Pt X Line 2 ----- The Organization adopted the recognition requirements for uncertain tax positions as required by generally accepted accounting principles in the United States.

Income tax benefits are recognized for income tax positions taken or expected to be taken in a tax return, only when it is determined that the income tax position will more-likely-than-not be sustained upon examination by taxing authorities. The Organization has analyzed tax positions taken for filing with the Internal Revenue Service and the state jurisdiction where it operates. The Organization believes that income tax positions will be sustained upon examination and does not anticipate any adjustments that would result in a material adverse affect on the Organizations financial condition, results of operations or cash flows. Accordingly, the Organization has not
