FARI III, LINE 0	Medicare is not treated as a community benefit The source data was generated from THE internal cost accounting system

Form and Line Reference	Explanation
FANT III, LINE 9B	The collection policy of TJUH contains detailed guidelines for patients eligible for charity care. This includes a process to determine patient eligibility for charity care prior to the provision of care or as soon as possible thereafter. If it is determined that a patient qualifies for partial charity care, the policy requires that the patient and TJUH agree in writing as to the amount due after applying the appropriate charity care discount, and that TJUH negotiate and agree upon a reasonable payment schedule with the patient. TJUH also evaluates the ongoing ability of the patient to pay the amount due before additional collection actions are taken.

Form and Line Reference	Explanation
Form and Line Reference PART V, SECTION B, LINE 3	More than 60 interviews were conducted with individuals representing health care and community based organizations that have knowledge of the health and underlying social conditions that affect health of the people in their neighborhood and broader community. These interviews were conducted by a qualitative public health researcher from TJUH's Center for Urban Health to gain insight about health needs and priorities barriers to improving community health, and the community assets and efforts already in place or being planned to address these issues and concerns. Medical students from Refugee Health Partners, a student run clinic, assisted with interviews with organizations who assist the refugee community as part of the community needs assessment they are doing to inform their student run refugee clinic in South Philadelphia. In addition, interviews were conducted with faculty and health providers from Methodist Hospital, Jefferson Hospital for Neuroscience and TJUH to gain their perspective about the health issues of their patients and community and to identify Jefferson's and other efforts to address these issues. Interviewes were asked to prioritize the needs/recommendations discussed during their interview. Interviews were conducted with representatives from the following organizations. American Heart Association, SIDNEY KIMMEL Medical College -Department of Family and Community Family Medicine, American Diabetes. Association, Philadelphia Department of Health, Philadelphia School District, United Communities Southeastern Philadelphia, Federation of Neighborhood Centers, Diversified Community Services, Nationalities Services Center, Pennsylvania Immigrant Care Coalition, Lutheran and Children's Services, YMCA, Maternity Care Coalition, Drexel School of Public Health-Center for Hunger Free Communities, Area Health Education Center, Philadelphia Business Health Promotion Council, SHARE, Urban Tree Connection, Council for Relationships, Food Trust, Cambodian Association, SEAMAAC, TJUH Emergency Medicine, Jeffe

ART V, SECTION B, LINE 7	ADDRESSING ALL OF THE HEALTH NEEDS PRESENT IN A LARGE COMMUNITY WILL REQUIRE RESOURCES BEYOND WHAT ANY SINGLE HOSPITAL OR SOCIAL SERVICE AGENCY CAN BRING TO BEAR THE HOSPITAL IS COMMITTED TO FULFILLING ITS MISSION AS WELL AS REMAINING FINANCIALLY VIABLE SO THAT IT CAN CONTINUE ITS COMMITMENT TO EXCELLENCE IN QUALITY CARE AND PROVIDE A WIDE RANGE OF COMMUNITY BENEFITS The Hospital identified the health needs and prioritized the needs as is required Health needs identified but adequately addressed by other entities and initiatives, such as HIV are not being addressed to reduce duplication of unnecessary service. During this fiscal year all prioritized initiatives were initiated. The needs that were identified as most important were addressed initially and are on target, however, not surprisingly some initiatives have moved more quickly due to alignment with other organizations and timeliness such as healthcare enrollment. Community benefit initiatives have been tied to the strategic plan of the hospital and the local Health Department. Activities underway address social determinants of health (for example, food security, workforce development, literacy), chronic disease prevention (screening and education outreach), access to care (health insurance enrollment, health literacy, emergency room utilization, language line access), and coordinating with citywide efforts to improve healthy lifestyle behaviors and community environment (Philadelphia Department of Health initiatives, Aging in Place, housing, workforce development interventions to improve health among low resourced workers). In addition we have developed partnerships with non-traditional organizations addressing social determinants of health such as community development corporations. BETWEEN 2015 AND 2016, THE HOSPITAL WILL FOCUS ITS EFFORTS IN ORDER TO MAKE A TRUE AND MEASURABLE IMPACT, AND THUS PLANS TO IMPLEMENT ACTIONS THAT WILL ADDRESS THOSE NEEDS IDENTIFIED THROUGH THE COMMUNITY HEALTH NEEDS ASSESSMENT AS MOST IMPORTANT. THE HOSPITAL WILL CONTINUE
	CONTINUE TO EVALUATE OPPORTUNITIES FOR FUNDING OR RESOURCES TO COMMIT TO

COMMUNITY HEALTH)	TJUH's community buiding activities are focused on providing opportunities for youth to explore careers in healthcare through health awareness education, mentoring, and internships. Additionally, Jefferson staff play leadership roles in the community building organizations such as those devoted to assisting older adults and creating career opportunities for youth. The hospital also donates funds to many organizations that provide social and community enhancement services in our target communities.

Form and Line Reference	Explanation
PART VI, LINE 6 (AFFILIATED HEALTH CARE SYSTEM)	TJUH is a wholly owned subsidiary of TJUH System and is a tax exempt organization that promotes the health of the communities it serves in southeastern Pennsylvania, southern New Jersey, and Delaware primarily by providing hospital, sub acute, outpatient, and physician services and by providing facilities in which students, physicians, nurses, and other health care professionals are trained in a clinical setting. The operations of TJUH include Thomas Jefferson University Hospital, the Jefferson Hospital for Neuroscience, and Methodist Hospital, all of which operate under one license number. The hospitals of TJUH provide a full range of healthcare services and provide training to students and health professionals in a clinical setting. TJUH also provides community health services such as health education, counseling and support services. A substantial amount of the services and the education provided by TJUH is provided at no charge or in return for reimbursement below cost.

Return Reference	Explanation
FORM 990, PART VI, LINE 15	The process for determining compensation of the officers and key employees of TJUH uses several external market survey data providers such as Mercer Sullivan Cotter, and Olney Associates. The salaries in the surveys are anonymous and contain several other participating organizations in healthcare. The TJU Board hires and determines the base and incentive compensation for the President of TJUH (In his role as President for TJUH System). While presidents are not officers or employees of the TJU legal entity itself, they do report to the TJU CEO. TJUH formulates market data sheets by sharing the 25th, 50th, and 75th percentiles. For compensation, TJUH targets the 50th percentile of the market. However lower and higher percentiles may be used depending upon a candidate's depth of experience. TJUH also targets organizations such as teaching hospitals, those from northeastern U.S.A., and those with revenue greater than one billion dollars as a gauge for determining compensation ranges.

Independent Auditor's Report

To the Board of Trustees Thomas Jefferson University:

We have audited the accompanying consolidated balance sheet of Thomas Jefferson University (TJU) post-merger as of June 30, 2014.

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated balance sheet in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated balance sheet that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the consolidated financial statements based on our audits. We conducted our audits in the accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated balance sheet is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatements of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to TJU's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the TJU's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that the audit evidence we have obtained is significant and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the consolidated balance sheet referred to above presents fairly, in all material respects, the financial position of the TJU at June 30, 2014 in accordance with accounting principles generally accepted in the United States of America.

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Operations and Organization

Thomas Jefferson University ("TJU") is an independent, non-profit corporation organized under the laws of the Commonwealth of Pennsylvania and recognized as a tax-exempt organization pursuant to Section 501(c)(3) of the Internal Revenue Code (the "Code"). It conducts research and offers undergraduate and graduate instruction through the Sidney Kimmel Medical College, and the Jefferson Schools of Nursing, Pharmacy, Health Professions, Population Health, and Graduate Biomedical Sciences. The University has approximately 3,600 students and is located in Philadelphia, Pennsylvania.

The University also includes Jefferson University Physicians ("JUP"). JUP is a non-profit corporation organized under the laws of the Commonwealth of Pennsylvania and is recognized as a tax-exempt organization pursuant to Section 501(c)(3) of the Code. It consists of 17 clinical departments with approximately 647 physician members. JUP was formed to allow faculty of the University to conduct clinical practices while supporting the educational and research activities of the University. It acts as an integrated multi-specialty group practice with net patient service revenue less provision for bad debt for years 2014 and 2013 of approximately \$279.3 million and \$265.8 million, respectively.

On June 30, 2014 TJUH System, Inc. ("TJUH") separated from Jefferson Health System ("JHS") and merged with TJU to form a new organization, hereafter referred to as the University, and to enhance their tripartite mission of education, research and patient care. On June 30, 2014, the University became the sole coporate member of TJUH and TJUH became the sole member of JUP, thereby aggregating all clinical operations of the merged entities into one organization. This transaction was accounted for as a merger. TJUH, located in Philadelphia, Pennsylvania, is an integrated healthcare organization that provides inpatient, outpatient, and emergency care services through acute care, ambulatory care, physician, and other primary care services for residents of the Greater Philadelphia Region.

Subsequent to the merger on June 30, 2014 the consolidated balance sheet of the University includes the accounts and subsidiaries of the University, 1100 Walnut Associates and TJUH. The accounts and subsidiaries of TJUH include Thomas Jefferson University Hospital, the Jefferson Hospital for Neuroscience Division, the Methodist Hospital Division, JUP, TJUH Health Affiliates, the Atrium Corporation, Jeffex, Inc., JeffCare, Riverview Surgery Center at the Navy Yard, LP (a 51% owned joint venture), Jefferson University Radiology Associates (an 80% owned joint venture) and Jefferson Comprehensive Concussion Center (a 66% owned joint venture).

Principle of Consolidation

The accompanying consolidated balance sheet of the University contains the financial position of the University as of June 30, 2014 subsequent to the merger. All significant intercompany accounts and transactions have been eliminated.

Financial Statement Presentation

The accompanying consolidated financial statement has been prepared on an accrual basis.

The University classifies net assets as follows:

Unrestricted Net Assets are those assets that are available for the support of operations and whose use is not externally restricted, although their use may be limited by other factors such as by board designation.

Temporarily Restricted Net Assets are subject to legal or donor imposed restrictions that will be met by actions of the University and/or the passage of time. These net assets include gifts donated for specific purposes and capital appreciation on permanent endowment, which is restricted by Pennsylvania law on the amounts that may be expended in a given year.

Permanently Restricted Net Assets are subject to donor-imposed restrictions that require the original contribution be maintained in perpetuity by the University, but permits the use of the investment earnings for general or specific purposes.

Use of Estimates

The preparation of a financial statement in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements. Management considers critical accounting policies to be those that require more significant judgments and estimates in the preparation of the financial statements including, but not limited to, recognition of estimates for healthcare professional and general liabilities; determination of fair values of certain financial instruments; and assumptions for measurement of pension obligations. Management relies on historical experience and other assumptions believed to be reasonable relative to the circumstances in making judgments and estimates. Actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and investments in highly liquid debt instruments with maturity of three months or less when purchased and are carried at cost, which approximates fair value, except that any such investments purchased with funds on deposit with bond trustees or with funds held in self-insurance trust arrangements are classified as assets whose use is limited or purchased by investment managers of the University's pooled investment fund are classified as investments.

Short-term investments

Short-term investments are comprised of debt instruments with maturities greater than three months when purchased.

Non Controlling Interest

Both TJU and TJUH had investments in certain companies that were accounted for under the equity method of accounting. These investments now qualify for consolidation since the University owns a controlling interest. The amount not owned by the University is shown as a non controlling interest.

Accounts Receivable, Allowance for Doubtful Accounts, Provision for Bad Debt

The University records an allowance for doubtful accounts and bad debt expense for estimated losses resulting from non-payment for accounts receivable for services from patients. The University accounts for uncollectible accounts receivable balances from third-party commercial insurers as reductions to net patient service revenue rather than bad debt expense. Management routinely evaluates account collection history, economic conditions, and trends in health care coverage in determining the sufficiency of the allowance for doubtful accounts and provision for bad debts. Accounts receivable are written off against the allowance for doubtful accounts when management determines that recovery is unlikely and collection efforts cease.

Contributions

Contributions, including unconditional promises to donate, cash and other assets, are recognized at fair value on the date of receipt, recognized as revenue in the period received and are reported as increases in the appropriate net asset category based on donor restrictions. All contributions are considered to be available for unrestricted use unless specifically restricted by the donor. Pledges received which are to be paid in future periods, and contributions restricted by the donor for specific purposes are reported as temporarily restricted or permanently restricted support that increases those net asset classes. When a donor restriction expires, that is, when a time restriction ends or stipulated purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the consolidated statement of activities and changes in net assets as net assets released from restrictions.

Contributions of cash restricted by the donor for the purchase of long-lived assets implies a time restriction on the use of such contributed assets that expires over the assets' expected useful lives. Accordingly, the contributions received are reported as restricted support that increases temporarily restricted net assets. Depreciation is recorded over the assets useful life, and net assets are reclassified from temporarily restricted to unrestricted as depreciation is recognized.

The University capitalizes works of art, historical treasures, or similar assets (collectively, Collections). Collections are recorded at fair value at the date of the contribution. Collections of approximately \$5.6 million are included in other noncurrent assets on the consolidated balance sheet at June 30, 2014,

Investments

Investments are stated at fair value. The fair value of all debt and equity securities with a readily determinable fair value are based on quotations obtained from national securities exchanges. The alternative investments, which are not readily marketable, are carried at estimated fair values as provided by the investment managers. As a practical expedient, the University is permitted under the *Fair Value Measurement* standard to estimate the fair value of an investment in an investment company at the measurement date using the reported net asset value (NAV). Adjustment is required if the University expects to sell the investment at a value other than NAV or if the NAV is not calculated in accordance with US generally accepted accounting principles (US GAAP). The University's investments are valued based on the most current NAV adjusted for cash flows when the reported NAV is not at the measurement date. This amount represents fair value of these investments at June 30, 2014. The University performs additional procedures including due diligence reviews on its alternative investments and other procedures with respect to the capital account or NAV provided to ensure conformity compliance with valuation procedures in place, the ability to redeem at NAV at the University's measurement date and existence of certain redemption restrictions at the measurement date. The University reviews the values as provided by the investment managers and believes that the carrying amount of these investments is a reasonable estimate of fair value. Because alternative investments are not readily marketable, their estimated values are subject to uncertainty and therefore may differ from the value that would have been used had a ready market for such investments existed.

The Commonwealth of Pennsylvania has not adopted the Uniform Management of Institutional Funds Act (UMIFA) or the Uniform Prudent Management of Institutional Funds Act (UPMIFA). Rather, the Pennsylvania Act governs the investment, use and management of the University's endowment funds. The Pennsylvania Act allows a nonprofit to elect to appropriate for expenditure an investment policy that seeks the long-term preservation of the real value of the investments. In accordance with the Pennsylvania Act, the objectives of the University's investment policy is to provide a level of spendable income which is sufficient to meet the current and future budgetary requirements of the University and which is consistent with the goal of protecting the purchasing power of the investments.

The University's financial instruments that are exposed to concentrations of credit risk consist primarily of cash and cash equivalents and investments. These funds are held in various high-quality financial institutions managed by University personnel and outside advisors. The University maintains its cash and cash equivalents in financial institutions, which at times exceed federally insured limits.

Investment in Assets of Affiliated Foundation

The Methodist Hospital Foundation (the "Foundation"), a separate corporation not under the control of TJUH, accepts gifts and bequests and engages in fundraising activities for the benefit of Methodist Hospital. The Board of Trustees of the Foundation, at its sole discretion, is authorized to contribute Foundation funds to Methodist Hospital. Underlying investments held by the Foundation with restrictions benefiting only Methodist Hospital amounting to

\$8.6 million at June 30, 2014, is presented in the consolidated balance sheet. While the sole purpose of the Foundation is to support Methodist Hospital, this accounting treatment does not imply that the Foundation's assets or investment income are those of TJUH. The consolidated financial statement does not reflect or establish the legal relationship, agency or otherwise, between the Foundation and TJUH, or any right to assets owned by the Foundation. The by-laws of the Foundation provide that all assets held by it shall not be subject to attachments, execution, or sequestration for any debt, obligation or liability of TJUH or any other person or entity. In particular, the Foundation is not party to or obligated by any debt instrument of TJUH, and assets owned by the Foundation are not subject to the lien of any such debt instrument.

Split Interest Agreements

The University's split-interest agreements consist of charitable gift annuities, pooled income funds, charitable remainder trusts and a charitable lead trust. Contribution revenue for charitable gift annuities and charitable remainder trusts is recognized at the date the agreement is established, net of the liability recorded for the present value of the estimated future payments. Contribution revenue for pooled income funds is recognized upon establishment of the agreement at the fair value of the estimated future receipts discounted for the estimated time period to complete the agreement.

Loans Receivable from Students

Many students receive financial aid that consists of scholarship grants, work-study opportunities and student loans. The Univeristy participaties in various federal revolving loan programs, in addition to administering institutional loan programs. Student loan programs are funded by donor contributions, other institutional sources, and governmental programs, primarily the Federal Perkins Loan Program. The amounts received from the federal government's portion of federal loan programs are ultimately refundable to the federal government and are reported as a liability on the University's consolidated balance sheet as federal student loan advances. Determination of the fair value of Student loans receivable is not practicable.

Student loans receivable, net of allowance for doubtful accounts, consists of the following at June 30, 2014:

Direct student loans Allowance for doubtful accounts	\$20,986 (4,473)
Net	16,513
Federally-sponsored student loans	9,967
Total	\$26,480

The University assesses the adequacy of the allowance for doubtful accounts related to direct student loans receivable by performing evaluations of the student loan portfolio, including a

review of the aging of the student loan receivable balances and of the default rate by loan program in comparison to prior years. The level of allowance is adjusted based on the results of this analysis. The federally-sponsored student loans receivable represents amounts due from current and former students under various Federal Government loan programs. For direct student loans it is the University's policy to reserve 100% of a loan when the loan is delinquent 2 years or more; a reserve of 85% is recorded for loans delinquent more than 270 days and less than 2 years. The University considers the allowance recorded at June 30, 2014 and 2013 to be reasonable and adequate to absorb potential credit losses inherent in the student loan portfolio.

Land, Buildings, and Equipment, net

Land, buildings, and equipment are carried at cost on date of acquisition or fair value on the date of donation in the case of gifts. Depreciation expense is computed on a straight-line basis over the estimated useful lives of the assets, excluding land. All gifts of land, buildings, and equipment are recorded as unrestricted nonoperating activities unless explicit donor stipulations specify how the donated assets must be used. Interest expense on borrowed funds used for construction, net of interest income earned on unexpended amounts, is capitalized during the construction period.

Conditional Asset Retirement Obligation

A conditional asset retirement obligation is a legal obligation to perform an asset retirement activity in which the timing and/or method of settlement are conditional on a future event that may or may not be within the control of the entity. A conditional asset retirement obligation of \$2.9 million as of June 30, 2014 is included within other liabilities in the consolidated balance sheet.

New Accounting Standards

In January 2013, the FAB issued a standard *Clarifying the Scope of Disclosures about Offetting Assets and Liabilities*. This guidance requires enhanced disclosures about securities lending thransactions to enable users of its financial statements to evaluate the effect or potential effect of netting arrangements on its financial position. The University adopted this guidance on July 1, 2013.

In May 2014, the FASB issued a standard on Revenue from Contracts with Customers. This standard implements a single framework for recognition of all revenue earned from customers. This framework ensures that entities appropriately reflect the consideration to which they expect to be entitled in exchange for goods and services by allocating transaction price to identified performance obligations and recognizing revenue as performance obligations are satisfied. Qualitative and quantitative disclosures are required to enable users of financial statements to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. The standard is effective for fiscal years beginning after December 15, 2016. The University is evaluating the impact this will have on the combined financial statements beginning in Fiscal Year 2018.

2. NET ASSETS

Restricted net assets as	of June 30, 2014 are	categorized as follow	ws (in thousands):

3. ASSETS WHOSE USE IS LIMITED

Assets whose use is limited are presented in the consolidated balance sheet at June 30, 2014 consist of the following (in thousands):

Board designated funds for plant replacement and expansion	\$100,490
Board designated funds for self-insurance arrangements	20,072
Debt service funds	20,823
Women's Board and Medical Staff funds	451

4. INVESTMENTS

A summary of investments held in pooled funds at June 30, 2014 is as follows (in thousands):

Cash and cash equivalents	\$12,491
Equity securities:	
Domestic	11
Fixed income securities:	
U.S. Treasuries	17,527
Funds:	
Global equity	254,628
Fixed income	106,313
Private equity	70,344
Real estate funds	26,597
Hedge funds	148,778
Total	\$636,689

The University's direct investments in equity and fixed income securities are considered liquid assets because they are traded on established markets with enough participants to absorb sale transactions without materially impacting the current price of the asset. The underlying assets in the University's investments in equity and fixed income funds are traded on established markets with enough participants to absorb sale transactions without materially impacting the current price. The funds are priced daily and provide next day availability on all transaction requests. The University's investment in real asset funds provide for monthly liquidity on transaction requests.

The University has made commitments to various private equity and real asset limited partnerships. The total amount of unfunded commitments is \$80.5 million at June 30, 2014, which represents 12.1% of the value of the pooled investments at June 30, 2014. The University expects these funds to be called over the next 3 to 5 years.

Private equity	\$72,922
Real estate	7,622
	\$80,543

The University's pooled investments at June 30, 2014 include \$148.8 million of hedge fund investments. These funds provide for quarterly or annual redemptions and require between 60 and 90 day notice periods, limiting the University's ability to respond quickly to changes in market conditions.

Also included in investments at June 30, 2014 were the following non-pooled investments at June 30, 2014 (in thousands):

Short-term investments	\$291,036
Intermediate fixed income securities	39,702
Beneficial interest in perpetual trusts	48,021
Split interest agreements	8,214
Investment in Five Pointe under the equity method	66,122
Other	11,026
	\$464,121

Beneficial interests in perpetual trusts, which are administered by independent trustees, are mainly comprised of domestic and international equity securities and domestic fixed income securities.

A summary of investments held under split-interest agreements is as follows at June 30, 2014 (in thousands):

Charitable gift annuities	\$3,620
Pooled income funds	11
Charitable lead trust	1,363
Charitable remainder trusts	3,220
	\$8,214

At June 30, 2014 investment securities with an aggregate fair value of \$5.8 million were loaned primarily on a short-term basis to various brokers in connection with a securities lending program. These securities are returnable on demand and are collateralized by cash deposits amounting to 103% of the market value of the securities loaned. The University receives lending fees and continues to earn interest and dividends on the loaned securities.

5. ENDOWMENT FUNDS

The University's endowments consist of 755 individual funds established for a variety of purposes. The endowment includes both donor-restricted endowment funds and funds designated by the Board of Trustees to function as endowments. Net assets associated with each of these groups of funds are classified and reported based upon the existence or absence of donor-imposed restrictions.

At June 30, 2014, the endowment net asset composition, excluding pledge receivables, by type of fund consisted of the following (in thousands):

		Temporarily	Permanently	
	Unrestricted	Restricted	Restricted	Total
Donor-restricted funds	\$ -	\$93,355	\$161,128	\$254,483
Quasi-endowment funds	224,033	-	-	224,033
Total funds	\$224,033	\$93,355	\$161,128	\$478,516

6. FAIR VALUE MEASUREMENT

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

- Level 1 Inputs that reflect unadjusted quoted prices in active markets for identical assets or liabilities that the University has the ability to access at the measurement date;
- Level 2 Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, including inputs in markets that are not considered to be active:
- Level 3 Inputs that are not currently observable.

Inputs are used in applying the various valuations techniques and broadly refer to the assumption that market participants use to make valuation decisions. An investments level within the fair value hierarchy is based on the lowest level of any input that is significant to

the fair value measurement. However, the determination of what constitutes "observable" requires significant judgment. The categorization of an investment within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the University's perceived risk of that instrument.

Level 1 - Investments whose values are based on quoted market prices in active markets, are therefore classified within Level 1. Typically, securities traded on the NYSE, AMEX, NASDAQ and other major exchanges will be classified as Level 1. These assets include active listed equities, certain U.S. government obligations, mutual funds and certain money market securities. For investments regularly traded on any recognized securities or commodities exchange, the closing price on such exchange (or, if applicable, as reported on the consolidated transactions reporting system) on the last trading date at the end of the fiscal year is used. In the case of securities regularly traded in the over-the-counter market, the closing bid quotations for long positions and the closing asked quotation for short positions on the trading date ending on or preceding the end of the fiscal year is used.

Level 1 Liquidity – Daily based on quoted market value at time of transaction or at daily NAV.

Level 2 - Investments that trade in markets that are not considered to be active, but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. They include investment- common trust equity and fixed income funds, corporate grade bonds, high yield bonds and certain mortgage products. These assets are valued based on quoted market prices in active markets or dealer quotations and are categorized as Level 2. There were no transfers between Levels 1 and 2 during 2014 and 2013.

Level 2 Liquidity – Daily based on quoted market value at time of transaction or at daily NAV.

Level 3- Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently or not at all. Level 3 instruments include private equity (direct and fund of funds), real assets investments (real estate, natural resources - direct and fund of funds), hedge funds (direct and fund of funds), and beneficial interests in perpetual trusts and charitable lead trusts held by third parties. Within Level 3, the use of the market approach generally consists of using comparable market transactions, while the use of the income approach generally consists of the net present value of estimated of future cash flows, adjusted as appropriate for liquidity, credit, market and/or other risk factors. The University uses the "market approach value" valuation technique to value its investments in private equity and real estate ("private investments") and hedge funds.

The University estimates the fair value of an investment company at the measurement date using the reported net asset value ("NAV"). Adjustment is required if the University expects to sell the investment at a value other than NAV or if the NAV is not calculated in accordance with US generally accepted accounting principles. The University uses the NAV to determine the fair value of all underlying investments which (a) do not have readily determinable fair value and (b) prepare their financial statements consistent with the measurement principles of an investment company or have the attributes of an investment company.

Most private investment funds (private equity, real asset funds) are structured as closed-end, commitment-based investment funds where the University commits a specified amount of capital upon inception of the fund (i.e., committed capital) which is then drawn down over a specified period of the fund's life. Such funds generally do not provide redemption options for investors and, subsequent to final closing, do not permit subscriptions by new or existing investors. Accordingly, the University generally holds interests in such funds for which there is no active market, although in some situations, a transaction may occur in the "secondary market" where an investor purchases a limited partner's existing interest and remaining commitment. The fund managers may value the underlying pirate investment based on an appraised value, discounted cash flow, industry comparable or some other method. The University values these limited partnerships at NAV. These interests, in the absence of a recent and relevant secondary market transaction, are classified as Level 3.

Unlike private investment funds, hedge funds are generally open-end funds as they typically offer subscription and redemption options to investors. The frequency of such subscriptions or redemptions is dictated by such fund's governing documents. The amount of liquidity provided to investors in a particular fund is generally consistent with the liquidity and risk associated with the underlying portfolio (i.e., the more liquid the investments in the portfolio, the greater the liquidity provided to the investors). The fund managers invest in a variety of securities which may not be quoted in an active market. Illiquid investments may be valued based on appraise value, discounted cash flow, industry comparable or some other method.

The methods described above may produce a fair value calculation that may not be indicative of a net realized value or reflective of future fair values. Furthermore, while the University believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to demine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Level 3 Liquidity (Private investments and hedge funds)

Private Investments - Private investment funds have limited liquidity or redemption options. Liquidity for private investments can be accomplished via a secondary sale transaction. When available, distributions typically take place on a quarterly basis.

Hedge funds – Hedge funds provide quarterly liquidity with (90) notice prior to the quarter's end. Liquidity of individual hedge funds vary based on various factors and may include "gates", "holdbacks" and "side pockets" imposed by the manager of the hedge fund, as well as redemption fees which may also apply. Depending on the redemption options available, it may be possible that the reported NAV represents fair value based on observable data such as ongoing redemption and/or subscription activity. In these cases, the NAV is considered as a Level 2 input. Limited partnerships are valued at NAV. However, certain hedge funds may provide the manager with the ability to suspend or postpone redemption (a "gate") or "hold back" from the payment of redemption proceeds a portion of the redemption (e.g. 10%) until the annual audited financial statements are distributed. In the case of the imposition of a gate,

the University does not have the ability to validate or verify the NAV through redemptions. Therefore, the interest is generally classified as Level 3.

In the cases of a holdback, the University considers the significance of the holdback, its impact on the overall valuation and the associated risk that the holdback amount will not be fully realized based on a prior history of adjustments to the initially reported NAV. If the holdback is significant, then the interest is generally classified as Level 3.

For those private equity, real estate limited partnerships, or hedge-fund of fund transactions where valuations dated on the last business day of the year are available, the valuations will be based on the most recent capital account statement (monthly/quarterly), adjusted for interim cash flow activity (contributions, distributions, fees). Substantially all of the University's investments in such funds have been classified within Level 3.

The fair value of the University's interest rate swaps related to its debt obligations and natural gas hedge are based on third-party valuations independent of the counterparties. As the fair values of the hedges are determined based on inputs that are readily available or can be derived from information available in public markets, the University has categorized the hedges as Level 2.

The following table presents the cash and cash equivalents, assets whose use is limited and investments carried on the consolidated balance sheet by level within the valuation hierarchy as of June 30, 2014 (in thousands):

7. PLEDGES RECEIVABLE

A summary of pledges receivable is as follows at June 30, 2014 (in thousands):

Unconditional promises expected to be collected in:

Less than one year	\$16,757
One year to five years	33,459
Over five years	85,000
	135,216
Less: unamortized discount and allowance	
for doubtful accounts	(42,572)
	\$92,644

The discount rate ranges from 0.41% to 5.5%. The University's largest pledge comprises 87% of the pledge receivable at June 30, 2014.

8. LAND, BUILDINGS AND EQUIPMENT

	June 30, 2014
Land and land improvements	\$76,459
Buildings and building improvements	1,089,604
Equipment	830,791
Leasehold improvements	50,680
Construction in progress	35,911
Less: accumulated depreciation	(1,170,861)
Total Land, Buildings and Equipment, net	\$912,584

The University uses straight-line depreciation over the assets' estimated lives, which are as follows:

Land improvements	10-20 years
Buildings and building improvements	20-40 years
Equipment	5-10 years
Leasehold improvements	5-10 years

9. NOTES PAYABLE

The Pennsylvania Higher Education Financing Authority issued the 2014 Series A and 2014 Series B notes (the Notes) as limited obligations of the authority payable from amounts received under a loan agreement with the University. The principal amount of the 2014 Series A and 2014 Series B notes are \$328.4 million and \$24.4 million, respectively, and mature on May 31, 2015. Interest rates vary monthly and are based upon a SIFMA index and LIBOR index for the 2014 Series A and 2014 Series B, respectively, and interest is payable monthly. The proceeds provided funds for the payment or defeasance of certain JHS bonds pursuant to the TJUH separation from JHS on June 30, 2014.

All Revenue bonds were issued by certain financing authorities as limited obligations of the authorities payable from amounts received under loan agreements with the University. The bonds are subject to optional redemption by the University prior to maturity on specified dates at a price equal to 100% of the principal amount, plus any accrued interest. The University is required, among other things, to generate net revenue (as defined) at least equal to 110% of maximum annual debt service requirements. The University was in compliance with such requirements at June 30, 2014.

The fair value of the University's debt obligation was \$272.4 million at June 30, 2014. The fair value represents the quoted market value for Revenue bonds (Level 2) and carrying amounts for all other debt, which approximates fair value.

Maturities for long-term debt for each of the next five years are as follows (in thousands):

2015	10,142
2016	10,717
2017	6,483
2018	7,381
2019	7,748
Thereafter	230,502

The University had available unsecured lines of credit from various banks of \$46.4 million at June 30, 2014 under which there were no borrowings at June 30, 2014. No compensating balances are required or maintained.

11. DERIVATIVE FINANCIAL INSTRUMENTS

The University entered into derivative transactions for the purpose of reducing the impact of fluctuations in interest rates under the terms of interest rate swap agreements that expire in 2034 executed with the 2008 Series A and B Revenue Bonds. The University has the option of terminating the interest rate swap agreements on a semi-annual basis commencing in 2020. The fair value of this derivative instrument at June 30 in the consolidated balance sheet is as follows (in thousands):

Additionally, in connection with the separation of TJUH from JHS and prior to the merger with the University on June 30, 2014, certain interest rate swap agreements were novated from JHS to the University, whereby the University replaced JHS as the derivative holder. The fair value of these derivative instruments at June 30 in the consolidated balance sheet is as follows (in thousands):

12. OPERATING LEASES

The University has lease obligations for buildings, equipment and ambulatory facilities under various operating leases. At June 30, 2014 the minimum future non-cancelable rental lease commitments are as follows (in thousands):

2015	\$30,983
2016	28,746
2017	26,351
2018	23,722
2019	18,897
Thereafter	<u>25,642</u>
	<u>\$154,341</u>

13. PENSION PLANS

Retirement benefits are provided for academic employees and certain administrative personnel of TJU and TJUH through direct payments to various funds. Benefits are based upon a percentage of eligible employees' salaries ranging for 9% to 13% based upon age. JUP has a defined contribution plan for employees who work at least 1,000 hours a year. JUP makes contributions to the plan based on a percentage of compensation and years of service within limits established by the IRS. Employees become fully vested after one year of service.

TJU and TJUH have non-contributory defined benefit pension plan for other full-time employees. The TJU plan was frozen to new entrants effective January 1, 2014 and the TJUH plan was frozen to new entrants effective Juy 1, 2004. Commensurate with the freeze of each of these plans to new entrants, existing employees that met certain age and years of service threholds were eligible to remain in the plans and continue to earn benefits. All other employees of TJU and TJUH earn retirement benefits through defined contributions plans that include a fixed employer contribution of 4.5% and a matching contribution of 25% of the first 6% of employee contributions.

Benefits under the non-contributory defined benefit plans are based on the employee's years of service and compensation during the years preceding retirement. Contributions to the plan are designed to meet the minimum funding requirements of the Employee Retirement Income Security Act of 1974.

The accounting guidance for defined benefit pension plans requires employers to recognize the overfunded or underfunded projected benefit obligation ("PBO") of a defined benefit pension plan as an asset or liability in the statement of financial position. The PBO represents the actuarial present value of benefits attributable to employee service rendered to date, including the effects of estimated future salary increases. The accounting guidance also requires employers to recognize annual changes in gains or losses, prior service costs, or other

credits that have not been recognized as a component of net periodic pension cost through unrestricted net assets.

The components of the net pension plan financial position on the consolidated balance sheet are as follows (in thousands):

	TJU	TJUH	Total
Change in projected benefit obligation:	_

	TJU	TJUH	Total
Accumulated benefit obligation	\$163,012	\$357,217	\$520,229

The estimated actuarial loss that will be amortized from unrestricted net assets during the upcoming fiscal year is \$7.9 million.

Actuarial assumptions used to estimate the June 30 pension obligation were as follows:

	<u>TJU</u>	<u>TJUH</u>
Discount rate	4.43%	4.51%
Rate of compensation increase	3.25%	3.00%
Expected return on plan assets	7.25%	7.50%

For their defined benefit pension plans, TJU and TJUH pool funds for investment and utilize the unitization method of accounting for investments in pooled funds. TJU and TJUH had 32.9% and 67.1% of the total shares of the pooled funds at June 30, 2014, respectively. A summary of the plans' targeted and actual asset allocations is as follows for TJU:

		Percentage of
	Targeted	Plan Assets
	Range	June 30, 2014
Cash	0-5%	1%
Bonds	35-40%	38%
Global equity	40-50%	46%
Real estate and other	10-20%	15%
		100%

A summary of the plans' targeted and actual asset allocations is as follows for TJUH:

		Percentage of
	Targeted	Plan Assets
	Range	June 30, 2014
Cash	0-5%	2%
Bonds	35-40%	27%
Global equity	40-50%	59%
Real estate and other	10-20%	12%
		100%

The portfolio utilizes a long-term asset allocation strategy that allows management to rebalance the asset allocation back to target levels on a monthly basis. Short-term compliance with the target ranges can be impacted by the severity of market conditions.

The expected long-term rate of return for the plan's assets are based on the historical return of each of the above categories, weighted based on the target allocations for each class.

The assets of the defined benefit pension plan are invested in a manner that is intended to preserve the purchasing power of the plan's assets and provide payments to beneficiaries. Thus, a rate of return objective of inflation plus 5% is targeted.

TJU and TJUH and expect to contribute \$3.7 million and \$20.5 million, respectively, during fiscal year 2015.

Projected benefit payments for the next ten years are as follows (in thousands):

	TJU	TJUH	Total
2015	\$5,986	\$11,729	\$17,715
2015	6,423	13,199	19,622

Participation in Multiemployer Defined Benefit Pension Plan

TJU and TJUH are participating employers in The Pension Fund for Hospital and Health Care Employees – Philadelphia and Vicinity (the Pension Fund), a jointly-trusted multiemployer defined benefit pension plan. The Pension Fund is operated for the benefit of Chapter 1199C of the American Federation of State, County and Municipal Employees (the Union). Information about the Pension Fund and the University's participation is summarized below.

The employer identification number for the Pension Fund is 23-2627428. At the date the financial statements were issued Form 5500 was not available for the plan years ending in 2014.

A six year collective-bargaining agreement was approved by the Union effective July 1, 2012. TJU and TJUH contributions as a percentage of covered payroll to the Pension Fund over the term of the agreement is as follows:

2014	14.00%
2015	15.50%
2016	17.25%
2017	18.75%
2018	20.50%

For the Plan Years beginning January 1, 2012 and January 1, 2013, the Pension Fund was determined to be in critical status (also referred to as yellow and red zone status) under the Pension Protection Act of 2006. Accordingly, the Pension Fund is subject to a funding improvement plan. The zone status is based on information that the University received from

the plan and is certified by the plan's actuary. Among other factors, plans in the red zone are generally less than 65 percent funding.

At January 1, 2013, the most recent date for which such information is available, the projected benefit obligation of the Pension Fund exceeded the plan assets by \$211,152,552.

14. PROFESSIONAL LIABILITY CLAIMS

TJU, TJUH and JUP maintain professional liability insurance under both self-insured and alternative risk financing insurance programs for the distinct services each provides. For all self-insured programs TJU, TJUH and JUP accrue for estimated retained risk liability arising from both asserted and unasserted claims. The estimate of liability is based upon an analysis of historical claims data as prepared by an independent actuary. The professional liability insurance program is administered through a policyholder-owned, Vermont-domiciled, risk retention group, Mountain Laurel Risk Retention Group, Inc. ("RRG") which was exclusively owned by JHS until June 30, 2014. For the professional liability coverage only, the RRG is 100% reinsured by a non-profit captive protected cell insurance company, Five Pointe Insurance Company, domiciled in Delaware. Until June 30, 2014, JHS held the sole common membership in Five Pointe. The University has accrued professional liability claims of \$312.1 million at June 30, 2014, of which \$24.2 million were current. The interest rate used to discount malpractice claims was 3% at June 30, 2014.

The first ("primary") layer of coverage is claims-made coverage with limits of \$500,000 per medical incident and \$2,500,000 annual aggregate per hospital and \$500,000 per medical incident and \$1,500,000 annual aggregate per physician. The limits for this primary coverage layer are statutorily prescribed in Pennsylvania. In addition, a \$1,000,000 per medical incident and \$3,000,000 annual aggregate limit is provided for scheduled dentists, as well as physicians and residents practicing in Delaware and New Jersey. At June 30, 2014, TJUH non-healthcare provider entities are provided with a shared \$1,000,000 per incident and \$3,000,000 annual aggregate limit of liability. The RRG retains the general liability coverage exposure.

The RRG provides a \$2,000,000 per incident and \$5,000,000 annual aggregate general liability coverage limit shared by TJUH and the other members of JHS. The premiums charged for the primary professional and general liability layers of coverage are determined by an independent outside actuary, based on loss and loss adjustment expense experience and other factors, at a 65% confidence level and a 3% discount rate for 2014 and include a charge for premium tax and operating expenses.

The second layer of professional liability coverage is provided through Pennsylvania's Medical Care Availability and Reduction of Error Fund (the "MCARE Fund"). This second layer, required by statute, consists of coverage with limits of \$500,000 per incident and \$1,500,000 annual aggregate per hospital and per employed physician/resident at June 30, 2014. The annual assessments for MCARE Fund coverage are based on the schedule of

occurrence rates approved by the Insurance Commissioner of Pennsylvania for the Pennsylvania Professional Liability Joint Underwriting Association multiplied by an annual assessment percentage. This assessment is recognized as an expense in the period incurred. No provision has been made for future MCARE Fund assessments as the unfunded portion of the MCARE Fund liability cannot be reasonably estimated.

Liabilities for potential losses in excess of the primary and MCARE layers up to \$5,000,000 each medical incident and \$5,000,000 aggregate retention excess of a \$7,000,000 each and every medical incident retention are based on actuarially-determined estimates, which reflect a 65% confidence level and a 3% discount rate for 2014. These estimates are based on historical information along with certain assumptions about future events. Changes in assumptions for such considerations as medical costs and actual experience could cause these estimates to change.

TJUH maintains claims-made excess catastrophic professional liability insurance coverage through Five Pointe in the amount of \$95,000,000 per medical incident and \$95,000,000 annual aggregate after a \$5,000,000 each medical incident and \$5,000,000 aggregate retention excess of a \$7,000,000 each and every medical incident retention (inclusive of the primary and MCARE layers of coverage). Five Pointe reinsured 100% of this risk to seven currently A-rated insurers (ACE, Zurich, Allied World, Berkley, Lloyd's Syndicates, Endurance, and Swiss Re). A separate limit of \$95,000,000 per occurrence and \$95,000,000 aggregate is also maintained to provide liability insurance coverage excess of the primary general, auto, employers and aviation liability coverages.

Health care entities are required to reflect their "gross" exposure to claims liabilities with a corresponding receivable for insurance recoveries in order to be consistent with other industries. The amount recorded at June 30, 2014 as a non-current asset and as a portion of non-current accrued professional liability claims is \$118.0 million.

15. WORKERS' COMPENSATION CLAIMS

The University is self-insured for its workers' compensation exposures. The University accrues for its workers' compensation liability based upon actuarial estimates using a discount rate of 3%. Accrued workers' compensation liabilities were \$20.5 million at June 30, 2014. This amounts are presented in the accompanying consolidated balance sheet.

16. COMMITMENTS AND CONTINGENCIES

Letters of Credit

At June 30, 2014, the University had open letters of credit aggregating \$93.0 million. The letters of credit provide additional security for the following (in thousands):

1984 Commercial Revenue Bonds	\$625
(Expiration 3/31/2015)	
2008 Series A Revenue Bonds	25,000
(Expiration 5/31/2016)

(Expiration 5/31/2016)	
Self-insurance	25,140
(Expiration 12/31/2014)	
	\$93,025

Litigation

The University is involved in litigation and regulatory investigations arising in the ordinary course of business. Based on the information currently available, in the opinion of management, all such matters are adequately reserved for and/or covered by commercial insurance and if not so covered or accrued are of such kind, or involve such amounts, as would not have a material adverse effect on the financial position of the University.

17. POST-MERGER ACTIVITIES ON JUNE 30, 2014

In connection with the TJUH separation from JHS on June 30, 2014 and subsequent to the merger between the University and TJUH, JHS transferred certain ownership interests to TJUH and the University.

On June 30, 2014 JHS transferred its ownership interest in the Accountable Care Organization ("the ACO") to TJUH (44.1%), Main Line Health (44.1%), Magee Rehabilitation Hospital (1.8%) and Holy Redeemer Health System (10.0%). TJUH recorded an investment in the ACO in the amount of \$1.5 million as of June 30, 2014.

On June 30, 2014, JHS transferred its sole common membership in Five Pointe Insurance Company ("Five Pointe") to TJUH (49%), Main Line Health (49%), and Magee Rehabilitation Hospital (2%), by entering into a Membership Interest and Membership Unit Transfer Agreement. TJUH recorded an investment in Five Pointe in the amount of \$66.1 million as of June 30, 2014.

On June 30, 2014 JHS transferred its common stock in Moutain Laurel Risk Retention Group, Inc. ("the RRG") to TJU (49%), Main Line Health (49%) and Magee Rehabilitation

Hospital (2%). TJU recorded an investment in the RRG in the amount of \$2.8 million as of June 30, 2014.

The above transactions will be accounted for under the equity method of accounting.

18. CONSOLIDATING BALANCE SHEET OF MERGING ENTITES

The following consolidating balance sheet contains the amounts recognized at the time of the merger on June 30, 2014 for each major class of assets and liabilities and each class of net assets (in thousands). Additionally, the post-merger activity occurring on June 30, 2014 described in Note 17 is reflected.
