Form and Line Reference	Explanation
Part I, Line 7	Expenses calculated on Lines 7a & 7b were calculated using a cost-to-charge ratio while actual expenses were used in calculating the amount reported on line 7i

Form and Line Reference	Explanation
Part III, Line 4	Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to operations and a credit to a valuation allowance based on its assessment of individual accounts and historical adjustments. Balances that are still outstanding, after management has used reasonable collection efforts, are written off through a charge to the valuation allowance and a credit to patient accounts receivable. In evaluating the collectability of accounts receivable, the Hospital analyzes past results and identifies trends for each major payor source of revenue for the purposes of estimating the appropriate amounts of the allowance for doubtful accounts and the provision for bad debts. Data in each major payor source are regularly reviewed to evaluate the adequacy of the allowance for doubtful accounts. Specifically, for receivables relating to services provided to patients having third-party coverage, an allowance for doubtful accounts and a corresponding provision for bad debts are established at varying levels based on the age of the receivables and payor source. For receivables relating to self-pay patients, a provision for bad debts is made in the period services are rendered based on experience indicating the inability or unwillingness of patients to pay amounts for which they are financially responsible.

Form and Line Reference	Explanation
Part III, Line 8	The Organization used accounting methodology prescribed by the Medicare cost report as its costing methodology to determine the amount of Medicare allowable costs

Form and Line Reference	Explanation
Part VI, Line 2	A formal community needs assessment is done every 2-3 years. These assessments are conducted to obtain information on successes, failures, weaknesses and strengths to be used for guidance in the vision for the future of healthcare delivery in our service areas.

Form and Line Reference	Explanation
Part VI, Line 3	Inpatients In order to identify those patients who would be eligible for financial assistance, all uninsured inpatients are referred to the Financial Counselor by pre-registration or registration personnel The Financial Counselor will do an initial screening for payment options prior to the patient leaving the hospital, if possible If the patient has left the hospital, the Financial Counselor will attempt to contact the patient for information All inpatients are given a copy of Patient Free Care and Discount Arrangements guidelines at time of admission Surgical outpatients The Financial Counselor will provide information about Patient Free Care, Discount Arrangements and term payment arrangements to all uninsured surgical outpatients All surgical outpatients are provided a copy of Patient Free Care and Discount Arrangements guidelines at time of registration Emergency room patients All emergency room patients are provided a copy of Patient Free Care and Discount Arrangements guidelines at time of registration All other outpatients All other outpatients are provided a copy of the Patient Free Care/Discount Arrangements guidelines at time of registration All patients will receive notice of availability of financial assistance included in their first-time statement Patient Financial Services employees and Physician Practice employees receive training on patient free care and discount arrangements guidelines and are expected to be able to provide contact information about free care and discount arrangements

Form and Line Reference	Explanation
Part VI, Line 4	Millinocket Regional Hospital has three communities in its primary service area, Millinocket, East Millinocket and Medway. There are multiple smaller communities in the secondary service area including, Brownville, Stacyville, Sherman, Patten and Island Falls. The area has struggled and realized an unemployment rate in the teens for the past ten years and community outmigration. The population of the primary service area is approximately 7,500 people. The hospital has realized this population change by large volume declines in 2013. The average median household income is 22% behind the state average. The average resident age is 14% older than the state median age.

In connection with any actual or possible conflicts of interest, an interested individual must disclose the existence of his or her conflict annually and whenever the conflict arises for action at a meeting. After receiving all annual attestations, the CEO will provide the signed statements to the Hospital's attorney for review. After review, the attorney will determine if a conflict exists and inform the CEO and Board chair of the conflicted individuals. There is a listing of Board, Medical Staff and Manager conflicts available at all meetings for reference. The Agenda for every Board, Medical Staff or Department meeting will clearly list the discussion items that require action during the meeting. At the beginning of the meeting, the President will ask the members to review the list of action items and declare whether or not they have a conflict. All conflicted members will be required to excuse themselves and leave the room during the discussion and vote. If the board or committee has reasonable cause to believe that a member has failed to disclose actual or possible conflicts of interest, it shall inform the member of the basis for such belief and afford the member an opportunity to explain the alleged failure to disclose.

INDEPENDENT AUDITOR'S REPORT

Board of Trustees
Millinocket Regional Hospital and Subsidiary

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Millinocket Regional Hospital and Subsidiary (the Hospital), which comprise the consolidated balance sheets as of June 30, 2014 and 2013, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with U S. generally accepted accounting principles, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with U S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Millinocket Regional Hospital and Subsidiary as of June 30, 2014 and 2013, and the results of its operations, changes in its net assets and its cash flows for the years then ended, in accordance with U S. generally accepted accounting principles.

Other Matter

Other Information

Our audits were conducted for the purpose of forming an opinion on the consolidated financial statements as a whole. Schedules 1, 2 and 3 are presented for purposes of additional analysis and are not a required part of the consolidated financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the consolidated financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the consolidated financial statements or to the consolidated financial statements themselves, and other additional procedures in accordance with U.S. generally accepted auditing standards. In our opinion, the information is fairly stated, in all material respects, in relation to the consolidated financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 19, 2014 on our consideration of Millinocket Regional Hospital and Subsidiary's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Millinocket Regional Hospital and Subsidiary's internal control over financial reporting and compliance.

MILLINOCKET REGIONAL HOSPITAL AND SUBSIDIARY

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

Nature of Operations

Millinocket Regional Hospital and Subsidiary (the Hospital) is a not-for-profit entity located in Millinocket, Maine, established to provide health care services through its acute care facility and its primary care practices to the Millinocket area. First Millinocket Regional Investment Company (FMRIC) operates as a lessor. The Hospital is the sole incorporator in FMRIC.

1. Financial Reporting

Principles of Consolidation

The consolidated financial statements include the accounts of the Hospital and its wholly-owned for-profit subsidiary, FMRIC. All significant intercompany balances and transactions have been eliminated in consolidation.

2. Summary of Significant Accounting Policies

Use of Estimates

The preparation of financial statements in conformity with U S generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash and Equivalents

Cash and equivalents include certain investments in highly liquid debt instruments with original maturities of three months or less. The Hospital maintains its cash in deposit accounts which, at times, may exceed federal depository insurance limits. Management believes the credit risk related to these investments is minimal. The Hospital has not experienced any losses in such accounts.

To minimize risk, the Hospital utilizes a sweep account. On a daily basis, after activity has been posted to the operating account, the bank will withdraw excess funds above \$300,000 from the account and invest the funds in U S government securities. The bank then repurchases the securities at the beginning of the next banking day.

Patient Accounts Receivable

Patient accounts receivable are stated at the amount management expects to collect from outstanding balances. Management provides for probable uncollectible amounts through a charge to operations and a credit to a valuation allowance based on its assessment of individual accounts and historical adjustments. Balances that are still outstanding, after management has used reasonable collection efforts, are written off through a charge to the valuation allowance and a credit to patient accounts receivable.

MILLINOCKET REGIONAL HOSPITAL AND SUBSIDIARY

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

In evaluating the collectability of accounts receivable, the Hospital analyzes past results and identifies trends for each major payor source of revenue for the purposes of estimating the appropriate amounts of the allowance for doubtful accounts and the provision for bad debts. Data in each major payor source are regularly reviewed to evaluate the adequacy of the allowance for doubtful accounts. Specifically, for receivables relating to services provided to patients having third-party coverage, an allowance for doubtful accounts and a corresponding provision for bad debts are established at varying levels based on the age of the receivables and payor source. For receivables relating to self-pay patients, a provision for bad debts is made in the period services are rendered based on experience indicating the inability or unwillingness of patients to pay amounts for which they are financially responsible.

Supplies

Supplies are carried at the lower of cost (determined by the first-in, first-out method) or market.

Assets Limited as to Use and Investment Income

Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value in the balance sheets. Investment income (including realized gains and losses on investments, interest and dividends) is included in the excess or deficiency of revenues, gains and other support over expenses and losses unless the income or loss is restricted by donor or law.

Unrealized gains and losses on investments are excluded from the excess or deficiency of revenues, gains, and other support over expenses and losses, and are reported as an increase or decrease in net assets, except that declines in fair value that are judged to be other than temporary are reported as realized losses. These losses are recorded as other than temporary declines in investments, and included in other gains (losses) in the statements of operations.

Investments in general are exposed to various risks, such as interest rate, credit, and overall market volatility. As such, it is reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect the amounts reported in the balance sheets and statements of operations. Investments are periodically reviewed for impairment to determine if such declines are other than temporary. Investments were evaluated for impairment as of June 30, 2014 and 2013, and all impairments were considered temporary. At June 30, 2014, historical cost exceeded market value by approximately \$1,400 for stocks purchased within the past twelve months. No stocks held greater than twelve months had historical cost that exceeded market value.

Assets limited as to use primarily include assets designated by the Board for capital improvements, assets held by trustees under debt agreements, and assets funding deferred compensation arrangements. Amounts required to meet current liabilities of the Hospital have been classified as current assets in the balance sheets.

Property and Equipment

Property and equipment acquisitions are recorded at cost or, if contributed, at fair market value determined at the date of donation. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed using the straight-line method. Equipment under capital lease obligations is amortized on the straight-line method over the shorter period of the lease term or the estimated useful life of the equipment. Such amortization is included in depreciation and amortization in the financial statements. Interest cost incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets.

Gifts of long-lived assets, such as land, buildings or equipment, are reported as unrestricted support unless explicit donor stipulations specify how the donated assets must be used. Gifts of long-lived assets with explicit restrictions that specify how the assets are to be used and gifts of cash or other assets that must be used to acquire long-lived assets are reported as restricted support. Absent explicit donor stipulations about how long those long-lived assets must be maintained, expirations of donor restrictions are reported when the donated or acquired long-lived assets are placed in service.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those whose use by the Hospital have been limited by donors to a specific time period or purpose. Permanently restricted net assets have been restricted by donors to be maintained by the Hospital in perpetuity.

Net Patient Service Revenue

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. Payment arrangements include prospectively determined rates per discharges, reimbursed costs, fee schedules, discounted charges, and capitation. Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors. Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and adjusted in future periods as final settlements are determined.

Charity Care

The Hospital provides care to patients who meet certain criteria under its charity care policy without charge or at amounts less than its established rates. Because the Hospital does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue.

Employee Benefit Plans

The Hospital has a defined contribution retirement plan which covers all employees who have met certain eligibility requirements. Each eligible employee receives a 50% match up to 3% of their salary. There is also a 1% base contribution at year-end for employees over 21, who are employed at year-end and have worked at least 416 hours during the fiscal year. Contributions of \$371,627 and \$380,501 were made to the plan in 2014 and 2013, respectively

The Hospital has a nonqualified deferred compensation plan which was established for a select group of management or highly compensated employees. The plan's assets are invested in mutual funds and were valued at \$1,027,784 and \$832,178 at June 30, 2014 and 2013, respectively, and are reported in the current portion of assets limited as to use and accrued retirement payable on the balance sheet.

Donor-Restricted Gifts

Unconditional promises to give cash and other assets to the Hospital are reported at fair value at the date the promise is received. Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received. The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported in the statements of operations as net assets released from restrictions.

Income Taxes

The Hospital is a not-for-profit corporation as described in Section 501(c)(3) of the Internal Revenue Code (the Code) and is exempt from federal income taxes on related income. The Hospital's subsidiary, FMRIC, files a federal income tax return and a Maine income tax return.

FMRIC has net operating losses which are expected to offset future taxable income. A 100% valuation allowance has been established against the deferred tax asset associated with such carryforward due to the uncertainty as to whether the loss carryforwards will be utilized in the future.

(Deficiency) Excess of Revenues, Gains and Other Support Over Expenses and Losses

The consolidated statements of operations include (deficiency) excess of revenues, gains and other support over expenses and losses. Changes in unrestricted net assets which are excluded from this measure, consistent with industry practice, include unrealized gains and losses on investments and net assets released from restrictions used for purchase of property and equipment.

Subsequent Events

For purposes of the preparation of these financial statements, the Hospital has considered transactions or events occurring through September 19, 2014, which was the date that the financial statements were available to be issued

3. Net Patient Service Revenue and Accounts Receivable

The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates. A summary of the payment arrangements with major third-party payors follows:

- **Medicare** - The Hospital is a Critical Access Hospital (CAH) and is reimbursed at 101% of allowable costs for its inpatient and outpatient services provided to Medicare patients. The Hospital is reimbursed at tentative rates with final determination after submission of annual cost reports by the Hospital and audits thereof by the Medicare fiscal intermediary. The Hospital's Medicare cost reports under this program have been audited through June 30, 2012, and final settled by the fiscal intermediary through June 30, 2009.

MaineCare - As a CAH, services rendered to MaineCare recipients are reimbursed at 109% of allowable costs for inpatient and outpatient services. The Hospital's cost reports have been audited by MaineCare through June 30, 2005.

Revenue from the Medicare and MaineCare programs accounted for approximately 47% and 12%, respectively, of the Hospital's net patient revenue for the year ended June 30, 2014, and for approximately 50% and 11%, respectively, of the Hospital's net patient revenue for the year ended June 30, 2013. Laws and regulations governing the Medicare and MaineCare programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Net patient service revenue increased by approximately \$264,000 in 2014 due to differences in retroactive adjustments compared to amounts previously estimated. There was no related impact in 2013.

The Hospital also has entered into payment agreements with certain commercial insurance carriers. The payment to the Hospital under these agreements is primarily based on discounts from established charges.

The allowance for doubtful accounts was \$1,868,300 and \$1,855,100 at June 30, 2014 and 2013, respectively, and relates almost entirely to self-pay accounts. Gross self-pay accounts receivable were \$2,286,275 and \$2,405,148 at June 30, 2014 and 2013, respectively. Revenue related to self-pay patients was \$1,850,600 and \$1,988,600 for the years ended June 30, 2014 and 2013, respectively.

4. Charity Care

The Hospital maintains records to identify and monitor the level of charity care it provides. These records include the amount of charges foregone for services and supplies furnished under its charity care policy, as well as the estimated cost of those services and supplies and equivalent service statistics. The following information measures the level of charity care provided during the years ended June 30:

	<u>2014</u>	<u>2013</u>
Charges forgone, based on established rates	\$ 1,233,118	\$ 1,026,140
Estimated costs and expenses incurred to provide charity care	797,056	635,963
Equivalent percentage of charity care charges to all Hospital patient charges	2.93 %	2.30 %

Costs of providing charity care services have been estimated based on an overall financial statement ratio of costs to charges applied to charges for the services.

8. Long-Term Debt

Long-term debt at June 30, 2014 and 2013, consisted of the following

	<u>2014</u>	<u>2013</u>
4.25% mortgage note payable to the U.S. Department of Agriculture, Rural Development due in monthly principal and interest payments of \$12,300 through August 2041; collateralized by property and equipment, contract rights, accounts receivable and general intangibles of the Hospital.	\$ 2,375,730	\$ 2,421,305

During 2013, the Hospital refinanced its MHHEFA Revenue Bonds, Series 2003D with proceeds from the issuance of the MHHEFA Revenue Bonds, Series 2013A. No loss on early extinguishment of debt was recorded as this was determined to be a modification of terms.

A debt service fund of \$154,000 is maintained in accordance with the provisions of the 5% mortgage note payable maturing in 2015. A debt service fund in accordance with the provisions of the 4.25% mortgage note payable, maturing in 2037, was \$67,896, and a debt service fund in accordance with the provisions of the 4.25% mortgage note payable, maturing in 2041, was \$147,600 at June 30, 2014. The total debt service funds of \$369,496 are included in long-term assets limited as to use on the balance sheet.

The indentures related to the revenue bond contain provisions regarding debt service coverage ratios, limitations on additional indebtedness, liens on property and equipment and restrictions on encumbering revenues. At June 30, 2014, the Hospital was not in compliance with certain covenants.

Maturities of long-term debt and capital leases for the five years subsequent to June 30, 2014, are as follows:

	<u>Long-term debt</u>	<u>Capital leases</u>

10. Malpractice Insurance

The Hospital maintains malpractice insurance coverage on a claims made basis. The Hospital is subject to complaints, claims and litigation due to potential claims which arise in the normal course of business. U S generally accepted accounting principles require the Hospital to accrue the ultimate cost of malpractice claims when the incident that gives rise to the claim occurs, without consideration of insurance recoveries. Expected recoveries are presented as a separate asset. The Hospital has evaluated its exposure to losses arising from potential claims and determined no such accrual is necessary for the year ended June 30, 2014. The Hospital intends to renew coverage on a claims made basis and anticipates that such coverage will be available.

The Hospital also participates in a self-insured workers' compensation insurance plan through an industry cooperative. Current funding levels by the Hospital and other participants in the cooperative are expected to be adequate to meet future claims. Excess insurance has been purchased to mitigate the cooperative's exposure to loss on large aggregate claims over a certain level.

11. Investment in Affiliate

The Hospital is a member of a shared services not-for-profit corporation, Katahdin Shared Services, Inc. (the "Affiliate"), which provides ultrasound and occupational therapy to the Hospital and another member hospital. The Hospital's share of the gain of the Affiliate, which is based proportionately on charges to each member for the year ended June 30, 2014 and 2013, was \$8,219 and \$6,771, respectively. The Hospital's investment in the Affiliate is included in other assets and amounted to \$55,546 and \$47,327 at June 30, 2014 and 2013, respectively.

Ultrasound services purchased from the Affiliate by the Hospital for the years ended June 30, 2014 and 2013, were approximately \$290,200 and \$283,500, respectively, and occupational therapy services were approximately \$90,600 and \$99,200, respectively.

12. Concentrations

Credit Risk

The Hospital grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of gross receivables from patients and third-party payors was as follows:

	<u>2014</u>	<u>2013</u>
Medicare	34.3 %	31.9 %
MaineCare	6.7	11.9
Blue Cross	4.3	6.7
Other third-party payors	20.0	18.0
Patients	<u>34.7</u>	<u>31.5</u>
	<u>100.0 %</u>	<u>100.0 %</u>

Labor Force

The Hospital's unionized labor workforce are members of the Maine State Nurses Association Local Unit #1082. The union contract is in effect through May 14, 2015.

13. Functional Expenses

The Hospital provides general health care services to residents within their geographic location. Expenses related to providing these services are as follows:

	<u>2014</u>	<u>2013</u>
Health care services	\$ 25,233,817	\$ 25,842,637
General and administrative	<u>2,031,889</u>	<u>1,820,400</u>
	<u>\$ 27,265,706</u>	<u>\$ 27,663,037</u>

14. Electronic Health Records Incentive Program

The Medicare and Medicaid electronic health record (EHR) incentive programs provide a financial incentive for achieving "meaningful use" of certified EHR technology. The Medicare criteria for meaningful use will be staged in three steps from fiscal year 2013 through 2016. The meaningful use attestation is subject to audit by CMS in future years. As part of this process, a final settlement amount for the incentive payments could be established that differs from the initial calculation, and could result in return of a portion or all of the incentive payments received by the Hospital. During 2014, the Hospital attested to Stage One of meaningful use and recorded \$133,739 of revenue from Medicare.

MILLINOCKET REGIONAL HOSPITAL AND SUBSIDIARY

Notes to Consolidated Financial Statements

June 30, 2014 and 2013

The Medicaid program will provide incentive payments to hospitals and eligible professionals as they adopt, implement, upgrade or demonstrate meaningful use in the first year of participation and demonstrate meaningful use for up to five remaining participation years. There will be no payment adjustments under the Medicaid EHR incentive program. During 2014 and 2013, the Hospital recorded \$223,508 and \$279,385, respectively, from the Medicaid EHR program.

15. Fair Value Measurements

ASC Topic 820, *Fair Value Measurements and Disclosures*, defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The standard describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, and other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect an entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Assets measured at fair value on a recurring basis are summarized below.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

Board of Trustees
Millinocket Regional Hospital and Subsidiary

We have audited, in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the consolidated financial statements of Millinocket Regional Hospital and Subsidiary (the Hospital), which comprise the consolidated balance sheets as of June 30, 2014, and the related consolidated statements of operations, changes in net assets and cash flows for the the year then ended, and the related notes to the consolidated financial statements, and have issued our report thereon dated September 19, 2014.

Internal Control Over Financial Reporting

In planning and performing our audit of the consolidated financial statements, we considered the Hospital's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the consolidated financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Hospital's internal control. Accordingly, we do not express an opinion on the effectiveness of the Hospital's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Hospital's consolidated financial statements are free from material misstatement, we performed tests of their compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audits, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
