Briefly describe the organization’s mission

AmeriCares is an emergency response and global health organization committed to saving lives and building healthier futures for people in crisis in the United States and around the world. Every day, AmeriCares puts critically needed medicines and supplies in the hands of frontline health workers and develops innovative, sustainable health improvements in their communities. We are the leading nonprofit for delivering donated medicines and medical supplies to health programs around the world. We leverage this core competency with emergency preparedness, response and recovery efforts and evidence-based programs that improve health outcomes. Since we began operations in 1982, AmeriCares has provided more than \$11 billion in aid to people in 164 countries.

Our Global Health programs are our largest expense by far. In FY14, AmeriCares Global Health programs donated enough medicine to fill 9.2 million prescriptions, as well as 22.9 million units of medical supplies, for people in need in 95 countries. We worked to expand and restore health services following disaster and catalyze lasting improvements in health care provision. Collaborating with partners, in FY14 we invested \$10.1 million of new funds in 127 health projects in 32 countries that will directly benefit an estimated 1.7 million individuals. Emergency preparedness, response and recovery. AmeriCares responded to 29 disasters in 20 countries, continued recovery work in six countries and supported disaster preparation projects in 12 countries. In total, we provided \$37.9 million in aid for victims of natural and manmade disasters across the continuum of preparedness, response and recovery. Our emergency response and recovery work included a comprehensive response for Typhoon Haiyan, which swept through the Visayas region of the Philippines on November 8, 2013. In fiscal year 2014 AmeriCares delivered nearly \$19 million in medicines and relief supplies to health partners, including enough medicines to fill almost 1 million prescriptions and enough medical and relief supplies to benefit an estimated 175,000 people. In addition to providing life-saving medicines and supplies, AmeriCares is helping the Philippines recover from Haiyan by rehabilitating or rebuilding 28 health facilities and we have plans in place to rehabilitate dozens more. We are building the capacity of the health system in storm-affected areas by supporting mental health and psychosocial training for 1,300 health workers. AmeriCares is committed to improving the resilience of the health system in the Visayas, we are providing back-up power systems for ten hospitals and ensuring that damaged facilities are built back better than before. Health system preparedness will be a focus of our work in the Philippines in the months ahead. An estimated 143,000 people will directly benefit from the projects committed in FY14, in addition to thousands more who benefitted from AmeriCares medicines. Total aid provided in response to Typhoon Haiyan in FY14 was \$20,338,000. In the U.S. in FY14, AmeriCares responded to tornadoes and severe weather across the south and Midwest. We provided more than \$494,000 in medicines, medical supplies and other assistance to partners in Arkansas, Florida, Kansas and Mississippi following the April 2014 tornadoes. Our assistance included enough medicine to fill more than 4,000 prescriptions. We also funded the temporary relocation of the Greater Meridian Health Clinic in Mississippi, which was completely destroyed by a tornado. We continued to help communities in Illinois and Oklahoma recover from tornadoes that struck in November 2013 and May 2013, respectively. In Illinois, we funded the repair of a water tower in the tornado-ravaged village of Gifford and increased the response capacity of OSF Hospital's Medical Response team with the creation of Telehealth capability. In Oklahoma, AmeriCares is helping the Norman Regional Health System HealthPlex meet the surge in pediatric patients and expectant mothers that resulted from the destruction of the Moore Medical Center. With AmeriCares support, the HealthPlex purchased supplies and equipment including a pediatric anesthesia cart and cubs. Our recovery work included projects to restore and strengthen health systems after the Haiti earthquake (2010), Japan earthquake and tsunami (2011), and U.S. Hurricane Sandy (2012). In Haiti, FY14 included several rehabilitation projects including the rural government health facility in Grand Anse Department named Centre de Sant de Pestel. The facility serves 41,000 people and, before the full rehabilitation took place with direct oversight from AmeriCares staff engineer in Haiti, was not fully functional. Now, services are provided in a more hygienic, fully functioning facility. Cholera prevention and treatment is one of four key areas of focus for our program in Haiti. Our cholera-focused project support included prevention programs that target water and sanitation infrastructure improvement, health education, hygiene promotion and training of health workers in urban and rural communities to benefit more than 66,000 individuals. In Japan we remain focused on helping families and local groups deal with the stress of displacement and the trauma of loss. Activities in the area of mental health and psychosocial support over the last three years included over \$2.4 million in project support to more than 72 organizations helping an estimated 63,000 people in need. In FY14, this amounted to more than \$742,000 in project support to 54 organizations helping an estimated 15,000 people. These activities include therapeutic gardening, community activities in temporary housing communities, counseling and case management for new mothers in need as well as community directed initiatives created and carried out by community residents themselves. In the U.S., we support organizations in the New York, New Jersey and Connecticut region helping survivors of Hurricane Sandy recover from their trauma of loss and the stress of displacement. AmeriCares supports projects to help link families with the care they need through a technique known as disaster case management. We also provide direct support to psychosocial programming in areas such as art therapy and group counseling. In FY14, these mental health and psychosocial support initiatives amounted to more than \$507,000 in project support to five organizations helping more than 1,500 people. Ongoing -- to provide medicines that increase access to health care, strengthen health systems, improve safety and patient care and make sustainable improvements in health systems. In FY14, AmeriCares provided \$379.9 million in aid to our partner network in 92 countries (including the U.S.) to relieve shortages of medicines in low-resource communities. This included donation of enough medicine to fill 7 million prescriptions for people in need of cardiovascular medications, antibiotics, vaccines and other crucial medicines. Our support also included durable medical equipment, medical supplies and financial assistance. AmeriCares is the largest provider of donated medical aid to the U.S. health care safety net, delivering more than \$84 million in medicines and supplies last year to our partner network. We help our partners increase capacity, provide comprehensive care, improve health outcomes and reduce costs for patients. In FY14, AmeriCares made new commitments of more than \$555,000 to implement five projects to strengthen health systems, diagnose and treat non-communicable diseases, and build foundations for health in communities. In an October 2013 external evaluation of our U.S. Medical Assistance program, 95 percent of clinics responding to a survey strongly agreed or agreed that product donations from AmeriCares reduced out-of-pocket expenses for their patients and 56 percent strongly agreed or agreed that without AmeriCares donations, the organization would have to cut funds from other programs to purchase products. Through our Medical Outreach program, AmeriCares supported 1,223 medical volunteer teams traveling to 82 countries with \$48.5 million in donated products including more than 1.1 million course treatments and 2.6 million units of supplies. We estimate that primary care teams saw 624,337 patients and surgery teams conducted 105,625 surgeries. In FY14, AmeriCares Medical Outreach completed the first comprehensive study of volunteer medical teams. This year-long study surveyed more than 500 medical volunteers to learn the activities, needs and impact of this community. Completed in FY14, the study yielded a framework of Medical Outreach best practices. A Best Practices Initiative is now underway to promote the framework, provide technical resources to support implementation of its elements and encourage collaboration and resource sharing. These activities will allow Medical Outreach to advance its goals to improve health outcomes, expand local health care capacity and strengthen teams' ability to address community health through sustainable partnerships. AmeriCares is also participating in targeted health initiatives. Among our activities during FY14, we completed the baseline assessment for our Health Workforce Safety program in Tanzania, a joint project with BD and Merck & Co., Inc. The program, which reduces risk and incidence of infections, especially hepatitis B in health workers, will be conducted at three hospitals next year, with Bristol-Myers Squibb and Peru-VIDA, completed a project to educate and reduce risk for diabetes in 1,000 at-risk individuals and provide treatment for approximately 250 diabetic patients in a rural farming community in Peru, with GSK, launched and completed a training program for pharmacy.

Since 1994, AmeriCares has been managing Patient Assistance Programs for individual pharmaceutical partners, with more than 3 million prescriptions filled since the program's inception. To accomplish this, AmeriCares partners with patient-facing vendors to screen applicants for eligibility, as well as with fulfillment pharmacies that dispense 22 brands of medication to approved patients in all 50 states. At the end of FY14, the program had five pharmaceutical donors operating seven PAP programs. The total value of medicines donated through PAP in FY14 was \$135.7 million, enough medicine to fill close to 454,000 prescriptions for patients who might not otherwise have access to these crucial medications. Medicines were shipped to patients in all 50 states, as well as Puerto Rico and the U.S. Virgin Islands.

In its 11th year of operation, AmeriCares El Salvador clinic provided health care to 26,710 patients who made a total of 76,039 visits to the facility. The clinic also has a robust health education program. During FY14, the clinic developed 32 health education programs, benefiting a total of 48,326 patients and family members. In addition, the clinic worked with 96 communities to proactively identify their health care priorities, and work to improve the collective health status of the families in those communities. In all, these activities represented 9,294 families, and reached a total of 55,764 individuals. Clinical Integral de Familiar is the first clinic in El Salvador to utilize electronic records. The clinic offers four medical subspecialties - pulmonology, ophthalmology, ENT and dermatology - which are unavailable locally and provided at lowest cost relative to other regional clinics and is the only primary care clinic in El Salvador to offer mammography services. Diagnostic equipment for blood chemistry, hematology and ultrasound, resulting in fast, quality reports at a cost that is accessible to our patient population and colposcopy services to support early detection, diagnosis and treatment of women's health conditions. Visual health services are part of routine care. The clinic engaged in several infrastructure improvements in FY14, including acquisition of land (\$175,000), expansion of parking area (\$39,936) and expansion of educational gathering areas (\$30,542). Acquisition of land secures AmeriCares ability to expand the clinic facilities in the years to come. Currently, it affords an increase in parking capacity, which improves access and convenience for patients and employees. Additionally, expansion of the educational areas allows for greater capacity for staff and committee meetings, and community training and service programs. The clinic takes a leading role in the care and prevention of chronic non-communicable diseases such as hypertension and diabetes mellitus. In FY14, CIAF launched a program to advance the management of NCDs at the clinic and in the Ministry of Health system, starting with diabetes and hypertension. In FY14, the clinic completed a study of broad-based health outcomes of 2,500 patients to inform the program design, identify strengths and areas for improvement in clinical services, and support decision-making, education of the patient, and the participation of the community. Our clinic also serves as distribution hub for donations to other health and social service institutions in El Salvador. In the course of FY14, we provided 231 institutions and communities with donations totaling \$1,061,172. We also used donated medical supplies totaling \$113,083 directly at the clinic, which represents approximately 10 percent of our donated inventory. Our network included 21 health institutions across 21 municipalities, 29 social service institutions, 64 communities, and 117 public schools. One of our main supporters of our educational programs is TOMS Shoes. Our partnership with TOMS began in 2010, in FY14, the clinic distributed 42,623 pairs of TOMS Shoes, including more than 7,200 to children seen in the clinic. The clinic currently has 85 employees. Our internal regulations are monitored by El Salvador's Department of Labor.

| ENDOWMENT FUNDS                         | FORM 990, SCHEDULE D, PART V, LINE 4 The Americares Foundation endowment is intended to support the general charitable mission of the organization. The Foundation intends that the principal should remain untouched, while the earnings on the endowment's investments shall be used to support various charitable programs.   |
| INCOME TAXES                            | FORM 990, SCHEDULE D, PART X Americares recognizes a tax position based on a "more likely than not" threshold. This applies to positions taken or expected to be taken in a tax return. During fiscal 2014 and 2013, Americares evaluated its tax positions and concluded that it does not have any uncertain tax positions that meet the criteria under this standard. The tax years ending 2011, 2012, 2013, and 2014 are still open to audit for both federal and state purposes. |

990 Schedule F, Supplemental Information

| Return Reference                     | Explanation   |
|--------------------------------------|---|
| FORM 990, SCHEDULE F, PART I, LINE 2 | To ensure that donated goods and funds are used to fulfill our mission, AmeriCares tracks every donation as it enters and leaves our warehouses and requires reporting of each receiving partner organization, which include detailed confirmation of receipt and quarterly updates on distribution. Individual licensed health care providers receiving donations through our medical outreach program must provide a report detailing how the donation was used, number of patients treated and other information. Health partners that receive funding from AmeriCares are required to complete a grant application and a grant report, including data on how funds were used and, if applicable, the health outcome of the funded project or activity. AmeriCares staff also perform site visits to monitor partners' use of product donations and funding. Targeted health initiatives such as those described in the "ongoing" section above, may include baseline and final project assessments. |
