HOWEVER, THE ORGANIZATION IS INCLUDED IN THE CONSOLIDATED FINANCIAL STATEMENTS OF CATHOLIC HEALTH INITIATIVES. THE CONSOLIDATED FOOTNOTE READS AS FOLLOWS: "THE PROVISION FOR BAD DEBTS IS BASED UPON MANAGEMENT'S ASSESSMENT OF HISTORICAL AND EXPECTED NET COLLECTIONS, TAKING INTO CONSIDERATION HISTORICAL BUSINESS AND ECONOMIC CONDITIONS, TRENDS IN HEALTH CARE COVERAGE, AND OTHER COLLECTION INDICATORS. MANAGEMENT ROUTINELY ASSESSES THE ADEQUACY OF THE ALLOWANCE FOR UNCOLLECTIBLE ACCOUNTS BASED UPON HISTORICAL WRITE-OFF EXPERIENCE BY PAYOR CATEGORY. THE RESULTS OF THESE REVIEWS ARE USED TO MODIFY, AS NECESSARY, THE PROVISION FOR BAD DEBTS AND TO ESTABLISH APPROPRIATE ALLOWANCES FOR UNCOLLECTIBLE NET PATIENT ACCOUNTS RECEIVABLE. AFTER SATISFACTION OF AMOUNTS DUE FROM INSURANCE, CHI FOLLOWS ESTABLISHED GUIDELINES FOR PLACING CERTAIN BALANCES WITH COLLECTION AGENCIES, SUBJECT TO THE TERMS OF CERTAIN RESTRICTIONS ON COLLECTION EFFORTS AS DETERMINED BY EACH FACILITY. THE PROVISION FOR BAD DEBTS IS PRESENTED ON THE CONSOLIDATED STATEMENTS OF OPERATIONS AS A DEDUCTION FROM PATIENT SERVICES REVENUES (NET OF CONTRACTUAL ALLOWANCES AND DISCOUNTS) SINCE CHI ACCEPTS AND TREATS SUBSTANTIALLY ALL PATIENTS WITHOUT REGARD TO THE ABILITY TO PAY."

CENTERING DIABETES PROMOTES SELF-MANAGEMENT. CENTERING DIABETES CLASSES ARE MODELED ON CENTERING PREGNANCY CLASSES AND ARE DESIGNED TO HELP DIABETICS TO ACCESS CLINICIANS, THERAPISTS, DIETITIANS AND HEALTH EDUCATORS AND TO PARTICIPATE IN CLASSES ABOUT NUTRITION, EXERCISE, MEDICATIONS, AND LIFESTYLE AND COPING SKILLS. THE GOAL IS TO HELP PATIENTS TO NOT BE AFRAID OF HAVING DIABETES - TO SEE THAT THEY CAN TAKE CARE OF THEMSELVES AND THAT THE DISEASE IS MANAGEABLE. THE PROGRAM PROMOTES SELF-MANAGEMENT OF THE DISEASE TO ACHIEVE TREATMENT GOALS THAT BRING ABOUT HEALTHY OUTCOMES. COMBATING YOUTH VIOLENCE VIOLENCE PREVENTION ISN'T OFTEN THOUGHT OF AS A TRADITIONAL MEANS OF DELIVERING HEALTH CARE. BUT IT MAKES SENSE THAT ST JOSEPH REGIONAL HEALTH NETWORK SHOULD BE AT THE FOREFRONT OF THIS EFFORT TO REDUCE VIOLENCE IN OUR COMMUNITIES --- WE SEE THE TOLL OF VIOLENCE EVERY DAY IN OUR EMERGENCY DEPARTMENT. IT IS AN EPIDEMIC AND THE TOLL OF VIOLENT CRIMES IN THIS COUNTRY IS AS STAGGERING AND AS PERSISTENT AND PERVASIVE AS ANY INFECTIOUS OR CHRONIC DISEASE. ST JOSEPH PROVIDES THE READING YOUTH VIOLENCE PROJECT INITIATIVE WITH A FIVE-YEAR COMMITMENT TOTALING MORE THAN \$840,000. THROUGH A CONSENSUS PROCESS, THREE GOALS FOR PREVENTING YOUTH VIOLENCE WERE DEVELOPED - - SUPPORT POSITIVE RELATIONSHIPS AND HOME ENVIRONMENTS FOR YOUNG PEOPLE - - ENHANCE STUDENT AND SCHOOL ENGAGEMENT TO KEEP YOUNG PEOPLE IN SCHOOL - - IMPROVE CONDITIONS IN COMMUNITIES MOST IMPACTED BY VIOLENCE. HERT TEAM RESPONDING TO DISASTERS. ST JOSEPH REGIONAL HEALTH NETWORK'S HOSPITAL EMERGENCY RESPONSE TEAM (HERT) TRUCK CARRIES A MOBILE, 10-BED EMERGENCY HOSPITAL, COMPLETE WITH BEDS, SUPPLIES, MEDICAL EQUIPMENT, CARDIAC MONITORS, SUCTION UNITS, SPLINTS, STRETCHERS, EVACUATION CHAIRS, SIX PORTABLE "POP-UP" TENTS, WATER, FOOD, GENERATORS, LIGHTS, TABLES, CHAIRS, COMPUTERS, COMMUNICATION EQUIPMENT, TRIAGE TAGS, AND VARIOUS OTHER EMERGENCY HOSPITAL EQUIPMENT. IT IS A SELF-SUFFICIENT RESOURCE THAT CAN OPERATE INDEPENDENTLY FOR SEVERAL DAYS. THE TEAM CONSISTS OF PHYSICIANS, NURSES, PARAMEDICS, EMT, DECONTAMINATION SPECIALISTS, AND SUPPORT PERSONNEL WHO ARE EMPLOYEES OF THE HOSPITAL AND CONTRIBUTE THEIR TIME TO SUPPORT THE TEAM. THE HERT VEHICLE HAS BECOME A "STAPLE" AT COMMUNITY HEALTH EVENTS SUCH AS THE READING FAIR, WWII WEEKEND, BERKS COUNTY HERITAGE FESTIVAL, COMMUNITY DAYS, AND MANY OTHER VENUES. IN ADDITION, AND PERHAPS MORE IMPORTANTLY, THE HERT TRUCK TRANSPORTS SOME OF OUR ESSENTIAL EMERGENCY PREPAREDNESS EQUIPMENT, SUCH AS DECONTAMINATION GEAR, PORTABLE HOSPITAL LITTERS, AND MASS CASUALTY MEDICAL SUPPLIES, THAT THE HOSPITAL WOULD USE IN TIMES OF DISASTER. COMMUNITIES AROUND THE COUNTY HAVE COME TO RELY ON THE ST JOSEPH REGIONAL HEALTH NETWORK HERT TO HELP ENSURE THE SAFETY OF MASS GATHERING EVENTS.

Report of Independent Auditors

The Board of Stewardship Trustees
Catholic Health Initiatives

We have audited the accompanying consolidated financial statements of Catholic Health Initiatives, which comprise the consolidated balance sheets as of June 30, 2014 and 2013, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Ernst & Young
1406-1271976

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Catholic Health Initiatives at June 30, 2014 and 2013, and the consolidated results of its operations and its cash flows for the years then ended, in conformity with U.S. generally accepted accounting principles.

Notes to Consolidated Financial Statements

June 30, 2014

1. Summary of Significant Accounting Policies

Organization

Catholic Health Initiatives (CHI), established in 1996, is a tax-exempt Colorado corporation and has been granted an exemption from federal income tax under Section 501(c)(3) of the Internal Revenue Code. CHI sponsors market-based organizations (MBO) and other facilities operating in 18 states and includes 92 hospitals, including four academic medical centers, and 24 critical access facilities; community health service organizations; accredited nursing colleges; home health agencies, and other facilities that span the inpatient and outpatient continuum of care. CHI also has an offshore captive insurance company, First Initiatives Insurance, Ltd. (FIIL).

The mission of CHI is to nurture the healing ministry of the Church, supported by education and research. Fidelity to the Gospel urges CHI to emphasize human dignity and social justice as CHI creates healthier communities.

Principles of Consolidation

CHI consolidates all direct affiliates in which it has sole corporate membership or ownership (Direct Affiliates) and all entities in which it has greater than 50% equity interest with commensurate control. All significant intercompany accounts and transactions are eliminated in consolidation.

Fair Value of Financial Instruments

Financial instruments consist primarily of cash and equivalents, patient accounts receivable, notes receivable and accounts payable. The carrying amounts reported in the consolidated balance sheets for these items approximate fair value.

Catholic Health Initiatives

1. Summary of Significant Accounting Policies (continued)

Cash and Equivalents

Cash and equivalents include all deposits with banks and investments in interest-bearing securities with maturity dates of 90 days or less from the date of purchase. In addition, cash and equivalents include deposits in short-term funds held by professional managers. The funds generally invest in high-quality, short-term debt securities, including U.S. government securities, securities issued by domestic and foreign banks, such as certificates of deposit and bankers' acceptances, repurchase agreements, asset-backed securities, high-grade commercial paper and corporate short-term obligations.

Net Patient Accounts Receivable and Net Patient Services Revenues

Net patient accounts receivable has been adjusted to the estimated amounts expected to be collected. These estimated amounts are subject to further adjustments upon review by third-party payors

The provision for bad debts is based upon management's assessment of historical and expected net collections, taking into consideration historical business and economic conditions, trends in health care coverage, and other collection indicators. Management routinely assesses the adequacy of the allowances for uncollectible accounts based upon historical write-off experience by payor category. The results of these reviews are used to modify, as necessary, the provision for bad debts and to establish appropriate allowances for uncollectible net patient accounts receivable. After satisfaction of amounts due from insurance, CHI follows established guidelines for placing certain patient balances with collection agencies, subject to the terms of certain restrictions on collection efforts as determined by each facility. The provision for bad debts is presented on the consolidated statements of operations as a deduction from patient services revenues (net of contractual allowances and discounts) since CHI accepts and treats substantially all patients without regard to the ability to pay.

During fiscal year 2014 and 2013, CHI added approximately \$76 million and \$400 million, respectively, in net patient accounts receivable due to the acquisition of various new subsidiaries – see Note 4, *Acquisitions, Affiliations and Divestitures*. Effective on January 1, 2014, the Affordable Care Act came into effect, which in certain states has caused a slight shift in payor mix whereby patients that used to be classified as charity now qualify for Medicaid. CHI has not experienced significant changes in write-off trends and there have been no significant changes to its charity care policy.

CHI records net patient services revenues in the period in which services are performed. CHI has agreements with third-party payors that provide for payments at amounts different from its established rates. The basis for payment under these agreements includes prospectively determined rates, cost reimbursement and negotiated discounts from established rates, and per diem payments.

Net patient services revenues are reported at the estimated net realizable amounts from patients, third-party payors and others for services rendered, including estimated retroactive adjustments due to future audits, reviews and investigations, and excluding estimated amounts considered uncollectible. The differences between the estimated and actual adjustments are recorded as part of net patient services revenues in future periods, as the amounts become known, or as years are no longer subject to such audits, reviews and investigations.

Investments and Assets Limited as to Use

Investments and assets limited as to use include assets set aside by CHI for future long-term purposes, including capital improvements and self-insurance. In addition, assets limited as to use include amounts held by trustees under bond indenture agreements, amounts contributed by donors with stipulated restrictions and amounts held for Mission and Ministry programs.

Catholic Health Initiatives

Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

CHI has designated its investment portfolio as trading. Accordingly, unrealized gains and losses on marketable securities are reported within excess of revenues over expenses. In addition, cash flows from the purchases and sales of marketable securities are reported as a component of operating activities in the accompanying consolidated statements of cash flows.

Direct investments in equity securities with readily determinable fair values and all direct investments in debt securities have been measured at fair value in the accompanying consolidated balance sheets. Investment income or loss (including realized gains and losses on investments, interest and dividends) is included in excess of revenues over expenses unless the income or loss is restricted by donor or law.

Investments in limited partnerships and limited liability companies are recorded using the equity method of accounting (which approximates fair value as determined by the net asset values of the related unitized interests) with the related changes in value in earnings reported as investment income in the accompanying consolidated financial statements

Inventories

Inventories, primarily consisting of pharmacy drugs, and medical and surgical supplies, are stated at lower of cost (first-in, first-out method) or market

Assets and Liabilities Held for Sale

A long-lived asset or disposal group of assets and liabilities that is expected to be sold within one year is classified as held for sale. For long-lived assets held for sale, an impairment charge is recorded if the carrying amount of the asset exceeds its fair value less costs to sell. Such valuations include estimates of fair values generally based upon firm offers, discounted cash flows and incremental direct costs to transact a sale (Level 2 and Level 3 inputs).

Property and Equipment

Property and equipment are stated at historical cost or, if donated or impaired, at fair value at the date of receipt or impairment. Depreciation is provided over the estimated useful life of each class of depreciable asset and is computed using the straight-line method. During fiscal year 2014, CHI conducted a study to reassess the estimated remaining useful lives of its buildings and building improvements. As a result of this study, CHI prospectively adjusted the estimated

Catholic Health Initiatives

Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

remaining useful lives of these assets, which resulted in a reduction to depreciation expense of \$23.5 million in 2014. Buildings and improvements are depreciated over estimated useful lives of 5 to 84 years, and equipment and land improvements over 3 to 40 years.

For property and equipment under capital lease, amortization is determined over the shorter period of the lease term or the estimated useful life of the property and equipment. Interest cost incurred during the period of construction of major capital projects is capitalized as a component of the cost of acquiring those assets. Capitalized interest of \$44.7 million and \$30.4 million was recorded in fiscal years 2014 and 2013, respectively. Costs incurred in the development and installation of internal-use software are typically expensed if they are incurred in the preliminary project stage or post-implementation stage, while certain costs are capitalized if incurred during the application development stage. Amounts capitalized are amortized over the useful life of the developed asset following project completion.

Investments in Unconsolidated Organizations

Investments in unconsolidated organizations are accounted for under the cost or equity method of accounting, as appropriate, based on the relative percentage of ownership or degree of influence over that organization. The income or loss on the equity method investments is recorded in the consolidated statements of operations as changes in equity of unconsolidated organizations.

Intangible Assets and Goodwill

Intangible assets are comprised primarily of trade names, which are amortized over the estimated useful lives ranging from 10 to 25 years using the straight-line method. Amortization expense of \$7.9 million and \$5.2 million was recorded in 2014 and 2013, respectively. It is estimated that intangible asset amortization expense over the next five years will be \$10.0 million per year.

Goodwill is not amortized but is subject to annual impairment tests as well as more frequent reviews whenever circumstances indicate a possible impairment may exist. Impairment testing of goodwill is done at the MBO level by comparing the fair value of the MBO's net assets against the carrying value of the MBO's net assets, including goodwill. Each MBO is defined as a reporting unit for purposes of impairment testing. The fair value of net assets is generally estimated based on quantitative analysis of discounted cash flows. The fair value of goodwill is determined by assigning fair values to assets and liabilities and calculating any remaining fair

value as the implied fair value of goodwill. As a result of its impairment testing in fiscal year 2014, CHI determined that the implied fair value of one of its MBO's goodwill was less than the carrying value. A goodwill impairment charge of \$15.0 million is reflected in the consolidated statements of operations for fiscal year 2014.

The changes in the carrying amount of goodwill and intangibles is as follows (in thousands):

Intangible assets and goodwill increased during fiscal year 2014, due to the various acquisitions discussed in Note 4, *Acquisitions, Affiliations and Divestitures*. During fiscal year 2014, certain adjustments to the 2013, purchase price allocations were recorded to intangible and goodwill, including the correction to the values assigned to various CHI St. Luke Medical Center buildings, resulting in a \$78.5 million increase in goodwill.

Notes Receivable and Other Assets

Other assets consist primarily of notes receivable, pledges receivable, deferred compensation assets, prepaid service contracts, deposits and other long-term assets. Notes receivable from related entities at June 30, 2014 and 2013, include balances from Bethesda Hospital, Inc (Bethesda), the non-CHI joint operating agreement (JOA) partner in the Cincinnati, Ohio JOA.

A summary of notes receivable and other assets is as follows as of June 30 (in thousands)

Bethesda is a Designated Affiliate in the CHI credit group under the Capital Obligation Document (COD). As conditions of joining the CHI credit group, Bethesda has agreed to certain covenants related to corporate existence, insurance coverage, exempt use of bond-financed facilities, maintenance of certain financial ratios, and compliance with limitations on the incurrence of additional debt. Based upon management's review of the creditworthiness of Bethesda and its compliance with the covenants and limitations, no allowances for uncollectible notes receivable were recorded at June 30, 2014 and 2013.

Net Assets

Temporarily restricted net assets are those whose use has been limited by donors to a specific time period or purpose. Permanently restricted net assets consist of gifts with corpus values that have been restricted by donors to be maintained in perpetuity, including endowment funds. Temporarily restricted net assets and earnings on permanently restricted net assets, including earnings on endowment funds, are used in accordance with the donor's wishes primarily to purchase equipment, to provide charity care, and to provide other health and educational programs and services.

Catholic Health Initiatives

Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

Unconditional promises to receive cash and other assets are reported at fair value at the date the promise is received. Conditional promises and indications of donors' intentions to give are reported at fair value at the date the conditions are met or the gifts are received. All unrestricted contributions are included in the excess of revenue over expenses as donation revenues. Other gifts are reported as either temporarily or permanently restricted if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as donations revenue when restricted for operations or as unrestricted net assets when restricted for property and equipment.

Performance Indicator

The performance indicator is the excess of revenues over expenses, which includes all changes in unrestricted net assets other than changes in the pension liability funded status, net assets released from restrictions for property acquisitions, the cumulative effect of changes in accounting principles, discontinued operations, contributions of property and equipment, and other changes not required to be included within the performance indicator under generally accepted accounting principles.

Operating and Nonoperating Activities

CHI's primary mission is to meet the health care needs in its market areas through a broad range of general and specialized health care services, including inpatient acute care, outpatient services, physician services, long-term care, and other health care services. Activities directly associated with the furtherance of this purpose are considered to be operating activities. Earnings from fixed-income investments held by FIIL are also classified within operating activities as such earnings support FIIL operations. Other activities that result in gains or losses peripheral to CHI's primary mission are considered to be nonoperating. Nonoperating activities include all other investment earnings, gains/losses from bond defeasance, net interest cost and changes in fair value of interest rate swaps, and the nonoperating component of JOA income share adjustments. Any infrequent and nonreciprocal contribution that CHI would make to enter a new market community or to expand upon existing affiliations is also classified as nonoperating.

Catholic Health Initiatives

Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

Charity Care

As an integral part of its mission, CHI accepts and treats all patients without regard to the ability to pay. Services to patients are classified as charity care in accordance with standards established across all MBOs. Charity care represents services rendered for which partial or no payment is expected, and includes the cost of providing services to persons who cannot afford health care due to inadequate resources and/or who are uninsured or underinsured. CHI determines the cost of charity care on the basis of an MBO's total cost as a percentage of total charges applied to the charges incurred by patients qualifying for charity care under CHI's policy. This amount is not included in net patient services revenues in the accompanying consolidated statements of operations and changes in net assets. The estimated cost of charity care provided was \$255.2 million and \$320.7 million in 2014 and 2013, respectively, for continuing operations, and \$1.9 million and \$2.0 million in 2014 and 2013, respectively, for discontinued operations. The decline in charity care provided was due primarily to changes in payor mix as a result of the Affordable Care Act.

Other Nonpatient Revenues

Other nonpatient revenues include services sold to external health care providers, gains on acquisitions of subsidiaries, cafeteria sales, rental income, retail pharmacy and durable medical equipment sales, auxiliary and gift shop revenues, electronic health records incentive payments, gains and losses on the sales of assets, the operating portion of revenue-sharing income or expense associated with Direct Affiliates that are part of JOAs, premium revenues, and revenues from other miscellaneous sources.

Derivative and Hedging Instruments

CHI uses derivative financial instruments (interest rate swaps) in managing its capital costs. These interest rate swaps are recognized at fair value on the consolidated balance sheets. CHI has not designated its interest rate swaps related to CHI's long-term debt as hedges. The net interest cost and change in the fair value of such interest rate swaps is recognized as a component of nonoperating (losses) gains in the accompanying consolidated statements of operations. It is CHI's policy to net the value of collateral on deposit with counterparties against the fair value of its interest rate swaps in other liabilities on the consolidated balance sheets.

Catholic Health Initiatives

Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

Functional Expenses

CHI provides health care services, including inpatient, outpatient, ambulatory, long-term care and community-based services to individuals within the various geographic areas supported by its facilities. Support services include administration, finance and accounting, information technology, public relations, human resources, legal, mission services and other functions that are supported centrally for all of CHI. Support services expenses as a percentage of total operating expenses were approximately 6.2% and 4.5% in 2014 and 2013, respectively.

Restructuring, Impairment, and Other Losses

CHI periodically evaluates property, equipment, goodwill, and certain other intangible assets to determine whether assets may have been impaired. Management determined there were certain goodwill impairments in 2014, and certain property and equipment impairments in both 2014 and 2013, to the extent that the fair values (estimated based upon discounted cash flows – Level 3 inputs) of those assets were less than the underlying carrying values.

During the years ended June 30, 2014 and 2013, CHI recorded total charges of \$117.5 million and \$155.3 million, respectively, relating to asset and goodwill impairments, and changes in business operations, including reorganization and severance costs. Of this amount, \$117.5 million and \$59.3 million were from continuing operations and reported in the consolidated statements of operations for 2014 and 2013, respectively, and \$96.0 million was reported as discontinued operations in the consolidated statements of changes in net assets for 2013. No restructuring or impairment was recorded in 2014, for the discontinued operations.

Income Taxes

CHI is a tax-exempt Colorado corporation and has been granted an exemption from federal income tax under Section 501(c)(3) of the Internal Revenue Code. CHI owns certain taxable subsidiaries and engages in certain activities that are unrelated to its exempt purpose and therefore subject to income tax.

Management reviews its tax positions annually and has determined that there are no material uncertain tax positions that require recognition in the accompanying consolidated financial statements.

Catholic Health Initiatives

Notes to Consolidated Financial Statements (continued)

1. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenues and expenses. Actual results could vary from the estimates.

Meaningful Use of Certified Electronic Health Record Technology Incentive Payments

The American Recovery and Reinvestment Act of 2009 provides for Medicare and Medicaid incentive payments beginning in 2011, to certain hospitals and professionals that implement and achieve meaningful use of certified electronic health record (EHR) technology in ways that demonstrate improved quality and effectiveness of care. Eligibility for annual Medicare incentive payments is dependent on providers demonstrating meaningful use of EHR technology in each period over a four-year period. An initial Medicaid incentive payment is available to providers that adopt, implement or upgrade certified EHR technology. However, in order to receive additional Medicaid incentive payments in subsequent years, providers must demonstrate continued meaningful use of EHR technology.

CHI accounts for meaningful use incentive payments under the gain contingency model. Medicare EHR incentive payments are recognized as revenues when eligible providers demonstrate meaningful use of certified EHR technology and the cost report information for the full cost report year that will determine the full calculation of the incentive payment is available. Medicaid EHR incentive payments are recognized as revenues when an eligible provider demonstrates meaningful use of certified EHR technology. CHI recognized \$39.1 million and \$32.5 million of Medicare meaningful use revenues and \$18.0 million and \$8.2 million of Medicaid meaningful use revenues in its consolidated statements of operations for fiscal year 2014 and 2013, respectively.

2. Community Benefit (Unaudited)

In accordance with its mission and philosophy, CHI commits substantial resources to sponsor a broad range of services to both the poor and the broader community. Community benefit provided to the poor includes the cost of providing services to persons who cannot afford health care due to inadequate resources and/or who are uninsured or underinsured. This type of community benefit includes the costs of traditional charity care; unpaid costs of care provided to

Catholic Health Initiatives

Notes to Consolidated Financial Statements (continued)

beneficiaries of Medicaid and other indigent public programs; services such as free clinics and meal programs for which a patient is not billed or for which a nominal fee has been assessed, and cash and in-kind donations of equipment, supplies or staff time volunteered on behalf of the community.

Community benefit provided to the broader community includes the costs of providing services to other populations who may not qualify as poor but may need special services and support. This type of community benefit includes the costs of services such as health promotion and education, health clinics and screenings, all of which are not billed or can be operated only on a deficit basis; unpaid portions of training health professionals such as medical residents, nursing students and students in allied health professions; and the unpaid portions of testing medical equipment and controlled studies of therapeutic protocols.

A summary of the cost of community benefit provided to both the poor and the broader community is as follows (in thousands):

2. Community Benefit (Unaudited) (continued)

The summary above has been prepared in accordance with the Catholic Health Association of the United States (CHA) publication, *A Guide for Planning & Reporting Community Benefit*. Community benefit is measured on the basis of total cost, net of any offsetting revenues, donations or other funds used to defray cost. During fiscal year 2014 and 2013, CHI received \$4.0 million and \$28.3 million, respectively, in funds used to subsidize charity care provided.

The total cost of community benefit from continuing and discontinued operations was 6.4% and 6.8% of total expenses before operating expenses related to restructuring, impairment and other losses in 2014 and 2013, respectively. The total cost of community benefit and the unpaid cost of Medicare from continuing and discontinued operations was 12.1% and 10.5% of total expenses before operating expenses related to restructuring, impairment and other losses in 2014 and 2013, respectively.

3. Joint Operating Agreements and Investments in Unconsolidated Organizations

Joint Operating Agreements

CHI participates in JOAs with hospital-based organizations in three separate market areas. The agreements generally provide for, among other things, joint management of the combined operations of the local facilities included in the JOAs through Joint Operating Companies (JOC). CHI retains ownership of the assets, liabilities, equity, revenues and expenses of the CHI facilities that participate in the JOAs. The financial statements of the CHI facilities managed under all JOAs are included in the CHI consolidated financial statements. Transfers of assets from facilities owned by the JOA participants generally are restricted under the terms of the agreements.

As of June 30, 2014 and 2013, CHI has a 70% interest in a JOC based in Colorado and has a 50% interest in two other JOCs associated with other JOAs. CHI's interests in the JOCs are included in investments in unconsolidated organizations and totaled \$199.4 million and \$103.2 million at June 30, 2014 and 2013, respectively. CHI recognizes its investment in all JOCs under the equity method of accounting. The JOCs provide varying levels of services to the related JOA sponsors, and operating expenses of the JOCs are allocated to each sponsoring organization. The JOCs had total assets of \$607.7 million and \$483.9 million at June 30, 2014 and 2013, respectively, and net assets of \$347.2 million and \$160.9 million, respectively.

3. Joint Operating Agreements and Investments in Unconsolidated Organizations (continued)

Investments in Unconsolidated Organizations

Conifer Health Solutions (Conifer) – As of June 30, 2014 and 2013, CHI holds a \$19.3 million cost method investment in Conifer, acquired as part of an 11-year agreement with Conifer where Conifer provides revenue cycle services for CHI acute care operations. The agreement allows CHI to earn shares in Conifer as transition and other activities are completed, and such shares will be issued at specified future dates. As of June 30, 2014 and 2013, CHI has met certain transition milestones and has earned the right to additional future shares valued at \$64.5 million and \$19.1 million, respectively, which are reflected in notes receivable and other in the accompanying consolidated balance sheets. This earned value will be amortized as an offset to revenue cycle service fees paid to Conifer over the life of the agreement.

Preferred Professional Insurance Corporation (PPIC) – PPIC is an unconsolidated affiliate of CHI. PPIC provides professional liability insurance and other related services to preferred physician and other health care providers that are associated with its owners. CHI owns a 27% interest in PPIC and accounts for its investment under the equity method of accounting. The book value of the investment was \$60.5 million and \$56.0 million at June 30, 2014 and 2013, respectively. PPIC had net assets of \$224.8 million and \$208.0 million at December 31, 2013 and 2012, respectively.

Other Entities – The summarized financial positions and results of operations for the other entities accounted for under the equity method of accounting as of and for the periods ended June 30, excluding the investments described above, are as follows (in thousands):

Harrison Medical Center – Effective August 1, 2013, Harrison Medical Center (Harrison) was acquired by CHI for no consideration, resulting in the recognition of a \$289.0 million gain calculated as the fair value of assets acquired and liabilities assumed determined based upon Level 3 inputs including estimated future cash flows and probability-weighted performance assumptions. Harrison is located in Bremerton, Washington, and operates two acute care facilities in the area as well as provides emergency services and a range of general and specialized services to adjacent areas. Excluding the contribution gain, Harrison reported \$369.8 million in operating revenues and \$33.9 million of excess of revenues over expenses in the CHI consolidated results of operations for the period August 1, 2013 through June 30, 2014.

Mercy Hot Springs – Effective April 1, 2014, Mercy Health based in St. Louis, Missouri, transferred ownership of its Hot Springs, Arkansas facility, including its hospital and physician clinic (Mercy Hot Springs), to CHI for net proceeds of \$59.7 million. A \$61.8 million gain was recognized, calculated as the fair value of assets acquired and liabilities assumed, determined based upon Level 3 inputs including estimated future cash flows and probability-weighted performance assumptions, less consideration paid. Mercy Hot Springs is a 282-bed acute care hospital, providing an emergency department with a Level 2 Trauma Center designation, a 90-physician clinic organization and a comprehensive range of medical services. Excluding the contribution gain, Mercy Hot Springs reported \$63.7 million in operating revenues and \$2.2 million of deficit of revenues over expenses in the CHI consolidated results of operations for the period April 1, 2014 through June 30, 2014.

Memorial Health System of East Texas – Effective June 1, 2014, Memorial Health System of East Texas (Memorial) was acquired by CHI for no consideration, resulting in the recognition of a \$53.2 million gain calculated as the fair value of assets acquired and liabilities assumed determined based upon Level 3 inputs including estimated future cash flows and probability-weighted performance assumptions. Memorial is a private, nonprofit hospital system with hospitals in Lufkin, Livingston and San Augustine, Texas. Excluding the contribution gain, Memorial reported \$16.2 million in operating revenues and \$0.8 million of deficiency of revenues over expenses in the CHI consolidated results of operations for the period June 1, 2014 through June 30, 2014.

CHI St. Luke's/Baylor College of Medicine – Effective on January 1, 2014, CHI St. Luke's Medical Center (CHI St. Luke's) acquired certain assets of Baylor College of Medicine (Baylor) in exchange for a 35% noncontrolling interest in the combined operations of certain of the operations of CHI St. Luke's. The parties have agreed to build and operate a new, acute care,

CHI St. Luke's Health System – Effective June 1, 2013, CHI acquired the operations of St. Luke's Health System (St. Luke's), a six-hospital system based in Houston, Texas, from Episcopal Health Foundation for cash and a note payable. For the month of June 2013, the operations of CHI St. Luke's contributed \$95.2 million in operating revenues and \$12.8 million of deficit of revenues over expenses to the CHI consolidated results of operations.

Highline Medical Center – Effective April 1, 2013, Highline Medical Center (Highline) was acquired by CHI for no consideration, resulting in the recognition of a \$55.4 million gain calculated as the fair value of assets acquired and liabilities assumed determined based upon Level 3 inputs including estimated future cash flows and probability-weighted performance assumptions. Highline is a 154-bed acute care hospital based in Burien, Washington. Excluding the contribution gain, Highline reported \$48.3 million in operating revenues and \$2.6 million in deficiency of revenues over expenses to the CHI consolidated results of operations for the period April 1 through June 30, 2013.

University Medical Center and University of Louisville Hospital – Effective March 1, 2013, KentuckyOne Health (a CHI MBO), University Medical Center (UMC) and the University of Louisville entered into a partnership, structured as a joint operating agreement between University Medical Center and KentuckyOne Health, whereby KentuckyOne Health controls substantially all of UMC's operations, which consist of the University of Louisville Hospital and the James Graham Brown Cancer Center (ULH). As part of the agreement, KentuckyOne Health has committed to provide financial support to the University of Louisville over the next 20 years. The fair value of the contingent consideration is adjusted annually by management and is based on Level 3 inputs including estimated future cash flows and probability-weighted performance assumptions, all discounted to net present value. Changes in any of the unobservable inputs alone or together would result in a lower (higher) fair value measurement. The fair value of the commitment based on significant unobservable inputs (Level 3) was \$203.2 million at June 30, 2014, compared to an acquisition date value of \$217.7 million. For the period from March 1 through June 30, 2013, the operations of ULH contributed \$166.3 million of operating revenues and \$11.8 million of excess of revenues over expenses to the CHI consolidated results of operations, prior to the effects of the JOA revenue-sharing arrangement.

Alegent Creighton Health and Affiliates – Effective November 1, 2012, CHI became the sole corporate sponsor of Alegent based in Omaha, Nebraska. In addition to the operations of Bergan Mercy Health System and Affiliates (Bergan Mercy) previously owned and consolidated by CHI, CHI now consolidates the Alegent operations, which include the operations of Immanuel and the operations of Creighton University Medical Center. For the period from November 1, 2012 through June 30, 2013, incremental Alegent (excluding the Bergan Mercy component) contributed \$611.1 million in operating revenues and \$18.1 million of excess of revenues over expenses to the CHI consolidated results of operations. Upon CHI becoming the sole sponsor of Alegent in November 2012, CHI also recognized a \$21.0 million gain in fiscal year 2013, due to the remeasurement of CHI's interest in the Alegent JOC. Such gain is reflected in other nonpatient revenues in the consolidated statements of operations.

On an unaudited pro forma basis, had CHI owned or been party to agreements with Harrison, Hot Springs and Memorial at the beginning of fiscal year 2014, these entities would have contributed \$1.2 billion of operating revenues and \$415.9 million of excess of revenues over expenses. Had CHI owned or been party to agreements with Harrison, Hot Springs, Memorial, St. Luke's, Highline, University Medical Center and Alegent at the beginning of fiscal year 2013, these entities would have contributed \$3.6 billion in operating revenues and \$190.6 million in excess of revenues over expenses. However, unaudited pro forma information is not necessarily indicative of the historical results that would have been obtained had the transaction actually occurred on those dates, nor of future results.

Texas Heart Institute Affiliation

Effective on January 1, 2014, CHI and Texas Heart Institute (THI) entered into a ten-year affiliation agreement to further develop research, education and patient care opportunities to reduce the toll of cardiovascular disease. Over the term of the agreement, CHI has committed to fund various programs sponsored by THI. The present value of these commitments was \$96.1 million as of the affiliation agreement date, of which \$74.1 million was recorded in fiscal year 2014, as other nonoperating (losses) gains in the consolidated statements of operations. As part of the valuation, CHI recorded \$22 million in trade name intangibles, which will be amortized over the life of the agreement.

Discontinued Operations

In 2012, CHI committed to a plan to sell the MBOs in Denville, New Jersey; Towson, Maryland; and Pierre, South Dakota. The Towson MBO was sold to the University of Maryland Medical System effective on December 1, 2012, for preliminary sales proceeds of \$154.0 million. Contingent sales proceeds of \$45.7 million have been placed in escrow pending final disposition of certain open items. A final determination is expected in fiscal year 2015. The Pierre MBO was sold to Avera Health effective January 1, 2013, for net sales proceeds of \$50.0 million and a loss on disposition of \$27.7 million. In May 2013, CHI agreed to sell the Denville MBO to Prime Healthcare Services for \$100.0 million. The transaction is subject to governmental and Church approvals and is expected to close in fiscal year 2015. In accordance with Accounting Standards Codification (ASC) 205-20, *Discontinued Operations*, and ASC 360-10, *Impairment or Disposal of Long-Lived Assets*, the results of operations associated with these MBOs have been reported as discontinued operations and are included in the consolidated statements of changes in net assets. Assets held for sale consist primarily of net patient accounts receivable, net property and other long-term assets. Liabilities held for sale consist primarily of accrued compensation and benefits, accounts payable and deferred revenues.

Related to discontinued operations, CHI recorded a deficiency of revenues over expenses of \$14.8 million and \$108.6 million for the years ended June 30, 2014 and 2013, respectively, which is reported as discontinued operations in the accompanying consolidated statements of changes in net assets. Included in fiscal year 2013 is an impairment loss of \$64.8 million related to adjusting the carrying value of property and equipment at the Denville MBO to its net realizable value. Total operating revenues and deficiency of revenues over expenses included in the results of discontinued operations for the years ended June 30 are summarized below (in thousands):

	2014	2013
Total operating revenues	\$ 296,267	\$ 464,809

4. Acquisitions, Affiliations and Divestitures (continued)

The consolidated statements of cash flows include the use of \$18.5 million and \$24.9 million of operating, investing and financing activities related to discontinued operations for the years ended June 30, 2014 and 2013, respectively.

5. Net Patient Services Revenues

Net patient services revenues are derived from services provided to patients who are either directly responsible for payment or are covered by various insurance or managed care programs. CHI receives payments from the federal government on behalf of patients covered by the Medicare program, from state governments for Medicaid and other state-sponsored programs, from certain private insurance companies and managed care programs and from patients themselves. A summary of payment arrangements with major third-party payors follows:

Medicare – Inpatient acute care and certain outpatient services rendered to Medicare program beneficiaries are paid at prospectively determined rates per discharge or procedure. These rates vary according to patient classification systems based on clinical, diagnostic and other factors. Certain CHI facilities have been designated as critical access hospitals and, accordingly, are reimbursed their cost of providing services to Medicare beneficiaries. Professional services rendered by physicians are paid based on the Medicare allowable fee schedule.

Medicaid – Inpatient services rendered to Medicaid program beneficiaries are primarily paid under the traditional Medicaid plan at prospectively determined rates per discharge. Certain outpatient services are reimbursed based on a cost reimbursement methodology, fee schedules or discounts from established charges.

Other – CHI has also entered into payment agreements with certain managed care and commercial insurance carriers, health maintenance organizations and preferred provider organizations. The basis for payment to CHI under these agreements includes prospectively determined rates per discharge, discounts from established charges and prospectively determined daily rates.

Catholic Health Initiatives

Notes to Consolidated Financial Statements (continued)

5. Net Patient Services Revenues (continued)

CHI's Medicare, Medicaid and other payor utilization percentages, based upon net patient services revenues before provision for doubtful accounts, are summarized as follows.

	2014	2013
Medicare	32%	32%
Medicaid	8	8
Managed care	41	40
Self-pay	8	8
Commercial and other	11	12
	100%	100%

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Estimated settlements related to Medicare and Medicaid of \$117.4 million and \$103.0 million at June 30, 2014 and 2013, respectively, are included in third-party liabilities. Net patient services revenues from continuing operations increased by \$63.2 million in 2014 and \$38.3 million in 2013 due to favorable changes in estimates related to prior-year settlements.

6. Investments and Assets Limited as to Use

CHI's investments and assets limited as to use as of June 30 are reported in the accompanying consolidated balance sheets as presented in the following table (in thousands):

6. Investments and Assets Limited as to Use (continued)

Net unrealized gains in investments and assets limited to use at June 30, 2014 and 2013, were \$668.6 million and \$297.3 million, respectively.

CHI attempts to reduce its market risk by diversifying its investment portfolio using cash equivalents, fixed-income securities, marketable equity securities and alternative investments. Most of the U.S. Treasury, money market funds and corporate debt obligations as well as exchange-traded marketable securities held by CHI and the CHI Investment Program (the Program) have an actively traded market. However, CHI also invests in commercial paper, mortgage-backed or other asset-backed securities, alternative investments (such as hedge funds, private equity investments, real estate funds and funds of funds), collateralized debt obligations, municipal securities and other investments that have potential complexities in valuation based upon the current conditions in the credit markets. For some of these instruments, evidence supporting the determination of fair value may not come from trading in active primary or secondary markets. Because these investments may not be readily marketable, the estimated value is subject to uncertainty and, therefore, may differ from the value that would have been used had an active market for such investments existed. Such differences could be material. However, management reviews the CHI investment portfolio on a regular basis and seeks guidance from its professional portfolio managers related to U.S. and global market conditions to determine the fair value of its investments. CHI believes the carrying amount of these financial instruments in the consolidated financial statements is a reasonable estimate of fair value.

The majority of all CHI long-term investments are held in the Program. The Program is structured under a Limited Partnership Agreement with CHI as managing general partner and numerous limited partners, most sponsored by CHI. The partnership provides a vehicle whereby virtually all entities associated with CHI, as well as certain other unrelated entities, can seek to optimize investment returns while managing investment risk. Entities participating in the Program that are not consolidated in the accompanying financial statements have the ability to direct their invested amounts and liquidate and/or withdraw their interest without penalty as soon as practicable based on market conditions but within 180 days of notification. The Limited Partnership Agreement permits a majority vote of the noncontrolling limited partners to terminate the partnership. Accordingly, CHI recognizes only the portion of Program assets attributable to CHI and its sponsored affiliates. Program assets attributable to CHI and its Direct Affiliates represented 90% of total Program assets at June 30, 2014 and 2013.

The Program asset allocation at June 30 is as follows:

	2014	2013
Marketable equity securities	44%	43%
Marketable fixed-income securities	31	32
Alternative investments	23	24
Cash and equivalents	2	1
	100%	100%

The CHI Finance Committee (the Committee) of the Board of Stewardship Trustees is responsible for determining asset allocations among fixed-income, equity, and alternative investments. At least annually, the Committee reviews targeted allocations and, if necessary, makes adjustments to targeted asset allocations. Given the diversity of the underlying securities in which the Program invests, management does not believe there is a significant concentration of credit risk. Investment income is comprised of the following for the years ended June 30 (in thousands).

	2014	2013
Dividend and interest income	\$ 139,612	\$ 142,054
Net realized gains	345,944	262,067
Net unrealized gains	364,692	151,232
Total investment income from continuing operations	\$ 850,248	\$ 555,353
Included in nonpatient revenue	\$ 101,874	\$ 66,529
Included in nonoperating gains	748,374	488,824
Total investment income from continuing operations	850,248	555,353
Total investment income from discontinued operations	3,000	8,470
Total investment income	\$ 853,248	\$ 563,823

Direct expenses of the Program are less than 0.4% of total assets. Fees paid to the alternative investment managers are not included in the total expense calculation as they are not a direct expense of the Program.

7. Fair Value of Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820, *Fair Value Measurements and Disclosures*, establishes a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 inputs) and the lowest priority to unobservable inputs (Level 3 inputs).

The three levels of the fair value hierarchy and a description of the valuation methodologies used for instruments measured at fair value are as follows:

Level 1 – Valuation is based upon quoted prices (unadjusted) for identical assets or liabilities in active markets

Level 2 – Valuation is based upon quoted prices for similar assets and liabilities in active markets or other inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial asset or liability.

Level 3 – Valuation is based upon other unobservable inputs that are significant to the fair value measurement.

Certain of CHI's alternative investments are made through limited liability companies (LLC) and limited liability partnerships (LLP). These LLCs and LLPs provide CHI with a proportionate share of the investment gains (losses). CHI accounts for its ownership in the LLCs and LLPs under the equity method. CHI also accounts for its ownership in the CHI Investment Program under the equity method. As such, these investments are excluded from the scope of ASC 820.

The fair values of the instruments included in Level 1 were determined through quoted market prices. Level 1 instruments include money market funds, mutual funds and marketable debt and equity securities. The fair values of Level 2 instruments were determined through evaluated bid prices based on recent trading activity and other relevant information, including market interest

rate curves and referenced credit spreads; estimated prepayment rates, where applicable, are used for valuation purposes and are provided by third-party services where quoted market values are not available. Level 2 instruments include corporate fixed-income securities, government bonds, mortgage and asset-backed securities, and interest rate swaps. The fair values of Level 3 securities are determined primarily through information obtained from the relevant counterparties for such investments. Information on which these securities' fair values are based is generally not readily available in the market. The fair value of the contingent liabilities was determined based on estimated future cash flows and probability-weighted performance assumptions, discounted to net present value.

8. Property and Equipment

A summary of property and equipment is as follows as of June 30 (in thousands):

	2014	2013
Land and improvements	\$ 672,103	\$ 596,548
Buildings and improvements	6,880,281	6,399,345

	\$ 8,942,520	\$ 7,786,240

CHI evaluates whether events and circumstances have occurred that indicate the remaining useful life of property, equipment and certain other intangible assets may not be recoverable. Management determined there were impairment issues in both 2014 and 2013, to the extent that the undiscounted cash flows estimated to be generated by certain assets were less than the underlying carrying value. CHI recorded \$59.6 million and \$4.9 million in impairment losses in continuing operations for 2014 and 2013, respectively, resulting from charges related to estimated fair value deficiencies (based upon projected discounted cash flows) at various MBOs.

Long-term debt	\$ 7,146,399	\$ 6,334,985

The fair value of debt obligations was approximately \$8.6 billion at June 30, 2014. Management has determined the carrying values of the variable-rate bonds are representative of fair values as of June 30, 2014, as the interest rates are set by the market participants. The fair value of the fixed-rate tax-exempt bond obligations as of June 30, 2014, is determined by applying credit spreads for similar tax-exempt obligations in the marketplace, which are then used to calculate a price/yield for the outstanding obligations (Level 2 inputs).

A summary of scheduled principal payments, based upon stated maturities, on long-term debt for the next five years is as follows (in thousands):

	Amounts Due
Year ending June 30:	
2015	\$ 711,408

9. Debt Obligations (continued)

CHI issues the majority of its debt under the COD and is the sole obligor. Bondholder security resides both in the unsecured promise by CHI to pay its obligations and in its control of its Direct and Designated Affiliates. Covenants include a minimum CHI debt service coverage ratio and certain limitations on secured debt. The Direct Affiliates of CHI, defined as Participants under the COD, have agreed to certain covenants related to corporate existence, maintenance of insurance and exempt use of bond-financed facilities.

During the second quarter of fiscal year 2014, CHI issued \$900.6 million of par value tax exempt bonds and \$740.0 million of par value taxable bonds. Of the total proceeds, \$881.8 million was used to redeem various St. Luke's bonds and bank notes, Harrison bonds, and Highline bonds, resulting in a total loss on defeasance of \$10.0 million.

In October 2012, CHI issued \$1.5 billion of par value long-term, fixed-rate, taxable bonds. Proceeds were used to finance a wide array of strategic initiatives, including affiliations in key areas.

As a result of redeeming the various St. Luke's obligations, the St. Luke's Health System Obligated Group and Master Trust Indenture were dissolved. Prior to December 31, 2013, St. Luke's had been a member of the St. Luke's Health System Obligated Group, and together with various of its consolidated subsidiaries, were the obligors under each of the St. Luke's bond issues. Obligated Group members were jointly and severally obligated to pay the notes issued under the Master Trust Indenture. Notes issued under the Master Trust Indenture were equally and ratably secured by a pledge of the accounts receivable of St. Luke's Medical Center and St. Luke's Woodlands Hospital.

As part of the December 2012 divestiture of CHI's facilities in Towson, Maryland, \$113.5 million of Series 2006A bonds were legally defeased, resulting in a loss on defeasance of \$18.0 million.

9. Debt Obligations (continued)

CHI has two types of external liquidity facilities: those that are dedicated to specific series of variable-rate demand bonds (VRDB) and those that are not dedicated to a particular series of VRDBs but may be used to support CHI's obligations to fund tenders of VRDBs and pay the maturing principal of commercial paper. Liquidity facilities that are dedicated to specific series of bonds were \$897.0 million and \$605.0 million at June 30, 2014 and 2013, respectively, of which \$8.2 million and \$7.9 million, respectively, are classified as current debt. The remaining \$888.8 million and \$597.1 million at June 30, 2014 and 2013, respectively, are reported as long-term debt due to the repayment terms on any associated drawings extending beyond the subsequent fiscal year under the terms of the specific agreements.

Liquidity facilities not dedicated for specific series of VRDBs but used to support CHI's obligations to fund tenders and to pay maturing principal of commercial paper were \$420.0 million and \$390.0 million at June 30, 2014 and 2013, respectively. At June 30, 2014 and 2013, respectively, \$482.4 million and \$442.5 million of commercial paper were classified as current due to maturities of less than one year, and \$521.5 million and \$321.5 million, respectively, of VRDBs and Windows variable-rate bonds (Windows) were also classified as current due to the holder's ability to put such VRDBs and Windows back to CHI without liquidity facilities dedicated to these bonds.

At June 30, 2014, CHI had a \$55.0 million credit facility with Bank of New York Mellon. Letters of credit totaling \$47.6 million have been issued for the benefit of third parties, principally in support of the self-insurance programs administered by FILL. At June 30, 2014 and 2013, no amounts were outstanding under this credit facility.

CHI was a party to 13 floating-to-fixed interest rate swap agreements with notional amounts totaling \$1.4 billion and \$1.6 billion at June 30, 2014 and 2013, respectively. Generally, it is CHI policy that all counterparties have an AA rating or better. The swap agreements require CHI to provide collateral if CHI's liability, determined on a mark-to-market basis, exceeds a specified threshold that varies based upon the rating on CHI's long-term indebtedness. These fixed-payor swap agreements convert CHI's variable-rate debt to fixed-rate debt. The swaps have varying maturity dates ranging from 2025 to 2047. The fair value of the swaps is estimated based on the present value sum of anticipated future net cash settlements until the swaps' maturities. At June 30, 2014 and 2013, the fair value was \$256.7 million and \$271.6 million, respectively.

Catholic Health Initiatives

Notes to Consolidated Financial Statements (continued)

9. Debt Obligations (continued)

During fiscal year 2014, a change in CHI's debt ratings resulted in an increase to its cash collateral postings. Cash collateral balances of \$130.5 million and \$107.5 million at June 30, 2014 and 2013, respectively, are netted against the fair value of the swaps, and the net amount is reflected in other liabilities. The change in the fair value of these agreements was a net gain of \$10.2 million and \$98.9 million in 2014 and 2013, respectively.

10. Retirement Plans

The non-contributory, defined benefit retirement plans (Retirement Plans) sponsored by CHI and its direct affiliates were frozen as of December 31, 2013. Benefits earned by employees through December 31, 2013, will remain in the Retirement Plans, and employees will continue to receive interest credits and, if applicable, vesting credits. Beginning January 1, 2014, CHI introduced a new 401(k) Retirement Savings Plan – see *CHI 401(k) Retirement Savings Plan* below for additional information.

Benefits in the Retirement Plans are based on compensation, retirement age and years of service. Vesting occurs over a five-year period. Substantially all of the Plans are qualified as church plans and are exempt from certain provisions of both the Employee Retirement Income Security Act and Pension Benefit Guaranty Corporation premiums and coverage. Funding requirements are determined through consultation with independent actuaries.

CHI recognizes the funded status (that is, the difference between the fair value of plan assets and the projected benefit obligations) of its Plans in the consolidated balance sheets, with a corresponding adjustment to net assets. Actuarial gains and losses that arise and are not recognized as net periodic pension cost in the same periods are recognized as a component of changes in net assets.

During fiscal year 2014 and 2013, CHI acquired the pension plan assets and liabilities of Harrison and Memorial, and Alegent and CHI St. Luke's (the Acquired plans), respectively, which are included below.

10. Retirement Plans (continued)

During fiscal year 2014 and 2013, the Plans experienced two curtailment events. Plan design changes for certain Plans resulted in future service reductions in fiscal year 2014, and employee transitions in fiscal year 2013 resulted in an adjustment to the benefit obligation as of June 30, 2013.

Included in net assets at June 30, 2014, are unrecognized actuarial losses of \$772.7 million that have not yet been recognized in net periodic pension cost. The actuarial losses included in net assets and expected to be recognized in net periodic pension cost during the fiscal year ending June 30, 2015, is \$42.0 million.

The components of net periodic pension expense are as follows (in thousands):

	2014	2013
Components of net periodic pension expense:		
Service cost	\$ 106,484	\$ 205,037
Interest cost	177,859	151,763
Expected return on the Plans' assets	(247,121)	(220,236)
Actuarial losses	32,733	91,606
Amortization of prior service benefit	78	174
Curtailments	296	367
Settlements	301	45
	<u>\$ 70,630</u>	<u>\$ 228,756</u>
Weighted-average assumptions:		
Discount rate, beginning of year	4.58%	4.06%
Discount rate, end of year	4.15	4.58
Expected return on Plans' assets	7.60	7.75
Rate of compensation increase	n/a	3.75

The assumption for the expected return on the Plans' assets is based on historical returns and adherence to the asset allocations set forth in the Plans' investment policies. The expected return on the Plans' assets for determining pension cost was 7.60% in 2014 and 7.75% in 2013. The decrease in the discount rate to 4.15% at June 30, 2014, increased the pension benefit obligation by approximately \$283.3 million.

A summary of the Plans' asset allocation targets, ranges by asset class and allocations by asset class at the measurement dates of June 30 is as follows.

	2014	2013	Target	Range
Fixed-income securities	33.5%	25.6%	27.5%	17.5–37.5%
Equity securities	47.0	55.1	50.0	40.0–60.0
Alternative investments	19.5	19.3	22.5	12.5–32.5

The Plans' assets are invested in a portfolio designed to preserve principal and obtain competitive investment returns and long-term investment growth, consistent with actuarial assumptions, while minimizing unnecessary investment risk. Diversification is achieved by allocating assets to various asset classes and investment styles and by retaining multiple investment managers with complementary philosophies, styles and approaches. Although the objective of the Plans is to maintain asset allocations close to target, temporary periods may exist where allocations are outside of the expected range due to market conditions. The use of leverage is prohibited except as specifically directed in the alternative investment allocation. The portfolio is managed on a basis consistent with the CHI social responsibility guidelines. Alternative investments of \$234 million are illiquid and not available for redemption at the Plans' request.

The Plans' assets measured at fair value on a recurring basis were determined using the following inputs at June 30 (in thousands):

10. Retirement Plans (continued)

CHI expects to contribute \$15.0 million to the Plans in fiscal year 2015. A summary of expected benefits to be paid to the Plans' participants and beneficiaries is as follows (in thousands).

	<u>Estimated Payments</u>
Year ending June 30:	
2015	\$ 235,323
2016	220,122
2017	236,598

CHI 401(k) Retirement Savings Plan

Effective on January 1, 2014, CHI introduced the CHI 401(k) Retirement Savings Plan (401(k) Savings Plan), which replaced the frozen Retirement Plan as an employee retirement benefit. Years of service under the Retirement Plan will automatically transfer to the 401(k) Savings Plan. An employee is fully vested in the plan for employer contributions after three years of service.

As part of the 401(k) Savings Plan, CHI will match 100.0% of the first 1.0% of eligible pay an employee contributes to the plan, and 50.0% of the next 5.0% of eligible pay contributed to the plan, for a maximum employer matching rate of 3.5% of eligible pay. On an annual basis and regardless of whether or not an employee participates in the 401(k) Savings Plan, CHI will also contribute 2.5% of eligible pay to an employee's 401(k) Savings Plan account. This contribution is made if an employee reaches 1,000 hours in the first year of employment or every calendar year thereafter, and is employed on the last day of the calendar year. For the period from January 1 through June 30, 2014, CHI recorded \$80.4 million of expense related to the 401(k) Savings Plan.

11. Concentrations of Credit Risk

CHI grants credit without collateral to its patients, most of whom are insured under third-party payor agreements. CHI's exposure to credit risk on patient accounts receivable is limited by the geographical diversity of its MBOs. The mix of net patient accounts receivable at June 30 approximated the following:

	2014	2013
Medicare	27%	28%
Medicaid	12	10
Managed care	31	31
Self-pay	7	7
Commercial and other	23	24
	100%	100%

CHI maintains long-term investments with various financial institutions and investment management firms through its investment program, and its policy is designed to limit exposure to any one institution or investment. Management does not believe there are significant concentrations of credit risk at June 30, 2014 and 2013.

12. Commitments and Contingencies

Litigation

During the normal course of business, CHI may become involved in litigation. Management assesses the probable outcome of unresolved litigation and records estimated settlements. After consultation with legal counsel, management believes that any such matters will be resolved without material adverse impact to the consolidated financial position or results of operations of CHI.

12. Commitments and Contingencies (continued)

Health Care Regulatory Environment

The health care industry is subject to numerous laws and regulations of federal, state and local governments. These laws and regulations include, but are not limited to, matters such as licensure, accreditation, government health care program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse. Management believes CHI is in compliance with all applicable laws and regulations of the Medicare and Medicaid programs. Compliance with such laws and regulations is complex and can be subject to future governmental interpretation as well as significant regulatory action, including fines, penalties and exclusion from the Medicare and Medicaid programs. Certain CHI entities have been contacted by governmental agencies regarding alleged violations of Medicare practices for certain services. In the opinion of management after consultation with legal counsel, the ultimate outcome of these matters will not have a material adverse effect on CHI's consolidated financial position.

Operating Leases

CHI leases certain real estate and equipment under operating leases, which may include renewal options and escalation clauses. Future minimum lease payments required for the next five years and thereafter for all operating leases that have initial or remaining non-cancelable lease terms in excess of one year at June 30, 2014, are as follows (in thousands):

	<u>Amounts Due</u>
Year ending June 30:	
2015	\$ 203,656
2016	136,211
2017	119,885
2018	101,828
2019	79,734
Thereafter	151,073
	<u>\$ 792,387</u>

Lease expense under operating leases for continuing operations for the years ended June 30, 2014 and 2013, totaled approximately \$285.9 million and \$222.6 million, respectively.

13. Insurance Programs

FIIL, a wholly owned captive insurance company of CHI, provides hospital professional liability, employment practices liability, miscellaneous professional liability, and commercial general liability coverage, primarily to MBOs related to CHI either on a directly written basis or through reinsurance fronting relationships with commercial carriers such as PPIC. Policies written provide coverage with primary limits in the amount of \$10.0 million for each and every claim in fiscal years 2014 and 2013, respectively. For the policy year July 1, 2013 to July 1, 2014, there is an annual policy aggregate of \$85.0 million eroded by hospital professional liability and commercial general liability claims, subject to a \$175,000 continuing underlying per claim limit. Effective July 1, 2011, FIIL provided excess umbrella liability coverage for claims in excess of the underlying limits discussed above. The limits provided under such excess coverage are \$200.0 million per claim and in the aggregate. FIIL reinsured 100% of the excess coverage layer with various commercial insurance companies. At June 30, 2014 and 2013, investments and assets limited as to use held for insurance purposes included \$58.0 million and \$55.0 million, respectively, held as collateral for the reinsurance fronting arrangement with PPIC.

FIIL provides workers' compensation coverage, either on a directly written basis or through reinsurance fronting relationships with commercial insurance carriers. Coverage of \$350,000 in excess of \$650,000 per claim for the policy year July 1, 2013 to July 1, 2014, and \$500,000 in excess of \$500,000 per claim for the policy year July 1, 2012 to July 1, 2013, is reinsured with an unrelated commercial carrier.

The liability for self-insured reserves and claims represents the estimated ultimate net cost of all reported and unreported losses incurred through June 30. The reserves for unpaid losses and loss adjustment expenses are estimated using individual case-based valuations, statistical analyses and the expertise of an independent actuary.

The estimates for loss reserves are subject to the effects of trends in loss severity and frequency. Although considerable variability is inherent in such estimates, management believes that the reserves for unpaid losses and loss adjustment expenses are adequate. The estimates are reviewed periodically, with consultation from independent actuaries, and any adjustments to the loss reserves are reflected in current operations. As a result of these reviews of claims experience, estimated reserves were reduced by \$21.3 million and \$48.5 million in 2014 and 2013, respectively. The reserves for unpaid losses and loss adjustment expenses relating to the

workers' compensation program were discounted, assuming a 4.0% annual return at June 30, 2014 and 2013, to a present value of \$159.1 million and \$151.2 million at June 30, 2014 and 2013, respectively, and represented a discount of \$52.3 million and \$51.3 million in 2014 and 2013, respectively. Reserves related to professional liability, employment practices and general liability are not discounted.

FIIL holds \$734.4 million and \$751.9 million of investments held for insurance purposes as of June 30, 2014 and 2013, respectively. Distribution of amounts from FIIL to CHI are subject to the approval of the Cayman Island Monetary Authority. CHI established a captive management operation (Captive Management Initiatives, Ltd.) based in the Cayman Islands, which currently manages FIIL as well as operations of other unrelated parties.

CHI, through its Welfare Benefit Administration and Development Trust, provides comprehensive health and dental coverage to certain employees and dependents through a self-insured medical plan. Accounts payable and accrued expenses include \$69.7 million and \$51.0 million for unpaid claims and claims adjustment expenses for CHI's self-insured medical plan at June 30, 2014 and 2013, respectively. Those estimates are subject to the effects of trends in loss severity and frequency. Although considerable variability is inherent in such estimates, management believes that the reserves for unpaid losses and loss adjustment expenses are adequate. The estimates are reviewed periodically and, as adjustments to the liability become necessary, such adjustments are reflected in current operations. CHI has stop-loss insurance to cover unusually high costs of care beyond a predetermined annual amount per enrolled participant.

14. Subsequent Events

CHI's management has evaluated events subsequent to June 30, 2014 through September 17, 2014, which is the date these consolidated financial statements were available to be issued. There have been no material events noted during this period that would either impact the results reflected herein or CHI's results going forward, except as disclosed below.

Effective in August 2014, CHI entered into a definitive agreement with St. Alexius Medical Center to form a regional, coordinated health system in central and western North Dakota. The affiliation is subject to approvals by state regulatory agencies and is anticipated to close by the end of the calendar year.

14. Subsequent Events (continued)

Effective in September 2014, CHI entered into a definitive agreement to become the sole sponsor of Sylvania Franciscan Health (SFH), which operates various health ministries in Ohio and Texas. The SFH sponsorship transfer is expected to be complete by the end of the calendar year, subject to board approval, and approval from various federal, state and Church authorities.
