Form and Line Reference	Explanation
Schedule H, Part VI, Line 1	Provide the description required for Part I, lines 3c, 6a, 7g, 7, column (f), 7, Part II, Part III, lines 2, 3, 4, 8, 9b Part I, line 3c Assets will be considered along with the patients income to determine eligibility for the Financial Assistance Program To be eligible, reportable assets may not exceed \$15,000 for a household of one (1), or \$25,000 for a household of two (2) or more Assets may include, but are not limited to, such items as checking and savings accounts, IRAs, 401(k)s, value of additional cars that exceed the number of working members in the household, equity in recreational vehicles and additional property, etc Part I, line 6a Essentia Health West's community benefit information is consolidated into the Essentia Health community benefit information which is included in the Essentia Health annual report The annual report is made available to the public at http://www.essentiahealth.org/Main/Annual-Report.aspx Essentia Health, headquartered in Duluth, Minn., is an integrated health system serving patients in Minnesota, Wisconsin, North Dakota and Idaho and is Essentia Health West's parent corporation Part 1, line 7g Not applicable Part I, line 7, column (f) Bad debt expense that was subtracted from total expense to obtain the % of community benefit to total expense amounted to \$26,536,766 Part I, line 7 The cost to charge ratio derived from Worksheet 2, Ratio of Patient Care Cost-to-Charges was used to calculate the costs for the following community benefits Charity Care and Unreimbursed Medicaid Actual costs were used for the remainder of the community benefits reported Part II Not applicable, no community building activities Part III, Line 2 Discounts, charity care, and bad debt expense are accounted for as reductions to revenue Bad debt expense on patient accounts would be identified as any balance on the account, less any previous payments and discounts, that has aged and is absent of any payments If, during the collection process, it becomes known that the patient qualifies for charity care, the amounts included within bad debt expense would be reclassified to charity care PART III, LINE 3 Essentia Health West is a part of a larger organization, Essentia Health Essentia Health and its member organizations incorporate the cost of bad debt as a community benefit As a tax exempt hospital, we must provide the necessary services regardless of the patient's ability to pay for that care In doing so, Essentia Health makes quality patient care available to all in our community, regardless of their economic means Part III, Line 3 Essentia Health West provides both full and partial charity care through its traditional application process Full charity care is a complete write-off of eligible gross hospital and clinic charges while "partial" is a portion of eligible charges Each are determined respectively based on the patient's income in relation to the Federal Poverty Guidelines Essentia Health also recognizes that it is not feasible, or sometimes necessary, for all patients to complete financial assistance applications and provide documentation required through the traditional process Essentia Health West implemented an alternative documentation and presumptive process using a tool that identifies accounts that automatically qualify for charity care and reclassified those accounts to charity care allowance As a result, we estimate \$0 of patient accounts written off to bad debt would qualify for charity care Part III, Line 4 Page 12 of the audit contains the footnote describing the organizations bad debt expense Part III, line 8 The methodology used in determining the reported Medicare Allowable Cost begins with the hospital's general ledger system The costs are obtained from the general ledger and then adjusted and reported in accordance with Centers for Medicare Services (CMS) "cost finding" guidelines as published in their Provider Reimbursement Manual Once the Medicare allowable costs are determined from the hospital's cost report, any costs attributed to subsidized health services, and Medical Education, are removed and reported separately Part III, Line 8 Each Essentia Health hospital is required to file a Medicare cost report 5 months after the close of their fiscal year The cost report provides Medicare with information that is used to determine utilization and spending trends but also is used to set future payment rates for most Medicare services If the interim payments paid to a hospital are higher or lower than the filed cost report allowable reimbursement there will be a settlement for that fiscal year This can be due to changes in utilization or cost of providing services for Critical Access Hospitals (CAH) or differences between interim and final payment factors for Disproportionate Share, Bad Debts, or Indirect Medical Education for non-CAH hospitals An estimate for these settlements is recorded at the close of the fiscal year If the estimate varies f

Form and Line Reference	Explanation
Schedule H, Part VI, Line 1	rom the final settlement received 6-7 months after the fiscal year ends then these amounts are recorded as prior year Medicare revenue Part III, Line 8 Essentia Health West is a part of a larger organization, Essentia Health Essentia Health and its member organization s incorporate the full value of the Medicare shortfall as a community benefit The rationale for the organization's opinion is providing care for the elderly and serving Medicare patients is an essential part of the community benefit standard Medicare, like Medicaid, does not pay the full cost of care and it is likely to get worse Many Medicare beneficiaries are poor and are eligible for Medicaid in addition to Medicare Medicare underpayment must be shouldered by the hospital in order to continue treating the community's elderly and poor These underpayments represent a real cost of serving the community Part III, line 9b The policies and procedures for internal and external collection practices take into account the extent to which the patient qualifies for the Financial Assistance Policy (FAP) and financial assistance, a patient's good faith effort to apply for a governmental program or for financial assistance from Essentia Health West and the patient's good faith effort to comply with his/her payment agreements Essentia Health West offers extended payment plans to eligible patients and will not impose liens on primary residences nor will we report patients to a credit rating agency for outstanding patient bills Essentia Health West will not charge a patient gross amount of charges for any uninsured treatment Uninsured discounts will be applied to the gross charges prior to any FAP or other discounts At any time Essentia Health West recognizes that a patient may be eligible for State or Federal programs, a representative will assist the patient in obtaining information about those programs or provide contact information for those programs Essentia Health West contracts with an outside patient advocacy agency, which may provide assistance to the uninsured patient in applying to certain State and Federal programs At any stage of the patient experience and up through the collection process, the patient may express a concern that they are unable to pay their bill in full or meet the payment plan requirements At that time, the patient will be given every opportunity to complete and submit an application for financial assistance Essentia Health West trains its outside debt collection agencies and attorneys about the Financial Assistance Policy and how a patient may obtain more information about the FAP or submit an application for financial assistance Essentia Health West requires its outside collection agencies and attorneys to refer patients who may be eligible for financial assistance to Essentia Health West If a patient has submitted an application for financial assistance after an account has been referred for collection activity, Essentia Health West and its outside debt collection agencies suspend all collection activity until the patient's financial assistance application has been processed and Essentia Health West has notified the patient of its decision

Form and Line Reference	Explanation
Part VI, line 2	Needs assessment Describe how the organization assesses the health care needs of the communities it serves, in addition to any needs assessments reported in Part V, Section B We assess and respond to the health care needs of the communities we serve through many ways including the following One approach is through planned interaction with various community health and social welfare groups This includes gathering their perspective on community needs and rolling that information into a set of priorities Action plans are then prepared and implemented Most recently, the focus is diabetes prevention A second approach is through health data research, analysis, and formulation of response actions This public health information is available both publicly and through proprietary sources as to how the population health of our communities compares across the United States We are able to utilize this information to focus our efforts to improve health in the designated areas Most recently this has created a focus on eleven (11) primary care quality factors that are known to improve health In addition, we have created focus on hospital readmission A third approach is through health data provided by various payor organizations, namely government and commercial health insurers This health data typically includes medical treatment and outcomes that reflect trends of unhealthy lifestyles and behaviors Our objective is to understand these relationships and to develop action steps to intervene on the front end to prevent such medical situations from occurring Examples include smoking cessation, health lifestyle (diet and exercise) and use of seat belt/auto safety education A fourth approach is through our various medical specialties Most of our medical specialties do market research on a regular basis to determine how we might better serve our community population We then prioritize those needs and try to address missing medical areas A recent example was in our neuroscience medical specialty we determined there was an apparent under serving of stroke patients in our regional area We subsequently were able to establish endovascular neurosurgery and interventional neurology services including a support team that has achieved primary stroke certification along with educating numerous groups as to current assessment and treatment of stroke This has resulted in a measurable increase both in timely stroke treatment and patient outcomes A fifth approach is through our own patients, both through formal surveys and by including patients on many of our committees An example was feedback on how to provide a better scheduling process Another example was a voice in the design of our current hospital construction The combination has led us to start a formal Patient Advisory Committee A sixth approach is through our own internal data including patient activity and outcomes We have a formal and structured internal process by which to review data and determine if improvement is in order and, if so, how to do so One such example has been with orthopedic total joint care In comparison to national best practices, we felt hospital length of stay could be lowered and patient satisfaction could be increased In a rigorous effort to align with national best practice we have done exactly that A seventh approach is to partner with community health care organizations so as to provide more focused effort and not duplicate resource service investments Recent examples have included working partnerships with area long term care facilities on providing better care transitions This has resulted in better immediate care to the patient in their new site of care and has reduced the rate of hospital readmissions An eighth approach is through our Essentia Health Regional Foundation (EHRF) The EHRF is approached by a variety of constituents to provide seed support for the care of some very vulnerable patient populations We are able to support addressing those community challenges One focus is the neonatal intensive care where we have been able to address community care needs at this critical juncture in a newborn's life A second focus is cancer care where we are able to address patient care needs at a very fragile time Both of these enable patients and their families to receive excellent care in their community

Form and Line Reference	Explanation
Part VI, line 3	Describe how the organization informs and educates patients and persons who may be billed for patient care about their eligibility for assistance under federal, state, or local government programs or under the organization's Financial Assistance policy. Essentia Health West makes information on its Financial Assistance Policy (FAP) readily available to the patient. Information about financial assistance programs is available on the Essentia Health (parent company) website (www.essentiahealth.org) where the Information and application is easily accessible to be viewed, downloaded and printed at no charge to the patient. Notices on the availability of financial assistance are conspicuously posted in emergency room departments. Financial assistance information is available during the pre-admission financial screening, at the time of registration and prior to a hospital discharge. Information about the FAP is in all collection letters and patient statements. FAP information and/or applications are made available to appropriate community health services agencies and other organizations that assist people in need. Essentia Health West educates staff members who work closely with patients providing direct patient treatment and who work in admissions, billing and collections, about the existence of the FAP and how a patient may obtain more information. Annual education/awareness of the FAP is provided to ensure all employees with patient contact are aware of the program and how patients can obtain additional information. Clinical and hospital staff who provide direct patient care have knowledge of the FAP and know to direct patients to a Registration Interviewer or Business Office Representative. Registration staff have an understanding of the policy, knowledge of where the related documents are located and where to direct the patient for more information on the FAP. Designated employees (Financial Counselors, Patient Accounts Representatives) have a thorough understanding of the FAP and offer the information on the FAP to those patients who make an inquiry about the program or are determined through a financial screening that the patient may be eligible for this program. Patient advocacy services also inform the patient about the availability of assistance. A request for financial assistance may be made by the patient, a patient's guarantor, a family member, close friend, or associate of the patient, subject to applicable privacy laws. Essentia Health West responds to any oral or written requests for more general information on the FAP made by a patient or any interested party.

Form and Line Reference	Explanation
Part VI, line 5	Provide any other information important to describing how the organizations hospitals or other health care facilities further its exempt purpose by promoting the health of the community Many physicians, staff and senior administration of Essentia Health West serve on local boards/committees and donate their services free of charge or at a discounted rate The Essentia Health West Board of Directors is comprised of 6 volunteer local members of the community Essentia Health West serves, 6 Essentia Health West physicians and 2 members from outside the area Essentia Health West has an open Medical Staff, so any qualified physician of the community is allowed to apply All applicants that apply must meet the credentialing standards and be approved by our governing board in order to come and provide services in our system In addition, Essentia Health West provides on-site clinical experiences for medical students, nurses, therapists, technicians, and other health care vocations Any surplus funds at Essentia Health West have historically been redirected back to our Capital Committee for allocation to pre-identified areas of need such as expansion and equipment needs Examples of such projects include the building of a new Medical/Surgical wing, and expansion of the online medical record system to our regional locations Essentia Health West is active in community fundraising and sponsorship of events that promote healthy lifestyles and healthy communities Surplus supplies are often donated to charities in need and different service lines are offered to the general public at no cost, i e Tender Transitions, Diabetes Support Group, Gastric Bypass Support Groups Essentia Health West participates in clinical trials and other medical research activities and provides a large variety of health education to numerous groups Essentia Health West is a part of Essentia Health, a fully integrated health system with facilities in Minnesota, Wisconsin, North Dakota and Idaho As a non-profit organization, Essentia Health reinvests surplus revenues into medical training, programs and technology that improve patient care Essentia provides services predominantly in rural communities and is committed to eliminating geographic barriers to care We strive to provide high-quality, patient-centered care close to home for the communities we serve We continue to upgrade facilities and technology, such as MRIs, CT scanners and surgery suites, to ensure patients in rural communities have nearby access to these services In addition, we have embarked on several major construction projects, which include a new \$50 million wing for our Fargo hospital Essentia Health was one of the first Accountable Care Organizations in the country to receive the highest level of accreditation from the National Committee for Quality Assurance (NCQA) As an ACO, Essentia is committed to meeting the Triple Aim of improving care and population health, while reducing the overall costs for patients and society as a whole The formation of our ACO, along with ongoing management and process improvement, represents a significant investment for Essentia Since a majority of healthcare costs are directly related to caring for patients who have chronic conditions, Essentia has developed medical homes, which are designed to improve health outcomes for patients, especially those with chronic diseases Much of this work is not fully reimbursed by state or federal programs Essentia supports the health of our communities through active research and clinical trials through the Essentia Institute of Rural Health The Institute conducts clinical, translational and health services research with a primary focus on the needs of rural Americans Various Essentia Health organizations contributed approximately \$4.25 million in support to the Institute during the past year The Essentia Institute of Rural Health also coordinates our community health needs assessment program Across our system, Essentia offers community members the opportunity to take part in a National Diabetes Prevention Program, which was designed by the Centers for Disease Control and Prevention Participants receive the year-long program at no cost, and learn valuable information and skills for making important lifestyle changes These new healthy habits help participants lose weight and become more active, which is vital in the prevention of diabetes and other chronic diseases

Form and Line Reference	Explanation
Part VI, line 6	IF THE ORGANIZATION IS PART OF AN AFFILIATED HEALTH CARE SYSTEM, DESCRIBE THE RESPECTIVE ROLES OF THE ORGANIZATION AND ITS AFFILIATES IN PROMOTING THE HEALTH OF THE COMMUNITIES SERVED Essentia Health West is part of Essentia Health, an integrated health system with 16 hospitals, 66 clinics, eight long-term care facilities, two assisted living facilities, five independent living facilities, five ambulance services and one research institute in four states - Minnesota, Wisconsin, North Dakota and Idaho. The health system serves a predominantly rural population whose median incomes generally fall below averages of the states where they live. The presence of our clinics and hospitals ensures that people with few economic resources don't have to drive an hour or more to receive basic (and in some cases life-saving) medical care. In addition to staffing hospitals and clinics in federally recognized underserved areas, we support the health of our communities through an active outreach program that brings specialists like oncologists, cardiologists, neurologists and others into our smaller communities. This eliminates barriers to care for many patients, particularly those who are elderly, living on low incomes, or faced with other challenges that make it difficult to travel long distances for care. Our size and integrated structure allow us to offer patients services often found only in larger urban settings. Services ranging from chemotherapy to congestive heart failure management and hospice are available to patients in many of the rural communities we serve. Essentia Health also supports the health of our rural communities through active research and clinical trials by the Essentia Institute of Rural Health. The Institute conducts clinical, translational and health services research with a primary focus on the needs of rural Americans. Essentia Health is also serving patients through the use of our electronic health record (EHR). The vast majority of Essentia's hospitals and clinics are using a fully-integrated EHR for patient care. Technology like the electronic health record and Essentia's telehealth program allows health clinicians to share test results and consult with colleagues in real time across great distances. Medical information is no longer lost in the shuffle of paper records - an important consideration in a region where patients must often be transferred to a larger Essentia facility for complex surgeries or medical care. Essentia is also actively working with government agencies and insurers to develop innovative and cost-effective approaches to care that will improve health outcomes while reducing overall costs to patients and insurers. This innovation can be found in our use of remote home monitors for patients with congestive heart failure and our focus on using a team-based approach to helping patients manage chronic diseases. Essentia Health is committed to helping patients and their families lead active and fulfilling lives in the small and large communities where they live. We hope to become a model of healthcare delivery, particularly in rural areas, in the years to come.

Form 990, Part VI, Line 12c	Monitoring and enforcing Conflict of Interest policy. Essentia Health's comprehensive conflict of interest program prevents, detects and resolves actual conflicts of interests or the actual or potential appearance of such. Fiduciaries, defined as an Essentia Health board member/trustee, officer, board committee member, senior management employee, or any others considered to be in a position of influence, are covered under Essentia's conflict of interest program. Upon initial appointment, each fiduciary must complete an initial conflict of interest statement and disclosure questionnaire. At the conclusion of each fiscal year, each fiduciary must complete an annual conflict of interest statement and disclosure questionnaire. As needed, a fiduciary will update his/her most recently completed questionnaire each time the fiduciary becomes aware of a financial interest, a potential conflict, or change to any information that the fiduciary previously reported. Essentia Health's Chief Compliance Officer will collect the questionnaires and evaluate the disclosures. If a fiduciary has a potential conflict of interest, the Chief Compliance Officer or designee may request additional information from the fiduciary, the management team, and others. During the evaluation process, the Chief Compliance Officer may also consult with Essentia Health's Board and Audit Committee Chairs, senior management, legal department, or appropriate representatives from Essentia Health. The Chief Compliance Officer reports to the Essentia Health Audit Committee and the Essentia Health Board of Directors any actual or potential conflicts of interest disclosed by the fiduciary, along with recommended actions. The Essentia Health Board of Directors (or designee) will then determine whether to approve the situation or to implement special controls to manage the potential conflict of interest. The Chief Compliance Officer will then officially notify the fiduciary in writing of the board's decision. The decision of whether or not the disclosure constitutes a conflict will be at the Essentia Health Board of Director's (or designee) sole discretion, and its concern must be the welfare of Essentia Health and its affiliate(s) and the advancement of its purposes. When the Essentia Health Board of Directors (or designee) considers a Fiduciary's disclosure as a Conflict of Interest, special controls will be identified to manage, eliminate or reduce the likelihood and/or appearance of a conflict arising. Controls may include, but are not limited to: A. If the conflict involves an on-going matter or relationship, the Fiduciary must not participate in Board, Board committee or management discussions related to the conflict and must recuse themselves and if appropriate, withdraw, from any Board meeting or portion thereof where the matter is being discussed and during the vote on the potential Conflict of Interest. The Fiduciary may answer questions at the Board's or the Board Committee's request. B. If the conflict involves a specific transaction or decision, the Fiduciary will fully disclose their interest and all related material facts. The Board or committee of the Board will determine whether the contemplated transaction may be authorized as just, fair, and reasonable to Essentia Health or its affiliate(s). If the Board determines a conflict does not exist, the Fiduciary may proceed with the transaction, however, he or she will not be eligible to vote on related issues should they arise. If the Board determines a conflict does exist, the Fiduciary will be notified of the decision regarding whether the contemplated transaction will be authorized as just, fair, and reasonable.

Report of Independent Auditors

The Board of Directors
Essentia Health

We have audited the accompanying consolidated financial statements of Essentia Health, which comprise the consolidated balance sheets as of June 30, 2014 and 2013, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U S generally accepted accounting principles, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits We conducted our audits in accordance with auditing standards generally accepted in the United States Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control Accordingly, we express no such opinion An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Essentia Health at June 30, 2014 and 2013, and the consolidated results of its operations and changes in net assets and its cash flows for the years then ended, in conformity with U S generally accepted accounting principles

Essentia Health

Notes to Consolidated Financial Statements *(Dollars in Thousands)*

June 30, 2014

1. Organization

Essentia Health (Essentia), a Minnesota nonprofit corporation headquartered in Duluth, Minnesota, is the parent of an integrated health system serving patients in Minnesota, Wisconsin, North Dakota, and Idaho

Essentia is the parent company of the following entities

- St Mary's Duluth Clinic Health System (operating as Essentia Health East (EH East)) in Duluth, Minnesota
- Brainerd Lakes Integrated Health System (operating as Essentia Health Central (EH Central)) in Brainerd, Minnesota
- Innovis Health LLC (operating as Essentia Health West (EH West)) in Fargo, North Dakota
- Critical Access Group (CAG), formerly known as Essentia Community Hospitals & Clinics (ECHC)
- Essentia Institute of Rural Health (EIRH)
- Essentia Health Insurance Services (EHIS), a Cayman-based captive insurance company
- Essentia Health Foundation (EHF), a merger of Innovis Health Foundation, SMDC Foundation, and ECHC Foundation, effective July 1, 2011

Many Essentia entities have adopted an operating name as part of a system-wide rebranding strategy using the Essentia brand

Essentia is a regional leader in the development and advancement of business, clinical, and financial models for the delivery of high-quality and cost-effective health care. Essentia provides integrated health care delivery through its physician group practices, ambulatory and out-patient centers, acute care hospitals (including tertiary referral centers), and community, rural, and critical access hospitals

Essentia has been determined to qualify as a tax-exempt charitable, educational, and scientific organization under Section 501(c)(3) of the Internal Revenue Code (the Code) and also has been determined to be exempt from state income tax under Minnesota Statute 290.05, Subdivision 2

Operating Name	Location
Minnesota Valley Health Center	Le Sueur, Minnesota
Clearwater Valley Hospital and Clinics	Orofino, Idaho
St Mary's Hospital	Cottonwood, Idaho

In September 2012, Essentia affiliated with Deer River Healthcare Center, Inc (Deer River), a nonprofit health care system located in Deer River, Minnesota. Included in Essentia's 2013 consolidated statement of operations and changes in net assets is the gain on affiliation (reported as a non-operating gain) and Deer River's results of operations subsequent to the date of affiliation. Deer River's assets and liabilities are included at fair value as of the date of affiliation in Essentia's consolidated balance sheet.

In addition to their membership rights, Essentia and Benedictine Sisters Benevolent Association (BSBA), a sponsor of Essentia's Catholic hospitals, have retained various reserved powers over Essentia's hospitals.

Essentia's investments in joint ventures and related organizations are accounted for under the equity method and recorded in investments and other non-current assets in the consolidated balance sheets as follows:

	June 30	
	2014	2013
Benedictine Health System	\$ 58,533	\$ 58,533

	<u>\$ 87,664</u>	<u>\$ 93,527</u>

Essentia Health

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

1. Organization (continued)

Essentia's share of net income (loss) on its investments in joint ventures and related organizations is included in excess of revenue and gains over expenses and losses in the accompanying consolidated statements of operations and changes in net assets as follows

	Year Ended June 30	
	2014	2013
Other operating revenue	\$ 1,503	\$ 1,084
Non-operating gains, net	3,748	4,590
	<u>\$ 5,251</u>	<u>\$ 5,674</u>

In accordance with a reorganization agreement between Benedictine Health System (BHS) and Essentia effective December 31, 2007, upon any subsequent dissolution or sale of BHS or any of BHS' subsidiaries, Essentia would be entitled to receive the net proceeds of the dissolved or sold entity up to BHS' net asset value as of December 31, 2007. As a result, Essentia has recorded a \$58,533 investment in BHS at June 30, 2014 and 2013.

The following is a summary of the combined operating results and balance sheet information of the joint ventures and related organizations as of and for the years ended June 30

	2014	2013
Total revenue	\$ 437,492	\$ 420,554
Excess of revenue and gains over expenses	18,002	18,081

Net assets	218,592	214,110

2. Summary of Significant Accounting Policies

Basis of Presentation

The consolidated financial statements represent the consolidated financial position, results of operations, and cash flows of Essentia. All significant interaffiliate accounts and transactions have been eliminated in consolidation.

Essentia Health

Notes to Consolidated Financial Statements (continued) *(Dollars in Thousands)*

2. Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with U S generally accepted accounting principles (GAAP) requires management to make estimates and assumptions that affect the amounts reported in these consolidated financial statements and accompanying notes. Estimates also affect the reported amounts of revenue and expenses during the reporting period. Although estimates are considered to be fairly stated at the time that the estimates were made, actual results could differ from those estimates.

Cash and Cash Equivalents

Cash and cash equivalents include currency on hand, demand deposits with banks or other financial institutions, and short-term investments with maturities of 90 days or less from the date of purchase. Cash deposits are federally insured in limited amounts.

Short-Term Investments

Short-term investments are stated at fair value and include corporate bonds and notes with maturities of one year or less from the date of purchase, certificates of deposit, and certain mutual funds. Short-term investments are available to meet Essentia's operating cash requirements.

Accounts Receivable

Accounts receivable are stated at net realizable value. The allowance for uncollectible accounts is based upon management's ongoing assessment of historical and expected net collections for each major payor source considering historical business and economic conditions, trends in health care coverage, and other collection indicators. For receivables associated with services provided to patients who have third-party insurance coverage (including copayment and deductible amounts from patients), Essentia analyzes contractually due amounts and provides an allowance for contractual adjustments and a provision for uncollectible accounts. For receivables associated with private-pay patients, Essentia records a significant provision for uncollectible accounts in the period of service on the basis of its historical experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for which they are financially responsible.

Essentia Health

Notes to Consolidated Financial Statements (continued) *(Dollars in Thousands)*

2. Summary of Significant Accounting Policies (continued)

Essentia follows established guidelines for placing certain past-due patient balances with collection agencies, subject to certain restrictions on collection efforts as determined by Essentia. Accounts are written off when all reasonable internal and external collection efforts have been performed. These adjustments are accrued on an estimated basis and are revised as needed in future periods. The allowance for uncollectible accounts as a percentage of accounts receivable has increased from 29% for the year ended June 30, 2013, to 32% for the year ended June 30, 2014, consistent with industry trends.

Inventories

Inventories, including drugs and supplies, are stated at the lower of cost (principally on the first-in, first-out basis) or market.

Assets Whose Use Is Limited

Assets whose use is limited are composed primarily of investments held for trading, which are stated at fair value, and include assets designated by the Board of Directors (over which the Board retains control and may, at its discretion, subsequently use for other purposes) for future capital improvements and retirement of debt, investments of EHIS, which was formed as a professional liability funding arrangement, assets held by trustees under indenture agreements for construction and debt service payments, and other assets, which consist of donor-restricted assets provided on behalf of certain members of Essentia.

Investment income earned on funds held by the bond trustee is reported as other operating revenue since the interest expense on the related bonds is reported as an operating expense. All other investment income (including realized gains and losses on investments, interest, dividends, declines in value determined to be other than temporary, and net change in unrealized gains and losses on trading securities) is reported as non-operating income, other than changes in unrealized gains and losses on other-than-trading securities that are determined to be temporary, which are reported as other changes in unrestricted net assets. Realized gains and losses are determined using the specific identification method.

Essentia Health

Notes to Consolidated Financial Statements (continued) *(Dollars in Thousands)*

2. Summary of Significant Accounting Policies (continued)

Essentia reviews its other-than-trading securities for impairment conditions, which could indicate that an other-than-temporary decline in market value has occurred. In conducting this review, management considers numerous factors, which include specific information pertaining to an individual company or a particular industry, general market conditions that reflect prospects for the economy as a whole, and the ability and intent to hold the securities until recovery. The carrying value of investments is reduced to its estimated realizable value if a decline in fair value is considered to be other than temporary. Gross unrealized gains from other-than-trading securities at June 30, 2014, were \$112, and gross unrealized losses were \$45. At June 30, 2013, gross unrealized gains from other-than-trading securities were \$122, and there were no gross unrealized losses. Based on management's analysis, no other-than-temporary loss was recognized for the years ended June 30, 2014 and 2013.

Net unrealized gains on trading securities held at June 30, 2014 and 2013, were \$72,228 and \$31,829, respectively.

Derivative Financial Instruments

Essentia uses fixed-payer and basis-swap instruments (see Note 9) as part of a risk management strategy to manage exposure to fluctuations in interest rates and to manage the overall cost of its debt. Derivatives are used to hedge identified and approved exposures and are not used for speculative purposes.

All derivatives are recognized as either assets or liabilities and are measured at fair value. Essentia uses pricing models for various types of derivative instruments that take into account the present value of estimated future cash flows. None of the swaps has been designated as a hedge. Accordingly, all changes in the fair values of the swaps and the net difference between interest received and paid are reported as non-operating gains or losses in the consolidated statements of operations and changes in net assets.

Property and Equipment

Property and equipment are stated at cost, if purchased, or at fair market value on the date received, if donated, less accumulated depreciation and amortization. Depreciation is provided on a straight-line basis over estimated useful lives but not for a term in excess of the associated ground leases, if any.

Essentia Health

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Summary of Significant Accounting Policies (continued)

Maintenance and repairs are charged to expense as incurred. Major improvements that extend the useful life of the related item are capitalized and depreciated. The cost and accumulated depreciation of property and equipment retired or disposed of are removed from the related accounts, and any residual value after considering proceeds is charged or credited to income.

Intangible Assets

Identifiable intangible assets are amortized on a straight-line basis over a range of 15 to 40 years based on the expected useful lives. Deferred financing costs, consisting primarily of underwriting fees and discounts, credit enhancement fees, and legal fees, are amortized using the interest method over the period that the obligation is outstanding.

Asset Impairment

Essentia periodically evaluates whether events and circumstances have occurred that may affect the estimated useful life or recoverability of the net book value of property and equipment and the unamortized excess cost over net assets acquired. If such events or circumstances indicate that the carrying amounts may not be recoverable, an impairment loss is recorded based on an undiscounted cash flow analysis.

Insurance

The provision for estimated self-insured general and professional liability claims includes estimates of the undiscounted ultimate costs for both reported claims and claims incurred but not reported (IBNR). Most of Essentia's members are self-insured for workers' compensation claims, and the estimated liability is discounted.

Costs of Borrowing

Interest incurred on borrowed funds during the period of construction of capital assets is capitalized as a component of the cost of acquiring those assets. For the years ended June 30, 2014 and 2013, capitalized interest totaled \$721 and \$224, respectively.

Essentia Health

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Summary of Significant Accounting Policies (continued)

Charity and Uncompensated Care

Essentia provides health care services to patients who meet certain criteria under its charity care policies without charge or at amounts less than established rates. Since Essentia does not pursue collection of these amounts, they are not reported as revenue.

EHR Incentive Payments

The American Recovery and Reinvestment Act of 2009 provides for Medicare and Medicaid incentive payments beginning in calendar year 2011 for eligible hospitals and professionals that implement and achieve meaningful use of certified electronic health record (EHR) technology. Essentia adopted the gain contingency model to recognize Medicare and Medicaid EHR incentive payments as revenue. EHR incentive payments are recognized as other operating revenue when attestation that the EHR meaningful use criteria for the required period of time has been completed and fully demonstrated.

Essentia recognized EHR revenue of \$15,142 (consisting of Medicare revenue of \$8,771 and Medicaid revenue of \$6,371) and \$14,337 (consisting of Medicare revenue of \$10,036 and Medicaid revenue of \$4,301) for the years ended June 30, 2014 and 2013, respectively, of which \$1,575 and \$1,076 was receivable at June 30, 2014 and 2013, respectively.

Essentia's attestation of compliance with the meaningful use criteria is subject to audit by the federal government or its designee. In addition, Medicare EHR incentive payments received are subject to retrospective adjustment upon final settlement of the applicable cost report from which payment amounts were determined.

Excess of Revenue and Gains Over Expenses and Losses

The consolidated statements of operations and changes in net assets include excess of revenue and gains over expenses and losses. Changes in unrestricted net assets, which are excluded from excess of revenue and gains over expenses and losses, include unrealized gains and losses on other-than-trading securities that are determined to be temporary, and pension and other postretirement liability adjustments.

2. Summary of Significant Accounting Policies (continued)

Donor-Restricted Gifts

Unconditional promises to give cash and other assets to Essentia are reported at fair value at the date the promise is received. Conditional promises and indications of intentions to give are reported at fair value at the date the conditions are met.

Gifts are reported as temporarily restricted net assets if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction is fulfilled, temporarily restricted net assets are reclassified to other operating income or to an increase in unrestricted net assets in the consolidated statements of operations and changes in net assets depending on whether the donor's restriction was for the purchase of property and equipment or for research and education, respectively. Donor-restricted contributions whose restrictions are met within the same year as received are included directly in operating income or in increase in unrestricted net assets in the accompanying consolidated financial statements.

Permanently restricted net assets are held in perpetuity.

Deferred Taxes

Essentia records a valuation allowance for deferred tax assets when it is more likely than not that some portion of the deferred tax assets will not be realized. The ultimate realization of these deferred tax assets depends on the ability of the taxable affiliates to generate sufficient taxable income in the future.

Reclassifications

Certain prior year amounts in the consolidated financial statements have been reclassified to conform to the 2014 presentation. These reclassifications had no effect on the change in net assets or net assets as previously reported.

3. Service to the Community

In the furtherance of its charitable purpose, Essentia provides a wide variety of benefits to the communities it serves, including offering various community-based social service programs, such as free clinics, health screenings, in-home caregiver services, social service and support counseling for patients and families, pastoral care, crisis intervention, transportation to and from the health care campuses, and the donation of space for use by community groups

In addition, a large number of health-related educational programs are provided for the benefit of the community, including health enhancements and wellness, classes on specific medical conditions, unreimbursed costs of medical education, telephone information services, and costs related to programs designed to improve the general health status of the community

Essentia also provides medical care without charge or at a reduced cost primarily through (a) services provided at no charge to the uninsured and (b) services provided to patients expressing a willingness to pay but who are determined to be unable to pay because of socioeconomic factors. The cost of providing charity care is measured by applying an overall cost to charge ratio to the charges incurred. Total cost includes salaries, wages and related benefits, professional fees, supplies, purchased services, repairs and maintenance, and general and administrative expenses. Charity care provided was approximately \$13,349 and \$13,358 for years ended June 30, 2014 and 2013, respectively.

4. Net Patient Revenue

Patient service revenue, net of contractual allowances and discounts (but before bad debt), is reported at the estimated net realizable amounts from patients, third-party payors, and others for services rendered and includes estimated retroactive revenue adjustments due to future audits, reviews, and investigations. Differences between amounts originally recorded and finally settled are included in operations in the year in which the differences become known. Certain reimbursement arrangements are subject to retroactive audits and adjustments.

Essentia Health

Notes to Consolidated Financial Statements (continued) *(Dollars in Thousands)*

4. Net Patient Revenue (continued)

Essentia derives patient revenue primarily from patients covered under the Medicare and Medicaid programs and agreements with commercial insurers and managed care organizations as well as from private-pay patients. The basis for payment under agreements with commercial insurers and managed care organizations includes prospectively determined rates, discounts from established charges, and allowable cost.

Essentia provides care to patients under the Medicare and Medicaid programs and contractual arrangements with other third-party payors. The Medicare and Medicaid programs pay for inpatient and most outpatient services at predetermined rates under a prospective payment system.

Essentia has contracted with Blue Cross and Blue Shield of Minnesota, Wisconsin, and North Dakota (collectively, BCBS) to provide patient care to its members and is reimbursed based on negotiated rates.

Essentia has negotiated “total cost-of-care” payor contracts with various health plan payors. Under these agreements, Essentia receives a portion of the savings achieved in providing care to enrollees who are attributed to Essentia. Attribution to Essentia is based on receiving the majority of care from Essentia providers. Some of the contracts also have incentives related to the quality of care delivered.

Essentia utilizes a process to identify and appeal settlements by Medicare and other payors. Additional reimbursement is recorded in the year the appeal is successful. During the years ended June 30, 2014 and 2013, additional revenue due to successful appeals and cost report settlements amounted to approximately \$9,600 and \$10,100, respectively.

Laws and regulations governing the Medicare and Medicaid programs are extremely complex and subject to interpretation. While management believes that Essentia is in material compliance with fraud and abuse laws and regulations, as well as other applicable government laws and regulations, there is at least a reasonable possibility that recorded estimates will change by a material amount in the near term. Changes in reimbursement from the Medicare program, including reduction of funding levels, could have an adverse effect on Essentia.

	<u>\$ 1,784,748</u>	<u>100%</u>	<u>\$ 1,658,319</u>	<u>100%</u>

Net patient revenue is presented net of Medicare, Medicaid, managed care, and other third-party contractual adjustments of \$1,654,749 and \$1,542,294 for the years ended June 30, 2014 and 2013, respectively

Essentia grants credit without collateral to its patients, most of whom are local residents and are insured under third-party payor agreements. The mix of receivables from patients and third-party payors at June 30 consists of the following

	2014	2013
Medicare	\$ 59,976	\$ 59,744
Medicaid	22,075	22,778
BCBS	41,146	42,277

Essentia invests in certain alternative investments, principally hedge funds and funds of hedge funds. These investments are accounted for using the equity method. At June 30, 2014 and 2013, Essentia's ownership percentage of alternative investments ranged from 0.13% to 6.67% and from 0.03% to 9.00%, respectively. Through these investments, Essentia may be indirectly involved in investment activities such as securities lending, short sales of securities, options, warrants, trading in futures and forward contracts, swap contracts, and other derivative products. Derivatives are used to maintain asset mix or adjust portfolio risk exposure. While these financial instruments may contain varying degrees of risk and have varying degrees of liquidity, mostly ranging from 60 days to 365 days, Essentia's risk is limited to its capital balance in each investment.

5. Investments and Assets Whose Use Is Limited (continued)

Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of certain investments will occur in the near term and that such changes could materially affect the amounts reported in the consolidated financial statements subsequent to year-end

Investment return for the years ended June 30 consists of and was reported in the consolidated statements of operations and changes in net assets as follows

	<u>2014</u>	<u>2013</u>
Dividends and interest	\$ 14,674	\$ 10,450
Net realized gains	31,005	23,454

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants. The disclosure framework consists of a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

Essentia Health

Notes to Consolidated Financial Statements (continued) *(Dollars in Thousands)*

6. Fair Value of Financial Instruments (continued)

Essentia's valuation methodologies for assets and liabilities measured at fair value is as follows

- Fair value for Level 1 is based upon quoted market prices
- Fair value for Level 2 is based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets. Inputs are obtained from various sources, including market participants, dealers, and brokers
- Fair value for Level 3 is based on unobservable market data, primarily credit valuation adjustments (CVAs) for derivative financial instruments. The fair value is determined by an independent third party utilizing a discounted cash flow methodology for valuing derivative financial instruments. The valuations reflect a credit spread adjustment to the London Interbank Offered Rate (LIBOR) swap curve in order to reflect CVAs for non-performance risk. The credit spread adjustment is derived from other comparably rated entities' bonds priced in the market. As of June 30, 2014 and 2013, Essentia's fair value of swaps included a CVA of \$1,827 and \$1,703, respectively

The methods described above may produce a fair value calculation that is not indicative of net realizable value or reflective of future fair values. Furthermore, while Essentia believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date.

Essentia Health

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

6. Fair Value of Financial Instruments (continued)

The following table is a rollforward of the consolidated balance sheet amounts for financial instruments classified by Essentia in Level 3 of the valuation hierarchy

	Swap Liabilities, Net
Fair value at June 30, 2012	\$ (23,876)
Realized and unrealized gain, net on swap agreements included in excess of revenue and gains over expenses and losses	3,949
Settlements	4,099
Fair value at June 30, 2013	(15,828)
Realized and unrealized losses, net on swap agreements included in excess of revenue and gains over expenses and losses	(2,405)
Settlements	921
Fair value at June 30, 2014	<u><u>\$ (17,312)</u></u>

Carrying amounts of cash and cash equivalents, patient accounts receivable, accounts payable, payable to third-party payors and accrued liabilities are reasonable estimates of fair value due to the short-term nature of these financial instruments

Fair value of fixed rate long-term debt (Level 2) is completed by a third party and based on quoted market prices for these issues or, where such prices are not available, the estimated present value of future cash flows, discounted at interest rates available at the reporting date to Essentia for new debt of similar type and remaining maturity. At June 30, 2014 and 2013, the fair value of Essentia's long-term debt was approximately \$619,334 and \$605,800, respectively, compared with its carrying value of \$581,872 and \$578,945, respectively. Fair value of variable rate long-term debt (Level 2) approximated its carrying value at both June 30, 2014 and 2013.

7. Property and Equipment

Property and equipment at June 30 are summarized as follows

	2014	2013
Land and land improvements	\$ 40,276	\$ 38,384
Buildings and building improvements	744,899	724,444
Furniture and equipment	543,238	537,486

	603,092	599,271
Construction-in-progress	38,344	20,596
	\$ 641,436	\$ 619,867

In January 2009, Essentia incurred a financing obligation relating to a building completed and placed into service, resulting from agreements to lease a portion of a medical office building. Since the transaction did not qualify for sale-leaseback treatment, the building is treated as a financing transaction. The completed building cost of \$10,272 at June 30, 2014 and 2013, and the related other long-term liability of \$8,009 and \$8,432 at June 30, 2014 and 2013, respectively, are included in the accompanying consolidated balance sheets.

8. Investments and Other Non-Current Assets

Investments and other non-current assets at June 30 are summarized as follows

	2014	2013
Notes receivable	\$ 5,040	\$ 6,454
Investment in joint ventures and related organizations	87,664	93,527

Essentia's Obligated Group consists of Essentia, CAG, EH East, Essentia Health St. Mary's Medical Center, Essentia Health Duluth, The Duluth Clinic, Ltd., Essentia Health Polinsky Medical Rehabilitation Center, Essentia Health St. Mary's Hospital – Superior, EH Central, Essentia Health St. Joseph's Medical Center, Essentia Health Brainerd Specialty Clinic, Essentia Health St. Mary's – Detroit Lakes, St. Mary's Innovis Health, and EH West.

Certain indebtedness of members of the Obligated Group and related entities is secured by notes issued under the Amended and Restated Master Trust Indenture, dated as of April 1, 1999 (the Master Trust Indenture (MTI)), and related documents, which require Obligated Group members to be jointly and severally obligated for the debt service on all obligations issued thereunder.

Essentia Health

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

9. Long-Term Debt (continued)

All Obligated Group members have pledged certain unrestricted receivables and certain pass-through obligations for payment of long-term indebtedness issued under the MTI. No pass-through obligations were subject to the pledge as of June 30, 2014. Most of the non-Obligated Group's debt is secured by certain assets of the entity that have borrowed the proceeds from the debt issue.

In June 2014, Essentia issued Variable Rate Revenue Bonds, Series 2014 – ND, in the amount of \$11,521. The total amount of the issuance is \$45,000 and will be disbursed as project funds are needed during fiscal year 2015. The bonds are subject to a mandatory tender following an initial period, which ends in July 2019, at which time outstanding principal plus accrued interest becomes due.

In February 2013, Essentia issued non-rated, taxable Senior Secured Notes in the amount of \$159,525. The outstanding Variable Rate Revenue Bonds, Series 2010, in the amount of \$101,305 and certain other revenue bonds totaling \$7,087 were refinanced. As a result of the refinancing, Essentia recorded a non-operating loss of \$454.

In June 2011, Essentia entered into a long-term master revolving line of credit with a bank under which it may borrow up to an aggregate of \$60,000. The annual interest rate is based on LIBOR plus an applicable margin (1.05% at June 30, 2014). The line of credit terminates in June 2017, with the option of extension upon mutual consent of the bank and Essentia. The line of credit is secured by a note issued under the MTI and is an obligation of the Essentia Obligated Group. There was \$463 outstanding on the line of credit as of June 30, 2014.

In March 2011, Essentia issued Revenue Bonds, Series 2011, in the amount of \$25,155. The bonds are subject to semiannual interest-only payments until February 2015, at which time the outstanding principal balance becomes due.

In February 2010, Essentia restructured a portion of the outstanding Variable Rate Demand Revenue Bonds, Series 2008, which included converting \$234,195 of Series 2008A, Series 2008B, and Series 2008C-1 Variable Rate Demand Bonds to fixed rate bonds with annual interest rates ranging from 3.00% to 5.50%.

9. Long-Term Debt (continued)

A portion of the proceeds of various bond issuances and funds available under prior bond indentures that are deemed to be legally defeased have been deposited into escrow accounts and invested in certain U S government obligations, which will be sufficient to pay the principal and interest on refunded bonds

Essentia has a revolving line of credit with a bank under which it may borrow up to an aggregate of \$30,000. There were no outstanding borrowings at June 30, 2014 and 2013.

The aggregate annual maturities of long-term debt, excluding the line of credit, for each of the five years subsequent to June 30, 2014, are as follows:

2015	\$ 21,346
2016	17,890
2017	22,405
2018	17,533
2019	24,862

The MTI contains various covenants, including the requirement for the Essentia Obligated Group to maintain certain financial ratios, limit the incurrence of significant additional indebtedness, and limit transfers to non-Obligated Group members. The proceeds of bonds, which were placed in various trust funds to be used in accordance with the applicable indenture provisions, are as follows at June 30:

	<u>2014</u>	<u>2013</u>
Bond interest, principal, and construction funds	\$ 2,259	\$ 3,108
Debt service reserve funds	3,004	3,902

Certain Essentia derivative instruments contain provisions that require Essentia to post collateral when the net liability of the derivative instruments is greater than predetermined thresholds ranging from \$10,000 to \$20,000. No collateral was required at June 30, 2014 or 2013.

Derivative transactions contain credit risk in the event the parties are unable to meet the terms of the contract, which is generally limited to the fair value due from counterparties on outstanding contracts. At June 30, 2014 and 2013, the counterparty with fair values due to Essentia had a Standard & Poor's credit quality rating ranging from A- to A.

10. Income Taxes

Deferred tax assets at June 30, 2014 and 2013, relate primarily to depreciation along with federal and state net operating loss (NOL) carryovers. As of June 30, 2014, Essentia had federal NOLs of \$4,630 and state NOLs of \$4,630, expiring in varying amounts through 2034. Due to the operating performance of Essentia's taxable subsidiaries, a full valuation allowance of \$2,028 and \$1,894 has been established at June 30, 2014 and 2013, respectively, since it is more likely than not that any of the deferred tax assets will be realized.

The statute of limitations for tax years ended June 30, 2011 through June 30, 2014, remains open to examination by the major U.S. taxing jurisdictions to which Essentia is subject. In addition, for all tax years prior to June 30, 2011, generating an NOL, tax authorities have the right to adjust the amount of the NOL.

11. Employee Benefit Plans

Essentia sponsors two defined benefit retirement plans (Defined Benefit Plans), which cover certain groups of Essentia's employees. Although the Defined Benefit Plans are closed to new participants, certain plan participants continue to accrue benefits. Essentia also provides other postemployment benefits to certain eligible participants, including a partial subsidy for health insurance coverage.

A summary of the change in the benefit obligation, the change in plan assets and the resulting funded status, the amounts recognized in the consolidated balance sheets, and the components of net periodic benefit of the Defined Benefit Plans as of June 30 (measurement date) are as follows

	Year Ended June 30	
	2014	2013
Change in benefit obligation		
Benefit obligation at beginning of year	\$ 230,005	\$ 223,819
Service cost	2,457	2,770
Interest cost	10,648	10,323
Actuarial loss (gain)	17,657	(160)
Benefits paid	(7,846)	(6,747)
Benefit obligation at end of year	<u>252,921</u>	<u>230,005</u>
Change in plan assets		
Fair value of plan assets at beginning of year	139,701	123,066
Actual return on plan assets	18,261	15,336
Contributions	8,895	8,346
Benefits paid	(7,845)	(6,747)
Expenses paid	(300)	(300)
Fair value of plan assets at end of year	<u>158,712</u>	<u>139,701</u>
Net liability recognized (underfunded plan)	<u>\$ (94,209)</u>	<u>\$ (90,304)</u>

Accumulated benefit obligation was \$215,104 and \$193,825 at June 30, 2014 and 2013, respectively

Effective July 1, 2012, Essentia elected to change the amortization period for unrecognized actuarial gains and losses from the average remaining working period to the average future lifetime of plan participants. Since over 90% of plan participants are inactive, Essentia believes that the average future lifetime of plan participants provides a better estimate of the amortization expense. The change in amortization period, which is considered to be a change in accounting method, had no impact on Essentia's consolidated balance sheet but resulted in a decrease in future pension expense (\$1,909 for the year ended June 30, 2013).

11. Employee Benefit Plans (continued)

Changes in plan assets and benefit obligations recognized in unrestricted net assets during the years ended June 30 consist of

	2014	2013
Current year actuarial loss (gain)	\$ 10,113	\$ (5,954)
Amortization of actuarial gain	(3,273)	(3,981)
Total	<u>\$ 6,840</u>	<u>\$ (9,935)</u>

Actuarial losses included in unrestricted net assets that have not been recognized in net periodic pension cost at June 30, 2014 and 2013, were \$90,333 and \$83,493, respectively. It is expected that actuarial losses recognized in net periodic pension cost during the year ending June 30, 2015, will be \$3,498. Unrecognized actuarial losses are amortized on a straight-line basis.

Components of net periodic pension cost for the years ended June 30 are as follows:

	2014	2013
Service cost	\$ 2,517	\$ 2,770
Interest cost	10,648	10,323
Expected return on plan assets	(10,776)	(9,542)
Amortization of unrecognized net actuarial loss	3,273	3,981
Expenses paid	300	300
Benefit cost	<u>\$ 5,962</u>	<u>\$ 7,832</u>

Weighted average assumptions

	2014	2013
Discount rate at end of year (used to determine benefit obligation)	4.02% to 4.29%	4.54% to 4.76%
Discount rate at beginning of year (used to determine net periodic benefit cost)	4.54% to 4.76%	4.20% to 4.64%
Expected annual return on plan assets	7.75%	7.75%
Rate of annual compensation increase	1.40% to 2.30%	1.60% to 2.40%
Health care cost annual trend rate	8.00%	8.50%

11. Employee Benefit Plans (continued)

The overall weighted average return on plan assets is determined by applying management's judgment to the results of computer modeling, historical trends, and benchmarking data

The Investment Committee of the Defined Benefit Plans, which consists of at least two members of the Board of Directors and a minimum of four staff members, annually reviews and approves the investment policy and asset allocation targets. The Investment Committee activities are supported by an independent investment consulting firm. The investment policy covers responsibilities of the investment managers, investment objectives, asset allocation targets and ranges, asset guidelines, and manager review criteria. The Investment Committee reviews asset allocation quarterly to determine if the current structure is appropriate and whether any changes are necessary. All assets are invested with outside managers.

The current target allocation and the actual asset allocation as of June 30 are as follows:

	Asset Allocation		
	Target	2014	2013
Equity securities	30%–90%	41%	40%
Debt securities	15%–50%	21	11
Cash and cash equivalents	0%–55%	2	8
Other (primarily alternative investments)	0%–40%	36	41
Total		100%	100%

The fair value of the Defined Benefit Plans' pension plan assets was determined using the fair value hierarchy, as defined in Note 6, at June 30, 2014:

	Level 1	Level 2	Level 3	Total
Assets				
Cash and cash equivalents	\$ 2,699	\$ —	\$ —	\$ 2,699

11. Employee Benefit Plans (continued)

The fair value of the Defined Benefit Plans' pension plan assets was determined using the fair value hierarchy, as defined in Note 6, at June 30, 2013

	Level 1	Level 2	Level 3	Total
Assets				
Cash and cash equivalents	\$ 11.647	\$ —	\$ —	\$ 11.647
Domestic equity securities	32.566	—	—	32.566
International equity securities	9.061	—	—	9.061
Equity mutual funds	14.461	—	—	14.461
Debt security mutual funds	13.843	—	—	13.843
Alternative investments	—	—	48.406	48.406
Immediate Participation Guarantee				
Contracts	—	—	8.464	8.464
Other	1.253	—	—	1.253
	<u>\$ 82.831</u>	<u>\$ —</u>	<u>\$ 56.870</u>	<u>\$ 139.701</u>

Fair value methodologies for Level 1 and Level 2 investments are consistent with the inputs described in Note 6. Fair value for Level 3 alternative investments is based on the fair value of the underlying assets as estimated in an unquoted market, which approximates the equity method of accounting. Fair values of alternative investments are determined by the investment managers or general partners. Fair values may be based on estimates that require varying degrees of judgment. The fair value reflects net contributions to the investee and an ownership share of realized and unrealized investment income and expenses. The financial statements of the investees are audited annually by independent auditors.

Other Plans

Under a collective bargaining agreement, Essentia contributes to a union-sponsored multiemployer retirement plan. The risks of participation in these multiemployer plans differ from those of single-employer plans in the following aspects: a) assets contributed to the multiemployer plan by one employer may be used to provide benefits to employees of other participating employers, b) if a participating employer stops contributing to the plan, the unfunded obligations of the plan may be borne by the remaining participating employers, and c) if Essentia chooses to stop participating in its multiemployer plan and if the plan is underfunded, Essentia may be required to pay those plans an amount based on the underfunded status of the plan, referred to as the withdrawal liability.

Essentia's participation in the multiemployer plan for the years ended June 30, 2014 and 2013, is outlined in the table below. The "EIN/Pension Plan Number" column provides the Employee Identification Number (EIN) and the three-digit plan number, if applicable. Unless otherwise noted, the most recent Pension Protection Act zone status available in 2014 and 2013 is for the plan's year-end at December 31, 2013 and 2012, respectively. The zone status is based on information that Essentia received from the plan and is certified by the plan's actuary. Among other factors, plans in the red zone are generally less than 65% funded, plans in the yellow zone are less than 80% funded, and plans in the green zone are at least 80% funded. The "FIP/RP Status Pending/Implemented" column indicates plans for which a financial improvement plan (FIP) or a rehabilitation plan (RP) is either pending or has been implemented. The last column lists the range of expiration dates of various collective-bargaining agreements to which the plans are subject.

Pension Fund	EIN/Pension Plan Number	Pension Protection Act Zone Status		FIP/RP Status Pending/Implemented	Contributions of Essentia		Surcharge Imposed	Expiration Date of Collective-Bargaining Agreement
		2014	2013		2014	2013		
Steelworkers Pension Trust	23-6648508-499	Green	Green	N/A	\$ 3,742	\$ 3,669	No	June 30, 2014 to December 31, 2016

11. Employee Benefit Plans (continued)

The union-sponsored multiemployer plan was at least 80% funded at December 31, 2013 and 2012. Total amounts expensed under the union-sponsored multiemployer plan were \$3,755 and \$3,682 for the years ended December 31, 2013 and 2012, respectively. Essentia is required to make contributions ranging from 3% to 5% of covered employees' gross earnings for the year ending December 31, 2014.

At the date Essentia's consolidated financial statements were issued, Form 5500 was not available for the union-sponsored multiemployer plan's year ended December 31, 2013.

Substantially all of Essentia's entities have individual defined contribution plans covering most of their employees. Contributions are based on a percentage of eligible employees' salaries. Total pension expense relating to the union-sponsored multiemployer retirement plan and defined contribution pension plans was \$42,386 and \$44,726 for the years ended June 30, 2014 and 2013, respectively.

12. Insurance

EHIS provides insurance coverage to most of Essentia's members (except the critical access hospitals) on a claims-made basis with limits of \$5,000 per claim and \$12,000 in the aggregate per policy year for professional liabilities and \$3,000 per claim and \$6,000 in the aggregate for each policy year for general liabilities. Premiums are based on claims experience. Essentia's rural critical access hospitals are insured by a commercial insurance policy with a \$25 deductible and limits of \$2,000 per claim and \$6,000 in the aggregate per policy year on a claims-made basis for both professional liability and general liability risks.

Essentia has self-funded the estimated value of professional and general liability claims, which amounted to \$29,026 and \$26,461 at June 30, 2014 and 2013, respectively, based on historical data, and includes IBNR claims. Essentia has purchased excess professional and general liability insurances from the commercial insurance market with limits totaling \$35,000 per claim and in the aggregate per policy year.

Essentia is self-insured for workers' compensation claims, employee health care claims, and unemployment compensation risks, with stop-loss coverage above certain limits. Essentia is required to post security under its self-insured workers' compensation program, which was \$12,096 and \$14,120 at June 30, 2014 and 2013, respectively. Essentia has entered into a surety bond agreement to comply with this requirement.

13. Commitments and Contingencies

During 2013, Essentia began work on various remodeling projects, construction of a parking structure, and an overall EH West expansion and remodeling project. The total cost of the projects is anticipated to be \$111,368, most of which will be debt-financed. Construction-in-progress was approximately \$23,813 as of June 30, 2014.

Essentia has leases for equipment and satellite office facilities, which are classified as operating leases. Rental expense under these operating leases totaled \$20,190 and \$21,578 for the years ended June 30, 2014 and 2013, respectively.

Future minimum lease payments on operating leases in effect on June 30, 2014, for each of the five subsequent years and thereafter are as follows:

2015	\$ 12,887
2016	12,001
2017	10,539
2018	8,578
2019	5,784
Thereafter	44,308
	<u>\$ 94,097</u>

In connection with a corporate reorganization of BSBA, assets and liabilities of certain facilities were transferred to Essentia in 1985. BSBA retains title to the land occupied by these facilities and has leased the land to the facilities through June 30, 2040. Minimum annual lease payments are \$30,513 over the remaining lease period, adjusted for inflation. Lease payments were \$843 and \$822 for the years ended June 30, 2014 and 2013, respectively.

Essentia has guaranteed amounts totaling \$7,448 and \$7,825 as of June 30, 2014 and 2013, respectively. No liability is recorded related to these guarantees.

Essentia is a defendant in legal proceedings arising in the ordinary course of business. Although the outcome of these proceedings cannot be determined, in the opinion of management, they will not have a material adverse effect on Essentia's consolidated financial position or results of operations. However, there can be no assurance that this will be the case.

At June 30, 2014, 39% of employees are represented by 38 collective bargaining agreements, of which 16 will expire within one year.

14. Functional Expenses

Essentia does not report expense information by functional classification because its resources and activities are directed primarily to providing health care services to residents in communities that it serves

15. Nonrecurring Costs

During 2013, Essentia restructured its operations and incurred nonrecurring costs of \$1,338 related to staff reductions, which were recorded as nonrecurring operating expenses

16. Subsequent Events

Essentia's management evaluated events and transactions occurring subsequent to June 30, 2014, through October 1, 2014, the date of issuance of the consolidated financial statements

In July 2014, Essentia issued Variable Rate Revenue Bonds, Series 2014 – MN, in the amount of \$29,480. The outstanding balance on the Series 2011 Revenue Bonds in the amount of \$25,155 was refinanced. The bonds are subject to a mandatory tender following an initial period, which ends July 2024, at which time the outstanding principal plus accrued interest becomes due.

There were no other subsequent events requiring recognition or disclosure in the consolidated financial statements.
