Form and Line Reference	Explanation
Part I, Line 3c	The organization provides medically necessary care to all patients, regardless of race, color, creed, ethnic origin, gender, disability or economic status. The hospital uses a percentage of federal poverty level (FPL) to determine free and discounted care. At a minimum, patients with income less than or equal to 200% of the FPL, which may be adjusted for cost of living utilizing the local wage index compared to the national wage index, will be eligible for 100% charity care write off of charges for services that have been provided to them. Also, at a minimum, patients with incomes above 200% of the FPL but not exceeding 400% of the FPL, subject to adjustments for cost of living utilizing the local wage index compared to national wage index, will receive a discount on the services provided to them.

Form and Line Reference	Explanation
Part I, Line 7	The cost of providing charity care, means tested government programs, and community benefit programs is estimated using internal cost data, and is calculated in compliance with Catholic Health Association ("CHA") guidelines. The organization uses a cost accounting system that addresses all patient segments (for example, inpatient, outpatient, emergency room, private insurance, Medicaid, Medicare, uninsured, or self pay). The best available data was used to calculate the amounts reported in the table. For the information in the table, a cost-to-charge ratio was calculated and applied.

Form and Line Reference	Explanation
Part II, Community Building Activities	St Vincent Hospital and Health Care Center promotes the health of its communities by striving to improve the quality of life within the community. Research has established that factors such as economic status, employment, housing, education level, and built environment can all be powerful social determinants of health. Additionally, helping to create greater capacity within the community to address a broad range of quality of life issues also impacts health. St Vincent Hospital and Health Care Center meets regularly with local organizations in the community to learn what resources are available and plan community health improvement efforts. In fiscal year 2014, these organizations included Crooked Creek Community Development Corporation, United Way, Indiana Youth Institute, Holy Family Shelter, Fay Bickard Glick Neighborhood Center, and Marian University.

Form and Line Reference	Explanation
Part III, Line 2	After satisfaction of amounts due from insurance and reasonable efforts to collect from the patient have been exhausted, the Corporation follows established guidelines for placing certain past-due patient balances within collection agencies, subject to the terms of certain restrictions on collection efforts as determined by Ascension Health. Accounts receivable are written off after collection efforts have been followed in accordance with the Corporation's policies. After applying the cost-to-charge ratio, the share of the bad debt expense in fiscal year 2014 was \$47,804,270 at charges, (\$14,552,433 at cost).

Form and Line Reference	Explanation
Part III, Line 3	The provision for doubtful accounts is based upon management's assessment of expected net collections considering economic conditions, historical experience, trends in healthcare coverage, and other collection indicators. Periodically throughout the year, management assesses the adequacy of the allowance for doubtful accounts based upon historical write-off experience by payor category, including those amounts not covered by insurance. The results of this review are then used to make any modifications to the provision for doubtful accounts to establish an appropriate allowance for doubtful accounts.

Form and Line Reference	Explanation
Part III, Line 4	The organization is part of the Ascension Health Alliance's consolidated audit in which the footnote that discusses the bad debt expense is located on page 19

Form and Line Reference	Explanation
Part III, Line 8	A cost to charge ratio is applied to the organization's Medicare Expense to determine the Medicare allowable costs reported in the organization's Medicare Cost Report. Ascension Health and its related health ministries follow the Catholic Health Association (CHA) guidelines for determining community benefit. CHA community benefit reporting guidelines suggest that Medicare shortfall is not treated as community benefit.

Form and Line Reference	Explanation
Part III, Line 9b	The organization has a written debt collection policy that also includes a provision on the collection practices to be followed for patients who are known to qualify for charity care or financial assistance If a patient qualifies for charity or financial assistance certain collection practices do not apply

Form and Line Reference	Explanation
Part VI, Line 2	Communities are dynamic systems in which multiple factors interact to impact quality of life and health status. In addition to the formal CHNA conducted every 3 years, St Vincent Hospital and Health Care Center participates in a community group called Crooked Creek Community Development Corporation whose purpose is to assess needs within the community, prioritize action and work in partnership to address identified challenges. The coalition works closely with its member organizations which come from multiple sectors of the community, including local government, business, education, faith communities, public health, health care providers and other social and human service organizations. In addition, the coalition works closely with other coalitions as well as the local and state health departments to stay abreast of changing needs within the community and evidence-based and promising practices for addressing these needs.

Form and Line Reference	Explanation
Part VI, Line 3	St Vincent Hospital and Health Care Center communicates with patients in multiple ways to ensure that those who are billed for services are aware of the hospital's financial assistance program as well as their potential eligibility for local, state or federal programs. Signs are prominently posted in each service area, and bills contain a formal notice explaining the hospital's charity care program. In addition, the hospital employs financial counselors, health access workers, and enrollment specialists who consult with patients about their eligibility for financial assistance programs and help patients in applying for any public programs for which they may qualify.

Form and Line Reference	Explanation
Part VI, Line 4	St Vincent Hospital and Health Care Center campus is located on the northwest side of Indianapolis in a neighborhood known as Crooked Creek, one of the most racially and economically diverse neighborhoods in Indianapolis, with a population of approximately 34,500 residents. St Vincent Hospital and Health Care Center serves Marion and the surrounding counties in Central Indiana. Marion County is the largest county in the state, with a population of 929,601. The population has grown 2.9% since 2010. When including the Metropolitan Statistical Area (MSA), the population of Indianapolis is 1.76 million. The city's population is diverse and younger compared to the state. The median age is 34.7, compared to the state's average age of 37.4. The population is 62.5% white, 26.1% African American, 2.2% Asian, and 3.0% two or more races, and continues to diversify. For example, the Hispanic population has increased from 3.9% in 2000 to 10.3% in 2014. The unemployment rate in 2014 was 7.7% for Marion County, which ranks 37 out of 92 counties in the state. The poverty rate in 2012 was 21.6%, which ranked 4th in the state. The median household income was \$41,586 in 2012, which ranked 74th out of Indiana counties.

Form and Line Reference	Explanation
Part VI, Line 5	To provide the highest quality healthcare to all persons in the community, and in keeping with its not-for-profit status, St Vincent Hospital and Health Care Center - delivers patient services, including emergency department services, to all individuals requiring healthcare, without regard to patient race, ethnicity, economic status, insurance status or ability to pay- maintains an open medical staff that allows credentialed physicians to practice at its facilities- participates in medical and scientific research- trains and educates health care professionals- participates in government-sponsored programs such as Medicaid and Medicare to provide healthcare to the poor and elderly- is governed by a board in which independent persons who are representative of the community comprise a majority

Form and Line Reference	Explanation
Part VI, Line 6	As part of the St Vincent Health System, St Vincent Hospital and Health Care Center is dedicated to improving the health status and quality of life for the communities it serves. While designated associates at St Vincent Hospital and Health Care Center devote all or a significant portion of their time to leading and administering local community-based programs and partnerships, associates throughout the organization are active participants in community outreach. They are assisted and supported by designated St Vincent Health Community Development associates and other support staff who work with each of its healthcare facilities to advocate for and provide technical assistance for community outreach, needs assessments and partnerships as well as to support regional and state-wide programs, community programs sponsored by St Vincent Health in which St Vincent Hospital and Health Care Center participates.

Form 990, Part III, Line 4a, 4b and 4c	Community Benefit ReportOther key services include Digestive Health, Diabetes Care, Center for Healthy Aging, Center for Joint Replacement, Breast Care Services, Mental Health Services, Surgery Services, Sports Medicine, Emergency Departments (Adult and Pediatric), and Primary Health Care Some of these services operate at a loss in order to ensure that comprehensive services are available to the community Such community-focused programs improve access to healthcare, advocate for the poor and vulnerable, promote health through free education and screenings and help to build better communities by improving quality of life

Form and Line Reference	Explanation
Community Benefit Overview	St Vincent Hospital and Health Care Center is part of St Vincent Health, a non-profit healthcare system consisting of 22 locally-sponsored ministries serving over 47 counties throughout Central Indiana. Sponsored by Ascension Health, the nation's largest Catholic healthcare system, St Vincent Health is one of the largest healthcare employers in the state. As part of St Vincent Health, the St Vincent Hospital and Health Care Center's vision is to deliver a continuum of holistic, high-quality health services and improve the lives and health of Indiana individuals and communities, with special attention to the poor and vulnerable. This is accomplished through strong partnerships with businesses, community organizations, local, state and federal government, physicians, St Vincent Hospital and Health Care Center associates and others. Working with its partners, and utilizing the CHNA completed every three years, St Vincent Hospital and Health Care Center is committed to addressing community health needs and developing and executing an implementation strategy to meet identified needs to improve health outcomes within the community. Community benefit is not the work of a single department or group within St Vincent Hospital and Health Care Center, but is part of the St Vincent mission and cultural fabric. The hospital's leadership team provides direction and resources in developing and executing the Implementation Strategy in conjunction with the St Vincent Health Community Development Department, but associates at all levels of the organization contribute to community benefit and health improvement.

Form and Line Reference	Explanation
Charity Care and Certain Other Community Benefits at Cost	Patient Services for Poor and Vulnerable Hospital and outpatient care is provided to patients that cannot pay for services, including hospitalizations, surgeries, prescription drugs, medical equipment and medical supplies. Patients with income less than 200% of the Federal Poverty level (FPL) are eligible for 100% charity care for services. Patients with incomes at or above 200% of the FPL, but not exceeding 400% of the FPL, receive discounted services based on an income-dependent sliding scale. Hospital financial counselors and health access workers assist patients in determining eligibility and in completing necessary documentation. St Vincent Hospital and Health Care Center is committed to 100% access, and is proactive in providing healthcare that leaves no one behind. Community Health Needs Assessment True community benefit responds to the particular needs and challenges of the community, building on its unique strengths and assets. The hospital leads a community health needs assessment every 3 years. Using a variety of tools, including surveys, key person interviews, focus groups, secondary data, and data analysis professionals, the team identifies community issues and concerns. These are shared with the community at large, and a consensus is reached about priorities and available resources. To provide community input and a basis for collaboration within the community to address health needs, St Vincent leads or participates in a community roundtable or forum. This group brings together individuals and organizations from throughout the community who share a common interest in improving health status and quality of life and provide expertise in a variety of community areas including public health. Obesity (nutrition and physical activity), access to healthcare, behavior health, and cancer care (lung, breast and colon) have all been identified as key community needs. Implementation Strategy Using the CHNA completed in fiscal year 2013, the hospital developed a 2014-2016 Implementation Strategy to address priority community health needs. These strategies include: 1. Obesity (Nutrition and Exercise) Educate and promote the importance of proper nutrition and physical activity to the community- St Vincent staff will offer 3 one-hour educational presentations regarding healthy food choices and/or fitness at the Crooked Creek Farmer's Market - St Vincent staff will be informed of volunteer opportunities available at Crooked Creek Farmer's Market via weekly reminders, from May-October, in the online newsletter sent to the St Vincent Indianapolis system - As a partnership with Pike Township Schools and as part of their award of a PEP Grant, Peyton Manning Children's Hospital will coordinate a week-long summer camp geared to students in grades 3-5 for 2012, 2013 and 2014 - To better serve our Spanish-speaking population, the LIFE (Lifetime Individual Fitness & Eating) program will develop a healthy cookbook in Spanish featuring traditional Hispanic dishes - Provide at least 30 educational presentations regarding nutrition and 30 educational presentations a year regarding physical activity to youth, K-12 2. Access to Healthcare Coordinate access for vulnerable community members through the Outreach Workers- Each of the 3 outreach workers will complete at least 55 applications for assistance a month - Each of the 3 outreach workers will make at least 10 outreach efforts a month by visiting community centers, such as shelters, unemployment offices, and LaPlaza (resource center for Hispanic community) 3. Behavioral Health Educate lawmakers and professionals about behavioral health issues and resources- Representative(s) from St Vincent Stress Center will meet with at least 5 district representatives in the State House and Senate to discuss behavioral health issues 4. Cancer Care (lung, breast and colon) Educate and promote the importance of cancer detection to the community- A BCCP (Breast and Cervical Cancer Program) will be established at our flagship hospital to support the financial needs of our underserved, high risk populations and ensure the completion of appropriate screenings and recommended follow-ups for detected Breast Cancers - At least 5 colon cancer educational presentations will be offered each fiscal year to underserved, high risk and/or elderly populations related to the prevention and early detection of Colon Cancer, with promotional efforts at locations such as the United Soccer Alliance of Indiana, which includes a large Hispanic population and large African American church communities within Central Indiana - At least 5 free fecal blood screenings events will be offered each fiscal year to underserved, high risk and/or elderly populations in central Indiana related to the prevention and early detection of Colon Cancer - Train at least 1 existing associate to become a tobacco cessation counselor each year for a total of 11 counselors on staff - Increase the number of participants completing

Bereavement Services	Losing a loved one can be extremely distressing for family members. St Vincent Hospice Bereavement Services works with families both before and after the passing of a loved one, helping them cope with their grief. The St Vincent bereavement team reviews individual care plans, conducting supportive phone calls and home visits, and sending out grief education materials and a bi-monthly bereavement newsletter. Support groups are provided based on age or relationship to the loved one and are open to those who have been served by St Vincent Hospice and to the community in general. The Road to Healing and When Grief Is New Grief 101 offers support for the ones left behind shortly after the loss. A Daughter's Grief (daughters who have lost their mothers) and Safe Haven (parents who have lost a child) focus on the specific relationship one might have had with the loved one. Other support groups include Widow/Widowers and the Lunch Bunch Socialization Group. Project Snowflake is designed to provide families with children ages 6-16 years of age an opportunity to grieve and heal together at the holidays. The Empty Chair is a grief seminar that focuses on grief support through the holidays. The Project Butterfly is a summer family workshop series for grieving families with children ages 4-17 years of age. Mind, Body & Spirit explores grief/loss through activities such as meditation, yoga, and Zumba and Finding Your Way focuses on the loss of a younger spouse. I Am the Legacy focuses on the loss of a parent(s) and Grief Through the Lens of Love explores grief through photography. During fiscal year 2014, approximately 250 people participated in a support group and approximately 1,500 families were served by St Vincent Hospice Bereavement Services Department. St Vincent Cancer Care devotes key resources to providing education about cancer prevention, healthy lifestyles and the importance of early detection through screenings to central Indiana communities. Working with a variety of community organizations, including many specifically targeting the underserved, St Vincent Cancer Care has been an active participant in health fairs and other community events that educate members of the community about cancer risk factors, healthier lifestyles and the importance of screening/early detection, including providing opportunities for oral, colorectal, skin, gynecological, lung and breast cancer screenings offered at no cost. St Vincent is also committed to ensuring a continuum of care for those who are found to need additional diagnostic testing or treatment. A key initiative of the St Vincent Center for Cancer Care is the mobile mammography van. In fiscal year 2014, 788 uninsured/underinsured women received free screening mammograms aboard the St Vincent Cancer Care Mobile Mammography Van. The mammograms were provided at no charge through a grant from the Susan G. Komen for the Cure Indianapolis Affiliate. The mobile mammography program allows St Vincent to overcome key economic, cultural, geographic, and transportation barriers that block access to recommended screening mammograms, providing both early detection and peace of mind. St Vincent also coordinates care to ensure that 100% of women who are screened and require additional diagnostic testing (approximately 15% of women screened) or need treatment, have access to the cancer care continuum. Center of HopeThe St Vincent Indianapolis Center of Hope provides expert treatment, advocacy, emotional support and legal services coordination, as well as evidence collection and preservation for victims of violence. The Center provides experienced forensic nurse examiners (FNEs) who are available 24 hours a day to serve victims of violent crimes, such as sexual assault, child sexual abuse, domestic violence, elder abuse, attempted homicide and physical assault. These vulnerable patients are provided with a dedicated and private exam room equipped with specialized technology for collecting and preserving evidence, assistance in applying for victim compensation benefits for which they may qualify, consultation with a medical social worker and referral to a range of services to assist victims in healing both physically and emotionally. The Center of Hope team consults with health professionals and departments throughout St Vincent Indianapolis Hospital to ensure victims' needs can be assessed and met. The Center of Hope clinical supervisor works closely with law enforcement, the judicial system and mental health and social service agencies throughout Marion and surrounding counties to help victims access the services they need, to provide expert testimony that assists in securing convictions, and to train these professionals about issues related to sexual assault and domestic violence. The Center of Hope is also actively involved in educating the community about sexual assault and domestic violence and the services that are available for victims of these crimes.

Bereavement Services	The Center of Hope is supported by St Vincent, as well as by grant funding from the Indian a Criminal Justice Institute. In fiscal year 2014, the Center served over 200 victims of s exual assault and domestic violence Center for Perinatal LossSt Vincent Women's Center for Perinatal Loss assists families experiencing an infant loss with their grief journey by p roviding ongoing emotional and spiritual support through telephone contact, literature, co unseling and support groups. The Perinatal Hospice Program offers support to families duri ng and following the birth and death of their babies born with fatal anomalies. During fis cal year 2014, 653 families received these services. The Perinatal Loss Evaluation Program assists families in discovering the cause of their baby's stillbirth or neonatal death as they go through their grief journey. During fiscal year 2014, 36 families received these services. The Child Protection TeamThe Child Protection Team was established in 2008 to pr ovide a continuum of services for Indiana's most vulnerable children. As a member of Ascen sion Health, the Child Protection Team offers evidenced-based professional education to yo uth service providers in the area of child abuse prevention and intervention. The Child Pr otection Team is grateful for the ongoing support of The Crosser Family Foundation and Pey ton Manning Children's Hospital license plate sales. The Child Protection Team has worked with The Canadian Centre for Child Protection to bring The Commit to Kids Program to India na, which assists youth serving organizations with staff training and policy recommendatio ns to ensure that children are protected from possible sexual abuse. The Child Protection Team has also partnered with The Children's Bureau and the National Center for Shaken Baby Syndrome to bring The Period of Purple Crying Program to parents and caregivers of infant s, which is designed to prevent Shaken Baby Syndrome by providing education on the frustra ting features of normal infant crying that can lead to shaking or abuse. As part of St Vin cent's child health advocacy mission, the Child Protection Team is continually seeking to provide a wide range of services with a compassionate approach to healing and preventative interventions to support Indiana's children and families. Crisis Intervention Training St Vincent Stress Center partners in a Crisis Intervention Training for law enforcement offic ers. Through this program, the Stress Center provides general education about mental illne ss, suicide prevention education, communication skills, de-escalation techniques, and info rmation about community resources for people in mental health crises. Mental health profes sionals and others in the community also provide instruction on psychopharmacology and the legal aspects of involuntary treatment. The courses, which are endorsed by the Indiana La w Enforcement Academy, are offered free to law enforcement officers. Approximately 200 officers from Marion, Boone, Hamilton, and Johnson Counties received this training in fiscal year 2014. Diabetes Education Diabetes affects over 10 percent of people in Indiana. Type 2 diabetes accounts for approximately 95% of these cases and Type 1 accounts for the remain ing 5%. The St Vincent Diabetes Center's team of specialists, which includes certified dia betes educators, help individuals balance their diabetes care with their lifestyle needs. Understanding how to manage this chronic condition is key to living an active, healthy lif e.

Fresh Start Parenting Program	The St Vincent Fresh Start to Life Prenatal Education Program provides health education, counseling and support for under-insured and uninsured women throughout Central Indiana. The program evaluates the most at-risk women based on household income, language barriers, health knowledge and access to transportation. Those at the greatest risk based on these criteria were chosen for the Prenatal Education Program, which served over 50 women in fiscal year 2014. Health Fairs and Screenings: St Vincent Hospital and Health Care Center participated in, facilitated, sponsored or promoted numerous health fairs and screenings. During fiscal year 2014, over 4,000 individuals either attended health fairs and/or were screened. Fairs and screenings were held in conjunction with schools, community, state and national organizations, local and state government agencies, and were held at a variety of conferences and community events. These events provided invaluable health education, prevention and screenings for thousands of Hoosiers across the state free of charge. Healing and Wellness Support Groups: St Vincent Hospital and Health Care Center sponsors a wide variety of support groups to help both patients and families cope with significant health challenges, family issues, bereavement or grief issues and other mental health concerns. Groups often target particular age brackets to ensure that the unique challenges facing children, teens, adults and seniors are addressed. St Vincent Hospital and Health Care Center provides expert facilitation, meeting coordination, materials and meeting space for each support group. Health Professions Clinical Training: In an effort to prepare future healthcare professionals, St Vincent Hospital and Health Care Center offers a variety of clinical settings and internships to undergraduate and vocational allied health professionals from Franklin College, Harrison College, Indiana University, IUPUI, Ivy Tech, Marian University, Purdue University and University of Indianapolis. St Vincent Hospital and Health Care Center provides these students experience in clinical settings with the following programs/departments: Education and Development, Sports Medicine, Physical Therapy, Respiratory Therapy, Nursing, and Pharmacy. International Pediatric Heart Surgery Project: The International Pediatric Heart Surgery Project was founded as part of The Children's Heart Center and St Vincent's commitment to fulfilling the mission of advocacy and care of the poor. This program has provided life-saving heart surgery for children from these impoverished areas, such as Bolivia, Kosovo, Mongolia, Honduras, Kenya, Uganda and Haiti. These countries have minimal health care available for the treatment of congenital heart disease and without surgery these children would not survive. There is no charge to the child's family. The cardiothoracic surgeon and physicians of the Children's Heart Center, as well as pediatric anesthesiologists, intensivists, and other members of Peyton Manning Children's Hospital at St Vincent donate their skills and time in caring for these children. Since the first patient arrived in February 2000, the program has provided life-saving care for 104 children. This program works with individual volunteers, local church congregations, and organizations such as Samaritan's Purse in order to coordinate and provide transportation, visas, host families, and interpreter services. The lives of those who have had the opportunity to assist in caring for these children have been touched forever. Medical Supplies Donations: St Vincent made donations of medical supplies throughout the year by supporting mission trips through local churches to Haiti, Dominican Republic, Kenya, Nicaragua, Guatemala, and Philippines. Additionally, donations were made to local organizations, such as, Timmy Global Health Foundation and FAME Medical Education. St Vincent Hospital and Health Care Center, in affiliation with the Indiana University School of Medicine and Marian University College of Osteopathic Medicine, is a teaching hospital for future physicians. St Vincent Hospital and Health Care Center provides a broad range of graduate, undergraduate, and continuing education opportunities to physicians, residents, medical students and physician assistant students through training programs in Internal Medicine, Family Medicine, Obstetrics/Gynecology, Pediatrics, General Surgery and Transitional Medicine, and through continuing medical education. Over 170 interns and residents train in these programs each year, and over 400 medical students come to St Vincent for clinical rotations. In addition, St Vincent residents provide health care to the poor in underserved areas of Indiana, as well as in underdeveloped countries. Residents participate in urban, rural, or international medicine rotations to gain a broader medical perspective which enhances their professional and spiritual understanding. Medical Research: St Vincent contributes funds

Sports Performance Outreach	St Vincent provides sports medicine services at 24 high schools, 17 middle schools and several youth sports organizations. Over 24,000 youth were served with outreach athletic training services, sports physicals and injury management advice during fiscal year 2014. Speakers Bureau To accommodate the numerous requests for professionals to present health promotion education throughout the community, St Vincent sponsors a Speakers Bureau and coordinates presentations to a multitude of organizations and agencies. 338-KIDS and 338-4HER Lines 338-KIDS assist parents in determining the most appropriate level of care depending on their child's symptoms. When parents have questions about their child's health, 338-KIDS provides a direct link to the exclusive nurse advice line at Peyton Manning Children's Hospital at St Vincent. This hotline available 24/7 has registered nurses standing by to answer questions about fevers, allergic reactions, burns, rashes, accidents and other health-related problems their child may be having. During fiscal year 2014, over 25,000 calls were taken on this kid's health advice hotline. St Vincent Women's Hospital encourages women to ask questions regarding any health issues, and is dedicated to assisting them in receiving the help they need. Women across Central Indiana are able to call 24 hours a day, seven days a week. By calling 317-338-4HER (4437) day or night, individuals are able to reach a health professional who can answer questions or connect them with a doctor, nurse, or other professional who will advise them on their health issues. St Vincent Stress Center Education/Support Mental disorders are common in the United States and internationally. An estimated 26.2% of Americans ages 18 and older, about one in four adults, suffer from a diagnosable mental disorder in a given year. Recent statistics suggest roughly seven of every one hundred people suffer depression after age 18 at some point in their lives. Depressions annual toll on U.S. businesses amounts to about \$70 billion in medical expenditures, lost productivity and other costs. The St Vincent Stress Center provides long-term recovery from depression by addressing the underlying relationship causes of depression. Our counselors and trained clinicians are the backbone of the care we deliver to those in the community seeking assistance. We are committed to supporting the next generation of health care professionals. During fiscal year 2014, the St Vincent Stress Center staff worked with surrounding universities in mentoring and training students in the healthcare field. College students from Marion, Monroe, and Bartholomew Counties, representing 8 schools of higher learning, were provided valuable on-site experiences in their fields of study. Nursing students, social workers, psychology, and art therapy majors have gained a more broad knowledge base to continue and complete their degrees. Parish Nursing Parish nurses provide health education, counseling, and health advocacy for their congregation. St Vincent provides scholarships to registered nurses who wish to complete a parish nurse certification course. All denominations are supported by the parish nursing program which provides educational materials and health supplies to the faith communities they serve. A parish nurse program coordinator, employed by St Vincent, provides oversight for the program and ensures parish nurses receive ongoing professional education. During fiscal year 2014, two educational/networking sessions were offered. Additionally, in an effort to guide future educational sessions, parish nurses were asked to complete a survey regarding how their time is spent and the most prominent healthcare issues within their congregation. Tobacco Management Center The Tobacco Management Center (TMC) is a hospital-based, nurse/pharmacist-driven smoking cessation program offered to the community which offers resources, group support and individualized counseling. To date, the TMC has served 167 individuals who completed the program. Of these, 34% were tobacco free for at least 60 days or more. Because staying smoke free can be a challenge, the TMC staff provides critical on-going support to participants to encourage, motivate, and counsel them regarding struggles they may be having. Community Benefit Cash and In-Kind Contributions In addition to the outreach programs operated by the hospital, the hospital makes cash and in-kind donations to a variety of community organizations focused on improving health status in the community. These take the form of cash donations to outside organizations, the donation of employee time/services to outside organizations and the representation of the hospital on community boards and committees working to improve health status and quality of life within the community.

Community Building Activities	Research shows that social determinants and quality of life play a major role in the health status of individuals and communities. Community building activities, which focus on improving the quality of life within a community, ultimately influence and improve health status. Back Pack Attack: Eighty-eight percent of Indianapolis Public School families cannot afford the basic school supplies their children need, requiring many teachers to spend their own money to operate their classrooms. St Vincent has joined with other local partners to participate in the Back Pack Attack Program each year. St Vincent runs a 3-week campaign to collect supplies; associates then deliver these supplies to be sorted and distributed to students in need. In fiscal year 2014, the program was able to assist over 46,000 children. Hope for the Holidays: Each year, St Vincent associates reach into their own pockets to purchase Christmas gift items for families in need. During their work time, department associates contact families, create needs list, collect donations, shop for items, wrap gifts and deliver food and packages to these families. In fiscal year 2014, St Vincent sponsored 75 households and touched the lives of 465 individuals. Reach Out and Read Early Literacy Program: Reach Out and Read is a national early literacy program designed to take advantage of the access pediatricians have to children who are in their critical early years (6 months to 5 years) of cognitive and language development. Across Indiana, physician-based sites distribute thousands of new books each year to Hoosier children and their families. In the State of Indiana, physicians and nurses have been trained in the program, including the healthcare professionals at the Joshua Max Simon Primary Care Center at St Vincent. Crooked Creek Neighborhood Partnerships: The neighborhood surrounding the St Vincent Indianapolis Hospital campus, Crooked Creek is one of the largest culturally and economically diverse neighborhoods in the city of Indianapolis. St Vincent Indianapolis Hospital was instrumental in founding the Crooked Creek Community Development Corporation (CDC) whose mission is to improve housing, public infrastructure, and commercial areas for all who live, work, and visit the northwest Indianapolis community. For the 3rd year, the CDC offered a Farmer's Market to provide convenient access to locally-grown, healthy food choices. Also within the partnership is the HUB, a resource center which connects residents to The Indianapolis Neighborhood Housing Partnership. St Vincent Indianapolis supports The Fay Bickard Glick Neighborhood Center at Crooked Creek, which provides programs for families living on Indianapolis' northwest side including employment, energy and emergency assistance, English as a Second Language, food pantry, senior wellness, before/after school care, Skool of MADD Arts, recreational programs, early childhood development, GED, pre-college enrichment and summer camp. St Vincent STAR Job Readiness Program: The STAR Program aims to enrich lives and provide job readiness skills to individuals in Marion and surrounding counties who are facing significant barriers to employment, but have a sincere desire to gain and maintain a job. The STAR Program reaches out to both disadvantaged individuals and those who find themselves in situational stress due to a recent job loss, or an inability to find employment. For many individuals, the program has not only resulted in a job, but has been life-transforming. Participants meet for six weeks in a classroom setting, where they gain and/or enhance job readiness and life skills. Following classroom training, students are placed with mentors throughout various departments in St Vincent Hospital including patient registration, food services, and housekeeping. Four series of STAR classes were offered in fiscal year 2014. More than 318 STARS have gone on to sustain full-time employment since the program's inception. Community Building Cash and In-Kind Contribution: The hospital makes cash and in-kind donations to a variety of community organizations focused on building the community and improving quality of life. These take the form of cash donations to outside organizations, the donation of employee time/services to outside organizations and the representation of the hospital on community boards and committees working to improve infrastructure for the community.

Part III Supplemental Information

Provide the information, explanation, or descriptions required for Part I, lines 1a, 1b, 3, 4a, 4b, 4c, 5a, 5b, 6a, 6b, 7, and 8, and for Part II. Also complete this part for any additional information.

Return Reference	Explanation
Part I, Line 1a	St Vincent Hospital and Health Care Center, Inc. included imputed income for five of the listed officers/directors and highest compensated employees in Part VII. St Vincent Hospital and Health Care Center, Inc. "grossed up" applicable non-business expenses and included in the employees' W-2 as additional taxable compensation.
Part I, Line 3	Ascension Health, a related organization of St Vincent Hospital and Health Care Center, Inc., uses the following to establish the compensation of the organization's CEO/Executive Director: - Compensation committee - Independent compensation consultant - Compensation survey or study - Approval by the board or compensation committee.
Part I, Line 4a	The following individuals received severance payments from the organization or a related organization during the calendar year 2013: Jon D. Rahman, MD - \$171,244.
Part I, Line 4b	Eligible executives participate in various non-qualified deferred compensation plans organized under Code Section 457(f). The exact purpose of each plan varies, but they include compensation limitation, make-up plans, voluntary deferral plans, deferral of a portion of incentive bonus type plans, etc. Any amount ultimately paid under the program to the executive is reported as compensation on Form 990, Schedule J, Part II, Column B in the year paid. No payments were made to listed persons in Part VII under the various non-qualified deferred compensation plans during the year.

Report of Independent Auditors

The Board of Directors
Ascension Health Alliance d/b/a Ascension

We have audited the accompanying consolidated financial statements of Ascension Health Alliance d/b/a Ascension, which comprise the consolidated balance sheets as of June 30, 2014 and 2013, and the related consolidated statements of operations and changes in net assets and cash flows for the years then ended, and the related notes to the consolidated financial statements

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U S generally accepted accounting principles, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the consolidated financial position of Ascension Health d/b/a Ascension at June 30, 2014 and 2013, and the consolidated results of their operations and their cash flows for the years then ended in conformity with U S generally accepted accounting principles

1. Organization and Mission

Organizational Structure

Ascension Health Alliance, d/b/a Ascension (Ascension), is a Missouri nonprofit corporation formed on September 13, 2011. Ascension is the sole corporate member and parent organization of Ascension Health, a Catholic national health system consisting primarily of nonprofit corporations that own and operate local healthcare facilities, or Health Ministries, located in 23 of the United States and the District of Columbia.

Ascension serves as the member or shareholder of various subsidiaries as listed below:

- AH Holdings, LLC, d/b/a Ascension Holdings, LLC
- AHV Holding Company, LLC, d/b/a AV Holding Company
- Ascension Health
- Ascension Health Clinical Holdings, d/b/a Ascension Clinical Holdings
- Ascension Health Global Mission, d/b/a Ascension Global Mission
- Ascension Health Insurance, Ltd (AHIL)
- Ascension Health – IS Inc., d/b/a Ascension Information Services
- Ascension Health Resource and Supply Management Group, LLC d/b/a The Resource Group
- Ascension Health Leadership Academy, d/b/a Ascension Leadership Academy
- Ascension Health Ventures, d/b/a Ascension Ventures
- Ascension Investment Management, LLC (AIM)
- Ascension Alpha Fund, LLC, f/k/a CHIMCO Alpha Fund, LLC (Alpha Fund)
- Ascension Risk Services, LLC

Ascension and its member organizations are hereafter referred to collectively as the System.

Effective July 15, 2013, Ascension Health Leadership Academy, LLC, Ascension Health Global Mission and Ascension Health Clinical Holdings began doing business as Ascension Leadership Academy, Ascension Global Mission and Ascension Clinical Holdings, respectively. On July 17, 2013, AH Holdings, LLC began doing business as Ascension Holdings. Effective October 14, 2013, CHIMCO Alpha Fund, LLC was renamed Ascension Alpha Fund, LLC.

Ascension

1. Organization and Mission (continued)

Effective November 4, 2013, Ascension Health Ventures, LLC was renamed Ascension Ventures, LLC and AHV Holding Company, LLC began doing business as AV Holding Company. Effective December 12, 2013, Ascension Health – IS, Inc began doing business as Ascension Information Services. Effective January 1, 2014, Catholic Healthcare Investment Management Company (CHIMCO) transferred all of its business and assets to AIM, a limited liability company wholly owned by Ascension and CHIMCO's successor in interest.

Sponsorship

Ascension is sponsored by Ascension Sponsor, a Public Juridic Person. The Participating Entities of Ascension Sponsor are the Daughters of Charity of St. Vincent de Paul, St. Louise Province, the Congregation of St. Joseph, the Congregation of the Sisters of St. Joseph of Carondelet, the Congregation of Alexian Brothers of the Immaculate Conception Province, Inc – American Province, and the Sisters of the Sorrowful Mother of the Third Order of St. Francis of Assisi – US/Caribbean Province. As more fully described in the Organizational Changes note, Marian Health System, which was previously sponsored by the Sisters of the Sorrowful Mother of the Third Order of St. Francis of Assisi – US/Caribbean Province, became part of Ascension Health on April 1, 2013.

Mission

The System directs its governance and management activities toward strong, vibrant, Catholic Health Ministries united in service and healing, and dedicates its resources to spiritually centered care which sustains and improves the health of the individuals and communities it serves. In accordance with the System's mission of service to those persons living in poverty and other vulnerable persons, each Health Ministry accepts patients regardless of their ability to pay. The System uses four categories to identify the resources utilized for the care of persons living in poverty and community benefit programs:

- Traditional charity care includes the cost of services provided to persons who cannot afford healthcare because of inadequate resources and/or who are uninsured or underinsured.

Ascension

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

1. Organization and Mission (continued)

- Unpaid cost of public programs, excluding Medicare, represents the unpaid cost of services provided to persons covered by public programs for persons living in poverty and other vulnerable persons
- Cost of other programs for persons living in poverty and other vulnerable persons includes unreimbursed costs of programs intentionally designed to serve the persons living in poverty and other vulnerable persons of the community, including substance abusers, the homeless, victims of child abuse, and persons with acquired immune deficiency syndrome
- Community benefit consists of the unreimbursed costs of community benefit programs and services for the general community, not solely for the persons living in poverty, including health promotion and education, health clinics and screenings, and medical research

Discounts are provided to all uninsured patients, including those with the means to pay. Discounts provided to those patients who did not qualify for assistance under charity care guidelines are not included in the cost of providing care of persons living in poverty and other community benefit programs. The cost of providing care to persons living in poverty and other community benefit programs is estimated by reducing charges forgone by a factor derived from the ratio of each entity's total operating expenses to the entity's billed charges for patient care.

Certain costs such as graduate medical education and certain other activities are excluded from total operating expenses for purposes of this computation.

The amount of traditional charity care provided, determined on the basis of cost, was \$580,606 and \$524,605 for the years ended June 30, 2014 and 2013, respectively. The amount of unpaid cost of public programs, cost of other programs for persons living in poverty and other vulnerable persons, and community benefit cost is reported in the accompanying supplementary information.

2. Significant Accounting Policies

Principles of Consolidation

All corporations and other entities for which operating control is exercised by the System or one of its member corporations are consolidated, and all significant inter-entity transactions have been eliminated in consolidation. Investments in entities where the System does not have operating control are recorded under the equity or cost method of accounting. Income from unconsolidated entities is included in consolidated excess of revenues and gains over expenses and losses in the accompanying Consolidated Statements of Operations and Changes in Net Assets as follows:

	Year Ended June 30,	
	2014	2013
Other revenue	\$ 83,317	\$ 105,173
Nonoperating gains, net	5,539	8,544

Use of Estimates

Management has made estimates and assumptions that affect the reported amounts of certain assets, liabilities, revenues, and expenses. Actual results could differ from those estimates.

Fair Value of Financial Instruments

Carrying values of financial instruments classified as current assets and current liabilities approximate fair value. The fair values of other financial instruments are disclosed in the Fair Value Measurements note.

Cash and Cash Equivalents

Cash and cash equivalents consist of cash and interest-bearing deposits with original maturities of three months or less.

Ascension

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Significant Accounting Policies (continued)

Short-Term Investments

Short-term investments consist of investments with original maturities exceeding three months and up to one year

Inventories

Inventories, consisting primarily of medical supplies and pharmaceuticals, are stated at the lower of cost or market value using first-in, first-out (FIFO) or a methodology that closely approximates FIFO

Long-Term Investments and Investment Return

Investments, excluding investments in unconsolidated entities, are measured at fair value, are classified as trading securities, and include pooled short-term investment funds, U S government, state, municipal and agency obligations, corporate and foreign fixed income securities, asset-backed securities, and equity securities. Investments also include alternative investments and other investments which are valued based on the net asset value of the investments, as further discussed in the Fair Value Measurements note. Investments also include derivatives held by the Alpha Fund, also measured at fair value, as discussed in the Pooled Investment Fund note.

Long-term investments include assets limited as to use of approximately \$1,431,000 and \$1,311,000, at June 30, 2014 and 2013, respectively, comprised primarily of investments placed in trust and held by captive insurance companies for the payment of self-insured claims and investments which are limited as to use, as designated by donors.

Purchases and sales of investments are accounted for on a trade-date basis. Investment returns consist of dividends, interest, and gains and losses. The cost of substantially all securities sold is based on the average cost method. Investment returns on investments, excluding returns of self-insurance trust funds, are reported as nonoperating gains (losses) in the Consolidated Statements of Operations and Changes in Net Assets, unless the return is restricted by donor or law. Investment returns of self-insurance trust funds are reported as a separate component of income from operations in the Consolidated Statements of Operations and Changes in Net Assets.

2. Significant Accounting Policies (continued)

Property and Equipment

Property and equipment are stated at cost or, if donated, at fair market value at the date of the gift. A summary of property and equipment at June 30, 2014 and 2013, is as follows:

	June 30,	
	2014	2013
Land and improvements	\$ 880,352	\$ 822,885
Buildings and equipment	14,933,470	14,427,322
	15,813,822	15,250,207

Construction in progress	584,795	460,954
Total property and equipment, net	\$ 8,410,629	\$ 8,274,854

Depreciation is determined on a straight-line basis over the estimated useful lives of the related assets. Depreciation expense in 2014 and 2013 was \$739,853 and \$620,177, respectively.

Several capital projects have remaining construction and related equipment purchase commitments of approximately \$301,000.

2. Significant Accounting Policies (continued)

Intangible Assets

Intangible assets primarily consist of goodwill and capitalized computer software costs, including internally developed software. Costs incurred in the development and installation of internal use software are expensed or capitalized depending on whether they are incurred in the preliminary project stage, application development stage, or post-implementation stage.

Intangible assets are included in the Consolidated Balance Sheets as presented in the table that follows. Capitalized software costs in the table below include software in progress of \$125,451 and \$99,048 at June 30, 2014 and 2013, respectively.

	June 30,	
	2014	2013
Capitalized software costs	\$ 1,557,302	\$ 1,388,880
Less accumulated amortization	778,597	670,758
Capitalized software costs, net	778,705	718,122
Goodwill	181,490	130,306
Other, net	62,573	71,440
Intangible assets included in other long-term assets	244,063	201,746
Total intangible assets, net	\$ 1,022,768	\$ 919,868

Intangible assets whose lives are indefinite, primarily goodwill, are not amortized and are evaluated for impairment at least annually, while intangible assets with definite lives, primarily capitalized computer software costs, are amortized over their expected useful lives. Amortization expense for these intangible assets in 2014 and 2013 was \$157,150 and \$108,633, respectively.

Ascension

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Significant Accounting Policies (continued)

The System is in the midst of a significant multi-year, System-wide enterprise resource planning project, including information technology and process standardization (Symphony), which is expected to continue through fiscal year 2016. The project is anticipated to result in a transition to a common software product for various finance, information technology, procurement, and human resources management processes, including standardization of those processes throughout the System. Capitalized costs of Symphony were approximately \$320,000 and \$301,000 at June 30, 2014 and 2013, respectively, and are included in capitalized software costs in the preceding table. Certain costs of this project were also expensed. Beginning September 1, 2012, the software associated with Symphony was considered substantially complete and ready for its intended use and is amortized on a straight-line basis over its expected useful life. Accumulated amortization of Symphony was approximately \$55,000 and \$25,000 at June 30, 2014 and 2013, respectively. See the Impairment, Restructuring, and Nonrecurring Gains (Losses) discussion below for additional information about costs associated with Symphony.

Noncontrolling Interests

The consolidated financial statements include all assets, liabilities, revenues, and expenses of entities that are controlled by the System and therefore consolidated. Noncontrolling interests in the Consolidated Balance Sheets represent the portion of net assets owned by entities outside the System, for those entities in which the System's ownership interest is less than 100%.

Temporarily and Permanently Restricted Net Assets

Temporarily restricted net assets are those assets whose use by the System has been limited by donors to a specific time period or purpose. Permanently restricted net assets consist of gifts with corpus values that have been restricted by donors to be maintained in perpetuity, which include endowment funds. Temporarily restricted net assets and earnings on permanently restricted net assets, including earnings on endowment funds, are used in accordance with the donors' wishes, primarily to purchase equipment and to provide charity care and other health and educational services. Contributions with donor-imposed restrictions that are met in the same reporting period are reported as unrestricted.

Temporarily and permanently restricted net assets consist solely of controlling interests of the System.

Ascension

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Significant Accounting Policies (continued)

Performance Indicator

The performance indicator is the excess of revenues and gains over expenses and losses. Changes in unrestricted net assets that are excluded from the performance indicator primarily include pension and other postretirement liability adjustments, transfers to or from sponsors and other affiliates, net assets released from restrictions for property acquisitions, change in unconsolidated entities' net assets, discontinued operations, and contributions received of property and equipment.

Operating and Nonoperating Activities

The System's primary mission is to meet the healthcare needs in its market areas through a broad range of general and specialized healthcare services, including inpatient acute care, outpatient services, long-term care, and other healthcare services. Activities directly associated with the furtherance of this purpose are considered to be operating activities. Other activities that result in gains or losses peripheral to the System's primary mission are considered to be nonoperating. Additionally, contributions recognized in conjunction with business combination transactions are also classified as nonoperating.

Net Patient Service Revenue, Accounts Receivable, and Allowance for Doubtful Accounts

Net patient service revenue is reported at the estimated realizable amounts from patients, third-party payors, and others for services provided and includes estimated retroactive adjustments under reimbursement agreements with third-party payors. The System recognizes patient service revenue at the time services are rendered, even though the patient's ability to pay may not be completely assessed at that time. Revenue under certain third-party payor agreements is subject to audit, retroactive adjustments, and significant regulatory actions. Provisions for third-party payor settlements and adjustments are estimated in the period the related services are provided and adjusted in future periods as additional information becomes available and as final settlements are determined.

Laws and regulations governing the Medicare and Medicaid programs are complex and subject to interpretation. As a result, there is at least a possibility that recorded estimates will change by a material amount in the near term. Adjustments to revenue related to prior periods increased net patient service revenue by \$95,591 and \$55,340 for the years ended June 30, 2014 and 2013, respectively.

Ascension

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Significant Accounting Policies (continued)

The percentage of net patient service revenue, less provision for doubtful accounts earned by payor for the years ended June 30, 2014 and 2013, is as follows

	June 30,	
	2014	2013
Medicare – traditional and managed	36 %	36 %
Medicaid – traditional and managed	11	11
Commercial and other managed care	45	45
Self-Pay and other	8	8
	<u>100 %</u>	<u>100 %</u>

The System grants credit without collateral to its patients, who are primarily local residents and are insured under third-party payor arrangements. Significant concentrations of accounts receivable, less allowance for doubtful accounts, at June 30, 2014 and 2013, are as follows

	June 30,	
	2014	2013
Medicare – traditional and managed	22 %	22 %
Medicaid – traditional and managed	9	8
Commercial and other managed care	45	43
Self-Pay and other	24	27
	<u>100 %</u>	<u>100 %</u>

Ascension

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Significant Accounting Policies (continued)

The provision for doubtful accounts is based upon management's assessment of expected net collections considering economic conditions, historical experience, trends in healthcare coverage, and other collection indicators. Periodically throughout the year, management assesses the adequacy of the allowance for doubtful accounts based upon historical write-off experience by payor category, including those amounts not covered by insurance. The results of this review are then used to make any modifications to the provision for doubtful accounts to establish an appropriate allowance for doubtful accounts. After satisfaction of amounts due from insurance and reasonable efforts to collect from the patient have been exhausted, the System follows established guidelines for placing certain past-due patient balances with collection agencies, subject to the terms of certain restrictions on collection efforts as determined by the System. Accounts receivable are written off after collection efforts have been followed in accordance with the System's policies.

The methodology for determining the allowance for doubtful accounts and related write-offs on uninsured patient accounts has remained consistent with the prior year. The System has not experienced material changes in write-off trends and has not materially changed its charity care policy in the current fiscal year.

Impairment, Restructuring, and Nonrecurring Gains (Losses)

Long-lived assets are reviewed for impairment whenever events or business conditions indicate the carrying amount of such assets may not be fully recoverable. Initial assessments of recoverability are based on estimates of undiscounted future net cash flows associated with an asset or group of assets. Where impairment is indicated, the carrying amount of these long-lived assets is reduced to fair value based on future discounted net cash flows or other estimates of fair value.

Nonrecurring expenses associated with Symphony include project management and process re-engineering costs, amortization expense for those Health Ministries not yet on Symphony, as well as costs to establish a shared service center and develop a business intelligence data warehouse. Costs associated with product deployment are recorded as nonrecurring gains (losses), and costs associated with product support are recorded as recurring operating expenses.

Ascension

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Significant Accounting Policies (continued)

During the year ended June 30, 2014, the System recorded total impairment, restructuring, and nonrecurring losses, net of \$223,834. This amount was comprised primarily of \$163,293 of nonrecurring expenses associated with Symphony, one-time termination benefits and other restructuring expenses of \$26,012, impairment expenses of \$23,120, and other nonrecurring expenses of \$11,409.

During the year ended June 30, 2013, the System recorded total impairment, restructuring, and nonrecurring losses, net of \$103,344. This amount was comprised primarily of \$113,193 of nonrecurring expenses associated with Symphony, one-time termination benefits and other restructuring expenses of \$57,470, and impairment and other nonrecurring expenses of \$4,998, partially offset by pension curtailment gains of \$72,317, as discussed in the Retirement Plans note.

Amortization

Bond issuance costs, discounts, and premiums are amortized over the term of the bonds using a method approximating the effective interest method.

Capitalized software, including internally developed software, is amortized on a straight-line basis over the expected useful life of the software.

Income Taxes

The member healthcare entities of the System are primarily tax-exempt organizations under Internal Revenue Code Section 501(c)(3) or Section 501(c)(2), and their related income is exempt from federal income tax under Section 501(a). The System accounts for uncertainty in income tax positions by applying a recognition threshold and measurement attribute for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. The System has determined that no material unrecognized tax benefits or liabilities exist as of June 30, 2014.

At June 30, 2014, the System has deferred tax assets of approximately \$326,000 for federal and state income tax purposes primarily related to net operating loss carryforwards. A valuation allowance of approximately \$322,000 was recorded due to the uncertainty regarding use of the deferred tax assets.

Ascension

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Significant Accounting Policies (continued)

Regulatory Compliance

Various federal and state agencies have initiated investigations regarding reimbursement claimed by certain members of the System. The investigations are in various stages of discovery, and the ultimate resolution of these matters, including the liabilities, if any, cannot be readily determined, however, in the opinion of management, the results of the investigations will not have a material adverse impact on the consolidated financial statements of the System.

Reclassifications

Certain reclassifications were made to the 2013 accompanying consolidated financial statements to conform to the 2014 presentation.

Adoption of New Accounting Standards

In December 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-11, *Disclosures about Offsetting Assets and Liabilities*, an amendment to the accounting guidance for disclosures about offsetting assets and liabilities. In January 2013, the FASB issued ASU No. 2013-01, *Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities*. These ASUs expand the disclosure requirements in that entities will be required to disclose both gross and net information about instruments and transactions eligible for offset in the balance sheet. Ascension adopted this collective guidance on July 1, 2013, which did not have a material impact on Ascension's consolidated financial statements for the year ended June 30, 2014. See the Derivative Instruments note for disclosures about offsetting assets and liabilities for the year ended June 30, 2014.

Subsequent Events

The System evaluates the impact of subsequent events, which are events that occur after the Consolidated Balance Sheet date but before the consolidated financial statements are issued, for potential recognition in the consolidated financial statements as of the Consolidated Balance Sheet date. For the year ended June 30, 2014, the System evaluated subsequent events through September 11, 2014, representing the date on which the accompanying audited consolidated financial statements were issued.

Ascension

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

2. Significant Accounting Policies (continued)

In July 2014, the System signed two separate non-binding letters of intent to sell primarily all assets and liabilities and related operations of Ascension's operations in Kansas City, Missouri and Tucson, Arizona, as discussed in the Organizational Changes note

In August 2014, Ascension Health signed an affiliation agreement to sell primarily all of the assets, liabilities and operations associated with Ascension's operations in Niagara Falls, New York to Catholic Health System, Inc. This transaction is intended to close during calendar year 2015, after obtaining all necessary approvals

3. Organizational Changes

Business Combinations

Marian Health System

Effective April 1, 2013, Ascension Health, a subsidiary of the System, became the sole corporate member, through a non-cash business combination transaction, of three regional health systems that formerly comprised Marian Health System, Inc. (Marian Health System) Via Christi Health, Inc. (Via Christi Health), based in Wichita, Kansas, Ministry Health Care, Inc. (Ministry Health Care), based in Milwaukee, Wisconsin, and St. John Health System, Inc. (St. John Health), based in Tulsa, Oklahoma (collectively, the Marian Systems). Prior to this transaction, Marian Health System was the sole corporate member of Ministry Health Care and St. John Health, while Ascension Health and Marian Health System were the two corporate members of Via Christi Health.

Prior to April 1, 2013, the System accounted for its 50% interest in Via Christi Health under the equity method of accounting. The System's investment in Via Christi Health at March 31, 2013, was \$545,018, which was reported in the Consolidated Balance Sheet at that date in investment in unconsolidated entities. For the year ended June 30, 2013, the System's excess of revenues and gains over expenses and losses included \$34,141, representing the System's share of Via Christi Health's excess of revenues over expenses prior to the business combination transaction on April 1, 2013. The System's investment in Via Christi Health of \$545,018 at March 31, 2013, was derecognized on April 1, 2013, in conjunction with the accounting for the business combination transaction.

3. Organizational Changes (continued)

The fair values of the Marian Systems' net assets, by major type, that were recognized in the System's Consolidated Balance Sheet on April 1, 2013, were as follows. The valuation of these net assets was finalized during the year ended June 30, 2014, resulting in no material adjustments.

Net working capital	\$ 557,274
Intangible assets, including capitalized software	135,819
Property and equipment	1,950,739
Assets limited as to use	1,126,259
Investments and other long-term assets	1,125,652
Noncurrent liabilities assumed	<u>(2,144,948)</u>
Subtotal	2,750,795
Less March 31, 2013 Investment in Via Christi Health	<u>(545,018)</u>
Fair value of net assets	<u><u>\$ 2,205,777</u></u>

The fair value of net assets of \$2,205,777 in the preceding table was recognized in the Consolidated Statement of Operations and Changes in Net Assets for the year ended June 30, 2013, as a nonoperating contribution from business combinations of \$2,028,992, contributions of temporarily and permanently restricted net assets of \$44,201 and \$67,846, respectively, and contributions of noncontrolling interests of \$64,738.

For the three months ended June 30, 2013, the System recognized revenues of the Marian Systems of \$1,049,259, and an excess of revenues and gains over expenses and losses of the Marian Systems of \$56,670, of which \$55,542 was attributable to controlling interest, with the remaining attributable to noncontrolling interests. Additionally, for the three months ended June 30, 2013, the System recognized an increase in unrestricted net assets – controlling interests, excluding the excess of revenues and gains over expenses and losses of \$56,670 above, of \$53,801, an increase in unrestricted net assets – noncontrolling interests of \$823, an increase in temporarily restricted net assets of \$915, and a decrease in permanently restricted net assets of \$56.

3. Organizational Changes (continued)

The following unaudited pro forma financial information presents the combined results of operations of the System and the Marian Systems for the year ended June 30, 2013, as though the April 1, 2013 business combination transaction had occurred on July 1, 2011. This pro forma financial information is not necessarily indicative of the results of operations that would have occurred had the System and the Marian Systems constituted a single entity during this period, nor is it necessarily indicative of future operating results.

	Year Ended June 30, 2013
Total operating revenue	\$ 20,005,943
Excess of revenues and gains over expenses and losses	1,230,777
Increase in unrestricted net assets – controlling interest	1,307,542
Increase in unrestricted net assets – noncontrolling interests	879,585
Increase in temporarily restricted net assets	7,497
Increase in permanently restricted net assets	7,945

The excess of revenues and gains over expenses and losses and the increase in unrestricted net assets – controlling interest in the table above exclude the nonoperating contribution from the Marian Health System business combination of \$2,028,992 included in the Consolidated Statement of Operations and Changes in Net Assets for the year ended June 30, 2013. The pro forma excess of revenues and gains over expenses and losses above includes certain adjustments attributable to the April 1, 2013, business combination transaction.

In addition, the increases in unrestricted net assets – controlling interest, temporarily restricted net assets, and permanently restricted net assets in the table above exclude the contributions from business combinations reflected in the contributions of noncontrolling interests, and temporarily and permanently restricted net assets of \$64,738, \$44,201, and \$67,846, respectively.

3. Organizational Changes (continued)

Mercy Regional Health Center, Inc.

On February 27, 2014 (transaction date), Via Christi Health, a subsidiary of Ascension Health, became the sole corporate member of Mercy Regional Health Center, Inc (MRHC) through a membership transfer agreement with Memorial Hospital Association (MHA) Prior to the transaction date, Via Christi Health held a 50% controlling interest in MRHC, which it consolidated, with a noncontrolling interest recognized for the portion of MRHC held by MHA. On the transaction date, Via Christi Health paid cash of approximately \$7,300 to MHA in exchange for MHA's 50% interest valued at approximately \$52,530, along with contingent consideration, paid in the event of a sale or future change in control of either MRHC or Via Christi Health, or the dissolution of MRHC. As such, this contingent liability had a value of zero at June 30, 2014 and through September 11, 2014, the date of issuance of Ascension's consolidated financial statements. This transaction was accounted for as a \$45,255 increase in controlling interest and a corresponding \$52,530 decrease in noncontrolling interest in Ascension's Consolidated Statement of Operations and Changes in Net Assets for the year ended June 30, 2014.

Divestitures and Discontinued Operations

As of June 30, 2014, and through September 11, 2014, the date of issuance of Ascension's consolidated financial statements, the System is in discussions, and has signed related non-binding letters of intent, with certain third parties for the sale of primarily all assets, liabilities and operations, excluding certain non-acute care entities, associated with Ascension's operations in Kansas City, Missouri, Tucson, Arizona, and Niagara Falls, New York (entities held for sale). A noncontrolling interest in the operations in Tucson, Arizona, subsequent to the sale is expected to be retained. Completion of these proposed transactions is subject to due diligence and execution of final definitive agreements, including obtaining all necessary approvals.

3. Organizational Changes (continued)

Assets and liabilities intended to be sold are designated as assets and liabilities held for sale, and included within other assets and other liabilities, respectively, in the System's Consolidated Balance Sheets. Assets held for sale were \$431,404 and \$571,350 at June 30, 2014 and 2013, respectively, while liabilities held for sale were \$130,722 and \$142,707 at June 30, 2014 and 2013, respectively. Revenues of the entities held for sale were \$870,862 and \$862,838 for the years ended June 30, 2014 and 2013, respectively. Losses of the entities held for sale included in the Loss from discontinued operations in the Consolidated Statement of Operations and Changes in Net Assets were \$31,579 and \$74,892 for the years ended June 30, 2014 and 2013, respectively. Primarily all of the remaining loss from discontinued operations for the year ended June 30, 2014, was comprised of the write-down of assets in Tucson, Arizona, and Niagara Falls, New York, in conjunction with being classified as held for sale.

Other

In June 2014, Alexian Brothers Health System, a subsidiary of Ascension Health, signed a non-binding letter of intent to form a joint operating company with Adventist Midwest Health. Completion of this proposed transaction is subject to due diligence and execution of final definitive agreements, including obtaining all necessary approvals.

4. Pooled Investment Fund

At June 30, 2014 and 2013, a significant portion of the System's investments consists of the System's interest in the Alpha Fund, a limited liability company organized in the state of Delaware. Certain System assets continue to be held through the Ascension Legacy Portfolio, and subsequent to April 2012, the Ascension Legacy Portfolio no longer holds assets for unrelated entities. Additional System investments include those held and managed by the Health Ministries' and their consolidated foundations.

The Alpha Fund includes the investment interests of the System and other Alpha Fund members. AIM, a wholly owned subsidiary of the System, manages and serves as the manager and primary investment advisor of the Alpha Fund, overseeing the investment strategies offered to the Alpha Fund's members. AIM provides expertise in the areas of asset allocation, selection and monitoring of outside investment managers, and risk management. The Alpha Fund is consolidated in the System's financial statements.

Ascension

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

4. Pooled Investment Fund (continued)

The portion of the Alpha Fund's net assets representing interests held by entities other than the System are reflected in noncontrolling interests in the Consolidated Balance Sheets, which amount to \$1,490,082 and \$1,450,580 at June 30, 2014 and 2013, respectively

The Alpha Fund invests in a diversified portfolio of investments including alternative investments, such as real asset funds, hedge funds, private equity funds, commodity funds, and private credit funds. Collectively, these funds have liquidity terms ranging from daily to annual with notice periods ranging from 1 to 180 days. Due to redemption restrictions, investments in certain of these funds, whose fair value was \$1,312,677 at June 30, 2014, cannot currently be redeemed. However, the potential for the Alpha Fund to sell its interest in these funds in a secondary market prior to the end of the fund term does exist.

The Alpha Fund's investments in certain alternative investment funds also include contractual commitments to provide capital contributions during the investment period, which is typically five years and can extend to the end of the fund term. During these contractual periods, investment managers may require the Alpha Fund to invest in accordance with the terms of the agreement. Commitments not funded during the investment period will expire and remain unfunded. As of June 30, 2014, contractual agreements of the Alpha Fund expire between July 2014 and December 2019. The remaining unfunded capital commitments of the Alpha Fund total approximately \$1,459,000 for 95 individual funds as of June 30, 2014. Due to the uncertainty surrounding whether the contractual commitments will require funding during the contractual period, future minimum payments to meet these commitments cannot be reasonably estimated. These committed amounts are expected to be primarily satisfied by the liquidation of existing investments in the Alpha Fund.

In the normal course of operations and within established Alpha Fund guidelines, the Alpha Fund may enter into various exchange-traded and over-the-counter derivative contracts for trading purposes, including futures, option, and forward contracts as well as warrants and swaps. These instruments are used primarily to adjust the portfolio duration, restructure term structure exposure, change sector exposure, and arbitrage market inefficiencies. See the Fair Value Measurements note for a discussion of how fair value for the Alpha Fund's derivatives is determined.

Ascension

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

4. Pooled Investment Fund (continued)

At June 30, 2014 and 2013, the notional value of Alpha Fund derivatives outstanding was approximately \$2,377,000 and \$2,126,000, respectively. The fair value of Alpha Fund derivatives in an asset position was \$61,234 and \$35,404 at June 30, 2014 and 2013, respectively, while the fair value of Alpha Fund derivatives in a liability position was \$3,478 and \$84,249 at June 30, 2014 and 2013, respectively. These derivatives are included in long-term investments in the Consolidated Balance Sheets at June 30, 2014 and 2013.

The Alpha Fund also participates in a securities lending program, whereby a portion of the Alpha Fund's investments are loaned to selected established brokerage firms in return for cash and securities from the brokers as collateral for the investments loaned, usually on a short-term basis. The fair value of collateral held by the Alpha Fund associated with such lending agreements amounts to approximately \$3,000 and \$394,000 at June 30, 2014 and 2013, respectively, and is included in other current assets in the Consolidated Balance Sheets, while the liability associated with the obligation to repay such collateral is also approximately \$3,000 and \$394,000 at June 30, 2014 and 2013, respectively, and is included in other current liabilities in the Consolidated Balance Sheets. In addition, the Alpha Fund has liabilities for investments sold, not yet purchased, representing obligations of the Alpha Fund to purchase investments in the market at prevailing prices. The fair value of this Alpha Fund liability is approximately \$179,000 and \$7,000 at June 30, 2014 and 2013, respectively, and is included in other noncurrent liabilities in the Consolidated Balance Sheets.

Due from brokers and due to brokers on the Consolidated Balance Sheets at June 30, 2014 and 2013, represent the Alpha Fund's positions and amounts due from or to various brokers, primarily amounts for security transactions not yet settled, and cash held by brokers for securities sold, not yet purchased.

As of June 30, 2014 and 2013, the noncontrolling interest (see Note 2) in the Alpha Fund, representing interests held by entities other than the System, totaled \$1,490,082 and \$1,450,580, respectively.

Investment return recognized by the System for the years ended June 30, 2014 and 2013, is summarized in the following table. Total investment return includes the System's return in the Ascension Legacy Portfolio and the investment return of the Alpha Fund. System investment return represents the System's total investment return, net of the investment return earned by the noncontrolling interests of other Alpha Fund members.

6. Fair Value Measurements

The System categorizes, for disclosure purposes, assets and liabilities measured at fair value in the consolidated financial statements based upon whether the inputs used to determine their fair values are observable or unobservable. Observable inputs are inputs that are based on market data obtained from sources independent of the reporting entity. Unobservable inputs are inputs that reflect the reporting entity's own assumptions about pricing the asset or liability, based on the best information available in the circumstances.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an asset's or liability's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement of the asset or liability. The System's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

Ascension

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

6. Fair Value Measurements (continued)

The System follows the three-level fair value hierarchy to categorize these assets and liabilities recognized at fair value at each reporting period, which prioritizes the inputs used to measure such fair values. Level inputs are defined as follows:

Level 1 – Quoted prices (unadjusted) that are readily available in active markets or exchanges for identical assets or liabilities on the reporting date.

Level 2 – Inputs other than quoted market prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 pricing inputs include prices quoted for similar assets and liabilities in active markets or exchanges or prices quoted for identical or similar assets and liabilities in markets that are not active. If the asset or liability has a specified (contractual) term, a Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Significant pricing inputs that are unobservable for the asset or liability, including assets or liabilities for which there is little, if any, market activity for such asset or liability. Inputs to the determination of fair value for Level 3 assets and liabilities require management judgment and estimation.

There were no significant transfers between Levels 1 and 2 during the years ended June 30, 2014 and 2013.

As of June 30, 2014 and 2013, the assets and liabilities listed in the fair value hierarchy tables below use the following valuation techniques and inputs:

Cash and Cash Equivalents and Short-Term Investments

Cash and cash equivalents and certain short-term investments include certificates of deposit, whose fair value is based on cost plus accrued interest. Significant observable inputs include security cost, maturity, and relevant short-term interest rates. Other short-term investments designated as Level 2 investments primarily consist of commercial paper, whose fair value is based on the income approach. Significant observable inputs include security cost, maturity, credit rating, interest rate, and par value.

Ascension

6. Fair Value Measurements (continued)

Pooled Short-term Investment Fund

The pooled short-term investment fund is a short term exchange traded money market fund primarily invested in treasury securities

U.S. Government, State, Municipal, and Agency Obligations

The fair value of investments in U S government, state, municipal, and agency obligations is primarily determined using techniques consistent with the income approach. Significant observable inputs to the income approach include data points for benchmark constant maturity curves and spreads.

Corporate and Foreign Fixed Income Securities

The fair value of investments in U S and international corporate bonds, including commingled funds that invest primarily in such bonds, and foreign government bonds is primarily determined using techniques that are consistent with the market approach. Significant observable inputs include benchmark yields, reported trades, observable broker-dealer quotes, issuer spreads, and security specific characteristics, such as early redemption options.

Asset-backed Securities

The fair value of U S agency and corporate asset-backed securities is primarily determined using techniques consistent with the income approach. Significant observable inputs include prepayment speeds and spreads, benchmark yield curves, volatility measures, and quotes.

Equity Securities

The fair value of investments in U S and international equity securities is primarily determined using techniques consistent with the market and income approaches. The values for underlying investments are fair value estimates determined by external fund managers based on quoted market prices, operating results, balance sheet stability, growth, dividend, dividend yield, and other business and market sector fundamentals.

Ascension

Notes to Consolidated Financial Statements (continued) (Dollars in Thousands)

6. Fair Value Measurements (continued)

Alternative Investments and Other Investments

Alternative investments consist of private equity, hedge funds, private equity funds, commodity funds, and real estate partnerships. The fair value of private equity is primarily determined using techniques consistent with both the market and income approaches, based on the System's estimates and assumptions in the absence of observable market data. The market approach considers comparable company, comparable transaction, and company-specific information, including but not limited to restrictions on disposition, subsequent purchases of the same or similar securities by other investors, pending mergers or acquisitions, and current financial position and operating results. The income approach considers the projected operating performance of the portfolio company.

The fair value of hedge funds, private equity funds, commodity funds, and real estate partnerships is primarily determined using net asset values, which approximate fair value, as determined by an external fund manager based on quoted market prices, operating results, balance sheet stability, growth, and other business and market sector fundamentals.

Other investments include derivative assets and derivative liabilities of the Alpha Fund, whose fair value is primarily determined using techniques consistent with the market approach. Significant observable inputs to valuation models include interest rates, Treasury yields, volatilities, credit spreads, maturity, and recovery rates.

Securities Lending Collateral

The fair value of collateral received under the Alpha Fund's securities lending program is valued using the calculated net asset value for the commingled fund in which the collateral is invested. The underlying investments in the commingled fund are valued using techniques consistent with the market approach, which uses significant observable market inputs such as available trade, quotes, benchmark curves, sector groupings, and matrix pricing.

Ascension

6. Fair Value Measurements (continued)

Benefit Plan Assets

The fair value of benefit plan assets is based on original investment into a guaranteed pooled fund, plus guaranteed, annuity contract-based interest rates. Significant unobservable inputs to the guaranteed rate include the fair value and average duration of the portfolio of investments underlying annuity contract, the contract value, and the annualized weighted-average yield to maturity of the underlying investment portfolio.

Interest Rate Swap Assets and Liabilities

The fair value of interest rate swaps is primarily determined using techniques consistent with the market approach. Significant observable inputs to valuation models include interest rates, Treasury yields, volatilities, credit spreads, maturity, and recovery rates.

Investments Sold, Not Yet Purchased

The fair value of investments sold, not yet purchased is primarily determined using techniques consistent with the income approach. Significant observable inputs to the income approach include data points for benchmark, constant maturity curves, and spreads.

7. Long-Term Debt (continued)

The carrying amounts of variable rate bonds and other notes payable approximate fair value. The fair values of the unsecured fixed rate serial and term bonds are obtained from independent public valuation services. The fair value of fixed rate serial and term bonds, including the component of variable rate demand bonds subject to long-term fixed interest rates, approximates carrying value at June 30, 2014 and 2013. During the years ended June 30, 2014 and 2013, interest paid was approximately \$223,000 and \$170,000, respectively. Capitalized interest was approximately \$5,500 and \$5,400 for the years ended June 30, 2014 and 2013, respectively.

Certain members of the System formed the Ascension Health Alliance Credit Group (Senior Credit Group). Each Senior Credit Group member is identified as either a senior obligated group member, a senior designated affiliate, or a senior limited designated affiliate. Senior obligated group members are jointly and severally liable under a Senior Master Trust Indenture (Senior MTI) to make all payments required with respect to obligations under the Senior MTI and may be entities not controlled directly or indirectly by the System. Senior designated affiliates and senior limited designated affiliates are not obligated to make debt service payments on the obligations under the Senior MTI. The System may cause each senior designated affiliate to transfer such amounts as are necessary to enable the obligated group to comply with the terms of the Senior MTI, including payment of the outstanding obligations. Additionally, each senior limited designated affiliate has an independent limited designated affiliate agreement and promissory note with the System with stipulated repayment terms and conditions, each subject to the governing law of the senior limited designated affiliate's state of incorporation.

Pursuant to a Supplemental Master Indenture dated February 1, 2005, senior obligated group members, which are operating entities, have pledged and assigned to the Master Trustee a security interest in all of their rights, title, and interest in their pledged revenues and proceeds thereof.

A Subordinate Credit Group, which is comprised of subordinate obligated group members, subordinate designated affiliates, and subordinate limited designated affiliates, was created under the Subordinate Master Trust Indenture (Subordinate MTI). The subordinate obligated group members are jointly and severally liable under the Subordinate MTI to make all payments required with respect to obligations under the Subordinate MTI and may be entities not controlled directly or indirectly by the System. Subordinate designated affiliates and subordinate limited designated affiliates are not obligated to make debt service payments on the obligations under the Subordinate MTI. The System may cause each subordinate designated affiliate to

transfer such amounts as are necessary to enable the obligated group members to comply with the terms of the Subordinate MTI, including payment of the outstanding obligations. Additionally, each subordinate limited designated affiliate has an independent subordinate limited designated affiliate agreement and promissory note with the System, with stipulated repayment terms and conditions, each subject to the governing law of the subordinate limited designated affiliate's state of incorporation.

The unsecured variable rate demand bonds of both the Senior and Subordinate Credit Groups, while subject to long-term amortization periods, may be put to the System at the option of the bondholders in connection with certain remarketing dates. To the extent that bondholders may, under the terms of the debt, put their bonds within 12 months after June 30, 2014, the principal amount of such bonds has been classified as a current liability in the accompanying Consolidated Balance Sheets. Management believes the likelihood of a material amount of bonds being put to the System to be remote. However, to address this possibility, management has taken steps to provide various sources of liquidity in the event any bonds would be put, including the line of credit, commercial paper program, and maintaining unrestricted assets as a source of self-liquidity.

On January 1, 2012, Alexian Brothers became part of the System. Subsequently, the System redeemed or refinanced a portion of Alexian Brothers' debt, however, a portion of the bonds previously issued for the benefit of Alexian Brothers remains outstanding (the Alexian Brothers' Bonds). The Alexian Brothers' Bonds continue to be secured by the Alexian Brothers Health System Master Trust Indenture (As Amended and Restated), dated October 1, 1992, between the Members of the Alexian Brothers Health System Obligated Group established under this document and the Alexian Brothers Health System Master Trustee.

On April 1, 2013, Marian Health System joined Ascension Health. Subsequently, the System redeemed or refinanced a portion of the debt of the Marian Systems, however, a portion of the bonds previously issued for the benefit of the Marian Systems remains outstanding. These bonds continue to be secured by the respective Master Trust Indentures, including the Amended and Restated Master Trust Indenture dated October 1, 1999, by and between St. John Health System and the St. John Health Master Trustee, the Master Trust Indenture dated October 1, 1984, by and between Ministry Health Care and the Ministry Health Care Master Trustee, the Master Trust Indenture dated August 15, 1993, between The Howard Young Medical Center, Inc., a subsidiary of Ministry Health Care, and The Howard Young Medical Center, Inc. Trustee, and the Master Trust Indenture dated January 15, 2013, between Mercy Regional Health Center, Inc (a subsidiary of Via Christi Health) and the Mercy Regional Health Center, Inc Master Trustee

In June 2013, the System issued a total of \$521,865 of tax-exempt bonds, Series 2013A and 2013B, through the Wisconsin issuing authority In June 2013, the System also issued a total of \$425,000 of taxable bonds, Series 2013A The proceeds of the bonds, including original issue premium, were used to refinance debt and general corporate purposes

Due to aggregate financing activity during the fiscal years ended June 30, 2014 and 2013, losses on extinguishment of debt of \$1,605 and \$4,079, respectively, were recorded, which are included in nonoperating gains (losses) in the accompanying Consolidated Statements of Operations and Changes in Net Assets

The System is a party to multiple interest rate swap agreements that convert the variable or fixed rates of certain debt issues to fixed or variable rates, respectively See the Derivative Instruments note for a discussion of these derivatives

As of June 30, 2014, the Senior Credit Group has a line of credit of \$1,000,000 which may be used as a source of funding for unremarketed variable debt (including commercial paper) or for general corporate purposes, towards which bank commitments totaling \$1,000,000 extend to November 9, 2014 As of June 30, 2014 and 2013, there were no borrowings under the line of credit

As of June 30, 2014, the Senior Credit Group has a \$75,000 revolving line of credit related to its letters of credit program toward which a bank commitment of \$75,000 extends to November 26, 2014 The revolving line of credit may be accessed solely in the form of Letters of Credit issued by the bank for the benefit of the members of the Credit Groups Of this \$75,000 revolving line of credit, letters of credit totaling \$57,455 have been issued as of June 30, 2014 No borrowings were outstanding under the letters of credit as of June 30, 2014 and 2013

8. Derivative Instruments

The System uses interest rate swap agreements to manage interest rate risk associated with its outstanding debt. Interest rate swaps with varying characteristics are outstanding under the Master Trust Indentures of the System, Alexian Brothers, Ministry Health Care, and St. John Health. These swaps have historically been used to effectively convert interest rates on variable rate bonds to fixed rates and rates on fixed rate bonds to variable rates. At June 30, 2014 and 2013, the notional values of outstanding interest rate swaps were as follows:

	June 30,	
	2014	2013
Ascension Health Alliance MTI	\$ 2,128,757	\$ 2,128,757
Alexian Brothers Health System MTI	39,220	47,220
Ministry Health Care MTI	192,950	270,880
St. John Health System MTI	100,000	125,000
Total	<u>\$ 2,460,927</u>	<u>\$ 2,571,857</u>

The System recognizes the fair value of its interest rate swaps in the Consolidated Balance Sheets as assets, recorded in other noncurrent assets, or liabilities, recorded in other noncurrent liabilities, as appropriate. The respective fair values of interest rate swaps in an asset and liability position for the System, Alexian Brothers, Ministry Health Care and St. John Health were as follows:

	June 30, 2014		June 30, 2013	
	Asset	Liability	Asset	Liability
Ascension Health Alliance MTI	\$ 66,981	\$ 169,031	\$ 73,846	\$ 174,413

8. Derivative Instruments (continued)

The System's interest rate swap agreements include collateral requirements for each counterparty under such agreements, based upon specific contractual criteria, subject to master netting arrangements. Collateral requirements are separately calculated for the System, Alexian Brothers, Ministry Health Care, and St. John Health based on the credit ratings of each. In the case of the System, the applicable credit rating is the Senior Credit Group long-term debt credit ratings (Senior Debt Credit Ratings), as obtained from each of two major credit rating agencies. Credit rating and the net liability position of total interest rate swap agreements outstanding with each counterparty determine the amount of collateral to be posted. Collateral and net fair value of interest rate swap agreements with credit-risk-related contingent features at June 30, 2014 and 2013, based upon the respective net liability positions and applicable credit ratings were as follows:

	June 30, 2014		June 30, 2013	
	Net Fair Value	Collateral Posted	Net Fair Value	Collateral Posted
Ascension Health Alliance MTI	\$ (102,050)	\$ —	\$ (100,567)	\$ —
Alexian Brothers Health System MTI	(1,934)	—	(2,685)	—
Ministry Health Care MTI	(15,036)	16,218	(13,688)	23,024
St. John Health System MTI	(756)	—	(956)	—
Total	<u>\$ (119,776)</u>	<u>\$ 16,218</u>	<u>\$ (117,896)</u>	<u>\$ 23,024</u>

Prior to July 1, 2006, the System designated certain of its interest rate swaps as cash flow hedges, for accounting purposes, and accordingly deferred gains or losses associated with those swaps in net assets. As of June 30, 2014, the deferred net gain associated with these interest rate swaps was \$4,054. The portion of this gain that will be reclassified into nonoperating gains (losses) over the next 12 months is immaterial.

Beginning July 1, 2006, the System's previously designated cash flow hedging relationships were de-designated for accounting purposes. Accordingly, all changes in the fair value of interest rate swaps have been recognized in nonoperating gains (losses) in the accompanying Consolidated Statements of Operations and Changes in Net Assets. A net nonoperating gain of \$1,752 was recognized for the year ended June 30, 2014, while a net nonoperating loss of \$61,651 was recognized for the year ended June 30, 2013.

9. Retirement Plans

Defined-Benefit Plans

Certain System entities participate in defined-benefit pension plans (the System Plans), which are noncontributory, defined-benefit pension plans covering substantially all eligible employees of certain System entities. Benefits are based on each participant's years of service and compensation. All of the System Plans' assets are invested in Trusts, which include the Master Pension Trust (the Trust) and other trusts (the Other Trusts). The System Plans' assets primarily consist of cash and cash equivalents, equity, fixed income funds, and alternative investments, consisting of various hedge funds, real estate funds, private equity funds, commodity funds, private credit funds, and certain other private funds. Contributions to the System Plans are based on actuarially determined amounts sufficient to meet the benefits to be paid to participants.

During previous fiscal years, the System approved and communicated to employees a redesign of associate retirement benefits, which affects certain System Plans, as well as provides an enhanced comprehensive defined contribution plan. This redesign resulted in the recognition of a curtailment gain of \$73,198, for the year ended June 30, 2013, which was recognized in total impairment, restructuring, and nonrecurring losses, net for the year ended June 30, 2013. This redesign resulted in a decrease to the projected benefit obligation and is included in pension and other postretirement liabilities in the Consolidated Balance Sheets.

The assets of the System Plans are available to pay the benefits of eligible employees and retirees of all participating entities. In the event entities participating in the System Plans are unable to fulfill their financial obligations under the System Plans, the other participating entities are obligated to do so.

The prior service credit and actuarial gain included in unrestricted net assets and expected to be recognized in net periodic pension cost during the year ending June 30, 2015, are \$4,000 and \$24,955, respectively

The assumptions used to determine the benefit obligation and net periodic benefit cost for the System Plans are set forth below

	June 30,	
	2014	2013
Weighted-average discount rate	4.35%	4.88%
Weighted-average rate of compensation increase	3.81%	3.81%
Weighted-average expected long-term rate of return on plan assets	8.30%	8.30%

The System Plans' assets invested in the Trust are invested in a portfolio designed to protect principal and obtain competitive investment returns and long-term investment growth, consistent with actuarial assumptions, with a reasonable and prudent level of risk. Diversification is achieved by allocating to funds and managers that correlate to one of three economic strategies: growth, deflation, and inflation. Growth strategies include U.S. equity, emerging market equity, global equity, international equity, directional hedge funds, private equity, high yield, and private credit. Deflation strategies include core fixed income, absolute return hedge funds, and cash. Inflation strategies include inflation-linked bonds, commodity-related investments, and real assets. The System Plans use multiple investment managers with complementary styles, philosophies, and approaches. In accordance with the System Plans' objectives, derivatives may also be used to gain market exposure in an efficient and timely manner.

9. Retirement Plans (continued)

In accordance with the System Plans' asset diversification targets, as presented in the table that follows, the Trust holds certain alternative investments, consisting of various hedge funds, real asset funds, private equity funds, commodity funds, private credit funds, and certain other private funds. These investments do not have observable market values. As such, each of these investments is valued at net asset value as determined by each fund's investment manager, which approximates fair value. The fair value of the System Plans' alternative investments in the Trust as of June 30, 2014, is reported in the fair value measurement table that follows. Collectively, these funds have liquidity terms ranging from daily to annual with notice periods ranging from 1 to 180 days. Due to redemption restrictions, investments of certain private funds, whose fair value was approximately \$1,313,000 at June 30, 2014, cannot be redeemed. However, the potential for the System Plans to sell their interest in real asset funds and private equity funds in a secondary market prior to the end of the fund term does exist.

The investments in these alternative investment funds may also include contractual commitments to provide capital contributions during the investment period, which is typically five years, and may extend to the end of the fund term. During these contractual periods, investment managers may require the System Plans to invest in accordance with the terms of the agreement. Commitments not funded during the investment period will expire and remain unfunded. As of June 30, 2014, investment periods expire between July 2014 and March 2018. The remaining unfunded capital commitments of the Trust total approximately \$416,000 for 62 individual contracts as of June 30, 2014.

The weighted-average asset allocation for the System Plans in the Trust at the end of fiscal 2014 and 2013 and the target allocation for fiscal 2015, by asset category, are as follows:

Asset Category	Target Allocation	Percentage of Plan Assets At Year-End	
	2015	2014	2013
Growth	50%	53%	52%
Deflation	30	29	29

The following tables summarize fair value measurements at June 30, 2014 and 2013, by asset class and by level, for the System Plans' assets and liabilities. As also discussed in the Fair Value Measurements note, the System follows the three-level fair value hierarchy to categorize plan assets and liabilities recognized at fair value, which prioritizes the inputs used to measure such fair values. The inputs and valuation techniques discussed in the Fair Value Measurements note also apply to the System Plans' assets and liabilities as presented in the following tables.

9. Retirement Plans (continued)

The Trust has entered into a series of interest rate swap agreements with a net notional amount of \$2,958,450. The combined targeted duration of these swaps and the Trust's fixed income investments approximates the duration of the liabilities of the Trust. Currently, 75% of the dollar duration of the liability is subject to this economic hedge. The purpose of this strategy is to economically hedge the change in the net funded status for a significant portion of the liability that can occur due to changes in interest rates.

The expected long-term rate of return on the System Plans' assets is based on historical and projected rates of return for current and planned asset categories in the investment portfolio. Assumed projected rates of return for each asset category were selected after analyzing historical experience and future expectations of the returns and volatility for assets of that category using benchmark rates. Based on the target asset allocation among the asset categories, the overall expected rate of return for the portfolio was developed and adjusted for historical and expected experience of active portfolio management results compared to benchmark returns and for the effect of expenses paid from plan assets.

Information about the expected cash flows for the System Plans follows:

Expected employer contributions 2015	\$ 41,714
Expected benefit payments	
2015	502,046
2016	478,701

2019	506,546
2020-2024	2,499,041

The contribution amount above includes amounts paid to Trusts. The benefit payment amounts above reflect the total benefits expected to be paid from Trusts.

Other Postretirement Benefit Plans

In addition to the retirement plan described above, certain Health Ministries sponsor postretirement benefit plans that provide healthcare benefits to qualified retirees who meet certain eligibility requirements. The total benefit obligation of these plans at June 30, 2014 and 2013, is \$44,473 and \$45,308, respectively. The net asset included in pension and other postretirement liabilities in the accompanying Consolidated Balance Sheets at June 30, 2014, is \$756, while the net obligation included in pension and other postretirement liabilities in the accompanying Consolidated Balance Sheets at June 30, 2013, is \$6,624. The change in the plans' assets and benefit obligations recognized in unrestricted net assets during the year ended June 30, 2014, was a decrease of \$1,471.

Defined-Contribution Plans

System entities participate in contributory and noncontributory defined-contribution plans covering all eligible associates. There are three primary types of contributions to these plans: employer automatic contributions, employee contributions, and employer matching contributions. Benefits for employer automatic contributions are determined as a percentage of a participant's salary and, for certain entities, increases over specified periods of employee service. These benefits are funded annually, and participants become fully vested over a period of time. Benefits for employer matching contributions are determined as a percentage of an eligible participant's contributions each payroll period. These benefits are funded each payroll period, and participants become fully vested in these employer contributions immediately. Expenses for the defined-contribution plans were \$280,223 and \$193,856 during 2014 and 2013, respectively.

10. Self-Insurance Programs

Certain System hospitals and other entities participate in pooled risk programs to insure professional and general liability risks and workers' compensation risks to the extent of certain self-insured limits. In addition, various umbrella insurance policies have been purchased to provide coverage in excess of the self-insured limits. The System provides its self-insurance through various trust funds and captive insurance companies. Actuarially determined amounts, discounted at 6% for the System, are contributed to the trust funds and the captive insurance companies to provide for the estimated cost of claims. The loss reserves recorded for estimated self-insured professional, general liability, and workers' compensation claims include estimates of the ultimate costs for both reported claims and claims incurred but not reported, which are discounted at 6% in 2014 and 2013 for the System. Those entities not participating in the self-insured programs are insured under separate policies.

Professional and General Liability Programs

Professional and general liability coverage is provided on a claims-made or occurrence basis through a wholly owned onshore trust and through AHIL.

The wholly owned onshore trust has a self-insured retention of \$10,000 per occurrence with no aggregate. Excess coverage is provided through AHIL with limits up to \$205,000. AHIL retains \$5,000 per occurrence and \$5,000 annual aggregate for professional liability. AHIL also retains a 20% quota share of the first \$25,000 of umbrella excess. The remaining excess coverage is reinsured by commercial carriers.

Sunflower Assurance, Inc. (Sunflower) was acquired when Marian Health System joined the System. Sunflower provided excess coverage with limits up to \$75,000 above the primary coverage for Via Christi Health and retained 10% of the first reinsurance layer of \$10,000 on a quota share basis. The remaining excess coverage was reinsured by commercial carriers. As of October 1, 2013, Via Christi's primary and excess medical professional and general liability and employed physician programs were integrated into the System trust and AHIL. After January 1, 2014, the employer stop loss and employee life insurance coverage provided by Sunflower to Via Christi were not renewed and are in run off.

10. Self-Insurance Programs (continued)

Self-insured entities in the states of Indiana, Kansas, Pennsylvania, and Wisconsin are provided professional liability coverage with limits in compliance with participation in the Patient Compensation Funds. The Patient Compensation Funds apply to claims in excess of the primary self-insured limit, except the Fund in Kansas, which only covers claims up to the first \$1,000 and then the trust and AHIL cover amounts above \$1,000.

Included in operating expenses in the accompanying Consolidated Statements of Operations and Changes in Net Assets is professional and general liability expense of \$99,568 and \$68,437 for the years ended June 30, 2014 and 2013, respectively. Included in current and long-term self-insurance liabilities on the accompanying Consolidated Balance Sheets are professional and general liability loss reserves of \$604,846 and \$614,913 at June 30, 2014 and 2013, respectively.

AHIL also offers physician professional liability coverage through insurance or reinsurance arrangements to nonemployed physicians practicing at the System's various facilities, primarily in Michigan, Indiana, Texas, Florida and Illinois. Coverage is offered to physicians with limits ranging from \$100 per claim to \$1,000 per claim with various aggregate limits. Beginning October 1, 2013, AHIL offered similar coverage to employed physicians from Marian Health System in Kansas and Wisconsin.

Edessa Insurance Company Ltd (Edessa) was acquired as part of the Alexian Brothers business combination effective January 1, 2012. Effective July 1, 2012, the self-insurance programs of Edessa were consolidated into AHIL, and Edessa ceased operations.

10. Self-Insurance Programs (continued)

Workers' Compensation

Workers' compensation coverage is provided on an occurrence basis through a grantor trust. The self-insured trust provides coverage up to \$1,500 per occurrence with no aggregate. The trust provides a mechanism for funding the workers' compensation obligations of its members. Prior to October 1, 2013, workers' compensation coverage for Marian Health System was self-insured or commercially insured up to various limits and excess insurance against catastrophic loss was obtained through commercial insurers. As of October 1, 2013, the Marian Systems are provided coverage under the self-insured trust. Premium payments made to the trust are expensed and represent claims reported and claims incurred but not reported.

Included in operating expenses in the accompanying Consolidated Statements of Operations and Changes in Net Assets is workers' compensation expense of \$42,052 and \$41,699 for the years ended June 30, 2014 and 2013, respectively. Included in current and long-term self-insurance liabilities on the accompanying Consolidated Balance Sheets are workers' compensation loss reserves of \$114,237 and \$137,825 at June 30, 2014 and 2013, respectively.

Rental expense under operating leases amounted to \$391,928 and \$347,087 in 2014 and 2013, respectively.

12. Contingencies and Commitments

The System is involved in litigation and regulatory investigations arising in the ordinary course of business. Regulatory investigations also occur from time to time. In the opinion of management, after consultation with legal counsel, these matters are expected to be resolved without material adverse effect on the System's Consolidated Balance Sheet.

In March 2013, the System and some of its subsidiaries were named as defendants to litigation surrounding the Church Plan status of its System Plans. On May 9, 2014, the United States District Court, Eastern District of Michigan, Southern Division, issued its Decision and Order Granting Defendants' Motion to Dismiss, which effectively dismissed the case against the System. On June 11, 2014, the plaintiff in the case filed a Notice of Appeal, and the appeal is pending. Regardless of the outcome of such appeal, the System does not believe that this matter will have a material adverse effect on the System's financial position or results of operations.

12. Contingencies and Commitments (continued)

In September 2010, Ascension Health received a letter from the U S Department of Justice (the DOJ) in connection with its nationwide review to determine whether, in certain cases, implantable cardioverter defibrillators (ICD) were provided to certain Medicare beneficiaries in accordance with national coverage criteria. In connection with this nationwide review, identified System hospitals are reviewing applicable medical records and responding to the DOJ. The DOJ's investigation spans a time frame beginning in 2003 and extending through the present time. To date, four System hospitals have entered into settlements with the DOJ and the System is having settlement discussions with the DOJ regarding two other System hospitals subject to the ICD investigation.

The System enters into agreements with non-employed physicians that include minimum revenue guarantees. The terms of the guarantees vary. The carrying amounts of the liability for the System's obligation under these guarantees were \$37,623 and \$44,553 at June 30, 2014 and 2013, respectively, and are included in other current and noncurrent liabilities in the accompanying Consolidated Balance Sheets. The maximum amount of future payments that the System could be required to make under these guarantees is approximately \$95,700.

The System entered into agreements with sponsors for support through January 2017. The System's obligation under these agreements totals \$31,000 at June 30, 2014, and is included in other current and noncurrent liabilities in the accompanying Consolidated Balance Sheet.

The System entered into Master Service Agreements for information technology services provided by third parties. The maximum amount of future payments that the System could be required to make under these agreements is approximately \$190,700.

Guarantees and other commitments represent contingent commitments issued by Ascension Health Alliance Senior and Subordinate Credit Groups, generally to guarantee the performance of an affiliate to a third party in borrowing arrangements such as commercial paper issuances, bond financing, and other transactions. The terms of guarantees are equal to the terms of the related debt, which can be as long as 26 years. The following represents the remaining guarantees and other commitments of the Senior and Subordinate Credit Groups at June 30, 2014.

Hospital de la Concepción 2000 Series A debt guarantee	\$ 29,240

IMPLEMENTATION STRATEGY FISCAL YEARS 2014-2016

Implementation Plan Overview

St.Vincent Indianapolis Campus, which includes St.Vincent Indianapolis Hospital, Peyton Manning Children's Hospital at St.Vincent, St.Vincent Women's Hospital and St.Vincent Stress Center, has a total of 857 beds combined. The campus is located in Central Indiana in the city of Indianapolis and serves Marion and surrounding counties. This can only be accomplished by partnering broadly with others within the community to address key community health issues. A critical step in this process is to identify priority needs through a Community Health Needs Assessment (CHNA) and subsequently, develop an implementation strategy to address these identified priority needs. Based on the most recent CHNA, the following report summarizes prioritized health needs and strategies to be addressed by the hospital over the next three years.

The St.Vincent Indianapolis CHNA report is available to view and download at www.stvincent.org/chna.

How the Implementation Strategy was Developed

The St.Vincent Indianapolis Hospital CHNA Committee was created to oversee the CHNA process and develop the implementation strategy. The CHNA committee reviewed qualitative and quantitative data to identify community health needs. Next, the identified health needs were prioritized based on the following criteria: highest rates and percentages, current community benefit programs and services, resources available, and the potential for the largest impact in the next three years. Lastly, the CHNA Committee developed strategies and action plans to address the priorities.

Health Needs Identified in Priority Order

St.Vincent Indianapolis Action Plans:

1. Obesity (Nutrition and Exercise)

Educate and promote the importance of proper nutrition and physical activity to the community

- St.Vincent staff will offer three one-hour educational presentations regarding healthy food choices and/or fitness at the Crooked Creek Farmer's Market
- St.Vincent staff will be informed of volunteer opportunities available at Crooked Creek Farmer's Market via weekly reminders, from May-October, in the online newsletter sent to the St.Vincent Indianapolis system
- As a partnership with Pike Township Schools and as part of their award of a PEP Grant, Peyton Manning Children's Hospital will coordinate a week-long summer camp geared to students in grades 3-5 for 2012, 2013 and 2014
- To better serve our Spanish-speaking population, the L.I.F.E (Lifetime Individual Fitness & Eating) program will develop a healthy cookbook in Spanish featuring traditional Hispanic dishes
- Provide at least 30 educational presentations regarding nutrition and 30 educational presentations a year regarding physical activity to youth, K-12

2. Access to Health Care

Coordinate access for vulnerable community members through the Outreach Workers

- Each of the three outreach workers will complete at least 55 applications for assistance a month
- Each of the three outreach workers will make at least 10 outreach efforts a month by visiting community centers, such as shelters, unemployment offices, and LaPlaza (resource center for Hispanic community)

3. Behavioral Health

Educate law makers and professionals about behavioral health issues and resources

- Representative(s) from St.Vincent Stress Center will meet with at least five district representatives in the State House and Senate to discuss behavioral health issues

4. Cancer Care (lung, breast and colon)

Provide cancer screenings, referrals, education and support to under/uninsured individuals

- A BCCP (Breast and Cervical Cancer Program) will be established at our flagship hospital to support the financial needs of our underserved, high-risk populations and ensure the completion of appropriate screenings and recommended follow-ups for detected breast cancers
- At least five colon cancer educational presentations will be offered each fiscal year to underserved, high-risk and/or elderly populations related to the prevention and early detection of colon cancer. Promotional efforts will be made at locations such as the United Soccer Alliance of Indiana, which includes a large Hispanic population and large African American church communities within Central Indiana
- At least five free fecal blood screening events will be offered each fiscal year to underserved, high-risk and/or elderly populations in Central Indiana related to the prevention and early detection of colon cancer
- Train at least one existing associate to become a tobacco cessation counselor each year for a total of 11 counselors on staff
- Increase the number of participants completing the program during a three-year time frame by 5 percent or a total of 126 individuals

In addition to these priorities, St.Vincent Indianapolis will continue to meet community needs by providing traditional charity care, accepting Medicaid and other public programs, and offering services/programs for the poor and broader community.

Health Needs Identified That Will Not Be Addressed Directly by St.Vincent Indianapolis

The hospital is committed to improving community health by directly, and indirectly, addressing identified health needs. However, certain factors impact the hospital's ability to fully address all identified community health needs. The needs listed below are not included in the hospital's Implementation Strategy for the following reasons.

5. **Poverty Rate** – This identified health need is not being addressed directly because it is outside the scope of the hospital's core mission. However, the hospital does provide supplemental funding to local organizations, including Horizon House, Holy Family Shelter, Project Health, and Glick Neighborhood Center, which are actively addressing this issue.

ST.VINCENT INDIANAPOLIS HOSPITAL IMPLEMENTATION STRATEGY

6. **Air Quality** – This identified health need is not being addressed directly because it is outside the scope of the hospital's core mission.
7. **Lack of Infrastructure That Encourages or Allows Walking** – This identified health need is not being addressed directly because it is outside the scope of the hospital's core mission. However, the hospital has a strong partnership with the Crooked Creek CDC, which focuses on community and housing issues in the St. Vincent Indianapolis campus neighborhood.

This Implementation Strategy was approved by the St.Vincent Indianapolis Hospital Board on June 12, 2013.
