In instances where prices of securities are not readily available, securities have no values. Securities may not have been actively traded or where other factors prevent the pricing of securities. The market price column, the market value for the security is not computed and the total equity in your account does not reflect the long or short market value (if any) of those securities. Please also note that totals may differ from the sum on individual components due to rounding. Unrealized gain/loss total reflects all positions for which a cost basis is available.
