Part I, Line 7	The costing methodology is based on the ratio of cost to charges from our hospital's accounting system

Form and Line Reference	Explanation
Part I, Ln 7 Col(f)	The Bad Debt expense included on Form 990, Part IX, Line 25, Column (A), was subtracted for purposes of calculating the percentage in this column is $7,849,258

Form and Line Reference	Explanation
Part III, Line 4	Patient accounts receivable are reported at estimated net realizable value after deduction of allowances for doubtful accounts The allowance for doubtful accounts is based on historical losses and an analysis of currently outstanding amounts for its major payor sources Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts For receivables associated with services provided to patients who have third-party coverage, the Hospital analyzes contractually due amounts and provides an allowance for doubtful accounts and a provision for bad debts, if necessary (for example, for expected uncollectible deductibles and copayments on accounts for which the third-party payor has not yet paid) For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and payment balances due for which third-party coverage exists for part of the bill), the Hospital records a significant portion for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible The difference between the standard rates (or discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts The costing methodology is based on the ratio of cost to charges from our hospital's accounting system

Form and Line Reference	Explanation
Part III, Line 8	The cost used to determine the Medicare payment shortfall comes from the CMS required filing of the Medicare cost report The methodology uses a ratio of cost to charges to determine the cost assigned to the Medicare services Butler Memorial Hospital is committed to serving the healthcare needs of all members of our community We consider the revenue shortfall from the Medicare program payments to be part of our community contribution

Form and Line Reference	Explanation
Part III, Line 9b	Patients who have previously applied and been approved for our charity care program are automatically qualified for any additional services provided over the next six months after application approval We also will presumptively qualify patients for charity care if they meet criteria such as being food stamp eligible and qualifying for Section 8 housing

Form and Line Reference	Explanation
Part VI, Line 5	Ambulatory ExpansionSince 1999, the System has recognized and embarked upon the necessity for an available, low-cost, high-quality, ambulatory network This network now includes 62 convenient locations where regional residents can access a broad range of services This network of services continues to grow, with locations in 6 counties Services have been ex panded in Lawrence, Venango, Mercer, Clarion and Armstrong counties A comprehensive array of ambulatory services is available where patients can access advanced imaging, cardiac t esting, wellness, primary care, specialty care and walk-in/urgent care, often providing a continuum of services just short of acute care inpatient The BHS East Campus, which is ap proximately one-half mile from the Hospital, serves as the System's largest ambulatory loc ation This 8 6 acre campus includes a 50,000 square foot "Class A" medical office buildin g That building houses the Cardiovascular Center and Musculoskeletal Centers Due to the growth in the System's services, a new medical office building containing approximately 50 ,000 square feet is under construction This campus will house cardiology testing, medical and interventional cardiologists, cardiovascular surgeons, electrophysiologists, orthoped ic surgeons, laboratory/x-ray/pre-admission testing, pulmonology, general surgery, women's imaging, obstetricians/gynecologists, medical oncologists and palliative care In additio n, the System has opened 4 urgent care centers These urgent care centers are strategicall y located in the Hospital's primary and secondary markets The urgent care centers were cr eated as a joint venture with the Hospital's emergency room physicians The System focuses on strong relationships with the medical staff This joint venture is one example of the partnerships developed with physicians Surrounding the System's services are a robust comp lement of primary and specialty physicians These physicians include family practice, inte rnal medicine, neurology, cardiology, oncology, surgery, radiology, gynecology/obstetrics, infectious disease and dermatology Providing convenient care with a positive experience is the focus of such physician practices With 123 physician and mid-level providers in ov er 33 offices covering 6 counties, these providers offer office visits and testing close t o home while referring inpatient business to the Hospital Supporting those in need O ur C harity Care and Community Benefit BMH provides free care to those patients who have an obl igation after insurance payments, if any The amount of free care is determined based on t he patient's income and family size Free care is provided to those with incomes up to 300 % of the Federal Poverty Guideline To inform patients of this program, signs are posted in all the registration areas notifying the public of the availability of our free care prog ram More information is available through a Patient Handbook and on the BHS website www b utlerhealthsystem org on the "About BHS" page At the time of registration, any patient wh o is uninsured is given a "Patient Notice of Financial Aid " The notice instructs the pati ent to call or visit the Patient Financial Assistance Department to seek more information about how BMH may be able to help pay for part or all of their care The monthly collection statements that are mailed to patients inform them that they may contact the Patient Fina ncial Assistance Department to discuss their eligibility for free care Financial represen tatives receive and make many calls to the patients During the calls, financial represent atives will discuss with the patients the availability of free care programs and will mail out applications to patients wanting to apply BMH also contracts with representatives to assist patients in applying for Medical Assistance coverage These representatives will a lso discuss with patients the availability of free care, especially for those who may not be eligible for the government healthcare plan Government Program SubsidiesIn addition to providing free and discounted care to uninsured patients or patients that need financial h elp, BMH makes up the difference between the costs of care and the amount paid by governme nt-sponsored programs such as Medicare and Medicaid Last year, that amounted to more than $9 9 million As provisions of the Patient Protection and Affordable Care Act are impleme nted, BMH expects this burden on our patients and the Health System to increase To that e nd and to remain a viable healthcare provider to our community, BMH continually evaluates ways to keep costs low and maintain high quality Billing and CollectionsBMH is diligent i n providing bills that are accurate and easy to understand Every bill and statement inclu des information about how to contact financial representatives and arrange payment plans BMH is committed to finding ways to help every patient pay the INDEPENDENT AUDITORS' REPORT

Board of Trustees
Butler Health System and Subsidiaries
Butler, Pennsylvania

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of Butler Health System and Subsidiaries (System), which comprise the consolidated balance sheets as of June 30, 2014 and 2013, and the related consolidated statements of operations, changes in net assets, and cash flows for the years then ended, and the related notes to the consolidated financial statements

Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States of America, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error

Auditors' Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audits We conducted our audits in accordance with auditing standards generally accepted in the United States of America Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error In making those risk assessments, the auditors consider internal control relevant to the entities' preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entities' internal control Accordingly, we express no such opinion An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Butler Health System and Subsidiaries as of June 30, 2014 and 2013, and the results of their operations, changes in net assets, and cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America

Note 1. Nature of Operations and Summary of Significant Accounting Policies

Basis of consolidation The consolidated financial statements include the accounts of Butler Health System, the controlling parent, Butler Healthcare Providers d/b/a Butler Memorial Hospital and Subsidiaries (collectively, BMH), Butler Health System Foundation (Foundation), Nixsar Corporation (Nixsar), Primary Care Associates, P C (PCA), Butler Medical Providers (BMP), and Butler Ambulatory Surgery Center, LLC (Surgery Center) (collectively, the System) The transactions and balances of BMH include the accounts of Butler Memorial Hospital (Hospital), BHS FastERcare PLLC (BHS FastERcare), and BHS FastERcare Laboratory Services, LLC (BHS FastERcare Lab) All significant intercompany transactions and balances have been eliminated in consolidation

Nature of operations The System's primary operations are conducted within the Hospital The Hospital operates a general acute care hospital that provides inpatient, outpatient, and emergency care services The Foundation provides fundraising activities in support of the System Nixsar provides realty management services BMP employs primary care and specialty care physicians PCA employs primary care physicians The Surgery Center is a joint venture, in which Butler Health System maintains a 51% ownership, which operates an ambulatory surgery center, offices for health service providers, and associated services The System's primary service area includes Butler, Pennsylvania, and surrounding communities in Butler County

During the year ended June 30, 2013, the Hospital entered into an agreement with Highmark, Inc to provide additional physicians to support expanded neurology services to the Butler service area The Hospital also entered into a joint venture with the UPMC Cancer Center to provide extensive oncology services to the Butler service area (Note 12)

Basis of presentation Net assets, revenue, and gains and losses are classified based on the existence or absence of donor-imposed restrictions Accordingly, the net assets of the System and changes therein are classified and reported as follows

Unrestricted Net Assets - Net assets that are not subject to donor-imposed stipulations

Temporarily Restricted Net Assets - Net assets subject to donor-imposed stipulations that will be met/expire either by actions of the System and/or the passage of time

Permanently Restricted Net Assets - Net assets subject to law or donor-imposed stipulations that require funds be maintained permanently by the System

Industry risks The U S health care industry continues to experience significant change Today, the primary force for change is being created by a competitive marketplace resulting in rapid change in health care delivery and financing as well as significant regulatory change

An increasing number of the System's third-party payors are adopting prospective payment systems similar to those used by the federal government's Medicare program which shift financial risk from the payor/insurer to the health care provider The System has signed provider contracts with several managed care organizations, which emphasize utilization control and cost containment Managed care organizations either directly transfer risk to health care providers through capitation payment arrangements or pay for units of service on a steeply discounted basis

Cost containment measures by third-party payors have resulted in an excess supply of inpatient acute care beds in western Pennsylvania Mergers and affiliations are occurring in order to create larger integrated delivery systems to compete for patients enrolled in commercial, state Medicaid, and Medicare managed care programs This consolidation is expected to result in the continuing closure of hospital beds and a reduction in the number of full-service health care providers

These factors cause significant challenges to all providers, including the System, in the western Pennsylvania marketplace

Note 1. Nature of Operations and Summary of Significant Accounting Policies (Continued)

Laws and regulations The health care industry is subject to numerous laws and regulations of federal, state, and local governments These laws and regulations include, but are not necessarily limited to, matters such as licensure, accreditation, government health care program participation requirements, reimbursement for patient services, and Medicare and Medicaid fraud and abuse Recently, government activity has increased with respect to investigations and allegations concerning possible violations of fraud and abuse statutes and regulations by health care providers

Violations of these laws and regulations could result in expulsion from government health care programs together with the imposition of significant fines and penalties, as well as significant repayments for patient services previously billed Management believes that the System is in compliance with fraud and abuse as well as other applicable government laws and regulations While no regulatory inquiries have been made, compliance with such laws and regulations can be subject to future government review and interpretation as well as regulatory actions unknown or unasserted at this time

Use of estimates The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and reported amounts of revenue and expenses during the reporting period Actual results could differ from those estimates

Cash and cash equivalents and deposit risk Cash and cash equivalents include cash on hand, demand deposits, and investments in highly liquid debt instruments with an original maturity of three months or less As of June 30, 2014 and 2013, the System had cash balances with financial institutions that exceeded the Federal Deposit Insurance Corporation (FDIC) limits The System has not experienced any losses in such accounts

Patient accounts receivable Patient accounts receivable are reported at estimated net realizable value after deduction of allowances for doubtful accounts The allowance for doubtful accounts is based on historical losses and an analysis of currently outstanding amounts for its major payor sources Management regularly reviews data about these major payor sources of revenue in evaluating the sufficiency of the allowance for doubtful accounts For receivables associated with services provided to patients who have third-party coverage, the Hospital analyzes contractually due amounts and provides a contractual allowance, if necessary For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and payment balances due for which third-party coverage exists for part of the bill), the Hospital records a significant provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible The difference between the standard rates (or the discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts

The Hospital's allowance for doubtful accounts for self-pay patients was 45% percent of self-pay accounts receivable as of June 30, 2014 and 2013 The Hospital's provision for doubtful collection write-offs were $ 8,886,213 and $ 10,201,355 for the years ended June 30, 2014 and 2013, respectively The Hospital did not change its charity care or uninsured discount policies during the years ended June 30, 2014 or 2013

Other receivables Other receivables are reported at net realizable value Accounts are written off when they are determined to be uncollectable based upon management's assessment of individual accounts No allowance for doubtful collections was recorded because management believes realization losses on other receivables will not be material

Inventories Inventories are stated at the lower of cost (first-in, first-out) or market

Note 1. Nature of Operations and Summary of Significant Accounting Policies (Continued)

Assets whose use is limited Assets whose use is limited include assets held by a bond trustee under trust indenture, assets held by the Foundation, assets held by a trustee in connection with the System's self-insured workers' compensation program, and funds held in escrow which have been set aside by the Board of Trustees The Board of Trustees retains control of these assets and may, at its discretion, subsequently use these assets for other purposes

Hospital assessment As an inpatient acute care hospital participating in Pennsylvania's Medicaid System, the Hospital is subject to Pennsylvania's Hospital Assessment Program The Hospital has elected to record the net effect of transactions on the consolidated statements of operations under net patient service revenue

Investments and investment risk Investments in equity securities with readily determinable fair values and all investments in debt securities are measured at fair value Cash and cash equivalents are carried at cost which approximates fair value Investment income and loss (including realized gains and losses on investments, interest, and dividends) is included in the excess of revenue over expenses unless the income or loss is restricted by donor or law Unrealized gains and losses on investments are excluded from the excess of revenue over expenses unless the investments are trading securities Interest income is measured as earned on the accrual basis Purchases and sales of securities and realized gains and losses are recorded on a trade-date basis Donor-restricted investment income is reported as an increase in temporarily restricted or permanently restricted net assets, depending on the type of restriction

The System's investments are comprised of a variety of financial instruments and are managed by investment advisors The fair values reported on the consolidated balance sheets are subject to various risks including changes in the equity markets, the interest rate environment, and general economic conditions Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in fair value of investment securities, it is reasonably possible that the amounts reported in the accompanying consolidated financial statements could change materially in the near term

Property and equipment Property and equipment are carried at cost for purchased assets or fair market value at the date of donation for donated assets Property and equipment acquisitions are recorded at cost Depreciation and amortization of property and equipment, which includes amortization of assets recorded under capital leases, are provided for using the straight-line method over the estimated useful lives of the assets

Major improvements and betterments to property and equipment are capitalized Expenses for maintenance and repairs which do not extend the lives of the related assets are charged to expense as incurred When retired or otherwise disposed of, the asset and its related accumulated depreciation or amortization is adjusted accordingly, and any resulting gain or loss is included on the consolidated statements of operations

Debt issuance costs Costs incurred in connection with the issuance of long-term debt have been deferred and are being amortized over the term of the debt using the effective interest method Amortization of debt issuance costs amounted to $ 139,544 and $ 144,870 for the years ended June 30, 2014 and 2013, respectively

Medical malpractice The provision and related liability for estimated general and professional liability claims include estimates of the ultimate cost for both reported claims and claims incurred but not reported and, in management's opinion, provide an adequate reserve for loss contingencies The System has accrued $ 3,083,481 and $ 2,506,760 associated with open asserted claims as of June 30, 2014 and 2013, respectively This accrual is included in accrued expenses on the consolidated balance sheets As the System expects these claims to be covered by their insurance policies, a corresponding receivable has been included in other receivables on the consolidated balance sheets

Excess of revenue over expenses Transactions deemed by management to be ongoing, major, or central to the provision of health care services are reported as revenue and expenses Peripheral or incidental transactions are reported as non-operating income or loss Changes in unrestricted net assets which are excluded from the excess of revenue over expenses, consistent with industry practice, include unrealized gains and losses on investments other than trading securities, accumulated liability for pension benefits, and net assets released from restrictions used for capital expenditures

Note 1. Nature of Operations and Summary of Significant Accounting Policies (Continued)

Charity care and community service benefits The System provides care to patients who meet certain criteria under its patient financial assistance policy without charge or at amounts less than its established rates Because the System does not pursue collection of amounts determined to qualify as charity care, they are not reported as revenue (Note 2)

Net patient service revenue and patient receivables The Hospital has agreements with third-party payors that provide for payments to the Hospital at amounts different from its established rates Payment arrangements include prospectively determined rates per discharge, reimbursed costs, discounted charges, and per diem payments

Net patient service revenue is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered, including estimated retroactive adjustments under reimbursement agreements with third-party payors Retroactive adjustments are accrued on an estimated basis in the period the related services are rendered and are adjusted in future periods as final settlements are determined

Donor-restricted gifts Unconditional promises to give cash and other assets are reported at fair value at the date the promise is received Conditional promises to give and indications of intentions to give are reported at fair value at the date the gift is received The gifts are reported as either temporarily or permanently restricted support if they are received with donor stipulations that limit the use of the donated assets When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified as unrestricted net assets and reported on the consolidated statements of operations as net assets released from restrictions Donor restricted contributions whose restrictions are met within the same year as received are reported as unrestricted contributions in the accompanying consolidated financial statements

Advertising costs Advertising costs are expensed as incurred

Income taxes The Hospital, the Foundation, Nixsar, and BMP are not-for-profit corporations and are exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code (Code) Accordingly, no provision for income taxes has been provided

The Surgery Center's members have elected to have the Surgery Center's income taxed as a partnership under the provisions of the Code, therefore, taxable income or loss is reported to the members for inclusion in their respective tax returns No provision for federal or state income taxes is included in the accompanying consolidated financial statements

PCA is a for-profit corporation subject to federal and state income taxes BHS FastERcare and BHS FastERcare Lab are Pennsylvania limited liability companies and are subject to federal and state income taxes

The System follows the guidance for accounting for uncertainty in income taxes recognized in a company's financial statements that prescribes a recognition threshold of more-likely-than-not to be sustained upon examination by the appropriate taxing authority Measurement of the tax uncertainty occurs if the recognition threshold has been met The guidance also addresses derecognition, classification, interest and penalties, accounting in interim periods, and disclosure

Management has determined that this guidance had no material effect on the consolidated financial statements The System's policy is to recognize interest related to unrecognized tax benefits in interest expense and penalties in professional fees and miscellaneous expenses There were no interest or penalties recognized on the consolidated statements of operations and changes in net assets as a result of this guidance Generally, tax returns for year ended June 30, 2011, and thereafter remain subject to examination by federal and state tax authorities

Subsequent events In preparing these consolidated financial statements, management evaluated events that occurred through October 1, 2014, the date the consolidated financial statements were issued, for potential recognition or disclosure

Note 1. Nature of Operations and Summary of Significant Accounting Policies (Continued)

Recent accounting pronouncement In February 2013, the Financial Accounting Standards Board (FASB) issued guidance related to the recognition, measurement, and disclosure of obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance is fixed at the reporting date, except for obligations addressed within existing guidance in accounting principles generally accepted in the United States of America (U S GAAP) Examples of obligations within the scope of this guidance include debt arrangements, other contractual obligations, and settled litigation and judicial rulings This guidance requires an entity to measure obligations resulting from joint and several liability arrangements for which the total amount of the obligation within the scope of this guidance is fixed at the reporting date, as the sum of the amount the reporting entity agreed to pay on the basis of its arrangement among co-obligors and any additional amount the reporting entity expects to pay on behalf of its co-obligors This guidance also requires the entity to disclose the nature and amount of the obligations as well as other information about those obligations This guidance is effective for public entities for fiscal years beginning after December 15, 2013, and for nonpublic entities for fiscal years ending after December 15, 2014 The amendments in this guidance should be applied retrospectively for those obligations resulting from joint and several liability arrangements within this guidance's scope that exist at the beginning of an entity's fiscal year of adoption Early adoption is permitted The System is currently evaluating the impact, if any, that adoption will have on its consolidated financial statements

In December 2013, the FASB decided that it should proactively determine which entities would be within the scope of the *Private Company Decision-Making Framework: A Guide for Evaluating Financial Accounting and Reporting for Private Companies* (Guide) In conjunction with this effort, the FASB amended the Master Glossary of the *FASB Accounting Standards Codification* to include one definition of *public business entity* for future use in U S GAAP That definition will be used by the FASB, the Private Company Council (PCC), and the Emerging Issues Task Force (EITF) in specifying the scope of future financial accounting and reporting guidance This Accounting Standards Update (ASU) also aims to identify the types of business entities that are excluded from the scope of the Guide, such as not-for-profit entities and employee benefit plans There is no actual effective date for this amendment, however, the term *public business entity* will be used in all future guidance, where applicable

In May 2014, the FASB issued guidance related to recognition of revenue from contracts with customers This guidance requires an entity to recognize the amount of revenue to which it expects to be entitled for the transfer of promised goods or services to customers and requires certain qualitative and quantitative disclosures regarding revenue arising from contracts with customers This ASU will replace most existing revenue recognition guidance in U S GAAP when it becomes effective The guidance permits the use of either a retrospective or modified retrospective (cumulative effect) transition method This guidance is effective for public entities with annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period Early application is not permitted for public entities For all other entities (nonpublic entities), the amendments in this ASU will be effective for annual reporting periods beginning after December 15, 2017, and interim periods within annual periods beginning after December 15, 2018 A nonpublic entity may elect to apply this guidance earlier, subject to certain limitations The System is currently evaluating the impact, if any, that adoption will have on its consolidated financial statements Management has not yet selected a transition method nor has the effect of this guidance on the System's ongoing financial reporting been determined

Note 2. Charity Care and Community Service Benefits

Charity care is free or discounted health services provided to persons who cannot afford to pay and who meet the Hospital's criteria for financial assistance The Hospital maintains records to identify and monitor the level of charity care and other types of community benefits it provides All amounts are reported in terms of costs incurred less any reimbursement or support

Note 2. Charity Care and Community Service Benefits (Continued)

The costs incurred for charity care are determined by management by taking the charges attributed to charity care and multiplying by a cost-to-charge ratio Net charity care for the years ended June 30, 2014 and 2013, amounted to approximately $ 4,009,628 and $ 3,061,000, respectively, which represents the cost incurred related to charity care with no direct offsetting revenue

In addition to the charity care provided for direct patient care, the Hospital provides services at a loss for the Pennsylvania Medicaid Program The Hospital also provides subsidized health services for programs that respond to identified community needs, including Behavioral Health, Substance Abuse, Skilled Nursing, Maternal Services, and Family Services The cost of these community benefits, including charity care, amounted to approximately $ 17,799,000 and $ 17,761,000 for the years ended June 30, 2014 and 2013, respectively These types of costs include community health improvement services, health professions education, research, in-kind contributions to other community groups, and community building activities

Note 3. Net Patient Service Revenue

Certain members of the System have agreements with third-party payors that provide for payments to the System at amounts different from its established rates A summary of the payment arrangements with major third-party payors follows

- Medicare – Inpatient and outpatient services rendered to Medicare patients are paid at prospective payment rates These rates vary according to a patient classification system that is based on clinical, diagnostic, and other factors
- Medical Assistance – Inpatient acute care, psychiatric care, and outpatient services rendered to Medical Assistance patients are paid at prospectively determined rates The System's classification of patients under the Medical Assistance program and the appropriateness of their admission are subject to an independent review by the utilization review committee
- Blue Cross – Inpatient and outpatient services rendered to Blue Cross subscribers are reimbursed at prospectively determined rates
-

Certain members of the System have also entered into payment agreements with certain commercial insurance carriers, health maintenance organizations, and preferred provider organizations The basis for payment to the System under these agreements includes prospectively determined daily rates and discounts from established charges

A summary of gross and net patient service revenue for the years ended June 30 is as follows

	2014	2013
Gross patient service revenue	**$ 1,020,762,936**	$ 917,376,106
Contractual adjustments under third-party reimbursement programs and other deductions	**(749,416,146)**	(666,073,858)
Net patient service revenue	**$ 271,346,790**	$ 251,302,248

Note 3. Net Patient Service Revenue (Continued)

The System recognizes patient service revenue associated with services provided to patients who have third-party payor coverage on the basis of contractual rates for the services rendered For uninsured patients who do not qualify for charity care, the System recognizes revenue on the basis of undiscounted rates as provided by its policy On the basis of historical experience, a significant portion of the System's uninsured patients will be unable or unwilling to pay for the services provided Thus, the System records a significant provision for bad debts related to uninsured patients in the period the services are provided Patient service revenue, net of contractual allowances and discounts (but before the provision for bad debts), recognized in the period from these major payor sources, is as follows

	June 30, 2014		
	Third-Party Payors	**Self-pay**	**Total All Payors**
Patient service revenue (net of contractual allowances and discounts)	**$ 263,690,131**	**$ 7,656,659**	**$ 271,346,790**

	June 30, 2013		
	Third-Party Payors	Self-pay	Total All Payors
Patient service revenue (net of contractual allowances and discounts)	$ 244,537,825	$ 6,764,423	$ 251,302,248

The System grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements The mix of net receivables from patients and third-party payors as of June 30 is as follows

	2014	2013
Medicare	**35 %**	41 %
Other	**24**	21
Self-Pay	**15**	15
Blue Cross	**17**	14
Medical Assistance	**9**	9
	100 %	100 %

Revenue from the Medicare program accounted for approximately 46% and 47% of the System's net patient revenue for the years ended June 30, 2014 and 2013, respectively, while the Medical Assistance program accounted for approximately 7% of the System's net patient revenue for each of the years ended June 30, 2014 and 2013 Laws and regulations governing the Medicare and Medical Assistance programs are extremely complex and subject to interpretation As a result, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term

Note 4. Investment Income

Investment income and gains and losses for assets limited as to use and investments are comprised of the following for the years ended June 30

	2014	2013
Other non-operating income		
Interest and dividend income	**$ 542,529**	$ 675,289
Other changes in unrestricted net assets		
Unrealized gain (loss) on investments	**293,234**	(130,867)
Total investment income	**$ 835,763**	$ 544,422

Note 5. Fair Value of Financial Instruments

Authoritative guidance regarding *Fair Value Measurements* establishes a framework for measuring fair value This guidance defines fair value, establishes a framework and hierarchy for measuring fair value, and outlines the related disclosure requirements The guidance indicates that a fair value measurement assumes that the transaction to sell an asset or transfer a liability occurs in the principal market for the asset or liability based upon an exit price model The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I measurements) and the lowest priority to unobservable inputs (Level III measurements)

Financial assets recorded on the consolidated balance sheets are categorized based on the inputs to the valuation techniques as follows

Level I Quoted prices in active markets for identical assets or liabilities Level I assets and liabilities include debt and equity securities and derivative contracts that are traded in an active exchange market

Level II Observable inputs other than Level I prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities Level II assets and liabilities include debt securities with quoted prices that are traded less frequently than exchange-traded instruments or derivative contracts whose value is determined using a pricing model with inputs that are observable in the market or can be derived principally from or corroborated by observable market data

Level III Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities

The following methods were used by the System in estimating the fair value of its financial instruments There have been no changes in the methodologies used as of June 30, 2014 or 2013

Cash and cash equivalents The carrying amounts reported on the consolidated balance sheets for cash and cash equivalents approximate its fair value

Certificates of deposit Amortized cost plus accrued interest approximates fair value

Fixed income and equity mutual funds Fair values, which are amounts reported on the consolidated balance sheets, are based on quoted market prices

Government, municipal, and corporate bonds Fair values, which are amounts reported on the consolidated balance sheets, are based on quoted market prices

Note 5. Fair Value of Financial Instruments (Continued)

The carrying amounts and fair values of the System's financial instruments as of June 30 are as follows

	2014		2013	
	Carrying Amount	**Fair Value**	Carrying Amount	Fair Value
Cash and cash equivalents	**$ 54,868,211**	**$ 54,868,211**	$ 35,544,850	$ 35,544,850

Long-term debt, net	**$ 128,751,631**	$ 129,693,655

The scheduled principal repayments for long-term debt as of June 30, 2014, are as follows

Years Ending June 30:	
2015	$ 2,780,991
2016	2,711,259
2017	632,333
2018	3,334,363
2019	3,156,999
Thereafter	119,876,383
	$ 132,492,328

Variable Rate Hospital Revenue Bonds, Series 2009A In April 2009, $ 50,000,000 of Variable Rate Hospital Revenue Bonds, Series 2009A (2009A Bonds) were issued by the Butler County Hospital Authority (Authority) under the terms of a Master Trust Indenture dated as of September 15, 1986, as amended and supplemented The proceeds were used to finance a portion of the cost of the Hospital's expansion project, including the expansion of the main Hospital facility, investment in off-site facilities to support outpatient services, and investment in information technology (Expansion Project) The proceeds were also used to fund a debt service reserve fund and pay the costs of the bonds issuance

The 2009A Bonds initially bore interest at a weekly rate, not to exceed 12%, determined by a remarketing agent to be the lowest interest rate necessary which would allow for the sale of the bonds at par, taking into consideration prevailing financial market conditions The trust indenture also provided for the option to convert the bonds to a term rate, as calculated at specified conversion dates throughout the term of the bonds, not to exceed 8% On June 29, 2010, the trust indenture was amended to allow for conversion of the interest calculation to a Bank-Bought Interest Rate, as defined in the amended Master Trust Indenture The interest rate was 1 34% as of June 30, 2014 Scheduled principal payments commence July 1, 2017, and are due each year through 2039 The bonds are secured by pledged revenues

Note 7. Long-Term Debt (Continued)

Hospital Revenue Bonds, Series 2009B In April 2009, $ 75,990,000 of Hospital Revenue Bonds, Series 2009B (2009B Bonds) were also issued by the Authority under the terms of a Master Trust Indenture dated as of September 15, 1986, as amended and supplemented The proceeds were used to finance a portion of the Expansion Project, fund a debt service reserve fund, and pay the costs of the bonds issuance

The interest rate on the 2009B Bonds was 5 38% as of June 30, 2014 Scheduled principal payments commence July 1, 2017, and are due each year through 2039

Variable Rate Hospital Revenue Bonds, Series 2010A In June 2010, $ 12,165,000 of Hospital Revenue Bonds, Series 2010A (2010A Bonds) were issued by the Authority under the terms of a Master Trust Indenture dated as of September 15, 1986, as amended and supplemented The proceeds were used to finance a portion of the Expansion Project and pay the costs of the bond issuance

The 2010A Bonds bear interest at a Bank-Bought Interest Rate, as defined in the amended Master Trust Indenture The interest rate was 1 34% as of June 30, 2014 Scheduled principal payments commenced August 1, 2010, and are due each year through 2017

The Butler Health System Obligated Group (Obligated Group) consists of Butler Health System, BMH, BMP, and Nixsar All members of the Obligated Group are jointly and severally liable for all outstanding obligations of the Obligated Group

The Master Trust Indentures contain various financial and other covenants The Obligated Group is required to maintain certain financial ratios including minimum days cash on hand, a minimum debt service coverage ratio, and a minimum debt-to-capitalization ratio

Note 8. Operating Leases

The System has various non-cancelable operating lease agreements expiring through fiscal 2017 Expense associated with these operating lease agreements amounted to $ 1,504,649 and $ 1,710,462 for the years ended June 30, 2014 and 2013, respectively The following is a schedule by year of future minimum lease payments under operating leases as of June 30, 2014, that have initial or remaining lease terms in excess of one year

Years Ending June 30:	
2015	$ 1,174,674
2016	1,007,674
2017	326,599
	$ 2,508,947

Note 9. Pension Plans

The Hospital maintains three noncontributory defined benefit pension plans (Plan) covering substantially all employees The benefits are based on the participant's number of years of service and the employee's compensation The Hospital's funding policy is to contribute an amount annually that satisfies at least the minimum funding requirements of the Employee Retirement Income Security Act of 1974

Note 9. Pension Plans (Continued)

The following table sets forth the benefit obligation, fair value of Plan assets, and the funded status of the Hospital's Plan amounts recognized in the consolidated financial statements as of and for the years ended June 30

To develop the expected long-term rate of return on assets assumption, the Hospital considered the current level of expected returns on risk-free investments (primarily government bonds), the historical level of the risk premium associated with the other asset classes in which the portfolio is invested, and the expectations for future returns of each asset class The expected return for each asset class was then weighted based on the target asset allocation to develop the expected long-term rate of return on assets assumption for the portfolio

The Plan's weighted-average asset allocations by asset category are as follows as of June 30

	Target Allocation	2014	2013
Equity securities	48% - 68%	**48%**	60%
Debt securities	27% - 47%	**42%**	34%
Other	0% - 10%	**10%**	6%

Other Plan investments include the SEI Opportunities Collective Fund (Fund), a non-readily marketable collective trust fund held by the Plan The significant investment strategy of the Fund is investing in private investments The Plan's investment in the Fund is subject to a one-year lockup upon initial investment and is generally redeemable on a quarterly basis given a 65-day notice, at which time quarterly distributions may be taken, subject to a 10% holdback At this time, there is no intention of the Fund to liquidate There are no unfunded commitments relating to the Fund as of June 30, 2014 or 2013

The Plan assets are invested in separately managed portfolios using investment management firms The Plan's objective is to maximize total return without assuming undue risk exposure The Plan maintains a well-diversified asset allocation that best meets these objectives Plan assets are largely comprised of equity mutual funds, which include companies with all market capitalization sizes Fixed income mutual funds include both short-term and intermediate maturities Investments in derivative securities are not permitted for the sole purpose of speculating on the direction of market interest rates

In each investment account, investment managers are responsible to monitor and react to economic indicators, such as GDP, CPI, and the Federal Monetary Policy, that may affect the performance of their account The performance of all managers and the aggregate asset allocation are reviewed on a quarterly basis

The following table sets forth the components of net periodic pension cost for the years ended June 30

	2014	2013

The Hospital expects to make contributions of approximately $ 5,832,000 to the Plan in 2015

Note 9. Pension Plans (Continued)

The assumptions used in determining the actuarial present value of the projected benefit obligation as of June 30 are as follows

	2014	2013
Discount rate	**4.33%**	4 87%
Rates of compensation increase	**3.00%**	3 00%

The assumptions used to determine the net periodic benefit cost as of June 30 are as follows

	2014	2013
Discount rate	**4.87%**	4 53%
Rates of compensation increase	**3.00%**	3 25%
Expected return on assets	**8.25%**	8 25%

The benefit payments which reflect expected future services as of June 30, 2014, as appropriate, are expected to be paid as follows

Years Ending June 30:	
2015	$ 4,301,356
2016	3,720,527
2017	5,193,595
2018	5,415,618
2019	5,179,414
2020 - 2024	38,844,294

During the years ended June 30, 2014 and 2013, the System recognized $ 2,012,446 and $ 9,675,002, respectively, related to the accumulated liability for pension benefits on the consolidated statements of operations These amounts represent the change in funded status, adjusted for employer contributions and net periodic pension cost

Note 10. Self-Insurance Plans

The System provides for workers' compensation costs through a program of self-insurance supplemented by purchased excess liability coverage Estimated self-insurance costs are accrued based upon data provided by the third-party administrator of the program and historical claims experience The liability for workers' compensation was approximately $ 920,000 and $ 1,067,000 as of June 30, 2014 and 2013, respectively, and is included in accrued expenses on the accompanying consolidated balance sheets The discount rate used in determining these liabilities was 3 5% and 3 25% as of June 30, 2014 and 2013, respectively

The System also self-insures its employee health insurance coverage and supplements it with excess liability coverage The Hospital accrues the estimated costs of incurred and reported and incurred and unreported claims, after consideration of its stop-loss insurance coverages, based upon data provided by the third-party administrator of the program and its historical claims experience The liability for employee health insurance was approximately $ 770,000 and $ 732,000 as of June 30, 2014 and 2013, respectively, and is included in accrued expenses on the accompanying consolidated balance sheets

Note 11. Medical Malpractice Claims Coverage

As of June 30, 2013, the Hospital's medical malpractice insurance coverage is provided under the provisions of the following insurance arrangements

Primary coverage – Primary coverage is provided under the terms of an insurance contract which covers losses, if any, which are reported during the period the contract is in force, "claims-made coverage," subject to the per occurrence and aggregate limits of such contract, which are $ 500,000 and $ 2,500,000, respectively

MCARE Fund coverage – The Pennsylvania Medical Care Availability and Reduction of Error Fund (MCARE Fund) provides excess coverage per the Pennsylvania law governing the MCARE Fund Pursuant to the per occurrence and aggregate limits set forth in the controlling Pennsylvania statutes, the MCARE Fund provides coverage for losses in excess of the primary coverage that was in effect on the date of the incident The cost of MCARE Fund coverage is recognized as expense in the period incurred Increases in the annual surcharges and concerns over the MCARE Fund's ability to manage and pay claims continues to result in proposals to reform or restructure the MCARE Fund The Hospital will be required to purchase additional primary insurance to take the place of the MCARE Fund coverage if it is reduced Depending upon the ultimate resolution of this matter, the Hospital may incur additional insurance costs

Excess coverage – The Hospital has excess liability insurance contracts which insures against losses in excess of the above coverages reported during the period of policy coverage

The primary and excess coverages are provided by Community Hospital Alternative for Risk Transfer (CHART), a reciprocal risk retention group, which is a form of a captive insurance company CHART was formed in April 2002 to provide liability insurance, reinsurance, and risk management services for its subscribers

The Hospital's estimated medical malpractice claims liability for incurred but not reported claims was approximately $ 607,000 and $ 812,000 as of June 30, 2014 and 2013, respectively, and is included in accrued expenses on the accompanying consolidated balance sheets It is reasonably possible that the estimates could change materially in the near term

The System believes it has adequate insurance coverage for all asserted claims and it has no knowledge of unasserted claims which would exceed its insurance coverage

Note 12. Investments in and Loans to Affiliates

Investments in and loans to affiliates include the Hospital's investments in entities in which the Hospital has a financial interest The Hospital applies the equity method of accounting for investments in which significant influence over operating and financial policies of the investee exists even though the Hospital has less than 50% ownership Investments recorded on the equity method are adjusted for the Hospital's proportionate share of undistributed earnings or losses and these amounts are included in other income on the accompanying consolidated statements of operations
