Total Client Investment: Cost of shares directly purchased and still held. Does not include shares purchased through reinvestment.

Cumulative Investment Return: Estimated Market Value minus Total Client Investment of all shares purchased and still held, including shares acquired through reinvestment of dividends and distributions, which may be greater or less than the actual income distributed.

Market Timing: Merrill Lynch's policies prohibit mutual fund market timing, which involves the purchase and sale of mutual fund shares within short periods of time with the intention of capturing short-term profits resulting from market volatility. Market timing may result in lower returns for long-term fund shareholders because market timers capture short-term gains that would otherwise pass to all shareholders and due to increased transaction costs and fewer assets for investment due to the need to retain cash to satisfy redemptions.

Unrealized Gain or (Loss): Estimated Market Value minus Total Cost Basis (total cost of shares directly purchased and still held, as well as cost of shares acquired through reinvestment) Provided for Tax Planning purposes only and is not applicable to retirement accounts.

Initial Purchase: Date of your initial investment in this fund.
