changes in net assets and cash flows for the years then ended, and the related notes to the financial statements

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We did not audit the financial statements of CWM Insurance, Ltd., a wholly-owned subsidiary, whose statements reflect total assets constituting 9 percent and 8 percent, respectively, of consolidated total assets at June 30, 2014 and 2013, and total revenues constituting 2 percent of consolidated total revenues for the years then ended. Those statements were audited by other auditors, whose report has been furnished to us, and our opinion, insofar as it relates to the amounts included for CWM Insurance, Ltd., is based solely on the report of the other auditors. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

Opinion

In our opinion, based on our audit and the report of the other auditors, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Central Maine Healthcare Corporation and Subsidiaries as of June 30, 2014 and 2013, and the results of their operations, the changes in their net assets and their cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America

Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the basic consolidated financial statements as a whole. The supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic consolidated financial statements. Such information has not been subjected to the auditing procedures applied in the audits of the basic consolidated financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Notes to Consolidated Financial Statements June 30, 2014 and 2013

Note 1: Nature of Operations and Summary of Significant Accounting Policies

Nature of Operations

Central Maine Healthcare Corporation (CMHC), a not-for-profit entity, coordinates, plans and provides a broad range of integrated healthcare services to meet the healthcare needs of the people of the Central and Western Maine region including inpatient, outpatient and emergency care services

CMHC is the parent company of Central Maine Medical Center (CMMC or the "Medical Center"), Central Maine Health Ventures, Inc. (CMHV), Central Maine Community Health Corporation, Central Maine Real Estate Management Corporation, CWM Insurance, Ltd. (CWM), Rumford Hospital, Rumford Community Home Corporation, Rumford Community Family Health Center, Inc. (Rumford) and Bridgton Hospital (Bridgton)

CMMC, Rumford and Bridgton primarily earn revenues by providing inpatient, outpatient and emergency care services to patients in the Central and Western Maine region

CMHV, Rumford Community Home Corporation, Rumford Community Family Health Center, Inc. and Central Maine Community Health Corporation provide a variety of services including long-term care, imaging and other clinical services to patients in the Central and Western Maine region

Central Maine Real Estate Management Corporation manages rental property for physicians in the Central and Western Maine region

CWM is a captive insurance company, incorporated in the Cayman Islands, that provides professional and general liability for CMHC and its subsidiaries

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of CMHC and its wholly owned subsidiaries (collectively the "Corporation"). All significant intercompany balances and transactions have been eliminated in consolidation

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates

and Subsidiaries**
Notes to Consolidated Financial Statements
June 30, 2014 and 2013

Cash Equivalents

The Corporation considers all liquid investments with original maturities of three months or less to be cash equivalents. At June 30, 2014 and 2013, cash equivalents consisted primarily of money market accounts and short-term government obligations.

At June 30, 2014, the Corporation's cash accounts exceeded federally insured limits by approximately \$10,190,000.

Additionally, the Corporation has entered into an agreement with a local financial institution to purchase fully collateralized U.S. government securities with the Corporation's sweep accounts. At June 30, 2014 and 2013, the amount held in sweep and money market accounts was approximately \$3,580,000 and \$8,340,000, respectively.

Investments and Investment Return

Investments in equity securities having a readily determinable fair value and in all debt securities are carried at fair value. The investments in equity investees are reported on the equity method of accounting. Other investments are valued at the lower of cost (or fair value at time of donation, if acquired by contribution) or fair value. Investment return includes dividend, interest and other investment income, realized and unrealized gains and losses on investments carried at fair value, and realized gains and losses on other investments.

Investment return that is initially restricted by donor stipulation and for which the restriction will be satisfied in the same year is included in unrestricted net assets. Other investment return is reflected in the statements of operations and changes in net assets as unrestricted, temporarily restricted or permanently restricted based upon the existence and nature of any donor or legally imposed restrictions.

Certain investments are carried at fair value pursuant to the fair value option available under FASB ASC Topic 825 (*Note 17*).

Assets Limited As To Use

Assets limited as to use include (1) assets held by trustees under bond indenture agreements and for self-insurance, (2) assets restricted by donors and (3) assets set aside by the Board of Directors for future capital improvements over which the Board retains control and may, at its discretion, subsequently use for other purposes. Amounts required to meet current liabilities of the Corporation are included in current assets.

Notes to Consolidated Financial Statements
June 30, 2014 and 2013

Patient Accounts Receivable

Accounts receivable are reduced by an allowance for doubtful accounts. In evaluating the collectability of accounts receivable, the Corporation analyzes its past history and identifies trends for each of its major payer sources of revenue to estimate the appropriate allowance for doubtful accounts and provision for uncollectible accounts. Management regularly reviews data about these major payer sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts.

For receivables associated with services provided to patients who have third-party coverage, the Corporation analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for uncollectible accounts, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payer has not yet paid, or for payers who are known to be having financial difficulties that make the realization of amounts due unlikely).

For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Corporation records a significant provision for uncollectible accounts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible. The difference between the standard rates (or the discounted rates if negotiated or provided by policy) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts.

The Corporation's allowance for doubtful accounts for self-pay patients increased from 80% of self-pay accounts receivable at June 30, 2013, to 83% of self-pay accounts receivable at June 30, 2014. In addition, the Corporation's write-offs decreased approximately \$21,500,000 from approximately \$60,000,000 for the year ended June 30, 2013, to approximately \$38,500,000 for the year ended June 30, 2014. The decrease is offset partially by the increase in the provision for uncollectible accounts at June 30, 2014, due to the revenue system conversion in 2014 limited write-offs occurred within the accounts receivable during 2014.

During the year ended June 30, 2014, the Corporation implemented a new revenue cycle which resulted in a significant increase in unbilled and billed accounts receivable at year end.

As of the date the financial statements were available to be issued a significant portion of the accounts receivable relating to June 30, 2014, and prior had yet to be collected by the Corporation and remained outstanding in accounts receivable. Management believes the remaining accounts receivable is still collectible at June 30, 2014, and the current allowance for doubtful accounts is sufficient. It is reasonably possible that the allowance for doubtful accounts and provision for uncollectible accounts could materially change in the near term.

Central Maine Healthcare Corporation and Subsidiaries

Notes to Consolidated Financial Statements June 30, 2014 and 2013

Supplies

The Corporation states supply inventories at the lower of cost, determined using the first-in, first-out method, or market

Property and Equipment

Property and equipment acquisitions are recorded at cost and are depreciated on a straight-line basis over the estimated useful life of each asset. Assets under capital lease obligations and leasehold improvements are depreciated over the shorter of the lease term or their respective estimated useful lives.

Donations of property and equipment are reported at fair value as an increase in unrestricted net assets unless use of the assets is restricted by the donor. Monetary gifts that must be used to acquire property and equipment are reported as restricted support. The expiration of such restrictions is reported as an increase in unrestricted net assets when the donated asset is placed in service.

Long-Lived Asset Impairment

The Corporation evaluates the recoverability of the carrying value of long-lived assets whenever events or circumstances indicate the carrying amount may not be recoverable. If a long-lived asset is tested for recoverability and the undiscounted estimated future cash flows expected to result from the use and eventual disposition of the assets is less than the carrying amount of the asset, the asset cost is adjusted to fair value and an impairment loss is recognized as the amount by which the carrying amount of a long-lived asset exceeds its fair value.

No asset impairment was recognized during the years ended June 30, 2014 and 2013.

Deferred Financing Costs

Deferred financing costs represent costs incurred in connection with the issuance of long-term debt and are included in other assets in the accompanying consolidated balance sheets. Such costs are being amortized over the term of the respective debt using the straight-line method.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the Corporation has been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the Corporation in perpetuity.

Central Maine Healthcare Corporation and Subsidiaries

Notes to Consolidated Financial Statements June 30, 2014 and 2013

Net Patient Service Revenue

The Corporation has agreements with third-party payers that provide for payments to the Corporation at amounts different from its established rates. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payers and others for services rendered and includes estimated retroactive revenue adjustments. Retroactive adjustments are considered in the recognition of revenue on an estimated basis in the period the related services are rendered and such estimated amounts are revised in future periods as adjustments become known.

Charity Care

The Corporation provides care without charge or at amounts less than its established rates to patients meeting certain criteria under its charity care policy. Because the Corporation does not pursue collection of amounts determined to qualify as charity care, these amounts are not reported as net patient service revenue.

Contributions

Unconditional gifts expected to be collected within one year are reported at their net realizable value. Unconditional gifts expected to be collected in future years are initially reported at fair value determined using the discounted present value of estimated future cash flows technique. The resulting discount is amortized using the level-yield method and is reported as contribution revenue.

Gifts received with donor stipulations are reported as either temporarily or permanently restricted support. When a donor restriction expires, that is, when a time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified and reported as an increase in unrestricted net assets. Donor-restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions. Conditional contributions are reported as liabilities until the condition is eliminated or the contributed assets are returned to the donor.

Estimated Malpractice Costs

An annual estimated provision is accrued for the medical malpractice claims and includes an estimate of the ultimate costs for both reported claims and claims incurred but not reported.

Income Taxes

CMHC, CMMC, Central Maine Community Health Corporation, Central Maine Real Estate Management Corporation, Rumford Hospital, Rumford Community Home Corporation, Rumford Community Family Health Center, Inc. and Bridgton Hospital, are classified as tax-exempt organizations as described in Section 501 of the Internal Revenue Code and a similar provision of state law. However, these entities are subject to federal income tax on any unrelated business taxable income.

Central Maine Healthcare Corporation and Subsidiaries

Notes to Consolidated Financial Statements June 30, 2014 and 2013

CMHV and its subsidiaries are subject to federal and state income taxes. CMHV accounts for income taxes in accordance with income tax accounting guidance (ASC 740, *Income Taxes*). CMHV has accumulated net operating loss carry forwards that are available to offset future taxable income during the carry forward period. No income tax benefit has been recognized for the net operating loss carry forwards or other potential deferred tax assets in the consolidated financial statements because CMHV believes realization of these benefits is unlikely.

CMHC and its consolidated entities file tax returns in the U.S. federal jurisdiction. With a few exceptions, these entities are no longer subject to U.S. federal examinations by tax authorities for years before 2008.

Excess (Deficiency) of Revenues Over Expenses

The statements of operations include excess (deficiency) of revenues over expenses. Changes in unrestricted net assets which are excluded from excess (deficiency) of revenues over expenses, consistent with industry practice, include unrealized gains and losses on investments other than trading securities, change in pension liabilities, permanent transfers to and from affiliates for other than goods and services and contributions of and grants for long-lived assets (including assets acquired using contributions which by donor restriction were to be used for the purpose of acquiring such assets).

Transfers Between Fair Value Hierarchy Levels

Transfers in and out of Level 1 (quoted market prices), Level 2 (other significant observable inputs) and Level 3 (significant unobservable inputs) are recognized on the period ending date. There were no transfers between fair value hierarchy levels during the years ended June 30, 2014 and 2013.

Electronic Health Records Incentive Program

The Electronic Health Records Incentive Program, enacted as part of the *American Recovery and Reinvestment Act of 2009*, provides for one-time incentive payments under both the Medicare and Medicaid programs to eligible hospitals that demonstrate meaningful use of certified electronic health records technology (EHR). Critical access hospitals are eligible to receive incentive payments for up to four years under the Medicare program for its reasonable costs of the purchase of certified EHR technology multiplied by the Hospital's Medicare utilization plus 20%, limited to 100% of the costs incurred. Payments under the Medicare program are generally made for up to four years based on a statutory formula. Payments under the Medicaid program are generally made for up to four years based upon a statutory formula, as determined by the state, which is approved by the Centers for Medicare and Medicaid Services. Payment under both programs are contingent on the organization continuing to meet escalating meaningful use criteria and any other specific requirements that are applicable for the reporting period. The final amount for any payment year is determined based upon an audit by the fiscal intermediary. Events could occur that would cause the final amounts to differ materially from the initial payments under the program.

Central Maine Healthcare Corporation and Subsidiaries

Notes to Consolidated Financial Statements June 30, 2014 and 2013

The Corporation recognizes revenue ratably over the reporting period starting at the point when management is reasonably assured it will meet all of the meaningful use objectives and any other specific grant requirements applicable for the reporting period

For the years ended June 30, 2014 and 2013, the Corporation has recorded revenue of approximately \$5,100,000 and \$3,100,000, respectively, which is included in other operating revenue in the statement of operations. The Corporation has also recorded \$1,640,000 and \$0, respectively, for the years ended June 30, 2014 and 2013, for critical access meaningful use funding for Rumford and Bridgton hospitals in net patient service revenue in the statement of operations

Contract Pharmacy Program

The Corporation participates in the 340B outpatient drug discount program administered by the Office of Pharmacy Affairs of the Health Resources and Services Administration (HRSA). In 2013, the Corporation began operating a 340B retail drug program by contracting with local pharmacies. The net revenue from this program for the years ended June 30, 2014 and 2013, respectively, was approximately \$2,140,000 and \$1,650,000 greater than the cost of operating the program. Laws and regulations surrounding the 340B drug program are complex and are subject to interpretation and change.

Estimated Self-Insurance Costs

The Corporation accrues estimated liabilities for self-insurance losses associated with worker's compensation and employee health insurance claims and includes an estimate of the ultimate costs for both reported claims and claims incurred but not reported.

Subsequent Events

Subsequent events have been evaluated through the date of the Independent Auditor's Report, which is the date the consolidated financial statements were available to be issued.

Note 2: Net Patient Service Revenue

The Corporation recognizes patient service revenue associated with services provided to patients who have third-party payer coverage on the basis of contractual rates for the services rendered. For uninsured patients that do not qualify for charity care, the Corporation recognizes revenue on the basis of its standard rates for services provided. On the basis of historical experience, a significant portion of the Corporation's uninsured patients will be unable or unwilling to pay for the services provided. Thus, the Corporation records a significant provision for uncollectible accounts related to uninsured patients in the period the services are provided. This provision for uncollectible accounts is presented on the statement of operations as a component of net patient service revenue.

Central Maine Healthcare Corporation and Subsidiaries

Notes to Consolidated Financial Statements June 30, 2014 and 2013

The Corporation has agreements with third-party payers that provide for payments to the Corporation at amounts different from its established rates. These payment arrangements include

Medicare CMMC – Inpatient acute care services and substantially all outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors. Inpatient skilled nursing services are paid at prospectively determined per diem rates that are based on the patients' acuity. Certain inpatient nonacute services and defined medical education costs are paid based on a cost reimbursement methodology.

Rumford and Bridgton – Inpatient acute care and swing-bed skilled nursing services and substantially all outpatient services rendered to the Medicare program beneficiaries are paid based on cost reimbursed formulas as a critical access hospital.

CMMC, Rumford and Bridgton are all reimbursed for certain services at tentative rates with final settlement determined after submission of annual cost reports and audits thereof by the Medicare administrative contractor.

Medicaid Inpatient and outpatient services rendered to Medicaid program beneficiaries are reimbursed under a cost reimbursement methodology for certain services and at prospectively determined rates for all other services. CMMC, Rumford and Bridgton are reimbursed for cost reimbursable services at tentative rates with final settlement determined after submission of annual cost reports by the respective hospital and audits thereof by the Medicaid administrative contractor. For acute care services and outpatient services CMMC is now being paid at prospectively determined rates, and the physician clinics are reimbursed under a cost reimbursed methodology. These rates vary according to a patient classification system that is based on clinical, diagnostic and other factors.

CMMC, Rumford and Bridgton's Medicaid cost reports have been tentatively settled by the Medicaid administrative contractor through June 30, 2008. At June 30, 2014 and 2013, CMMC, Rumford and Bridgton have estimated outstanding cost report receivables of approximately \$16,030,000 and \$48,350,000, respectively, from the State of Maine (State) for fiscal years 2005 through 2014. CMMC, Rumford and Bridgton received \$39,560,000 and \$6,390,000 during fiscal years 2014 and 2013, respectively, for tentative settlements of filed cost reports. Management expects to collect these amounts in full, however, the timing of collection from the State is uncertain, and is subject to the risk that the State may make changes to its existing laws or regulations due to budgetary needs.

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation and change. As a result, it is reasonably possible that recorded estimates will change materially in the near term.

The Corporation has also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to the Corporation under these agreements includes prospectively determined rates per discharge, discounts from established charges and prospectively determined daily rates.

Central Maine Healthcare Corporation and Subsidiaries

Notes to Consolidated Financial Statements June 30, 2014 and 2013

On March 1, 2013, certain provisions of the Federal Government's *Budget Control Act of 2011* went into effect. Among these provisions are mandatory payment reductions under the Medicare program, known as sequestration. Under these provisions, Medicare reimbursement was reduced by two percent on all claims with dates-of-service or dates-of-discharge on or after April 1, 2013. The continuation of these payment cuts for an extended period of time will have an adverse effect on operating results of the Corporation.

Patient service revenue, net of contractual allowances and discounts (but before the provision for uncollectible accounts), recognized in the years ended June 30, 2014 and 2013, respectively, was approximately

	2014	2013
Medicare	\$ 161,895,462	\$ 124,221,185

Note 6: Notes and Other Receivables

In April 2008, CMHC advanced Parkview Adventist Medical Center (Parkview) \$5,600,000 in the form of a demand promissory note. This note was refinanced on September 16, 2013, and is due September 16, 2018, secured by substantially all of Parkview's assets. The interest rate is variable, equal to 2% plus the U.S. Prime Rate. The note is due based on a 180-month installment payment schedule, with a balloon payment for the remaining balance due September 16, 2018. The outstanding balance of the note payable to CMHC at June 30, 2014 and 2013, was \$4,075,565 and \$4,599,981, respectively. All required payments on the note have been received through June 30, 2014.

Additionally, CMHC and CMMC provide physician coverage, management and other various services to Parkview routinely throughout the year under the terms of a management agreement.

Notes to Consolidated Financial Statements
June 30, 2014 and 2013

At June 30, 2014 and 2013, the Corporation has a recorded receivable from Parkview of \$5,678,268 and \$6,157,393, respectively, for services rendered under this agreement. For the year ended June 30, 2014, Parkview sold four buildings to the Corporation for approximately \$5,240,000, of which Parkview received \$600,000 in cash from the Corporation and the remaining \$4,640,000 of the sale was applied to outstanding debts owed by Parkview to the Corporation.

Parkview's audit as of and for the year ended December 31, 2013, included an Emphasis of Matter paragraph regarding substantial doubt about Parkview's ability to continue as a going concern due to recurring losses from operations and net asset deficiencies. At June 30, 2014 and 2013, the Corporation has recorded an allowance on the amounts due from Parkview of \$3,600,000 and \$0, respectively. Management continues to evaluate the estimated net collectability of the amounts due from Parkview based on Parkview's current financial position, and, as a result, it is reasonably possible this estimate could change materially in the near term.

Note 7: Property and Equipment

Note 8: Self-Insurance

Professional Liability Claims

CMHC and its subsidiaries obtain professional and management liability insurance coverages on a claims made basis and general liability coverage on an occurrence basis from CWM. CMHC's wholly owned subsidiary. The medical professional liability insurance coverage limits are \$2,000,000 per claim and \$12,000,000 in the aggregate, with coverage beginning January 1, 1979. Management liability insurance coverage limits are \$1,000,000 per claim and \$3,000,000 in the aggregate, with coverage beginning May 29, 1987. General liability coverage limits are \$2,000,000 per loss and \$12,000,000 in the aggregate. Additionally, CWM also provides an excess policy where coverage is limited to \$25,000,000 per claim and in the aggregate. Beginning July 1, 2007, CWM obtained reinsurance for 100% of the excess coverage, and prior to July 1, 2007, CWM reinsured 80% of the excess coverage.

Losses from asserted and unasserted claims identified under CWM's incident reporting system are accrued based on estimates that incorporate CWM's past experience, as well as other considerations, including the nature of each claim or incident and relevant trend factors.

The accrued liability for malpractice claims at June 30, 2014 and 2013, was \$17,486,939 and \$15,994,338, respectively. It is reasonably possible that CWM's estimate of losses will change by a material amount in the near term.

Effective July 1, 2012, CWM's medical professional liability policy was endorsed to include Directors and Officers and Employments Practices liability policy deductible buy back coverage. CWM's liability is limited to \$50,000 and \$75,000 in excess of CMHC's first dollar retention of \$50,000 each on all losses respectively.

Health Insurance

The Corporation is self-insured for employee health coverage and has accrued an estimate of the ultimate costs for both reported claims and claims incurred but not reported. The accrual is based on the consideration of prior claims experience, recently settled claims, frequency of claims and other economic and social factors and is included in current accrued expenses on the balance sheets. It is reasonably possible that the Corporation's estimate will change by a material amount in the near term. Commercial stop-loss insurance coverage is purchased for claims in excess of the aggregate annual amount.

Central Maine Healthcare Corporation and Subsidiaries

Notes to Consolidated Financial Statements June 30, 2014 and 2013

Workers' Compensation

The Corporation has a self-insurance program to provide for workers' compensation coverage and has accrued an estimate of the ultimate costs for both claims reported and claims incurred but not reported. A trust fund has been established for this purpose and is included in assets limited as to use. The accrual is based on the consideration of prior claims experience, recently settled claims, frequency of claims and other economic and social factors and is included in current accrued expenses on the balance sheets. It is reasonably possible that the Corporation's estimate will change by a material amount in the near term.

Liabilities for self-insurance costs for malpractice and workers' compensation are classified as current or long-term in the accompanying financial statements based on past experience, as well as other considerations, including the nature of each claim or incident and relevant trend factors.

Note 9: Lines of Credit

The Corporation has a revolving line of credit, with TD Banknorth, N A , which provides borrowings up to \$15,000,000, due December 31, 2014. Payments of interest only are due monthly at a rate of the one-month LIBOR plus 2.75%. The interest rate will be adjusted based on a review of the Corporation's quarterly financial statements to the one-month LIBOR plus 2.50% if days cash on hand is greater than 50 days, or to the one-month LIBOR plus 2.25% if days cash on hand is greater than 70 days. The interest rate at June 30, 2014 and 2013, was 2.90% and 2.75%, respectively. This line of credit is secured by substantially all of the Corporation's assets. At June 30, 2014 and 2013, respectively, the balance outstanding on the line of credit was \$0.

During the year ended June 30, 2014, the Corporation amended a line of credit with TD Banknorth, N A , which originally allowed borrowings up to \$25,000,000, reducing allowed borrowings up to \$7,500,000. The line of credit is due December 31, 2014, and the interest rate at June 30, 2014 and 2013, was 2.90% and 2.75%, respectively. This line of credit is secured by substantially all of the Corporation's assets. At June 30, 2014 and 2013, the balance outstanding on the line of credit was \$0.

During the year ended June 30, 2014, the Corporation converted a revolving line of credit with TD Banknorth, N A that previously allowed for borrowings up to \$25,000,000 to a term note in the amount of \$8,701,284 (see *Note 10 (J)*). At June 30, 2013, the outstanding balance on the line of credit was \$10,342,598.

During 2014 and 2013, net assets of \$108,576 and \$1,200,095, respectively, were released to purchase equipment.

Note 12: Endowment

The Corporation's endowment consists of numerous individual funds established for a variety of purposes. The endowment includes both donor-restricted endowment funds and funds designated by the governing body to function as endowments (board-designated endowment funds). As required by accounting principles generally accepted in the United States of America (GAAP), net assets associated with endowment funds, including board-designated endowment funds, are classified and reported based on the existence or absence of donor-imposed restrictions.

The Corporation's governing body has interpreted the State of Maine Prudent Management of Institutional Funds Act (SPMIFA) as requiring preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, the Corporation classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund. The remaining portion of donor-restricted endowment funds is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the Corporation in a manner consistent with the standard of prudence prescribed by SPMIFA. In accordance with SPMIFA, the Corporation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- 1 Duration and preservation of the fund
- 2 Purposes of the Corporation and the fund
- 3 General economic conditions
- 4 Possible effect of inflation and deflation
- 5 Expected total return from investment income and appreciation or depreciation of investments
- 6 Other resources of the Corporation
- 7 Investment policies of the Corporation

The Corporation has adopted investment and spending policies for endowment assets that attempt to provide a predictable stream of funding to programs and other items supported by its endowment while seeking to maintain the purchasing power of the endowment. Endowment assets include those assets of donor-restricted endowment funds the Corporation must hold in perpetuity or for donor-specified periods, as well as those of board-designated endowment funds. Under the Corporation's policies and risk parameters, endowment assets are invested in a manner that is intended to produce results that are at least equal to the performance of the custom balanced index and rank in the top 33% of a nationally recognized evaluation service's universe for the comparable funds over a rolling five-year time period. The Corporation's custom index is comprised of the Standard & Poor's 500 Index, Russell 2000 Index, MSCI EAFE International Index and Solomon Brothers 90 day Treasury Bill Index and/or other appropriate indices. The Corporation expects its endowment funds to provide an average rate of return of approximately 8% annually over time. Actual returns in any given year may vary from this amount.

To satisfy its long-term rate of return objectives, the Corporation relies on a total return strategy in which investment returns are achieved through both current yield (investment income such as dividends and interest) and capital appreciation (both realized and unrealized). The Corporation targets a diversified asset allocation that places a greater emphasis on equity-based investments to achieve its long-term return objectives within prudent risk constraints.

The Corporation has a policy (the spending policy) of appropriating for expenditure each year 4.5% of its endowment fund's average fair value as measured on July 1 of the new fiscal year. In establishing this policy, the Corporation considered the long-term expected return on its endowment. Accordingly, over the long term, the Corporation expects the current spending policy to allow its endowment to grow at an average of 8% annually. This is consistent with the Corporation's objective to maintain the purchasing power of endowment assets held in perpetuity or for a specified term, as well as to provide additional real growth through new gifts and investment return.

Note 13: Charity Care

The costs of charity care provided under the Corporation's charity care policy were \$7,962,386 and \$6,497,568 for 2014 and 2013, respectively. The cost of charity care is estimated by applying the ratio of cost to gross charges to the gross uncompensated charges.

Note 14: Functional Expenses

The Corporation provides health care services primarily to residents within its geographic area. Expenses related to providing these services are as follows:

Note 15: Pension Plan

The CMHC and certain affiliates have a noncontributory defined benefit pension plan covering all employees who meet the eligibility requirements. Effective December 31, 2001, Rumford merged into the CMHC plan. The funding policy is to make the minimum annual contribution that is required by applicable regulations, plus such amounts as CMHC may determine to be appropriate from time to time. CMHC expects to contribute \$3,499,000 to the plan in 2015.

No employee hired after December 31, 2009, is eligible to participate in the defined benefit pension plan. Effective March 31, 2011, pension benefits for all employees in the defined benefit pension plan have been frozen. Effective July 1, 2011, all employees previously covered under the defined benefit plan can elect to participate in the Corporation's defined contribution plan.

Pension Plan Assets

Following is a description of the valuation methodologies used for pension plan assets measured at fair value on a recurring basis and recognized in the accompanying balance sheets, as well as the general classification of pension plan assets pursuant to the valuation hierarchy

Where quoted market prices are available in an active market, plan assets are classified within Level 1 of the valuation hierarchy. Level 1 plan assets include equity securities. If quoted market prices are not available, then fair values are estimated by using pricing models, quoted prices of plan assets with similar characteristics or discounted cash flows. Level 2 plan assets include cash and cash equivalents and fixed income securities. In certain cases where Level 1 or Level 2 inputs are not available, plan assets are classified within Level 3 of the hierarchy. No plan assets are classified as Level 3.

The fair values of CMHC's pension plan assets at June 30, 2014 and 2013, by asset class are as follows

	2014			
	Fair Value Measurements Using			
	Total Fair Value	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Plan assets are held by a bank-administered trust fund, which invests the plan assets in accordance with the provisions of the plan agreement. The plan agreements permit investment in common stocks, corporate bonds and debentures, U S government securities, certain insurance contracts, real estate and other specified investments and derivatives based on certain target allocation percentages.

The following benefit payments, which reflect expected future service, as appropriate, are expected to be paid as of June 30, 2014:

2015	\$ 4,544,660
2016	5,114,254
2017	5,613,061
2018	6,072,831
2019	6,555,864
2020-2024	39,641,803

Defined Contribution Plan

Effective July 1, 2012, all employees previously covered under the defined benefit pension plan are now eligible to start accruing benefits under the 403(b) defined contribution plan. Prior to July 1, 2012, only Bridgton employees were participants in the defined contribution plan. This plan covers substantially all employees, and the Corporation matches employee contributions into the plan up to 2.5% of an employee's annual salary. Amounts contributed by the Corporation vest at 20% for each year of service until 100% vested after five years of service. Pension expense to the plan was \$4,521,270 and \$4,110,054 for 2014 and 2013, respectively.

Deferred Compensation Plan

The Corporation funds deferred compensation plans under IRS section 457(f) and 457(b) for the benefit of certain senior executives. The trust accounts assets are classified as other assets and a corresponding deferred compensation obligation has been recorded by the Corporation in the amount of \$11,957,336 and \$9,731,734 at June 30, 2014 and 2013, respectively, and classified as other long-term debt.

The Corporation also funds a secured executive benefit plan for certain employees. Under this plan the Corporation purchases a life insurance policy for key members of management. Upon termination of the plan the Corporation will receive the premium payments, paid by the Corporation over the life of the policy, and the employees will receive the amounts in excess of the premium payments to the Corporation. At June 30, 2014 and 2013, respectively, the Corporation had recorded investments of \$18,728,639 and \$16,929,547 included in deferred compensation assets.

Note 16: Disclosures About Fair Value of Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Notes to Consolidated Financial Statements June 30, 2014 and 2013

Following is a description of the valuation methodologies and inputs used for assets and liabilities measured at fair value on a recurring basis and recognized in the accompanying balance sheets, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended June 30, 2014. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Cash Equivalents and Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. Level 1 securities include cash equivalents, fixed income securities and equity securities. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Level 2 securities include cash equivalents, fixed income securities and equity securities. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy and include private limited partnerships. For investments other than the private limited partnerships, the inputs used by the pricing service to determine fair value may include one, or a combination of observable inputs such as benchmark yields, broker/dealer quotes, issuer spreads, benchmark securities and reference data market research publications.

The value of certain investments, classified as alternative investments, is determined using net asset value (or its equivalent) as a practical expedient. Investments for which the Corporation expects to have the ability to redeem its investments with the investee within 12 months after the reporting date are categorized as Level 2. Investments for which the Corporation does not expect to be able to redeem its investments with the investee within 12 months after the reporting date are categorized as Level 3.

Fair value determinations for Level 3 measurements of securities are the responsibility of management. Management's office contracts with a pricing specialist to generate fair value estimates on a monthly or quarterly basis. Management's office challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting standards generally accepted in the United States.

Charitable Remainder Trusts

Fair value is estimated at the present value of the future distributions expected to be received over the term of the agreement. Due to the nature of the valuation inputs, the interest is classified within Level 2 of the hierarchy.

Nonrecurring Measurements

The following table presents the fair value measurement of assets and liabilities measured at fair value on a nonrecurring basis and the level within the fair value hierarchy in which the fair value measurements fall at June 30, 2014 and 2013

Central Maine Healthcare Corporation and Subsidiaries

Notes to Consolidated Financial Statements June 30, 2014 and 2013

Line of Credit and Long-Term Debt

Fair value is estimated based on the borrowing rates currently available to the Corporation for bank loans with similar terms and maturities

Note 17: The Fair Value Option

As permitted by Topic 825, the Corporation has elected to measure its internally designated assets limited as to use and short-term investments at fair value. Management has elected the fair value option for these items because it more accurately reflects the portfolio returns and financial positions of the Corporation. Total investments at June 30, 2014 and 2013, are \$0 and \$357,240, respectively.

See *Note 16* for additional disclosures regarding fair value of these investments.

Changes in Fair Value

Changes in fair value for items for which the fair value option has been elected are reported as investment return in other income (expense) in the financial statements. The change for 2014 and 2013 was a decrease of \$357,240 and \$442,341, respectively, which reflects all investment return amounts from short-term investments and internally designated investments.

Note 18: Asset Retirement Obligation

Accounting principles generally accepted in the United States of America require that an asset retirement obligation (ARO) associated with the retirement of a tangible long-lived asset be recognized as a liability in the period in which it is incurred or becomes determinable (as defined by the standard) even when the timing and/or method of settlement may be conditional on a future event. The Corporation's conditional asset retirement obligations relate to environmental hazards contained in buildings that the Corporation owns. Environmental regulations exist that require the Corporation to handle and dispose of environmental hazards in a special manner if a building undergoes major renovations or is demolished.

Central Maine Healthcare Corporation and Subsidiaries

Notes to Consolidated Financial Statements June 30, 2014 and 2013

A summary of changes in asset retirement obligations for the years ended June 30, 2014 and 2013, is included in the table below

	2014	2013
Liability, beginning of year	\$ 2,939,284	\$ 2,829,879
Liabilities settled	(82,833)	(89,014)
Accretion expense	210,324	198,419
	<u>\$ 3,066,775</u>	<u>\$ 2,939,284</u>

Note 19: Significant Estimates and Concentrations

Accounting principles generally accepted in the United States of America require disclosure of certain significant estimates and current vulnerabilities due to certain concentrations. Those matters include the following:

Allowance for Net Patient Service Revenue Adjustments

Estimates of allowances for adjustments included in net patient service revenue are described in *Notes 1* and *2*.

Self-Insured Professional Liability, Workers' Compensation and Employee Health Claims

Estimates related to the accrual for medical malpractice, workers' compensation and health insurance claims are described in *Notes 1* and *7*.

Litigation

In the normal course of business, the Corporation is, from time to time, subject to allegations that may or do result in litigation. Some of these allegations are in areas not covered by the Corporation's self-insurance program (discussed elsewhere in these notes) or by commercial insurance, for example, allegations regarding employment practices or performance of contracts. The Corporation evaluates such allegations by conducting investigations to determine the validity of each potential claim. Based upon the advice of counsel, management records an estimate of the amount of ultimate expected loss, if any, for each of these matters. Events could occur that would cause the estimate of ultimate loss to differ materially in the near term.

Central Maine Healthcare Corporation and Subsidiaries

Notes to Consolidated Financial Statements June 30, 2014 and 2013

Asset Retirement Obligation

As discussed in *Note 17*, the Corporation has recorded a liability for its conditional asset retirement obligation related to environmental hazards

Pension Benefit Obligations

The Corporation has a contributory defined benefit pension plan whereby it agrees to provide certain postretirement benefits to eligible employees. The benefit obligation is the actuarial present value of all benefits attributed to service rendered prior to the valuation date based on the linear method. It is reasonably possible that events could occur that would change the estimated amount of this liability materially in the near term.

Investments

The Corporation invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the accompanying balance sheets.

Notes and Other Receivables

Due to the level of risk associated with certain notes and other receivables, it is at least reasonably possible that changes in the collectability of these receivables could occur in the near term and that such change could materially affect the amounts reported in the accompanying balance sheets.

Note 20: Information Technology Commitments

The Corporation has entered into an agreement with a national revenue cycle software company to provide software support services for the Corporation through 2018. The annual commitments for this agreement are as follows:

2015	\$ 1,318,948
2016	1,318,948
2017	1,318,948
2018	659,474

Note 21: Patient Protection and Affordable Care Act

The *Patient Protection and Affordable Care Act* (PPACA) will substantially reform the United States health care system. The legislation impacts multiple aspects of the health care system, including many provisions that change payments from Medicare, Medicaid and insurance companies. Starting in 2014, the legislation requires the establishment of health insurance exchanges, which will provide individuals without employer-provided health care coverage the opportunity to purchase insurance. It is anticipated that some employers currently offering insurance to employees will opt to have employees seek insurance coverage through the insurance exchanges. It is possible the reimbursement rates paid by insurers participating in the insurance exchanges may be substantially different than rates paid under current health insurance products. Another significant component of the PPACA is the expansion of the Medicaid program to a wide range of newly eligible individuals. In anticipation of this expansion, payments under certain existing programs, such as Medicare disproportionate share, will be substantially decreased. Each state's participation in an expanded Medicaid program is optional.

The state of Maine has currently indicated it will not expand the Medicaid program, which may result in revenues from newly covered individuals not offsetting the Corporation's reduced revenue from other Medicare/Medicaid programs.
